It will be many days before this community recovers from the shock caused by the death of the principal of our schools, who was one of the town's own favorite sons and one whose successful career at home makes a contradiction to the old adage that a prophet hath no honor in his own country. Geo B Bell was born in Paisley, the second son of Mr and Mrs David Bell, received his primary education in the public school, also took the continuation school course here, and completed his training for the teaching profession by attendance at the Owen Sound Collegiate Institute and the School of Pedagogy at Hamilton. His first experience in imparting knowledge was as teacher in the rural school at Mt Hope, Arran Tp., where he served two years. Later, just as he had finished the exams at the School of Pedagogy, he was secured as substitute for one of our public school staff for a month. Immediately thereafter he was engaged as assistant on the continuation staff, and eventually became principal. At all times Mr Bell devoted himself most assiduously to the duties of his position, and with such success as to maintain a most enviable record for the school in the examinations by which his classes were tested before the educational tribunal. Mr Bell presided at examination centres each midsummer and was selected as one of the examiners of departmental papers at Toronto. Having the ambition to advance still further in professional life, Mr Bell took up home study for the Arts course, and in 1913 he went to Queen's University to study law, but was there only a few weeks when his health failed and he was compelled to lay that ambition aside and take a rest. By the time his health was again restored to its normal state, Mr Bell was again offered the principalship and accepted. With unflagging zeal he maintained the standard of work in the school, until he was suddenly prostrated with illness and virtually died in harness, as he lived only five days after being hurriedly driven home from the schoolroom. He had fought along bravely during months past, with the clear knowledge that his life was menaced by an incurable disease, and at most its ravages could only be stayed for a short time. The character of the disease he had made himself quite familiar with by reading up medical treatises thereon. It is not on the field of battle only that men exhibit intrepid coolness in confronting an inevitable fate. The manner in which the subject of this sketch pursued the even tenor of his way from week to week under such conditions shows that peace has its struggles and victories. In the social life of Paisley Mr Bell took an active part when leisure and health permitted. In recreative exercises he enjoyed fishing and bowling on the green, and was the holder of several trophies won at tournaments. He was a member of the Masonic Order, and filled the office of secretary of Aldworth Lodge for some years. The funeral on Thursday was very largely attended, and the procession was the most imposing seen in Paisley within a generation, the Masonic brethren in regalia, continuation school boys and the local contingent of soldiers marching from house to cemetery. The service at the house was conducted by Rev Mr Little of Knox church, assisted by Rev Mr Neilson of the Baptist church. At the graveside the Masons took charge and performed the last sad rites of burial. The floral tributes placed upon the casket by the pupils and school section, the Masons and friends were most beautiful and rich. The deceased is survived by his parents, also three brothers and two sisters—Charles, of Niagara Falls, N Y; Harvey and Percy, of Calgary; Mrs Wilson, of Toronto, and Hilda at home, who have the sincere sympathy of all in the great bereavement they have sustained.

Misery in Back, Headache and Pain in Limbs.

Dear Mr. Editor—For more than a year I suffered with misery in the back, dull headache, pain in the limbs, was somewhat constipated and slept poorly at night until I was about ready to collapse. Seeing an account of the wonderful qualities of "Anuric," prepared by Doctor Pierce, of Buffalo, N. Y., I sent for a box, and before using the whole box I felt and still feel improved. My sleep is refreshing, misery reduced, and life is not the drag it was before. I most cheerfully recommend this remedy to sufferers from like ailments.

Yours truly, W. A. ROBERTS.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists of Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anuric" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Dr. Pierce has finally decided to put it into the drug stores of this country within immediate reach of all sufferers.

I know of one or two leading druggists in town who have managed to procure a supply of "Anuric" for their anxious customers in and around this locality. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

EDITOR—Please insert this letter in some conspicuous place in your paper.

A THOUGHTFUL GIFT

Send THE ADVOCATE to the absent member of the family or to the distant friend. It is as good as a letter from home and is a weekly visitor. You can better imagine how the home paper is appreciated when you are absent yourself and a copy is forwarded to you.

—In discussing rural schools and the question of country boys and girls leaving the farms, the Bowmanville Statesman presents the subject as follows: "The chief trouble now is that after a few terms away from home at high school, the lure of the town and city gets the grip on the country boys and girls, and they cannot settle down contentedly on the farm again. They get into the way of wearing good clothes and always being dressed up. Many young fellows would rather wear a white or other laundried shirt and polished shoes and work in stores and offices at six to ten dollars a week and call it salary, than put on a suit of blue jeans and work on a farm for the same amount and call it wages. If the subject of agriculture were taught in a practical way in the rural schools, and the boys and girls continue to attend school at home, as they did forty and fifty years ago, till they receive a real good practical education adequate for the ordinary pursuits of life, the farm youth would not crowd the city streets as they are doing."

Rimless Glasses

Are Fashionable

Not invisible but nearly so.
They can be made up with either solid gold, gold filled (warranted 10 years), or nickel trimmings.
They are not expensive.
We adjust them so that they are perfectly adapted to the features.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

"Granny" Chamberlain

Bronchitis

"There is no disease that should cause more anxiety in the home than Bronchitis, for if neglected in the earlier stages it often becomes chronic and may even prove fatal.

Chamberlain's Cough Remedy is the medicine for this disease, and if given in regular doses will relieve the cough, ease the pain, remove the difficulty in breathing and produce a free and easy expectoration, thus reducing the inflammation.

Old people, and those who have weak lungs cannot be too careful in guarding against this disease.

Chamberlain's Cough Remedy

strengthens the throat and lungs and makes them less susceptible to changes of the atmosphere. In fact, the use of Chamberlain's Cough Remedy will prevent an attack of Bronchitis becoming chronic."

Yours for Health.—Granny Chamberlain

Co-operative Experiments in Weed Eradication, 1916

During the past four years the Ontario Agricultural and Experimental Union have carried on co-operative experiments in the eradication of weeds. Some fifty-eight farmers have taken part in these experiments and some very interesting and valuable results have been obtained. The weeds experimented with were perennial sow thistle, twitch grass, bladder campion, wild mustard and ox-eye daisy. The results obtained may be summarized as follows:

1 That good cultivation, followed by crops sown in drills, provides a means of eradicating perennial sow thistle and twitch grass.

2 That rape is a more satisfactory crop to use in the eradication of twitch grass than buckwheat.

3 That rape gives much better results in the eradication of twitch grass and perennial sow thistle when sown in drills and cultivated than it does when sown broadcast.

4 That thorough, deep cultivation in fall and spring, followed by a well cared for hoed crop, will destroy bladder campion.

5 That mustard may be prevented from seeding in oats, wheat and barley by spraying with a twenty per cent solution of iron sulphate without any serious injury to the standing crop or to the fresh seedings of clover.

These who took part in these experiments profited by the experience in nearly every instance; they cleaned the field experimented upon, demonstrated to their own satisfaction the effectiveness of the method tried, and at the same time the results furnished practical information to others.

These co-operative experiments in weed eradication will be continued this year (1916), and it is hoped that a large number of men will take part in them in order that sufficient information may be gathered to warrant definite statements being made in regard to the best methods of controlling these pernicious weeds. The experiments for 1916 are as follows:

1 The use of rape in the destruction of perennial sow thistle.

2 A system of intensive cropping and cultivation, using winter rye followed by turnips, rape or buckwheat, for eradicating perennial sow thistle.

3 The use of rape in the destruction of twitch grass.

4 A method of cultivation and cropping for the destruction of twitch grass.

5 A method for the eradication of bladder campion or corn cockle.

6 Spraying with iron sulphate to destroy mustard in cereal crops.

7 A method of cultivation and cropping for the destruction of ox-eye daisy.

Those who are troubled with any of these bad weeds are invited to write to the Director of Co-operative Experiments in Weed Eradication, Ontario Agricultural College, Guelph, Ont. He will be glad to furnish full information concerning these experiments and to supply application blanks for the same. All experimenters will be supplied with full and detailed instruction for carrying out the experiments selected, and with blank forms on which to report the results of the same. All interested in clean farming are asked to co-operate in this work. Address all communications to J. E. Howitt, Ontario Agricultural College, Guelph.

ARRAN COUNCIL

Council met March 11th, all present.

Report from sheep valuator Robt Bailey re sheep owned by J A Featherstone and worried by dogs—1 sheep killed and 5 injured. The killed were valued at $48, $32 was paid; the injuries to be taken up at next meeting.

A communication from the clerk of Port Elgin was left over.

A petition from Thos McLelland and others asking permission to keep hogs in the old piggery near station, as this was prohibited by the Provincial authorities. Council could not interfere.

Treasurer's statement showed balance to credit of township to be $1,533.50. Orders to the amount of $900 were issued.

The following officials were appointed:

CARE OF THE BLIND

According to the last Dominion census, there are 3,298 blind people in Canada; of these Ontario claims 1,100. Statistics tell us that 50 or 50 per cent. of the blind of every civilized country are adults over 20 years of age; 40 per cent. of the blind of Canada are over the age of 16. In the adult class, it is more than probable that the next census will find these numbers of the blind largely increased, owing to its war. What machinery has Canada ready to train and equip these blind that they may become self-supporting? There are five blind schools in the Dominion. Only one of these is in any way equipped or suitable for the training of adults, the blind training college in Halifax, which, under the leadership of Sir Frederick Fraser, has become the model blind school of Canada. This institution is supported partly by municipal grants and by a per rata grant of from $150 to $200 a year for each pupil attending the school from Newfoundland and the Maritime Provinces. The blind school at Brantford is the only one supported by the state. The other three schools are situated in Montreal, but none are equipped in any way for the training of adult blind. The Maritime Provinces come nearest to the problem of help for blind workers by the Maritime Association of the Blind, whose field secretary, S. R. Hussey, follows up pupils and others who are attempting to earn their living, and endeavors to arouse public support and interest on their behalf. Two years ago Sir Frederick Fraser turned over $1,000 to this association from the superintendents' fund, to be loaned out for purchase of tools or equipment. Canada is ahead of any other country regarding her care of the blind in one particular. Before the year 1915 no country allowed literature for the blind to go free through its mails. Canada was the first to grant this privilege, and this was largely owing to the instrumentality of Sir Frederick Fraser. America followed Canada's lead a few years later, by allowing free postage of books from public libraries to the individual only. In England there are a large number of voluntary workers for the blind, who print books in the Braille, that is the personal service and interest. In the United States each state is compelled by constitution to provide for its blind citizens, that is the interest of the state. Can we not hope for a combination of these two examples throughout the Dominion, and commence right away by arousing public opinion everywhere to the great need of the blind in this country?—Grace E. Kennedy.

A Quick Trip

After the racing season closed at New Orleans one season a colored roustabout asked where the next meeting was to be held.

He was told "Toronto."

"Is it far?"

"Just a short distance," was the reply, so he jumped in a boat and started to row there. When about four miles from New Orleans an acquaintance on the bank hailed him with: "Hello, Link, ole boy!" Link started for the shore, musing to himself:

"Ah wondah who knows me in Toronto?"

A Serbian Woman

The peasant costume of the Serbs is most picturesque, the feature of it being a fringed apron of gaudy colors and beautiful finish. The women are usually healthy and powerful and in many cases beautiful

Women Once Invalids

Now in Good Health Through Use of Lydia E. Pinkham's Vegetable Compound. Say it is Household Necessity. Doctor Called it a Miracle.

All women ought to know the wonderful effects of taking Lydia E. Pinkham's Vegetable Compound even on those who seem hopelessly ill. Here are three actual cases:

Harrisburg, Penn.—"When I was single I suffered a great deal from female weakness because my work compelled me to stand all day. I took Lydia E. Pinkham's Vegetable Compound for that and was made stronger by its use. After I was married I took the Compound again for a female trouble and after three months I passed what the doctor called a growth. He said it was a miracle that it came away as one generally goes under the knife to have them removed. I never want to be without your Compound in the house."—Mrs. Frank Knobl, 1642 Fulton St., Harrisburg, Penn.

Hardly Able to Move.

Albert Lea, Minn.—"For about a year I had sharp pains across my back and hips and was hardly able to move around the house. My head would ache and I was dizzy and had no appetite. After taking Lydia E. Pinkham's Vegetable Compound and Liver Pills, I am feeling stronger than for years. I have a little boy eight months old and am doing my work all alone. I would not be without your remedies in the house as there are none like them."—Mrs. F. E. Yoer, 611 Water St., Albert Lea, Minn.

Three Doctors Gave Her Up.

Pittsburg, Penn.—"Your medicine has helped me wonderfully. When I was a girl 18 years old I was always sickly and delicate and suffered from irregularities. Three doctors gave me up and said I would go into consumption. I took Lydia E. Pinkham's Vegetable Compound and with the third bottle began to feel better. I soon became regular and I got strong and shortly after I was married. Now I have two nice stout healthy children and am able to work hard every day."—Mrs. Clementina Dunning, 34 Gardner St., Troy Hill, Pittsburg, Penn.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER IX. (Cont'd).

"When the scrap ended, and you were in power, I had gone. I was afraid to come back. I knew what you would think, and then, after you left the country, I couldn't find where you had gone."

"You may believe me or not," the painter said apathetically, "but I have forgotten all that. I have no resentment, no wish for vengeance. I had not even suspected you. I give you my word on that."

"Of course," returned Rodman excitedly, "you'd say that. You're talking for your life. Of course, you'd lie."

Then, the revolutionist did a foolish and unguarded thing. He came a step nearer, and pressed the muzzle closer against Saxon's chest, his own eyes glaring into those of his captive. The move threw Saxon's hands out of his diminished field of sight. In an instant, the painter had caught the wrist of the slighter man in a grip that paralyzed the hand, and forced it aside. The pistol fell from the nerveless fingers, and dropped clattering to the flagstones. As it struck, Saxon swept it backward with his foot.

Rodman leaped frantically backward, and stood for a moment rearranging his crumpled coat with the dazed manner of a man who hopes for no quarter. His lower jaw dropped, and he remained trembling, almost idiotic of mien. Then, as Saxon picked up the weapon and stood fingering its trigger, the filibuster drew himself up coolly with dignity. He stretched out both his empty hands, and shrugged his shoulders.

The fear of enemy silently stalking him had filled his days with terror. Now that he regarded death as certain, his cowardice dropped away like a discarded cloak.

"I don't ask much," he said simply; "only for God's sake kill me here! Don't surrender me to the government! At least let the other fellow know that I was dead before their plans were betrayed."

"I told you," said Saxon in a dull voice, "that I had no designs on you. I meant it! I told you I had forgotten. I meant it!"

As he spoke, Saxon's head dropped forward on his chest, and he stood breathing heavily. The moonlight, falling full on his face, showed such heart-broken misery as might have belonged to the visage of some unresting ghost in an Inferno. His eyes were the eyes of utter despair, and the hand that held the pistol hung limp at his side, the weapon lying loose in its palm. Rodman stood wide-eyed before him. Had he already been killed and returned to life, he could hardly have been more astonished, and, when Saxon at last raised his face and spoke again, the astonishment was greater than ever.

"Take your gun," said the painter, raising his hand slowly, and presenting the weapon stock first. "If you want to kill me—go ahead."

Rodman, for an instant, suspected some subterfuge; then, looking into the eyes before him, he realized that they were too surcharged with sadness to harbor either vengeance or treachery. He could not fathom the meaning, but he realized that from this man he had nothing to fear. He slowly reached out his hand, and, when he had taken the pistol, he put it away in his pocket.

Saxon laughed bitterly.

"So, that's the answer!" he muttered.

Without a word, the painter turned, and walked toward the front of the cathedral; without a word, Rodman fell in by his side, and walked with him. When they had gone a square, Saxon was again himself except for a stonily set face. Rodman was wondering how to apologize. Carter had never been a liar. If Carter said he had no thought of vengeance, it was true, and Rodman had insulted him with the surmise.

Finally, the thin man inquired in a different and much softer voice:

"What are you doing in Puerto Frio?"

"It has nothing to do with revenge or punishment," replied Saxon, "and I don't want to hear intrigues."

A quarter of an hour later, they reached the main plaza, Rodman still mystified and Saxon walking on almost coolly at his side. He had no definite destination. Nothing mattered. After a long silence, Rodman demanded:

"Aren't you taking a chance—risking it in Puerto Frio?"

"I don't know."

There was another pause, broken at last by Rodman:

"Take this from me. Get at once in touch with the American Legation, and keep in touch! Stand at your good behavior. You may get away with it." He interrupted himself abruptly with the question. "Have you been keeping posted on South American affairs of late?"

"I don't know who is President," replied Saxon.

"Well, I'll tip you off. The only men who held any direct proof about—about the $200,000 in gold that left about the same time you did"—Saxon winced—"went into oblivion with the last revolution. Time is a great restorer, and so many similar affairs have intervened that you are probably forgotten. But, if I were you, I would get through my affairs early and—beat it. It's a wise boy that is not where he is, when he's wanted by some one he doesn't want."

Saxon made no reply.

"Say," commented the irrepressible revolutionist, as they strolled into the arcade at the side of the main plaza, "you've changed a bit in appearance. You're a bit heavier, aren't you?"

Saxon did not seem to hear.

The plaza was gay with the life of the miniature capital. Officers strolled about in their brightest uniforms, blowing cigarette smoke and ogling the senoritas, who looked shyly back from under their mantillas.

From the band-stand blared the national air. Natives and foreigners sauntered idly, taking their pleasure with languid ease. But Rodman kept to the less conspicuous sides and the shadows of the arcade, and Saxon walked with him, unseeing and deeply miserable.

Between the electric glare of the plaza and the first arc-light of the Calle Bolivar is a corner comparatively dark. Here, the men met two army officers in conversation. Near them waited a handful of soldiers. As the Americans came abreast, an officer fell in on either side of them.

"Pardon, senors," said one, speaking in Spanish with extreme politeness, "but it is necessary that we ask you to accompany us to the Palace."

The soldiers had fallen in behind, following. Now, they separated, and some of them came to the front, so that the two men found themselves walking in a hollow square. Rodman halted.

"What does this signify?" he demanded in a voice of truculent indignation. "We are citizens of the United States!"

"I exceedingly deplore the inconvenience," declared the officer. "At the Palace, I have no doubt, it will be explained."

"I demand that we be taken first to the United States Legation," insisted Rodman.

The officer regretfully shook his head. "Doubtless, senors," he assured them, "your location will be immediately communicated with. I have no authority to deviate from my orders."

CHAPTER X.

At the Palace, the Americans were separated. Saxon was ushered into a small room, badly furnished. Its one window was barred, and the one door that penetrated its thick wall was locked from the outside. It seemed incredible that under such stimulus his memory should remain torpid. This must be an absolute echo from the past—yet, he could not remember. But Rodman remembered—and evidently the government remembered.

About the same hour, Mr. Partridge called at the "Frances y Ingles," where he learned that Senor Saxon had gone out. He called again late in the evening. Saxon had not returned.

The following morning, the Hon. Charles Pendleton, Envoy Extraordinary and Minister Plenipotentiary of the United States of America, read Saxon's letters of introduction. The letters sufficiently established the standing of the artist to assure him his minister's interest. Partridge was dispatched to the hotel to bring the traveler to the legation. Partridge came back within the hour, greatly perturbed. Having found that Saxon had not returned during the night, and knowing the customs of the country, he had spent a half-hour in investigating by channels known to himself. He learned, at the end of much questioning, that the senor, together with another gentleman evidently also an Americano del Nordo, had passed the street-door late in the evening, with military escort.

Mr. Partridge hastened to his legation at a rate of speed subversive of all Puerto Frio traditions. In Puerto Frio, haste is held to be an affront to dignity, and dignity is esteemed.

The Hon. Charles Pendleton listened to his subordinate's report with rising choler.

His diplomacy was of the aggressive type, and his first duty was that of making the protecting pinions of the spread eagle stretch wide enough to reach every one of those entitled to its guardianship.

Saxon and Rodman had the night before entered the frowning walls of the Palace through a narrow door at the side. They had been ushered now passed hastily between files of presented arms. Inside, he learned that his excellency, el Presidente, had not yet finished his breakfast, but earnestly desired his excellency, el ministro, to share with him an alligator pear and cup of coffee.

In the suave presence of the dictator, the minister's choler did not cease. Rather, it moldered while he listened perfunctorily to flattering banalities. He had struck through intermediary stages; had passed over the heads of departments and holders of portfolios, to issue his ultimatum to the chief executive. Yet, in approaching his subject, he matched the other's suavity with a pleasantness that the dictator distrusted. The dark face of the autocrat became grave until, when Mr. Pendleton reached the issue, it was deeply sympathetic, surprised and attentive.

"I am informed that some one—I can not yet say who—wearing your excellency's uniform, seized an American citizen of prominence on the streets of Puerto Frio last evening."

The President was shocked and incredulous.

"Impossible!" he exclaimed with deep distress; then, again: "Impossible!"

From the diplomat's eloquent sketching of the situation, it might have been gathered that the United States war department stood anxiously watching for such affronts, and that the United States war department would be very petulant when notification of the incident reached it. Mr. Pendleton further assured his excellency, el Presidente, that it would be his immediate care to see that such notification had the right of way over the Panama cable.

"I have information," began the dictator slowly, "that two men suspected of connection with an insurgent junta have been arrested. As to their nationality, I have received no details. Certainly, no American citizen has been seized with my consent. The affair appears grave, and shall be investigated. Your excellency realizes the necessity of vigilance. The revolutionist forfeits his nationality." He spread his hands in a vague gesture.

"Mr. Robert Saxon," retorted the minister, "should hardly be a suspect. The fact that he was not a guest at my legation, and for the time a member of my family, was due only to the accident of my absence from the city on his arrival yesterday."

With sudden bustle, the machinery of the Palace was set in motion. Of a surety, some one had blundered, and "some one" should be condignly punished!

On the Farm

"Get Rid of That Little Oat."

Smith and Jones were neighboring farmers in one of Ontario's banner oat-growing townships, who had entered their fields in the standing grain competition. A dozen others were contestants along with them, but by early harvest it was generally conceded that these two competitors were so far in the lead that the prizes were sure to be awarded their fields. Interest was keen, and finally it was agreed that Jones was to be the winner of first money, writes Mr. John Kyle in Canadian Farm.

Imagine the consternation when the judge gave the award to Smith! An indignation meeting was held, a letter expressive of the popular indignation sent off to the Department of Agriculture, declaring that that particular neighborhood was done with all similar competitions. The Department immediately sent a copy of this letter to the judge. The judge knew that he had done his simple duty. There was no doubt in his own mind that he had given a just decision, and he resolved to investigate.

Accordingly, he asked the farmers to have the fields threshed, at his expense, and to have the actual yield of grain and straw decide the matter. To the surprise of everyone except the judge, Smith's field was the winner by several bushels. Apologies were made and another letter mailed to the Department, making amends for the injustice done to an efficient public servant.

"But how did you detect the difference in the yields?" was the puzzled query put to the judge.

"Simplest thing in the world," he explained. "I noticed that in Jones' field that there were a number of heads that had few light kernels in them, but the rest of the head consisted of something that while it resembled grain was really chaff. There were scarcely any of these grains in the other field. It was the presence of these poor heads that made the difference. I have got into the way of looking for these heads."

And how do you account for them?" was the next question.

"These men will tell you. Mr. Jones when you cleaned your grain you put out all the weeds and all the light oats. But you didn't set your screen to get rid of the little oats. These little oats germinated all right, but they hadn't vitality enough to enable them to head out with every kernel well developed. These seeds failed at the very point where their strength would have counted most for filling your bins."

"On the other hand, Mr. Smith either hand-picked his grain or set his screens to get rid of those little seed oats."

There's a lesson in this for the farmer in all his seed selection. The corn grower who selects the best ears from his fields, breaks off a couple of inches from the ends of the cob and plants only the big kernels. A few hours devoted to careful seed selection before the rush of planting is in sight may easily increase the returns from the average field by ten per cent.

Good Grass Seed is Important.

Our clever crops are becoming more and more of an uncertainty. In the proper rotation of crops there is a place for them that is hard to fill with an efficient substitute. There is today scarcely a more ticklish problem before the farmer.

Clover crops are hard to grow, but they are hard to do without. Generally when a poor catch is the only result obtained, there is a tendency to lay the blame upon the land. Probmajority of cases. But in placing the blame there is another matter quite often overlooked, and a very important one at that. It is the matter of having and sowing only the best seed.

To-day our ablest authorities are generally convinced that the best seed to sow is seed that is acclimated to the locality, the climate, and the soil. Other things being equal, this is the seed that should give the best results. Other things being equal, seed that is grown from plants acclimated to a warmer climate than our own are apt to be the most uncertain. In such a year as the present one, when home-grown clover seed is scarce, there is some possibility that such seed may be offered for sale. It is a matter for which the farmer should be on the lookout.

Inferior seed, no matter where grown, is a poor investment. In grasses the seeds are small, and the amount of natural food available for the sprouting plant is not big. A shrunken seed possesses very little of this, and is apt to possess little vitality or vigor. Good, plump, well-developed seed is the best.

When buying grass or clover seeds, the farmer should take care to ascertain that the seed is free from weed seeds, especially the more troublesome kinds. If an analysis has not been obtained, then it is a good plan to submit a sample to the Seed Department at Ottawa, and ascertain its purity before sowing.—Canadian Countryman.

Grain Saved by Feeding Floors.

Those who have used feeding floors for their hogs have found them to be good grain savers, and concrete feeding floors are coming into favor.

Such a floor should be six inches thick, and, if not laid against the barnyard pavement, should have a curb extending from twelve to eighteen inches below the surface of the ground. This will prevent the hogs from rooting under the floor. The floor should slope slightly toward one corner in order to carry off rain or water used in washing. A rim around the outside edge will prevent grain from being pushed off into the mud.

For feeding floors concrete should be mixed in the proportion of one sack of Portland cement, two cubic feet of clean coarse sand, graded up to one fourth of an inch, and three cubic feet of hard durable gravel or broken stone from one fourth of an inch to one inch in diameter. Eleven sacks of cement will make enough concrete for 100 square feet of feeding floor.

The concrete should be thoroughly mixed and should contain enough water to make the mass quaky so that the concrete will flatten out of its own weight. It should be lightly tamped, however, then leveled off with a straight edge, and finished with a wooden float. The floor may be laid in slabs each six feet square, two-inch lumber being used for forms.

Feeding floors should be large enough to give each hog eighteen square feet of space.

Not to Blame.

Customer (indignantly)—That parrot you sold us hadn't been in the house a day before it began to swear dreadfully.

Dealer—You asked me for one that would be quick to learn, mum.

When a young fellow gets the notion into his head that he is indispensable to his boss, some other young fellow is beginning to groom himself for his job.

FOR HEADACHES, BILIOUSNESS CONSTIPATION.

INDIGESTION

Nearly all our minor ailments, and many of the serious ones, too, are traceable to some disorder of the stomach, liver, and bowels. If you wish to avoid the miseries of indigestion, acidity, heartburn, flatulence, headaches, constipation, and a host of other distressing ailments, you must see to it that your stomach, liver and bowels are equal to the work they have to do. It is a simple matter to take 30 drops of Mother Seigel's Syrup daily, after meals, yet thousands of former sufferers have banished indigestion, biliousness, constipation, and all their distressing consequences in just this simple way. Profit by their experience. As a digestive tonic and stomachic remedy, Mother Seigel's Syrup is unsurpassed.

SPOHN MEDICAL CO., Goshen, Ind.

SPOHN'S DISTEMPER COMPOUND

RHEUMATISM A MYSTERY

Unless Rooted Out of the System It Grows Worse and Worse.

Some diseases give immunity from another attack, but rheumatism works just the other way. Every attack of rheumatism invites another. Worse than that it reduces the body's power so that each attack is worse than the one before. If any disease needs curing early it is rheumatism, but there are few diseases physicians find more difficult to treat successfully. Wet weather does not cause rheumatism as was once thought, though weather conditions may start the aches and pains. Rheumatism is now known to be dependent upon the blood condition and medical authorities agree that the blood becomes thin with alarming rapidity as rheumatism develops. Maintaining the quality of the blood is, therefore, a reasonable way of preventing and curing rheumatism. That it works out in fact is shown by the beneficial results which follow a fair use of Dr. Williams Pink Pills. These pills actually make new, rich blood which drives out the rheumatic poison, and while the blood is kept in this condition there is no danger of the trouble returning. Mr. W. T. Pell, Palermo, Ont., says:—"I was attacked with a trouble which was ultimately pronounced rheumatism. Often I was barely able to crawl into bed, and seldom able to do a full day's work. In this condition I doctored for a year, absolutely getting no better. Then I consulted another doctor whose chief consolation was that unless I could get rid of the trouble I would be a cripple for life. He prescribed dieting, and I doctored with him for at least six months, but instead of getting relief I became weaker and less able to get around. Then I decided to try a doctor in Toronto, and was under his treatment for about four months with no better results. I gave up the doctors and tried other remedies which were equally futile. Then one day our store keeper sent me a box of Dr. Williams Pink Pills, saying, that if they did not help me I need not pay for them. I took them and then got some more and found they were helping me. I probably used $10.00 worth before I felt fully cured, but they did cure me and were cheap as compared with the other treatments which did not help me. The cure was made several years ago, and I have not had a twinge of rheumatism since. To-day I am well and strong and I believe I owe it all to Dr. Williams Pink Pills."

You can get these pills through any medicine dealer or by mail, post paid, at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

"WHERE IS HE WOUNDED?"

Best Place to Get the Bullet is in the Chest.

That is the first question that comes to the lips of those at home when news arrives that a friend or relative is out of the fighting line and is hospital. Even to those ignorant of surgical wonders, the idea prevails that it is better to be wounded in some parts than in others.

Dr. Henry S. Souttar, in the course of a lecture, declared:

"If you have to be shot, the best place to get the bullet is in the chest. And the next best thing is to leave the bullet alone. I have several friends walking about, in the best of health, with bullets in the chest.

"Of course there are patients who want the bullets extracted, in order to wear them around their necks. Even a surgeon cannot always explain human nature. But otherwise, if the wounded man is kept quiet for twenty-four hours, he will be practically out of danger. Complications may arise, but they will be usually due to too much hurry to get the man to a base hospital."

CROSS, FRETFUL BABIES

The cross fretful baby is a sickly baby—the well child is always happy and smiling. Mothers if your baby is cross and cries a great deal something is wrong. His little stomach and bowels may be out of order; his teeth troubling him, or he may be bothered with worms. The mother should immediately give him Baby's Own Tablets. They never fail to relieve the baby. Concerning them Mrs. Ronald Hurley, Gilks, N.B., writes:—"I know of nothing so good for cross, fretful babies as Baby's-Own Tablets and I am pleased to recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Complete.

"Do you mean to say you only paid $50 dollars for that frock?"

"Yes; but that, of course, was without the trimmings."

"How much were the trimmings?"

"A hundred and fifty."

DEMANDS ON RAILWAYS.

What the Railway Train Employes Are Asking.

The demands being made by organizations of railway train service employes on western railways for a 25 per cent. increase in wages, a demand which affects Canadian as well as United States railways, would mean the disbursement of no less than $100,000,000 a year. In order to acquaint the public with some of the facts of the case the executive committee of the Association of Western Railways has issued the following interesting statement:

Mr. Farmer, once upon a time—like the railways—you paid your employes a fixed monthly wage. They worked till their work was done, no matter how many hours.

Your farm hand followed a plow behind a yoke of oxen, perhaps from sun up till sun down, then did his "chores" and was contented.

Suppose that when you invested more of your capital in a good team of horses, to replace the oxen, your employe had said: "These horses turn more furrows in a day than the oxen and hereafter I want to be paid by the furrow, or the distance that the plow travels, but in case anything stops the plow you must pay me for a full day if I work 10 hours or less—if that plan would give more money than the plow mileage amounts to.

Suppose that when you invested more money in a wheel plow on which your employe could ride at ease instead of being required to walk in a heavy furrow and wrestle with a heavy plow, he said: "Hereafter I want you to pay me for a full day if I work 8 hours or less, with time-and-a-half pay for over time, either on a time or distance basis, which ever will give me the most money."

Suppose further, Mr. Farmer, that from 1904 to 1914 you had increased the wages of your farm hand from $302.40 a year to $1,251.37 a year, would you feel like sympathize his last demand for more wages for doing exactly the same work in the same hours?

That is precisely the question that the railway managers of this country are now called on to answer. The men employed in railway train service are asking a 25 per cent. increase in pay for exactly the work they have been doing, and under the same conditions except as to pay. As with the farm hand, the working conditions of railway train service men have been constantly improved at the expense of the employers. Government statistics prove that the hazard of their occupation has steadily decreased. This is the result of millions spent by the railroads for better roadbeds, heavier rails, double tracks, block signals, automatic couplers, air brakes, mechanical stokers, oil burning engines and many other safety and labor-saving devices, for which the employes made no investment and assumed no financial risk.

The men who are now asking for 25 per cent. higher pay are and always have been the best paid of all railway employes. Their wages range from $900 a year for inexperienced brakemen to nearly $4,000 a year for engineers on the best runs. The average wages of the 300,000 employes who are demanding an increase are: $1,263.37 a year, an increase of 40 per cent. since 1904. The 1,400,000 other railway employes average $684.78, an increase of 25.2 per cent. since 1904.

These are the facts, Mr. Farmer. Will you think them over and then say if you think the railway train service employes are justified in threatening the prosperity of every industry in this country, of even the very existence of individuals dependent for food supply on uninterrupted railroad service?

THE FRENCH WAR MINISTER

Gen. Galliени Works Day and Night Despite Great Age.

General Galliени's great age and energy are being put to a severe strain in the War Office. He begins work at 5 o'clock in the morning and keeps at it all day notwithstanding his 67 years, but, with all his application, he finds the day's work is never finished when night comes.

To say nothing of the responsibility of conducting the French military operations, he has to receive frequent visits from a considerable number of the 600 Deputies and 300 Senators; he has to attend meetings of the Cabinet, participating in the deliberations of the French War Council and of the Allies' Combined War Councils; he is summoned before the War Committee of the Senate two or three times a week to give information regarding the progress of the war, and he has to attend sessions of the chamber and Senate on every occasion when military questions are discussed, and frequently to reply to one or two interpellations by members.

All that would be insufficient to exhaust Galliени's energy, but he has, in addition, to reply, either from the speaker's stand in the Chamber or through the Journal Official, to all sorts of questions posed in writing by the members of Parliament. These questions occupy from a dozen pages upward every day, covering the widest imaginable range of subjects. The Minister of War, of course, does not personally conduct that correspondence, but since the reply engages his responsibility as Minister, he must in each case know that the information is exact.

"You force me to follow a profession that is not mine," General Galliени said in a recent debate from the speaker's stand of the Chamber in a moment of pathetic despair. The profession to which he referred was that of debater and of general intelligence agent for the benefit of the deputies. On a single day the Minister of War was interrogated 119 times. The following specimens give an idea of the range of questions:

"How many buildings were requisitioned for use as hospitals before October 1, 1915? How many have been requisitioned since October 1, 1915? How many hotels were there among them?

"Why are the daily report of officers in charge of hospitals sometimes signed by head nurses?"

"It is true that in certain hospitals the patients of the same ward are allowed to take the air only twice a week and in squads of only six at a time, and why?"

"Why in some sections of the army do men sleep with their clothes on?"

Such cases have done more than anything else to call the attention of the public to the impositions that certain members of Parliament make upon the Minister's time. It has developed a decided current of opinion in favor of measures to put a stop to it. One proposition favored is the adjournment of the session by the President under the powers conferred upon him by the Constitution of 1875. On the other hand, the Socialists and Republican Socialists have proposed the nomination of a permanent commission of 44 members, with power to visit any part of the front and any military establishment or quarters behind the front.

DRINKS MOST COFFEE.

Of 2½ Billion Pounds Annually Consumed Holland Comes First.

The people of the world annually consume more than 2 1-2 billion pounds of coffe. Three-fourths of this is grown in Brazil, a country that has become rich from its coffee industry alone. Europe and North America bear approximately the same relation to the consumption of coffee that Brazil does to its production, these two continents using nearly four-fifths of all the coffee the world produces.

Holland is the greatest coffee-drinking nation on the globe. It uses fifteen and one-eighth pounds per capita annually, while the United States uses nine and a half pounds; Germany, five and one-eighth pounds; Austro-Hungary, two and two-fifths pounds, and the United Kingdom, two-thirds of a pound. On the other hand, the United States uses less than one pound of tea per capita, where the United Kingdom uses nearly seven pounds. Canada is about two thirds English and one-third American in its use of coffee and tea; it shows a decided preference for tea, but drinks less of it than the mother country, making up the difference with coffee. The Germans and the Austrians use only a negligible quantity of tea.

STOPPED SHORT

Taking Tonics, and Built up on Right Food.

The mistake is frequently made of trying to build up a worn-out nervous system on so-called tonics.

New material from which to rebuild used up tissue cells is what should be supplied, and this can be obtained only from proper food.

"I found myself on the verge of a nervous collapse, due to overwork and study, and to illness in the family," writes a young mother.

"My friends became alarmed because I grew pale and thin and could not sleep nights. I took various tonics, but their effects were off shortly after I stopped taking them. My food did not seem to nourish me.

"Reading of Grape-Nuts, I determined to stop the tonics and see what a change of diet would do. I ate Grape-Nuts four times a day with cream, and drank milk also, went to bed early after a dish of Grape-Nuts.

"In about two weeks I was sleeping soundly. In a short time gained weight and felt like a different woman. Grape-Nuts and fresh air were the only agents used to accomplish the happy results." "There's a Reason." Name given by Canadian Postum Co., Windsor, Ont.

Write and read the above letter! A new one appears from time to time. They are genuine, true and full of human interest.

The Bread Problem is not a problem in the home where Shredded Wheat is known. The whole wheat grain is the real staff of life, and you have it in Shredded Wheat Biscuit prepared in a digestible form. It contains more real body-building material than meat or eggs, is more easily digested, and costs much less. The food for the up-and-coming man who does things with hand or brain—for the kiddies that need a well-balanced food for study or play—for the housewife who must save herself from kitchen drudgery. Delicious for breakfest or any meal, with milk or cream.

Made in Canada.

WAR HIS PLATFORM.

Some Characteristic Utterances of Sir George Reid.

Right Hon. Sir George Reid, the late High Commissioner for Australia, who has been elected unopposed to the British House of Commons, for St. George's, Hanover Square, London, will be a distinct acquisition to the House, and is already being referred to as the "Member for Anzac." His first speech as M.P. was characteristic of the man. "I have only three planks in my political platform," he said, with his usual bluntness. "The first plank is the war; the second plank is the whole war; the third plank is nothing but the war."

Here are two characteristic utterances which have fallen from Sir George. Nearly a year ago, explaining the secret of his unabated vigor on his seventieth birthday, he declared, "I have aimed at health and happiness, and when confronted by a formidable obstacle I have just tried to knock it over; failing this, to get round it, if not, then under it; and if all these manoeuvres failed, I have been content to lie down in its grateful shade, leading it as a beautiful blessing in disguise."

The other utterance was the message he despatched to Australia when the story of the heroism of Anzac was known. "The whole world knows to-day what I always knew—that Australians are true to the core and loyal to the backbone."

Are Worth Their Weight in Gold

WHAT MRS. BROWN SAYS OF DODD'S KIDNEY PILLS.

New Brunswick Lady Feels It Her Duty to Tell Women That Dodd's Kidney Pills Are the Best Remedy She Ever Used.

Miscou Harbor, Gloucester Co., N.B., Mar. 13th (Special.)—"I think Dodd's Kidney Pills are worth their weight as gold." This is the statement of Mrs. James Brown, well known and highly respected here.

"I think it would be ungrateful on my part if I did not tell what a blessing Dodd's Kidney Pills have been to me," Mrs. Brown continued. "I was in bed three weeks with headache and sore back. Then I began to use Dodd's Kidney Pills and I found them the best remedy I have ever used."

Mrs. Brown is just one of the many women in New Brunswick who are telling of pains relieved and health restored by the great Canadian kidney remedy. Dodd's Kidney Pills are suffering women's best friend, because they act directly on the kidneys. They tone up the kidneys and put them in condition to do their full work of straining all the impurities out of the blood. Nine-tenths of women's troubles come from diseased or disordered kidneys. There is abundant evidence on every hand that Dodd's Kidney Pills cure all Kidney troubles.

Simplicity.

At a British recruiting meeting recently the speaker, having got his audience in a high state of enthusiasm by telling them of the many brave deeds performed by our soldiers in France, suddenly espied a big, strongly built man at the back of the hall. "My man," he cried, "how is it that you are not at the front?"

"Oh, it is all right," replied the burly yokel; "I can hear every word you say from here."

Sure Thing.

"Money doesn't bring happiness."

"Maybe not. But it will help you greatly in going after it."

Good for Children.

Mothers! Physicians agree that flavor and the body building elements of grains lie in the dark parts usually thrown away. So also do the lime salts which your child needs to harden bones and teeth. Children fed upon coarse dark cereals develop greater resistance. Witness the Bulgars and Serbs. Roman soldiers who conquered the world fed upon two bands of entire grain food a day. Dr. Jackson's Roman Meal is a scientifically balanced ration made from several entire grains. It's delicious, easily prepared in a variety of ways and nourishes better than meat. It's a natural laxative. Most grocers sell it.

Made by Roman Meal Co., Toronto, Canada.

It Was the First Time.

Jones was a past master of the habit of carelessness. He dropped things around in any old place and afterwards never remembered where that place was. One night he rose from bed to get some medicine and swallowed his collar button in mistake for a cough drop.

"Mary," said he to his wife when the awful truth dawned upon him. "I have swallowed my collar button."

"That's all right," responded wife in a tone of evident satisfaction. "There's nothing to worry about."

"Nothing to worry about?" returned father. "Do you—"

"That's what I said," interrupted little wifey. "For once in your life you know where you've put it."

Quackery has no friend like gullibility.

Minard's Liniment for sale everywhere

WAR RECORDS.

Some Interesting Facts Regarding Canada's Part.

Canada's part in the war is a matter of pride to every Canadian. Here are some interesting facts regarding it:

Canada has sent overseas 258,000 men.

Canada has 150,000 men in training.

Canada has 100,000 men ready to go overseas.

Canada has 100,000 men in reserve.

Canada has 100,000 men in the Militia.

Canada has 100,000 men in the Navy.

Canada has 100,000 men in the Overseas Forces.

Canada has 100,000 men in the Home Guard.

Canada has 100,000 men in the Boy Scouts.

Canada has 100,000 men in the Cadets.

Canada has 100,000 men in the Veterans.

Canada has 100,000 men in the Reserves.

Canada has 100,000 men in the Militia.

Canada has 100,000 men in the Navy.

Canada has 100,000 men in the Overseas Forces.

Canada has 100,000 men in the Home Guard.

Canada has 100,000 men in the Boy Scouts.

Canada has 100,000 men in the Cadets.

Canada has 100,000 men in the Veterans.

Canada has 100,000 men in the Reserves.

Give It a Thought.

How little it costs if we give it a thought
To make happy some heart each day!
Just one kind word or a tender smile
As we go on our daily way,
Perchance a look will suffice to clear
The cloud from a neighbor's face,
And the press of a hand in sympathy
A sorrowful tear efface.

One walks in sunlight, another goes
All weary in the shade;
One treads a path that is fair and smooth;
Another must pray for aid.
It costs so little; I wonder why
We give it so little thought,
A smile—kind words—a glance—a touch,
And what magic may be wrought!

THE SUN LIFE OF CANADA.

New Records Have Been Created By This Company.

The Sun Life Assurance Company of Canada, achieved records during 1915 that are new in the Canadian life assurance field. Assurances of over $34,000,000 were issued and paid for in cash; total assurances now in force over $250,000,000; total payments to policyholders since organization more than $52,600,000; assets in excess of $74,000,000, a cash income of nearly $16,000,000, and an undistributed net surplus of over $7,600,000. All these figures are high-water marks in the annals of Canadian life assurance. On another column will be found a comparative statement of the business done for 1914 and 1915, and also a statement showing the Company's growth from 1872 to 1915, all of which show a remarkable increase, and also reflects the greatest credit on the management of the Sun Life.

An Uneasy Seat.

"My," said little Alfred, as he looked up from his book, "this sailor must have been some acrobat!"

"Why, dear?" queried his mother.

"Because," replied Alfred, "it says in the book, 'Having lit his pipe he sat down on his chest.'"

Hawkshaw, N.B., Sept. 1st, 1908.

Not an Exacting Girl.

"Your love," he said, "would give me the strength to lift mountains."

"Dearest," she murmured, "it will only be necessary for you to raise the dust."

Minard's Liniment Cures Dandruff.

Little Pauperism in England.

The record for pauperism for England and Wales during the past year is the lowest ever reached. Comparing 1875 with 1915, the ratio shows a decrease from 29.2 to 15.8 per thousand, a falling away of practically one-half. Pauperism in London separately has not declined in the same proportion, nevertheless the percentage has in this period been cut down from 25.3 to 18.0. As compared with 1914, last year showed a decrease in every division of England and Wales of 69,702 persons, or 11 per cent.

ELLENGOWAN

On Monday evening, March 6th, about 75 friends and neighbors gathered at the home of Mr and Mrs Wm Bluhm, the chief object being to make a presentation to their two sons who some time ago enlisted in the 160th Battalion at Walkerton. Mr R Perdue was chairman, and after calling the meeting to order the following address was read by Miss Margaret McCurdy, the presentation being made by Misses Margaret McCaw and Catharine McCurdy:

To Pte Wm and Geo Bluhm:

Having learned that you have penned your names with the long roll of heroes who are standing in defence of our empire we, your friends and neighbors have assembled here to spend a social evening with you before you take your departure from us in defence of our Canadian homes, and by our presence manifest our good will towards you. We feel honored that we are represented by two more of our noble boys in the great fight in which our country is standing up for freedom and the overthrow of militarism. Your friends have confidence that when it comes to real fighting you will both prove yourselves worthy soldiers of Bruce county and face the trials of military life and the awful risk and hazard of the battle-field bravely. We therefore ask you to accept these wrist watches, not for their value but as tokens of our good wishes, and we all hope to see you march victoriously home after waving the flag of victory over the Huns. Signed on behalf of your friends and neighbors.

TOM MCCURDY
JACK MCCURDY

The boys made suitable reply, thanking their friends for the gifts. A short programme of songs and speeches was rendered, and after singing the National Anthem the remainder of the evening was spent in games and dancing. The people returned home well pleased with the time spent with the brave boys who have volunteered to keep the old flag floating.

LOYAT

Mr John McGillivray and Mrs Peter McLean have returned from West Superior, where they went to attend the funeral of their deceased sister, Mrs Ross.

James, son of Mr Wm Johnston, con 18, Greenock, has gone west. His destination is Carstairs.

Mr Neil McLean has been laid up with a very severe cold. His friends will be pleased to see him out and around again.

A Loyat boy who should be mentioned in the recruiting honor roll is James McKay, who was not accepted, as he failed to pass the examination when he wished to join the 160th.

UNDERWOOD

Mr John Cole and son Laurence started for their home in Dauphin, Man, on Wednesday of last week, after spending a few weeks with friends around here.

Mr John McKay, of Vancouver, B.C. is renewing acquaintances in the burg.

Mr Wm Orford and Mrs D Matheson left on Tuesday of last week for Cairo, Mich, on a visit to their sister, Mrs H McLean.

Ptes Wm Robinson, Dave McNaughton, Herb Inkster and Albert Abbs spent Sunday at their homes here.

Mrs Wm Coleman, of Southampton, is visiting her mother, Mrs John Orford.

Mr Murray McKay and sister, Miss Tena, visited friends in Huron last week.

Rev Mr McNabb was in Toronto last week on business.

We are having the proverbial lion-like weather that's supposed to insure nice weather at the end of this month. Even during these mid-winter cold, stormy days, the bright sunshine and cawing of the crows betokens the very nearness of spring.

Children Cry FOR FLETCHER'S CASTORIA

GRESHAM

Jas A McKinnon is at present on a business trip to Viceroy, Sask.

Mr and Mrs Jas B Passmore, of La Fleah, Sask, have returned west after a visit as the home of Mr and Mrs Wm Young, 8th con.

Miss I. McBeath, of Elderslie, visited her friend Miss Rachel Pace over Sunday.

Mr John Rose made a business trip to Tiverton last week.

Much regret is expressed here by parents and students because of the sad death of the late principal Bell of Paisley school, and all extend sympathy to the parents and family in their bereavement.

Mr Ritchie of Huron was a guest at the home of Wm Snowdon lately. Mr Ritchie has enlisted in the 160th.

Wm Parker and son Curtis are in Walkerton this week.

Henry Dent of Underwood visited at his old home here lately.

John Hyde lost a very valuable horse last week.

GLAMIS

Miss Abbie Symons has returned from Philadelphia, where she was visiting her sister.

Miss Alexia Fraser returned to Paisley on Monday, intending to leave there on Tuesday for the west, where she expects to be for an indefinite time.

The Ladies' Mission Circle of the Baptist church held their annual thankoffering meeting on Tuesday, March 14th, when Rev Mr Neilson of Paisley gave a very interesting and instructive address on his work in Italy. A good musical program was rendered. Mrs Neilson sang an Italian hymn which was much appreciated.

The people of Glamis and vicinity held a reception for the Tiverton soldiers when they marched to here on Friday last. A hot midday meal was provided in the basement of the Presbyterian church, where over forty of the 160th Batt. sat down in company with others. The orchestra played all through dinner. A number of toasts were given and responded to. After the tables were cleared away the boys went through some of their exercises, which brought the perspiration out, giving us an idea that soldier training is not play, but hard work. It was the boys' first long march, and they went back feeling rather tired.

Mr and Mrs Jas Thompson entertained the Young People's Guild of the Presbyterian church on Friday evening.

Allen McKinnon of North Bruce called on friends in Glamis on Friday afternoon.

Miss Alberta Kirktown of Paisley high school, spent last week at her home here.

Ernest Cunningham has enlisted in the 209th Batt. at Swift Current, Sask., and will not be coming home as he first intended, to join the 160th.

A number of the young people of the Baptist church and congregation drove down to Mr Jas McLennan's on Wednesday evening last and presented Torrance McLennan with a wrist watch. Mr McCauley read the address and Miss Annie Currie made the presentation. The address was as follows:

Dear Torrance—Once more we as young people are called upon to give another to the cause of empire. We are sorry to see you go, and yet we admire you for going. Our king and country call—all humanity calls—for the suppression of a most dangerous enemy. The great cause of the nation and of the world needs men who will do battle for justice and for God. We are sure that you will be equal to the hardships of warfare and that you can bring honor to yourself and to your friends. We send you forth with our best wishes. May all the good fortune of the field be yours; may the Giver of every good gift grant you strength and protection, and may you return in safety to your friends. Accept this wrist watch. It is a slight token of our sincere desires on your behalf.

FINLAY MCKINNON
JOHN GROVES
PTE TOM MCGREGOR

Glamis, March 13th, 1916

CARGILL

The patriotic concert given in the hall here last Friday evening was a grand success, the programme being enjoyed by all present. After the chairman's address a reading by Rev Mr Fiddis, a speech by Rev Mr Gale, and solos by Miss Seiler of Eden Grove, Messrs Zeigler and Wes Napper, all of which were well rendered and received loud applause. A laughable play was presented by twenty-three ladies of our village and Misses C Staussl and F Seiler of Eden Grove, who, dressed in ancient costumes, gave "A Business Meeting of the Ladies' Aid of Mohawk Cross Roads." This was a very laughable presentation, and from start to finish called forth smiles and smiles, intermingled with a good deal of hearty laughter. The different characters presented their parts remarkably well, and are to be complimented on the successful way in which they rendered it. We understand they are talking of showing in some of the nearby villages soon, and if the people are given a chance to see it they should avail themselves of the opportunity, as we can assure them they will have a splendid evening's entertainment.

Mrs E Dietrich and Miss Muriel spent over Sunday with Mr Dietrich in Harriston.

Mr Norman Jordan left on Saturday for Hamiota, Man, after spending a few months visiting his parents here.

A sleighload of youth and beauty from Walkerton spent Sunday at Mr Jos Lambertus'.

Mr and Mrs Vogt, of Walkerton, spent Sunday at Mrs Bailey's.

Pte Alex Thompson, of the 71st, Galt, spent a few days last week at his home here.

We are glad to say that Miss A Reed is improving after being very ill with pleurisy.

Miss Lillie Taylor is very sick with pneumonia.

The Women's Patriotic League of Cargill made the following shipment last week: 22 flannel shirts, 15 pair pyjamas, 22 surgical night shirts, 34 pair socks, 26 doz. small surgical pads, 15 doz large surgical pads.

Pte Jas Martin, of the 160th, spent over Sunday at his home here.

Mr and Mrs Ledderman, of Conestello, are visiting at Mr R Loughleen's.

Mrs Saunders is visiting friends at Kilsythe.

Owing to the absence of Rev Fr Zettler there will be no masses held here on Sunday.

Mr Thos Nye left on Monday morning for Palmerston, where he will work on the roundhouse. He intends moving his family there shortly.

Misses N Clancy and V Loughleen, stenographers of the 160th at Walkerton, spent Sunday at their homes here.

D D G M Loughleen paid an official visit to Port Elgin Masonic Lodge on Thursday evening.

Mr Edgar Brownscombe of Lovat spent Monday here.

Mr B Saunders expects to close a number of sales shortly for Regal cars. He has quite a number of prospects.

TENTH CON. BRUCE

On Wednesday evening of last week a very sociable time was spent at the home of Mr and Mrs Richard Christie, the occasion being the presentation of wrist watches to the three young men who have donned the King's uniform. There were about 110 present, including the soldiers in training at Paisley. Mr Hugh McKerracher made a very efficient chairman and delivered a fine address. The watches were presented to the young men by their sisters—Miss Violet White, Miss Gladys Atkinson and Miss Annabell Mills. Each of the boys made suitable reply. Songs, recitations and speeches were indulged in during the first part of the evening, after which the younger folk enjoyed themselves in the mystic dance. The following address was read by Mr. R. Christie:

To Robt White, Roy Atkinson and Richard Mills:

We, the citizens of the 10th con Bruce, have invited you here this evening so that we may spend a few social hours together. Our feelings towards you fail to express themselves in any feeble attempt at words on our part. But down in the depths of our hearts we feel under an obligation to you in the sacrifices you are making in leaving pleasant associations and surroundings to go to the front to uphold the honor and freedom of the old flag of which we are so proud. We feel deep regret at losing you from amongst us, knowing full well the hardships and dangerous life of a soldier is no pleasant task. But we feel certain you will all perform your separate duties, whatever they may be, with unflinching courage. We hope and pray that the Mighty Hand that guides the destiny of this great universe may guide you in all your future works, and that you may be spared to return home to us again crowned with laurels of victory, adorned with marks of good conduct, and heralded by the praises of your King and country for the valiant part you have played. We would ask each of you to accept one of these wrist watches, which are given to you as a memento of our friendship in the past, and hope they may serve to seal our friendship closer in the future. And may the time be not far distant when you, one and all, may be permitted to mingle with us again in peace and prosperity, enjoying the freedom and protection of the old Union Jack in Canada.

SECOND CON. ELDERSLIE

Wedding bells are ringing.

Mrs Green, sr, who has been confined to her room almost since New Year's with a severe attack of la grippe, is recovering nicely.

Born—On March 15th, to Mr and Mrs Blaine Fortune, a daughter.

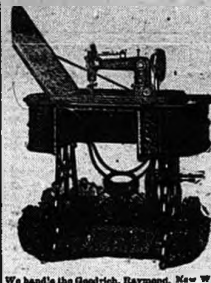
About the only indications of spring, as yet, are the numerous flocks of crows that seem quite indifferent to snow storms. The snow is deeper and there are more drifts on this concession at the present time than for a number of years. Nevertheless, the mail carrier has always made the trip, except once.

Jas Vancise returned on Saturday from Barrie Island, where he was called a couple of weeks ago by the illness of his aged father, who was stricken with an attack of pneumonia, which proved fatal.

Children Cry FOR FLETCHER'S CASTORIA

TURNER'S

Geo Gibbons moves this week to his new farm on the 12th Bruce.



Rev Mr Williscroft, of Listowel, and Rev Mr Saunderson, of Berlin, are here a few days on business in connection with disposing of church property.

Mr And Pollock and family left on Monday for Gladstone, Man, after spending three months here with his father, Arch Pollock.

Mr Jamieson shipped two carloads of hay here this week.

John Pace and his mother were visiting Mrs R Pollock.

Mrs A Pollock had an old-time quilting bee last week. All report a good time.

We handle the Goodrich, Raymond, New Williams, White, Singer and Standard—all the very latest models. Bell Pianos and Organs. Edison Phonographs and Records.

Who Started the War?

The German Crown Prince, while having a nice little chat with his father, said:

"Father, who started the war?"

"I know," said the father playfully, but I won't tell."

"Did cousin George start it?" persisted the youth.

"No," said papa.

"Did cousin Nicholas?"

"No," said papa.

"Did Francis Joseph?"

"No," said the old man.

"Well, who did then?"

"I'll tell you, son! You remember Teddy Roosevelt came out of Central Africa and called on us several years ago. I showed him our magnificent army; I showed him our great and glorious navy; I showed him the Zeppe and the submarines and the gas bags. Teddy, greatly impressed, slapped me on the back and said: 'Bill my boy, you can lick the world.' And like a damned fool I believed him.

AUCTION SALE
— OF —
Farm and Chattels

There will be offered for sale by public auction on the west half of lot 3, con. 11, township of Greenock, by R. C. Pearce, Auctioneer, on

Friday, March 24th

the following chattels belonging to the Estate of the late George Sturgeon, namely:

4 mare rising 10 yrs old supposed to be in foal, 1 horse rising 10 yrs old, 1 cow supposed to be in calf, 1 farrow cow to calve rising 7 yrs old, 2 steers rising 2 yrs old, 3 rising 1 yr old, 1 rising 2 months old, 20 hens and numerous other articles.

At the same time and place there will also be offered for sale valuable farm property known as the west half of lot 3, concession 11, Greenock Township. The farm is conveniently situate to the village of Pinkerton, and is about one and one-half miles from [illegible]. The soil is of good black clay loam. There is about 42 acres of good bush on the land. The buildings consist of a brick house 30 ft x 30 ft, a frame barn with stone foundation underneath 40 ft x 60 ft, a pig pen and hen house. There is also a good well on the premises. There is about four acres sown in fall wheat which the vendor reserves and the right of the present tenant to harvest same. Possession will be given at once and the remainder of the farm is seeded down. The farm will be offered for sale subject to a reserved bid fixed by the vendors.

Sale to commence at 2 o'clock sharp.

Terms of Sale of Chattels—All sums and under, cash; over that amount 3 months credit will be given on furnishing approved joint notes, or a discount of 2 per cent per annum will be allowed off for cash.

Terms of Sale of Land—10 per cent of money must be paid at time of sale, when a written agreement to purchase must be signed, and the balance at the expiration of 30 days from date of sale without interest.

For further particulars or conditions of sale apply to

R. C. PEARCE, Auctioneer, Paisley, Ont.
ROBERTSON & MCNAB, Vendors' Solicitors, Walkerton, Ont.

Mortgage Sale of Farm Property

Under and by virtue of the power of sale contained in a certain mortgage which will be produced at the time of sale, there will be offered for sale by public auction, at the Central Hotel, Paisley, on

Saturday, April 15th

1916, at 3 o'clock in the afternoon

All and singular that certain parcel or tract of land and premises situate, lying and being in the Township of Greenock, in the County of Bruce, and being composed of Lot Number 20 in the 11th Concession of the said Township of Greenock, containing 100 acres, more or less. On said property are said to be a frame house and frame barn, about 40 acres of cleared bush and 60 acres slash. The property will be offered for sale subject to a reserve bid.

Terms of Sale 10 per cent. of the purchase money at the time of sale and the balance in 30 days thereafter. A certain portion of the purchase price may remain on mortgage for a term of years secured by mortgage against the premises.

For further information and conditions of sale apply to

—We can show you an immense variety in Ladies' Fine Shoes. Prices from $1.50 to $5.00. Ballachey, Laidlaw & Co.

—FOUND—Pair of fur mitts. Owner may have same upon proving property and paying for this adv. Apply at THE ADVOCATE office.

—You can always get plenty of pure, rich milk from the Paisley Dairy. We are still adding more cows of the right kind to our herd. JAS MILNE.

—Auction sale of well bred, prize-winning roadster horses, also implements, etc., on lot 34, con A, Greenock, Friday, April 7th. Beaton Wells, prop; John Purvis, auct.

—Auction sale of farm stock on lot 34, con 12, and lots 32 and 33, con 13, Eldrslie, on Tuesday, April 11th, at one o'clock sharp. Oscar Legge, prop; Jas E Cass, auct.

—School books and supplies, a full line at Stevenson's bookstore. Subscriptions taken for magazines, journals and newspapers. A fine assortment of pennants, pipes and tobaccos. Try our healing salve.

—Five Roses, Rainbow, Purity, Cream of the West, and Stark's high-grade flours, also Bran and Shorts. Blatchford's Sugar and Flax, Caldwell's Molasses Meal, and full line of Poultry Foods and Tonics. Always in the market for coarse grains. E. G. ECKEL.

—Special one way rates to Pacific coast points up to April 15th. Homeseekers' excursions every Tuesday to the end of October, to all points in the western provinces. For tickets, rates and all information call at the old reliable C.P.R. agency, McFarlane's old stand, Paisley.

—SEEDS! SEEDS! Planting time is near, and more than ever the planter will require good seed to bring big production in war year. We handle all lines of field and garden seeds procured from the most reliable growers on the continent, also buy and sell home grown seed. Look into your seeds early and leave us your orders. E. G. ECKEL.

—Mrs (Dr) Allen is in Toronto this week.

—Mr and Mrs W H McFarlane were up from Walkerton on Monday and Tuesday.

—Mrs. D. McArthur went to Brampton on Tuesday, to visit her mother and sisters for a few days.

—Elroy McKenzie went to Toronto on Tuesday, intending to enlist on the divisional signal corps.

—The Ladies' Aid of Salem Presbyterian church have sent 36 pairs of socks for the soldiers in France.

—Mrs. Clifford of Hepworth, and Mrs. Wark of Tara, are visiting their brothers, Messrs. Jas. and Wm. Hammond, in Eldrslie.

—Mr J R Laidlaw has returned to town after an extended rest. We are glad to know he is quite restored to health and strength.

—Mr. and Mrs. Wm. Elrington, of Detroit, are visiting for a few days at the home of her sister, Mr. John McTeer, Greenock.

—Pte. Carl Relston of the 71st, was up from Woodstock at the week end on his last visit to home and friends before leaving for overseas.

—Mr Clark McGillivray, son of ex-reeve Alex McGillivray of Bruce Tp, has returned from Pense, Sask, and enlisted with the 16 th at Port Elgin.

—Mr. J. J. Bradley, who recently bought a farm on the 4th of Eldrslie, came up from Toronto last week with his family and effects, and is preparing for farming again.

—As Rev Mr Placer was called away on Wednesday to attend the funeral of his father near Woodstock, there will be no prayer meeting in the Methodist church this week

—The Sturgeon farm, lot 3, con. 14, Greenock, was sold by auction on Friday, the successful bidder being Mr. John McTeer, who has been a tenant on the place for three years.

—Hon. A. G. MacKay, former M.P.P. for North Grey, but now of Edmonton, has recovered from his very serious illness, and is back to his place in the Alberta Legislature.

Wrist Watch Presented

Private Jas McGillivray was presented with a wrist watch by his friends and neighbors on the 12th of Bruce. The presentation was made on Friday night last, at the home of his father, Mr Hector McGillivray.

A Very Sore Foot

Mr Geo Greer, of 12th Bruce, had his foot punctured a few weeks ago, when he stepped on a nail, and has suffered greatly from the wound. It is feared that the doctors may find it necessary to amputate a part of the foot before it can be properly healed.

Going on a War Ship

Electrician Harry Marshall is home for a week on leave from military duty. He signed up with the divisional signal service corps training at Ottawa, but is now to be transferred to the navy. He recently went to Halifax, and is likely to be put on a man-of-war after crossing the ocean.

Recruiting

A few more recruits are being secured, but have not all been examined yet. William Stafford, son of Mr. Ullman Stafford, and Wm. J. White, son of Mr. Thos. White, both of Bruce, are with the Paisley boys, while Louis, son of Mr. and Mrs Geo. Grant, of Ebenezer, signed at Port Elgin last week.

Another Bruce Man Rising in Politics

Mr. John P. McArthur, M.P.P., a former Saugeen Tp. man, now in the Alberta Legislature, was chosen to reply to the speech from the throne. Mr. McArthur is a typical man of the people, and his many old friends here will be pleased to see him taking his place in the front benches of the western legislative halls.

Condemns Extravagance

Mr Henry Coleman condemns the extravagance of the people in no uncertain manner. He points out that they are in the grip of fashion and living beyond their means. The people who can ill afford it are trying to keep up with the wealthy in dress and style. Mr Coleman says the day of economy is at hand and our people should begin to realize the necessity of practising it.—Kincardine Reporter.

Night Constable Wanted

APPLICATIONS addressed to me for the position of night constable for the Village of Paisley will be received up to March 25th.

J. C. GILSON, Town Clerk.

Wall Paper
—as Usual

with the latest and finest designs and better value for the money. Eggs taken in exchange.

SPRING GOODS

We have searched the markets for the very best and have now in stock a splendid assortment of Dress Goods of the latest materials of Silk, Wool and Cotton---the finest fabrics obtainable. Now is the time to make up your dresses and do your spring sewing.

Cash or Trade for Farm Produce

H. B. PUTNAM & SON

Had a Bumper Crop

"We are getting very rough weather," writes Mr Alex Rowley from Davidson, Sask, in remitting his subscription to THE ADVOCATE. "One big blizzard after another, and lots of snow. My boys are busy hauling wheat to town. We had a bumper crop last year. My son Luther and I ran a section of land, and our wheat crop was 9,000 bushels of No 1 Northern, also 2200 bushels of oats. I have rented my farm and am going to visit my daughters for the summer."

Tea Room Next Saturday

The ladies of the 4th and 2nd cons of Elderslie are taking charge of the Red Cross Tea Rooms on Saturday, April 1st. Jellied chicken and potato salad will be the special dishes for lunch. Choice home made baking, dairy produce, fresh eggs and vegetables for sale at reasonable prices. 25c tickets will be sold all day Saturday at the Tea Rooms for a load of tile donated by Bell Bros. The patriotic pig competition will also be closed that day. Come in early and have a jolly time.

CARD OF THANKS

Mr. Malcolm McAllister and family wish to thank their friends and neighbors for the many acts of kindness shown them during the illness and after the death of their wife and mother. Deeds of kindness are imperishable and will always be cherished by the bereaved ones

ORDER YOUR SPRING SUIT TO-DAY

While a blizzard is blowing and the thermometer is making low bumps, customers may not think the time opportune to order a Spring Suit. But, it is. Weather changes quickly these days. Moreover, there is a decided advantage in getting your order in early.

The Housewife's Corner

Dainty Dishes.

Foamy Sauce.—Cream one-half cup butter with one cup powdered sugar, add one teaspoon vanilla and one-fourth teaspoon lemon extract, and just before serving add three-fourths cup of boiling water and stiffly beaten white of one egg.

Cocoa Cottage Pudding.—Cream one-fourth cup butter and one cup sugar, ad beaten yolks of two eggs and beat until very light. Add three-fourths cup milk alternately with one and three-fourths cups sifted flour mixed and sifted again with two teaspoons baking powder. Stir in one-third cup cocoa, beat well, flavor with two teaspoons vanilla, fold in stiffly beaten whites of eggs and bake in buttered small pans.

Potato Au Gratin.—Peel and slice raw white potatoes very thin. Put in layers in buttered pudding dish and sprinkle each layer with salt, pepper and bits of butter. When all the potatoes have been used cover with cup of hot water or milk and sprinkle top layer of potatoes with cracker crumbs mixed with salt and bits of butter. Bake, covered, for one-half hour, then uncover and brown.

Rock Cookies.—Cream one cup butter, one and one-half cups white sugar and one-half cup brown sugar. Add three eggs, well beaten; one-quarter cup water with one teaspoon soda dissolved in it, three-quarters pound of chopped and seeded raisins, one pound of chopped walnuts, one-half teaspoon nutmeg, one teaspoon cinnamon, one-quarter teaspoon of salt and three and one-half cups flour. Dough must be quite stiff. Dip with spoon on pins quite far apart.

Cream Tea Biscuit.—One cup thick, sweet cream, two teaspoons cream of tartar, three-fourths teaspoon soda, one-half teaspoon salt, one and one-half cups bread flour. Sift soda, cream of tartar and salt with one cup flour. Beat into cream enough additional flour so that dough can be handled easily. Roll to one-half inch thickness cut with small round cutter, and bake about twelve minutes in hot oven. This makes two dozen small biscuits.

Spanish Rice.—Wash one cup rice thoroughly and cook in plenty of boiling water. Drain in colander; put three or four slices of bacon through food chopper, then lay in frying pan and fry until light brown. Also put through chopper one good-sized onion, two cloves, garlic and one large green pepper, after removing seeds and white fiber. Add onion, one cup stewed tomato, garlic and pepper to bacon and cook thoroughly, seasoning with salt, pepper and one-half teaspoon chili powder. When sauce is done, add rice and one-third cup grated cheese; cook until blended and serve.

Potato Loaf.—Cold potatoes; one onion; parsley and thyme; salt and pepper; a little butter or dripping. Mash the potatoes, boil the onion for 15 minutes and chop very finely. Chop the parsley and thyme to a dust, melt the butter and mix all together. Add the seasoning. Heap on a greased tin in the shape of an oval mound, brush over with beaten egg and bake until quite hot and well browned on the outside. Slip carefully onto a clean hot dish and serve. This mixture may be made into small individual mounds or little rissoles, which are very good and look well when served round a meat dish.

Orange Bread.—Delicious recipe for fancy bread is the following: Dissolve one-fourth yeast cake, broke into pieces, in one-fourth cup of lukewarm water, and add one egg well beaten, one tablespoon melted lard, one tablespoon salt, two tablespoons sugar, grated rind two oranges and three-fourths cup orange juice. Beat thoroughly, using egg-beater. Add flour to make of right consistency to move, amount required being about three cups, and beat until smooth. Turn on slightly floured board and knead until elastic. Cover and let rise over night. In the morning shape, put into slightly buttered pans, cover, let rise once more and bake in hot oven. Best eaten fresh. Fine sandwich bread for afternoon teas.

Household Hints.

All fruit jars that have been used should be sterilized before they are used again.

Food cooked in vessels that are not thoroughly washed cannot have a good flavor.

Housewives should regard nuts, raisins and dates as foods rather than luxuries.

As soon as the spring opens give the pet rosebushes all the soapsuds you can come by.

An iron stand which can be fastened to the ironing board is a great help on ironing day.

Never turn out a boiled pudding the minute it is done. It is very apt to break if this is done.

Boiled rice covered with grated cheese and baked brown in the oven makes a good luncheon dish.

Vegetable soups depend largely for their nourishing qualities on the milk or cream that is in them.

Sift a little flour into the fat before frying mash; it will prevent the fat from sputtering and frying.

Cotton crepe is a good material for children's underwear, because it does not require careful laundering.

An old piano stool is very good for a sewing machine seat, because it can be raised and lowered at will.

Hard boiled eggs should be cooked 20 minutes to be easily digested. Less cooking makes them tough.

In mixing fruit or nuts into a cake they should be aded before the flour. They will then be evenly distributed.

A square of wire netting, bound and mounted on four little feet, is a good thing for the cooling of cakes, etc.

To insure smooth cornstarch pudding you must stir the cornstarch and milk constantly while they are cooking.

No baked potato will be light and fluffy if it has to wait to be eaten. It should go straight from the oven to the table.

Do not allow the top of the range to become red hot. It will cause it to warp, and a red-hot stove always means a cool oven.

To remove dust from steel, cover it with sweet oil and let it remain covered for a day. Then rub it with a lump of fresh lime.

All small pieces of laundry soap can be put into the boiler in which the clothes are boiled. In this way they are not wasted.

Boiled or roasted meat that is to be cut cold should be wrapped in a clean moist cloth. It will then slice thin without breaking.

A photographer's paste can be made of ordinary starch not cooked so much as for stiffening. If you need a paste in a hurry, it is a good thing to remember.

Fertilising Roses:—Save your coffee grounds, dry them out and put around your roses with equal parts of soot. It is a good fertilizer and insecticide.

Cut your lard into small pieces and run through the meat chopper before rendering, and you will have almost all lard and very few cracklings when through cooking.

Apple pie made with a layer of finely shaped cheese over the seasoned apple, and baked in the usual way is liked by many who are fond of cheese served with apple pie.

Cooking utensils should never be allowed to dry before they are washed. After drying they are twice as hard to clean, and the chances are they will not be thoroughly cleaned.

A new way to cook cabbage. Cook some new cabbage delicately by keeping it under boiling water for 40 minutes only; cut it up, season well. Cover with crumbs and butter and bake brown.

When cooking cauliflower always place the vegetable in the pan with the flower downwards and pass a meat skewer through each side. In this way it can be lifted out when cooked without becoming broken.

To remove water stains from varnished furniture, pour olive oil into a dish and scrape a little white wax into it; this mixture should be heated until the wax melts, then rubbed sparingly on the stains. Finally, rub the surface with a soft linen rag until it is restored to brilliancy.

SHUN GAUDY BIRD HOUSES.

Songsters Avoid Shelter Painted in Bright Colors.

Many people who have built handsome bird houses and painted them neatly in some bright color have been disappointed to find that the birds gave them a wide berth and refused to become tenants.

Next year make the houses out of old weather stained wood or, paint them some dull color, as nearly as possible like that of the wood in old decayed trees, and your labors will more likely be successful. Martins, wrens and bluebirds particularly have an aversion to new bright wood; they prefer nesting places as much as possible like those they find in the woods.

The bird lover who would attract birds to his houses must build to suit his prospective tenants rather than his own fancies.

Garden on a Table.

One does not usually think of rooms in a flat in connection with any form of gardening, says the London Chronicle. All the more remarkable, then, is the list of vegetables which a friend of the writer grew last season on a table in front of a window. The list included French beans, lettuce, radishes, and even carrots and onions. All these plants were grown in pots, but abundant crops of mustard and cress were produced on pieces of damp flannel stretched across the sides of a box. In addition, regular supplies of watercress were obtained in the following manner: A penny bunch of the salad was bought, and the bits of the plant inserted in pots were then placed in bowls of water, and kept there. Quite soon the watercress started to grow, and the tender shoots were picked off as required.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON, APRIL 2.

Second Quarter. Lesson I.—Conversion of Saul—Acts 9. 1-31. Golden Text: 1 Tim. 1: 15.

Verse 1. Threatening, by which he "strove to make them blaspheme" (Acts 26. 11); slaughter, when he failed, as the imperfect tense in that passage suggests he generally did. The high priest—Caiaphas, whose adroit subservience to the Romans kept him in office till A.D. 37; he was the Jewish "Vicar of Bray." 2. By imperial decree, the high priest and Sanhedrin had jurisdiction over Jews in foreign cities to the same extent as they had in Jerusalem. The Way —More fully "the Way of the Lord," "of God," "of salvation." Often in Acts, as here, it has become a technical term standing alone, appropriate to a religion which consisted in a pilgrim's progress to God along "a true and living way" (compare John 14. 6).

3. Paul's own story must be carefully compared, in Acts 22. 8-12 and 26. 12-19. The surface differences are absurdly easy to harmonize. If Luke had been writing fiction, he would have had the sense to be obviously consistent. The repetition is due to the special purposes with which the story is told. Shone—The verb means literally lightened. That the other men knew of nothing but a lightning flash and peal of thunder is likely enough: it was only in Saul's case that they shaped themselves into a vision and a voice. A light—"Above the brightness of the sun" (Acts 26. 13) at noon (also Acts 22. 6).

4. He fell, with the others (Acts 26. 14), who, however, quickly recovered (verse 7). Saul—The form of the name is not Graecized at all. So in Acts 26. 14 the voice is "in the Hebrew (that is, Aramaic) language." The doubling of the name is quite characteristic of Jesus. Compare his "Martha, Martha," "Jerusalem, Jerusalem," and rather similarly "Verily, verily," "yea, yea." Me—Compare Luke 10. 16; also John 15. 20.

5. Who art thou?—This is consistent with the probable fact that Saul had seen Jesus on earth, and joined in the "persecution" which had its climax on Calvary. He might well fall at first to see that the glorious Face was really the same as that one "marred beyond any man's" on which he had looked "with what bitter triumph" so lately.

6. It Acts 26. 16-18 the Lord's words are expanded by incorporating his own commentary received by Paul in his own within the days of darkness and heart-searching. Must—It is deeply significant that this great little word begins Paul's new life. Even as persecutor he had followed what he thought to be duty (Acts 26.9). for him truly the "stern daughter of the voice of God." The (Greek) concordance will strikingly show how the human life of Jesus was ruled from first (Luke 2. 49) to last (Luke 17. 25, etc.) by the must.

7. Hearing the sound (margin)—The noun is the same as voice in verse 4, but in a different case(which in this context is significant. They thought it had thundered, like the multitude in John 12. 29.

9. Three days—Till the appointed time for a resurrection.

10. Behold, I—A literal rendering of the Hebrew idiom, used by Luke from his fondness for Old Testament phrase.

11. Straight—There is still a street in this ancient city which goes straight through from the eastern gate.

12. Laying—A favorite Jewish symbolic action, adopted early in Christianity. It suggested to the mind —as it does among all sorts of people in all times—the passage of a quality or gift from one man to another. Thus it could signify the transference of sin to a victim, as in the ritual of the Scapegoat. In this case it suggested that Holy Spirit, manifestly possessed by Ananias, would pass to Saul; and the symbol helps the design of an appropriating faith. Saul—Again the Aramaic form. The Lord—Saul had thus addressed him (verse 5).

18. Scales—One of Luke's medical terms. As sight came to his physical eyes, his spiritual being was illuminated by the Holy Spirit, and he recognized how wrong he had been in opposing Christ. Was baptized.—Another symbol that helps faith. The prominence of these symbols is not unconnected with the temperament of people who were specially susceptible to such appeals of the external. Even among Western people they have great effectiveness, and the continued use of them justifies itself by this fact. There are those to whom they do not appeal and this purely practical reason for using symbols does not make them essential to salvation.

GABRIELE D'ANNUNZIO,
Italian poet, injured in an aeroplane accident.

AIR REPRISALS.

Prof. J. H. Morgan Says Britain Should Retaliate in Kind.

Professor J. H. Morgan expresses the view that a concerted raid by the airmen of the Allies on undefended places in Germany is legitimate. Such raids are justified and salutary, because they would hit the civil population of Germany hard, and because Zeppelin raids are largely, if not principally, designed to gratify the civil population of Germany with sensations not only of military prowess, but of sanguinary delight. Inspired articles in German newspapers betray a ghoulish satisfaction in the feeling that the war is being carried into every village and every home. The only way to deal with this is to convince the civil population of Germany that their lust for slaughter will recoil on their own infatuated heads.

The article continues:—Far be it from me to advocate that we, or our Allies, should we get the chance, practise the same barbarities on the enemy as they have practised upon us. God forbid! But I do say that the consideration of a military operation, designed not to avenge the Zeppelin raids, but to put an end to them, should not be obscured or deprecated by a misplaced tenderness for people who have shown anything but tenderness themselves. Until we realize what the French have realized long ago, that the German people are bestial people, whose only conception of international law is "heads I win, tails you lose," we shall be fighting with our hands tied behind our backs. I confess that Canon Sanday's solicitude for "the whole world which looking on" leaves me very cold. The greater part of the civilized world is already fighting on our side.

Evidence has come into my hands quite recently which goes to show that the cruelty of the German troops to our men, ferocious as it was in the early stages of the war, is even more ferocious now. The French understand the import of these things. The more I see of that great nation the more profoundly do I admire it, and in nothing more than this, that the most idealistic nation in the world refuses to be under any illusions as to the character of the enemy with which they and we have to deal. The Frenchman is generous, but he is above all clear sighted. I sometimes fear that our own idealism is only a form of stupidity. This is a time of deadly peril. Things are what they are, and will be what they will be. Why, then, in the words of the wise man, should be deceive ourselves? Let us by all means do nothing which offends our self-respect, but let us look facts sternly in the face.

Mineral Output of B.C.

The annual mineral output of British Columbia is valued at approximately $30,000,000. The figures for 1913 exceeded that amount, while the product last year was some $4,000,000 short of that of the previous year. The decrease in the value of minerals produced in the province last year, as compared with 1912, was due to the European war which disturbed the metal markets throughout the world.

"The Army! the Army! I'm fed up with the Army! Blest if I ain't expectin' any minute some old lidy'll come along and ask me why she'n't see me in khaki!"

LITTLE GIRL IS REGIMENT'S DARLING

INTERESTING INCIDENT OF THE GREAT WAR.

Wee Waif Adopted by British Soldiers Played in Safety on Parapet.

The story of how a little girl, found in the firing line, was adopted by a British regiment has been told by a soldier back from the front to a traveller who relates his experiences in the Northampton, (England), Daily Echo.

"About eight months ago," he said, "the company were trudging along for the first line of trenches when one of the men—his name was Philip Impey —found the child in a ditch by the roadside. No one could go back, and the soldiers took the girl into the trench and made her as comfortable as possible. In a few days she had recovered from the ill effects of the wet and exposure and was running up and down the trench, the pet of all the officers and men.

"One day a bomb nearly filled in part of the trench. When the men had recovered from the shock the sergeant-major asked a man to go and see that the child was safe. They had left her asleep in a snug corner, and there they found her, still sleeping.

Offered Chocolates from Germans.

"The German trenches were about 150 yards off, and the level, open space between the two lines wasn't healthy. No man who valued his life would go there unnecessarily, or recklessly put his head above the parapet. One morning, to their horror, the men, through the periscope, saw the child standing above the trench on the German side. Cries came from the enemy, but they were not hostile. The sight of the girl little more than an infant, had touched their sentimental side, and she had offers of chocolates and invitations to go and see them.

"After that the girl went over the parapet quite often. She was as safe in that danger zone as if she had been behind the lines. No German would harm her, and once she went close up to the first line trench.

"In eight days trench duty ended, the little daughter of the company was taken back and was not allowed to get between the lines again. She was taken charge of by the company storekeeper, who had children of his own and was mightily proud of his skill in dressing and undressing the child and his strictness about the morning bath. All the men made a fuss of her, and she of them. The boys in khaki are her playmates and she goes up to any Tommy with a smile of complete trust.

Pet in the Hospital.

A month after she was found the men thought that she ought to have a name. Philip Impel, who found her, was now dead and they gave her his surname, with Phyllis as the nearest approach to Philip. After she had been six months with the company the sergeant-major was wounded and came to a hospital in England. The girl came with him and stayed in hospital, too, the pet of patients and nurses.

She has now been taken by her adopted "daddy"—the sergeant-major —to Bedford, where she will have a woman's care and still be attached to the regiment.

The parentage of the child and how she came to be deserted in the ditch at La Bassee remain an unsolved mystery. She was too young to know her name or to give any account of herself. There is a suggestion of terror stricken flight in the fact that she is afraid of a German helmet. For the khaki and bevapped soldier she has an affection, but if a Tommy puts a helmet on she shrinks away as in fear.

Bim Starlight a Blessing.

If the entire vault of heaven were covered with innumerable strata of stars, one behind the other, as with a widespread starry canopy, and light were undiminished in its passage through space, scientists say the sun would be distinguishable only by its spots, the moon would appear as a dark disk.

She Understood Children.

Applicant—No ma'am, I could not work where there'd children.

Madam—But we advertised for a girl who understood children.

Applicant—Oh, I understand 'em ma'am. That's why I wouldn't work where they are.

But an heiress never has cause to doubt her husband's love for her money.

Husband—"If a man steals—no matter what it is—he will live to regret it." Wife—"During our courtship you used to steal kisses from me." Husband—"Well, you heard what I said."

"Are you going to marry Mr. Simple?" "No, I think not. Father is not satisfied with his income, mother doesn't like his family. I don't think he's very handsome; and, besides, he hasn't asked me."

LUXURIES ARE NOT WANTED IN BRITAIN

ALTHOUGH THE COUNTRY IS PROSPEROUS.

Shortage of Ships Will Require Prohibition of the Import of Many Things.

A far-reaching Order-in-Council, which will totally prohibit importation into the United Kingdom of a large number of articles which come under the general heading of luxuries, will be issued by the British Government at an early date.

Among the things which will be placed under the ban will be automobiles for private use, musical instruments, cutlery of all kinds, hardware, yarns, chinaware, fancy goods and soaps. The order will apply equally to all countries, including the British dominions and colonies.

Workers Well Off.

Walter Runciman, President of the Board of Trade, in outlining the above, said there had never been greater activity in the larger industries, that wages were higher than ever before, and that the percentage of unemployment had never been so small in the history of the country. The only trades relatively quiet are the building, linen, and some of the luxury producing trades, but even in these the workers have found employment elsewhere, or enlisted. Longer hours are being worked in nearly all the trades, and it is estimated that this overtime represents an increase of 4¼ per cent. in the number of persons employed. A few firms have had to shut down, but among the active firms only seven per cent. of their machinery was idle during December. This is a better record than for peace times.

Wages Increased.

About 5,500,000 people have received raises, and the increase in wages has been roughly a million pounds a week. An example of the rise in wages may be seen in the case of the seamen. Before the war they got about four pounds ten shillings a month and their keep. Now they receive between eight and eight pounds ten shillings per month. Exceptional men in the engineering trades, working overtime, have earned from five to ten pounds and over per week. One toolmaker in Coventry, by great efforts, made more than sixteen pounds in a week.

Employment for Women.

It is estimated that the number of women who have been substituted for men in the metal trades is 77,000, in the leather trades 14,000, and in the miscellaneous trades 274,000. Besides these, many are in the Government employ, an increasingly large body are in commercial houses, and a great number are employed in the dilution of labor and in agricultural work. More women are needed badly on the farms. Two hundred thousand could be used in the south of England alone.

Women are performing every kind of work which is not too heavy for their strength. In one firm they are making electric motors; in another they are doing all the work in manufacturing two-inch howitzer shells, including the testing of them.

When Peace Comes.

"On the return of peace," said Mr. Runciman, "the men will leave the army gradually. There will be a disappearance of overtime work and a reduction in the number of hours of work, which will call for the employment of more people. The whole question hinges largely on the restoration of our export trade and tonnage to cope with it."

7,000 LOST THEIR PARENTS.

Homeless Children in Serbia Placed in Asylums.

The saddest result of the war in Serbia is the large number of children who lost their parents, a correspondent writes from Nish. Nearly seven thousand waifs, whose ages range from a few weeks to fourteen years, have been gathered up by the German, Austro-Hungarian and Bulgarian troops and are now taken care of in hospitals and temporary asylums.

The fathers and mothers of many of the little ones are undoubtedly dead, but a majority of the children simply were separated from their parents on the flight to mountains of Albania.

Nearly six hundred of the children have died in the camps and asylums in which they found temporary homes.

Wonderful Artificial Arms.

Two new types of artificial arms with hands are shown at the Paris Academy of Sciences. One is for heavy work, with fingers like claws of a lobster. The other has artificial fingers, enabling the hand to reproduce closely the action of natural fingers. Successful experiments were made in the presence of members of the academy by two men, each of whom had lost an arm. One of them sawed through a beam of wood without difficulty and the other played a violin.

GERMANS AS HUNGRY AS THEIR PRISONERS

LANCE-CORPORAL WM. EGAN'S EXPERIENCE.

An Irish Soldier Says Germans Even Begged Prisoners for Bread.

"Being a military prisoner of war in Germany is purgatory," according to Lance-Corporal William Egan of the Royal Irish Rifles, who is a survivor of the Mons retreat and was captured by the Germans at La Bassee in October, 1914. The following is Corporal Egan's own story of his experiences. It contains, as will be noticed, interesting details regarding Sir Roger Casement's attempt to induce Irish prisoners of war to enlist in the German ranks.

"When we first arrived in Germany," says Corporal Egan, "we were simply half starved and I remember my comrades and myself picking out potato peelings from the swilltub, where they had been thrown by our sentries, washing them and making a meal of them. We would have eaten anything.

"When the parcels began to arrive from the Old Country our guards were themselves being put on short rations and they begged us to give them some of our bread, but we remembered the swilltub, and we refused. We sold we wanted it all for ourselves. Sometimes they would take up our food and look at it eagerly, but they did not dare to touch it. What they did out of spite was to give us our parcels last. Everybody else in the camp was served first.

"We often discussed the war with the guards. At first they thought it would be a walkover. 'England kaput' (finished) they told us. There is 'nicht gelt' (no gold) and 'nicht essen' (nothing to eat) in England. Afterward they changed their opinions and said England has 'viel gelt' (much gold) and 'viel essen' (much to eat).

Worried Over Conscription.

"They thought we had a very small army at first but toward the end they knew that we had grown into a very big army. The last few weeks I was there they were greatly worried over conscription, and I noticed the German papers were full of references to it.

"At the time Warsaw was captured the Germans were certain that they were going to win, and you should have heard the singing and the rejoicing and the yelling of 'Deutschland ueber Alles!' 'We shall have peace by Christmas,' one of the sentries told me.

"When Christmas came and there was no peace our sentries lost their cocksureness and told us that before forming any definite opinion of the prospects of the war they would like to compare the English and the German papers. They could see that things were not going as well as were pictured both from the absence of coin in the country, the scarcity of food, the continual stream of wounded returning from the front and the never ceasing demand for fresh drafts for the firing line.

"At first we saw fine, physically developed men about the camp, but before I came away they had all gone to the front, and in their place had come anaemic looking, clerklike fellows with spectacles, so thin that you could blow them over with your breath and hardly as tall as their bayonets.

"The sentries used to ask me whether all our chaps had Maxim guns, because they said our fire was so deadly. They had a perfect horror of the Ypres front and declared they would rather be sent anywhere than there.

"We heard that three German soldiers who had been told off for the western front committed suicide. They had no heart for facing us again.

German Irish Brigade.

"You have heard of the attempt that was made to form a German Irish brigade by Sir Roger Casement. Out of 2,000 Irishmen they got fifty-one to consent to join, and afterward, dressed in a gray uniform with golden harps worked on it, they came strutting in to see us, their hands on their bayonets just like officers.

"One or two tried their capers on me, but they got their answer sharp. I said: 'I wouldn't be after being a traitor for all the money in the world.' They answered: 'You are not a real Irishman. You are an English swine, one that came from Dublin.' I said: 'What did you do it for?' They answered: 'We are sure to win. Look at the land we have taken.' I said: 'What do you mean by we?' There they were arrying on as if they were real Germans. At times I lost my temper and felt like striking them, but after trying me three times they gave me up as a bad job.

"I must say that the fifty-one fellows they got for the brigade were about the biggest rascals that I have ever seen in any army. They were not soldiers for the love of soldiering or because of any patriotism, but because they could not find anything else to do, and I dare wager that if they give as much trouble to the Germans as they gave to their own regiments they will not be long there.

"They told us that they had been promised that they would not be sent against the British or the French front but against the Russians.

I Am Sorry For That.

"I am sorry for that, for I would dearly love to put my bayonet through one of the renegade blackguards who disgraced such a fine regiment as mine.

"The sentries occasionally referred to the German Irishmen. They said, 'If they are traitors to England it is just as likely they will be traitors to Germany,' and I don't think they are far wrong.

"The pleasantest memory of the war I have is of La Bassee, where we made the Germans run like hares. I said to my mate—poor fellow, he was killed afterward—'We don't come from Dublin to be laughed at, do we?' 'Indeed we don't,' he replied. 'Then give them fifteen rounds rapid,' I said, and so we did. But afterward they gave us a gruelling. I thought all the cannon in the German Empire was firing upon us.

"I must say this, that all the time we were in Germany we never lost hope. We knew that Britain would come out on top and it was rare good news to be told that conscription had come in."

FARM WORK FOR VETERANS.

$10,000,000 to Be Raised to Aid Soldiers and Sailors.

Extensive plans are in preparation for the settlement or the employment on the land in England and Wales of sailors and soldiers discharged from the British army, and if the report presented by Sir Harry Verney, M.P., is adopted a preliminary credit of £10,000,000 will be granted at once to those who will be in charge of the scheme.

Sir Harry Verney is chairman of the committee appointed by the President of the Board of Agriculture and Fisheries to present a report of the subject and in his recommendations he suggests the immediate establishment of three colonies and the acquisition of land for other similar establishments. The committee suggests that these colonies should be managed on co-operated lines, and the small holdings should be rather on the basis of tenancy than ownership.

The principal recommendations include:

That the State should find the money for training disabled men.

That a vigorous campaign should be undertaken in favor of land settlement at home, the committee believing that the scheme has far better promises of real success than any thing hitherto tried in this country.

That the Board of Agriculture should have power to acquire land for the settlement of ex-service men in State colonies, and that land owners should be invited to offer to the board any large farms which come in hand before they are relet.

That no man should be allowed to take up holdings of their own unless they have the necessary experience. Men without such experience should be offered employment at wages in the first instance.

The War Office should hand over to the board, free of cost, any of the military hutments which are not required for military purposes after the war.

Expert guidance should be provided for the settlers in each colony by the appointment of a resident director and an agricultural or horticultural instructor.

A depot should be established in each colony for the collection and disposal of produce, and a store for the sale of the requirements.

MONGOOSES KILL RATS.

Sure Cure for Rat-Plague, and They're Scarce at the Front.

A British army officer searched all London recently for a mongoose. He had received an urgent letter from some friends in the trenches asking for one of these valuable little beasts —a sure cure for rat-plague. He was told that one could only be secured if a private individual happened to have one to dispose of, and the price would be about £5 10s.

Mr. Cecil Isaacs, of the Royal Menageries, Shaftesbury avenue, London, told a representative of the Daily Chronicle that the mongoose is the only animal that can be depended upon to rid a trench of rats.

"A ferret," he said, "will kill for the sake of eating. But a mongoose kills for the sake of killing. I guarantee that any trench with a mongoose will not suffer from rats. The difficulty is to get a mongoose. I have sent out half a dozen recently to France, but live stock is not being shipped to England now, and the home of the mongoose is Ceylon.

"The only chance is to seek out private owners and ask them to sell. Many enquiries have reached me from officers at the front. Even the ferret is scarce.

The mongoose is a rare animal in England. But in one hotel in Ireland, plagued with rats for many months, two mongooses were imported with the very happiest results.

"This may be justice," said the defeated defendant, "but is strikes me as being a pretty fishy verdict." "That shows that it is justice," retorted the plaintiff. "One of the most conspicuous features of justice is her scales."

GRAND DUKE NICHOLAS PLUCKY

Removed From Centre of Stage, He Has Carried the Stage With Him or Built a New One.

The Grand Duke Nicholas Nicholaievitch is the man that deserves credit for the capture of Erzerum and the advance of the Russians in Asiatic Turkey—the greatest success that has come to the arms of the allies since the capture of Przemysl and the Carpathian drive almost a year ago, which was also engineered by the Grand Duke.

When the Grand Duke Nicholas was removed from the supreme command of Russia's land forces and sent to the Caucasus last September, the average casual observer said, "Well, that is the end of the Grand Duke."

A good many men in the Grand Dukes position would have gone into a fit of sulks for the rest of the war.

But Nicholas Nicholaievitch is too big a man to do that. His brain and his heart are as proportionately big as his huge body. Apparently removed from the centre of the stage, we find that he has carried the stage with him, or has built a new one, if you like, where the eyes of the world are now centred.

More than any other member of the royal family, Nicholas Nicholaievitch has devoted himself to the profession of soldiering.

Grand Duke Nicholas.

As a youth of 21 in the war of 1877-78 with Turkey he went with his father, who bore the same name, to the Danube and the Balkans, where the elder Nicholas was commander-in-chief of the Russian forces in European Turkey. He was then a junior officer in a hussar regiment and was on the staff of Gen. Radetzky. He took part in the campaigns of Plevna, Lovcha, and the Shipka Pass, received the Cross of St. George for valor, and established the foundation of his present high reputation as a horseman and expert on cavalry matters.

After that war the Grand Duke rose by degrees to be commander of a hussar regiment, commander of a division of cavalry, and finally inspector-general of cavalry. In spite of his immense height and his fondness for stirrups rather shorter than most men of his size would select, he sits a horse as securely and as gracefully as all but the very pick of European cavalrymen.

Like Gen. Sukhomlinoff, who was Minister of War during the first months of the present conflict, the Grand Duke did not smell powder in the war with Japan, but was held in reserve to guard Russia's western border from possible attacks in that direction. He was made commander of the St. Petersburg district in 1906, a position which he was holding when he was appointed commander-in-chief of Russia's armies at the beginning of this war.

Nicholas Nicholaievitch was born November 6, 1856, but he is apparently as vigorous and erect as when he was a dashing young giant of a hussar.

The Grand Duke himself is a fine athlete, a keen horseman and he himself taught the present Czar, his first cousin once removed, how to straddle a horse. The Grand Duke was married in 1907 to the Princess Anastasia, daughter of the present King of Montenegro, and a sister of the Queen of Italy. It was believed to be a love match, and the Grand Duke is said to be devoted to his wife.

In Russia the Grand Duke is not held so high nafa strategist as he is in America. His critics say, for one thing, that he should never have gone to the crest of the Carpathians, as he did about a year ago, knowing that he had little ammunition. On the other hand, his defenders say that the Grand Duke did not know of this shortage, and they aver that but for corruption and inefficiency in Petrograd, which held up long-overdue orders for shells, the long retreat of last spring and summer would never have occurred.

Fortune awaits the inventor of a lifeboat that will float on a sea of trouble.

SIR WILLIAM R. ROBERTSON.

A "Tommy" Who Has Become Virtual Head of British Army.

One of the most remarkable personalities that the war has disclosed in the British army is that of Sir William R. Robertson, who is now chief of the imperial general staff, and, as reports from London tell us, the most influential man in the military organization of Great Britain. Lord Kitchener by no means excepted. Sir William has long been a valued officer to whose merits his superiors were quite alive, but it is only within the last year that other lands have heard his name. His career is especially interesting, for it shows the opportunities that lie open to capacity and faithfulness even in an organization as fundamentally aristocratic as the British army.

For Sir William has literally risen from the ranks with nothing except his own merit to recommend him. Without any advantage of technical education he has made himself perhaps the greatest authority in England in the higher and more difficult problems of army organization and field strategy.

He began life, we are told, as either a butler or a footman; on that point stories differ. Whichever it was, Sir William did not long remain content in that station of life. He came up from Lincolnshire in his twentieth year and enlisted as a private in a cavalry regiment. For eight years he remained a trooper, although he took every opportunity to improve his mind and to study the lore of the profession he had adopted. He spent almost all his money—a British cavalryman gets fourteen pence a day—in books, and there is a story that when he was busy grooming his horse or cleaning his equipment he would get a comrade to read to him from some classic English author or from a textbook on war.

Almost all British officers are men of family who have been educated at the military college at Sandhurst, but a private who has the knowledge and the character can occasionally get a commission by passing a stiff examination. Young Robertson got such a commission in the Third Dragoon Guards at the age of twenty-eight, and he soon showed so much fitness for the highest sort of staff work that he was attached to the intelligence department of the Indian establishment. He spent the spare moments of his busy days learning every Indian dialect he could master, and made himself thereby one of the most useful officers in the service.

He came out of the Chitral campaign with a severe wound, the Distinguished Service Order and the rank of staff captain. After a tour of duty as home he went out in the Boer War, where he won fresh distinction, both in the field and in staff duty. Meanwhile he had learned French and German and studied carefully the army systems of the Continental nations; and in 1910 this self-taught, self-trained officer, who had no groundwork of regular academic educatio was put at the head of the Army Staff College, an institution that gathers the ablest officers in the army for instruction in the higher branches of war. He distinguished himself there again, and was in charge of outfitting and supplying the expeditionary force that went over to France in 1914. Sir John French made him his chief of staff, and he was in time promoted from that post to the head of the general staff in London.

A remarkable man, only fifty-five years of age now, and good for many years to come, if one may judge by the air of vigor and of physical fitness that distinguishes him. It is that power of endurance which has enabled him to give sixteen hours' work to the day, as he has done more than once for long periods in his life. Like most successful generals, he talks little and listens patiently, and is not at all impressed with the sacredness of red tape. He is modest and retiring, and is indifferent to opportunities of self-advertisement. He is, they say, proud of one thing only—and that is that he was once a "blooming Tommy," and that within thirty years he made himself the virtual head of the British army. And of that he has an unquestionable right to be proud.

CANNON IS KNIFE SIZE.

New Weapon is Invented for Pocket Use.

The smallest breech loading cannon in the world is now being made for pocket use. It is not a toy, but takes a 22-calibre rim fire cartridge and fires a bullet that would inflict a nasty wound at close range.

It is in the form of a pocket knife no larger than the usual knife, and has two blades of fine steel. But at one end is a hole. Any one asked to examine the article and say what it is will most likely guess that it is some new fangled pencil sharpener or cigar cutter.

In the end of the knife is a steel block that turns out on a swivel, being held by a spring that is released with the thumbnail and reveals a hole straight through the block. The cartridge is inserted at the base of this hole, the block is swung back into place, the trigger on the side is open, thus cocking the pistol, which is now ready to fire. It is held in the hand and the trigger pressed down with the thumb.

BRITISH HOSPITAL SHIPS.

Make Their Own Antiseptics By Newly-Invented Device.

The fact that, in this war, hospital ships have played a great part in the transport of the sick and wounded, has endowed the question of the disinfection of these ships with special importance. A ship bringing cases of para-typhoid fever or dysentery from the Near East to England would become, were measures of disinfection neglected, a public danger. The difficulty has been to devise adequate measures which shall be, at the same time, easily applied and relatively cheap.

This difficulty has been solved in large measure by means of an apparatus recently installed in the Aquitania under the supervision of Dr. Dakin and at the instance of the Medical Research Committee of the National Insurance Act.

The apparatus consists of an electrolytic cell, a reversing switch capable of carrying 100 amperes, and some ordinary insulated electric cable. The cost is about $250. The cell stands upon a rubber mat to insulate it, and is raised upon a low table to enable its contents to be poured out easily. It is filled with cold sea water, and if a current of 60-75 amperes at 110 volts be then turned on a solution containing two parts of sodium hypochlorite or available chlorine to 1,000 parts will be obtained in five minutes. The cost of this solution works out at 3d. per 100 gallons.

The solution is also excellent as a sterilizer of drinking water (one part chlorine to one million parts), and as an antiseptic for wounds (used undiluted as produced by the electrolyzer, i.e., two parts hypochlorite of soda to 1,000 parts). Further, in the butcher's department its value was soon evident, and also in the laundry for soaking undyed cotton and linen goods. It was added to the water in the swimming bath of the ship in the proportion of one part in two million parts, with the result that bacteria which had formerly been present in the water to the number of 2,000 per c.c. were reduced to 200 c.c., a 90 per cent. reduction.

These excellent results have delighted all who have observed them. In the case of the Aquitania the economy in largely replacing expensive coal-tar disinfectants, such as carbolic acid, cresol, etc., by electrolytic hypochlorite will approximately pay for the cost of the cell in the course of a single trip of three weeks.

LAND FOR THE DISABLED.

Australian Wounded to be Taken Care of by the State.

Representatives of Australian federal and state governments have adopted a scheme for the settling of returned soldiers on the land.

The bases of the scheme are, first, the provision of land by the States, which is to be available for the dependents of deceased soldiers and for returned soldiers; second, the provision of the federal government of funds and loans to the States for the purpose of making advances through agricultural banks or other governments, stock and implements; third, the advance by State institutions to soldiers and settlers of money at cost, plus reasonable working charges; fourth, the inviting of subscriptions to a special repatriation fund with the object of providing for the subsidiary requirements of returned soldiers, the fund to be vested in trustees, who are to make loans without interest; and fifth, the immediate establishment of State training farms, on which inexperienced men are to serve a probationary period in order to determine whether they possess aptitude for the work, in addition to which arrangements are to be made for training men on approved private farms.

It is estimated that—assuming the war ends this year and that the necessary money is raised in the Commonwealth within three years—by the end of June, 1919, it will be possible to settle upward of 42,000 suitable persons on the soil.

SCIENTIFIC FACTS.

It is estimated that an acre of good fishing in the sea will yield more food in a week than an acre of the best land will yield in a year.

The taste for frog-eating is increasing in America. Last year 6,000,000 frogs were placed on the markets of St. Paul and Minneapolis.

The new bridge across the Tiber at Rome, having a span of 328 feet, is the longest re-enforced concrete arch in the world.

The most remarkable tide in the world is that of the Bay of Fundy. It rises at the rate of a foot every five minutes, the water sometimes attaining the height of seventy-five feet.

It is believed that forests sometimes take fire through the branches of trees being rubbed together by the violence of the wind, thus producing the friction necessary to ignite them.

In Japan devilfish weighing up to 200 pounds are sometimes caught. These fish are amphibious; they are often seen wabbling on their tentacles, like giant spiders, in search of patches of sweet potatoes. The natives kill them with clubs, an the water they are caught in jars lowered to the bottom, which the octopus enters, thinking them a good retreat from which to catch his food.

HISTORIC PUNS.

War Time Jokes Run Through Centuries of English History.

The English are declared to take their pleasures seriously. Perhaps they do, but, on the other hand, they often show an admirably gallant gayety in the face of danger, difficulty and discouraging circumstances. An abundant correspondence from the front has recently revealed Tommy Atkins in the field is far from being a serious minded person much of the time; he is often as "larky" as a schoolboy, and his exuberant nonsense is frequently touched with gleams of real wit as well as humor.

But it is not British Tommies only who joke in war time. Throughout centuries of English history, jokes, from sources military, literary, noble and even royal, have occasionally enlivened momentous events. Puns, the most frivolous and trivial, sometimes the most disdained, of jocular efforts, attach here and there, like impudent burs, to the most serious and careful chronicles. The sober historian who writes fully of the disastrous Battle of Culloden, which decided the final fall of the royal house of Stuart, when he relates that the advance of Generals Cope, Wade and Hawley was delayed by the snow-filled glens and icy slopes of wild Scotland, condescends to record in a footnote that the opposing forces drew mirthful encouragement from this punning couplet:

Cope could not cope, nor Wade wade through the snow,
Nor Hawley hawl his cannon to the foe.

When, in 1797, the fleet of Admiral Duncan was about to engage that of the Dutch Admiral de Winter, the British captains came aboard the flagship for instructions. They received them in an address of memorable brevity and point.

"Gentlemen," said Admiral Duncan, "you see a severe Winter approaching; I have only to advise you to keep up a good fire."

Their enthusiastic compliance with his advice resulted in a brilliant victory.

Perhaps the briefest and wittiest of historic English puns was the Latin announcement in a single word of the conquest of Scinde, attributed to the conqueror, Sir Charles Napier:

"Peccavi." (I have sinned.)

PRIEST MINISTERED TO ENEMY.

German Halted Comrades While He Prayed for Dying British.

The British press, bitter though it is toward Germany and most things German, is never slow to pay tribute to an act of heroism even though that act be performed by an enemy. An instance of this is found in the publication of a letter written to the Daily News by a soldier who tells how a German priest ministered to British soldiers in their dying moments.

In the course of a spirited action in and between trenches two young British officers and five men were severely wounded. "Their position was helpless," writes the soldier, "for it was impossible to rescue them. Despite our tremendous fire the Germans with fixed bayonets tried to reach the party, and their intention was obvious. They got within a few yards of the wounded, when one of their number sprang in front of them and flashed a crucifix. 'Stop!' he shouted, and then he knelt by the side of our men and blessed them. The other Germans immediately withdrew.

"Then we managed to reach the wounded, and our officer thanked the priest for the brave way in which he had behaved in the face of his own men. 'Take me,' said the priest, 'I am your prisoner.' The officer said he would not do that, but he would see that he returned to the German lines unharmed. The promise was kept, and before they parted the priest, falling on his knees, thanked our officer warmly, adding: 'God bless you, and good luck!"

THE GREATEST FISH.

Whale Shark Is Sometimes Sixty Feet Long.

The largest living shark (Rhinodon typicus), more commonly known as the whale shark, is a near relative of the dogfish, and has none of the bloodthirsty attributes of a true man-eating shark. It is often forty, and sometimes sixty, feet long, and is probably the largest of all living fish, for the great basking shark, its nearest rival, is not known to exceed a length of thirty-six feet. Like the basking shark, it is a pelagic fish and roams the seas of nearly the whole world. It has even been caught as far north as St. John in New Brunswick. The whale shark is a slow creature and does not frequent great depths. Its food consists of the minute crustaceans and mollusks that live near the surface of the ocean. In spite of its huge size, the whale shark is incapable of swallowing a man. It differs from the true shark, which has enormous triangular teeth that cut like knives, in having very small teeth and wide gill openings with peculiar combs like gills that, like the whalebone in whales, serve to retain the minute sea food. No one knows certainly how long these huge sharks live, but, judging from their slow growth, they probably live to a very old age. Their size probably increases slowly until the end of their lives.

The Paisley Advocate

PAISLEY, MAR. 29th, 1916

Total Prohibition for Ontario

To be in Effect by September, 1916

The Ontario Government's temperance policy was announced in the Legislature on Wednesday of last week, by Hon. W. J. Hanna, Provincial Secretary. Total prohibition for the Province is to be enacted by the Government, without a vote of the people, to be kept in force until some time after the war is ended, when a referendum will be taken as to whether prohibition is to be continued. Hotels, shops and clubs will have an extension of their present licenses from the close of the present license year to dispose of their liquor stocks. It is expected that by Sept 1st or Oct 1st at latest the sale of all intoxicating liquors as a beverage will be closed off entirely. Following are the summarized provisions of the new prohibition law:

Prohibition will go into effect about September by direct legislation.

All licenses, with a few exceptions, will be extended after May 1st until date fixed.

Referendum will be taken after the war and a considerable time after return of soldiers.

New Ontario Temperance Act follows Manitoba Act, except for the incorporation of improvements taken from Ontario License Act.

Wholesale druggists will be licensed to sell in wholesale quantities for scientific and mechanical purposes, upon production of an affidavit as to uses to which liquor will be devoted.

Retail licenses will be issued, permitting sale to individuals upon a doctor's prescription, and to a doctor not more than a pint at a time, or a veterinary not more than two gallons at a time.

Ontario License Board will be reconstituted with membership of three, and charged with administration of new laws.

The bill will not interfere with importation of liquor for private use or keeping it in the home.

Heavy fines ranging to $1000, and sentences up to eight months, are provided for infraction of the law.

The measure is strongly approved by the temperance people of the province. The Government is congratulated and commended for taking the advanced step, and has the support of the Liberal opposition in the House.

—Two weeks ago THE ADVOCATE discussed the indiscriminate system under which recruiting is being carried on, concluding with the opinion that we should have a universal system of training and recruiting men for war, also that a universal system of recruiting for the ranks of commerce and industry is equally urgent under a strain such as the world is undergoing at present. The Financial Post, in speaking of systematic recruiting puts it this way:

> With so many good men in Europe or preparing to go, thousands more who will go, and the scarcity of skilled labor for office and factory and farm, our Ministers of Labor and Militia should get together on the question. The men and women of Canada should be cardindexed, and the men who are least necessary for family or employment reasons should first be drafted. The present system of recruiting is unfair to good men, unfair to the nation. The men we need most at home are responding first, the shirkers are remaining and there are thousands of women fit to take the places of men who go. The Hon. Mr. Crothers is the man to make the move. Employers and workmen look to him to protect the home farming and industrial situations. The call is urgent. The present war will not, we fear, be the end of our fighting.

—An episode that occurred at Salisbury Plains, when the first Canadian contingent went there to train for the front, demonstrates the difference between old world and new world ideas in handling a corps of fighting men. General Alderson was in authority at the camp when Col. Currie, M.P. for North Simcoe, went over with his brigade of Canadian Highlanders. Col. Currie was ordered to put his tents where they would be in a nice line but the men would be in the water. Instead, he took upon himself the responsibility of placing them a few yards out of line to avoid the swamp. When General Alderson's staff officer remonstrated and held up the regulations laid down for encampments, Col. Currie vigorously condemned the drill book and red tape. "This is not a show camp," he said, "I intend to place my men where they can maintain their health. with 100 per cent always on parade, fit to fight, instead of in the hospital with colds and pneumonia."

LOCAL AND DISTRICT NEWS

Beware of Sweet Clover

A Bruce Tp subscriber pens the following warning for publication in THE ADVOCATE: "Sweet clover will get into all crops and smother them out. As the seed will be carried out in the manure, every field will become infested. I had it on my farm when I had 80 head of cattle, and none of them would touch it. Take the advice of an old farmer and beware of it. We have a sample of it in this township. I got some of it in grass seed. Driving along the road you can see it in every farm."

160th Battalion Notes

The Battalion is likely to go into training camp at London as soon as recruited to strength. Major Thos. Hay, of Paisley, having resigned from the position of Junior Major in the 160th, Capt. Arthur W. McNair, who has been Adjutant, is promoted to Junior Major. Lieut White, (son of Walkerton, is acting as Adjutant Capt Harry Chadwick has been made a company major. Mr. M. A. Halliday, of Teeswater, has offered to present the regimental colors to the 160th, and the offer has been accepted by Col. Weir, the commanding officer.

Tea Room Still Booms

On Saturday, March 18 h, the ladies of Lockerby and 9th con Elderslie to Gillies Hill got the Tea Room business record up a notch, the afternoon's proceeds amounting to $100. Then on Saturday last the ladies of 10th and 12th cons Elderslie held forth, and boosted the record again, their total being $135. The ladies of the surrounding country are certainly giving unstinted assistance to the Red Cross by keeping up the Saturday fair and lunch business. The unselfish spirit is most commendable, and the generous patronage met with shows a reciprocal and cooperative spirit on the part of the townspeople.

More Ex-Paisley Boys in Khaki

Private Sam Keyes, training at Mailcloe Hut, Sask., son of Mrs F Keyes, now of Hamilton. Pte Norval Kyle, training at Winnipeg, son of Mrs Frank Purdy; Pte John W McPhee, enlisted at Saskatoon, is the youngest son of Mr and Mrs Angus McPhee, Elora road north. Lieut Chas Sheppard, commander of the machine gun section of the 125th, Brantford, is a son of Mr and Mrs F E Sheppard, formerly of Paisley. Another son, Alton, is in the band of the 90th Batt., and their only daughter, Miss Helen, has gone to France with a contingent of Red Cross nurses from New York.

A Great Old Goose is This

Mrs John Butchart, of 12th con Brant, is the owner of the most aged and industrious domestic goose in western Ontario, or perhaps in the Dominion. It is 26 years since this goose was hatched, and she is reported to be quite smart yet. Last year she laid nine eggs, then hatched and raised two goslings. In the course of her life Granny Goose Butchart has supplied enough goose feathers about her to fill a bed-tick, raised a dray-load of fine Thanksgiving roasts, and is still working as good a wealth producer as any of her greatest grand daughters have been. If some wide-awake poultry fancier had that never-die goose in his flocks, along with some of her progeny, he would be advertising the most virile and fertile strain that ever lived, and sell the eggs at 25c for hatching.

The $1.50 Subscription Rate

After April 1st THE ADVOCATE subscription rate will be $1 50 per year, in accordance with the notice given our subscribers. Since the close of our last financial year we are more convinced than ever that publishers are justified in increasing the rate. Expenses are so much higher now that we no longer can make a profit sufficient to keep a newspaper business going at $1 00 per year. Therefore, as we stated before, it is absolutely necessary that we charge all subscribers $1 50 per year hereafter, and we trust that our patrons will recognize the fact that it is business reasons only that prompt us to demand the new rate from one and all. Many papers in Ontario, including most of those in Bruce Co, put the new rate into effect on Jan. 1st, 1916, and by July 1st there will be very few indeed offering at the old price of $1 00.

The Late Mrs. M. McAllister

One of the most highly esteemed residents of Gillies Hill section was laid to rest on Wednesday, 22nd inst., in the person of Sarah Munn, beloved wife of Malcolm McAllister, one of the early pioneers. Although the deceased had been afflicted with heart trouble for some time, no immediate danger was apprehended by the husband or family, and her sudden demise on Sunday night, March 19th, came as a great shock to all. Mrs McAllister was a daughter of the late Mr and Mrs Neil Munn, and was born on March 24th, 1857, at lot 11, con 6, Elderslie. She was married in April, 1884, and lived all her life within a mile of her birthplace. For 43 years she had been a consistent member of the Paisley Baptist church. Besides the sorrowing husband, there are left to mourn the loss of a kind and loving mother a family of six sons and two daughters: Archie and Malcolm, of Earl Grey, Sask.; Peter, of the 9th con Elderslie; Neil, Glen, Alex, Marion and Barbara at home; also one brother, Mr Peter Munn of Sherman, Mich., and one sister, Mrs D McKechnie, of Walkerton. The funeral on Wednesday was largely attended, service being conducted by Rev Mr Neilson of Paisley Baptist church, assisted by Rev A O Howat, of the Gillies Hill Presbyterian church. Mr McAllister and family have the sincere sympathy of a wide circle of friends in their bereavement.

A Newsy Note from the West

Mr. Joe Potts, of Regina, sends along his subscription to THE ADVOCATE, also some items that will be news to many of our readers. He says: "THE ADVOCATE arrives every Monday morning, and sometimes every bit of it is news, but it is marvellous the number of names I do not know now down there. I sum up the marriages, births and deaths column first, where I found both joy and sorrow last week, as I noticed Clarence Munro's family sickness, and the death of Geo. Bell. The latter was a fellow and we looked for call. I spent most of last week in Winnipeg, with our hockey team. We had to get back the Allen cup we lost last year, but were unsuccessful. But we were always have a good time. Fred. Neil McLean is Major in the 61st Batt., second in command. I spent Sunday with him. His mother is with him. I sure enjoyed my visit, as we recalled school days and other old times. The 61st have the honor of being the amateur champions of the world in hockey this year, of which they are proud. The Batt expected to leave for England to day (Thursday). Doc Thomas' nephews, Edgar and Charlie Thomas of Delorraine, are in this Batt., the former an officer. I also saw Geo. McLelland in Winnipeg, and several others from Bruce. I had Tom and Billie George, formerly of Paisley, in to see me to-day. They are visiting their sister in Regina. I had to look Billie over a couple of times to know him, as it seems quite a while since I saw him in your office. I saw Geo. Reany two weeks ago in Saskatoon. Looks well, but his hair is white. We sure have had a hard winter. It must have snowed six inches to-day. Trains on the north lines are lost in snow banks. I follow with great interest the doings at Ebenezer rink. It would give a leg to see that hockey team of Dwight's, composed of Bob and Billie McKelvey, Charlie Thomas, Joe Kirkland, etc. It would be as good as seeing real hockey for a change. That was some enterprise on the part of the people of Paisley. There would not be many doctor's bills to pay around that corner this winter in the way of sickness, but there was the liability of being a few casualties in the games. The Scott government is having a real lively time these past few weeks. Remember me to friends."

Contributions Acknowledged

Measles are Dangerous

In view of the epidemic of measles from which so many local homes are suffering, the following excerpt from the pages of the Health Bulletin issued by Dr Hastings' Department in Toronto should be read carefully, and its remarks taken to heart by all who read it. The article says: "What would you do if you suspected that your child had scarlet fever? You would immediately become alarmed, prevent any other child from coming into contact with the child or anything he touched, and send for the doctor. What if it were measles? You might say, like many others: 'It is only measles, let the other children get it and have it over.' You might be quite innocent of the terrible results that may follow, but when you have read this article the plea of ignorance can no longer be used to satisfy your conscience. You would consider yourself a murderer if you let tuberculosis expose a child to scarlet fever. Are you aware of the fact that this year measles has killed over four times as many as scarlet fever? When you know that 49 children have died of measles to date, can you persist in the delusion that the disease is not serious? Let us repeat: Four times as many persons die from measles as from scarlet fever! But the half of the story is not yet told. Much greater is the mortality from other diseases brought on by measles. No other known cause is so powerful in destroying the natural immunity to other germ diseases. A large proportion of the deaths from bronchopneumonia are directly traceable to a previous attack of measles. Similarly, a rise in the mortality from infantile diarrhoea is usually noted after an outbreak of measles. This is the seventh time this year that attention has been drawn through the Bulletin to the importance of the measles. Most of the physicians of the city have responded splendidly by complying with the law requiring reports of cases. A few of the profession and many of the public remain to be convinced. It is to them that this statement is addressed."

On the Western Canadian "Firing Line"

THE ADVOCATE received an interesting letter a few weeks ago from Rev Robt C Scott, of the Methodist Mission at Gibson's Landing, B.C. We intended giving our readers the contents at the time, but the epistle was mislaid. It has come to light again, however, and we take from it the following excerpts: "We have had a regular old-time Bruce winter this year. The snow has been a foot deep here at the water front and two or three times that depth back on the hills behind us. The mercury has not dropped so low, but the density of the atmosphere unless it feel so much colder than it really is. We had one night when it dropped below zero. I have been having my own time with my gasoline launch, as the storms have been so severe and continuous. She broke loose three times and went ashore from where I have her anchored out, the third and (I hope) the last time the worst of all. It is simply miraculous how she cleared the rocks on her ice and struck where the beach was of fine sand and gravel. It was "all on a Sunday morning, too," and that made it so much the worse, or the better, as instead of preaching to the congregation I had them down on the beach trying to get the boat off the shore. I did not succeed until the following morning's tide at 3 a m. I often think of my ambitions in seamanship on the old Saugeen and compare the present with the past. I have a fine boat about 28 ft long and 8½ ft beam, 8 h p gasoline engine and an auxiliary sail. I use it to go from point to point on the waterfront, along the coast and up the Sound visiting the settlers and the camps of various kinds as I find where they are. I have two services a Sunday here into the bargain, so you see my time is pretty well taken up. This is the firing line of the church's work, as it were. I am more and more in love with my work. . . . We follow with great interest the letters that come from the boys at the front who have gone from Paisley and vicinity."

Timely Advice to Potato Growers

Late blight and potato rot caused considerable damage last season to the potato crop, particularly throughout the eastern section of the continent of America. In many instances the loss amounted to 25 per cent of the total crop, and more in certain localities. In consequence farmers were induced to part with their potatoes more readily this winter owing to the high prices paid for this commodity for domestic use. This, it is probable, will result in the scarcity of superior seed, since the general practice is for farmers to use for that purpose the remainder of their potatoes in storage towards spring. Seeing that the crop was much diseased at the commencement of the season and considerably affected by storage rots, and with all or most marketable potatoes sold for table use, the quality on hand for seed purposes will be very inferior, when the time for planting comes.

We would therefore urge farmers to immediately reserve for seed purposes the quantity, and a little more to make allowance for further losses through rot, required for seed purposes. These should be hand selected tubers, sound and free from any sign of rot or decay, of uniform size and pure to variety. Tubers slightly larger than a hen's egg are most economic for seed purposes. They should be kept until planting time in a dark, well-ventilated and cool place of storage, spread out in a layer not more than three potatoes deep.

Inquiries which are reaching us, not only from many sections of the Dominion, but also from the United States, indicate that the above caution is justified. There can be little doubt that farmers who have a good quantity of sound seed potatoes on hand will obtain a high price for them, when others begin to realize the scarcity of such seed. Consult Circular No 9 for prevention of late blight and treatment of tuber tubers to prevent disease, published by the Dominion Botanist, Experimental Farm, Ottawa, and obtainable from the Publications Branch, Department of Agriculture, Ottawa. Specific inquiries relating to disease questions addressed to the Dominion Botanist, Central Experimental Farm, Ottawa, will receive prompt attention.

WILL WE EVER WALK ON AIR?

Train Of Thought Inspired By a Letter About "Fruit-a-tives"

MR. D. McLEAN

Orillia, Ont., Nov. 28th, 1914.

"For over two years, I was troubled with *Constipation, Drowsiness, Lack of Appetite and Headaches*. I tried several medicines, but got no results and my Headaches became more severe. One day I saw your sign which read 'Fruit-a-tives' make you feel like walking on air. This appealed to me, so I decided to try a box. In a very short time, I began to feel better, and *now I feel fine*. Now I have a good appetite, relish everything I eat, and the Headaches are gone entirely. I cannot my too much for 'Fruit-a-tives', and *recommend this pleasant fruit medicine* to all my friends". DAN McLEAN.

"FRUIT-A-TIVES" is daily proving its priceless value in relieving cases of Stomach, Liver and Kidney Trouble—General Weakness, and Skin Diseases.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

PERSONALS.

Ontario Women.

Chatham, Ont.—"Some time ago I had a general breakdown. It terminated in quite a bad case. Dr. Pierce's Favorite Prescription was recommended to me by a friend who used it and received much benefit. I began taking it and in six months I was completely cured of my ailment and have never had any return of same. I can recommend this medicine as being good, if one will give it a fair trial."—MRS. JOHN ACKERT, 67 Edgar St., Chatham, Ont.

At the first symptoms of any derangement at any period of life the one safe really helpful remedy is Dr. Pierce's Favorite Prescription.

Thousands of women in Canada have taken it with unfailing success.

Dr. Pierce's Favorite Prescription is a true friend to women in times of trial. For headache, backache, hot flashes, mental depression, dizziness, fainting spells, lassitude and exhaustion, women should never fail to take this tried and true woman's medicine.

Prepared from nature's roots and herbs, it contains no alcohol or narcotic, nor any harmful ingredient. In either tablet or liquid form. Write Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., to-day for free medical advice.

Dr. Pierce's Pleasant Pellets not only the original but the best *Little Liver Pills*, first put up over 40 years ago, by Dr. R. V. Pierce, have been much *imitated* but never *equaled*, as thousands attest. They're purely vegetable, being made up of concentrated and refined medicinal principles extracted from the roots of American plants. Do not gripe. One or two for stomach corrective, three or four for cathartic.

ANIMALS' EYES

Reason Why Some of Them Can See in the Dark

It is commonly supposed that cats and some other animals are gifted in a way that enables them to see in perfectly dark places where it is impossible for the human eye to discern anything. This is only partly true, however. In a really dark room a cat can see no more than a human being. In semi-darkness, though, a cat can see more, because of a distinctive difference in their eye formation.

The eye of a normal person automatically adjusts itself, to the enlarging and contracting of the pupil, to make it possible to see distinctly in different degrees of light.

When we go from a darkened room out into a bright sunlight the eyes blink and squint until the pupils have contracted sufficiently to accommodate the eyes to the quantity of light. And in going from the bright light into a darkened room we cannot see clearly until the pupils have expanded to take in all the light possible.

The advantage that cats and some animals have is that the pupils of their eyes are much larger and can expand so as to take in more light than the human eye. In places that may seem quite dark to human beings there may be more light than can be taken in by the eyes of the animals, and this accounts for the superior gift with which they are credited. In an absolutely dark room the cat or any other animal has no advantage.

THE USEFUL QUAIL

It is estimated that a single quail destroys 75,000 bugs and 6,000,000 weed seeds annually (says "Our Dumb Animals"). A quail killed in a Kansas wheat field had the remains of 2,000 Hessian flies in its craw, and the Hessian fly causes a loss of $20,000,000 to the wheat growers of the country every year.

It is not enough to protect the song birds! It is high time to look to the future of the quail, one of the most beneficial of all our birds, lest the sportsman and his dog, the snare, the trap, and the net reduce him to total extinction.

The quail's decreasing numbers make it apparent that he cannot be saved from extinction; if classed only as a game bird. He is a song bird as well, a pre-eminent insectivorous bird, such as nearly all the States protect at all seasons. Why not, then, give him peace and security by placing him on the song-bird list?

CARPET SHOES FOR HORSES

Novel Idea Which is a Boon and a Blessing to Man's Friend

The idea came to us from the Minneapolis Humane Society. The sole of the shoe is a heavy piece of any of the cheaper grades of Brussels carpet cut in the shape of the bottom of a horse's hoof. Around the circular part of this is sewed a strong piece of cloth, five inches wide including a broad hem. Through this hem a tape is inserted long enough to make it possible to tie about the ankle when the shoe has been slipped over the foot. The purpose of the shoes is to help a horse that has fallen on an icy or slippery pavement to get on his feet and a short distance, perhaps, to some place where he can secure a footing. A pair of these, or sometimes a set of them, answer much better than a blanket under his feet. They are easily made, and cost 25 cents for four.

The Massachusetts S.P.C.A. has had sets of them placed at a number of stores in Boston where, because of the pavement, many horses fall. Notices were inserted in the papers calling attention of teamsters and others to the pieces where they could be found.—Our Dumb Animals.

Tombstones For Monkeys

Tucked away in one corner of Montevideo, Uruguay, is a small, carefully kept cemetery for receiving the deceased pets of wealthy families, who often pay somewhat lavish fees for a small plot of ground. While in some cases the graves are supplied merely with headstones, there are many of them which have substantial monuments. It is not infrequently the case that these plots are looked after almost as carefully as if they held the bodies of human beings. There are dogs and monkeys, parrots, cats, and various other animals, resting beneath tombstones, their names inscribed in granite or marble, and their graves adorned with flowers.

Chiefly owing to the high prices, a record in the earnings of men in this crab and lobster fishing is reported at Sheringham, on the Norfolk coast. In one week thirty-eight boats, with two men to a boat, averaged $43. Every man of a Sheringham crew earned $186 in three weeks' general fishing.

ARE FATHER'S QUALITIES INHERITED AT BIRTH?

Many Geniuses Have Equally Brilliant Sons to Carry on Career—Exceptions Also Frequent

Scientific studies of heredity are showing some very interesting and unexpected results. We know that the typical character of a man undergoes variations at different periods of a long life, and that the son is likely to "take after" his father. But we notice, often with surprise, that capacities that were dominant in a father, which gave him sometimes great reputation, frequently are entirely lacking in his son.

Literary distinction, genius in any particular, which distinguished a certain father are quite frequently absent in the case of his son. In wondering at this we fail to take note of the period in the father's life when he "made his mark." After patient investigation science has come to the conclusion that the son inherits from his father only the qualities that were dominant at the time of his birth.

That the son will partake of the father's type of mental energy that was dominant at the time of the son's birth is shown to be substantiated by history and biography. An author presents a classified list of world celebrities together with the ages of their respective fathers at the time of their birth. For example, Alexander, Bonaparte, Charlemagne, Great, Hannibal, Pompey and Roosevelt were all born when their fathers were at the age of less than thirty-one, the age of militarism and aggressiveness.

Genius at Thirty-one

At the age of thirty-one to forty, the artistic age, their fathers presented to the world such geniuses as Bach, Beethoven, Goethe, Shakespeare, Raphael, Carlyle and others of their status. In the list of statesmen these were born when their fathers were urged from forty-one to fifty, Bismarck, Cato, Cromwell, Machiavelli, Webster. Great names in philosophy born when their fathers were over fifty-one are: Aristotle, Bacon, Buddha, Confucius, Franklin, Moses and Solomon.

It is remarked that Mohammed, whose father was twenty-five, though a moralist and prophet, would rule the world by the sword; also that General Robert E. Lee, whose father was fifty-one, went to war because his moral obligations forced him to do so and not because he wanted to.

THE REPORTER'S TRIALS

Some of the Questions and Suggestions Hurled at Newspapermen

These are given as some of the reasons why reporters become bichloride fiends:

1. I should think newspaper work must be awfully fascinating.
2. Now I'm just telling you what happened. You can write it up to suit yourself.
3. Remember this is confidential.
4. Will this be in tomorrow's paper?
5. The linotype must make things a lot easier for you reporters.
6. I just think it's a shame you can't sign your name to your articles.
7. Give us a good write-up, won't you?
8. Don't know the latest news from the Balkans? What kind of a newspaperman are you, anyway?
9. I just called up to give you an item for the paper.
10. Don't you have a lot of exciting experiences? Or can't you?
11. Yes, I'm an old newspaperman myself.
12. Have a cigar?
13. Now try to get the names right, won't you?
14. I want to see the editor.
15. I have nothing to say.
16. Who wrote that piece in the paper?
17. All reporters have to know shorthand, don't they?

The Growth of the Hydra

During 1914 approximately 260 miles of low-tension wood pole lines were constructed in Ontario by the Hydro-Electric Power Commission, consisting of about 248 miles in the Niagara District and 15 miles in the eastern section of the Province. The right-of-way department was engaged continuously in this connection, arranging pole and tree trimming rights, etc. These lines are purchased on the 25-year easement plan. Some 700 farmers have been dealt with, agreements taken and the consideration paid, all without litigation or arbitration.

The Useful Worm

The earth passes through no fewer than five distinct chambers in the worm, the last of which is filled with minute stones that grind the food. ... piece of ground kept expressly ... mental purposes, it was found ... in twelve years a depth ... and a half inches had been ... the surface by worm ... original surface had been ... a thin layer of mould.

I Am "Granny" Chamberlain

"Granny" Chamberlain

Everybody's friend when they have coughs and colds and their children have croup and whooping cough.

Most everyone knows me. I have been going from home to home for nearly fifty years—always welcome, too, for I never fail in their hour of need.

I have helped young mothers whose babies were choking with croup, and been the comfort of parents whose children tramp to school through the wet winter weather. Many a cold and attack of bronchitis I have warded off, and thousands I have helped through the anxious moments of whooping cough. I have come to the aid of mothers and fathers when they had colds and influenza, and have been a relief to old folks suffering from bronchitis and asthma.

I have had a most varied experience; I go everywhere—among the rich and the poor, in cities and the country.

Now don't forget "Granny" Chamberlain! You will see me often now, for I am going to tell you of my experience and what can be done in your home with

Chamberlain's Cough Remedy

Yours for Health —Granny Chamberlain

BYRON PINK TOMATO

FREE

A post card addressed to us as below, with your name and address ONLY on the other side, will cost but one cent. Drop it in the nearest mail box, and it will bring promptly a copy of our illustrated 88-page catalogue for 1916. With it will come also—free—a 15c. packet of

Byron Pink Tomato

A perfectly formed tomato, the Byron Pink is uniform, large, and attractive. The flesh is firm, and the flavor delicious and full-bodied. It is a robust grower and a heavy cropper. It is an ideal tomato for forcing. You are going to buy seeds anyway; then you might just as well send for our catalogue and get this free premium for yourself.

The Catalogue tells about the other valuable premiums which we give with every order.

DARCH & HUNTER SEED CO., LIMITED, LONDON, ONTARIO, CANADA

DRAINAGE FOR WETNESS AND DROUGHT

How shall we obtain the most satisfactory soil moisture condition throughout the year? The great factor in moisture control is drainage, natural or artificial. Few farms are sufficiently drained by natural means, nearly all require some artificial drainage.

The problem then is, "Where shall we place our drains?" "How deep shall we put them?" "What size of tile shall we use?" The position of the drains depends largely on the slope of the field, the depth on the kind of soil, the size of tile on the extent of the area drained and the fall or grade given the tile.

If you are uncertain about these points or anticipate any difficulties the Ontario Agricultural College will send you a drainage surveyor who will, if necessary, prepare a map of your farm, showing the location of your drains, the size of tile to use, and the grades and depths of the drains. The cost to you for these services will be the travelling expenses of the surveyor, and as several surveys are made on one trip, the charge is seldom over $3.00 for each survey.

Those who have had their farms surveyed and have installed part or all of their drains may have a new plan prepared free of charge, if they will return the old plan, after marking in all changes made in the original system.

On the same terms as those for surveys the College will send you a man to give you a start on the installation of your drains, if you have had no previous experience. He will show you how to set grade stakes, grade the ditch bottom, make the junctions of main and lateral, lay the tile and assist you in any way required.

If you contemplate draining during 1916 or are planning for 1917 and need assistance, write to the O. A. College, Guelph, or your District Agricultural Office, state your difficulties and request assistance.

—"Advertising is the education of the public as to what you are, where you are, and what you have to offer in the way of skill, talent and commodity. The only man who should not advertise is the man who has nothing to offer the world in the way of commodity or service."—Elbert Hubbard.

HOW MRS. BEAN MET THE CRISIS

Carried Safely Through Change of Life by Lydia E. Pinkham's Vegetable Compound.

Nashville, Tenn.—"When I was going through the Change of Life I had a tumor as large as a child's head. The doctor said it was three years coming and gave me medicine for it until I was called away from the city for some time. Of course I could not go to him then, so my sister in law told me that she thought Lydia E. Pinkham's Vegetable Compound would cure it. It helped both the Change of Life and the tumor and when I got home I did not need the doctor. I took the Pinkham remedies until the tumor was gone, the doctor said, and I have not felt it since. I tell every one how I was cured. If this letter will help others you are welcome to use it."—Mrs. E. H. BEAN, 625 Joseph Avenue, Nashville, Tenn.

Lydia E. Pinkham's Vegetable Compound, a pure remedy containing the extractive properties of good old fashioned roots and herbs, meets the needs of woman's system at this critical period of her life. Try it.

If there is any symptom in your case which puzzles you, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER X. (Cont'd).

It was a very irate gentleman, flushed from unwonted exertion in the tropics, who was ushered at last into Saxon's room. It was a very much puzzled and interested gentleman who stood contemplatively studying the direct eyes of the prisoner a half-hour later.

Saxon had told Mr. Pendleton the entire narrative of his quest of himself, and, as he told it, the older man listened without a question or interruption, standing with his eyes fixed on the taller, twisting an unlighted cigar in his fingers.

"Mr. Saxon, I am here to safeguard the interests of Americans. Our government does not, however, undertake to chaperon filibustering expeditions. It becomes necessary to question you."

There followed a brief catechism in which the replies seemed to satisfy the questioner. When he came to the incident of his meeting with Rodman, Saxon paused.

"As to Rodman," he said," who was arrested with me, I have no knowledge that would be evidence. I know nothing except from the hearsay of his recital."

Mr. Pendleton raised his hand.

"I am only questioning you as to yourself. This other man, Rodman, will have to prove his innocence. I'm afraid I can't help him. According to their admissions, they know nothing against you beyond the fact that you were seen with him last night."

Saxon came to his feet, bewildered. "But the previous matter—the embezzlement?" he demanded. "Of course, I had nothing to do with this affair. It was that other for which I was arrested."

The envoy laughed.

"You punched cows six years ago. You cartooned five years ago, and you have painted landscapes ever since. I presume, if it becomes necessary, you could prove an alibi for almost seven years?"

Saxon nodded. He fancied he saw the drift of the argument. It was to culminate in the same counsel that Steele had given. He would be advised to allow the time to reach the period when his other self should be legally dead.

Mr. Pendleton paced the floor for a pace then came back and halted before the cot, on the edge of which the prisoner sat.

"I have been at this post only two years, but I am, of course, familiar with the facts of that case." He paused, then added with irrelevance: "It may be that you bear a somewhat striking resemblance to this particularly disreputable conspirator. Of course, that's possible, but—"

"But highly improbable," admitted Saxon.

"Oh, you are not that man! That can be mathematically demonstrated," asserted Mr. Pendleton suddenly. "I was only reflecting on the fallibility of circumstantial evidence. I am a lawyer, and once, as district attorney, I convicted a man on such evidence. He's in the penitentiary now, and it set me wondering if—"

But Saxon stood dumbfounded, vainly trying to speak. His face was white, and he had seized the convoy by the arm with a rip too emphatic for diplomatic etiquette.

"Do you know what you are saying?" he shouted. "I am not that man! How do you know that?"

"I know it," responded Mr. Pendleton calmly, "because the incident of the firing-squad occurred five years ago—and the embezzlement only four years back."

Saxon remained staring in wide-eyed amazement. He felt his knees grow suddenly weak, and the blood cascaded through the arteries of his temples. Then, he turned, and, dropping again to the edge of the cot, covered his face with his hands.

"You see," explained Mr. Pendleton, "there is only one ground upon which any charge against you can be reinstated—an impeachment of your evidence as to how you have put in the past five years. And," he smilingly summarized, "since the case comes before this court solely on your self-accusation, since you have journeyed some thousands of miles merely to prosecute yourself, I regard your evidence on that point as conclusive."

Later, the envoy, with his arm through that of the liberated prisoner, walked out past deferential sentries into the Plaza.

"And, now, the blockade being run," he amiably inquired, "what are your plans?"

"Plans!" exclaimed Saxon scornfully; "plans, sir, is plural. I have only one; to catch the next boat that's headed north. Why," he explained, "there is soon going to be an autumn in the Kentucky hills with all the woods a blaze of color."

The minister's eyes took on a touch of nostalgia.

"I guess there's nothing much the matter with the autumn in Indiana, either," he affirmed.

They walked together at a slow gait, for the morning sun was already beginning to heat down as if it were focused through a burning-glass.

"And say," suggested Mr. Pendleton at last, "if you ever get to a certain town in Indiana called Vevay, which is on some of the more complete maps, walk around for me and look at the Davis building. You won't see much—only a hideous two-story brick, with a metal roof and dusty windows, but my shingle used to hang out there—and it's in God's Country!"

Before they had reached the legation, Saxon remembered that his plan involved another detail, and with some secrecy he sought the cable office, and wrote a message to Durka. Its composition consumed a half-hour, yet he felt it was not quite the masterpiece the occasion demanded. It read:

"Arrived yesterday. Slept in jail last to-day. Am not he."

The operator, counting off the length with his pencil, glanced up thoughtfully.

"It costs a dollar a word, sir," he vouchsafed.

But Saxon nodded affluently, for he knew that the City of Rio sailed north that afternoon, and he did not know that her sister ship, the Amazon, with Duska on board, was at this moment nosing its way south through the tepid water—only twenty-four hours away.

As the City of Rio wound up her rusty anchor chains that afternoon, Saxon was jubilantly smoking his pipe by the rail.

In the launch just putting off from the steamer's side stood the Hon. Mr. Pendleton, waving his hat, and Jimmy Partridge wildly shouting, "Give my regards to Broadway!" The minister's flag, which had floated over the steamer while the great personage was on board, was just dipping, and Saxon's hand was still cramped under the homesick pressure of the farewell grips.

Suddenly, the traveler had a feeling of a presence at his elbow, and, turning, was profoundly astonished to behold again the complacent visage of Mr. Rodman.

"You see, I will appear to be among those present," announced the filibuster, with some breeziness of manner. "It's true that I stand before you, 'my sweet young face still haggard with the anguish it has worn,' but I'm here, which is, after all, the salient feature of the situation. Say, what did you do then?"

"I?" questioned Saxon. "I did nothing. The minister came and took me out of their Bastile."

"Well, say, he must have thrown an awful scare into them." Mr. Rodman thoughtfully stroked his chin with a thin forefinger. "He must have intimidated them unmercifully and brutally. They stampeded into my wing of the Palace, and set me free as though they were afraid I had the yellow-fever. Wish they flung the massive portals—all that sort of thing. Now, what puzzles me is, why did they do it? They had the goods on me—almost. However, I'm entirely pleased." Rodman laughed as he lighted a cigar, and waved his hand with mock sentiment toward the shore. "And I had put the rifles through, too," he declared, jubilantly. "I'd turn them over to the insurrecto gentleman in good order. Did they clamor for your blood about the $200,000?"

"Rodman," said Saxon slowly, "I hardly expect you to believe it, but that was a case of mistaken identity. I'm not the man you think. I was never in Puerto Frio before."

Rodman let the cigar drop from his astonished lips, and caught wildly after it as it fell overboard.

"What?" he demanded, at last. "How's that?"

"It was a man who looked like me," elucidated Saxon.

"You are damned right—he looked like you!" Rodman halted, amazed in his silence. At last, he said: "Well, you have got the clear nerve! What's the idea, anyhow. Don't you trust me?"

The artist laughed.

"I hardly thought you would credit it," he said. "After all, that doesn't make much difference. The point is, my dear boy, I know it."

But Rodman's debonair smile soon returned. He held up his hand with a gesture of acceptance.

"What difference does it make? A gentleman likes to change his linen—why not his personality? I dare say it's a very decent impulse."

For a moment, Saxon looked up with an instinctive resentment for the politely phrased skepticism of the other. Then, his displeasure changed to a smile. He had, for a moment, felt the same doubt when Mr. Pendleton brought his verdict. Rod man had none of the facts, and a glance at the satirical features showed that it would be impossible for this unimaginative adventurer to construe premises to a seemingly impossible conclusion. He was the materialist, and dealt in palpable appearances. After all, what did it matter? He had made his effort, and would, as he had promised Duska, vex his Sphinx with no more questioning. He would go on as Robert Saxon, feeling that he had done his best with conscientious thoroughness. It was, after all, only cutting the Gordian knot in his life. After a moment, he looked up.

"Which way do you go?" he inquired.

The other man shrugged his shoulders.

"I go to Puerto Frio—after the blow-off."

"After the blow-off?" Saxon repeated, in interrogation.

"Sure!" Rodman stretched his thin hand shoreward, and dropped his voice. "Take a good look at yon fair city," he laughed, "for, before you happen back here again, it may have fallen under fire and sword."

The soldier of fortune spoke with some of the pride that comes to the man who feels he is playing a large game, whether it be a game of construction or destruction, or whether, as is oftener the case, it be both destruction an construction.

The painter obediently looked back at the abode walls and cross-tipped towers.

"Puerto Frio has been very good to me," he said, in an enigmatical voice.

But Rodman was thinking too much of his own plans to notice the comment.

"Do you see the mountain at the back of the city?" he suddenly demanded. "That's San Francisco. Do you see anything queer about it?"

The artist looked at the peak rearing its summit against the hot blue overhead, and saw only a sleeping, tropical back ground for the indolent, tropical panorama stretching at its base.

"Well—" Rodman dropped his voice yet lower—"if you had a pair of field glasses and studied the heights, you could see a few black specks that are just now disused guns. By day after-to-morrow, or, at the latest, one day more, each of those peaks will be a crater, and the town will be under a shower of solid shot. There's some class to the work that can turn a mild mannered hill as that into a vulcano—po!"

Saxon stood gazing with fascination.

"Meanwhile," he heard the other comment, "shipboard is good enough for yours truly—because, as you know, shipboard is neutral ground for political offenders—and the next gentleman who occupies the Palace will be a friend who owes me something."

(To be Continued).

WAR COMPENSATIONS.

Philosopher Discusses the After-Effects of Strife.

Forget for a moment, hard though it is, all the horrors of war—widows, orphaned children, maimed men, the sad gaps in so many home circles, devastated countryside, and the like—and consider what is the effect of war on a nation, as a whole.

It is evident, and past experience is the proof, that a nation is not the same after it has passed through the awful furnace of war.

All ancient empires have, after acquiring their possessions by war, lived and prospered so long as they still warred. There is a national stamina, a pride, hardness, a virility, a something that it is hard to name correctly, which dominates a nation which is repeatedly baptised in blood and fire. And, judging from history, empires which, after much fighting, rest in peace on their laurels and their possessions inevitably collapse.

Britain, with its long war of history, has avoided the fate of other empires, inasmuch as just when the critical peace period began to lengthen to the danger point, war again came.

To read a summary of our history for the last 250 years, from the Dutch War of 1665 onwards, is to read, with short peace intervals, of a nation at war. How war supplied something to our Empire which after dissolved empires lacked. It may bring a rush to caustic criticism; but it is a fact that war seems to prevent national decadence. The cost is tremendous; the sacrifices great; but the fact remains. Something, nationally, is gained from war.

Peace brings prosperity, and prosperity means wealth. Wealth means luxuries, easy living, a rush of vice, and the exit of virtue. These always are the heralds of a nation's decadence, and an empire's dissolution.

Look at France. Before the tribulations of the Franco-German War, what was her state. Outwardly prosperous, but inwardly rotten. She lost lives, treasure, provinces; but the effect of the war has been that France is rejuvenated, and is vastly different from the France of 1870. She is sound, strong and has taken to herself new life, because she has been purged by war.

Russia was a barbaric Empire at the time of the Crimea. That war stirred Russia, and the Japanese War woke her up completely. She has made vast strides since then. And now it would seem that, under the stress of the present war, Russia's curse, drunkenness, is to be banished.

The gain in Germany will be something that only a German can appreciate. The German citizen and the German peasant will be entitled to a place on the pavement. Militarism, with its arrogance and tyranny, is the load on every German's back. Germany defeated will, at any rate, mean Germany free! War is not all loss.—London Answers.

Lord Robert Cecil, "Minister of Blockade."

Lord Robert Cecil, who until recently held the post of Under-Secretary for Foreign Affairs, has been appointed "Blockade Minister" in the British Cabinet. He will be charged with the administration regulating the blockade as well as with the general responsibility for the policy and practice of the Government with respect to trade passing into and from neutral countries. Lord Cecil is a Unionist and thus increases the forces of that party already in the Cabinet by one. He is a lawyer of wide experience and has held many high and responsible offices in the Government's service.

POTENT HELP TO THE NAVY.

British Mine Sweepers Prevent Many Catastrophes.

A racy account of the part the trawlermen have played in the war was given in London at His Majesty's Theatre by Mr. Tom Wing, M.P., who formerly represented Grimsby.

Lord Selborne, president of the Board of Agriculture and Fisheries, who presided, told of one young trawler skipper who had had two boats blown up under him while trawling for mines, and was now in the hospital for the second time recovering from his injuries. "And his one great hope," added the Minister, "is to get on to the third and even better boat which he has had promised him when he gets well again."

"A most potent auxiliary to the navy," Lord Selborne described the trawling fleet. It was almost entirely due to the trawlers that the fleet and the merchant ships were able to pass to and fro on our seas with so few catastrophies. He did not know how many mines the Germans had placed but he was prepared to risk the statement that there were very many thousands.

Mr. Wing said that if at the last great naval review at Spithead there had been, say, 3,000 trawlers, people would have complained that it was making the spectacle ridiculous. If at the last army manoeuvres there had been a quarter of million miners, people would have said, 'Well, it doesn't add color.' Yet fishermen and miners had proved as essential as any in the great struggle in which we were engaged. They were the men with the real technical knowledge which had proved indispensable.

The men who manned the trawlers had swept the Channel and the North Sea practically clear of mines and submarines, and in the Mediterranean thousands of others had been doing the same.

"His Majesty has had occasion to realize the size of their hands and the warm grip they can give," said Mr. Wing. "One burly fisherman who had received a decoration said afterwards that he could not believe that he was actually in Buckingham Palace and was to be decorated by the King; he thought it was a dream until the King shook hands with him. And when he found the King gripping his great fist he was no anxious to make sure that it was real that he took firm hold with his other hand also, and really 'hoin up' the King for the time."

To the well man every day is a feast.

You may be deceived

some day by an imitation of

"SALADA"

and possibly you will not detect this imitation until the tea-pot reveals it. Demand always the genuine "Salada" in the sealed aluminum packet, and see that you get it, if you want that unique flavour of fresh, clean leaves properly prepared and packed.

Reasons Why Every Farmer should Have a Silo.

No danger of late summer droughts, as by using the silo with clover or other green summer crops, early in the season, a valuable succulent feed will be at hand, when pasture in most regions is apt to give out.

Crops unfit for hay-making may be preserved in the silo and changed into a palatable food, such as thistles, weeds, etc.

The harvest can be removed earlier, making it possible to finish fall plowing sooner and to seed the land down to grass or winter grain.

At a conservative estimate two cows can be kept by feeding silage at the cost of one cow from the same acreage, fed on hay or other roughage.

Convenience in feeding and economy of storage room, as ten tons of silage can be stored in the same space as one ton of hay.

When fed with the proper rations, silage is a greater milk producer and fattener than any known feed.

Ensilage-fed stock, as a rule, are in a healthier state than when other feeds are used.

When properly taken care of there is absolutely no waste of any part of the corn crop.

The acreage needed for pasture is greatly reduced, and consequently more land can be brought under cultivation.

By providing a succulent forage, winter dairying is made profitable, and no reduction of stock is caused by a dry season.

It is the cheapest food that can be produced as well as the best.

It is a certain supply, notwithstanding the drought, the flood or the snows.

The silo is the cheapest method of handling the crop, or storing it, and the best method of saving and realizing the fullest value of the crop as feed.

More stock can be kept on a certain area of land when silage is fed than is otherwise the case.

Silage feeding does away with all aggravating corn stalk in the manure and prevents their waste as well.

It excels dry feed for the cheap production of fat beef.

It keeps your stock thrifty and growing all winter, and enables the cow to produce milk and butter more economically.

Its use lessens the labor required to care for a herd, if it is conveniently attached to the barn.

It allows the spring pasture to get a start.

It enables preservation of food which matures at a rainy time of the year when drying would be almost impossible.

It does away with the system of strictly grain farming, where few of the elements are returned to the soil.

It increases the digestive capacity of the animal.

The silo supplements pasture and carries the burden of the winter feeding.

The silo will greatly reduce the pasture acreage required, and will have a marked effect on beef production on high priced lands.

Night pasturing has been found to be a very valuable practice in connection with summer silo.

A silo permits of saving crops in years of great plenty for other seasons of less plenitude.

Experiments have proved that silage-fed steers have repeatedly made the heaviest and cheapest gains.

Silage saves a large proportion of grain needed in fattening animals. It saves the need of any grain while cattle are growing. Silage-fed cattle gain faster, finish more quickly, and the meat is better.

The silage system helps maintain soil fertility.

The palatability of silage for cattle and sheep is universally recognized by all farmers who have given this food a fair trial.

Cattle show great eagerness for silage.

Its succulent character makes it very comparable with grass or other green stuff.

The choicest of milk is produced by herds fed silage.

A silo adds to the appearance of a farm.

By the use of silo the fodder is canned very much as a housewife cans fruit, preserves and vegetables.

In no other way is it possible to produce so large an amount of good feed from an acre of land as by raising corn and making the same into silage.

The succulent silage is the best possible substitute for June pastures.

It is relished by cows at all seasons of the year.

In winter cows can be fed a palatable balanced ration that will keep them up to summer flow.

Every winter we see a shortage in the dairy line. This can be overcome by introducing silos.

With a silo you can keep more stock

Or keep the same stock on less acres and will leave more land for other crops.

Ensilage has a higher feeding value than roots.

Ensilage increases the milk flow.

Your creamery cheque grows larger by its use.—Canadian Farm.

Still Unforgiven.

A month ago she said she's never forgive him. And now I hear she has married him.

Yes, carried her revenge to the bitter end.

Observant Child.

Teacher—What is water?

Willie—A colorless fluid that turns black when you wash your hands.

Oh, well, the Kaiser can not be as sick as the world is sick of him.

— GOOD DIGESTION —
When your digestive forces, weakness and pain are certain and success is invited.

Mother Seigel's Syrup corrects and stimulates the digestive organs, and banishes the many ailments which arise from indigestion.

FOR 40 YEARS THE STANDARD REMEDY

MOTHER SEIGEL'S SYRUP

FOR STOMACH AND LIVER TROUBLE

All Druggists, or direct on receipt of price, $1.0., and $1.50. The large bottle is more economical than the smaller. A. J. WHITE & Co. LIMITED, Craig Street West Montreal.

For Distemper

SPOHN'S DISTEMPER COMPOUND

Sure cure and positive preventive, no matter how severe or how many are afflicted or "exposed." Liquid, given on the tongue acts on the blood and glands, expels the poisonous germs from the body. Cures Distemper in Dogs and Roups and Cholera in Poultry. Largest selling Horse remedy known. Cures La Grippe among human beings, and is a fine Kidney remedy. Cut this out, keep it. Show it to your druggist, who will get it for you. Free booklet "DISTEMPER, cause and Cure." Special agents wanted. SPOHN MEDICAL CO. Chemists and Bacteriologists, Goshen, Ind., U.S.A.

PINK EYE, EPIZOOTIC, SHIPPING FEVER, and CATARRHAL FEVER.

SPRING IMPURITIES IN THE BLOOD

A Tonic Medicine is a Necessity at This Season.

Williams' Pink Pills for Pale people are an all year round tonic, blood-builder and nerve-restorer. But they are especially valuable in the spring when the system is loaded with impurities as a result of the indoor life of the winter months. There is no other season when the blood is so much in need of purifying and enriching, and every dose of these Pills helps to make new, rich, red blood. In the spring one feels weak and tired—Dr. Williams' Pink Pills give strength. In the spring the appetite if often poor—Dr. Williams' Pink Pills develop the appetite, tone the stomach and aid weak digestion. It is in the spring that poisons in the blood find an outlet in disfiguring pimples, eruptions, and boils—Dr. Williams' Pink Pills speedily clear the skin because they go to the root of the trouble in the blood. In the spring anaemia, rheumatism, indigestion, neuralgia, erysipelas and many other troubles are most persistent because of poor, weak blood, and it is at this time when all nature takes on new life that the blood most seriously needs attention. Some people does themselves with purgatives at this season, but these only further weaken themselves. A purgative merely gallops through the system, emptying the bowels, but it does not cure anything. On the other hand Dr. Williams' Pink Pills actually make new blood, which reaches every nerve and organ in the body, bringing new strength, new health and vigor to weak, easily tired men, women and children. Try Dr. Williams' Pink Pills this spring—they will not disappoint you.

You can get these health-renewing Pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for 2.50 from The Dr. Williams' Medicine Co., Brockville Ont.

SAW "SAFETY FIRST" FILM.

C.P.R. Officials Viewed Silent Drama to Stimulate Movement.

A realistic moving picture film in the interests of the Safety First Movement was recently displayed in a specially fitted car at Windsor Station, Montreal, before Vice-President Bury and a number of C.P.R. officials.

The film was produced by Mr. Marcus A. Dow, general safety agent, New York Central Lines, and tells the story of a railroad man, Jack Foster, whose carelessness endangered the happiness of his wife and home until his friend Jim Stevens, a booster for the Safety First, convinces him by demonstrating awful examples that it is worse to gamble for life than to gamble in any other way. One man loses his leg, and other accidents are realistically portrayed in an exhibition at the Safety Rally to which Jim Stevens takes Jack Foster—such as the shopman who loses an eye through not wearing goggles, the carpenter losing a finger while working at a buzz saw without the guard, the brakeman being run over while running between moving cars, the engineman being killed while boarding the footboard of an engine in motion. Particularly impressive is the picture of a collision due to slowness in flagging.

In order to promote the Safety First Movement in Canada, Mr. Bury has secured a copy of the film, which will be offered to moving picture houses at divisional and other important railroad points along the line of the Canadian Pacific Railway.

MORE THAN EVER.

Increased Capacity For Work.

Many former tea and coffee drinkers who have mental work to perform day after day, have found a better capacity and greater endurance by using Postum. A woman writes:

"I had drunk coffee for about twenty years, and finally had what the doctor called 'coffee heart.' I was nervous and extremely despondent; had little mental or physical strength left; had kidney trouble and constipation." (Tea is just as injurious because it contains caffeine, the same drug found in coffee.)

"The first noticable benefit which followed the change from coffee to Postum was the improved action of the kidneys and bowels. In two weeks my heart action was greatly improved and my nerves steadier.

"Then I became less despondent, and the desire to be active again showed proof of renewed physical and mental strength.

"I formerly did mental work and had to give it up on account of coffee, but since using Postum I am doing hard mental labor with less fatigue." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c packages.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

Mrs. S. Barton French.

An energetic worker for the cause of the allies, has been compelled to move from one of the New York hotels, where there were many German sympathizers on account of having her mail tampered with, and from having received threatening letters, one written in German and one in English, both conversant on the private life and also on Mrs. French's activities in the cause of the allies. One letter cautions "Have a care." She has been contemplating a lecture tour for the relief of the Serbians, Belgians, and the Lafayette fund.

WHEAT 4,000 YEARS OLD

Came From Ruins in Egypt, But is Kept in Texas

When the late John Cardwell of Austin, Tex., was United States Consul at Cairo, Egypt, he sent to his old friend, Col. F. P. Holland, of Dallas, a small quantity of wheat that he had taken from the tomb of one of the ancient kings in newly explored ruins upon the banks of the Nile.

This wheat was known to be more than 4,000 years old. The glass container which holds the grain is hermetically sealed. To all outward appearances the wheat is just as sound as the day it was played from the head in the long ago, when the earth was inhabited by a civilization that is now forgotten. The grains are plump and large.

"I have been told that the grains would probably germinate if planted, but I have never tred ony off them," Col. Holland said.

WHEN BABY IS ILL

When baby is ill no other medicine will so quickly relieve him as will Baby's Own Tablets. They go right to the root of most childhood ailments—those derangements of the stomach and bowels which cause difficult teething, colds, constipation, vomiting and simple fevers. They cleanse the bowels and sweeten the stomach and drive out all cause of illness. Concerning them Mrs. Wm. Evers, Gilka, N.B., says:—"We always keep a box of Baby's Own Tablets in the house as we have found them an excellent medicine for little ones." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

RECALLED OLD GENERALS.

Kaiser Brings Out Old Men Previously Placed in Discard.

The "Cri de Paris" publishes an interesting article on the Kaiser's generals, showing that most of those now occupying high positions had, before the war, been placed on the retired list by their Imperial master for incompetence or similar reasons.

"Hindenburg," says the article, "commanding the 4th Army Corps at Madgeburg, was placed on the retired list, after holding a command for eight years, for having given proof of character. He was then sixty-three years old.

"Von Blasing had been in retirement eight years when appointed Military Governor of Belgium. After having brilliantly commanded the 7th Corps at Muenster he was, in November, 1907, suddenly asked to seek retirement. He protested, and caused a scandal in consequence, and as punishment the Kaiser withheld the usual coveted decoration.

"General Von Falkenhausen, commanding in North Alsace, had been on the retired list thirteen years when war broke out.

"General Gaede, commanding in South Alsace, was also placed on the retired list for incapacity in 1909, when in command of a division at Metz.

"The Bavarian General Von Bothmer, commanding an army on the Russian front, was in the past judged incapable of commanding an army corps. Finally, Von der Goltz retired from the active list in 1913 on the ground of fatigue."

Duty seldom calls on the shirker twice.

WHOSE IS THE BULLET?

The Wounded Soldier has the Most Right to It

The interesting question as to the ownership of a bullet taken from a wounded soldier has been the subject of much discussion in the German Press and not a few legal reviews have devoted considerable space to the subject.

Generally speaking, the patient wishes to retain the bullet as a memento of the event, but frequently the surgeon who extracts it desires to have it as a souvenir of a successful operation.

A Berlin judge has stated that the wounded soldier has a perfect right to the bullet in his body, because, from a legal point of view, the bullet, when it reached him, belonged to nobody, the enemy having renounced all right to it by discharging it. The question of "deprivation of property" gives no legal right to the bullet to the surgeon, even if the patient has not claimed this right; and if the surgeon retains the bullet the soldier can recover it by law, with costs and damages.

On the other hand, other legal lights declare that the bullet becomes state property.

He Feels Like a Young Fellow

WHY MANITOBA MAN PRAISES DODD'S KIDNEY PILLS.

After Experimenting With Other Medicines Max Hanjook Found in Dodd's Kidney Pills the Cure That He Sought.

Pleasant Home, Man. March 20th, (Special.)—Mr. Max Hanjook, a well-known resident of this place, who, after an extended period of ill-health is feeling strong and hearty again, is spreading broadcast the good news that he found a new lease of youth in Dodd's Kidney Pills.

"I tried all kinds of other pills, but they didn't help me very much," Mr. Hanjook says. "But Dodd's Kidney Pills have made me feel like a different man. I feel like a young fellow again. I want everybody to know that Dodd's Kidney Pills have done for me everything that has been claimed for them."

Dodd's Kidney Pills make men and women feel young again because they spread good health all over the body. Dodd's Kidney Pills act directly on the kidneys. They make the kidneys strong and healthy and thus put them in condition to strain all impurities, all the seeds of disease, out of the blood. The cleansed blood circulating all through the body gives new strength and energy everywhere. That's why Dodd's Kidney Pills are popular all over Canada.

FRIGHTENED HEROES.

Some Brave Men Who Are Extremely Nervous.

A well-known big game hunter, who has bagged six tigers, several lions, and not a few rhinos, besides such small fry as leopards and buffaloes, can't bear the scuttle of a mouse. He is as nervous as if he were petticoats. The squeak of mice behind the wainscot gives him a nervous tremor, and if he sees a mouse run across the floor he nearly has a fit.

Curious, isn't it?

An old Anglo-Indian, who had bossed hill-tribes, repelled attacks on his cantonment, nipped revolts in the bud, and done scores of other brave things, looks under his pillow every night of his life—for snakes!

He simply can't help it. He has got to look, or spend a sleepless night. Yet he lives in a suburb of London, where snakes are not by any means common!

A distinguished public servant who has a medal for life-saving at sea—having jumped after a suicide in mid-Atlantic—keeps a rope ladder under his bed.

He has a horror of facing a burning staircase, so, wherever he travels—and he goes to many spas and hydros since his retirement—he carries his ladder in a special bag.

MURINE, Murine is prepared, by our Physicians, as cured for Over 50 years in their private practice, now dedicated to the Public and sold by Druggists at 50c per bottle.

Murine Relieves YOUR EYES Try Murine for Red, Weak, Watery Eyes, after exposure to Cold Cutting Winds and Dust and to restore healthful tone to Eyes Reddened and made Sore by Overwork and Eye Strain.

Try It In Your Eyes and in Baby's Eyes for Red, Sore, Inflamed, Itching Eyes—No Smarting—Just Eye Comfort. Write for Book of the Eye Free. Murine Eye Remedy Company, Chicago

Dividing Your Time.

He is a wise man who devotes half his time in minding his own business and the other half to letting other people's alone.

Don't Spare the Rod.

May—Carpets are curious things, mamma.

Mamma—Why so?

May—Although they are bought by the yard, they are worn out by the feet.

A friend is one who sticks up for you when other people are censuring you and he knows they're right.

A Dollar-Meal for Five Cents—The most expensive foods are quite often entirely lacking in food value. They do not build muscle or supply energy. Measured by the cost of most foods, a breakfast or luncheon of Shredded Wheat with milk and cream is worth a dollar—and the cost is not over five cents. Two biscuits will supply all the strength needed for a half-day's work or play.

Made in Canada.

FISH SHORTAGE IN BRITAIN

The Average Price is More than Doubled

During the past year, Canadian fishing interests have taken steps to relieve the shortage in Great Britain's fish supply arising from the restriction imposed by the war on fishing operations in the North Sea. The serious character of the shortage is indicated in a recent United States consular report dealing with the yield of the Scotch fisheries in 1915. In part the report states:—

The total quantity of fish other than shellfish landed in Scotland in 1915 was 2,297,618 cwt. (of 112 pounds) valued at $9,972,530, or an average of $4.34 per cwt., as compared with 6,926,241 cwt., $14,476,843, and $2.09 in 1914, and 7,247, 228 cwt., $18,168,320, and $2.50 in 1913. The shortage in the catch as compared with 1914 thus amounted to 67 per cent, and in the corresponding value to 31 per cent, while the average price was more than doubled.

The greatly reduced landings of herrings were mainly responsible for the decreased herrings representing 61 per cent of the total catch in 1913 and 63 per cent in 1914, and only 30 per cent of the markedly diminished total last year. The actual figures for herrings are 4,449,321 cwt. in 1913, 4,383,235 cwt. in 1914, 699,389 cwt. in 1915, with the corresponding values $10,160,050, $6,516,419 and $2,138,175.

The total quantity of whitefish, excluding herrings, mackerel, and other pelagic fish, landed during the year, was 1,522,471 cwt., as against 2,435,017 cwt. in 1914 and 2,735, 3422 cwt. in 1912; the value was $7,714,128, as against $7,819030 and $7,945,386.

Minard's Liniment Relieves Neuralgia

Taking no Chances.

Squee—Can you tell me where Codger hangs out? I haven't seen him for several days.

Gee—Who on earth wants to see Codger?

Squee—Not me. I just wanted to know what places to dodge.

I have handled MINARD'S LINIMENT during the past year. It is always the first Liniment asked for here, and unquestionably the best seller of all the different kinds of Liniment I handle.

NEIL FERGUSON.

Delighted She Called.

Jessie, aged 12, was alone in the house when a visitor called to see her mother. She smiled hospitably as she held the door wide open. "Oh, Mrs. Johnson," she said brightly, "mother will be so pleased! She hoped you'd come this afternoon!" "Is that so, dear?" asked Mrs. Johnson, much delighted. "Then your mother is at home?" "Oh, no," answered Jessie, just as brightly; "she's gone out shopping, and won't be home till late tonight!"

Minard's Liniment Cures Dandruff

Descending on the Son.

A benevolent-looking old gentleman was walking along the street when he upon an irate parent lecturing his offspring. "Now, you young rascal," said the angry father, "cut off home, and before you go to bed to-night I'll give you a good whipping." The old gentleman mildly remonstrated. "My dear sir, perhaps I have no right to interfere, but remember the wise old saying—'Let not the sun go down upon your wrath.'" "Don't you trouble yourself about that," was the reply. "I won't do anything of that sort. Oh, no. What I'm going to do is to let the wrath descend upon the son."

ZAM-BUK

Purely Herbal—No poisonous coloring matter. Antiseptic—Stops blood-poisoning, festering, etc. Soothing—Ends quickly the pain and smarting. Heals all sores.

Inc. Box. All Druggists and Stores

BOYCOTT GERMAN RESORTS.

Russians Already Planning to Give Preference to French.

The Russians are already planning to boycott German watering places after the war, says the Paris Figaro, and as a means to this end are even now sending out information concerning French resorts. An information bureau has been established in Paris, and soon a party of Russian physicians will visit all the French watering places outside the war zone.

The propaganda just issued states that one of its reasons for existence is the harsh manner in which Russian visitors at German watering places were treated when war was declared. It says that confirmed invalids were treated with a severity that was quite unnecessary.

Although this movement appears to be independent, it belongs in a general sense to the proposed anti-Teuton trade alliance under which the Entente Allies intend to give one another the preference in all dealings after the war.

FLAXSEED AS FOOD

Flaxseed has been known throughout historic time to possess wonderful food and medicinal properties. The Romans fed it to slaves to keep them in condition and health. The civilized palate has generally rebelled at its linseed odor and taste. It has remained for a physician to discover a method of driving oxygen out of the linseed oil by electricity changing the oil into a resin, odorless and tasteless as starch, yet leaving food and medicinal properties unchanged. This is now used in Dr. Jackson's Roman Meal, claimed to be the most nourishing food sold and a positive relief to dyspeptic and constipated. Most grocers sell it.

Made by Roman Meal Company, Toronto, Canada

Modern Life.

"Wife, the baby is restless and can't go to sleep."

"What can I do?"

"Well, you might put a lullaby on the graphophone."

Minard's Liniment Cures Burns, Etc.

Fortune knocks but once at every man's door, but misfortune usually crawls in at the open window.

ORESHAM

Messrs Neil and Allan McKinnon and their wives attended the funeral of their aunt, Mrs Butchart, at Mildmay last week. The deceased lady was well and favorably known here.

Mrs Westman, of the 6th, who was very ill, is recovering nicely.

We understand that Mr S Brown of Ashfield has purchased the John Hill farm here.

The young people here are kept busy attending the box socials. The roads at present are quite impassible.

The Snowden brothers, of Kincardine, visited their uncle, Mr Wm Snowden of the 6th, last week. Two of them wear the King's uniform.

Mr J McKay, of Vancouver, is visiting friends on this line.

Mr and Mrs Ogle Russell, of Kincardine, were guests at the home of Mr and Mrs Geo Fullerton last week.

Quite a number took in the McGregor and Campbell presentation on Monday evening.

The Sacrement of the Lord's Supper was observed here and in Underwood last Sunday.

Mrs Fullerton and sons are visiting friends on this line, guests of her sister, Mrs Cameron.

Nothwithstanding the bad roads and stormy weather, our faithful mail-carrier, Mr E Vance, always comes. This route is certainly to be congratulated in securing such a good man. Wonder if he can always return us the same compliment re keeping snow shovelled around the boxes and breaking the roads.

ELORA ROAD NORTH

Mr Leslie Winch spent the week-end at his home here.

Mr Richard Harcourt is away to Saskatoon again. This is Dick's fifth trip this winter.

Mr Donald Armstrong has had a severe attack of the grippe.

Miss Tena Tanner, of Walkerton, has been visiting at the home of her brother, Mr Alf Tanner.

Mr and Mrs John McDougall spent Saturday at Mr Alex Thornburn's, 10th Bruce.

Messrs Dave Bryce, John Brown and John Bryce have each disposed of a team of horses, and Mr And Miller has sold a 3-year-old colt.

The whooping cough has made its appearance on this line.

Mr Russel Wagner, the Dunblane school teacher, has enlisted at Tara.

GLAMIS

Mrs W J McKeeman and grand daughter Phyllis Moffat went to Toronto on Friday to visit friends.

Mr and Mrs John Wittig, of the 4th of Bruce, spent Thursday afternoon at J C McIntyre's.

Mr McCauley entertained his Sunday school class of young boys at the Misses Howson's on Friday evening.

Miss Jennie McDonald, of Shoal Lake, Man, returned to Mr John McKinnon's after spending several weeks with friends in Kippen, Brucefield, Tiverton and Underwood.

Miss Martha Kirktown has returned from Holland, where she was spending some time with her sister.

Miss Mabel Kirktown, of Enniskillen school, Sundayed at her home here.

Those who took part in the tea-meeting at North Bruce from Glamis were Miss MacIntyre and Mr McCauley.

Mr Arthur Groves has purchased Robt McFadyen's farm on the boundary.

Mr Neil McDermaid is the latest to sign up and has enlisted with the 160th Bruce Batt.

Mrs Jos Cunningham and Mrs Deehan spent Wednesday of last week visiting Tiverton friends.

The Misses McKenzie, of Kincardine, spent a few days at Mr Neil Currie's.

Quite a number of the young people of the Baptist church drove over to Mr Jos Stanley's and presented their son William with a wrist watch. The address read as follows:

To Mr Wm Stanley:

Dear Will—To assure you of our interest in you and in the great cause which you have pledged yourself to champion, a few of your friends have gathered here this evening. It is a great sacrifice for one to give oneself in any service, and we believe that it is indeed a noble sacrifice when one gives oneself in the service of his country and his God. We realize that this means more to one than the important act of volunteering. It means undergoing the unnumbered tests of training and the great trials of warfare. A pledge that is worth making is never easily kept. We admire the more, therefore, those who join the ranks where hard training and desperate fighting are called for. Like the others who have gone from our midst, you will be missed, and like them, you will be followed by our interest and our prayers. May only good come to all who serve unselfishly their fellow men. As some evidence of our esteem and good wishes, accept this wrist watch.

CHAS P MCKINNON,
DA MCLENNAN
CHRISTOPHER YOUNG

FOURTH CON. BRUCE

The home of Mr and Mrs Rich McGregor was the scene of a pleasant gathering on Monday evening last, the occasion being for presentations to three boys who have enlisted with the 160th Batt. Mr. Geo Brown, as chairman, called on Peter Barrie to read the address and Greta MacKay made the presentation. The boys briefly replied, thanking the people for their kindness. Another event of the evening was the sale of a cake in aid of the Red Cross Society of S.S. No. 10, on which was realized the sum of $14.65. The remainder of the evening was spent in games and dancing.

THE ADDRESS:

To Mac Campbell, Rob Roy and Bruce McGregor:

We, your friends and neighbors, have invited you here this evening, so that we may spend a few social hours together. We desire to express our profound appreciation of your loyalty, courage and unselfishness in enlisting for overseas service. We feel deep regret at losing you from amongst us, knowing full well that the hardships and dangerous life of a soldier is no pleasant task, but we feel certain you will all perform your separate duties, wherever they may be, with unflinching courage. We feel honored that we are represented by three more of our noble boys in the great fight for freedom and the overthrow of militarism. We send you forth with our best wishes, and we all hope that you may be spared to return home to us again crowned with laurels of victory. We therefore ask you, Mac, to accept this ring, and you, Rob and Bruce, to accept these wrist watches, not for their value but as tokens of our good wishes. Our parting words to you will be to wish you Godspeed, and pray that He may keep you safely. Signed on behalf of your friends and neighbors.

R McGREGOR
P BARRIE

VESTA

A large number of people gathered at the home of Mr and Mrs Wm McCaw on Monday evening, March 20th, to do honor to their son Jim, who has enrolled with the 160th at Walkerton. A number of soldiers were present from Walkerton and Chesley. Mr. Johnston McArtney was chairman and discharged the duties in a very capable manner. The address was read by Miss Ida Shouldice, and the presentation made by Miss Kathleen McCurdy.

To Private Jas McCaw:

Dear Jim—Having learned that you have donned the khaki with the rest of the brave townline boys who are standing in defence of our Empire, we, your friends and neighbors, have taken the liberty of meeting here to spend a social evening with you before you take your departure for European fields. You will be greatly missed around here because you have been constantly with us and many pleasant hours have been spent, but we feel certain you have willingly given up these to be of service to your country. You are voluntarily giving up the comforts and pleasures of this country to face a treacherous and dangerous foe. We have confidence that when it comes to real fighting you will prove yourself a worthy soldier of Bruce county. We feel we cannot let you depart without some token of remembrance, and ask you to accept this wrist watch and purse in recognition of your manly and noble service. Needless to say that when these arduous duties are over we hope to see you march victoriously home.

Signed on behalf of your friends and neighbors,

STANLEY McCAW,
JIM SHOULDICE.

Pte McCaw replied and thanked his friends for the gift. A short programme followed, consisting of speeches by W J Fortune, D Walks and Corp Geo Green, recitations by Janet McCurdy and Ida Manley; A ladies' chorus, "Good Luck to the Boys of the Allies." The gentlemen formed a ring around Pte McCaw and sang, "For He's a Jolly Good Fellow," and gave three cheers in his honor.

PINKERTON

Lieut A E Reid and Ptes Samuel Reaburn and Elmer Gregg, of the 71st Batt, spent their last leave here before going overseas.

Elmer Reid has contracted a severe case of pneumonia. We wish him a speedy recovery.

Jas Gale, of Toronto University, returned to his home here on Saturday.

Pte Gordon Garland, of the 160th Batt, Walkerton, spent Sunday at his home here.

Capt and Mrs J A Reid, of Calgary, are visiting the former's parents here, Mr and Mrs Adam Reid. Capt Reid leaves almost immediately for overseas, and Mrs Reid will remain here for some time. They were accompanied from Toronto by Miss Alma Reid.

Mr and Mrs Dave Robertson, of Glamis, Sundayed at Mr Albert Pinkerton's.

TENTH CON BRUCE

Misses Mamie and Isabel Cameron visited friends here last week.

Mr William White has answered the call of his king and country and joined the brave boys of the 160th Bruce Batt. His brother Robert is also training in the same company. They are sons of Mr T 9 White of this line.

We are sorry to hear of the illness of Pte R Mills. Hope to soon hear of his recovery.

Mr A Sinclair intends remodeling his barn this coming summer.

Mr Wm Haney has been engaged with Mr R Anness for the past week.

Underwood L O L 1122 met on Tuesday evening, March 21st. A large number of members were present and a very enthusiastic meeting was held. Mr W J White's name was added to the now fairly large roll call of members. He received the initiation degree and also the purple degree. Rev Mr Barker also received the purple degree. The lodge was also favored with an excellent address by the reverend gentleman. His remarks dealt particularly with the European struggle. In the course of his remarks he gave an outline of the standing of the different provinces in the dominion in regard to recruiting, showing plainly that Quebec has been very dilatory in coming forward and offering her sons to help keep the old flag floating. Mr Barker has offered his services as chaplain to the 160th Batt, but is not sure yet of his appointment. If he fails to secure the position he is willing and ready to enter the ranks in any capacity in which he can best serve his country. A motion was entered upon the lodge books authorizing the secretary to procure an honor roll for the boys who have enlisted from 1122. Their names will be entered upon it and hung in the lodge room as a reminder of their gallant action in taking part in the world's greatest war. The names so far to be enrolled are:

Pte Robt White
" Wm Dobson
" Wm J White
Rev A Barker

SECOND CON ELDERSLIE

Little Thelma Jackson, who was operated on a few weeks ago for nose and throat trouble, is recovering nicely at present.

Pte Jack Walks has been confined to his boarding house for the past week with a severe attack of la grippe.

Mrs W McBeath spent Sunday with her cousin, Mrs R Jeffkins.

Alex McGregor and Thos Pepper both had the misfortune to lose valuable cows during the past week.

Owing to the bad roads the farmers of the 4th and 2nd cons were obliged to use the tp snow plow last week, which made a great improvement.

Assessor Walks made his annual trip down the 2nd last week.

Mr and Mrs Alex Campbell entertained a number of friends and relatives on Friday evening.

We are sorry to report that Mr S Gribble is not improving in health.

Mr D McGill visited his brother at Paisley on Sunday week.

Calvin Jackson left for his home in the west on Saturday after a three months' visit with friends here.

Mr and Mrs S Byers, of Williamsford, visited Mr and Mrs J McCullough one day recently.

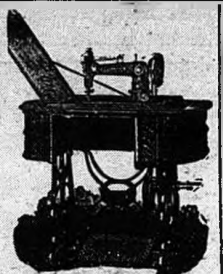
Pte Barnes Bowie spent Sunday with his friend Jimmie Allen.

During the past few weeks a number of the young hopefuls—and some that are not so young, too—have been enjoying the Canadian sport of tobogganing. Some have come off the worse of a few bruises and scratches, but that is all in the game, and they pronounce it right jolly good fun.

Mr Lamont, of Owen Sound, visited his daughter, Mrs G Addison, last week.

Russell Maxwell has been on the sick list for the last few weeks.

If the soft weather continues, the ice will soon be breaking up on the river. But we think that Smith Thompson will not care for a dip again this spring.



WILLOW CREEK

Mr Vernie Giesz is still a civilian, having failed to pass the medical examination for enlistment in the 160th, on account of his eyes. His name will grace the honor roll of those who offered to serve their king and country.

The Evangelical congregation held their annual business meeting on Saturday.

The regular meeting of the Women's Red Cross Society of S S No 9, was held on Tuesday, instead of Friday.

Fred Schnitiker has a 10-year-old goose that last year laid 52 eggs and reared four goslings.

We handle the Goodrich, Raymond, New Williams, White, Singer, and Standard—all the very latest models. Ball Pianos and Organs, Edison Phonographs and Records.

DIED

MCNEILL—At Paisley, on March 28th, Maggie, daughter of Mr and Mrs Donald McNeill, Queen St North, aged 25 years.

Children Cry FOR FLETCHER'S CASTORIA

IN LOVING MEMORY

of Baby Ivan Mansel, daughter of Mr and Mrs John Crowe, 9th con Eldersalie, who died Feb 13th, 1916, aged 1 year, 3 months and 9 days.

Ivan has gone to Jesus;
Brief and few the days
Tarried he to please us
With his winsome ways.

Never more our eyes shall see
The smiles we loved so dear,
And that voice, like sweetest music,
Never more on earth we'll hear.

Let there be no tears of sorrow,
Since Jesus knows what's best,
But listen to his angel voice
That beacons you to rest.

But weep not for your darling,
He is but gone before
To be with the blessed Saviour
Over on that golden shore.

Notice to Creditors

In the matter of the estate of George Sturgeon, late of the Township of Greenock, in the County of Bruce, Farmer, deceased.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demand against the estate of the above named George Sturgeon, deceased, who died on or about the 30th day of December, 1915, are required on or before the first day of April, 1916, to send by post prepaid, or to deliver to Robert William Stewart, Barrister, Post Office Building, or to Thos Metcalf Pinkerton, Post Office, Ontario, the executors of the will of the said deceased, their names and addresses with a full description of their claims and the nature of the securities (if any) held by them. And by a statutory declaration.

And further, notice is hereby given that immediately after said 1st day of April, 1916, the said executors will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they shall then have received notice, and the said executors shall not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by them.

Dated this 23rd day of February, 1916.

Fire at Arkwright

On Thursday afternoon of last week fire broke out in the frame shed at the rear of Mr Francis King's fine brick residence at Arkwright. Mrs. King was alone in the house and telephoned to the neighbors, and soon the soldiers, who were at Arkwright that day, were on the scene and in a short time quenched the flames. If it had not been for the timely assistance of the soldiers the house would probably have been in ruins to-day. The fire is thought to have originated through coals being thrown out with the ashes.—Leader.

—SEEDS! SEEDS! Planting time is near, and more than ever the planter will require good seed to bring big production in war year. We handle all lines of field and garden seeds procured from the most reliable growers on the continent, also buy and sell home grown seed. Look into your needs early and leave us your orders. R. G. ECKEL.

Rivers Overflowed Widely

Paisley took on its annual imitation of Venice last week, the waters of our streams spreading out over a considerable area of landscape. In some districts the inhabitants would have welcomed the appearance of real gondolas, but such nifty raft not being available, had to do some deep wading. High-water boots were in great demand, and dry wood was out of the question as the piles were floating scatteredly over acres of sea. Mr. Pete McKinnon had adopted a "bee safe" policy after a previous experience with the rising waters, and had his colonies of honey-makers elevated five feet above the sea level this spring. Mr. John Shaw adopted similar precautions, removing his pig and cow to higher ground, so that he wouldn't have to put the porker upstairs for safety or run chances of getting water in the milk supply.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can also work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a mite better for the purpose? See our samples.

—Pte Burton Tooke and wife were in Southampton over Sunday.

—Elderslie Council have appointed Mr J T Richardson as sanitary officer to cope with the measles epidemic.

—Rev Mr Little went to Toronto on Tuesday to attend the funeral of Mrs Little's sister, who died in the city.

—Paisley school is re-opened again, but attendance in the lower departments is yet very small owing to measles.

—Bandsman Emerson Pearce was home from Toronto over Sunday, also artillerymen Wm Johnston from Guelph.

—The farm of the late Jas. Alexander at Rides Grove was disposed of at a good price at the auction sale, Mr. And. Alexander being the buyer at $5350. The property comprises 75 acres, with good buildings.

—Mrs Jas A Rowley has decided to leave the farm in Greenock, owing to the death of her husband, and, with the children, go to live near her old home at Schomberg. She will, therefore, hold a clearing sale on Monday next. See list in this issue.

—Mr Donald Johnston, of Ellengowan, is giving up farming for a year on account of rheumatism, and going to take a course of treatment for the disease. He has rented his farm, and on Wednesday next will have a sale of stock and implements. See list in this week's issue.

Still the List Grows

Arthur Porter, who enlisted in the 113th Highlanders at Lethbridge, Alta., is the adopted son of Mrs. H. M. Porter, of Olds, formerly of Paisley and Elderslie. Lieut. R. F. Given, of the 136th Durham Batt., who recently completed his course of training at Kingston, is the youngest son of Mr. and Mrs W. S. Given, of Millbrook, formerly of Paisley.

Paisley Creamery

Preparations are in progress for the season's operations at the creamery. There is no local institution that helps more than the creamery to relieve the farmers' problems due to scarcity of help.

Lived Nearly 100 Years

To live for 93 years in the enjoyment of good health and all his faculties, was the privilege of the late Mr. Facey, father of the pastor of Paisley Methodist church, who died near Tavistock a few days ago.

With Signal Corps

Elroy McKenzie was accepted as a recruit for the Divisional Signal Corps at Toronto, and went into training there on Monday. The recruits there soon go to Ottawa to complete the course.

Appendicitis Operation

Mrs Wilson of Toronto had an operation for appendicitis on Monday, at the home of her parents, Mr and Mrs H Bell, Cambridge St. Dr Houston, of Paisley, performed the operation. The patient is progressing favorably.

An Aged Resident Gone

Mrs. Grant, ar., passed away on Sunday last at the home of her son, Mr Wm. H. Grant, at Ebenezer, and the funeral was held on Tuesday. A sketch of the life of this worthy old pioneer lady will appear next week. The deceased was in her 89th year.

Damaged Dam

The top stringers and bents on Fisher's dam were broken away by ice on Saturday evening, just as the flood had reached its highest point. Part of the timbers were saved however, the superstructure having been fastened with anchor ropes as a precaution against being carried bodily down stream. Even as it is the loss is considerable.

Five More Recruits

Lieut McConnell and his assistants have secured the following recruits here for the 160th within the past few days:

Eldon McGillivray, 12th Bruce
John Alex Rose, 8th Bruce
A A Kawenze, Indian
Daniel Henry, "
Alfred Beattie, "

Jas Miller (barber), also wished to enlist, but was rejected by the medical examiner.

Tea Room Next Saturday

The executive of the Women's Patriotic League have decided to give the final Red Cross tea next Saturday, April 8th, in the town hall. Supper will be given to the soldiers at 6 o'clock. Afternoon tea will be served to others as usual. In order to bring our funds up to the $1000 mark all ladies willing to help are asked to provide the usual tea room supplies. All those having sisters or places that belong to the tea room please leave them at the town hall on Saturday next where the owners can get them.

Oddfellows Encourage Recruiting

Ahiam Lodge, I.O.O.F., has adopted a policy of encouragement to those knights of the three links who are patriotic enough to get into the ranks of the overseas battalions. Every member of Abiram who enlists is to be given a wrist watch, and already there are seven entitled to the tickers, viz: Harry Jerk, Wm. Bryce, Jno. Mewhinney, Ros Heppenstall, Frank Boyle, Chas. McGillivray, and Dr. Geo McIntyre.

EASTER SUITS

Plenty of people have yet to buy suits. They have lost nothing, either—not a thing. Suits have been going out in a regular procession, but we have been replenishing stocks right along.

Just as much here at this minute as at the season's beginning.

Call—choose the cloth—learn the price—leave the rest to us.

THE
Key to Yesterday
By CHARLES NEVILLE BUCK

CHAPTER XI.

Saxon denied himself the lure of the deck that evening. Though he would probably be close behind his messages in arriving, he was devoting himself to a full narration embodied in a love-letter.

He bent over the task in the closeness of the dining saloon, with such absorption that he did not rise to investigate even when, with a protracted shrieking of whistles, there came sudden cessation from the jarring throb of screw-shaft and engines. Then, the City of Rio came to a full stop. He vaguely presumed that another important port had been reached, and did not suspect that the vessel lay out of the sight of land, and that a second steamer, southbound, had halted on signal, and lay likewise motionless, her lights glittering over off the starboard bow.

When, almost two hours later, he had folded the last of many pages, and gone on deck for a breath before turning in, the engines were once more noisily throbbing, and he saw only the bulk and lights of another vessel pointed down-world under steam.

But, as usual, Rodman, gentleman of multifarious devices, was not letting facts escape him. Indeed, it was Rodman's instance that two mail ships, the City of Rio and the Amazon, had marked time for an hour and a half. In the brewing of affairs, Rodman was just now an important personage, and the commanders of these lines were under instructions from their offices to regard his requests as orders, and to obey them with due respect and profound secrecy. The shifting of administrations at Puerto Frio meant certain advantages in the way of concessions to gentlemen in Wall Street whose word, with these steamers, was something more than influential.

Mr. Rodman had been rowed across from the Rio to the Amazon, and he had taken with him the hand-luggage that made his only impedimenta. In Mr. Rodman's business, it was important to travel light. If he found Senor Miraflores among the passengers of the Amazon, it was his intention to right-about-face and return south again.

Senor Miraflores had been in the States on the secret and efficient head of that junta which Rodman served. He had very capably directed the shipping of rifles and many sub-rosa details that must be handled beyond the frontier, when it is intended to change governments without the knowledge or consent of armed and intrenched incumbents. The home-coming of Senor Miraflores must of necessity be unostentatious, since his arrival would be the signal for the concussion of the quiet streets of San Francisco into craters.

Rodman knew that, if the senor were on board the Amazon, his name would not be on the sailing list, and his august personality would be cloaked in disguise. His point of debarkation would be some secluded coast village where fellow conspirators could hide him. His advent in the capital itself would not be made at all unless made at the head of an invading army, and, if so made, he would remain as minister of foreign affairs in the cabinet of General Vega, to whom just now, as to himself, the city gates were closed.

But Senor Miraflores had selected a more cautious means of entry than the ship, which might bear travelers who knew him. Rodman spent an hour on the downward steamer. He managed to see the face of every passenger, and even investigated the swarthy visages in the steerage. He asked of some tourists casual questions as to destination, and chatted artlessly, then went over the side again, and was rowed back across the intervening strip of sea. Immediately upon his departure overside, the Amazon proceeded on her course, and five minutes later the City of Rio was also under way.

The next morning, after a late breakfast, Saxon was lounging at the rail amidships. He had ceased looking backward, and all his gaze was for the front. Ahead of him, the white superstructure, the white-duck uniform of the officer pacing the bridge, the whiteness of the bulwarked deck, all stood boldly out against the deep cobalt of the gently swelling sea. Saxon was satisfied with life, and, when he saw Rodman sauntering toward him, he looked up with a welcoming nod.

"Hello, Carter—I mean Saxon." The gun-smuggler corrected his form of address with a laugh.

The breezy American was a changed and improved man. The wrinkled gray flannels had given way to natty white duck. His Panama hat was new and of such quality that it could be rolled and drawn through a ring [illegible] shaven to an extreme pinkness of face. As Saxon glanced up, his eye, wearing tell-tale recognition of the transformation, the thin man laughed afresh.

"Notice the difference, don't you?" he genially inquired, rolling a cigarette. "The gray grup is splendidly changed into the snow-white butterfly. I'm a very glossy bug, eh, Saxon?"

The painter admitted the soft self-impeachment with a qualification.

"I begin to think you are a very destructive one."

"I am," announced Rodman, calmly. "I could spin you many a yarn of intrigue, but for the fact that, since you began wearing a halo instead of a hat, you have become too sanctified to listen."

"Inasmuch," smilingly suggested the painter, "as we might yet be languishing in the cutrtel except for the fact that I was able to give so good an account of myself, I don't see that you have any reasonable quarrel with my halo."

Rodman raised his brows.

"Oh, I never lost sight of the fact that you had some reason for the saint role, and, as you say, I was in on the good results. But, now that you are hitting northward, what's the idea of keeping your ears stopped?"

"They are open," declared Mr. Saxon graciously; "you are at liberty to tell me anything you like, but only what you like. I'm not thirsting for criminal confessions."

"That's all right, but you—" Rodman broke off, and his lips twisted into ironical good humor. "No, I apologize—I mean, a fellow who looked remarkably like you used to be so deeply versed in international politics that I think this new adventure would appeal to you. Ever remember hearing of one Senor Miraflores?"

Saxon shook his head, whereupon Rodman laughed with great sophistication. Carter had known Senor Miraflores quite well, and Rodman knew that Carter had known him.

"Very consistent acting," he approved. "You're a good comedian. In the Chinese theaters, they put flour on the comedian's nose to show that he's not a tragedian, but you don't need the badge. You're all right. You know how to get a laugh. But this isn't dramatic criticism. It's wars and rumors of wars."

The adventurer drew a long puff from his cigarette, inhaled it deeply, and stood idly watching the curls of outward blown smoke hanging in the hot air before he went on.

"Well, Miraflores has once more risen at the helm. Of course, in the lower commissions of the insurrecto organization, we have the usual assortment of foreign officers, odds and ends, but the chief difference between this enterprise and the other one—the one Carter knew about—is the fact that we have some artillery, and that, when we start things going, we can come pretty near battering down the old town."

Rodman proceeded to sketch the outlines of the conspiracy. It was much the stereotyped arrangement with a few variations. Two regiments in the city barracks, suspected of disloyalty, had been practically disarmed by the President, but these troops had been secretly rearmed with a part of the guns brought in by Rodman, and would be ready to rise at the signal, together with several other dissatisfied commands—not for the government, but against it.

The mountain of San Francisco is really not a mountain at all, but a foot hill on the mountains. Yet, it looks down on the city of Puerto Frio as Marathon on the sea, and here are guns trained inward as well as outward. These guns can shell the capital into ruins in the space of a few hours; then, they can hurl their projectiles further, and play havoc with the environs. Also, they can guard the city from the approach that lies along the roads from the interior. A commander who holds San Francisco stands at the door of Puerto Frio with a latch-key in his hand. The revolutionists under Vegas had arranged their attack on the basis of unwarned assault. The Dictator had indeed some apprehensions, but they were fears for the future—not for the immediate present. The troops garrisoned on San Francisco, ostensibly the loyal legion of the Dictator's forces, were in reality watching the [illegible] approaches only to [illegible] through which they were to welcome friends. The guns that were trained and ready to belch fire on signal from Vegas, were the guns trained inward on the city, and, when they opened, the main plaza would resemble nothing so much as the far end of a bowling alley when an expert stands on the foul-line, and the palace of the President would be the king-pin for their gunnery. The insurrecto forces were to enter San Francisco without resistance, and the opening of the crater was to be the signal for hurling through the streets of the city itself those troops that had been secretly armed with the smuggled weapons, completing the confusion and throwing into stampeding panic the demoralized remnants upon which the government depended.

Unless there were a traitor in very executive and carefully guarded councils, there would hardly be a miscarriage of the plans.

Saxon stood idly listening to these confidences. Nothing seemed strange to him, and least of all the entire willingness of the conspirator to tell him things that involved life and death for men and governments. He knew that, in spite of all he had said, or could say, to the other man, he was the former ally in crime. He had thought at first that Rodman would ultimately discover some discrepancy in appearance which would undeceive him—but now he realized that the secret of the continued mistake was an almost miraculous resemblance, and the fact that the other man had, in the former affairs, met him in person only twice, and that five years ago.

"And so," went on Rodman in conclusion, "I'm here adrift, awaiting for the last act. I thought Miraflores might possibly be on the Amazon last night, and so, while you sat dawdling over letter-paper and pen, little Stanley Howard was up and doing. I went across to the other boat, and made search, but it was another case of nothing transpiring. Miraflores was too foxy to go hunting so openly."

Saxon felt that some comment was expected from him, yet his mind was wandering far afield from the doings of juntas. All these seemed as unreal as scenes from an extravagantly staged musical-comedy. What appeared to him most real at that moment was the picture of a slim girl walking, dryad-like, through the hills of her Kentucky homeland, and the thought that he would soon be walking with her.

"It looks gloomy for the city," he said abstractedly.

"Say," went on Rodman, "do you know that the only people on that boat looked for Puerto Frio were three foul American tourists, and that, of the three, two were women? Now, what chance have those folks got to enjoy themselves? Do they think Puerto Frio, say day after to-morrow, will make a hit with them?" The informant laughed softly to himself, but Saxon was still deep in his own thoughts. It suddenly struck him with surprised discovery that the view from the deck was beautiful. And Rodman, also, felt the languid invitation of the sea air, and it made him wish to talk. So, unmindful of a self absorbed listener, he went on garrulously.

"You know, I felt like quoting to them, from the jaws of death, into the mouth of hell, called the three tourists, but that would have been to tip off state secrets. If people will rush forth for adventure, I guess they've got to have it."

"Do you suppose," asked Saxon perfunctorily, "they'll be actual danger?"

"Danger!" repeated the filibuster with sarcasm. "Danger, did you say? Oh, no, of course not. It will be a pink tea! You know that town as well as I do. You know there are two plages in it where American visitors can stop—the Frances y Ingles, where you were, and the American Legation. By day after to-morrow, that Plaza will be the bull's-eye for General Vegas's target-practice. General Vegas has a mountain to rest his target-gun on, and it's loaded with shell. Oh, no they won't be any danger!"

"Wasn't there some pretext on which you could warn them off?" inquired the painter.

Rodman shook his head.

"You see, I have to be careful in my talk. I might say too much. As it was, I knocked the town to the fellow all I could. But he seemed hellbent on getting there, and getting there quick. He was a fool Kentuckian with subtleties or hints. I've met one or two of them before. And there was a girl along who seemed as anxious to get there as he was. That girl was all to the good!"

Saxon leaned suddenly forward.

"A Kentuckian?" he demanded. "Did you hear his name?"

"Sure," announced Mr. Rodman. "Little Howard Stanley picks up information all along the way. The chap was named George Steele, and—"

But the speaker broke off in his story, to stand astounded at the conduct of his auditor.

"And the girl!" shouted Saxon. "Her name?"

"Her name," replied the intriguer, "was Miss Filson."

Suddenly, the inattention of the other had fallen away, and he had wheeled, his jaw dropped. For an instant, he stood in an attitude of bewildered shock, gripping the support of the rail like a prize-fighter struggling against be groggy blackness of the knock-out blow.

Saxon stood such a length of time as it might have required for the referee to count nine over him, had the support he gripped been that of the prize-ring instead of the steamer's rail. Then, he stepped forward, and gripped Rodman's arm with fingers that bit into his flesh.

"Rodman," he said in a low voice that was almost a whisper, between his labored breathings, "I've got to to talk you—alone. There's not a minute to lose. Come to my stateroom."

(To be Continued.)

Quite Pliable.

Peck boasted of his iron will,
But, married, he did find,
The iron in that will of his
Was of the softest kind.

Resignation may be a good saver for adversity.

Aunt—"Johnnie, Why is it that you never remember to say 'Thank you'?" Johnnie (eyeing wistfully a box of chocolates on his aunt's knee)—"I expect it's because I don't get things given to me often enough to practice."

Money in Sorting Potatoes.

There is money to be made by the sorting of potatoes. Consumers, large and small, do not like mixed lots. They want them uniform in size and quality. Consequently potatoes are usually sorted before being put on the market and the price which is paid the potato-grower is the price of sorted potatoes, less the cost of sorting. Therefore, the potato grower who ships unsorted potatoes really has to pay the charge of sorting.

The shipper of unsorted potatoes, also, has to pay another charge, and that is the freight on the culls which are later taken out of his shipment.

The shipper of unsorted potatoes, therefore, is simply wasting money. It pays to sort because it gives one the top market prices and because it saves freight on culls, and, it might be added because the culls could be kept on the farm and made use of in rations for live stock.

"When is a partnership like a pen? When there is a split in it."

The difference between stealing and embezzling depends altogether on the size of the pile that the thief gets away with.

NERVOUS DISEASES IN THE SPRING

Cured by Toning the Blood and Strengthening the Nerves.

It is the opinion of the best medical authorities, after long observation, that nervous diseases are more common and more serious in the spring than at any other time of the year. Vital changes in the system, after long winter months, may cause much more trouble than the familiar spring weakness and weariness from which most people suffer as the result of indoor life, in poorly ventilated and often overheated buildings. Official records prove that in April and May neuralgia, St. Vitus dance, epilepsy and other forms of nerve troubles are at their worst, and that then, more than any other time, a blood-making, nerve-restoring tonic is needed.

The antiquated custom of taking purgatives in the spring is useless, for the system really needs strengthening, while purgatives only gallop through the bowels, leaving you weaker. Dr. Williams' Pink Pills are the best medicine, for they actually make the new, rich, red blood that feeds the starved nerves, and thus cure the many forms of nervous disorders. They cure also such other forms of spring troubles as headaches, poor appetite, weakness in the limbs, as well as remove unsightly pimples and eruptions. In fact they unfailingly bring new health and strength to weak, tired and depressed men, women and children.

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

GIRL'S ARM SHOWS ROMANCE.

Carries the Names of Loved Ones Tattooed on Her.

There is a boom in tattooing in the East end, according to Edward Lovett of the Folk Lore Society, says London Tit-Bits. The boom is not among soldiers and sailors, but among girls of the East end, it being a rapidly-growing fashion, when a local belle walks out with a young man, to have his name tattooed on her arm. Mr. Lovett gives the following amusing description of a scene which he recently witnessed in the shop of a friend in the East end, who, among other avocations, is a tattooing artist:

Two girls entered the shop. One of them took off her jacket, turned up her sleeve, at the same time sitting down near a table on which was a small electric apparatus. The artist then made some design on the arm with the electric needle. When the operation was finished Mr. Lovett asked if he might see what the design was. He was allowed to inspect the arm, upon which, near the elbow, were the words: "I love Joe Smith." "Of course, it wasn't Joe Smith," says Mr. Lovett, "but that is a detail."

Naturally Mr. Lovett wanted to know what happened should the girl wish to get rid of this somewhat plain statement. "That is quite easy," replied the tattooist. "Should the girl change her mind, and find that she loves Bill Scroggins instead of Joe Smith, I touch up the old name and convert it into a new design, usually a bunch of flowers. It is a bit difficult at times, especially with a long name, though I generally manage it somehow. Why, one arm I know has twenty-seven names on it. At present it has 'I love' at the top, then follow twenty-six bunches of flowers, finishing up with the last love, say, for instance, Bill Adams."

"What a romance," remarks Mr. Lovett, "is locked up in that arm!"

Ever Eat

Grape Nuts?

(Made in Canada)

There's a vast army of physical and mental workers who do not.

One reason—its delicious nut-like flavor.

Another—It is easily and quickly digested—generally in about one hour.

But the big reason is—Grape-Nuts, besides having delicious taste, supplies all the rich nutriment of whole wheat and malted barley, including the "vital" mineral salts necessary for building brain, nerve and muscle.

Always ready to eat direct from the package. Grape-Nuts with cream or good milk is a well balanced ration—the utmost in sound nourishment.

"There's a Reason"

GEN. ROQUES,

French Minister of War, succeeding Gallieni. He is an aviation expert, and the picture was taken just as he was leaving an airship, the white wings of which are in the background.

STUPENDOUS FIGURES.

Britain's Annual Income Is Now Fifteen Billion Dollars.

Great Britain's annual income has increased by £600,000,000 since the beginning of the war, declared Sir George Paish, the well-known financial authority in a lecture recently on war finance before the Royal Statistical Society, London, and the total has now reached £3,000,000,000.

The nation, said the speaker, has nearly succeeded in maintaining its productive power, despite the withdrawal of approximately 4,000,000 men from its industries. It had called in half a billion pounds of its capital from abroad since the opening of hostilities, nearly all of this however, having been used to make fresh loans to foreign countries and colonies.

If allowance were made for the increase in the country's gold stocks, Sir George declared, the nation would be found to have succeeded in meeting virtually the whole of its war expenditures out of its income, without needing to draw upon its accumulative capital to an extent worth mentioning. Official calculations of the new taxation imposed up to the present time amounted to £197,531,000, and Sir George estimated the taxation in the coming year would reach nearly £650,000,000.

On the whole, the speaker said the burden of taxation was light considering the circumstances, and compared with the burden the country bore during the Napoleonic wars. The national debt before the war was £707,000,000. It would be £2,400,000,000 by the end of this March, Sir George added, and if the war continued another year it would not be far short of £4,000,000,000.

BABY'S OWN TABLETS GOOD AS GUARANTEED

Mrs. L. Isbell, Kingston, Ont., writes: "I am using Baby's Own Tablets and find them as good as advertised. They are certainly a wonderful remedy for little ones." Mrs. Isbell's testimony is like that of thousands of other mothers. Once a mother has used Baby's Own Tablets she will use nothing else for her little ones. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

GIRL DRUGS GERMAN TROOPS.

Twenty Captured in a Russian Farmhouse.

Among a party of Letts who have succeeded in escaping from a village in Courland, Russia, now occupied by the Germans, is a girl of 17, who has been awarded for a great deed of bravery by the Czar with the St. George's cross.

A small German detachment marched on to a farm owned by this girl's father. Sentries were left outside to keep watch on a hill quite close, while the rest entered the house and prepared to have a good time.

The young German lieutenant turned to the girl with the order to get wine at any cost, as their supply had run short.

She was told that unless she fulfilled the order the house would be set on fire and she herself subjected to violence.

There were two barrels of heavy old liquor made of spirit and berries, in the cellar, and a bright idea struck the girl. Before giving them the cordial she dropped into it some powder, made of bluebells, which brings on heavy drowsiness.

The first barrel was soon emptied, and the demand came for more.

The second barrel contained a double portion of the powder, and the Germans soon began to roll onto the floor, one after another.

Seeing her enemies helpless round the barrel she filled a bowl with liquor, took it to the sentries, who stood freezing in the cold, and gave it to them to drink, incidentally mentioning that she was fulfilling the officer's orders. The bowl was soon emptied.

She then returned to the house and carefully disarmed the soldiers, who, sunk in heavy slumber, lay about in different attitudes, and hid their weapons deep in the cellar.

Meantime her father was fastening with ropes the limbs of the insensible Germans.

Having accomplished her task with the prisoners the girl proceeded to find her way to the Russian positions. Following forest paths and making her way through swamps, she finally reached a Siberian outpost.

"I have disarmed and tied up twenty German soldiers and one officer; hasten and take them prisoners," were the excited words which the girl addressed to the head officer of the Siberian Rifles. When they reached the farm they found the Germans still fast locked in their drunken sleep.

Several pails of ice cold water flung in the faces of the sleepers soon roused them to the grim realities of their situation.

Nova Scotia Man Has Good News

FINDS IN DODD'S KIDNEY PILLS A CURE FOR HIS RHEUMATISM.

States Out of His Own Experience That Dodd's Kidney Pills Are a Sure Relief From Pain.

Greenfield, Queen's Co., N.S., March 27th, (Special).—"To anyone who suffers from rheumatism I say: "Take Dodd's Kidney Pills. They will be sure to give you a release from pain." This is the message of Cornelius Hirtle, a well known farmer living near here. Mr. Hirtle suffered from rheumatism for four years and found a cure in Dodd's Kidney Pills.

"I was in bad shape for four years," Mr. Hirtle says in giving his experience. "My back and hips troubled me so much that I was not able to do much without suffering. I also had stiffness in the joints, my muscles cramped and I felt heavy and sleepy after meals. I had a bitter taste in my mouth, especially in the morning. My appetite was fitful and I was often dizzy.

"I suffered from shortness of breath, I was often dizzy and I was depressed and low spirited.

"I took six boxes of Dodd's Kidney Pills and they did me so much good that I am recommending them to all my friends. They are better than any doctor."

Every one of Mr. Hirtle's symptoms was a symptom of kidney disease. That's why Dodd's Kidney Pills cured him.

RECAPTURE FLOWER MARKET

French Horticulturists Raise Lilies Germans Used to Send.

The lily of the valley, first flower of the year and emblem of good fortune, will soon make its appearance on the corsage of the midinette, whence, says the Paris Figaro, there is every likelihood that it will find its way to the coat lapel of the soldier on leave from the front.

This year the lilies of the valley found in Paris will be truly French. Hitherto—excepting last year, which was one of eclipse—they came from Germany, where the horticulturists grew them in profusion or retarded them according to the condition of the Paris market. French horticulturists neglected this flower almost entirely until the dearth in 1915 showed them how easily they could capture the market for themselves.

His Brief Respite.

Wife (icily)—"You needn't speak to me for a month!"

Husband—"Then you expect to have finished talking by that time?"

Minard's Liniment Relieves Neuralgia.

Stole the Soldiers' Socks.

At the Central Criminal Court in London, England, before Judge Rentoul, Herbert Read, 41, carman, was sentenced to eighteen months' imprisonment with hard labor and John Crack, carman, to six months' imprisonment in the second division, for stealing and receiving one thousand pairs of socks which were in course of conveyance from a railway station, to an army clothing depot.

To whom it may concern: This is to certify that I have used MINARD'S LINIMENT myself as well as prescribed it in my practice where a liniment was required and have never failed to get the desired effect.

C. A. KING, M.D.

The truth cannot be burned, beheaded or crucified. A lie on the throne is a lie still; and a lie on the throne is on the way to defeat, and a truth in the dungeon is on the way to victory.

Minard's Liniment for sale everywhere

National Preparedness does not come from guns and dreadnoughts alone, but from men who are fit for the day's work. The making of men is a question of food and rational exercise. You can't build stalwart men out of an unbalanced "ration." Shredded Wheat Biscuit contains all the material needed for building the perfect human body. It is the whole wheat grain made digestible by steam-cooking, shredding and baking. One or more Shredded Wheat Biscuits for breakfast with milk or cream makes a man fit for work or play. It is ready-cooked and ready-to-serve.

Made in Canada.

OLD HOMES CHANGE HANDS.

War Has Forced Thousands in England to Give Up Estates.

Thousands of stately homes in England are changing hands, according to the real estate authorities. The old owners have in many instances been forced by increased taxes to seek more moderate places, and some of the estates are being purchased by persons who have profited by war contracts.

There is talk of wholesale migration and predictions that country life will undergo a revolution. Many of the estates may even be cut up and parcelled out among disbanded soldiers.

In discussing the effects of the war on the landed gentry, Francis Hirst, a widely known economist, said that it was only a natural result, and that these people would feel the pinch more than the poorer classes for many years to come.

"The mere economic effect of the loss of hundreds of thousands of young men in the prime of life and vigor is almost incalculable," said Mr. Hirst. "We may safely assume that by November we had lost through the war about a tenth of all the wealth we possessed before.

"The present public expenditure of the Government is believed to be about equal to the whole of the private incomes of the inhabitants of the United Kingdom put together.

"We are now adding to the national debt every five or six weeks what we added during the three years of the Boer War."

A Born Trader.

In the canteen of a certain military depot, cracked eggs were sold at a reduced price. An Irish soldier, marketing for his mess, entered the canteen with a basket and said: "Gimme two dozen best cracked eggs." "Cracked eggs all done, Pat," replied the orderly. "Sure, an' they're not then," said Pat, giving the egg-crate in the corner a violent knock. "Hand me some ov thim cracked ones, quick."

THERMOR

Waterless Hot Bottle Remains Hot for 12 Hours Lasts a Lifetime

It is made of metal, nickel plated, of a convenient size.

Simply boil the "Thermor" for ten minutes only (no longer) and it stays hot for full twelve hours at an even temperature of 125 deg. Recommended by physicians on account of the steady heat and sanitary metal case.

No trouble — no filling — no danger of scalding the hands— no leaks—no expense and one purchase lasts a lifetime.

In sickness, such as Neuralgia, La Grippe, Rheumatism, Neuritis, Inflammation—in fact all aches and pains, the "Thermor" is invaluable. As a bed-warmer and a foot-warmer it has no equal.

"The Thermor" measures 8½" across and is 1½" thick, yet it weighs less than a filled two quart rubber bottle.

The price is $4.00 sent Postpaid anywhere and sold under an absolute guarantee from the makers.

High-class representatives wanted in some territories.

GOLDEN GATE MANUFACTURING COMPANY, LIMITED
8 Youville Street, Montreal.

Canadian Woods Only.

Not very long ago Lord Shaughnessy announced that so far as possible Canadian woods only would be used in connection with the construction and interior finish of all Canadian Pacific buildings, railway cars, etc., an announcement which was hailed with great satisfaction by the lumber interests of the Dominion. That such a programme was possible was known to the forestry experts who have supplied to the various Canadian Government exhibits in Europe and the United States magnificent samples of hardwoods with beautiful grains and attractive finish. It would seem that these woods are not being exploited sufficiently, but, no doubt, now that it is known there will be a good demand for it, manufacturers will give the matter greater consideration.

Growing Old.

They had been engaged to be married fifteen years, and still he had not mustered courage enough to ask her to name the happy day. One evening he called in a peculiar frame of mind, and asked her to sing something tender and touching—something that would "move him." She sat down at the piano and sang, "Darling, I am growing old!"

The Paisley Advocate

PAISLEY, APRIL 5th, 1916

LOCAL AND DISTRICT NEWS

Judge was Sarcastic

An unusual occurrence was staged at the Spring Assizes here, when the presiding justice, Sir William Meredith, passed one at the jury at the conclusion of the Paisley shooting case that must have made these twelve good men and true wonder whether they were there to please the judge or to give an unbiased opinion in the cause of justice. The Judge, who took a strong stand against the defendant in his split to the Jury, seemed not a little provoked when the peers and equals handed the plaintiff a lemon in the form of a $200 verdict, a sum that the defendant had voluntarily offered him and had already paid into Court. Seemingly provoked by what must have seemed to him like a joke award after he had wasted so many fine chest-notes on the seriousness of the case, the Judge took a parting slap at the Jury when he said, "That none of them, he hoped, would get shot similarly in the arm and he handed out only $200 of an award." As men actually three their lives in the hands of juries, and trust to an unbiased, fearless verdict, it will be a sad day for British justice if resulting juries on their awards becomes frequent and the bulwark of British freedom should stand in awe of the bench.—Herald and Times

Old Boys in the 32nd

It is interesting to note that the men who are in charge of the recruiting movement in Bruce County to-day were fellow officers of the 32nd twenty-five years and more ago. In fact, Lt.-Col. Weir, head of the Bruce Auxiliary, and Mr David Robertson, then Capt. Robertson, were tent mates in the officers' lines on at least one occasion. Judging from the yarns swapped at a recent committee meeting, there was no officer of the regiment who enjoyed a joke more than Capt., now Judge, Klein. The Judge smiles in a noncommittal way when accused of being the perpetrator of many regimental pranks of those days, but the evidence, if in some cases circumstantial, is convincing enough to find him guilty. On one occasion Col. Weir dreamed that he was being pulled out of bed by the foot. He soon woke sufficiently to find it was indeed a reality. He hung onto the bed but the men outside, whom the Col claimed were Klein and Robertson, had a strangle hold and the result was that the bed and officer landed into the cold wet night. Judge Klein tells of a very pompous officer who persisted in riding his horse around the tent where he and some brother officers were stationed, much to their annoyance. One day a bunch of firecrackers began doing business underneath the steed as he stood in front of their tent. That was the last time they were bothered by the officer and his horse. The Judge relates in an injured sort of way that the others insisted on blaming him for the episode, and still gleefully recalls the pompous officer's outraged dignity and his fierce remark: "Klein, you are the blankety blankest fool that God ever made."—Telescope.

Eldersile Ladies are Champion Tea Room Boosters

Saturday last looked decidedly unfavorable for the Red Cross Tea Room and market, as the weather looked to be a continuation of the boreal badness that had prevailed for three days. Nothing daunted, however, the ladies of the fourth and second cons. of Eldersville made their preparations and carried out their plans just as thoroughly as if it were the brightest day of spring. The results justified, and it is safe to say, amply rewarded them for their trouble, as the large quantities of marketable stuff they brought in was all converted into money for the Red Cross fund before the Tea Room closed. The proceeds amounted to $175 05. There was in addition $65 25 made from sale of tickets for the load of tile donated by Bell Bros. of the Paisley Brick and Tile Yards, which are located on the end of the 4th con. Mr. Thos. Brown, of lot 1, con. 2, held ticket No. 12, which won the load. The drawing for this and the rig donated by Mr. H. Rudolph, of Elora road north, were two events that made the afternoon programme, and as the tea room had been moved to the town hall for the occasion, there was a big crowd there for the fun. The little pig was in there in a neat little crate, and was loudly decorated with a wide red ribbon bow on its neck. The lucky ticket holder in the pocker sale was Kenneth, son of Mrs. D M Hay, of con. 2, Carrick. When ticket No. 147 was drawn the little lad made claim for the pig, but had to go home for the ticket before he could be proclaimed the winner and owner of the dear little pig. The sale of 400 tickets at 25c each had brought the value up to the century mark for Red Cross purposes, and who doesn't hope it may become as valuable to the present owner.

Mrs. Robt. Gregg

Mrs Gregg, whose maiden name was Mary Deacon, was born at Shawville, Que, and died at Swan River, Man., on Feb 20, 1916. Mrs Gregg was a woman of estimable character, ambitious, kind and self-sacrificing. Being left an orphan at an early age, she was reared in the home of the late H H Forde, spending her early youth in Perth Co, and moving to Bruce when eleven years of age. When a girl she became converted and united with the Wesleyan Methodist church and remained a loyal and true member of that church all her life. About thirteen years ago the family moved to Manitoba and homesteaded in Swan River Valley. Those who knew her best realized that her health was failing during the last few years, but the end came suddenly, being sick only five days. The bereaved husband, four sons and one daughter mourn her early call. The members of the family have all reached womanhood and manhood. There are six daughters—Mrs F B Cottrill and Mrs Mark, of Port Elgin; Mrs McKay and Mrs Nuttall, of Underwood; Mrs Dieffenbaugh, of Westlock, Alta, and Miss Maude, at home. The sons are—Rev J P Gregg, of Leader, Man; Robert, of Gilbert Plains, Man; Albert, of Fry's Bank; and Harry, at home. Despite the extremely cold weather a large crowd assembled at the church at Kreville to take a last farewell of their departed neighbor and co-worker. An unusual and beautiful feature of the funeral was the pall-bearers being the four sailor sons, who were proud to perform this last earthly duty for their mother. The service was conducted by Rev. R. O. Martin, M.A., B.D., who used as his text John 13:35.

Can't Collect Hotel Business Tax

Mr. W. J. Ellis, of the Central Hotel, having refused to pay taxes on business assessment, the village council sued for the amount, $38, at the last Division Court, but judgment was given for defendant, the municipality to pay costs. The council will decide at the regular meeting on Wednesday evening whether an appeal should be made. The reason Mr. Ellis refused to pay the tax is that judges have ruled that hotels in local option municipalities are not liable for business assessment. In view of the fact that prohibition will be in force over the province within a few months, and probably some special legislation be brought in to regulate hotel assessment, it is hardly worth while going to the expense of an appeal in the Ellis case. Hotel-keeping is certainly a business, and should logically be assessed as other businesses are, yet there is a feeling entertained by some that when a hotel is run without a license to sell intoxicating liquors the profitable end of the business is absent, and the hotel keeper should be encouraged in keeping a good house to the extent of being relieved of the business tax. In fact, in some municipalities there has been no business assessment since local option came into force. Should the Legislature take this view of the subject we may expect to see a new statutory clause in the Assessment Act to cover it and settle all chance for litigation.

Death of Jas. A. Rowley

Thrice endangered since an attack of appendicitis called for a surgical operation, and twice removed from that danger by the surgeon's skill, the life of Jas. A. Rowley, of Greenock, was suddenly cut off on Thursday night last before the surgeon could reach him for the third time. As many remember Mr. Rowley was taken very suddenly ill with appendicitis last August. A specialist attended him at his home, and although the case was a very serious one he recovered, but this winter was obliged to go to the hospital again for further treatment following injury to the wound. Thereafter Mr. Rowley became so well and strong that he was able to attend to his own work on the farm until last Wednesday he was again laid low by a complication in the region of the original trouble, and which it was fondly hoped could only be relieved by surgical skill, but which unfortunately could not be obtained in time to save his life. The deceased was the third son of the late Joseph and Mrs Rowley, and (with the exception of five years when he was at Boodhead, Ont., spent all his life on the old home farm, lot 4, con. A, Greenock, which he returned to some time before the death of his father. Jim was a right-hearted, cheery man, hearty in his friendship, genial in his acquaintanceship, and will be much missed in the neighborhood. He was married at Schomberg to Ursila Welsh, who survives him, with their young family of four sons and one daughter. He is survived also by his mother, who has been at Peterboro for some time, one sister, Mrs George Nicol, of Underwood, three brothers—David, of Tyner, Sask.; Fred and Harry, of Highland Grove, Ont. The bereaved widow, family and friends have the sympathy of not only the community in their deep affliction. The funeral took place on Sunday afternoon, and was attended by a very large number. The service at the house was conducted by Rev Mr Facey, the deceased having been connected with the Methodist church since infancy and latterly was an office-holder in the congregation. He was also a member of the I O O F order, and the brethren of Ahiram Lodge took charge of the service at the cemetery. Among the relatives present were Mrs Rowley, sr., Mr H N Rowley, Mrs Nicoll, also Mr Webb and son from Schomberg.

The Late Duncan McArthur

There passed away at Edmonton, Alberta, on the 6th day of February, 1916, a man who will be well remembered by many of the older people of Paisley and the surrounding country—the late Duncan McArthur. Mr. McArthur had been so long away from this district that a short review of his life may be appreciated by his early friends and acquaintances. He was born in the township of Caledon county of York, in the year 1854. In the same year his father and mother decided to move to Bruce county, and settled on a homestead on the townline between the townships of Bruce and Saugeen. Eight years later the father died and the pioneer life of the forest was left on the shoulders of the mother with a family of seven young children. Although there was an older brother, young Duncan soon took on the general supervision of the farm, whilst his elder brother John started a blacksmith shop in Paisley. These were hard days, for the forest did not readily give up its ancient sovereignty, and what was gained from it was gained by muscle and sweat. Thus the battle of life was fought for twenty-two years, and in 1884 the old homestead was sold and its occupants went west. Duncan, his mother and his younger brother Peter moved to Alberta and settled on a farm near the present site of Saskatchewan the remaining years of his life were spent in the sunny province. Here he met and married Katherine McBeth, of Palmerston, in the year 1896. Fourteen years later he was left a widower, his wife succumbing to a brief illness. It was while enjoying retirement from an arduous life that the end came. One would wish that he might have enjoyed the fruits of his labors for a more extended period and that his sun might have set at a more distant date, but it was not to be. He was a quiet man, and his friends were amongst the quiet people. This trait of his character reflected probably his pioneer life, the solitude of the woods and the stillness of the prairies. In these days of turmoil such men are needed and our country can ill afford to lose them. They are needed to keep us in equilibrium. He was a man with a high sense of duty. When the Riel Rebellion broke out in the west he was among the first to volunteer, and acquitted himself bravely. In the present struggle he has given his youngest son Norman, who is now in France serving his king and country. As he faithfully served his country in her hour of need, so he quietly and conscientiously served his God throughout his whole life. It is not everyone that has gone into a new country and maintained his allegiance to his church. All honor to those who have. He died as he had lived, a firm believer in Christ and the principles of Christianity. He leaves to mourn his loss one daughter Jessie, and two sons Gordon and Norman. There are also two brothers and three sisters—Rev. John McArthur of New Zealand, Peter McArthur of Calgary, Mrs. Malcolm McCrimmon of Edmonton, Mrs. Malcolm McIsaac of Calgary, and Mrs. Mary Campbell of Saugeen.—Com.

ESPECIALLY FOR WOMEN

"Fruit-a-tives" Now Known as Woman's Best Medicine

"FRUIT-A-TIVES," the famous fruit medicine is particularly well suited *for the use of women*, because of its mild and gentle action and its pleasant taste.

In severe cases of *Constipation, Indigestion, Bloating, Sick Headaches, Pain In The Back, Neuralgia, or a General Run-Down Constitution*, "Fruit-a-tives" is the only medicine needed to correct such troubles and restore the sufferer to complete health.

As a tonic, "Fruit-a-tives" is invaluable to purify and enrich the blood and build up strength and vigor.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

ROWLEY—In Greenock, on March 30th, Jas. A. Rowley, aged 40 years, 6 months and 23 days.

GRANT—In Elderslie, on April and, Hannah Batten, relict of the late Ernest A Grant, aged 88 years, 9 months and 14 days.

IN LOVING MEMORY

of Baby Ivan Mansel, son of Mr and Mrs John Crowe, 7th con Elderslie, who died Feb 13th, 1916, aged 1 year, 3 months and 9 days.

Ivan has gone to Jesus;
Brief and few the days
Tarried he to please us
With his winsome ways.

Never more our eyes shall see
The smiles we loved so dear,
And that voice, like a sweetest music,
Never more on earth we'll hear.

Let there be no tears of sorrow,
Since Jesus knows what's best,
But listen to his angel voice
That beckons you to rest.

But weep not for your darling,
He is but gone before
To be with the blessed Saviour
Over on that golden shore.

RABY-KILLERS TAKEN; HEAVY LOSS OF LIFE

"It is War," Says Hun—Captors Very Kind—New Zealander the Hero—Three More Raids

With the exception of the big raid of January 21, when the casualties aggregated 67 persons killed and 117 injured, the Zeppelin raids of Friday and Saturday nights caused greater loss of life than any previous aerial attack this year. The total casualties for the two nights, according to an official report, were 59 persons killed and 166 wounded. The casualties of Sunday's raid in which Scotland was attacked by Zeppelins for the first time, are not yet known. The British public finds satisfaction in practical proof afforded of a great improvement in the defensive methods of dealing with aerial incursions. For the time since the inception of this method of warfare on the British coast, not only has one raiding Zeppelin, L15, been brought down and its crew taken prisoner, but the official report recounts an exciting aerial fight between a Zeppelin and a British airman, Lieut. Brandon, who, mounting to a height of 9,000 feet, got over the raider and dropped several bombs on with effect. The L15 was brought down by land batteries in the Thames estuary.

Defences Improved

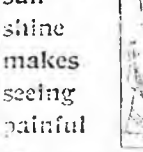
It is stated that a number of persons who were injured in the Zeppelin raid were rendered unconscious by asphyxiating bombs. Eyewitnesses concur that Zeppelin raiders never previously met with such a cannonade from anti-aircraft guns. The raiders, individually and in concert, attempted to progress inland during a greater part of the night, but were repeatedly checked by a tornado of shells. The machine of Lieut. Brandon was hit several times by machine gun bullets from the Zeppelin. Alfred Brandon, the British airman, is a native of Wellington, N.Z. He only joined the Flying Corps last July.

Hundreds of Casualties

Official bulletins dealing with the Zeppelin raids of Sunday, Saturday and Friday nights read as follows: "A Zeppelin raid took place Sunday night, when the coast of Scotland and the northern and southeastern counties of England were attacked. Bombs were dropped at various places. Details are available. Two airships approached the northeast coast Saturday night. Only one crossed the coast. The other turned back. Per the present we know that sixteen persons were killed and about 100 injured. The total casualties reported in the Zeppelin raid on the night of March 31-April 1 now amount to forty-two killed and sixty-six injured. Nearly 100 explosive and incendiary bombs were dropped. There was no military damage. A number of our aeroplanes went up to attack the raiders."

Crew Were Afraid

"None of the men of the L-15 would admit that bombs had been dropped during the raid, probably from the unfounded fear that any such admission would entail punishment. The prisoners will be placed with the other German prisoners, and no difference will be made in their treatment. All the captured German officers and men will receive the same pay as those of equal rank in the British service."



Hun Captain's Story

"I do not think you would find an officer of the German navy or army who would willingly participate in the killing of women and children," said Lieut.-Commander Breithaupt, commander of the Zeppelin L-15. "I am very well satisfied with the treatment here. We have a much more important object in view than the killing of women and children—namely, the destroying of the enemy's armed positions, warships and factories. Women and children become the victims of our operations, but not because we kill them intentionally. It is war."

Lieut. Koehne, second in command, said that it was his first raid on England. "I had hoped to come again," he added. Asked whether he participated gladly in air raids, Commander Breithaupt replied: "Yes. I do my duty as an officer gladly. As to the risk in air fighting, we know the chances we run." Breithaupt were an Iron Cross of the October, 1912, raid, and had been with the Zeppelins since war broke out. All the members of the airship's crew, when interrogated, expressed satisfaction at the treatment they had received.

Special One-way Fares to Pacific Coast Points, Daily Until April 14th

KYTE CHARGES ALLISON WITH HUGE RAKE-OFF

Alleged Mushroom United States Companies Made Profits Long Before Delivery of Shell Fuses

In the House of Commons, Ottawa, on Tuesday night George W. Kyte (Liberal) of Richmond, preferred an elaborate indictment against the shells committee in connection with the contract for fuses. He read from the record to prove on June 9, 1915, contracts were awarded to two American companies for fuses involving an expenditure of $22,000,000. One company was called the American Ammunition Company, and the other was called the International Arms and Fuse Company. He read from the articles of incorporation to show that the first company was incorporated under the laws of Virginia just three weeks before it received an order from the shells committee aggregating about $11,000,000. The company had no plant or business of any kind and its paid up capital was $1,000.

Hughes' Formal Approval

Mr. Kyte charged that the American Ammunition Company, capital $1,000, having no plant, received the orders on which $1,565,400 was paid before any delivery was made. That the International Arms and Fuse Company, capital $3,000, having no plant, received $1,657,000 before delivery. That E. B. Cadwell, president of the International Fuse and Arms Co.; B. F. Yoakum, New York, and E. N. Bassick, Bridgeport, Conn., entered into a written agreement to divide $1,000,000 for getting contracts from the shell committee before such contracts were in writing. That Col. J. Wesley Allison was in an agreement with Yoakum and Eugene Lignant, musician, of Montreal, to secure contracts, and that Lignant disposed of his one-tenth interest later for $50,000. That Major Gen. Hughes gave his formal approval to Allison's transactions. Mr. Kyte argued that the trail led directly up to the Minister of Militia and Defence, because the contract with the American Ammunition Co., after being duly executed by the shell committee, was formally ratified by Major-Gen. Hughes.

Sir Thomas Defends

Hon. W. T. White followed on behalf of the Government. He said that there was nothing unusual in the Government advancing money to contractors before the work was actually done. Whenever there was a large initial expense, such as installing machinery, it was customary for the Government to make advances to the contractors. The Minister said he knew nothing about the particular corporations, the American Ammunition Company and the International Arms and Fuse Company, but he took it for granted that they had given ample guarantee bonds for the faithful performance of their contracts.

GERMAN HORDES STILL DRIVEN TO SLAUGHTER

Verdun Defences Roll Back More Attacks—Aircraft and Artillery Busy Around Crown Prince's Objective

Despatches from London on Sunday said: "The Germans are still carrying on strong offensive operations northeast and northwest of Verdun. About four and one-half miles northeast of the fortress they penetrated the Caillette Wood, just outside Fort Douaumont, after a violent bombardment. From part of this wood the French, in an immediate counter-attack, drove back the invaders. Another powerful attack was delivered against that portion of the Avocourt Wood held by the French, but there the French barrier fire and machine guns held the Germans without gain. The French have now entirely evacuated the village of Vaux and have drawn their lines south of the town, but in its immediate outskirts. On the other sectors about Verdun there have been only intermittent bombardments; artillery duels have characterized the fighting along the remainder of the front. Aircraft have been very active around Verdun. The French brought down three German machines, but Berlin asserts that the aerial combats have resulted in their favor. Both sides have been busily engaged in dropping bombs on military establishments at various points.

Having captured the village of Malancourt, the Germans have now shifted their offensive eastward to the sector around the famous Le Mort Homme. With heavy forces the Teutons have attacked the French line between Hill 295 and Le Mort Homme and succeeded in entering French first line trenches. A vigorous counter-attack by the French, however, almost immediately expelled the invaders, and another attack by the Teutons, delivered a little later, is declared by Paris to have been put down completely.

Another Attack Fails

The Germans have made no attempt to debouch from Malancourt since that occupation of the village. The heavy bombardments of preceding days in the region northwest of Verdun have greatly slackened, and there also has been only moderate activity by the big guns to the north and the east of the fortress. Paris reports the failure of a German infantry attack against the French to the south of the Somme River, near Dompierre, the shelling by the French of German troops on the march in the Argonne Forest, and the battering of German positions in the Forest of Apremont.

Professor Lavell Found?

A despatch from Colorado Springs says a message received by Mrs. Lavell herself in Toronto indicates that the three-year mystery of the disappearance of Prof. Cecil F. Lavell, Ph.D., chemistry of Queen's University, Kingston, has been solved by his being found in that town. The message said that he was picked up here after wandering through three years. He is victim of amnesia (lost memory), and admits his identity."

A Letter to the Germans in Canada

The following letter was written by a German to the Farmers' Advocate, and is worth perusal by all of that nationality in Canada at present:

"Being of German descent, I would like to say a few words though your paper to the German people of our Dominion. I may say at the outset that my parents were born in this country and so was I. Therefore, you will see I am a Britisher, and, as such, Germany has no direct claim on me.

I have no doubt that there may have been times when Germans in Canada thought that their feelings have been hurt, it may be by some remarks which have been made, either though the press or by some speaker expressing his feeling against the Germany race.

But when we stop to think of the awful deeds which the Germany's soldiers have committed against the women and children of Belgium, fand of their unrighteous methods of fighting, and also in murdering innocent people with submarines and zeppelins, is it not human nature to speak out against such diabolical crimes? And we as a German people ought to forbear, and overlook and forgive those who voice their feelings against German people. We as a German people have always in this country been respected until this war commenced.

Now, there has been, through the crimes of the German army, a feeling created among some which, I suppose, they can hardly help, and which I expect will take a long time to die out. But let us, as a German people, so conduct ourselves that we may still, in spite of what Germany may do, retain the respect and good will of those with whom we may come in contact.

I would like to say a few words to the pro-Germans, if there should be any. Did you ever stop to think who was the cause of creating this awful war? Did not Germany sign a treaty to protect Belgium, and was she not the first party to break that treaty? And was not England in honour bound to protect Belgium? England tried hard to have the dispute settled. Germany has laid the blame for this war on England, but the fact that England was unprepared ought to be conclusive evidence that she did not seek war with Germany. Why was Germany prepared? Take a little time and study this question. You have enjoyed the blessing of living under British rule, and no one dared to molest you so long as you behaved yourself, and when you were willing to work you could always get work and make a good living, and were not over-burdened with taxation. Is it honorable, on your part, to defend Germany in her actions in this war, in her crimes against women and children, and in her unholy methods of warfare? We have a country to be proud of. It is the best under the sun, and I am proud to say that I belong to the British nation, a nation that stands for righteousness and is the helper of the weak. England is not fighting against the Germans as a German people, but against that ungodly militarism, and we as Germans ought to thank God when the day of victory is here for the Allies. Take a calm view of the situation in your quiet moments and let your better self speak to you, and I am sure you will come to the conclusion that Germany is in the wrong.

Villa's Band Scattered

Raider's Band Scattered in First Clash With Pursuers

Four hundred American cavalrymen under the command of Col. George A. Dodd, have fallen on the main body of Francisco Villa's bandits at the San Geronimo ranch, scattering them in many directions and driving the bandit chief, wounded and crippled, to seek a hiding place in the mountains. Villa was hurried from danger in a carriage. The fight opened at 4 o'clock in the evening of March 29, and continued for several hours. Col. Dodd with picked troopers of the Seventh and Tenth Cavalry fell upon the unsuspecting Villa camp, where 500 bandits were celebrating the massacre of 172 Carranza soldiers two days previously at Guerrero.

Nearly 300,000 in Khaki

Official Figures of Enlistments in Canada and Cost in Dollars

Sir Robert Borden announced in the House of Commons last week that the enlistments in the Canadian army to date were 298,000. Of these 113,000 are in Great Britain or at the front, and 150,000 are in Canada. There have been 23,000 casualties, and the wastage has been 21,700. At the end of February the total war cost to Canada was $137,000,000. Sir Robert has given notice of a resolution to provide for $250,000,000 for war expenses, to give the Governor-in-Council power to raise by way of loan such sums as are required for war purposes.

ROYAL COMMISSION TO SIFT CHARGES

Sir William Meredith and Mr. Justice Duff Will Investigate Fuse Contracts—Sir Sam Will Return

The Dominion Government has decided to appoint a Royal Commission to investigate the contracts for fuses, under which, it is alleged, $3,000,000 was advanced to two "mushroom" companies in the United States and out of which Col. J. Wesley Allison and his associates divided a commission of $1,800,000. Major-Gen. Sir Sam Hughes has cabled a denial that he had any improper connection with these contracts, and will return to Canada as quickly as possible. Sir William R. Meredith, Chief Justice of Ontario, and Mr. Justice Lyman P. Duff, of the Supreme Court of Canada, have consented to serve upon the commission. Able counsel will be retained to assist the commission. One of these will be selected by the Government and the other by the leader of the Opposition. The Prime Minister in his speech admitted that the Government was receding from its original position. The jurisdictional point as to the power of the Canadian Government to investigate expenditures by the Imperial Government will be gotten over by obtaining the consent of the Imperial authorities to such investigation. A cable was sent to the Colonial Secretary asking for such permission. While no definite charge, in the Prime Minister's opinion, had been made against any member of the Government, he said that there was room for the insinuation that Col. J. Wesley Allison took advantage of his personal friendship with the Minister of Militia to influence him to sanction improper contracts.

Liberals Not Satisfied

Several Liberal members manifested strong opposition to the proposal of Sir Robert Borden to commit the investigation to a Royal Commission. Mr. Carvell (Carleton, N.B.) who had led the fight for a Parliamentary investigation interrupted the Premier with cries of "Shame, shame." Sir Wilfrid Laurier emphatically declared that the proposals were entirely unacceptable, claiming that the only court to try the charges was the high court of Parliament. "No proposals that I could make," Sir Robert retorted, "would satisfy the Right Hon. Leader of the Opposition. I am less concerned, however, about satisfying him than I am about satisfying the people of Canada. I have no doubt that the people of this country will be entirely satisfied."

Premier's Statement

The Premier began by briefly quoting excerpts from his speech delivered in the House of Commons during the early stages of the debate upon the Laurier resolution for an investigation of the Shell Committee. Three excerpts, taken together, stated what had been the position of the Government. They recited in detail the reasons for refusing an investigation. The principal reason, of course, was that the Canadian Parliament had no jurisdiction to sit in judgment upon the conduct or misconduct of the British Government or officials of the British Government. They also contained the proposition that if any member of the House, upon his responsibility as a member, made any charge against a member of the Government, then such charge would be promptly investigated. "This has not been done," said the Prime Minister, "but," he continued, "the Hon. Member for Richmond (Mr. Kyte) made statements as to the connection of the Minister of Militia with certain contracts entered into by the Shell Committee, and as to enormous profits or commissions arising out of these contracts to certain companies which he mentioned. It is alleged that Mr. J. Wesley Allison had a very large interest in these profits or commissions, and it is suggested that, through his influence with the Minister of Militia, the Shell Committee was induced to make the contracts in question. The Minister of Militia and Defence had previously stated to the House his close relation to Mr. J. Wesley Allison and his great confidence in that gentleman. Having regard to these considerations," the Premier continued, "I think it desirable that an enquiry should be made into the fuse contracts made by the Shell Committee with the American Ammunition Co., and the International Arms and Fuse Co., and the cartridge case contract made by the Shell Committee with the Edward Valve Co.

Scope Not Limited

"Upon careful enquiry I cannot find that any of the other contracts out of which it is alleged by the Hon. Member for Richmond that J. Wesley Allison obtained profits or commissions, were made either by the Shell Committee or by any department of the Government of Canada. However, as it has been alleged that the Shell Committee made a contract with the Providence Chemical Company of St. Louis that alleged contract will be included. I therefore propose," said the Premier, "to recommend to his Royal Highness the Governor General that a Royal Commission shall issue appointing one or more judges to make a thorough investigation into these four contracts and all matters connected therewith." The Prime Minister then read to the House a cablegram he had sent to Major-General Sir Sam Hughes. The message stated briefly the Kyte charges and contained the following peremptory command for the Minister's immediate return to Canada: "I propose issuing a Royal Commission forthwith to investigate fuse and cartridge case contracts, and it is necessary that you return immediately for the purpose of enquiry." Sir Robert then read the Minister's reply, which ran as follows: "Please state to the House that I have no improper connection with contracts referred to or any other contracts. If any suggestion to the contrary is made I respectfully demand full investigation by the judicial tribunal presided over by Sir Charles Davidson. I shall call first available boat. (Signed) "Sam Hughes."

Dr. A. W. Waite, the New York dentist, has been charged with murder in the first degree.

ELDERLY WOMEN SAFEGUARDED

Tell Others How They Were Carried Safely Through Change of Life.

Durand, Wis.—"I am the mother of fourteen children and I owe my life to Lydia E. Pinkham's Vegetable Compound. When I was 45 and had the Change of Life, a friend recommended it and it gave me such relief from my bad feelings that I took several bottles. I am now well and healthy and recommend your Compound to other ladies."—Mrs. MARY RIDGWAY, Durand, Wis.

A Massachusetts Woman Writes:

Blackstone, Mass.—"My troubles were from my age, and I felt awfully sick for three years. I had hot flashes often and frequently suffered from pains. I took Lydia E. Pinkham's Vegetable Compound and now am well."—Mrs. PIERRE COURMOYER, Box 229, Blackstone, Mass.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, timidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness, should be heeded by middle-aged women. Lydia E. Pinkham's Vegetable Compound has carried many women safely through this crisis.

THE SHOE STORE

You should not fail to see our splendid showing of

Spring Boots and Shoes

The line includes some of the nicest values you have ever seen. They're stylish, new and up-to-date, built to comfort your feet, stand lots of hard wear and still look nice.

Just call and look over our line. You will save money by getting your shoes here.

STONE & WELLINGTON

Toronto, Ont.

It will be interesting to note that apart from the Bell telephone Company there are in Ontario upwards of 520 telephone systems furnishing services to over 76,000 farmers, and representing a capital investment of approximately six million dollars. This development has mostly taken place within the last six years, and all goes to show the increased facilities and comforts which the people possessed which were unknown of by their fathers.

—"Advertising is the education of the public as to what you are, where you are, and what you have to offer in the way of skill, talent and commodity. The only man who absolutely not advertise is the man who has nothing to offer the world in the way of commodity or service."—Elbert Hubbard.

About the Household

Dainty Dishes.

Gingerbread Cakes.—Beat two eggs until light, add one-half cup sugar, one-half cup molasses, three-fourths cup sour cream, grated rind of half lemon, one-half teaspoon salt, one teaspoon cinnamon, one teaspoon ginger and finally two cups flour mixed and sifted with one-half teaspoon soda. Bake in a gem pan and frost when cold.

Cottage Cheese Pie.—One cup cottage cheese, two cups milk, two eggs, four tablespoons sugar, one lemon, pinch of salt, piecrust. Beat eggs and sugar together for ten minutes, add cheese and salt and beat well again. Add milk grated rind of lemon and one tablespoon lemon juice. Line large, oblong or round pie tin, and bake until custard is firm.

Salmon Omelette.—Use a half can of salmon, a half cupful of milk, 4 eggs, and salt and pepper to taste. Pick the salmon into tiny flakes with a fork and be sure to see that no skin or bones are left. Proceed as in making an ordinary omelette, beating the eggs, and adding the seasoning, milk and fish. A border of mashed potatoes looks well; peas may also be used.

"Try Out" Cake.—A simple cake for the beginner is made by using two-thirds of a cupful of sugar, piece of butter the size of an egg, creamed together. Add an egg and a pinch of salt, beating until light. Then add two-thirds of a cup of sweet milk, and one and two-thirds cupsful of flour, into which has been sifted 1 heaping spoonful of baking powder. Bake in 2 round pans, or in a square loaf pan in a quick oven. Care should be taken not to have the oven too quick or the cake will not be light.

Baked Potato Puffs.—Four cups mashed potatoes, one-fourth cup milk, two tablespoons each of butter and chopped parsley, one teaspoon salt, one-eighth teaspoon pepper, one-half teaspoon grated nutmeg. To hot mashed potatoes add milk and seasoning, one tablespoon butter and flavoring. Brush custard cups with butter and put in mixture. Rough tops with fork and bake in hot oven for thirty minutes. Loosen sides with spatula or knife and turn out on hot flat dish, bottom side up. Muffin tins may be used for baking.

Nut Bread and Cheese.—Nothing is more delightful than nut-bread and cream cheese sandwiches, and they have the added advantage of being a good Lenten dish. Here is a good recipe for nut-bread: Take 4 cups of flour, 4 tablespoonfuls of baking powder, 1 teaspoonful of salt and ½ cup of sugar; sift thoroughly; then stir in two-thirds of a cup of shortening; beat 1 egg well; add this and 2½ cups of milk to the dry mixture. Stir all well, then add 1 cupful of walnut meats. Bake in a moderate oven until thoroughly done.

Delectable Recipe.—Here is an old Creole recipe for fried chicken and cream sauce: Clean and cut the chicken at the joints, dredge well with salt, pepper and a little flour. Put three tablespoonfuls of lard into a frying pan and when hot, add the chicken, allowing it to fry slowly for three-quarters of an hour until done. When done, arrange the pieces on a hot dish. Take all the fat that remains in the frying pan, but one tablespoon and put it away. Add a tablespoon of sifted flour to the grease in the pan. Mix thoroughly, so there are no lumps, and then pour in a half pint of rich cream or milk. Season well with salt, pepper, let it come to a boil and pour over the chicken. Serve hot.

To make honey ginger bread take four cupfuls flour, two heaping teaspoonfuls of baking powder, two heaping teaspoonfuls of powdered ginger, half a cupful of preserved cherries, a quarter cupful of chopped citron peel, half a cupful of butter, three-quarters of a cupful of honey, two eggs, quarter of a cupful of milk. Sift the flour, salt, baking powder and ginger into a basin, add the raisins, the peel and cherries cut in halves. Melt the butter, honey and milk together in a saucepan, then cool and add to the flour with the eggs well beaten. Mix, turn into a buttered and floured cake tin and bake.

Orange Layer Cake.—Five eggs, two cup sugar, one sour orange, one-half cup cold water, two cups flour, two teaspoons baking powder. Beat yolks of eggs, add sugar and beat ten minutes. Add juice and grated rind of orange, water and flour sifted twice with baking powder. Fold in stiffly beaten whites of three eggs and bake dough in layers. Save other two egg whites for filling. Orange filling: One and one-half cups sugar, one-half cup water, whites of two eggs, juice and rind of one orange. Boil sugar and water to soft ball stage; pour this into stiffly beaten egg whites, add juice and rind of orange and beat until stiff enough to spread.

Delectable Left-Overs.

Here's a clever way to use left overs:

Mashed potatoes should be mixed with butter and rolled into balls. Hollow out the top of each ball and fill with a mixture of chopped meat and spices, celery, seasoning—onion if I prefer it. Place this in a greased pan a bit of butter on top of each and brown.

Remove all skin, bone and oil from left-over salmon. Mash this as fine as possible, mix with cream—a cupful will do—and two tablespoonfuls of butter. Season. Beat the whites of two eggs to a stiff froth, turn the salmon into this, and beat the whole mixture lightly. It is light and foamy when done.

Cream sauce poured over minced ham, peppers, mashed potatoes and seasoning, then baked in the oven until brown, is palatable.

Macaroni, drained and placed in a buttered baking dish, and covered with grated cheese, is especially good if a place in the centre of the dish or casserole is filled with chopped ham. Bake the whole in a quick oven.

Meat cakes of chopped meat, breadcrumbs and two beaten eggs, rolled out and fried, is a favorite way to use left-over roasts.

Household Hints.

Hot vinegar is better than cold in the making of mint sauce.

Slip a thimble on the end of the curtain rod when putting it through the curtain.

The vinegar in which pickles have been preserved is excellent to use in salad dressing.

Dainty moccasins can be made for baby from the tops of pale-colored evening gloves.

The leather travelling bag will look clean and fresh if it polished with linseed oil.

Fruit for preserving should be sound and fresh, and should be preserved as quickly as possible after gathering.

If shoe polish has become too dry to be used in the ordinary way, try moistening it with a few drops of turpentine.

Never try to darn a run in a stocking. Take a small crochet hook, pick up the stitches and crochet the run.

Don't choose cheap lace curtains. If you cannot afford good ones invest in casement cloth or plain muslin, and make them at home.

When making oatmeal porridge, place the oatmeal in cold water and bring slowly to the boil. This gives a better flavor than when made with boiling water.

It is important to wear an apron if working with silks or other materials that roughen on a woolen dress, and such an apron should have a dainty bib, for in holding up the embroidery the silk rubs against the blouse.

THOUGHTS FOR THE DAY.

Hope is brightest when it dawns from fears.—Scott.

Life is not so short but that there is always time enough for courtesy.—Emerson.

The one best provision for the future is the best possible use of the present.—Whittier.

Avoid shame, but do not seek glory—nothing is so expensive as glory.—Sydney Smith.

When the sermon is good we need not much concern ourselves about the form of the pulpit.—Ruskin.

We may as well use pea-shooters at an elephant as Maxim guns at a Zeppelin.—Mr. Joynson Hicks.

It is one thing to show a man that he is in error and another to put him in possession of truth.—Locke.

He who has once deviated from the truth usually commits a perjury with as little scruple as he would tell a lie.—Cicero.

Each man is a hero and an oracle to somebody, and to that person whatever he says has an enhanced value.—Emerson.

A life of pleasure cannot support itself so long as one of business, but is much more subject to satiety and disgust.—Hume.

Most people err not so much from want of capacity to find their object as from not knowing what object to pursue.—Sir Joshua Reynolds.

Life in its prime is won by being surrendered. Life is lost, however precious and enviable, by being grudged and guarded.—Canon E. H. Pearce.

The whole glorious fabric of liberty, which has been built up by centuries of sacrifice can only be preserved if we are prepared to the last drop of blood to fight for it.—Sir George Reid.

An Imperial Pooh Bah

We read that King George has appointed the Emperor Nicholas a field-marshal in the British army. Which reminds us of a little story.

"Donald," said an officer of the Scots Greys, some years ago, "have you heard that the Czar of Russia has been appointed colonel of our regiment?"

"Indeed, sir, is that so?" said Donald. "It's a verra gran' thing for him." Then he paused and scratched his head while a puzzled expression came over his face. "Beg pardon, sir," he added, "but will he be able to keep both jobs?"

These Modern Days.

"They have money, haven't they?"

"I don't know; haven't seen them for about a year."

Bobbie—"May Johnny Shocker come in and play with me?" Mother—"No; you make too much noise. You can go and play in his house instead."

PROFIT AND LOSS

Kaiser: "Think of our gains."
Germany: "But I think of the price."
—New York Times.

FORESAW "THE DAY" 8 YEARS AGO

KAISER IN A SPEECH TOLD OF HIS PLANS.

Britain and France Crushed and U.S. and Russia Held at His Mercy.

That the Kaiser at a secret council of high German military, naval and other officials, held in Potsdam Palace in June, 1908, boasted that he was supreme in the United States because of the presence in that country of a population of one-half of which "is either of German birth or German descent," and that the day was coming when he (the Kaiser) would crush Britain and France to the dust and hold "Russia and the United States at my mercy," are statements quoted in a book entitled "German Spies in England," by William Le Queux, the British writer.

Le Queux states that a true copy of the speech made by the Kaiser at the Potsdam Council is now in the archives of the British Government, where it has remained unpublished until now. The copy of the speech, he adds, was obtained originally from "a high functionary in Germany," who was closely associated with the Kaiser, and who held pro-British views.

This is the story of the Kaiser's speech at Potsdam as told by Mr. Le Queux:

"Shortly after the Zeppelin airship had been tested and proved successful, a secret council was held," he says "at Potsdam in June, 1908, at which the Emperor presided, Prince Henry of Prussia—a clever man whom I knew personally—the representatives of the leading Federal States, and the chiefs of the army and navy, including my informant, being present.

"At this secret council the Kaiser appeared dressed in naval uniform, pale, determined, and somewhat nervous."

God His Ally.

The Kaiser's speech, as if we reported in Mr. Le Queux's book, then follows.

"Gentlemen," the Emperor commenced, "in calling this council this evening I have followed the Divine command. Almighty God has always been a great and true ally of the House of Hohenzollern, and it is to Him that I—just as my august ancestors did—look for inspiration and guidance in the hour of need. After long hours of fervent prayer light has at last come to me.

"You, my trusted councillors and my friends, before whom I have no secrets, can testify that it has been, ever since I ascended the throne, my most ardent desire to maintain the peace of the world and to cultivate, on a basis of mutual respect and esteem, friendship and good will with all nations of the globe.

The Mailed Fist.

"I am aware that the course followed by me does not always meet with your approval, and that on many an occasion you would have been glad to see me use the mailed fist rather than the silken glove chosen by me in my dealings with certain foreign nations.

"'Breakers ahead!' is the call of the helmsman at the head of the imperial ship of State, and I am ready to heed it. The outlook is, I admit, dark, but we need not despair, for God, our great ally, has given into our hands the means of saving our empire from the dangers which are threatening its happiness and welfare. You know what I mean. It is that wonderful invention which his Excellency Count Zeppelin was enabled, through the grace of the Lord, to make for the safeguarding and glory of our beloved Fatherland. In this invention God has placed the means at my disposal to lead Germany triumphantly out of her present difficulties and to make, once and for all, good the words of our poet, 'Deutschland, Deutschland über alles!' Yes, gentlemen, Germany over everything in the world, the first power on earth, both in peace and war; this is the place which I have been ordered by God to conquer for her, and which I will conquer for her, with the help of the Almighty.

"This is my irrevocable decision. At present, we are, thanks to our airships, invincible, and can carry at will war into the enemy's own country. The attack has always been the best defence, and he who strikes the first blow generally comes triumphant out of the fray."

Continuing, Mr. Le Quex says the Kaiser added that plans for the invasion of England had been carefully prepared by the German General Staff.

Sees Pan-German Era.

"Of course," the Kaiser is reported to have continued, "it is too early yet to fix the exact date when the blow shall be struck. But I will say this, that we shall strike as soon as I have a sufficiently large fleet of Zeppelins at my disposal. I have given orders for the hurried construction of more airships of the improved Zeppelin type, and when these are ready we shall destroy England's North Sea, Channel and Atlantic fleets, after which nothing on earth can prevent the landing of our army on British soil, and its triumphant march to London. Do you remember, my generals, what our never-to-be-forgotten Field Marshal Von Blucher exclaimed when looking from the dome of St. Paul's Cathedral upon the vast metropolis at his feet? It was short and to the point, 'What a splendid city to sack!'

"You will desire to know how the outbreak of hostilities will be brought about. My armies of spies scattered over Great Britain and France, as it is over North and South America, as well as all the other parts of the world where German interests may come to a clash with a foreign power, will take good care of that. It will become the starting point of a new era in the history of the world, known to all generations as the Pan-German era.

"Even now I rule supreme in the United States, where almost one-half of the population is either of German birth, or of German descent, and where 3,000,000 voters do my bidding at the Presidential elections. No American administration could remain in power against the will of the German voters, who, through that admirable organization, the German-American National League of the United States of America, control the destinies of the vast republic beyond the sea. If man ever was worthy of a high decoration at my hands it was Herr Dr. Hexamer, the president of the league, who may justly be termed to be, by my grace, the acting ruler of all Germans in the United States."

The Fashions

First Indications for Spring

Quite often one notices in the new importations a tendency to the slender, tapering waist; and this, of course, means the well-corseted figure. It is not probable that the hour-glass figure will be countenanced for a moment, but a trifle more trimness, conducted by a well-fitting modern corset, is necessary to meet the requirements of the Spring suit, with its hint of a curve at the waistline, its graceful flaring skirt and coat-skirt. A carefully selected and properly fitted corset is necessary and always has been to a smart, well-groomed appearance. Rather than injurious the right corset tends toward health.

Several of the Paris houses are advocating the three-quarter-length coat and now and then one sees a polonaise effect. These coats are made with well-fitted shoulders and rounded waistline. It is quite remarkable that this should be so just now, when we are massing so much fulness in the skirts between the belt and the knees, but it only goes to show the wide variety we are to enjoy this Spring and Summer.

A Word on Skirts.

Skirts continue short and full. Many of the houses are emphasizing the favor shown by them for the crinoline since the first whisper of full skirts began to circulate, and many are using interesting methods of extending their skirts; among these are reeds, featherbone, and even hair-cloth stiffenings. In many instances the reeds are graceful and becoming, but, as a rule, the effect is extremely awkward, as there is no pretense whatever of concealing the mechanism, and they often protrude at unexpected angles, giving a curious, unbeautiful result.

In the regulation Summer frock and the dress dance of net, organdy, or other of the sheer, dainty fabrics

7027-7013

Dance Frock of Taffeta and Chiffon

favored this year, the fulness of the skirt is made decidedly graceful and youthful by tucks, ribbons, and bias bands of the same, or a contrasting material. Often folds of chiffon or net are attached to the inside of the skirt of the dance dress giving a soft, bouffant effect which is pleasing in every way. Taffeta is unusually effective combined with, or as trimming for, the pale-toned frock of organdy or net, fashioning the Summer dance dress. In both illustrations this week the skirt is of taffeta and the effect of the deep tuck is well brought out. The first dress has an underbodice of shadow lace and a simple overdrapery of chiffon. The short sleeve cap, while it concedes to Fashion's sleeveless demand, also makes a concession to modesty. The second frock shows the combination of net and taffeta. Aside from being especially pretty, this combination is practical, as net wears particularly well and lends itself to almost any fashion of draping.

Ribbons and Ruchings

Pleatings and ruchings of all widths and fashions are still favored trimmings for both street and house frocks. Narrow black velvet ribbon is most effective and easily applied. On some of the imported models cordings, pipings, and ruchings appear in much unexpected places. One cannot fail to see that handwork, and individual hand-made trimmings, stitchings, etc., can work wonders, and afford an effect which can scarcely be brought about by machine-made trimmings. It is quite interesting to see a little blue frock trimmed with insertions of matching net, with accompanying pendant ornaments of wool or beads in a soft harmonizing coloring. Bead trimming is effective on both silk and wool materials; it is being used in any way that clever brains and fingers may design. The more original the notion, the more attractive the blouse or frock. Pale pink crepe de Chine or crepe is made more delicate by a banding or an ornament of delft-blue opaque beads. Dark blue taffeta or serge may be brightened with a touch of emerald green, orange, copper or a harmonizing, contrasting blue. There are any number of smart little ways of trimming frocks and

7002

Net Bodice and Taffeta Skirt

blouses this season with practically no expenditure of money, if one has ideas and fingers deft enough to carry them out.

These patterns can be obtained from your local McCall dealer or from The McCall Company, 70 Bond St., Toronto, Ontario.

KAISER TO LOSE THRONE.

German "System" is Called Ruinous and Inefficient.

(From an interview with Senator Albert B. Cummins in the Philadelphia Record.)

"Will the United States always be at peace with the rest of the world?"

"Always means forever. I can't fill your order as a prophet. All I dare to say is that the United States is in no danger now of invasion, nor will it be in immediate danger after the war in Europe is over.

"In my opinion, there will be no wars in the near future.

"Moreover, great changes are to occur in Europe. The people will be sick of war, and the men who are expected to die when there is war will take action to protect themselves, their homes, and their families. William of Germany is the last of his house to sit upon a throne.

"The Germany of the near future, in all probability, will be a socialistic democracy; if not that, then a military democracy. It is the fashion nowadays to talk extravagantly about the wonderful organizing system of Germany and its remarkable industrial and military efficiency.

"In my judgment its system is inefficient and ruinous, though I grant that it worked advantageously for a time. In the long run, however, it will fail. The German system destroys individuality."

Emancipated.

Little Everett was a member of the Band of Mercy Society and was proud of the membership. He wore his badge, a small star, as if it were a policeman's insignia, and was often heard reproving other boys and girls for cruel treatment of dogs and cats.

One morning a woman of the neighborhood hearing a commotion outside found Everett in the act of tormenting the cat.

"Why' Everett,' she called, "what are you doing to that poor cat? I thought you belonged to the Band of Mercy Society?"

"I did," replied the little boy, "but I lost my star."

Getting Even.

James, 4 years old, had been naughty to the point of evoking a whipping from his long-suffering mother, and all day long a desire for revenge rankled in his little bosom.

At length bedtime came, and, kneeling beside her, he implored a blessing on each member of the family individually his mother alone being conspicuous by her absence. Then, rising from his devout posture the little supplicant fixed a keenly triumphant look upon her face, saying as he turned to climb into bed:

"I s'pose you noticed you wasn't in it."

Some women are happy because they know how to think they are.

POULTRY

Money in Turkeys.

For those who are favorably situated for raising turkeys a more profitable side line can hardly be found. Given plenty of range where the turkeys can find grass hoppers and other insects, green vegetation, the seeds of weeds and grasses, waste grain, acorns and nuts of various kinds, the cost of raising them is very small and the profits large.

Grain and stock farms are particularly adapted to turkey raising, and it is on such farms that most of the turkeys are found. Little has ever been done in the way of raising turkeys in confinement, and where it has been tried the results have been discouraging. Plenty of range is essential to success in turkey raising.

In selecting turkeys for breeding, the most important factors to be considered are vigor, size, shape, bone, early maturity and color of plumage. The body should be deep and wide, the back broad and the breast round and full. The head should be of good size and of a clean, healthy appearance.

A strong, well-made skeleton is shown by thick, sturdy shanks and straight, strong toes. It should be the aim of every turkey raiser to have a flock of pure-bred turkeys, even though they are sold at market prices. The male at the head of the flock should by all means be a pure-bred of the best type obtainable.

The male is one-half the entire flock, and by carefully selecting the best females of a similar type and mating these with a pure-bred male, one can soon have a flock of uniformly large, early maturing, strong-boned, long, and deep-bodied turkeys of the same color.

Fifteen turkey hens can safely be mated to a vigorous tom. If twenty-five or thirty hens are kept, two toms should not be allowed to run with them at the same time, but one should be confined one day and the other the next. When two toms are allowed to run together during the mating season, they fight badly and the stronger does practically all of the mating.

Turkey hens are wont to "steal" their nests in hidden places, such as patch of weeds, tall grass or thick brush and often wander a half mile or more from home before they find locations that suit them.

To find these stolen nests often proves to be a long and tedious task, the usual method being to follow each turkey hen as she separates from the flock and starts toward her nest, care being taken that she does not know she is being followed. A much easier and quicker method than this is to confine the hens early some morning soon after they have come down from roost and let them out late in the afternoon. Those that are laying will then head for their nests in order to lay the eggs they have been holding.

If many turkeys are kept the use of a brooding pen will be found a great convenience. This pen should cover a sufficient area to allow the turkeys some exercise, an acre for fifteen birds being none too large. A hog-tight wire fence three feet high will hold most turkeys, and if any persist in flying out the flight feathers of one wing should be clipped. Nests should be scattered about the pen, those which turkey hens take to most readily being barrels turned on their sides and nests shaped in them with straw.

Turkey hens, chicken hens and incubators are commonly used to incubate turkey eggs. During the early part of the laying season it often happens that one has on hand a number of eggs that should be incubated before any of the turkey hens are through laying their first litter and become "broody."

In such cases and also when it is desired that the turkey hens lay more than one litter some of the eggs have to be incubated under chicken hens or in an incubator.

About a week before the poults are due to hatch turkey hens enough should be allowed to sit to take all the poults hatched. They can be given a few eggs from the incubator or from under the chicken hens and allowed to hatched the poults themselves, or at night a newly hatched poult can be slipped under each turkey hen that is to be given a brood of poults and by morning she will be glad to take them.

Lice are a great annoyance to setting hens and are one of the worst enemies of young poults. To prevent their getting a foothold, dust the hen thoroughly with some good lice powder before she is placed on the nest and once a week thereafter while she is setting. The nesting material should be kept clean, and if the eggs become dirty they should be washed with lukewarm water.

If the weather is warm and dry no shelter is required, as the poults do better in the open. Should it be rainy, however, they need to be protected, for nothing is more injurious than for them to become wet and chilled.

The most satisfactory plan is to confine the mother turkey hen to a coop and allow the poults to run in and out.

When a man of opposite views finally agrees with you, you have either succeeded in convincing or tiring him.

INFANTRY STILL CHIEF.

Most Powerful Artillery Must Have Help From the Musket.

Among the many surprises of this war has been that, after all is said and done, battles have to be decided, as of old, by the infantry. The artillerists have always been promising us that they would bring peace by making war too fatal. After the sensational capture of Liege and Antwerp the artillerists were at their zenith. They had the most extraordinary stories told about how cannon stationed behind a hill entirely protected, would destroy a fort or an army with mathematical accuracy at a distance of five miles. Infantry and cavalry were to be alike useless before this awful wreck.

The Germans were going to blast their way through to Calais as they had through to Antwerp, and at Calais, only 20 miles from England, their heavy guns would begin to wipe the British nation off the face of the earth. These dreams had a rude awakening. The Germans found an insignificant river in northwest Belgium, the Yser, which they would have to cross on their way to Calais. Behind this river, only a few yards wide, were strong lines of British and French infantry, supported not by the huge guns with which the Germans had spread terror, but small, light, fieldpieces of not more than three-inch caliber.

Against this line the splendid German infantry and artillery butted in useless slaughter for months, and finally desisted from attacks, which always concluded by leaving them still on their own side of the river, but with sadly diminished numbers. Very strangely while the cannon could batter down forts, which were the highest products of engineering skill, backed by unlimited money, they could not lift an ordinary infantry line out of a shallow trench in an open field.

The wonderful thing happened—instead of the forts protecting the infantry, as has been the case since war began—the infantry protected forts. The Crown Prince's great army, which was to march straight on to Paris, found itself halted long before it reached the forts defending Verdun. The Crown Prince wasted many thousand lives of the highest value to his country, in trying to push the French infantry line back over the rough hills. The heavy cannon were brought up and turned loose on the Verdun forts and have possibly shelled two or three of them into heaps of ruins. But though the forts at Verdun and Douamont might be pounded into brickbats and junk, the undaunted infantry stayed in spite of the overwhelming masses hurled against them. While cannon are useful in sweeping the ground in front, in tearing away obstacles, etc., it is the infantry that has to bring the fight to a decision. The artillery only clears the way for the infantry to advance.

While the artillery has had great innings at the beginning of the war, the further the struggle has progressed, the higher becomes the role of the infantry.

It was also unexpected how splendidly the French infantry have withstood the German footmen.

The German Military Staff has assiduously inoculated the world with the idea that the German infantry was irresistible. The French infantry has shown itself quite equal to the best German infantry, either in attack or defense, while the French field guns, the famous 75's, are generally acknowledged to be superior to the German field artillery.

BORES INTO THE BONE.

Surgical Drill Is Driven By Electrical Motor.

For surgical purposes a motor-driven drill has been developed which, among other things, facilitates the operation of boring into a bone when such procedure is necessary to relieve a fracture. Its parts are entirely enclosed in a metal housing which has somewhat the appearance of a large pistol.

It is so constructed that after being used it may be placed in an autoclave with steam at a pressure of 15 pounds, and thoroughly sterilized without being injured, providing it is subsequently dried with care. The chuck at the end of its propulsion shaft will receive a drill or bur of almost any type up to ¼-inch in diameter.

The housing is arranged so that it may be removed quickly when the motor requires attention. Sunk in a pistol-like handle at the posterior end of the device is a button controlling the motor, which has three speeds, varying from 1,200 to 4,500 revolutions a minute.

A second handle, which may be adjusted to various positions to suit the demand of the user, is fitted, by means of a broad band, over the forward part of the shell. The instrument weighs slightly less than six pounds, is approximately a foot long and develops 1-16-horse power.—Popular Mechanics.

Ages of British Admirals.

The ages of the admirals in the British navy are as follows:—Admiral Lord Fisher, 76; Admiral Sir Henry Jackson (First Sea Lord), 61; Admiral Sir John Jellicoe, 56; Admiral Sir F. C. D. Sturdee, 59; Admiral R. H. Bacon, 62; Vice-Admiral Sir David Beatty, 44; Vice-Admiral de Robeck, 53; Commodore R. Y. Tyrwhitt, 45.

BALKAN OFFENSIVE.

336,000 Allied Troops Available for Instant Movement.

The increasing stores of munitions and stores for the Allies are arriving in Salonica in an unending stream, the constant hard work of General Sarrail and his staff, the activity of the allied scouts and aeroplanes, the cheery features and high spirits of the French and British soldiers, and the eagerness of the Serbs to get themselves in fighting trim again at the earliest possible moment, add to the conviction that an allied offensive from Salonica in the spring is a certainty.

There are to-day some 85,000 French and 120,000 British troops here, which is about a man to every foot and a half of defensive line to be held. Besides the British and French there are about 10,000 Serbs in Salonica and along the Greek frontier. There are also said to be about 15,000 more French on their way from Marseilles, making a total of 236,000 Allied troops as a garrison for Salonica, not counting the personnel of the warships stationed in the harbor.

Military critics consider this figure far in excess of defensive necessity, particularly when the physical defense works of the place to be held by them are as well planned as those which have been constructed around Salonica. But in addition to these forces actually available, or soon to be available in Macedonia, there are the remainder of the French and British troops withdrawn from Gallipoli, still at Mudros and scattered about the islands of Lemnos, Tenedos, Imbros and Mytilene. There are probably more, but assuming that there are only 100,000 of these, ready to be sent to Macedonia or Egypt, as occasion may require, this would bring the figure of those available for instant use in Salonica up to 336,000 men, by spring. There are also 25,000 Serbs in America and elsewhere who have only recently been called to the colors and some of whom are arriving every few days at Salonica, which brings the figure up to 361,000 men.

Meanwhile, in Corfu, there are 134,000 Serbs, refitting, and at Bizerta about 26,000 more, making a total of 159,000 Serbs available for work in Albania, to be added to whatever force the Italians decide to concentrate at Avlona. Considering these figures, the general impression in Salonica is that they indicate either a wasteful excess of force gathered in and about the Balkans, or that a general Balkan offensive is planned.

SHIELD FOR ENGINEER.

Device to Protect Face of Driver of Locomotive.

To protect the eyes of a locomotive engineer when he is watching the track ahead, especially during stormy weather, a lookout shield of apparently considerable merit has been developed. The device is a double deflector, and when attached to an engine cab enables the pilot to make observations without facing strong air currents laden with cinders. Furthermore the line of vision is not intercepted by a pane of glass which might become covered with ice or blurred by water. The air upon striking the upper part of the mask at the front is caught by curved plates and directed in an S-shaped course so that it shoots in front of a peephole provided in the mask, and diverts the brushing air at that open port. It is discharged through ducts in the outer side of the shield with sufficient force to counteract the up draft which is often encountered when a locomotive is running with a cross wind striking it on the fireman's side. It is obvious that the air, in reaching through the deflector, produces a suction force. This draws air in from the rear of the shield so that instead of wind cutting back through the unobstructed peephole, a current is drawn forward through this aperture. The force of this counterdraft is strong enough to lift a piece of cotton waste from one's hand and carry it into the deflector and out at the side. In other words, the line of vision is protected by a strong, down-shooting air blast instead of a pane of glass. The force of this draft is strong enough to carry cinders, dust, insects, rain, sleet, and snow with it and prevent them from being thrown into the engineer's eyes.

Sense of Companionship.

"He is never alone who is accompanied by noble thoughts."

"Or by a bank book calling for a substantial amount."

Sent to the Wrong Place

WOUNDED SOLDIER: "Yes, they got twenty-four bullets out of me! They ought to have sent me to the munition dept—not to a 'hospital'!"—London Opinion.

HORRIBLE MOMENTS IN WAR.

When Men Grit Their Teeth and Gnawed Their Flats.

"You are not cool enough to feel fear during a battle," said a captain of French Light Infantry, who in civil life is a professor of philosophy, and, who fought in the battle of Verdun, "but when the uproar ceases, when the cannon are silent, you have a sensation that something is going to happen, but what you do not know. You expect anything. These are the horrible moments, and the following is an instance:—

"The German attack was beginning. In a little wood near Vaux we had made for ourselves a hiding-place, taking advantage of a hollow in the ground, where the searchlights passed over us. All day and evening the German artillery searched our lines all around our shelter. Great shells tore craters, but our improvised hut remained untouched. Towards two o'cock in the morning the guns stopped.

"For nine hours my men had not moved nor spoken for fear of revealing their presence. Their nerves were worn to rags. I could feel their powers of resistance failing, and I was afraid every instant that some one would shout and bring down a shower of heavy shells upon us.

"Mysterious life filled the night, life which none of us understood, full of strange lights and sounds. My men began to grit their teeth. This enveloping mystery tortured their nerves. Some closed their eyes, others gnawed their fists.

"Before us we saw crawling forms; they were certainly Germans. We waited for them with machine guns loaded and pointed, but our orders were to let the assailants approach and to shoot them down safely from our shelter. But the men could hold themselves in no longer.

"Those groping shadows in the darkness, pierced by mysterious flashes, act them mad and they raged at not being able to understand why they were kept tied down in a hole.

"Suddenly—before I could stop them—they leaped from the hole and fell upon the Germans in the dark, yelling like madmen.

"They should have perished to a man under the fire of the German machine guns, but luck was on their side, and in a minute they were all back in the trench, quite calmed.

"They had at length pierced, at the peril of their lives, the mystery of the lights—that mystery peopled with phantoms and will-o'-the-wisps which causes the bravest to shudder."

THOUGHTS FOR THE DAY.

Some natures are too good to be spoiled by praise.—Emerson.

A man of real worth fears not to utter his real sentiments.—Terence.

Affections are not vices, but they become so if we make a bad use of them.—Fuller.

Compulsion should be according to the law and not against the law.—Colonel Greig, M.P.

Set out with a firm determination to be unknown rather than ill known, and to rise honestly, if you rise at all.—Sydney Smith.

If you will be governed by reason and be true to the best of yourself, standing boldly to the truth, you will be happy.—Marcus Aurelius.

It is but poor eloquence which only shows that the orator can talk. Words should be employed as the means and not the end; language is the instrument, conviction is the work.—Sir Joshua Reynolds.

Much of the time that is spent in teaching girls frills and furbelows might be more usefully occupied in teaching them housewifery, including that most important department, the care of children.—Sir Archibald Denby.

500,000 Are Fatherless.

Eight hundred thousand French children have been made fatherless by the war, according to a statement made by Senator Jenouvrier in a debate in the French Senate. This number exceeds by 10 per cent. the average total births in France. Half the childhood of France, he estimates, will be brought up without a paternal guide.

Trifle Unnatural.

"As hostess she shines. She is so natural."

"I hardly know whether to call it being natural or not. She always tells you she is glad to see you."

TAKING THE BISCUIT.

Baker's Error Which Brought Him Great Honor.

To "take the biscuit" is a common phrase. But who was the first person to be so distinguished?

He was a baker by trade, and he received it from a French count. The count lived in the times when a French nobleman—or any other, for that matter— could, if he chose, send an outrider to a neighboring town that he intended honoring with his presence, saying, required an omelette made with a thousand eggs, and the innkeeper had to produce one, or suffer for it.

In this way the biscuit was discovered. A certain French noble sent the aforementioned outrider with the command that a cake was to be prepared for him that would taste different from all other cakes.

The baker, on receiving the order, mixed up and wasted—several pounds of flour and fruit, but they all tasted much of the muchness. In despair, he left the last batch of underdone dough in sheer fright, as time was getting on, and went to consult with baker number two.

During his absence, his young son wandered into the bakehouse, and, seeing a batch of underdone dough, set to work, and rolled it out, then baked them. When done to a crisp golden brown, he took them out, and gazed on them with pardonable pride.

In the meantime, the father, being no wiser as to the production of a new cake, returned, looking the ghost of his old self—to use a quite original expression. When he saw the little yellow biscuits, he was speechless with astonishment, and wanted to know whence they came. The son explained, and invited his sire to taste one. They were so delicious that all fear left his countenance.

He waited the coming of the august count with impatience. In due course, the gentleman arrived, with the usual aristocratic hunger and thirst on him. The cakes were so to his liking that he ate the lot, and gave the baker the Grand Order of the Biscuit into the bargain.

THE SLAUGHTER OF GERMANS.

Appalling Carnage By the French Artillery.

The following description of the fighting at Ornes, by a soldier who took part in it, is published in the Paris Matin:

Last Thursday we in the first line of trenches in front of the village on the river bank, received word, "Prepare to retire." We were told the Boches were coming; that the position would become untenable, and that the manœuvre was necessary.

Firing began on our side and their guns replied feebly. On Friday, on the other hand, they were more active. On Saturday it was our turn again. Sunday was a day of rest for both, but on Monday we left our trenches slowly and in good order. Pressed back through the village, and skirmishing all the while, we made our way to Maucourt.

Then the artillery began to roar on both sides, and ours never stopped. Battalions advanced upon us in close ranks, twenty men abreast. Shrapnel from our 75's and our heavy artillery rained on them. It was bloodcurdling. You could see great gaps being made. It was as if a man had been passing through the German ranks with a scythe, steadily mowing them down.

Each time the shells exploded arms and legs flew high in the air. We were so near one another that odds and ends of amputated limbs fell almost on top of us. In one small section—a mere nothing—they fell by hundreds and hundreds. Finally we made our way back up towards Maucourt. Our quick-firing guns posted only five metres apart belched forth, and we were confronted with the sight of corpses standing upright in bunches. From Maucourt I followed the line of supply back to Fluery, and there I took train to Verdun, Fort Douamont and Dombasle, between which we passed bombed ceaselessly, relentlessly. Blood poured from our ears under the shock of the air. At last we were at Verdun. Only let the Germans come.

MAKE PAPER CLOTHING.

Japs Have Long Used Substitutes For Cloth.

The Japanese have long used paper for clothing purposes. Why could we not also use paper in manufacture linings for garments and fillings for comfortables in this time of urgent need?

Papers have been used in the dress trade for the balloon sleeve, which was pliable and did not rustle. The Chinese have long manufactured paper of this nature.

If we could manufacture a pliable paper reinforced with cotton threads or cheesecloth, so that it would not break in the creases or tear readily in the handling, a cheap and warm commodity could be turned out that would serve the same purpose as the more expensive materials.

A Cash Insult.

Waiter—That mean man I just waited on insulted me with a nickel!

Patron—What did you do?

Waiter—I accepted it with indignation.

INITIATIVE WITH THE BRITISH NAVY

WILL SELECT LOCATION FOR THE BATTLE.

When the Time Comes to Compete for Mastery of the North Sea.

The London Chronicle's correspondent at a great naval base," writing on "Scrapping in the North Sea," says:

"German warships have been out in the North Sea, and our sailors are convinced they will again be out soon. There has been more than one scrap. The Moewe evaded the blockade out and in, and naval men are the first to acknowledge the skill and daring of seamanship. The dash of the Germans on the Dogger Bank, when they sank the mine-sweeper Arabia, was not their only dash out, and we got in some blows before they found refuge behind the Frisian littoral.

Fleet is Restless.

"Our fleet now is never long at its moorings. It becomes restless behind the multiple of defences which guard the narrow channels to its base, and during the last four weeks the battle squadron has often scudded to the sea. It is out on the prowl now at quicker intervals than we have ever known—oftener even than in the very early days of the war—and the discontent engendered by the long waiting in sheltered waters has vanished like the rising mists of a spring morning. There has been something doing, and we expect more, lots more. The officers are buoyant, and the ratings are satisfied and contented, for the fears that had crept in that the Germans would never come out, but would hold their fleet as a ransom in peace conditions have been dispelled, and hopes have suddenly blossomed and bloomed that the Germans are preparing for the 'day.'

Britannia Always Rules.

"The command of the North Sea has never passed out of our hands a second, and the time is approaching when the absolute and unfettered command of these waters will mean more than anything hitherto to us, and to challenge it will transcend all other considerations in this war to Germany. Knowing this, is the movement of the German fleet intended to anticipate our action?

"The ice in the Baltic may break early. Any day the Gulf of Rign may be freed from its barrier. Then we can look for a return of the thrilling deeds of British naval warfare which fascinated the world right up to the hour when the Baltic from Riga was blocked to navigation by the grip of winter.

Britain Will Select Spot.

"That the Germans have made preparations for considerable naval operations cannot be doubted. It may be permissible and profitable to consider the possibilities of Germany. From Borkum, the most southerly of the Frisian Islands held by Germany, to the Elbe and the western entrance of the Kiel Canal is a little over seventy miles. Naval operations behind the eastern Frisian Island are impossible. Shoals and sand banks cover the mouth of the Ems, the Weser and the Elbe, making Germany impregnable to attack from that side, and sand wastes, veiled by the fringe of Frisian Islands, Borkum, Juist, Norderney, Langeoog, Spikeroog and Wangeroog, with their northerly flank resting on Heligoland, make a safe retreat. The Germans may wish to fight off the dangerous eastern Frisian littoral, but the British navy can ultimately select the waters whereon to fight the battle with this pretender to the kingdom of the sea."

THE BELGIAN ARMY.

King Albert's Gallant Forces Are Thoroughly Reorganized.

Writing from the Belgian lines, Lord Northcliffe sends a graphic description of the gallant little Belgian army as it now faces the Germans in its sector of the Allied front. He says:

"This glorious little army that at first arrested the rush of the Germans, the army that gave the Allies invaluable breathing time, has been fighting longer than any of us.

"To-day it is the same army, but even though renewed, has no great reserves to fall back upon, because the greater the part of the nation has been imprisoned. The wise men who administer it under the affectionate care of King Albert, therefore, while getting into the ranks every possible available Belgian of military age, have devoted themselves to the work of refitting and reorganizing. The result is a perfect little army of more men than I am at liberty to state.

"It is an open secret that the Belgian preparations were not such as De Broqueville had urged, but in artillery the gallant little army had acquired great proficiency, doubtless partly the reason of its association with the French. The Belgians are well equipped with great cannon, big howitzers, 75's machine guns, and every gun has a plentiful supply of shells of every description.

Nothing is easier to understand than how we couldn't make the mistakes we see other people make.

GLAMIS

Mr John Groves, who has spent the winter at his home here, left for Saskatchewan on Saturday, accompanied by Redvers Johnston.

Mr Robert Jackson is spending a few days at his home here.

Miss Daisy Cronin spent a few days with the Misses Howson last week.

Mrs Osborne, of Port Elgin, who has spent the last few weeks with her mother, Mrs Webb, returned to her home on Tuesday last.

Jim Thompson, another son of Mr Jas Thompson, has enlisted with the 160th Batt.

Miss Ida McAfee, of Rochester, is home for a short visit.

Mr John McKinnet returned from Markdale on Friday.

It sounds nice to hear the hum of the old mill again. Mr Schwass is running it. He and Mrs Schwass have taken up housekeeping in part of Mr Neil McLure's house.

Mr Edgar McAfee is spending a few days at his home on the 14th.

PINKERTON

Mr Herb Fiddis left this week for Toronto where, we understand, he intends to enlist.

Mr Elmer Reid, who has been very sick with pneumonia, is much improved.

Mr Richard Garland left for the west last week.

Miss Sadie Colwell, of Kincardine, is the new clerk in the store here.

Senator Donnelly spent the week end at his home here.

The Red Cross Society shipped this week to headquarters in Toronto, two bales containing 10 pillows, 31 suits pyjamas, 18 sheets, 88 towels, 19 surgical shirts, 18 wash rags (knit), 1000 mouth wipes, 1 old sheet for hospital use, 89 pairs socks (23 pairs of which were made by Miss Maggie Keyes and her mother, con 16 Greenock). This was all made up since the New Year.

WILLOW CREEK

High water on the roads has given some travellers a thrilling experience.

Miss Edith Swatzer, of Hanover, visited last week at Mr G E Baker's.

Miss Rosetta Giesz has returned home from visiting friends in Port Elgin.

LOVAT

On Thursday evening, March 23, a large number of friends and neighbors assembled at the home of Mr W J Ross to express their good will to Ptes Bert Mewhinney and Thos McGregor, who have enlisted for overseas service. Mr Jas Johnston acted as chairman and ably discharged his duties. Pte McGregor was not present, owing to an attack of la grippe from which he was suffering, but his sister, Miss Bella McGregor, was called upon as a substitute for the occasion. The gifts were a safety razor, a pipe and a soldiers' mirror for Pte McGregor, a safety razor, fountain pen and mirror for Pte Mewhinney.

The address was read by Mr Jas Begg and the presentation made by Miss Margaret McKay and Miss Lila Woods. Although taken by surprise, the guests made a suitable reply, thanking the friends for their gifts. A short programme followed, after which the company amused themselves with games and dancing. Below is the address:

TO PTES BERT MEWHINNEY AND THOS MCGREGOR:

Dear Friends—Knowing that you have so nobly responded to the call of our Empire, we, your friends and neighbors, have gathered here to spend a sociable evening together before you depart for overseas service. We admire the manliness and courage that have led you to offer yourself for His Majesty's service, and although this means hardship, danger and sacrifice, we are confident that you will meet the difficulties and dangers with undaunted courage. We feel deep regret at losing you, yet with pride in being represented in the great army that our Dominion is sending to fight our foreign foe. As a slight token of our esteem and good wishes we ask you to accept these gifts and hope, when the conflict is over and the battle won, to welcome you back to Bruce. Signed on behalf of your friends and neighbors,

HOWARD MCKERMAN,
J D MCGILLIVRAY.

UNDERWOOD

Mr Wm Orford has returned from visiting his sister, Mrs H McLean, in Cairo, Mich.

The khaki boys from Tiverton are out canvassing for recruits this week. They only need two more to make up their platoon and they want to get these and as many more as possible for the base company for the battalion.

Mrs Chester Gibson is spending a few days with her grandmother, Mrs J Clifford.

Mrs Roy Brigham, of Toronto, is up on a visit to her father, Mr H Carr, of the 12th.

FOURTH CON. BRUCE

A very interesting event took place at the home of Mr Anthony Symons on Monday evening, Mar. 27th, when friends and neighbors numbering upwards of 75 gathered to do honor to his son James, who has enlisted with the 160th Bruce Batt. When the crowd had gathered they danced until about 11 o'clock, when Mr. Jas. Johnston, a well selected chairman, called them to order. Owing to the extremely bad roads, James was unable to be present, so his sister, Miss Abbie, was asked to come forward and an address was read by Miss Margaret McKay while the presentation of a safety razor, signet ring and cuff links was made by Miss Lily Woods. Miss Abbie thanked all very kindly on behalf of her brother, and Mr Symons, who made an ideal host, also made a very suitable reply. Following this there was a programme of speeches, songs, choruses and recitations, closing with the Women's National Anthem. A splendid lunch was served and dancing and games were again indulged in until the small hours of the morning. The address is appended:

TO PTE JAMES SYMONS:

Dear James—Having learned that you so nobly answered the call of your country, we, your friends and neighbors, deem it our duty to meet here to spend a social evening together before you take your departure from us in defence of Empire. We deeply regret our loss, which is our King and country's gain, yet feel pride in being represented by one of ourselves in the great army that our Dominion is sending to fight our battles on European fields. You have given up the pleasures and comforts of this country to suffer the hardships and dangers of military life, but we feel certain you will perform your duty, whatever that may be, with great courage. You have taken part in all our social evenings and sports, and we are sorry that such happy relations must be severed for a time at least. We feel that we cannot let you depart from us without some small remembrance, and therefore ask you to accept this safety razor, cuff links and signet ring, not for their value but as a memento of our friendship for you as a man of our community, and hope some day in the not far distant future, when our Canadian boys march victoriously home, to welcome you back to the fourth of Bruce, and

"While we asunder part
It gives us keenest pain;
But we shall still be joined in heart,
And hope to meet again."

Signed on behalf of your friends and neighbors,

HOWARD MCKERMAN,
WM DOWNEY
J D MCGILLIVRAY.

Presentation to Soldier

The home of Mr and Mrs Hugh McArthur, lot 6, con B, Arran, was invaded by about 65 very friendly people on the evening of Friday, March 24th. The object of their visit is set forth in the following address which was read by Russell Hopper, accompanying the presentation which was made by Alex McDermid, to the son of the household who has enlisted with the 160th Batt., and is training at Port Elgin:

TO PTE COLIN MCARTHUR:

Dear Colin—Having learned that you have so nobly answered to the call of your king and country, we your friends and neighbors feel it our duty to meet here and spend a social evening together before you take your departure in defence of the Empire. We feel deep regret at losing you, yet with pride at being represented by one of ourselves in the great army that our Dominion is sending to fight our battles on the European field. You have taken upon yourself the hardships and dangerous life of a soldier, yet we feel certain you will perform your duty, whatever it may be, with unflinching courage. We feel we cannot let you depart without some small token of remembrance, and ask you to to accept this wrist watch as a token of our esteem, and hope some day in the not far distant future, when our Canadian boys shall march victoriously home, to welcome you back to Arran. Signed on behalf of your friends and neighbors,

RUSSELL HOPPER
ALEX MCDERMID
RUSSELL MCFADDEN

Although taken by surprise Colin made quite an appropriate reply to the address. Councillor Howard McFadden acted as chairman of the gathering and made a nice speech. After a recitation by Cecil McFadden, the friends remained under the hospitable roof for several hours, participating in an impromptu programme of music, games and social intercourse.

Recommends Sweet Clover

To the Editor: I noticed in last week's ADVOCATE the old farmer's warning to "Beware of Sweet Clover." Apparently this Bruce Tp subscriber is not aware that there are two kinds of sweet clover. The yellow variety is a perennial grass, which stock will not eat. If pastured close for a few years and kept from seeding this plant can be killed. I have white sweet clover, and am going to sow some more. This is a biennial plant. If pastured too close the first year the crop will be destroyed, for it does not produce seed until the second year. If mowed below the branches the second year it will not live. If "Subscriber" had sweet clover I don't know what kind of cattle he had, as mine all eat it and are fond of it. I am well acquainted in this township, and the only complaints I have heard about sweet clover referred to the yellow kind. The white sweet clover is not readily killed by frost, it makes fine pasture for calves, and is always there, but these are not objectionable characteristics. The white sweet clover is all right.

FRED C SCHNITTKER.

Presentation to Soldier Boy

A very enjoyable time was spent at the home of Mr and Mrs Wm Foster, 7th Bruce, on Thursday evening, March 30th, when a presentation was made to Pte Wm Arol Mewhinney, of the 160th Batt, who is training at Tiverton. Councillor Baker, as chairman, called on Emma Snowdon to read the address and Marie Mewhinney to make the presentation. Private Mewhinney made a very appropriate response, thanking the people for their kindness. A very fitting programme was rendered, including an address by the chairman, patriotic chorus by the crowd, speeches by Messrs Geo Brown, Alex Mewhinney, Fred Schnittker, recitation by Isabel McKinnon, songs by Mr McLean Young, instrumental music by Miss Emma and Mr Geo Snowdon. Another event of the evening was the sale of a cake in aid of the Red Cross Society of S S No 9, tickets to the value of $21.75 being sold. The cake was made by the women of the 8th con. A fine rooster was also sold for $4.50, that sum also going into the Red Cross fund. The remainder of the evening was spent in games and dancing. Below is the address mentioned:

TO MR WM AROL MEWHINNEY:

Dear Friend—We had become so accustomed to the ways of peace that our being forced into a state of war had become almost unthinkable. But while we were thinking peace, Germany was thinking war, and was bending all her energies to prepare for the day when she would launch such a war as would enable her to enrich herself through the impoverishment of other nations and through the seizure of their territories. The day came when she let loose the dogs of war, but the calculations of the arrogant war lords were entirely upset through the entrance of Great Britain into the arena as the champion of the neutrality of Belgium, and the defender of her own far flung dominions. Germany has proven a barbarous foe, with no other result than causing the people of the British Empire and of the other nations of the Quadruple Entente to set their teeth in their determination to completely destroy Prussian militarism, and so free the earth from the German menace.

We desire, dear friend, to express our sincere appreciation of the loyalty and courage shown by you in responding to your country's call. We hope that by the time you have undergone the necessary training to take your place at the front, the wild beast that has run amuck of the world shall have been caged and put beyond the possibility of doing further harm for all time to come. Should it be otherwise we feel sure that you will do your bit shoulder to shoulder with the brave and resourceful Canadians who upheld the best military traditions of our Empire by stemming the Germanic tide at St Julien and Langmark.

We beg of you to accept these gifts as an indication of our regard for you personally, and of our appreciation of your action in responding to your country's call. We sincerely hope and pray that whatever your fortunes as a soldier may be, you may be restored before long to our midst unscarred, hale and strong.

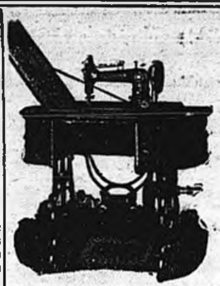
Signed in behalf of your friends,

THOS CURRIE,
GEO SNOWDEN.

Children Cry FOR FLETCHER'S CASTORIA

Points to Consider When Purchasing a Railway Ticket

A Canadian Pacific Railway ticket does not represent merely a means of transportation between given points. It in addition provides the traveller with every comfort and convenience developed by modern railway science. "Safety First," with up-to-date equipment, unexcelled dining car service, palatial sleeping cars, in a word everything that a railway can provide for the comfortable transportation of its passengers, including courtesy.



Had Terrible Pains in Kidneys and Back.

Dear Mr. Editor—I want to write you about "Anuric." I was very sick, could hardly be up; I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Anuric Tablets so I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely, MRS. WM. KELLER.

NOTE: This "Anuric" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great Institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "Anuric" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anuric" in the drug stores of this country, in a ready-to-use form. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

Dr. Pierce's Golden Medical Discovery is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus assists the body to make rich, red blood, which feeds the heart, nerves, brain and organs of the body. You feel clean, strong and strenuous.

Notice to Creditors

In the matter of the estate of George Sturgeon, late of the Township of Greenock, in the County of Bruce, Farmer, deceased.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demands against the estate of the above named George Sturgeon, deceased, who died on or about the 29th day of December, 1915, are required on or before the 21st day of April, 1916, to send by post prepaid, or to deliver to Robert William Stewart, Paisley Post Office, Ontario, or to Wilson Metcalf, Pinkerton Post Office, Ontario, the executors of the will of the said deceased, their names and addresses with a full description of their claims and the nature of the securities (if any) held by them, duly verified by statutory declaration.

And further take notice that immediately after said 1st day of April, 1916, the said executors will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the claims of which they shall then have received notice, and the said executors shall not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by them.

Dated this 23rd day of February, 1916.

—SEEDS! SEEDS! Planting time is near, and more than ever the planter will require good seed to bring a full production in war year. We handle all lines of field and garden seeds procured from the most reliable growers on the continent, also buy and sell home grown seed. Look into your needs early and leave us your orders. E. G. ECKEL.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

Milk and Cream Supply

Remember, that all the year round you can depend upon getting a full supply of pure sweet milk and sweet cream from the Paisley Dairy. Our cows are chiefly of the Jersey strain. We also have a supply of ice and a Champion cooler, which will be a great advantage for the warmer season. Our delivery will be arranged to suit all patrons during the summer. We can guarantee satisfaction in every way.

Women's Patriotic League

The regular monthly meeting of the W. P. L. will be held next Friday afternoon in Putnam's hall at 3 o'clock. All ladies interested in the results of the Red Cross tea rooms are asked to attend. The committee thanks all those who helped to make the soldiers' banquet such a success and to bring the tea room sales up to $33 on Saturday last. Special mention is made of the cream, maple syrup and homemade bread from the country. We hope next week to publish a complete statement of the tea room funds.

CARD OF THANKS

Mr and Mrs Donald McNeill desire to express their appreciation of the kindness shown by neighbors and friends during the long illness of their daughter, and the sympathy extended since her death.

—Pte. Dug Bain, of the 95th, was home from Toronto over Sunday.

—Mrs. J. Sutherland has been up from Guelph visiting her mother, Mrs. Saunders.

—Miss Rebecca Watson, of Albert St., attended the funeral of the late Mrs Robt Parker at Clifford.

—Mr. and Mrs. Wm. Monkman, of Southampton, were visitors at the home of Mr. and Mrs. T F Pearce.

—The village council are putting the town water rates on a business schedule. See them in this week's paper.

—The Red Cross workers of S S No 13, Bruce, shipped on April 7th the following: 36 pra socks, 19 day shirts, 23 surgical shirts, 3 pillow slips, 12 knitted wash cloths, and old cotton for hospital use.

—Mrs. Ferguson, wife of the manager of the Paisley Mercantile Co's store, arrived in town last week. Mr. and Mrs. Ferguson are occupying rooms above the Hyde store. For some time there has been an exodus from Paisley, and townspeople are pleased to see others coming in to fill up the vacancies.

—H B Putnam, on retiring from the mercantile business, takes this opportunity to thank all of his many customers for their patronage and esteem especially those who have remained with him during all of his business career of more than forty years. And I now feel that I can recommend my successor, Mr Lawrence C Spofford, who will faithfully follow with experience and ability to serve the public courteously.

Cleaning Up Fisher's Woolen Mill

Mr. J. S. Dewar has the work of remodelling the Fisher's woolen mill building under way. The annex to the west is to be torn down entirely, and the third storey taken off the main building, a new roof put on, the foundation walls to be reinforced, and other work to be put on the structure. The machinery has all been knocked down, some machines sold and shipped away to make industrial music elsewhere, and others go to the scrap heap. So passeth another institution that once promised to help make Paisley a manufacturing town.

Wood—Elliot

Vancouver World: A quiet wedding took place at 4 o'clock on Wednesday afternoon, March 29, at the home of Mr and Mrs Francis Elliot, of 218 Twentieth avenue west, when their daughter, Isabel, was united in marriage to Mr William Albert wood, of Carbon, Alberta, the Rev Mr Mitchell officiating, in the presence of immediate friends. The bride was given away by her father and was unattended, and wore blue silk and sinon, with a corsage boquet of white roses. The groom's gift to the bride was a gold wrist watch. The party took a half supper, Mr and Mrs Wood left for their home in Alberta, the bride travelling in a blue tailored suit with quaint hat.

Ballachey—Maw

Buffalo Express: The marriage of Mrs Florence Winifred Maw, of George Theodore Ballachey was solemnized yesterday afternoon (April 4th) at 4.30 o'clock, in Saint Paul's Episcopal church, the rector, the Rev C A Jessop, D D., officiating. The bride wore a blue travelling suit. Following the ceremony a supper was served for the members of the family at the home of Dr and Mrs F A Ballachey in Norwood avenue. Mr and Mrs Ballachey have left for Washington, D C, and other eastern points. Upon their return they will live at No 80, Grant street until May 1st, when they will move to the Algonquin, where they will be at home after July 1st.

The Training Camps

It has been announced in the House of Commons that there will be seven central training camps in the Dominion this year, where the enlisted soldiers will be fitted for overseas service. It now seems certain that the 161th will be quartered at London, along with the Middlesex, Oxford, Perth, Lambton, Elgin, Kent, Essex, Huron, Waterloo and Wellington county and London city battalions. For some time the city council and citizens have been co-operating in securing more land and equipping the camp grounds. Sewers have been laid, land leased, also light and water supplies arranged. It is felt that no money should be stinted in carrying out the preparations to entertain from ten to twenty thousand soldiers there.

Lemont—Griffith

A very pretty wedding took place at the home of Mr and Mrs B Griffith, Willowbrook, Sask, on March 1st, when their daughter, Miss Pearl Annie Griffith, and Mr Louis Henry Lemont (son of Mr and Mrs Henry Lemont, of Lovat), were united in the holy bonds of matrimony. Rev John Kane of Yorkton, tied the nuptial knot. The bride was given away by her father, and entered the room to the strains of the wedding march played by Mr Horn. Three of the ladies of the Yorkton choir accompanied Mr Horn with the singing, which was very pleasing to the company. The bride looked very becoming in a velvet suit of navy with hat to match. Her sister, Miss Mary Griffith, acted as bridesmaid, and Mr Nelson Lemont, brother of the groom, as best man. About forty relatives and intimate friends were present. The bride and groom received many and useful presents, the most noted being a purse of $75 given by the bride's father and brothers. Mr and Mrs Lemont will reside in their home near the village of Willowbrook.

Special One-way Fares to Pacific Coast Points, Daily Until April 14th

Those contemplating a trip to Pacific Coast points, including Victoria, B.C., Vancouver, B.C., Seattle, Wash, Portland, Ore., etc., should consult Canadian Pacific ticket agents for particulars of low fares in effect daily until April 14th.

Banquet for Soldiers

Saugeen Council are entertaining the soldiers of the Tp and of Port Elgin at a banquet in the town hall, Port Elgin, on Friday evening, April 14th.

Bowling Club Meeting

A meeting of all interested in the reorganization of the Bowling Club for this season will be held in the council chamber on Thursday evening at 8 o'clock.

New Recruits

James Miller, who was mentioned last week as rejected by the medical examiner, was later accepted. Jas Forrester has signed up for the machine gun section.

Patriotic Sale of Table Cover

A beautiful hand made table cover has been donated to the Red Cross fund by a Paisley lady, and will be disposed of by sale of tickets at 25c each. The cover is on exhibition in the Red Cross Tea Room this week.

Tea Room Next Saturday

The Women's Institute purpose having the last Saturday tea this week, in the tea room, Stark Block. Part of the proceeds will go to putting a flag on the new school. The chief part of the menu will be hot pancakes and maple syrup. The proceeds of candy table will go to the flag fund.

Red Cross Shipments

Following is the latest shipment by the Red Cross workers of S S No 9, Bruce: 56 bath towels, 3 suits pyjamas, 15 flannel shirts, 16 sheets, 20 soldiers' handkerchiefs, 6 surgical socks and shirts, 22 doz hospital handkerchiefs, 745 mouth wipes, 4 bedpan covers, 42 pairs socks, 4 feather pillows.

Presentation to Elderslie Soldiers

A social evening with a good program and luncheon has been arranged for Good Friday at 8 p m., in the Township Hall, Gillies Hill. Presentations will be made to the soldiers who have enlisted from the municipality. Everyone heartily welcome and it is hoped there will be a large turnout to honor our boys in khaki. Ladies will greatly assist by bringing light refreshments for the luncheon. James R. Cass, Reeve.

Arm Broken

Pauline Oltsher had his arm broken on Tuesday. He and two other boys had lifted a heavy iron grating in front of Cruickshanks' tailor shop to get a pencil that had dropped through. Pauline went down after it, and while climbing out the grate fell on his arm, breaking the bone a little above the wrist.

Back to Paisley

Mr. Isaac Stanley and family, formerly of the Central Hotel, are back to Paisley again after a residence of three or four years in Edmonton. We understand there is nothing definite as to how long they may be here but we feel certain that the people of Paisley and vicinity would be pleased to have them become permanent residents.

A Painful Mishap

While loading a few bags of coal into his cutter from Vogan's warehouse at the G. T. R. station at Walkerton last week, Mr. Richard L. Tanner, an old and well-known farmer of Brant, met with a serious mishap, by his horse starting off just as he was stepping down onto his cutter with a heavy bag in his grasp. As a result he fell heavily against the edge of the cutter with his chest, sustaining injuries that rendered breathing most painful at times, and which resulted in his condition appearing most critical for a time. However, it is thought that no permanent internal injuries were sustained, and that he will shortly be around again.—Herald and Times.

Municipality of the Village of Paisley

Scale of Rates for Water Supply

For water, when fixing no for that purpose—two cents per minute. Minimum 50 cents, hose extra.

DIED

KINSACK—At London, on April 4th, Chas Y Kinsack, of Paisley, in his 82nd year.

—Printing Invitations is part of THE ADVOCATE'S business.

Cheese Dishes.

Cheese Roll.—Take an ordinary long French roll and cut into slices removing the crusts so as to leave round pieces of crumb. Butter each slice and cover very thickly with grated American cheese; then pile the slices one on top of the other. Boil a half pint of milk with pepper, salt and a little grated nutmeg and when it is boiling pour over the bread and cheese, making sure to have it soak into every part. Place in a well-buttered deep pan and bake for 15 minutes in a moderate oven, basting four or five times with the juice that comes from it. When cooked the top should have a golden brown crust.

Boston Roast.—Mash up the contents of a pound can of kidney beans, adding half pound of grated cheese and enough bread crumbs to make the mixture stiff enough to handle. Knead and make into a roll. Prepare the roasting tin by beating and putting butter and water in the dripping pan; then when the butter is quite melted and the pan hot put in the roll. Bake for about 15 minutes, basting with the butter and water, and serve with tomato sauce. Chopped onions may be added to this dish if desired or a delicate flavor of the onions can be given by chopping them and cooking in the butter and water that is used for the basting.

Vandervalle's Cheese Souffle.—Take two good soupspoonfuls of flour and mix it with half a teacupful of milk; melt a lump of butter the size of a filbert (about a quarter ounce) and add that; then enough grated cheese to your taste and the yoke of four eggs. Add at the last the whites of the four eggs beaten stiffly, pepper and salt. Butter a mold, put in your mixture and let it cook for one hour in the saucepan, surrounded with boiling water and the lid on. Then turn out the souffle and serve with a mushroom sauce. The sauce is a good white sauce to which you have added already-cooked mushrooms. Clean them, first of all, chop them and cook them till tender in butter and their own juice; then throw them in the sauce and pour it over your souffle.

Emelie Jones' Cheese Souffle.—Grate a half pound of Gruyere cheese. Mix in a cup of milk a dessertspoonful of flour; heat four whole eggs and add first the cheese and then the flour and milk mixture. Season with pepper and salt and put all into a mold. Let it cook in a saucepan of boiling water for an hour and a half. Then at the end of this time put it in the oven for half an hour.

Cheese Pudding.—Boil up a pint of milk and pour it on to one tablespoonful of rice flour, which has been mixed with a little cold milk, put back into the pan and stir until the mixture thickens. Remove the pan from the fire and add four ounces of finely-grated cheese, a pinch of salt and cayenne, two ounces of butter and the yolks of two eggs. Mix all well together and then add the beaten whites of the eggs. Butter a pie dish and pour the mixture into it and bake in a moderate over for 20 minutes. Sprinkle grated cheese over the top before serving.

Savory Cheese Pudding.—One-half pound cheese grated, one ounce of butter oil, pepper, salt, one teaspoonful of cheese mixed mustard, an egg. Mix all and bake it in a buttered dish 20 minutes till set. Serve it very hot.

Cheese Cakes.—Make a thick white sauce and when it has gotten cold add the yoke of one egg and a few drops of lemon juice. Sprinkle in a slice of grated stale bread and enough grated cheese to flavor it very strongly. Then leave the two hours to get quite cold. Shape into small pieces like cakes, dip them into the beaten white of egg and then into very fine breadcrumbs. Have ready some hot fat in a deep pan fry your cakes until they are a golden brown.

From the same source comes the directions for making cheese balls.

Cheese Balls.—Take two dessertspoonfuls of flour and blend with a little milk; add the yolks of three eggs. Grate two ounces of Gruyere cheese and two ounces of Parmesan and add to the flour and eggs. The cheese should be grated as finely as possible. Heat the mixture, stirring well so as to keep the flour from lumping, and cook for five minutes, then add the juice of one-half a lemon and a little dust of cayenne pepper. Set aside to get cold. Then make into small balls and roll in egg and breadcrumbs. Fry in boiling fat until they are golden brown, drain and serve at once on a hot dish.

How to Clean Walls and Ceilings.

In the care of all woodwork there is one caution never to be forgotten—to clean off spots just as soon as they appear. If dirt and grease are allowed to stand on woodwork it means that severe measures must be taken to remove the dirt, and usually where extreme methods are used the finish is removed with th dirt.

Stains should be removed from unfinished wood before washing. Grease stains are the most common. The grease should first be wet with cold water to prevent spreading and then scrubbed with a strong washing soda or lye solution.

To bleach an unfinished surface which has been darkened, oxalic acid, made in a solution of one teaspoonful to one cup of hot water, may be applied to the entire surface with a brush. This is allowed to dry and then the surface is scrubbed as usual.

For the washing, the surface should be gone over with a wet cloth, then scrubbed with a brush and soap or a fine sand soap. In scrubbing, the brush should always go with the grain of the wood, never across the grain or in a circular motion. After being thoroughly scrubbed the surface should be rinsed off with clean warm water and then wiped as dry as possible with a cloth wrung out of warm water.

As little water as will do the work properly should be used. If a great deal of water is used the wood becomes water-soaked and darkens. Thorough rinsing is also essential, as otherwise the surface becomes gray and muddy looking. In washing a wood floor care must be taken not to splash water on the baseboard. In washing a table, the edge and under surface must be carefully washed. This under surface becomes greasy simply from the touch of the hands.

Useful Hints.

When cooking beef in a fireless cooker do not put salt on until the beef is done.

White velvet can be freshened by applying chloroform to it after freeing the velvet of dust.

A teaspoonful of turpentine to a pail of water will brighten faded carpets better than ammonia.

Cotton crepe table napkins are a convenience in the summer cottage. They require no ironing.

If you are short of baking powder, sift together one part of bicarbonate of soda and two parts of cream of tartar.

If any boiled starch is left over, save it and put it into the water with which oilcloth or linoleum is washed. It will keep them new and bright.

Gelantine pudding can be made more nourishing by mixing it with milk instead of water; but be sure that the milk is not too hot or it will curdle.

In making ices in which you use fresh fruit, let the fruit soak in good sherry wine for eight or ten hours. Freezing will not harden fruit treated in this way.

THE HOLOCAUST OF VERDUN.

Incidents of the Great Battle Which Fill One With Horror.

The world has grown so familiar with the tales of wholesale slaughter since the war began that nothing short of hecatombs of slain suffice to move it to its depths. If the Verdun carnival of fire and blood has not so stirred it nothing else will. The narratives bristle with points of horror. Here it is of bloody fragments of unrecognizable humanity hurtling through the air where the greatest explosives had descended, and falling on the French soldiery in the adjacent trenches, and there of the veil of smoke lifting from the snow covered slope and showing up the ground thickly dotted with the corpses of the men who had fought their last fight. The road to Douaumont was strewn with dead; whole regiments had been wiped out upon it and the men lay in thousands where they had fallen. There was a brown line that attracted the attention of the French gunners. They opened on it with their 75's and new large numbers of bodies sprang into the air. That was in the evening. When the morning light spread "the brown mass was a mass of German corpses, that had been annihilated between the two hills, and the bodies were so closely pressed together that the majority of them were standing upright." There was a fierce struggle for a little wood that the French were holding. While they fought for it they mined it, and when all was ready they permitted themselves to be driven out of it. It was immediately rushed by the enemy. Then a button was pressed that controlled a series of electric wires. A boom sounded, and forthwith "trees and debris were flying about and there were terrible cries. The Boches had forever finished their bawling, and those of our soldiers who had feigned flight were in hysterics of delight." Thus in a long series of grim and lurid word pictures the agonies are piled one upon another. Relatively, these may have been small, but in such a hades as Verdun has been they can have been nothing else than terrible. And, whatever be the sorrows and the regrets, and the butchery of gallant men by the thousand and by tens of thousands, all that can be said of it is that war is war, and this particular war is more than anything else a war of attrition, and that the one and only way to stop the Germans from fighting is to kill them off. That is what it comes to, and if it be so, then the more of them that are slaughtered the more expeditiously and wholesale it is done, the sooner we shall have peace. But it is, nevertheless, a sorry road to a desirable end, a struggling along a Via Dolorosa red with human sacrifice towards victory—it may be over wah itself.

ALLIES' LOSSES ON SEAS ARE LIGHT

PREY OF SUBMARINES GREATEST IN NUMBER.

A Naval Expert Says Conditions Are Unchanged by Fast Encounters.

A naval expert, writing in the Scientific American, is inclined to consider lightly the loss of 32 major war vessels of the Allies, which have been sent to the bottom since the beginning of the European war. He bases his opinion on the fact that while the number of Allied vessels lost looms large, the conditions existing on the sea remain unchanged after close on to two years of warfare. Indeed, as the war continues the grip of the Allies on control of the sea becomes tighter and more secure. He states in part:

"At the outbreak of the war the preponderance of the Allied fleet was sufficient to give it virtual control of the seas. The Central Powers, recognizing the situation, concentrated their vessels on far as possible in home waters. Those unable to seek this shelter, on account of the hazard involved without adequate returns, cruised in remote waters less efficiently policed. Here it was possible to prey on the enemy's commerce while awaiting conflict on more nearly equal terms.

"From the first, then, the control of the sea has been conceded to the Allies except for the guerilla warfare of these isolated vessels; and the first stage of the naval warfare consisted in cleaning up the ocean of the roaring marauders who temporarily disputed the Allied control in remote seas.

Losses Light, Considering Results.

"The completion of this task was accomplished not without loss to the Allies. The principal units lost to the British in this phase were the Good Hope, a cruiser of 14,000 tons, the Monmouth, a cruiser of 9,800 tons, in Admiral Cradock's ill-fated squadron on the west coast of Chili, and the Pegasus, a light cruiser of 2,135 tons, sunk by the Koenigsberg at Zanzibar. These naval losses may be considered light for the results obtained.

"As the Teutons have not felt inclined to major operations, the succeeding Allied operations, with one exception, have been with the object of restraining raids and submarine activity. The exception consists of the Dardanelles campaign, where second line or predreadnought battleships were employed out of their normal sphere to reduce fortifications which subsequent events proved were more capable of resistance than anticipated. A modern vessel, the Queen Elizabeth, was frequently mentioned in the bombardments that occurred; but it is probable that owing to the range her 15-inch guns it was not necessary and presumably never intended that she should come within range of the forts, or that she should be exposed to the floating mines and possible torpedo attack in the straits.

"Of these vessels engaged within the danger zone, the Allies lost heavily. The battleships Irresistible, Ocean, Goliath, Triumph, Majestic, Bouvet and Leon Gambetta were the major units lost, but the losses also included a number of submarines and transports.

"From the experience gained in this adventure it is extremely unlikely that important ships will be jeopardized in similar campaigns.

"The Allies' problem, henceforth, became one of repressing an German naval activity. This took two forms, one, the raid of force, the other, the war of attrition by the sowing of mines and torpedoing by submarines.

Second Raid in Force.

"The second raid in force, with a squadron of powerful high-speed battle cruisers and cruisers, encountered Admiral Beatty's battle cruiser squadron. This resulted in the loss of the Blucher and serious injuries to other German vessels.

"Important injuries occurred to the British vessels, notably the battle cruiser Lion, in this engagement, but the damage inflicted upon the enemy raiders was sufficient to prevent a recurrence of raids by sea up to the present time of writing. In this instance important results were accomplished without loss of vessels to the Allies.

"The destruction incident to mines, navigation and the dangerous explosives carried form an important part of the total, and there is a part of the unfortunate losses which must be counted upon in the vigorous prosecution of any war. The proportion of this damage to the whole is much greater in the present war than it would be in one where the control of the sea was disputed. In this category has come the principal loss of the Allies, so far in the war, through the sinking of the dreadnought Audacious off the Irish coast. The King Edward, Bulwark, Natal and Benedetto Brin were also lost in this way. The remaining method of harassing the Allies, and the one that continues, is through the use of the submarine.

"Naval opinions received an impressive shock when the news of the torpedoing of the cruisers Hogue, Aboukir and Cressy was flashed round the world. This event undoubtedly modified the Allied scheme of sea patrol. Numerous other war vessels have since fallen prey to the submarine, notably the Formidable, Majestic, Amalfi and Guiseppe Garibaldi, though the principal field in which they are feared is in commercial traffic."

TO TILL EVERY ACRE.

French Minister of Agriculture Warns Nation of Necessity.

The cultivation of every parcel of land in France to assure the maximum agricultural production is the aim of the French Government, and to bring this about the Government itself will act temporarily as a farmer. A bill has been prepared under the direction of Jules Meline, Minister of Agriculture, requesting the owners of uncultivated land to begin tillage within two weeks after notice.

If land is not cultivated within the time specified the bill provides that mayors of communities have the right to requisition the ground and order its cultivation, the towns to assure the funds necessary to carry on this work. The bill further provides for a municipal or an agricultural committee to supervise the cultivation of such land.

Minister Meline says that there has been a deficit in grains of 10 per cent. In 1915, as compared with 1914. The minister declares that there is not a minute to be lost if France does not want to be surprised by developments and exposed to the possibility of arriving too late on the economic battlefield.

GERMAN VALOR A MYTH.

Officers Appointed Without Reference To Their Courage.

As a result of a series of examinations of German prisoners, a recent issue of the Journal des Debats of Paris prints the following article on actual conditions of the German army:

"In regard to the bravery and valor of the German officers, the present system of appointments of the assistant officers from the volunteers takes place without in any way taking into account the actual courage and bravery of the candidates. In fact, the greater part of the officers thus chosen are notorious for their cowardice. As soon as a bombardment starts they quickly seek shelter. The patrols, of which from time to time they form a part, never venture very far.

"The prisoner, who on several occasions had served on one of these patrols, said that they had always come to an early halt on the pretext that it would be useless to continue further. Especially was this true on one occasion in the vicinity of Hill No. 59, just south of Ypres. An officer had barely reached the outskirts of the German barbed wire entanglements when he proposed to return to head quarters and give an account of some fantastical observations that they would have made up and agreed upon (of course this patrol received no iron cross.

"This attitude of the officers does not escape the observation of the private. From an examination of a prisoner from the 236th regiment of reserve infantry."

A GREAT MILITARY POWER.

French Tribute to the British Army and Navy.

In the course of a leading article under the title "British Evolution" the Paris Temps says:

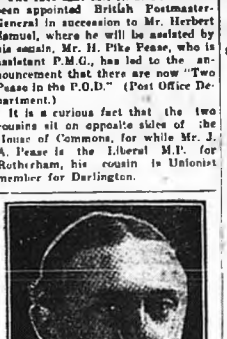
"Britain, a great naval Power, finds herself to-day a great military Power, and it is not only the commercial strength of her army created on the order of the war that excites surprise and admiration, it is, besides, the equipment in material and armament which supplies all those soldiers with the indispensable means to turn their natural bravery to good account."

After praising the organization of industries connected with the war, which, it says, extend throughout the British Empire, the article continues:

"The effect of strengthening the British lines makes itself felt even in the epic battle of Verdun by permitting numerous bodies of French troops to be spared to break the German onslaught without weakening any section of the front from the North Sea to Switzerland. The part to be taken by the British Empire in this war is one of the surprises that the military administration in the United Kingdom and Colonies could not have foreseen, and that needed a particular genius to realize. The naval factor in this conflict plays a part which, despite the absence of naval combats, is not less of capital importance in the subjugation of the enemy. The British Navy has rendered in this respect incalculable service."

Is War Declining?

During the nineteenth century 586 battles were fought. This is excluding all the smaller engagements, which, if reckoned along with the rest, bring the total to 8,402 that is, 81 battles per year, or a fraction over one and a half every week during the full hundred years. Our battlegrounds were spread over the following nineteen countries: France, India, Austria, Russia, Belgium, Egypt, America, Ashanti, Soudan, Afghanistan, China, New Zealand, Zululand, Persia, Abyssinia, Burmah, Mashonaland, Corea, and the Transvaal. How many battles will be recorded by future historians for the present twentieth century it is impossible to say. But if the great war drags on indefinitely, it is very possible that last century's total will be eclipsed.



This would be a happy world if we could only believe everything we say.

NEW POSTMASTER-GENERAL.

Two Pease in the British Post Office Department.

The fact that Mr. A. J. Pease has been appointed British Postmaster-General in succession to Mr. Herbert Samuel, where he will be assisted by his cousin, Mr. H. Pike Pease, who is assistant P.M.G., has led to the announcement that there are now "Two Pease in the P.O.D." (Post Office Department.)

It is a curious fact that the two cousins sit on opposite sides of the House of Commons, for while Mr. J. A. Pease is the Liberal M.P. for Rotherham, his cousin is Unionist member for Darlington.

J. A. Pease, M.P.

As a sport-man and athlete, Mr. J. A. Pease was many honors. He played football and polo for Cambridge, where he won his rugger "blue," was master of the Varsity staghounds, and has also captained the Durham County cricket eleven. His political career began when he was 32. He entered parliament for the Tyneside Division in 1892, and represented that constituency until 1900, when he was defeated. In 1901 he re-entered the House as member for Saffron Walden, where he was defeated in January, 1910, and three months later was returned for the Rotherham Division of Yorkshire.

Commonly known to his fellow M. P.'s as "Jack," though his name is Joseph, Mr Pease retired from the Cabinet on the formation of the Coalition Government, having held the post of president of the Board of Education from 1911-15. He was for years one of the Liberal whips, and as such was popular on both sides of the House. In connection with his duties as a whip, Mr Pease tells a good story.

At an all-night sitting he thought that a certain M.P. was absent. He was really present in every division, but at other times he was asleep in one of the recesses. Mr Pease missed him and sent a telegram to his house at seven in the morning: "Come down at once to relieve guard." The member turned up at his own house at eight o'clock, fully expecting to receive a warm welcome from his wife and much sympathy for having been in the House all night. But she said, "Where have you been?" He replied, "All-night sitting in the House." She retorted, "Now, it's no use you telling me such a thing," and thereupon prohibited the telegram signed "Pease." This Pease nearly caused a split in that happy home, but after explanations "peace" reigned as before.

HOW TO GET UP EARLY

Alarm Clock That Throws Man Out of Bed

A remarkable clock which not only awakened its owner in the morning, but dumped him out of bed and lit his fire, is now in the possession of the Wisconsin State Historical Society's Museum at Madison.

The clock was the property of the late Mr John Muir, the eminent naturalist and explorer, who made it himself when he was at Wisconsin University and found it hard to wake early after late nights.

He made a bed of pine boards with three legs, two at the head and one at the foot. The leg at the foot was so made that if a peg was released the bed would drop to an angle of 45 degrees. A strong cord, fastened to the peg, led to the clock. On the end of the cord near the clock was a large stone.

Before Mr. Muir retired the cord was attached to the clock, and at five the clock would do its work.

While teaching in a country schoolhouse he used the clock to start a fire before he arrived at school. The first was supplied a tube of sulphuric acid into a mixture of chlorate of potash and sugar placed under the firewood the night before. Instant combustion took place.

Trouble with most handsome women—they think it's all they need.

Ethel—True? (Holds out her hand.) You can see for yourself that I am still in the ring.

I've made it a practice to put all my troubles down at the bottom of my heart, then sit on the lid and smile.—Alice H. Rice.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON.
APRIL 16.

Second Quarter. Lesson III.—The Gospel for the Gentiles—Acts 10.
Golden Text: Rom. 10: 12.

Verse 25. Worshipped—While the word does not in itself imply more than reverence paid to a superior by prostration, it is clear that no Roman noncommissioned officer would have behaved thus to a Galilean fisherman: Peter's interpretation of the act was perfectly correct

26. Even an angel similarly repudiated such worship (Rev. 22: 9). The lowly Jesus accepted it (Matt. 8, 2, etc.).

28. Unlawful—According to the rabbis, who had added this and many other far-reaching novelties to the Law. Even to come unto a Gentile was forbidden, not to speak of close intimacy (join himself). And yet—The latter word has no right in the text; see the paraphrase above. Any man stands in a very emphatic place at the end. Peter has learnt the lesson Paul expounds in Co. 3. 11. Yellow, brown, or black men—to modernise his words—must be regarded by Christians as simply men, and therefore brothers. Common Compare Mark 7. 2. It is the antithesis of consecrated. There is a scavenged class in Benares, the Dome, for whom Hindudom has no temple that will admit them, though one shrine there will admit a dog. Christianity came and took them all in, and at least one Dom is to-day a Christian preacher. The holy of holies is open to every sharer in that humanity which Christ put on: "God cleansed" (verse 15) all man-kind potentially by the incarnation.

30. Four days ago—We say three, for the ancients counted in the first and last days, and we do not. Suppose Cornelius speaking on a Friday afternoon; his vision was thus on Tuesday. The ninth hour—Except in the Fourth Gospel only the third, sixth, and ninth hours are mentioned in the New Testament, with the exception of a special purpose. They are absolutely vague, and are best rendered by forenoon, noon, and afternoon. Only the observant Jew speaks of hours that needed a sundial to fix them. The three prayer times are those implied in the psalmist's "Evening and morning and at noon will I pray."

31. Thy prayer—The petition just offered. Thine alms—The practice of charity, the motive of which God could read: apply Matt. 6. 3, 4, and remember that the American Version speaks there is spurious.

33. In the sight of God, as in verse 31 makes all human witness pale into forgetfulness. The Lord, on the lips of the Jewish unevangelized Roman, means Jehovah.

44. It is of course implied that this company of earnest seekers—Jesus is faith because they knew nothing better accepted the Gospel of which Peter's presentation has just been summarised. Note Peter's statement in Acts 11. 15: that he had hardly more than begun.

45. Was poured out—So in Acts 2. 33. The gift. A recurrent term. See specially Heb. 6. 4 and Acts 8. 20. We find its source in the Master's own word. Luke 11. 13. How appropriate is that verb that speaks of the lavish profusion of Him who "giveth not the Spirit by measure" (Joel 2. 28 might have taught these Jewish Christians to be so surprised.

46. Speak with tongues—See Lesson text Studies for January 9. Of course this was only the "outward and visible sign of an inward and spiritual grace," the overflowing ecstasy of a Divine possession, produced these snatches of praise.

47. The greater has been given how could we dare itself refuse the less? See Acts 1. 5, quoted when Peter defends himself in Acts 11. 16. Notice how these Peter emphasize the overwhelming predominance of Divine agency a few words from the messenger who had come so far were quite enough. This verse should be remembered when ecclesiastical pedants would tie the Holy Spirit to sacraments and orders and red tape generally. The fruits of the Spirit are the one sufficient proof of His Presence and when that is manifest "the water" is only the poor human recognition of a fact registered in heaven.

48. He commanded—So Peter left the "recognition rite to be conducted by others. Just so Paul was "sent not to baptize, but to preach the gospel" (1 cor. 1. 17). And the Master himself baptized not, but his disciples (John 4. 2). In this was from the first was emphasized the secondary importance of the rite as against the preaching of Good News. It was a warning against that purely magical view of "baptismal regeneration" into which the church so soon fell, and largely holds to-day. In the name of Jesus Christ—The invariable formula of the apostolic age, except for Matt. 28. 19. The Triune Name is but the logical sequel of the primitive creed, "Jesus Christ is Lord."

No Knockout.

Maud—Is it true, dear, that your engagement with young Gotrox is broken off?

THE CALL

A little apart from the crowd of refugees, he leaned upon a low wall overlooking the French harbor—a thick-set man in the dress of a peasant. At first glance he was merely a grimy tramp, poverty-stricken and homeless.

But the alert, middle-aged passer-by stopped at his elbow, scrutinising him up and down. He fidgeted, and it became evident that his left wrist was roughly bandaged.

Addressed in the language of the country, he half swung round, and gave a growl in response to the friendly greeting. To a further question he merely shook his head impatiently.

"You're English, by George!"

"Yes, I'm English," he admitted grudgingly. "Though I don't know 'ow you guessed it, considerin' the togs I'm wearin'."

"And you're in trouble—eh?" queried his compatriot, with a smile. "Can I do anything for you? I'm a war correspondent. Yorling's my name."

"Mine's Rydd—Henry Rydd."

"Want to get back to England, I suppose? Have you tramped far? Seen anything of the fighting? If you've got a story I can use in my paper I'll help you all I can in return."

Henry Rydd was staring, over the wall again. Below him, to the right, lay the cross-Channel steamer. Her gangway was rolled off, and outside the barrier all was bustle and confusion. Occasionally a few passengers embarked. Some were turned back, and loitered disconsolately near at hand.

"I was hopin' to get aboard," he stammered; "but—well, you see——"

"No money? Well, that's not a crime! Let's hear what you have to tell me."

Rydd hesitated.

"What part of the country have you wandered from? How did you have to get stranded here?"

"I came over last year, sir. Been doin' farm work, an' gardenin', an' such. I was engaged to come——"

"Ah! Who was your employer?"

Rydd paused a moment before replying.

"I never could say 'is name proper-ly."

He mentioned a district, speaking rapidly, explaining how he lingered on after war had been declared. Then for a time, he added, it became impossible to reach the coast. Finally, on the advance of the German army, he had disguised himself and made his way by degrees to the seaport town.

"Hid under haystacks an' places. Got those clothes given me. Found myself in a wood, once, with the enemy's cavalry all round. Had a narrow escape that night, sir." He held up his wounded wrist. "But the folks in a French village were kind to me. Offered me food an' a place to sleep."

"Yes, yes; but did you see any of the troops in action?"

"Not after——" He broke off abruptly. "I'm tellin' you, sir, I was hidin' every day, an' in the night I'd creep a good few miles. Maybe in a week I've been gettin' 'ere—a fortnight, p'raps. Wouldn't care to go through it again, not for a thousand pounds."

To Yorling's rapid questions he now gave rambling, half-incoherent replies. The war correspondent began to despair of obtaining a connected narrative.

"You're in no danger here, though," Rydd made a gesture.

"That's all very well, sir, but I must get back."

"Among your friends, you mean?"

"I've told a lie!" His eyes flashed as he thrust a hand in his pocket. "You guessed I must be in trouble, and it's true, more'n you think. My mother write me that my girl, Emily Felton—engaged to me, she was, sir—she's thrown me over since I've been gone, an' taken up with old Caldwell for 'is money. He's the chief 'ere, I reckon, some'ow. At any rate, they're supposed to be married at the end o' the month. Not if I can stop it, though—not if I can be there in time!"

"I understand," said Yorling, nodding.

"I was ill when I got this note. I started directly I could—not because the Germans came. All the time I've been thinkin' about Emily, an' worryin'. She'd promised to wait for me."

His fingers worked convulsively. Some little while passed before he could continue.

"I've imagined her married to old Cardwell, an' I've 'ad to set my teeth 'ard, sir, to prevent myself shoutin' out. If it 'appened, sir, I don't know what I'd do. But I reckon Emily's true body can step 'im but me. That's 'ow my mother writes. There's been some underhand work, though. I dare say they've told 'er I'll never turn up again. An' Jos Cardwell's rich. If he's sixty years old——"

He relapsed into a moody silence.

"I'm afraid you can't travel by to-night's boat," added Yorling reflectively. "We must see what can be done. It's not just a matter of buying a ticket in wartime."

Henry Rydd roused himself.

"I'll 'ave to get papers—permission to go?" he demanded uneasily. "How long'll that take?"

"One can never be sure."

"If I 'ave to 'ang about much longer I'll be 'ome too late. Even if I sent a wire——"

"It might be delayed indefinitely."

"An' it wouldn't be the same as arrivin' at the 'ouse myself. Besides, 'er people would keep the telegram from Emily, sure enough." He faced Yorling. "You know I'm not a German, sir, or a spy either. Couldn't you make it all right for me? You speak the language, sir——"

"And you don't? I should have thought that, living in the country for some time, you'd have picked it up by now."

Once again Rydd showed a momentary hesitation.

"I'll never be much good at the lingo. The gentleman I've told you about—the one I've been working for—'e used good English, sir. So you see——" He avoided the war correspondent's gaze.

Yorling dismissed the point with a shrug of his shoulders.

"About your experiences, now," he prompted. "Have any of the villages you've visited been shelled? Have you personally seen any civilians badly treated?"

"I've got there too late, mostly; but I've been through places where there's not a house left standin', where the folks 'ave 'ad to clear out from their 'omes an' run off with just a few things tied up in a bundle. Those were the lucky ones, too. Some 'ave nothin' but the clothes they stood up in—like myself, sir."

"Yes, that's what war means," Yorling turned aside. "Have you met any of our troops?"

Henry Rydd did not answer. Two Red Cross helpers were passing.

"That dark chap with 'em, 'e's what they call a Zouave."

"A wounded Zouave was I was asking you if you'd met any of our soldiers."

"No, sir. The reply was firm enough when it came.

"Pity! That's a pity! People always like to hear how Tommy Atkins is getting on at the front, I suppose," Yorling meditated. "If you find your way somewhere has been deliberately false you'll enlist? Now's the time that men are wanted; and, besides, you'll get over your troubles all the sooner when you're the country and your duty to think of."

The figure beside him gave a start.

"You don't catch me!" he growled. "Aren't you Patriotic?"

"That's neither 'ere nor there. I've 'eard talk o' what a dog's life it is in the army. I've been away from 'ome long enough, mus'n't be too long. It seems like——"

"But think of the war's effects already. Think of the hardships. Think——"

"I can't think of nothin'," Henry Rydd retorted in savage impatience. "Except my girl!"

The war correspondent produced his cigarette case, and was about to offer it, when a thought struck him.

"Are you hungry? I ought to have asked before. Wait a bit, then. Here's a bad I know——"

He beckoned to a tattered urchin, and gave him money and a message.

In a short time the boy was back again. Henry Rydd ate the food ravenously.

"Now a smoke?" suggested Yorling, after an interval.

With an ill grace Rydd accepted.

"Now I'd ask you to come with me. It's not much to ask, surely."

"Where to?"

"Just over there. I want you to hear me speak to some of those refugees. You may alter your opinions."

Grudgingly Henry Rydd clenched behind. The war correspondent stopped just beside an old man who seemed to be trying to comfort a little party of women and children. He made an enquiry in French. The old man clenched his hands as he answered.

"This family are homeless. Their cottage was burnt to the ground, although they'd done no harm at all. One crippled son, because he could not provide enough fodder for the Prussians' horses, was taken out and shot."

Yorling watched Rydd's face. The man's sullen expression did not alter.

Yorling addressed a young woman, whose hair was prematurely grey.

"Her father and mother," he told Rydd gravely, "have disappeared. She fears the worst. Here two babies were played wantonly. Her husband is in the firing-line. She wishes she could tell him to take revenge. Aren't you inclined to offer——"

"I don't care about anythin'," repeated Henry Rydd with a growl, "only my girl—only Emily! An' I want to go 'ome," he persisted, as they left the refugees at last. "The army's all very well for them that likes it, but I've got two much sense. A friend o' mine in the Blankshire Fusiliers——"

The war correspondent shook his head slightly.

"They were gallant men. They died gallantly."

Henry Rydd blurted a request for information.

"The news has come through," Yorling returned, "that the Blankshires were ambushed by the treachery of a guide they trusted. Out of the whole regiment upwards of a thousand—only seven officers and two hundred men answered the roll call next day."

Rydd's face was working strangely. He opened his mouth as if to speak, but only cleared his throat several times.

"I've business to attend to now," the war correspondent stated, "but I won't forget you. Meet me here in an hour's time."

He left Rydd in his old position, staring over the wall towards the cross-Channel boat.

Dusk had fallen, and Yorling could not at first distinguish Rydd's figure at the appointed place. Then he came hurrying across the roadway.

"I was afraid I'd missed you, sir."

His dull, hesitating manner was gone.

"I've been making enquiries about your passage," Yorling began, "and perhaps, after some little delay, it might be possible——"

"Never mind about that now, sir, thankin' you all the same!"

The war correspondent drew back in surprise.

"Never mind if I could go at once?" Rydd moistened his lips. "Your place is mine, sir, 'as made me change my mind."

"My mine?"

"About the regiment, sir—the Blankshires. The colonel. God bless 'im, an' the rest of 'em! The officers they were! Only seven left, you say?" He gnashed his teeth. "The rank an' file, too hundreds, but I—I couldn't back out of it now, sir! I'd be ashamed for ever!"

"What?" Yorling cried. "Then I wasn't mistaken after all? Something made me suspect when I first spoke to you."

"It was all like I told you, sir." Henry Rydd bent his head. "I got separated from the others, found myself a mile away—had to shift for myself, find my rifle, an' put on these togs. Then I thought o' this letter o' mine, sir——"

"You're actually——"

"Private, sir, of the Blankshire Fusiliers. He held himself upright, with his feet together. "An' I'm off back, yes, back to 'elp to do my bit——"

The war correspondent was clapping him on the shoulder.

"And Emily Felton?" He could not resist the question.

"If the girl's worth 'avin', she won't forget me so soon. She'll stick to me," declared Rydd jerkily. "If not well, she's not much loss! Now can you kindly tell me, sir, what I'd better do the quickest way to rejoin?"

They went off together towards the town. In spite of his peasant's dress one could now easily tell from his walk that Henry Rydd belonged to the British Army. London Answers.

WARSAW IN WAR TIME

Poland's Capital Has Gone Pleasure Mad.

According to an Italian correspondent the population of the city of Warsaw has gone pleasure mad and has entered upon a period of gaiety and revelry never before known. Despite the iron German rule and the numerous ordinances and regulations, both military and civil, the people have assumed an "I don't care" attitude, and have on other aim but to enjoy themselves in the fullest measure.

Within the last few months new theatres, new restraunts and new cafes and coffee houses have been opened by the score. Despite the high prices for food and drink, the people spend their money lavishly, and nightly dinners and entertainments are given. Dancing has become a mania, and every resort in Warsaw has divided off a portion of the dining room for dancing. Despite all precautions of the German officials wine is plentiful and most of it is smuggled through. It is almost at a prohibitive price, but it is procured (free).

The theatres are crowded nightly, and from all reports all places of amusement are doing an unprecedented business and their proprietors are getting rich fast. The reason for all this revelry and gaiety, says the correspondent, is not at first apparent, except that it is a reaction from the time of depression and sacrifice and suffering when the city was for months threatened by the Germans.

Now that this is over, the residents are bound to make the best of German rule, forget the war, at least for the moment, and enjoy themselves in every way possible.

Bad news, like a soft boiled egg, should always be broken gently.

WITH THE FRENCH HOSPITAL CORPS AT VERDUN

The picture shows French stretcher-bearers removing a badly wounded man from one of the subterranean passage ways in the Verdun defenses, while the German big shells fly overhead.

THE WORTHY WORTH.

Interesting Stories About the Great Parisian Dressmaker.

Fashions are simple in Paris this season; elaboration and extravagance are severely frowned upon. It is a bad year for the famous dressmakers; there are no profits, and few opportunities to enhance their reputation by new "creations." But few of them are complaining; they, too, are French and patriotic, and they have risen to the situation.

"Every dressmaking establishment of prominence in Paris," declares Miss Anne E. Tomlinson, "has done much toward providing articles of clothing and surgical dressings for the army. Madame Paquin has opened a hospital for 80 wounded, very near her chateau. Monsieur Worth has a hospital in some of the rooms of his establishment on the Rue de la Paix. The soldiers who are being cared for by Worth receive visitors from one to three in the afternoon, and many delicacies find their way to these poor fellows through the generosity and sympathy of the ladies who patronize the establishment. So close to the showrooms are the hospital rooms that the odor of disinfectants permeates the whole establishments. The salesmen and models spend their spare moments in making respirators, bandages and dressings. As one enters at Worth's door it is not unusual to see arriving at the same time an ambulance with its load of wounded soldiers."

The Maison Worth, so long associated with Parisian elegance, was founded by an Englishman; nevertheless, this is the second French war in which its head has shown his adopted country "a soul above buttons" and a loyalty above question. In 1870, after the fall of the Second Empire, and the flight of the ill-starred Empress Eugenie, his most powerful and brilliant patron, Monsieur Worth remained in Paris and shared the rigors of the siege. Business ceased absolutely, but although there was no work for his little army of designers, models, seamstresses and salesswomen to do, he held himself responsible, none the less, for the maintenance of all these dependent women. When other workpeople were starving, none of his starved. He saw to it that all were fed, with such food as could be obtained. To be sure, it was sometimes scanty and sometimes queer. Often it was horse, not rarely donkey, at times certainly dog, and there were occasional rumors of cat and rat; but it was food.

The landlady of a little pension where, before the present European war, some American college girls were staying told them all about those days of privation. She was a little girl at the time, and her mother, once one of Worth's employees, had retired on marriage. But the husband and father had left his job to fight, their money was gone, and when some of her old friends still connected with the establishment told of how they were being helped, the wife, too, decided to apply to Monsieur Worth. With her little daughter clinging to her hand, she went to his house. He left the table to come to the door when he heard her name; but he returned to it hastily when he heard her errand and looked on the two pale, famished faces.

"And then, once more, he came to us!" cried madame, dramatically. "He came with a loaf and a platter; and after it he emptied the platter, saying 'This for to-day; to-morrow we shall arrange for more.' My mother broke off a bit of bread for me to eat on the way home,—I could not have waited, poor little greedy!—and when we were back in our room we sat down to a feast! It was cold monkey, but what would you? There were worse animals in the menageries, and all were eaten. Suppose it had been crocodile or anaconda—we should not have refused. Nevertheless, after the last morsel was devoured, I inquired of my mother quite anxiously, 'But, mamma, are we then cannibals? It is true that monkey tasted good, but he may have begged me for some more rap and jacket just like a little boy.'

"And mamma laughed and kissed me, saying, 'No, indeed, little foolish one! Best thou think then, the good Monsieur Worth, who sits the first half of the monkey, is a cannibal? He who is the best, most generous, man in the world? Fie, then! And tomorrow we shall have soup from the bones!'"

STOP MARCH FOR DEVOTIONS.

Soldiers Light Candles at Wayside Shrine in Montenegro.

War is not all horror and death, as the following little story illustrates. On Christmas eve as a division of Hungarian Honveds marching through the Tara district in Montenegro were descending the serpentine road leading down steeply from the mountains the first regiment passed by a little wayside shrine of the Virgin and Child. Two men stepped suddenly out of the ranks, lighted two small candles and placed them before the images.

Many others followed their example and the number grew to probably a thousand altogether. It was dusk and the spectacle of the tiny flames flickering clear in the still wintry air was a dramatic spectacle to behold. So numerous were the field gray worshippers that as the space immediately around the shrine gave out hundreds of Honveds dug their tapers into the ground around it. The whole snow covered meadow on which the shrine stood had been converted into a mass of flickering flames. Silently the men stood, sending their Christmas prayers to the "Christ-kind."

A private turned to his Lieutenant and said softly, "Perhaps the dear God has noticed this fire signal after all."

Then the snow and the dark and the slush of the road once more swallowed up the long column of the Black Mountain's invaders.

The AUTOMOBILE

Study Car to Get Best Out of It.

Here is the general scheme of operation followed by an automobile owner who had driven 68,000 miles without the slightest accident to himself or others, without an arrest for speeding, and with a maximum service on tires, gasoline, and lubricants. He averages 1,000 miles a month and his bills run about $30 a month, plus an average of $11.16 a month for tires. Last year his tire bill was $133.94 and the year before $166.68. The tires are thirty-four by four and a half measure. This owner has driven automobiles for years, over the bad roads of this country and the difficult mountain passes of the Alps of Switzerland, Austria, and Italy, and the interview with him is given not from and technical viewpoint, but merely that of the ordinary citizen who may keep his automobile in excellent running order all the time by the observance of a few simple rules that can be applied to every automobile, whether the lowest priced or the most expnsive.

"In the first place," said the owner, "I go on the assumption that every automobile is in running condition when it is turned out of the factory and that if something goes wrong it is mostly likely my own fault and not that of the car.

Every One Wants Economy.

"Every man, whether of moderate means or a millionaire, wants to operate his automobile as economically as possible. There are three chief accessories to watch, tires, gasoline, and lubricants.

"Tires, probably, give the owner the greatest concern. I have tried every suggestion on buying them, and find it is an absolute waste of time and money to look for bargains in tires. There isn't any such thing. The $8 cloud, very near her chateau. Monsieur Worth has a hospital in some of the rooms of his establishment on the Rue de la Paix. The soldiers who are being cared for by Worth receive visitors from one to three in the afternoon, and many delicacies find their way to these poor fellows through the generosity and sympathy of the ladies who patronize the establishment. So close to the showrooms are the hospital rooms that the odor of disinfectants permeates the whole establishments. The salesmen and models spend their spare moments in making respirators, bandages and dressings. As one enters at Worth's door it is not unusual to see arriving at the same time an ambulance with its load of wounded soldiers."

The Maison Worth, so long associated with Parisian elegance, was founded by an Englishman; nevertheless, this is the second French war in which its head has shown his adopted country "a soul above buttons" and a loyalty above question. In 1870, after the fall of the Second Empire, and the flight of the ill-starred Empress Eugenie, his most powerful and brilliant patron, Monsieur Worth remained in Paris and shared the rigors of the siege. Business ceased absolutely, but although there was no work for his little army of designers, models, seamstresses and salesswomen to do, he held himself responsible, none the less, for the maintenance of all these dependent women. STOP MARCH FOR DEVOTIONS.

Soldiers Light Candles at Wayside Shrine in Montenegro.

War is not all horror and death, as the following little story illustrates. On Christmas eve as a division of Hungarian Honveds marching through the Tara district in Montenegro were descending the serpentine road leading down steeply from the mountains the first regiment passed by a little wayside shrine of the Virgin and Child. Two men stepped suddenly out of the ranks, lighted two small candles and placed them before the images.

Many others followed their example and the number grew to probably a thousand altogether. It was dusk and the spectacle of the tiny flames flickering clear in the still wintry air was a dramatic spectacle to behold. So numerous were the field gray worshippers that as the space immediately around the shrine gave out hundreds of Honveds dug their tapers into the ground around it. The whole snow covered meadow on which the shrine stood had been converted into a mass of flickering flames. Silently the men stood, sending their Christmas prayers to the "Christkind."

A private turned to his Lieutenant and said softly, "Perhaps the dear God has noticed this fire signal after all."

Then the snow and the dark and the slush of the road once more swallowed up the long column of the Black Mountain's invaders.

front at 13638. February 3, off left front at 17243, April 8, on left front at 19557; April 15, off left front at 19855, run 298. Tire blew up; total 7,320 miles.

Long Journey With No Punctures.

"That record gives me a comparison-all through the life of the tire with other makes. I can also watch the general performance of the tires. I find one tire that gave a solid mileage of 7,210 miles on the right rear before its first removal and of another tire that started on the right rear, ran 2,000 miles and then was put on the left front wheel, where it completed a run of 10,466 miles without a single puncture or removal from the rim. When it finally blew I tried another tube in it with a blowout patch, but got only ten miles more.

"There are many considerations to take into account in the matter of tires besides their own construction. Every one knows that it is silly and very grinding on tires to speed around corners, jam on brakes, or stop suddenly. But after eliminating these things a man can save more when he is running out in the free country. He can distribute his load more evenly and take a weight off the right tires by traveling along the centre of the roadway, slightly to the left side of the road, until he sees a car coming from the opposite direction. He will also save many punctures if he will occasionally probe with the end of a key or knife into the fine cuts of the tire tread, looking for particles of glass that may have been forced into the rubber. service your car gives on grease and

Lubrication Needs Watching.

"Lubrication is the third feature of an automobile's life and it should be watched on a very definite system Determine on some mileage figure for regular inspection, according to the service your car gives on greases and oils. For instance, establish an inspection point at every five hundred miles of your speedometer. At those points go over your grease cups, turn them down and fill them up again; look into your differential; see if your universal has enough grease; observe your clutch, if it has separate oiling system; look at the transmission, observe the motor itself and learn of the oil is at the proper level and all the feed pipes free. Give the magneto a drop or two of oil. Every 2,000 or 3,000 miles the crank case should be drained free of all the old oil, washed out with kerosene, and the cylinder washed. Then new, fresh oil should be put in. The cost is nothing compared to the result. The steering gear should be cleaned two or three times a year by pouring kerosene oil through it. This cuts out a great deal of the grit that accumulates, drawn in through the radiator, and makes the handling of the car much less of an effort. Occasionally cleaning of the knuckle joints will help also."

FRENCH WOMEN GOOD FARMERS

British Investigators Admire Unaided and Successful Efforts.

The London Times gives a report of the inquiry made by a British deputation of women regarding the work done by French women in Agriculture. The delegation, which sought to find ways in which English women could give greater assistance in carrying on the war, returned recently after a fortnight's stay in France.

For most of their stay, the party was within sound of the guns, and much of the time was spent on small holdings on the battlefield of the Marne. The members were especially impressed by the unremitting energy of the French women—wives, daughters and mothers of soldiers—and their aptitude in taking up the heavier forms of farm work. One soldier's wife ploughed and sowed fifty acres of ground after two days' lessons, and then instructed her 12-year-old daughter in the same work.

On very few farms were men seen other than cripples or the aged. The French women seemed to accept the carrying on of farm work as their natural share in the winning of the war, and they toiled hard without a murmur. The self- dependence of many of the farms also was remarkable. The women took their grain to the village mill to be ground, made their own bread, reduced their own wine, cider, cheese and vegetables, buying little outside except tea and sugar. Every household kept a number of rabbits and fowls, feeding the forms almost entirely on wild herbage.

As She Expressed It.

Aunt—You'll be late for the party, won't you, dear?

Niece—Oh, no, auntie. In our set nobody goes to a party until everybody else gets there.

It's a wonder the egotist doesn't lose his voice from singing his own praise.

The Paisley Advocate

PAISLEY, APRIL 12th, 1916

LOCAL AND DISTRICT NEWS

Important Business Change

The past week has seen another familiar name taken down from the list of Paisley men and a new one substituted. Mr. H. B. Putnam having disposed of the business of Putnam & Son to Mr. L. C. Spofford, a young man from Owen Sound. Mr. Putnam has been a citizen of Paisley for upwards of 45 years. He began business for himself 40 years ago, and soon forged to the front as one of the leading business men of the place. Of late years it was planned that the establishment should be eventually carried on by his son who became partner after spending several years in the west. The latter, however, answered the call of duty to the Empire by enlisting in the 93th Batt., and will soon be overseas. Mr. and Mrs. Putnam, we are glad to know, will still be Paisleyites, as the former intends opening an office as conveyancer, etc. Mr. Spofford is a man of experience in the handling of general merchandise, and we have no doubt will be able to extend the trade held so long by the former proprietor.

Presentation to Soldier

The home of Mr. and Mrs. Jas. Stark was occupied on Friday evening by a company of people of Paisley and Greenock Gore, who met there to enjoy a social evening together, and pay their respects to a young non-com. officer of the 160th by presenting him with a wrist watch and the following address:

TO CORP STEWART MCLAREN:

We, a few of your many friends, have met here to-night to show our appreciation of you and of the answer you have given to your country's call for men, and yet more men. We feel that to answer this call as you have answered it, you must have a loyal true heart, a courage that has no selfishness in it, and an upright and manly nature, of which we may justly feel proud. We now ask you to accept this gift as a remembrance of your friends at Paisley, coupled on it is with the sincere wish that we may have the pleasure of welcoming you home after the capture of the city of Berlin.

The address was read by Miss Annie Nelson, and the gift presented by Nellson Stark. Corp. McLaren made a brief but appropriate reply, following which a short programme was rendered under the direction of Mr. Wallace Megraw as chairman, and thereafter the tones of a fiddle enticed many of the company to take to tripping the light fantastic, and the fun was kept up till morning.

The Late Mrs. Grant

On Sunday, April 2nd, at Ebenezer, there passed away, in the person of Mrs Hannah Grant, relict of the late Ernest Grant, one of the first and most respected settlers in that district. Deceased had almost reached the ripe old age of eighty-nine years. Mrs Grant's maiden name was Batten, and with her husband she came to lot 8, con 14, Elderslie, in the year 1856, and resided on said lot until she was called home. She was a model wife and mother and took her part in all the hardships incident to pioneer life. Originally she came from Dunmore Tp., Peterboro Co., coming by way of Owen Sound, and from that point carried her daughter, who was then a baby, all the way to her future home, while Mr Grant carried a heavy load of necessaries for their home. She was a good woman and took an active part in the church life of Ebenezer, a kind and thoughtful neighbor, ready always to lend a helping hand to the needy, and no doubt she has heard the approval of the Father, "Well done." She was nearly 36 years a widow. Several years ago she lost her sight, which prevented her enjoying her latter days, but she bore the affliction cheerfully. Two sons also predeceased her, Richard in 1872, aged 19 years, and Henry about two years ago. The following members of the family are still living: Wm H, on the old homestead; Joseph E, Reeve of Tara; George and John, near the old home; Dr H B Grant of Paisley, Mrs James Bryce of Paisley, and Mrs Wm Alexander, 18th con Greenock. The funeral took place on Tuesday, April 4th, and was very largely attended, Revs Ockley of Allwright and Daniels of Tara officiating at both the house and the grave. The pallbearers were six grandchildren of the deceased, who lowered the remains to their last resting place just as the sun went down. Thus another link is taken out of that splendid chain of early settlers who laid the foundation of the high position which Bruce occupies to-day among the counties of Ontario. They are nearly all gone to their reward, but their works follow after, and their memories will be cherished by generations yet unborn. The casket was most beautifully adorned with wreaths and flowers, one wreath by the deceased's children and one by the grandchildren.

Death of Chas. V. Kissack

On April 4th there passed away one of the oldest residents of this vicinity, Mr. Chas. V. Kissack, whose death occurred at the home of his daughter, Mrs Shiels, in London. In Norelli e last Mr. and Mrs. Kissack went to stay with members of their family in the city for the winter, both were in rather ha l health. An attack of la grippe followed by pneumonia was the cause of Mr. Kissack's death. His aged and faithful partner in life is also failing and now requires the attendance of a nurse. The late Mr. Kissack was a native of the Isle of Man, and while only a babe in arms made the trip across the ocean to New York city, where his parents settled and where his mother died when he was only nine years old. Shortly after that he found a home in Canada at Orchardville, and it was from there he first came to Paisley, teaming goods over for a pioneer merchant in our village, the late Thos. Orchard. Deciding to follow farming, Mr. Kissack took up a homestead on the 12th of Bruce. In 1857 he made a trip to his native Isle of Man, and there met Miss Elizabeth Kermode, whom he induced after a brief courtship to unite with him in the fortunes of life. Two days after their marriage they sailed for America. The voyage took three months, and they landed at New York. Mr. Kissack took employment in an iron works at Poughkeepsie for a few weeks and then came to Canada with his bride, she remaining at Orchardville for a short time while he prepared their primitive home on the Bruce Tp. bush farm. The cabin was ready by early winter, and after a memorable as well as a trying journey together from Orchardville, the couple began along and happy domestic life, which was severed only by death, nearly 59 years after their marriage. In June, 1905, they celebrated their golden wedding in their home in Paisley, which was not long after their retirement from the farm. Of their family of five children all survive following are: Mrs. Knox, of Allenford; Mrs. Eastwood, of London; Mrs. Sinclair, of Abbotsford, Que.; Mrs. Shields, London; Chas. (Dr.) McKinney, of Delaware, Ohio; and Mrs (Dr.) Bonsall, of Peace River, Alta.; Wm C., on the homestead in Bruce; and John T., in London. The remains of deceased were brought to Paisley on Friday and the funeral took place from his late residence to the Paisley cemetery, Rev. Mr. Peers conducting the services, assisted by Rev. Mr. Diehl. Those friends present from a distance were Mr. and Mrs. Shields and Mr. John Kissack from London, Mr. and Mrs. Knox from Allenford, Sandyman Emerson Fesser from Toronto.

New Legislation for the Hotel Business

The Ontario Government is understood to be giving consideration to legislation which will help solve the problem of future hotel accommodation in towns and villages of the province, where the possibility exists that some hotels now operating under license may close with the enforcement of prohibition. This legislation, it is stated, will be in the direction of widening the powers of municipalities so as to give them authority to invest municipal funds in a hotel proposition, or to grant exemption from taxation or other special privileges to an individual or company of individuals operating a hotel within a municipality. With such encouragement given by municipalities to private enterprise, it is believed hotels can be operated profitably without the revenue of the bar, and provide accommodation which will be satisfactory to local and transient trade.

HER DREAMS CAME TRUE

Life Unbearable from Indigestion Health Restored by "Fruit-a-tives"

MELLE. C. GAUDREAU

Rochon P.Q., Jan. 14th, 1915.

"I suffered for many years with *terrible Indigestion and Constipation*. I became thin and miserable. I had frequent dizzy spells and became so run down that I never thought I would get well again.

A neighbor advised me to try 'Fruit-a-tives'. I did so and to the surprise of my doctor, I began to improve and *he advised me to go on with 'Fruit-a-tives'*. I continued this medicine and all my Indigestion and Constipation was relieved. I consider that I owe my life to 'Fruit-a-tives' and I want to say to those who suffer from Indigestion, Constipation or Headaches, try 'Fruit-a-tives'. *Give this lovely fruit medicine a fair chance* and you will get well the same as I did".

CORINE GAUDREAU.

Of all overworked women probably the housewife is the hardest worked. She has so much to attend to, with very little help. Her work can be lightened if she knows the value of system and she should try and take a short rest in the daytime. A physician who became famous almost around the world, Doctor Pierce, of Buffalo, N. Y., the specialist in women's diseases, for many years practiced medicine in a farming district. He there observed the lack of system in the planning of the work.

If it is a headache, a backache, a sensation of irritability or twitching and uncontrollable nervousness, something must be wrong with the head or back. A woman naturally says, but all the time the real trouble very often centers in the organs. In nine cases out of ten the seat of the difficulty is here, and a woman should take rational treatment for its cure. The disorder should be treated steadily and systematically with Dr Pierce's Favorite Prescription.

For diseases from which women suffer "Favorite Prescription" is a powerful restorative. During the last fifty years it has banished from the lives of tens of thousands of women the pain, worry, misery and distress caused by these diseases.

If you are a sufferer, get Dr. Pierce's Favorite Prescription in liquid or tablet form to-day. Then address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and get confidential medical advice entirely free

Prevention of Eye Trouble.

Prevention is better than cure.
It is cheaper.
It is possible when cure is impossible.
Eye trouble may be avoided by the timely use of glasses, averting discomfort, suffering and permanent impairment of sight. We are properly equipped to adjust glasses and
guarantee satisfaction.

A STOPPED WATCH

is one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain one and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

Ahiram Lodge, No. 205, I.O.O.F.

Meets every Tuesday evening at 8 o'clock in the Hall Odd Fellows Block. Visiting brothers always welcome.

W. T. HOPPEN, N.G.
H. B. GRANT, R.S.

AUCTIONEERS

R. C. FRANCE, Licensed Auctioneer. Sales attended to in all parts of the County of Grey on reasonable terms. Orders left at the ADVOCATE Office will receive prompt attention. Telephone at house.

R. J. NESBITT, Licensed Auctioneer for the County of Bruce, is prepared to conduct sales in any part of the county. Terms reasonable. Leave orders at ADVOCATE office or address Ostrom P.O.

For Sale

SHORTHORN bull, one twelve months, two nine months, color all dark reds. Apply to J. T. WALLACE, Aberdour.

A CHANGE IN BUSINESS

We have bought the block and the business of H. B. Putnam, who has been in your midst for over forty years, and we heartily solicit your continued patronage for the future. We having bought the store, you can readily see we are here to stay, and will promise you the very best of everything that can be procured. Fair dealing and courteous treatment will be our motto, so come one, come all, till we get better acquainted. Notwithstanding the advanced prices of 40 to 50 per cent. on all goods, we will, during the next 21 days, sell everything at the old prices and even less, as we have to raise $2,700.00 in 21 days to meet our obligations with Mr. H. B. Putnam.

Our Big Sale commences on Saturday morning, April 8th, at 9 o'clock.

We have no time this week to enumerate prices, but—"'nuff said"—come and see for yourselves and we will make you happy.

9 a.m., SATURDAY, APRIL 8th

AT THE PUTNAM STORE

L. C. SPOFFORD

THE SHOE STORE

You should not fail to see our splendid showing of

Spring Boots and Shoes

The line includes some of the nicest values you have ever seen. They're stylish, new and up-to-date, built to comfort your feet, stand lots of hard wear and still look nice.

Just call and look over our line. You will save money by getting your shoes here.

H. PFAFF & SON

Make the Pure Stuff, only, in the Sugar Bush

Now that sap time is here again we hear something about a spurious brand of maple syrup that is sometimes made in liberal quantities with the aid of granulated sugar purchased from the stores.

R. T. Robinson

CARPENTER AND CONTRACTOR

ESTIMATES furnished for the erection of any class of building. Large or small contracts undertaken.

Address Chesley or Cargill P.O.

PUMP REPAIRING

THE undersigned having purchased Mr W Buck's outfit, is prepared to do all kinds of pump repairing, also furnish repairs, such as cylinders, valves and other parts of wooden or iron pumps. A few iron and wooden pumps for sale. Wood turning done. Turned whiffletrees and neckyokes for sale.

Bruce Phone — W. RAE

Many Have Enlisted!

Many vacancies must be filled. Right now the demand on the

ELLIOTT Business College

Yonge and Charles Sts., Toronto

is fully five times our supply. This hardly seems possible, but it is true. Business men know our graduates are first-class, therefore they have the habit of applying to us when in need of reliable office help. College open all year. Enter now. Catalogue free. W. J. ELLIOTT, Principal.

It is peddled around as the pure maple brand and sold at highest prices. Here is a pointer for the ones inclined to perpetrate that trick on the public. Adulterated stuff is readily detected upon analysis. Two men in the county of Bruce have been fined lately for selling adulterated maple sugar, and it would be safe for all makers of maple products to be satisfied with turning out the pure article only.

TORONTO LIVE STOCK MARKETS

Toronto, Tuesday, Mar. 21st, 1916

Court Saugeen, C.O.F No. 88

MEETS in Oddfellows Hall on the second Wednesday evening of each month, at 8 o'clock sojourning brethren welcome.

A. E. ARCHER, R.S.
W. ARCHER, C.R.

Will be Made in Canada

In the matter of vegetable parchment the German manufacturers are to be excluded from the Canadian market. This product for years came from Belgium, France and Germany. Since the outbreak of war there has been much difficulty encountered in getting it at all. A Belgian manufacturer, whose plant has been destroyed by German shell fire, is to undertake the production of vegetable parchment in Canada, his enterprise being financed by all paper manufacturers in the country taking stock. The location chosen is in New Brunswick as salt water is necessary in producing the commodity. The government has waived its objections to alien labor coming to the country, so that the mechanics to be employed in the industry will be Belgians skilled in the secrets of making vegetable parchment, which is manufactured from rags. In a couple of years, or less, the product of this new Canadian industry should be on the market and with the tariff protection it will doubtless receive should be able to exclude entirely the German product from Canada.

VILLAGE COUNCIL

Council met on April 5th, members all in attendance. Minutes of former meeting read and signed.

Various communications were read and filed.

Applications for position of night constable considered and laid over.

George—Nicholls—That Thomas McFadden be allowed to cut down and remove all elm trees which he claims is injuring the roof of his house, he to remove debris from street.—Carried.

By-law 653, providing a schedule of rates for water supply, was read a first time, and on motion of Councillors Moore and Sparrow, read a second and third time and passed.

The following payments were authorized, viz:

Murd Leitch	$11 66
W T Howe	25 00
Elect Light Co	50 37
Weighmaster	11 78
Municipal World	8 10
Ballachey, Laidlaw & Co	12 20
J N Collins	5 00
John Stoddart	6 00
C C Rubber Co	1 40
Div Court costs	6 15
J S Dewar	24 40
D McKenzie	21 15
J C Gibson, J P	2 80

PASSING OF THE DOLLAR PAPER

(Orangeville Post)

The local newspapers in the smaller communities throughout Ontario and in other provinces as well have found it necessary to raise their subscription price from a dollar to ($1.50) a year.

It is a universal failing of publishers to hesitate about raising their prices to the subscriber or to the advertiser. Probably there is no class of men contributing to the needs of the people of Canada who are content with such a meagre profit as the men who conduct newspapers. To be a successful editor requires many years of training, which in other professions would secure handsome financial rewards. A publisher has an investment also, in most cases greater than the average businessman. His plant depreciates more rapidly than any we know of, and if for the expenditure of his time and energy, he gets a bare living, he is thought to be getting all he deserved. This probably accounts for the fact that the dollar papers have not been raised to $1.50 long ago.

But at last, the weekly publisher finds he can carry the burden no longer. He has to pay more for his paper, for his ink, and in wages, which he has skimmed the thin layer of cream off his milk and left him a diet which does not contain sufficient nutriment to keep his brain working sufficiently. With many a weekly publisher, it has become a question of getting more money from the subscribers he serves so earnestly, starving to death or finding a job in the munition factory. Some of them have enlisted. There are others too old to escape in that way. All of which explains the reason why the rural publishers have raised their prices.

MRS. ROBT. PARKER

The late Mrs. Robert Parker, who died on March 29th, was buried at Clifford cemetery on Friday, 31st. The deceased's maiden name was Margaret Kerr. She was born at Rutherglen, town a part of the city of Glasgow, Scotland, in March, 1838. Her parents emigrated to Canada when she was a year old, landing first at Brantford and shortly afterwards removing to the township of Hibbert near Cromarty, in the county of Perth, when the country was nearly all bush. Her father was killed by a falling tree in the woods when she was four years old. She was married to Mr Robert Parker on New Year's Day of 1867, at Hamilton Presbyterian church at Hibbert by Rev. John Potherlingham, and the young couple lived in that neighborhood for about five years. When the railroad through here was building Mr. Parker worked on its construction, and assisted to clear the trees on the roadway from Paisley to Southampton. He moved to Paisley in 1871 and worked continuously on the track after it was built until he was superannuated a few years ago. They moved to Clifford 23 years ago, where they have since resided. Mrs. Parker was a faithful helpmeet to her husband, and was the mother of a large family. The surviving sons are John, of Chicago; Alexander, of St. Thomas, N.D.; Robert, of Reerton, Out.; James, of Kindersley, Sask.; W. L., of Cupar, Sask. The daughters are Mrs. Gilck (Jennie), of Preston; Mrs F Hamilhouse (Margaret), Clifford; Mrs. R. F. Aitchison (Maude), of Fergus; Myrtle at home. The eldest, a daughter, died in infancy, and Edward, a son, was killed in 1909 while employed as a brakeman on the train.—Clifford Express.

Points to Consider When Purchasing a Railway Ticket

A Canadian Pacific Railway ticket does not represent merely a means of transportation between given points. It in addition provides the traveller with every comfort and convenience developed by modern railway science. "Safety First," with up-to-date equipment, unexcelled dining car service, palatial sleeping cars, in a word everything that a railway can provide for the comfortable transportation of its passengers, including courtesy.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XII.

Below, in the narrow confines of the cabin, Saxon paced back and forth excitedly as he talked. For five minutes, he did not pause, and the other man, sitting on the camp-stool in a corner of the place, followed him with eyes as much as a lion-tamer, shut in a cage with his animal. As he listened, Rodman's expression ran a gamut from astonishment, through sympathy, and to final distrust. At last, Saxon ended with:

"And, so, I've got to get away from there. I've got to get back to that town, and you must manage it. For God's sake don't delay!" The painter had touched on the irrelevant point of his own mystery. That would have been a story the other would not have believed, and there was no time for argument and futile personalities. The slow northward fifteen knots had all at once become a fevered racing to the wrong direction, and each throb of the shafts in the engine-room seemed to hurl him madly through space away from his goal.

When he halted in his narrative, the other man looked sternly up, and his sharp features were decisively set.

"Suppose I should get you there," he began swiftly. "Suppose it were possible to get back in time, what reason have I to trust you? Suppose I were willing to trust you absolutely, what right have I—a mere tenant in a cause that's bigger than single lives—to send you back there, when a word from you would spoil everything? My goodness, man, there are thousands of people there who are risking their lives to change this government. Hundreds of them must die to do it. For months, we have worked and planned, covering and secreting every detail of our plotting. We have all taken our lives in our hands. Now, a word of warning, an indiscreet act, the changing of the garrison on San Francisco, and where would we be? very platoon that follows Vegas and Miraflores marches straight into a death-trap! The signal is given, and every man goes to destruction as swift as a bat out of hell. That's what you are asking me to do—to play traitor to my cause. And you calmly tell me I must do it simply because you've got friends in town."

The man came to his feet with an excited gesture of anger.

"You know that in this business no man can trust his twin brother, and you ask me to trust you to the extent of laying in your hands everything I've worked for—the lives of an army!" His tones rose to a climax of vehemence: "And that's what you ask!"

"You know you can trust me," began Saxon, conscious of the feeble nature of his argument. "You didn't have to tell me. I didn't ask your confidence. I warned you not to tell me."

"Maybe I was a fool, and maybe you were pretty slick, playing me along with your bait of indifference," retorted Rodman, hotly. "How am I to know whom you really mean to warn? You insist that I shall harbor a childlike faith in you, yet you won't trust me enough to quit your play-acting. You call on me to believe in you, yet you lie to me, and cling to your smug alias. You won't confess who you are, though you know I know it. No, Mr. Carter, I must decline."

Saxon stood white and rigid. Every moment wasted in argument imperilled more deeply the girl and the friends he must save, for whose hazarded lives he was unwittingly responsible. Yet, he could do nothing except with Rodman's assistance. The only chance lay in convincing him, and that must be done at any costs. This was no time for selecting methods.

"I don't have to tell a syllable of your plans," he contended, desperately. "They will go with me without asking the reason. I have only to see them. You have my life in your hands; you can go with me. You can disarm me, and keep me in view every moment of the time. You can kill me at the first false move. You can——"

"Cut out the tommy-rot," interrupted Rodman, with fierce bluntness. "I can do better than that, and you know it. My word on this ship goes the same as if I were an admiral. I can say to the captain that you assaulted me, and it will be my testimony against yours. I can have you put in irons, and thrown down in the hold, and, I'm going to do it!" The man moved toward the cabin bell, and halted with his finger near the button. "Now, damn you! my platform is Vegas y Libertad, and I'm not the sucker I may have seemed. If this is a trick of yours, you aren't going to have the chance to turn it."

"Give me a moment," pleaded Saxon. He realized with desperation that every word the other spoke was true, that he was helpless unless he could be convincing.

"Listen, Rodman," he hurried on, ready to surrender everything else if he could carry his own point. "For God's sake, listen to me! You trusted me in the first place. I could have left the boat at any point, and wired back!" He looked into the face of the other man as steadily and with such hypnotic intensity that his own eyes were the strongest argument of truth he could have put forward.

"You say I have distrusted you, that I have not admitted my indentity as Carter. I don't care a rap for my life. I'm not fighting for that now. I have no designs on you or your designs. Let me put a hypothetical question: Suppose you had come to a point where your past life was nothing more to you that the life of another man—a man you hated as your deadliest enemy; suppose you lived in a world that was as different from the old one as though it had never existed; suppose a woman had guided you into that new world, would you, or would you not, turn your back on the old? Suppose you learned as suddenly as I learned, from you, on dock, that that woman was in danger, would you, or would you not, go to her?"

Men rarely find the most eloquent or convincing words when they stand at sudden crises, but usually men's voices and manners at such times can have a force of convincing veracity that means more. Possibly, it may have been the hypnotic quality of Saxon's eyes, but, whatever it was, Rodman found it impossible to disbelieve him when he spoke in this fashion. In the plaza, he had suddenly turned the scales and held power of life and death over [illegible]man, and his only emotion had been that of heart-broken misery. Carter had been, like Rodman himself, the intriguer, but he had always been trustworthy with his friends. He had been violent, bitter, avenging, but never mean in small ways. That had been one of the reasons why Rodman, once convinced that the danger of vengeance was ended, had remained almost passionately anxious to prove to the other that he himself had not been a traitor. Carter had been the Napoleonic adventurer, and Rodman only the pettier type. For Carter, he held a sort of hero-worship. Rodman's methods were those of chicane, but rightly or wrongly he believed that he could read the human document.

If, this other man were telling the truth, and if love of a woman were his real motive, he could be strung into fury with a slur. If that were a pretext, the other would not admit his resentment to imperil his plans—he would repress it, or stumble it awkwardly.

"So," he commented satirically, "it's the good-looking young female that's got you buffaloed, is it?" The warrior has been taken into camp by the squaw." The tone held deliberate intent to insult.

Saxon's lips compressed themselves into a dangerously straight line, and his face whitened to the temples. As he took a step forward, the slighter man stepped quickly back, and raised a hand with a gesture of explanation. Saxon had evidently told the truth. The revolutionist had satisfied himself, and his somewhat erratic method of judging results had been to him own mind convincing. And, at the same moment, Saxon halted. He realized that he stood in a position where questions of life and death, not his own, were involved. His anger was driving him dangerously close to action that would send crashing to ruin the one chance of winning an effective ally—a half-turned with something like a groan.

He was called out of his stupor of anxiety by the voice of the other. Rodman had been thinking fast. He would take a chance, though not such a great chance as it would seem. Indeed, in effect he would be taking the other prisoner. He would in part yield to the request, but the method that occurred to him he would have an ample opportunity of studying the other man under conditions which the other man would not suspect. He would have Saxon at all times in his power and under his observation while he set traps for him. If his surmise of sincerity proved false, he could act at once as he chose, before Saxon would have the opportunity to make a dangerous move. He would seem to do a tremendously hazardous thing in the name of friendship, but all the while he would have the cards stacked. If at the proper moment he still believed in the other, he would permit the man, under supervision, to save those friends. If not, Rodman would still be master of the situation. Besides, he had been seriously disappointed in not meeting Miraflores. He had felt that there might yet be advantages in coming closer to the theater of the drama than this vessel going north, though he must still remain under the protection of a foreign flag.

"So, you are willing to admit that your proper name is Mr. Carter?" he demanded, coolly.

"I am willing to admit anything, if I can get to Puerto Frio and through the lines," responded Saxon, readily.

"If I take you back, you will go unarmed, under constant supervision," stipulated Rodman. "You will have to obey orders, and devise some pretext for enticing your friends away without telling them the true reason. I shall be running my neck into a noose perhaps. I have no right run that of Vegas y Libertad into a noose as well. Are those terms satisfactory?"

"Absolutely!" Saxon let more eagerness burst from his lips than he had intended.

"Then, come with me to the captain." Suddenly, Rodman wheeled, and looked at the other man with a strange expression. "Do you know why I'm doing this? It's a fool reason, but I want to prove to you that I'm not the sort that would be apt to turn an ally over to his executioners. That's why."

Five minutes later, the two stood in the captain's cabin, and Saxon noted that the officer treated Rodman with a manner of marked deference.

"If Cartwright's steam yacht still at Mollera?" demanded the soldier of fortune, incisively.

"It's held there for emergencies," replied the officer.

"It's our one chance! Mr. Saxon and myself must get to Puerto Frio at once. When do we strike Mollera?" Rodman consulted his watch.

"In an hour."

"Have us put off there. Send a wireless to the yacht to have steam up, and arrange for clearance. Put on all steam ahead for Mollera."

It was something, reflected Saxon, to have such toys to play with as this thin ally of his could, for a moment at least, command.

"Now, I fully realize," said Rodman, as they left the captain's cabin together, "that I'm embarking on the silliest enterprise of a singularly silly career. But I'm no quitter. Cartwright," he explained, "is one of the owners of the line. He's letting his yacht be used for a few things where it comes in handy."

(To be Continued).

A Conflict.

"What brought you here, my poor fellow?" a missionary asked a convict.

"I married a new woman, sir," the prisoner groaned.

"Aha!" said the missionary, "and she was so domineering and extravagant that it drove you to desperate courses, eh?"

"No," replied the prisoner, "but the old woman turned up."

He—"There was a time when you wouldn't pass me without speaking." She—"Yes, there was a time when I wouldn't pass any old thing."

REMORSE.

I killed a squirrel. The little chap
Had ventured forth from his winter nap
To nibble a twig and taste the sap.

I flung a stone as he chattered there,
I only meant to give him a scare,
But off it went—and it hit him square.

A little quiver,—a little cry,
Then on the ground I saw him lie,
I did not think he was going to die.

But as I watched him I could see
He never would frisk for you and me
Any more on a branch of the tall fir tree.

Never more in his tree top flight,
Never more in the sunshine bright,
Scattering us cheer in his wild delight.

I dreamt that night of his death-dimmed eye,
Of the sun-warmed world he had bid good-bye,
And it my dream I heaved a sigh.

And I think, and think every summer day,
How never, never can I repay
The sweet little life I took away.

SARAJEVO MURDER A GODSEND.

Dr. Liebknecht Speaks Out in German Parliament.

The Cologne Gazette gives the following account of the turbulent scene which occurred in the German Reichstag recently while Dr. Karl Liebknecht, Socialist, denounced the demoralizing effects of the war:

"Dr. Liebknecht, discussing the educational budget, said: "Education to-day serves to strengthen militarism and capitalism. You act as if you wish to throw open to the people the road to education, but that is only because capitalism requires soldiers. The teaching of history is systematically distorted for the purpose of introducing certain political convictions into the schools, and also hatred against England. The militarizing of schools converts them into training stables for war. You educate your children to be war machines. With regard to war, their ideals seem to be embodied in poison gas bombs.

"In the schools it should be taught not only that the murder of Archduke Franz Ferdinand of Austria at Sarajevo was an incident which should inspire horror, but it should also be taught that there were wide circles in Germany and Austria in which this murder was regarded as a veritable Godsend."

"At these words, a wild uproar arose in the House, the president vigorously ringing his bell. Dr. Liebknecht shouted: 'It is the truth; it is the whole truth.' The president thereupon called him to order and the majority of the members left the Chamber.

"Dr. Liebknecht went on: 'Just as in the thirty years' war, so the present war has a demoralizing and baneful effect on education. As long as our educational ideal centres in a death struggle, the liberation of the working classes cannot come.' The president for the second time called the speaker to order, but he continued: 'The workers themselves must tackle the job of education. The troops must not fight merely in the trenches; they ought to lower their arms and direct them against the common enemy.'

"The president again rang his bell. Liebknecht tried to continue, but the president kept on ringing and said, addressing the members: 'I beg that all those present who still wish to hear Dr. Liebknecht will stand up.' As only Socialists stood up Liebknecht was forbidden to speak further, the majority present loudly applauding this decision. Liebknecht, however, continued in his efforts to speak, but could not make himself heard owing to the terrific commotion. As he was leaving the rostrum there were loud shouts of 'Out with him!'"

Might Have Been Worse.

The elderly Miss Charitae settled down among the rural inhabitants, and soon made herself conspicuous by the kindly interest she manifested in their welfare. A few days ago she met Mrs Flanagan, whose right eye was as black as it was possible for a human fist to make it. Sympathetic to a degree, the lady expressed the hope that her unfortunate friend would soon be able to see things in a much better light. "After all, Mrs. Flanagan," she went on, "your trouble might have been worse." "Sure, your right," answered the woman, philosophically. "I might be like yourself, miss, with no husband at all."

That'll Do.

A man was walking along the street and he saw a house afire. He rushed across the way and rang the bell. After some time a lady, who proved to be slightly deaf, appeared at the door.

"Madam your house in on fire."

"What did you say?"

The man began dancing up and down. He pointed above. "I said your house is afire! Flames bursting out! No time to lose!"

"What did you say?"

"House afire! Quick!"

The lady smiled. "Is that all?" she said, sweetly.

"Well," replied the man, hopelessly, "that's all I can think of just now."

"Nothing But Leaves"

has the reputation of being the cleanest, and most perfect tea sold. E147

BLACK, GREEN OR MIXED. SEALED PACKETS ONLY.

Cleanliness at Milking Time.

Twice each day dairymen draw from their cows a finished product, a food ready for use, or capable of being further manufactured into other valuable food products. No article of human diet is more susceptible to undesirable changes, due to the delicate nature of the milk itself and to conditions naturally surrounding its production and handling. Milk is readily affected by bacteria, found on the body of the cow and on hay, bedding or dust-laden atmosphere falling into the freshly-drawn milk. The extent of this source of contamination depends on the care cows receive, the carelessness of the milker and the utensils used. Unless the udder is diseased, it is claimed that there will be few bacteria in the milk when first drawn, but it is subject to contamination from the moment it is drawn until removed from the stable to a place that is free from odors or dirt. The aim of the dairyman should be to reduce the sources of contamination to a minimum. This may be done with a degree of success through a little extra exertion. If the side of the cow and the udder are wiped with a damp cloth just previous to milking, the danger of bacteria getting into the milk from this source is lessened. In some stables the chores are not planned so that the stable will be free from dust at milking time, but just previous to milking, or while the milking is being done, the feeder puts straw or hay down from the barn and proceeds to feed the cows, thus filling the air with dust and making it impossible to keep the milk clean. By a little planning of the work, the stable can be kept practically free from dust for a short time morning and evening. After the milk is removed from the stable, feeds which cause a dust or strong odor may be fed. In stables where certified milk is produced every effort is made to keep the cows' bodies clean and the air free from dust while the milk is being drawn. There is danger of bacteria lodging and growing in cracks or crevices of pails or cans that are difficult to wash. The pail with an open seam may be the cause of serious trouble. Few milkers take the time to put on a special coat and apron for milking, but apart from being more sanitary, they protect the everyday clothes from becoming spotted with milk.

Besides bacteria, there are taints and odors which affect the quality of milk and its products. These odors are absorbed by the milk after it is drawn from the cow. If milk is exposed to any strong odor, or foul air, resulting from lack of ventilation in the stable at milking time, these odors will be taken up quite rapidly. Or, if milk is being cooled by use of an aerator, it is liable to absorb any strong odor from the atmosphere. These "off" flavors are stronger, when the milk is warm and are less pronounced as milk becomes older, especially if subjected to some form of aeration in a fresh, clean atmosphere.

Taints and bacteria affect all milk, more or less, and every dairyman should endevor to lessen the sources of contamination, by taking extra care at milking time and in cooling the milk properly after it is removed from the stable. The market demands a high-class product, whether in the form of milk, cheese or butter. The man selling milk direct to customers in a town or city is obliged to keep the milk up to the standard in order to retain customers. The man supplying milk to a cheese factory or cream to a creamery is not affected directly, but indirectly he suffers sooner or later if poor quality milk or cream is delivered. The cheese maker cannot make first-class cheese from second-grade milk, and the quantity of milk to make a pound of cheese is increased. Likewise with the cream-man—it requires good milk to produce good cream, and the proper care must be taken of the cream if the highest-priced butter is to be made. There is need for a uniform method of caring for milk and cream in order that a uniform product may be manufactured that will compete favorably with the products of other countries on any market. The solution begins with taking every precaution at milking time.—Farmer's Advocate.

Care of the Colt's Feet.

The care of a horse's feet should commence when he is a colt, that is, before he is weaned. Untrimmed hoofs usually grow long and uneven, and a crooked foot, or worse, a crooked leg is the result. Failure to regulate the length and bearing of the foot may make a straight leg crooked or a crooked leg worse, while intelligent care during the growing period can gradually improve a leg that is crooked at birth. When picking up a colt's foot, teach him to stand on three legs, and not depend on the one holding up his foot for the fourth point of support. The handling of a colt's feet begins with the near front foot. Tie a rope around the pastern, grasp the rope close to the foot, push gently against the shoulder, and quickly lift the foot. The lifting of the foot must be simultaneous with the weight shifting to the other feet. Gentle the foot and leg and let it down. Repeat several times and then trim and level the hoof.

To raise a hind foot, put on a rope as on the front foot and draw the foot forward. To put a rope on the hind foot of a wild horse, tie up a front foot, have the assistant hold his hand over the eye on the same side as the foot to be lifted, or take the headstall in one hand, the tail in the other, and whirl the horse until he becomes dizzy. While in this condition he may be handled with safety. Lift the foot forward two or three times and gentle it. As soon as the horse gives in, carry the foot backward into a shoeing position and trim the hoof.

To handle the feet of a horse that will not stand still, or that kicks, a halter twitch is a great aid. This twitch is easily applied and needs only the ordinary halter and tie rope. Pass the rope over the horse's head just behind the ears; raise the upper lip and put the rope across the gums above the teeth; run the rope through the loop made by passing the rope over the horse's head. The rope should be tight from the halter ring, over the head, under the lip, and through the loop. A few good pulls on this rope should make the horse stand quietly.

Saving the Trees.

The cementing of holes in trees is now quite common. On old estates, where trees have been showing holes in their trunks for years, they are now being cemented, both to add to the stability of the trunks and to arrest further decay. Huge trees with holes in their trunks large enough for a man to stand upright in are now filled with cement, the cement being painted the color of the bark.

Why those Pains?

Here is a testimonial unsolicited

"If I had my will it would be advertised on every street corner. The men or women that has rheumatism and fails to keep and use Sloan's Liniment is like a drowning man refusing a rope."—*A. J. Van Dyk, Lakewood, N. J.*

Sloan's Liniment

Chemists and Bacteriologists, Goshen, Ind., U.S.A.

REPLENISH YOUR BLOOD IN THE SPRING

Just now you are feeling "out of sorts"—not your usual self. Quite exhausted at times and cannot devote real energy to your work. Sleep does not rest you and you wake up feeling "all tired out." Perhaps rheumatism is flying through your muscles and joints, or may be your skin is disfigured by rashes, boils or pimples. Headaches, twinges of neuralgia, fits of nervousness, irritability of temper and a disordered stomach often increase your discomfort in the spring.

The cause—winter has left its mark on you. These troubles are signs that your blood is poor and watery, that your nerves are exhausted. You must renew and enrich your blood at once and restore tone to your tired nerves, or there may be a complete breakdown. The most powerful remedy for these spring ailments in men, women and children is Dr. Williams' Pink Pills for Pale People, because these Pills cleanse bad blood and strengthen weak nerves.

New, rich, red blood—your greatest need in spring—is plentifully created by Dr. Williams' Pink Pills, and with this new, pure blood in your veins you quickly regain health and increase your strength. Then your skin becomes clear, your eyes bright, your nerves strong, and you feel better, eat better, sleep better, and are able to do your work.

Begin your spring tonic treatment to-day for the blood and nerves with Dr. Williams' Pink Pills — the Pills that strengthen.

These Pills are sold by most dealers, but do not be persuaded to take "something just the same." If you can't get the genuine Pills from your dealers they will be sent you by mail, post paid, at 50 cents a box or six boxes for $2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

FROM WRITING TO WAR.

Many British Newspapermen Are Serving With the Colors.

No profession in Great Britain has responded more patriotically to the call to arms than that of journalism, says the New York Times. Aside from the hundreds who have attested under Lord Derby's scheme and hundreds of others who are rendering personal service in directions other than with the colors, no fewer than 1,366 working newspaper men and three newspaper women are on active service, the women being with the Red Cross.

Of this total 1,400 editors and reporters volunteered in the United Kingdom, the other 65 being from the colonies. The overseas contingent comes from all parts of the world—Australia, Canada, Ceylon, China, East Africa, India, New Zealand, South Africa and the Straits Settlements.

So far 53 newspapermen-soldiers have been killed in battle, 71 have been wounded, and 11 are reported missing. Ten have been mentioned in despatches or have received high decoration for gallantry and distinguished conduct in the field.

Since the invasion of Belgium brought ruin to the newspaper staffs of that kingdom their British colleagues at home and abroad have contributed generously to a fund for their relief.

WISE HOSTESS.

Won Her Guests to Postum.

"Three great coffee drinkers were my old school friend and her two daughters.

"They were always complaining and taking medicine.". (Both tea and coffee are injurious to many persons, because they contain the subtle, poisonous drug, caffeine.) "I determined to give them Postum instead of coffee when they visited me, so without saying anything to them about it, I made a big pot of Postum the first morning.

"Before the meal was half over, each one passed up her cup to be refilled, remarking how fine the 'coffee' was. The mother asked for a third cup and inquired as to the brand of coffee I used. I didn't answer her question just then, for I heard her say a while before that she didn't like Postum unless it was more than half coffee.

"After breakfast I told her that the 'coffee' she liked so well at breakfast was pure Postum, and the reason she liked it was because it was properly made.

"I have been brought up from a nervous, wretched invalid, to a fine condition of physical health by leaving coffee and using Postum.

"I am doing all I can to help the world from coffee slavery to Postum freedom, and have earned the gratitude of many, many friends." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c pkgs

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

LADY CAMPBELL.

PRESIDENT of the British Women's Patriotic League.

THE DYING SOLDIER'S DREAM.

Amid the unsorted dead he lay,
His rifle in his hand;
His face so fair and well-cropped hair
Half-buried in the sand.
Again in the mist and shadow of sleep,
He saw his native land.

Wide through the vision of his dreams
Its spacious landscape spread,
Four thousand miles of happy homes
Free from the foeman's tread.
His heart again essays to throb
And slightly moves his head.

He saw, once more, the Gulf-girt Isle,
And fair Acadia land;
Now Brunswick's wild and wooded slopes
St. Lawrence flowing grand.
A tear burst from the sleeper's lids,
And fell into the sand.

Again he scaled Columbia's range,
Felt soft Alberta's rains,
Saw boundless swell Saskatchewan's fields
And Manitoba's plains.
A pulse of deathless freedom shoots
Along the dreamer's veins.

A golden light broke through his dreams
Full o'er Ontario wide;
Once more, he saw his native home,
His early joy and pride,
And mother, there in happy toil,
The cottage door beside.

He did not feel the shrapnel's sting,
Nor the damp of departed day;
For death had illumined the Land of Sleep,
And his lifeless body lay
A shattered shrine, from which his soul
Had 'scaped and flown away.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Baby's Own Tablets are guaranteed by a Government analyst to be absolutely safe and free from injurious drugs. Once a mother has used them she would not use anything else for her little ones. Concerning them Mrs. George Taillon, Noelville, Ont., writes: —"Please send me two more boxes of Baby's Own Tablets for I have found them so good for my baby, I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

MUNITION WORKERS WARNED.

Young Germans Threatened Who Squander Their Earnings.

Compulsory saving has been introduced on a small scale in at least one district of Germany. This is revealed in an order issued by the military commander of the district of Cassel, famed as an early schooling place of Emperor William.

The order is aimed at the extravagance of young men and boys who are earning high wages in war industries. The order recites that young men in receipt of swollen war earnings have in many cases been leading profligate lives and sometimes neglecting to support dependent relatives. In some places, it is observed, boys have been seen lighting their cigarettes with paper money, which is issued in denominations as small as 25 and 50 cents.

As this class of youth has not desisted from its practices after repeated warnings, the commanding general decrees that persons under 21 years of age must henceforth "make such economical use of their wages as accords with the gravity of the time, must adequately support their dependents and must deposit in the savings bank their surplus earnings," or they will not be allowed further to collect their wages. Instead, their money will be handed over to a duly appointed trustee, who will withhold such amount as he sees fit for deposit in a savings bank until after the war or until his charge has attained his 21st year.

SOUP PLATE HELMETS.

British Army's New Head Pieces Prove Efficacious.

"Soup plates" is what the British soldiers at the front call the helmets with which they are now equipped as a protection against shrapnel. They are of steel and painted grey. In appearance they resemble an inverted bowl and are far from ornamental. They afford protection to the neck and ears as well as the head.

A British correspondent testifies to their efficacy in reducing casualties as proven in the recent stiff fighting for the recovery of the "International trench" north of the Ypres-Comines Canal.

"I saw eight dented or pierced helmets to-day," he writes, "the wearers of which suffered no worse injury than slight scalp wounds, and some escaped entirely. All would have been killed if they wore ordinary khaki caps. One helmet had been dented eight times by falling shrapnel, while a jagged two-inch hole marked the entry of a shell fragment which caused a flesh wound.

"Another bore a deep fissure made by the butt of a German rifle during the hand-to-hand fighting in the captured trench. The wearer of the helmet was not even stunned and he was able to kill his antagonist.

Helmets dented by shrapnel are unknown to the wearer. Several had been cut through by pieces of shell, but the net effect was no greater than a smart blow across the skull with a club."

Manitoba Woman Sends Message

TELLS SUFFERING WOMEN TO USE DODD'S KIDNEY PILLS.

Mrs. F. J. Garlis, Who Suffered With Backache, Says That the Results She Got From Dodd's Kidney Pills Were Wonderful.

Stewart Valley, Sask., April 3rd. (Special.)—Mrs. F. J. Garlis, wife of an estimable resident of this place, is enthusiastic in her praises of Dodd's Kidney Pills.

"Dodd's Kidney Pills have helped me wonderfully," Mrs. Garlis says in an interview. "A year ago I was so bad with my back I could hardly move. I took four boxes of Dodd's Kidney Pills and they helped me more than I can tell you."

Mrs. Garlis is now able to attend to her household duties as well as nurse her fine big baby boy and she feels that she cannot recommend Dodd's Kidney Pills too highly.

Backache is the bane of the average woman's life. It is accompanied by a weakness and lassitude that makes life a burden. But thousands of women all over Canada are telling their suffering sisters that relief and cure is to be found in Dodd's Kidney Pills. They cure the kidneys and nine-tenths of women's ills come from diseased or disordered kidneys.

SOLDIERS REVIVE MACE.

Weapon Popular With Warriors of Old Not Out of Date.

English newspapers mention the fact that the mace, so popular with warriors in the days of knighthood, is not out of date in the present struggle. Both the German and the allied french warriors are armed with a weapon which can be called nothing but a mace. It is a short, heavy club, covered with spikes. The bludgeons are supplied top artles which creep up on the enemy's trench under cover of darkness.

When an attacking party, small in number, enters an enemy's trench the success of their venture depends on their ability to avoid discovery by others in the same trench or an adjoining one. For this reason it is necessary to kill their opponents silently. The mace or spiked bludgeon makes this possible. By killing silently the few watchers in the trench attacked the enemy can gain a foothold for a larger attacking force.

Self-love is the kind that never gets cold feet.

Shaving a Pleasure —Not an Operation.

USE IT, the wonderful new skin food and wrinkle chaser, is a tonic to men with heavy, wiry beards and tender skins.

A man who has used it for a short time said recently: "Shaving is a pleasure now, equal to consider it almost an operation."

It is only necessary to rub a few drops or rub into the beard before lathering to soften an hour's quick shave.

USE IT penetrates into the pores, softens the beard, and gives a clean, close shave. The beard feels right off, without pull-ing or hurt.

USE IT is kind to tender skin. There is no smarting or soreness after shaving. Gives the face a fine feeling of smoothness and freshness.

USE IT prevents dryness of the skin caused by exposure to excessive winds.

Accept no substitute.

Send 10c to-day for a trial bottle, sufficient for over six weeks' use.

BOOK ON DOG DISEASES
And How to Feed
Mailed free to any address by the Author
H. CLAY GLOVER, V. S.
118 West 31st Street, New York

Your Ninety-First Birthday—how are you going to celebrate it? You can live to celebrate it by eating the right kind of foods. Give Nature a chance. Stop digging your grave with your teeth. Cut out heavy meats, starchy foods and soggy pastries and eat Shredded Wheat Biscuit. It supplies all the nutriment for work or play with the least tax upon the digestive organs.

Made in Canada.

FAMILIAR FACES GONE.

Organ-Grinders, Costers and Shoeblacks of London.

It is tradition itself which has been most harshly hit by the war. Where are the traditions of London, the traditional institutions of her streets and taverns, writes a London correspondent? "All, all are gone, the old familiar faces!"—gone either to the front to fight the Germans or to the munition factory to feed the firing line.

Thus the steets of the metropolis would look strange to the eyes of a rejuvenated Johnson or Lamb. The absence of the organ-grinder, who, Italian or English, has largely deserted the streets for the trenches, they would naturally not notice.

But the organ-grinder is only one of the many more or less picturesque characters fast disappearing from our public places. Here is a list of some others: Costers, crossing sweepers, shoe-blacks, beggars, match sellers, hawkers of pirated music, coffee-stall keepers, apple women.

The last-named ladies, it may be noted, have probably found more profitable, if less picturesque, employment in one of the many man-depleted factories. Then one misses the eloquent-tongued itinerant toy hawker, of indubitable Cockney origin, whose place is now being taken by swarthy little Japs with soapstone ornaments to sell.

Another personality whose loss one hears with more equanimity is that of the charity canvasser—usually a long, lean, cadaverous, and be-spectacled gentleman of clerical collar and untidy cuffs—who once knocked gently but persistently at our doors.

MURINE, Granulated Eyelids, Eyes inflamed by exposure to Cold Winds and Dust quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggists' 60c per Bottle. Murine Free Rx Salve in Tubes 25c. For Book of the Eye Free write Murine Eye Remedy Company, Chicago

She Was Busy.

"I want to thank you," said the long-winded orator to the nice old lady who had stayed throughout his entire lecture. "You seemed to appreciate my efforts to enlighten the community."

"That's all right," she replied. "Most of your audience slipped away but I had brought my knitting along and wasn't wasting the time."

Minard's Liniment for sale everywhere

All Kings.

The pupils in a school were asked to write original compositions on "Kings." The prize was carried off by a bright youth, who perpetrated the following:—"The most powerful king on earth is Wor-king; the laziest, Shirk-king; a very pleasant king, Smo-king; the wittiest, Jo-king; the leanest, Thin-king; the thirstiest, Drin-king; the slyest, Win-king; the most garrulous, Tal-king."

I was cured of Facial Neuralgia by MINARD'S LINIMENT.
Springhill, N.S. WM. DANIELS.

I was cured of Chronic Rheumatism by MINARD'S LINIMENT.
Albert Co., N.B. GEO. TINGLEY.

Ancient Pics.

One day an Irishman, when passing through a street in the city, saw in the baker's window the words, "Excellent pies sold within," and he went in and bought one. He tasted it before he left the shop, and complained to the baker about its being hard and dry. The baker said:—"Get away, man; I made pies before you were born." "Well," said Pat, "this must be one of them," and he left the shop in indignation.

Minard's Liniment Cures Diphtheria

The Crisis Over.

Excited Lady—Why don't you interfere to stop that dog fight?

By-stander—I was just a-goin' to mum, but you kin calm y'r fears now. My dog is on top at last, mum.

SACRED BUDDHIST RELICS.

One Is Reported to Have Been Found in India.

A number of sacred Buddhist relics, including a bone of Buddha, has been unearthed at Taxila, near Rawalpindi, in the Punjab.

When Buddha died near Kushara, about the year 483 B.C., fragments of his bones were distributed as relics to a large number of the more important religious centres. A quarter of a century ago knowledge of these antres was meagre, and no authentic discovery of them had been made. Since that time, however, several certain relics have been found.

Taxila, long before Alexander the Great made it a military centre, was one of the holiest and most important Buddhist sites. The relics of Buddha that have been found there were protected in various ways, generally being placed within a covered or cleft bowl upon which the nature of the treasure is described. The workmanship on these cases is very fine.

There is a vast field of search still untouched in India, but the skilful and energetic work of the British Archæological Society has already cleared up many uncertainties and identified many of the holy places of Buddhism, such as Kusinara, the scene of Buddha's death, and Rummin-dei, his birthplace.

Minard's Liniment Relieves Neuralgia

Both Satisfied.

"The best thing that ever happened to me," sneered the young man to his former employer, "was when you fired me. I went out and got a regular job."

"That's all right," replied the old boss, "I'm glad you're satisfied. Firing you didn't hurt our firm a particle."

MOTHERS
REMEMBER! The ointment you put on your child's skin gets into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always.

GLAMIS

Mr Finlayson, who has been employed in the brush factory at Port Elgin, is home and will work at carpenter work this summer.

Mrs McKeeman and Phyllis Moffat have returned from Toronto, where they visited friends.

Mr Schwass returned to his home on Saturday, after sawing the stock of logs at his mill yard.

The Ladies' Aid of St Paul's church held their monthly meeting at the manse.

Mr Thos Colwell has sold his farm to the Pertis brothers, and is having a sale of his farm stock and implements.

Mr John McLean, on the boundary, sold the hundred acres of his farm with the buildings on to Mr A Kirktown, and the back fifty to Mr Roy Kennedy.

News came from Ottawa on Monday morning to Mrs Archie McKinnon, on the 10th, telling of the wounding of her son John in France. No particulars at the time of writing.

Mr Jim Thompson went to Walkerton last week for his uniform.

Mr Wilbert McNally is the latest recruit to sign up.

Mr Jas Kippen called on friends in our burg on Monday.

The adjourned meeting of the lot owners of Purdy's cemetery will be held on Friday afternoon, April 14th, at 3 p m. All interested kindly attend this meeting.

SECOND CON ELDERSLIE

Murdoch Campbell is spending a week with friends at Glamis and Pinkerton.

Ptes Jack Walks and Barnes Bowie, of the 160th Bruce Batt, visited friends on this con last week before leaving for Walkerton where they are going to take the signallers' course.

Andrew McCulloch and Master Archie visited friends here over Sunday.

Mrs Jas Allen is confined to her room with a very severe cold.

Neil McMillan has been working here helping the farmers to cut wood.

Messrs Young, Campbell, Green and McGregor are reaping the fruits of hard labor by laying in a good supply of maple syrup.

Mrs J B Allen has been confined to the house for over three weeks with a severe attack of neuralgia.

TURNERS'

Mr Adam Munro is putting in a stock scale here this spring. This is a good thing for the district, and something that has been looked forward to by many for a number of years.

Mr Lawrence Schell was home for the last time before leaving for overseas with the mechanical transport.

Mr Logie, of Paisley creamery, was around soliciting patrons for 1916.

Mr Oliver Christie is another Saugeen boy to enlist with the 160th Batt.

Mr Jas Clark, of Saugeen, has three stalwart sons in khaki. Malcolm is in Port Elgin platoon, and about ten days ago William, who was on the faculty of Toronto University joined a cycle corps. A week ago Neil, who was a student at Port Elgin high school, also joined a Toronto cycle corps, and it is understood that in a few days they will be sent overseas. Neil was home on Tuesday for a day.

SAUGEEN COUNCIL

All the members of Saugeen council were present at the meeting on April 1st.

The reeve was instructed to draw $200 from the bank to meet current expenses, and the following accounts were ordered to be paid: F W Elliott, 13 months' salary as clerk and treasurer $52 50, postage $4—$56 50; E R Sayles, printing to date, $13 25; R McIlwrey, 907 ft cedar at $25, $22 68; Miss B Stewart, grant to Burgoyne Patriotic League, $10; council meeting No 3, $12 45.

Mr D Smith was appointed pathmaster instead of D Cameron, resigned.

A communication was read from the Department re organization of Board of Agriculture, and on motion of councillors Webster and Atkinson, Messrs J D Muir and Allan McKinnon were appointed directors to represent the township.

An application was received from the Burgoyne Patriotic League, asking for financial aid. On motion of councillors Atkinson and Webster $10 was granted.

The clerk was instructed to advertise for tenders to operate the grader.

After discussing and arranging for a banquet for the recruits from Saugeen Tp, the council adjourned to meet on May 29th as a court of revision and for general business.

F W ELLIOTT, Clerk.

PRESENTATIONS TO ELORA ROAD NORTH SOLDIERS

Bugler Chris Maloney was the guest of honor at a party held at the home of Mr and Mrs Sam Rae on Friday night last. Chris was not able to be present until after the late train had brought him up from Walkerton, where he is in training, but when he did arrive he was accorded a hearty welcome by the friends assembled. Mr M Sparrow was master of ceremonies. An address was read to the bugler by Edna Sparrow, while the presentation of a purse of money and a fountain pen was made by Emily Bannerman. After Chris had gracefully responded to the address a lunch was served, and several hours spent in games and dancing.

THE ADDRESS:

TO CHRIS MALONEY:

We, your friends and neighbors, have invited you here this evening so that we may spend a few social hours together. We feel deep regret at losing you from our midst. You will be much missed by us all, because of your cheerful disposition. Yet we hope and pray that the Mighty Hand who guides our way, when the war is over and the victory won, may result you to return in perfect health. We shall think of you at many times.

We desire to express our appreciation of your loyalty and courage in enlisting for overseas service. As a slight token of our esteem and good wishes for you we ask you to accept this fountain pen and purse, and may the time soon come when you may be permitted to again mingle with us in peace and prosperity.

Signed on behalf of your companions and neighbors,

STEWART MCNEILL,
GARNET CAMPBELL,
DUNCAN MCNEILL,
JOHN RAE.

On Monday night another presentation took place at the home of Mr and Mrs Wm Beach, when Pte Jas Miller was given a wrist watch and a signet ring, accompanied by the following address read by D D Campbell, the presentation being made by Katie Campbell:

TO PTE JAS MILLER:

James, for by that name we like to hail you, we have learned that you have enlisted with the 160th Bruce Battalion to help end the Kaiser's dream: to do and dare to do for your country and King the hard part that falls to the lot of a soldier, and we believe that you will be faithful to your comrades, true to your friends, and just to your foes, and thereby work out true courage and bravery, which is as much the duty of a true soldier as that of any duty in walk of life.

We are proud of you, James. You have grown up among us, and we have known you from childhood, and we hope that in the new character you have assumed you may continue in the pathway which leads upwards to noble thoughts, deeds and actions.

We have gathered here to-night, and have asked you to be with us that we may give you a token. Therefore accept from us, your neighbors, this wrist watch and ring, not for their value, but that you may have by you that which will remind you of those among whom you have spent many a happy evening, often to our enjoyment, and we hope to your up-building.

And we pray to see you safe home again, for you are dear to all of us.

Signed on behalf of your friends and acquaintances,

CASH IRWIN,
NEIL MCARTHUR,
FRANK PEARCE,
JOHNSON BANNERMAN.

Roger Darroch was chosen as chairman for the occasion, and quite a lengthy programme was gone through—songs by Flossie Beach, Alma Fraser, Neil McArthur and John Rae; recitations by Edna Sparrow and Arch L McKinnon; instrumental music by Frank Pearce, Ptes Miller and J Rolston; short speeches by Wm Beach and D D Campbell, after which lunch was served. Then the company were entertained at games and dancing.

ELDERSLIE COUNCIL

Gillies Hill, April 3rd, 1916

Council met on above date, members all present except Mr Lewis. Minutes of last meeting read and adopted.

Mr David Walks, assessor, having completed the assessment of the township, deposited the roll with the clerk. Assessment of taxable property for current year is $1,907,923.

Fraser—Allen—That the reeve have charge of 30 sideroad and all boundary lines, Fraser and Thomson and Allen 15 sideroad and all roads east, Lewis and Fraser all roads west of 15 sideroad, the sum of $200 to be apportioned to each division.—Carried.

Thomson—Allen—That we grant the sum of $50 to the Red Cross, this amount being saved by having no election, 1916.—Carried.

Thomson—Allen—That this council give a present to each soldier enlisted from Elderslie in the 160th Battalion, value and nature of the present to be left in the hands of the following committee: Reeve Cass, S M Ewart, Councillor Fraser and R C Pearce, presentation to take place at township hall on the evening of Good Friday, April 21st.—Carried.

Fraser—Allen—That Mr John T Richardson be appointed sanitary inspector at a salary while on duty of $2 per day and 10c per mile one way.—Carried.

Fraser—Thomson—That the following accounts be paid, and that orders be issued on treas for same.—Carried.

The Municipal World, subscription 7 copies, $5 75; David Ruthven, filling washout, lot 17, con 8, $1; Wm Reader, repairing culvert with gravel, 25 sideroad, 50c, David Walks, salary as assessor, $75; John Bowie, repairing washout, 15 sideroad, $3 75.

Allen—Thompson—That this council do now adjourn to meet again the first Monday in May at 1 o'clock p m for general business.—Carried.

R C PEARCE, Clerk

WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 109 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 138 pounds. I do all the housework and washing for eleven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all women suffering as I was to try your valuable remedy." — Mrs. WM. GREEN, 332 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

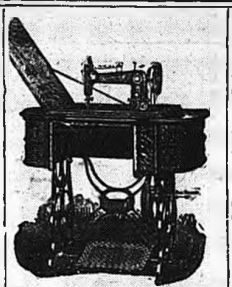
SPRING TERM

— AT THE —

Northern Business College

Opens on Monday, April 3rd

Students are admitted at any time. Young women should begin making preparation at once to fill the places of the office men who have enlisted. Write for particulars and circular.



C. A. FLEMING, Pres. — O. D. FLEMING, Sec'y.

Farm for Sale

LOT 19, con E, Elderslie—98 acres. 1 acres bush, seasoned house, bank barn, and orchard. Fall plowing and 3½ acres of fall wheat. Watered by spring creek and wells. School on lot. 2 miles from Chesley and 8½ from Paisley. For particulars apply to DAVID CHERRIE, R R No 2, Chesley.

No Argument

"How are you to-day, John?" said a landlord to one of his tenants, whom he had met in the street. "Vera weel, sir, vera weel," answered John, in his usual way. "If it wiena for the rheumatics in my right leg." "Ah, well, John, be thankful, for there is no mistake you are getting old like the rest of us, and old age does not come alone." "Auld age, sir!" replied John. "I wonder hear ye. Auld age has nae thing to dae wi't. Here's my ither leg jist as auld, and it's sound and supple yet."

We operate the Heintzman, Haynes, New Williams, White, Singer and Standard—all the very latest models. Ball Pianos and Organs. Edison Phonographs and Records.

Production and Thrift

"CANADA from her abundance can help supply the Empire's needs, and this must be a convincing thought for those upon whom the heavy burden of directing the Empire's affairs has been laid. Gain or no gain the course before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle. Stress and strain may yet be in store for us all before this tragic conflict is over, but not one of us doubts the issue, and Canadians will do their duty in the highest sense of that great word."—*HON. MARTIN BURRELL, Minister of Agriculture.*

"MODERN war is made by resources, by money, by foodstuffs, as well as by men and by munitions. While war is our first business, it is the imperative duty of every man in Canada to produce all that he can, to work doubly hard while our soldiers are in the trenches, in order that the resources of the country may not only be conserved, but increased, for the great struggle that lies before us. *'Work and Save'* is a good motto for War-time."—*SIR THOMAS WHITE, Minister of Finance.*

THE CALL OF EMPIRE COMES AGAIN IN 1916

TO CANADIAN FARMERS, DAIRYMEN, FRUIT GROWERS, GARDENERS

WHAT IS NEEDED? THESE IN PARTICULAR—

WHEAT, OATS, HAY,
BEEF, PORK, BACON,
CHEESE, EGGS, BUTTER, POULTRY,

CANNED FRUITS, FRUIT JAMS,
SUGAR, HONEY, WOOL, FLAX FIBRE,
BEANS, PEAS, DRIED VEGETABLES

We must feed ourselves, feed our soldiers, and help feed the Allies. The need is greater in 1916 than it was in 1915. The difficulties are greater, the task is heavier, the need is more urgent, the call to patriotism is louder—therefore be thrifty and produce to the limit.

"THE AGRICULTURAL WAR BOOK FOR 1916" is now in the press. To be had from The Publications Branch, Department of Agriculture, Ottawa.

—Mr Spofford, the new merchant who bought out the Putnam business, has been joined by Mrs Spofford, and they will occupy apartments above the store.

—Someone stole a $30 pig from the hog pen on the premises of Mr. Adam Geddes at Blalence, and evidently got safely away with the pork, as no clue has yet been found.

—Special Easter services will be held on Easterday in the Church of the Ascension, when the church will be suitably decorated with flowers. Everybody welcome.

—Mr. A. E. Archer has gone back to the land again for this year. He will work a farm near Southampton, and left for there on Tuesday, accompanied by Mrs Archer.

—The annual meeting of the Women's Institute for election of officers and other business takes place on May 4th, in Putnam's hall. It is desirable that all members shall attend.

—Mr. Geo. A. McLelland, who left Paisley for the west seven years ago, was calling on his Paisley friends for a couple of days last week. George was teaching in the west, but lately was out with a survey party. After making a visit to his father at Ethel he intends going to Ottawa to enlist with the corps of engineers.

Soldier Injured

Pte Roy Hempenstall had the ligaments in his leg badly sprained while wrestling with a comrade on Tuesday, and will consequently be out of training for some time.

Enlisted in A. M. C.

Fred C. Schnittker, of 4th Bruce, has signed up to serve the Empire as a member of the Army Medical Corps. He begins his preliminary training with the 161th here at Tiverton.

Our Latest Recruit

Wm Cuninghame, for years the farmers' and travellers' friend at the Belmoral hotel, has had some militia experience. Last week he signed up with the 160th, and will try out the real thing in training for war.

Presentation to Eldersile Soldiers

A social evening with a good program and luncheon has been arranged for Good Friday at 8 p. m., in the Township Hall, Gillies Hill. Presentations will be made to the soldiers who have enlisted from the municipality. Everyone heartily welcome and it is hoped there will be a large turnout to honor our boys in khaki. Ladies will greatly assist by bringing light refreshments for the luncheon. James E. Cass, Reeve.

CARD OF THANKS

The widow and family relatives of the late James A Rowley desire to express their appreciation of the great kindness shown by neighbors and friends to the family of deceased during his illness and since his death, also for sympathy and condolence extended.

Municipality of the Village of Paisley

L. C. SPOFFORD

Putnam's Old Stand :: Paisley

To be Transferred

Medical Officer Vietch made his examination of all the men in the 160th Battalion last week, and two of the Paisley recruits were found deficient for overseas service, but can be transferred to other branches. Wilbert McLeod will go into the Army Medical Corps, and Frank Watson on home defence duty. Chris Maloney is too short in stature for the Bruce Battalion, but is eligible for the Bantams of Toronto.

I. Stanley Again Landlord

The Central Hotel is again under the management of the former landlord, Mr. I. Stanley, who assumed control on Monday last. Mr. Stanley was popular as a hotel man in Paisley for quite a number of years, and through his enterprise the Central was very much improved. Mr. W. J. Mills, who has been tenant for four years, will, we understand, take a position with a Mount Forest firm who make carbonated drinks.

A Recruiting Incident

Capt. Durard and his detachment here were on a recruiting expedition in this vicinity all last week, and when they visited a farmer's house near Marmion to canvas the boys they were informed that the boys were in the barn. A careful search of the place was made, but nobody could be found until one of the soldiers decided to search the mow and there underneath the straw were the two young men in bidding. It is needless to say that no recruits were got at that place.—Tara Leader

EASTER SUITS

Plenty of people have yet to buy suits. They have lost nothing, either—not a thing. Suits have been going out in a regular procession, but we have been replenishing stocks right along.

Just as much here at this minute as at the season's beginning.

Call—choose the cloth—learn the price—leave the rest to us.

Mr. Jacob of Simla

MODERN WONDER-WORKER.

It is not generally known that the late Marion Crawford, in his remarkable novel, "Mr. Isaacs," took as his hero a living person; but such was indeed the case. "Mr. Isaacs" was none other than Mr. Jacob of Simla, who was famous throughout India for his extraordinary powers and fascinating personality.

During his travels in India the novelist met Mr. Jacob, and became intimately acquainted with him, and was so deeply impressed with his wonderful personality that when he returned to England he wrote a book about him. This book laid the foundation of Marion Crawford's literary reputation. It sold well, because it dealt with a comparatively unknown phase of Eastern life and character. Everybody of any note in India knew Mr. Jacob, and his bungalow at Simla became the rendezvous of many distinguished personages, as every Anglo-Indian of position who visited the social capital of the country made it his business to call upon the famous wonder-worker. As soon return from India and say you have not seen the Taj Mahal as come home and confess you had not met Mr. Jacob of Simla. In addition to being the hero of Marion Crawford's novel, Mr. Jacob figures as Lurgan Sahib in Rudyard Kipling's "Kim." Altogether, he has inspired no fewer than six books.

Mr. Jacob is a human mystery, and was, in the zenith of his power, the wonder of India. No one has been able to solve the amazing riddle of his personality or give a satisfactory explanation of the remarkable things he has done. It was generally supposed that he was a high-caste Brahmin; but in reality he was a Turk by birth. Long residence in India had given him the appearance and nature of a native. A yogbi by religious persuasion, and an "Adept" by profession, he presented as interesting a subject for study as it would be possible to find in any part of the world.

Born in Constantinople in the humblest circumstances, his boyhood was passed in abject poverty. Later he became the servant of a rich pasha, who took an interest in him, and encouraged his inordinate love of study by giving him all the books he desired and every facility for obtaining knowledge. At this time he acquired a deep acquaintance with Oriental lore which was later to make him a leading figure in Anglo-Indian society at Simla. On the death of his master he decided to make the pilgrimage to Mecca, being deeply read in the rites of Mohammedanism, able to recite the Koran from beginning to end, and conversant with all the practices of the Moslem religion. He reached his destination safely, and later, after many hardships, found himself in Bombay without money, and nothing but his knowledge of Eastern languages to help him. This was sufficient, however, to obtain him employment at the Court of the Nizam of Hyderabad, where he remained for some time; and, having saved money, he moved to Delhi, where he started business as a dealer in precious stones. In a few years Jacob amassed a small fortune; and then, extending his business, he established himself at Simla, where he rose to be the first dealer in the famous mart, and was patronized by all the elite of Anglo-Indian society, who purchased his goods and visited him at his house. He was lavish with his hospitality and munificent in his generosity. His rooms were furnished in the most gorgeous Oriental style, and full of priceless ornaments and jewels. Not only was he extremely rich, but there was something very attractive about the man which drew everybody who was anybody to his doors. Viceroys, governors, the leading members of the civil and military services, and society generally, flocked to see him. He soon became known as one who could perform "miracles," and everybody wanted to see his "tricks" (as they were termed), and try to find out how they were done. All Simla was startled and mystified by his extraordinary performances; and though many considered them vulgar impositions, they were bound to admit that what they saw was quite impossible of explanation.

A record of many of Mr. Jacob's "Magical" feats has been kept. One of the most remarkable is related in "The Autobiography of a Magician," and was personally witnessed by the author, who vouches for the absolute veracity and accuracy of his account. This gentleman was invited to a dinner-party at Mr. Jacob's bungalow, which was situated about two miles from his quarters, and he and a well-known General drove there together. Several other military officers were also guests. After dinner, when they were smoking, General B. asked Mr. Jacob to show them some of his tricks. Their host did not appear to like the word "trick," but simply said, "Yes, I'll show you a trick!" and, turning to a servant, told him to bring in the sahib's walking-sticks. Selecting a thick grape-vine stick with a silver band round the handle, he asked, "Whose is this?" The General replied that it was his; whereupon a glass bowl, similar to those in which goldfish are kept was placed on the table, some water poured in, and Mr. Jacob held the stick upright on its end for a few moments. After a time they saw numbers of shoots like rootlets issuing from the handle till they filled the bowl and held the stick steady, Jacob standing over it, muttering all the time. A continuous crackling sound was then heard, and young twigs began to appear from the upper part of the stick. These grew rapidly, became covered with leaves, and flowered before their eyes. Then the flowers changed to small bunches of grapes, and in ten minutes from the beginning a fine vine laden with bunches of ripe black Hamburgs stood before them. A servant carried it round, and they helped themselves. The fruit was declared to be excellent. In case the whole affair might be due to hypnotic delusion, the writer placed half of his bunch in his pocket to see if the grapes would still be there after he left Mr. Jacob's house.

The vine was replaced on the table, and covered with a sheet, and in a few minutes was changed back into the General's stick. Many other interesting feats were performed, and the company were filled with amazement; then, as they were about to depart, Mr. Jacob requested a few words privately with the writer before he left. They went out on to the veranda and conversed on occult subjects for a few minutes. Mr. Jacob then offered to cause him to undergo a special experience which would give him something to think about. His guest replied that that was just what he would like. So Mr. Jacob said, "Shut your eyes and imagine that you are back in your bedroom in your bungalow." He did so; and after a few seconds Jacob called out, "Now open your eyes!" He opened his eyes, and found that he was really in his bedroom—two miles in a few seconds! Jacob then told him to shut his eyes again, and they would rejoin their friends; but this he firmly refused to do, as he thought it might all be hypnotic delusion, and he wanted to see how Jacob would get out of the difficulty. However, the magician simply laughed good-naturedly, and said, "Well, since you won't come, I must go alone; so good-bye;" and in an instant he had vanished, and the subject of this marvellous feat was left alone. Looking at his watch, as he had done at the commencement of the experiment, he found that the whole affair had not lasted two minutes. He then walked straight out of his bedroom into the dining-room, where he found two of his friends, who were astonished at seeing him, and wanted to know how he had managed to get into his room without their seeing him pass. He then sat down and told them all about it. One of them (Dr. S.) asked to see the grapes. Accordingly he felt in his pocket, and there they were sure enough, so he passed them to him. The doctor turned them over suspiciously, smelt them, and finally tasted one. "They are the real thing, my boy; genuine black English Hamburgs," he said, and proceeded to devour the lot. "But where's the tat?" exclaimed his other friend. The writer replied that he had forgotten all about it, but supposed he had better send for it. Calling a servant, he told him to go to the stables and send a syce up to Sahib Jacob's bungalow for the tat. In a few minutes the bearer returned and said that the tat was at that moment safe in his own stable. They stared at one another in amazement, then went out to see for themselves. Sure enough, it was there. So the horse and cart were also levitated!

Mr. Frederick Heath, a writer of some distinction, who was well acquainted with Mr. Jacob, relates the following.

One evening Jacob had made arrangements to hold a seance at his house in Simla. He had invited six friends to dinner, and Jacob and his guests were all seated at table, when suddenly Jacob vanished. Behind his chair stood his khtmagar, as surprised as the guests at Jacob's disappearance. Only a second before he had been plainly visible to them all, and had been talking to them, yet he had vanished through closed doors. Hardly had the guests recovered from their surprise when Jacob was once more in his seat at the table. When questioned, Jacob merely said that his "Master," Ram Lal, had sent for him in order to tell him that the seance could not take place that evening. The mysterious Ram Lal, by the way, is also brought into Marion Crawford's novel. Jacob refused to give any explanation of either his disappearance or the postponement of the seance; but later he gave Mr. Heath the reason for the sudden postponement of the seance, though the way in which he was able to leave and return to the table in such a remarkable manner is still a mystery.

The seance was postponed by order of Ram Lal, who by some inexplicable means had discovered that one of the guests was not in good health; and as all those who attended Mr. Jacob's seances had to be in good health, otherwise a seance could not be successful, Ram Lal thought it his duty to warn Jacob in time.

On another occasion a seance was held at which six of the stoutest sceptics in Simla attended. They were all army officers, and each had seen active service in India. Mr. Jacob had put up with the ridicule of these men for a long time, and he was determined to show them that there was something in his powers besides vulgar pretension. He asked one of the officers to give him an account of any battle in which he had taken part. The officer did as requested, and Jacob then said, "Look at the wall and you will see the battle again." All turned their eyes to the spot indicated, and there they saw a living, moving representation of the battle, not unlike a bioscope film. Everything was vividly depicted to the smallest detail; and there, leading a charge, was the face and form of the man who had just related the incident, looking as real as life. The officers were astounded, and evidently believed that their eyes had been bewitched. Another officer mentioned an affair he had been engaged in, but omitted to say anything about his own actions in the battle, where he had distinguished himself by great bravery. His heroism was, however, shown in the picture which followed, and it was known to be quite correct, though Jacob himself was unaware of the part the officer had played in the fight. The officers confessed that they were completely mystified, and became convinced of the genuineness of Jacob's uncanny powers from that evening.

One of this wonder-worker's most extraordinary feats was walking on the water. There was a wide, deep pond in his grounds, on the surface of which Jacob often walked. Crowds of people came to see him do it, and try to discover how the "trick" was performed; but they were completely baffled, and were obliged to admit in the end that Jacob possessed powers undreamt of in their philosophy.

Other things no less wonderful he is alleged to have done, but they are too numerous to be related here. Gradually he built up a reputation that remains with him to-day. All India knew something of his powers. He was one of the most-talked-of men in that country; but eventually his powers failed him, he lost his wealth, and sank into poverty and obscurity, and to-day he is a broken-down old man, friendless and disappointed, eking out a precarious existence in Bombay, with nothing but memories of a brilliant past to lighten the darkness and dreariness of his life's evening.—Reginald Span in Chambers's Journal.

You must work; nothing is to be got for nothing; and no man who chooses to be industrious need be under obligations to another, for labor on every hand commands its reward.

When potatoes are boiled, it is a convenience to boil enough for two or three meals; then they can be served, creamed or lyonnaise, German fried or as potatoes au gratin.

"Now, the boy I want in this office must be honest, bright, clean and healthy. Have you perspicacity?" "Oh, no, sir; I never had anything but whooping-cough and the mumps."

Some people are hard to make friends with, and we discover when it is too late that they have really been wanting to be friendly all the time that they appeared to be avoiding our society.

JAMAICAN ON LEAVE IN LONDON.

The photograph shows a group of soldiers passing the Horse Guards in London. The native Jamaican in the centre wears a fancy uniform.

EULOGY FOR FRENCH SOLDIER.

They Show An Absolute Lack of Fear in Face of Death.

In the late issue of the Paris Journal Mr. Charles Humbert has written an eulogy of the French soldier, the type of man upon whom the whole world is looking with admiration these days, and whose bravery has won unbridled recognition from his own adversaries on the battlefield.

"With what feeling of emotion," says the writer, "have I not met and greeted these magnificent heroes down there among the trenches. Whether they were on their way to the firing line, or were just returning from it, their manly bearing expressed nothing but confidence, coolness and an absolute lack of fear in the face of death. They sang and they joked.

"Hardiness, indifference, fatalism, you may suggest? Not at all, I insist. When the time for going into action arrives, when they are getting ready to bound out of their trenches into an inferno of shell fire these same men embrace and say a touching farewell to one another, pressing to their hearts the precious cherished souvenirs they have received from a loving wife or a darling child. These heroes are men of fine feelings and affection, but duty calls. Their country is summoning them. They steel themselves and suppress their tender emotions. Proudly, without ostentation, they go off to battle, to sacrifice, to glory.

"I have met some German prisoners also, dejected and miserable soldiers, pitiful to look at, and stiff, obstinate officers with a haughty mein. Along side of them I have seen our own soldiers, happy, natural, concealing their fatigue and anxiety not to let anybody notice but their loyable and noble traits. I then could easily understand the difference between the two races, one a docile instrument of the insane arrogance of a tyrannical caste, the other a logical champion of every lofty cause. I also recognized why the French soldier of to-day is greater than ever. It is because his task is much harder and the cause he is fighting for more sublime."

PAID MORE FOR LESS LIQUOR.

British Bill for 1915 Exceeded 1914's—Consumption Reduced.

In an annual estimate of the national drink bill the secretary of the United Kingdom Alliance estimates that during the year 1915 the total consumption of intoxicating liquors in the United Kingdom, measured in terms of pure alcohol, was 92 per cent. of the quantity consumed in 1914 and 39 per cent. of the figure for 1913. The actual expenditure of the nation in 1915 on intoxicating liquors shows an increase of 10¼ per cent over the figures for 1914 and 9 per cent. over those of 1913.

The amount expended on alcoholic liquors in 1915 was £181,950,000 ($909,750,000), as compared with £161,467,000 ($807,335,000) in 1914, being an increase of £17,483,000 ($87,486,000).

The total consumption of pure alcohol was 751 million gallons, as against 85 million gallons in 1914 and of this quantity 72¼ per cent. was taken in the form of beer, 25½ per cent. as spirits, and 2 per cent. as wine.

THE THREE LONDONS.

Cities of Roman and Britain Buried Under the Metropolis.

Roman London lies buried about 18 feet below the level of Cheapside. In nearly all parts of the city there have been discovered tessellated pavements. Roman tombs, lamps, vases, sandals, keys, ornaments, weapons, coins and statues of the Roman gods.

When, a little over a century ago, deep sections were made for the sewers in Lombard street, the lowest stratum was found to consist of tessellated pavements. Many colored dice were found lying scattered about, and above this stratum was a thick layer of wood ashes, suggesting the debris of charred wooden buildings.

While building the exchange workmen came upon a gravel pit full of oyster shells, bones of cattle, old sandals and shattered pottery. Two pavements were dug up under the French church in Threadneedle street, and other pavements have been cut through in several parts of the city. The soil seems to have risen over Roman London at nearly a foot a century. Still further must the searcher dig to find the third London, the earliest London of the Britons.

Crown Life

INSURANCE CO.?

WARSHIP'S WIRELESS ROOM.

It Is Quite Different to That of a Dozen Years Ago.

A chaplain of the Grand Fleet writes that the wireless room is one of the most sacredly secret places in a battleship.

"If you come on board to pay us a visit, when peace breaks out, and we can once more have the pleasure of seeing what ordinary people look like—no, I don't mean 'ordinary' people—we will show you the inside of the turrets and take you down into the engine-room, and anywhere else you please; but we shall diplomatically forget to mention the existence of the wireless room; and if by chance you find yourself outside its hallowed portal, we shall point out to you a notice board hanging thereon, which forbids even the officers of the ship to enter unless required to do so by their duty.

"Without divulging any of its arcane mysteries, I may go so far as to say that it is very different in its general economy from the wireless room of a dozen years ago. At that period the whole of the apparatus was contained in a couple of small boxes which stood on a desk in an otherwise empty office; the messages were automatically printed in Morse code by a tape machine which always worked slowly and frequently failed to work at all, being powerless to respond to the more delicate vibrations. At the present time, however, the room is packed full with machinery and complicated instruments."

THE FRIENDLY ENEMY.

Here Is a Very Touching Incident From the Trenches.

A British soldier, Corporal Holmes, writing from the trenches to his wife in England, describes a very touching incident:

We were attending to some of our wounded men when we came across a German who was giving first aid to one of our soldiers. You can imagine we were surprised. We put the wounded man on our stretcher, and the German helped us and came with us to the hospital. On arriving, he asked the doctor whether the "Tommy" was all right, and when the doctor told him that he would get well, he said he was very glad.

One of our officers asked the German why he took such an interest in one of his enemies. To that the German replied, "He may be an enemy of my country, but he is my friend. He and I worked together in London for more than fourteen years, and many happy hours we have spent together. I hope that when this war is over he will not forget that we are still friends."

CAPTURED NURSES COME HOME.

Terrible Work Which Austrians Allowed Them To Do.

Eight British nurses of the Scottish Women's Hospitals, have arrived in London from Kragujevats, where, as prisoners of war in the hands of the Austrians, they have been nursing.

Dr. Inglis told the London Daily Sketch that on the whole they were treated fairly well, but the wounded Serbians were left in a cruel and callous plight.

"Time and again," said Dr. Inglis, "we appealed to the Austrians for dressings, medicine, blankets, but they always said they were short, whereas they had the enormous supply which they had captured.

"The sanitation was so appalling that we decided to disinfect everything. It was a fearful task, for there were cesspools, old dressings, and amputated limbs to be cleared.

"It was perhaps the most horrible work decent women have ever been called upon to do."

NICE FACES BANKRUPTCY.

War Brings Maimed Soldiers, Not Spendthrifts, to the Riviera.

Bankruptcy is staring Nice in the face, according to the Figaro. The Mayor has called an emergency meeting of the Town Council to consider what further measures can be taken to keep the wolf from the door.

Nice is the land of sunshine and smiles, but the world has other things to think about just now than to bask in the sun. Generously the town has thrown open its doors to the sick and wounded, whose gratitude is great, but whose purse is slender.

Fun and frolic, giddy gayety and splashing spendthrifts are essential if the wheels of Nice are to run smoothly, and since the war started Nice knows none of these. The Casino is closed, and the "rien ne va plus" of the gaming rooms has become a hideous reality.

THE CROWN PRINCE IS BEING BLAMED

FAILURE AT VERDUN LAID ON HIS SHOULDERS.

The Emperor, Von Deimling and Von Haeseler Are Also Criticized.

It is regarded as an ominous fact in connection with the battle of Verdun that the German army and the German people already are beginning to place responsibility for its undertaking. This much is distinctly stated by prisoners in the hands of the French, and is being more and more openly shown in the German newspapers.

On the shoulders of the Crown Prince is being laid the chief burden. The others who with him are regarded as sharing the responsibility have now been narrowed down to three. One of these is the Kaiser, and the others are General Count Gottlieb Von Haeseler and General Berthold Von Deimling.

Most significant of all is the fact that the Germans are hinting that the presence of Emperor William at a great military undertaking has heretofore not been fraught with happy consequences.

The history of the Verdun enterprise is now regarded as clearly defined by the Paris newspapers. It was preceded by two councils of war.

When it was first decided by the Kaiser and some of his closest advisers that an attack on Verdun, undertaken by methods which had proved successful in Russia and in Serbia, would be successful, the co-operation of Field Marshals Von Hindenburg and Von Mackensen was sought.

Berlin War Council.

For this purpose they were summoned to Berlin, where they were met by the Kaiser, the Crown Princes of Germany, Bavaria and Wuerttemberg, and Generals Von Haeseler and Von Deimling. When the matter was laid before them, both the great German leaders, who had proved their worth in the eastern field of the war, opposed a grand assault on the French stronghold, and explained the radical difference between conditions on that front and those which had made success possible in other regions.

As both field marshals had already objected to taking part in the operations in France and Flanders unless they had an entirely free hand and complete liberty from interference on the part of the Crown Prince, it is believed their advice did not make a due impression on the Kaiser and his eldest son. They returned to Verdun to study the situation once more.

There a new council was held, at which the chiefs of the Imperial family and Generals Von Haeseler and Von Deimling took part. The decision which they reached was that the capture of Verdun was feasible and that for many reasons it was imperative.

Deceived by Try-out.

When all was ready, at the beginning of the fourth week of February, it was decided to start without any flourish of trumpets, as a try-out, it was thought, would show whether there was a prospect of certainty in the success of the venture, and, if any failure should occur, the attack, not having been extravagantly advertised, would not leave any unpleasant impression on the German nation. The first four days during which the French, following their great line of tactics which had been manifested from the beginning of the war, presented a resilient front to the shock of the solid German body and, yielding a measure of ground for the purpose of their method of warfare, were regarded by the Germans as promising an overwhelming success for their massed phalanx attack. In this belief the Kaiser's lack of judgment on military matters was again disastrous for the Germans.

Vaseline rubbed on the scuffed parts of shoes before they are polished, will make the scratches invisible and prevent the surface from becoming more scratched.

To save the top of stockings from being worn by suspender clasps, sew a piece of tape on the stocking where the clasps come, and sew small tape loops on the pieces; then fasten the suspenders through the loops.

About the House

Useful Hints and General Information for the Busy Housewife

Springtime Salads.

Spanish Salad.—Bananas, ½ cup walnuts, lettuce, mayonnaise. Cut the bananas into thin slices, enough to fill one cup; chop the walnuts and mix both together. Select the white leaves of lettuce and arrange on plate with the fruit mixture in the middle. Season the mayonnaise with a good dust of cayenne pepper and put on the salad when ready to serve.

Fruit Salads.—Dissolve 1¼ heaping tablespoonsful of gelatine and 1 cup of granulated sugar in 1 pint of boiling water; when it is completely dissolve add ½ cup of seeded raisins, 1 banana, 1 cup of grapes, 3 figs and ½ cup of blanched almonds, all chopped in small pieces. When cool, pour into molds wet with cold water and set on ice to stiffen. When ready to serve arrange the lettuce on the plates and turn out the jelly on the centre and put either mayonnaise or whipped cream round.

Cranberry Jelly Salad.—Make a stiff cranberry jelly, using the usual recipe, and when cool, but not yet beginning to set, add a very liberal supply of chopped and blanched nuts, principally walnuts. Mold in a flat dish and when set cut into fancy shapes and arrange on leaves of endives or very white lettuce. Serve with French dressing.

Frozen Vegetable Salad Jelly.—Wash and peel 3 tomatoes, 1 cucumber and 1 small onion; add 1 pimento and 1 green pepper and run all together through the mincer, using the coarse blade. Add ½ pint of cold water, 3 tablespoonsful of vinegar, 1 tablespoonsful of lemon juice and 1 of chili sauce. Dissolve 2 teaspoonsful of gelatine over the fire, and when cool add the vegetables. Pour into a mold, pack in ice and freeze. Chop up roughly and pile on individual helpings of lettuce.

Rice and Nut Salad.—Wash and boil a cupful of rice in the usual way. When quite cooked drain and dry and add a grated onion. Then, while the rice is still hot, pour over it two cupsful of French dressing. Bone a boxful of sardines and shred the fish finely, adding one cupful of nuts, chopped small. Arrange some crisp, fresh leaves of lettuce on the plates and lay a bed of rice in the centre. With the back of a tablespoon press down the rice so as to leave a hollow, which is filled with the sardines and nuts. Sprinkle French dressing over the top and serve either while the rice is still hot or else thoroughly chilled.

Japanese Salad.—One cupful rice, lettuce, hard-boiled eggs, pickled beets, stuffed olives, oil dressing. Boil the rice until quite tender and then leave to get quite cold. Pile roughly in the centre of the dish and arrange a border of the lettuce, choosing that which is of fresh, tender green. Slice the hard-boiled eggs and put in circles round the pyramid of rice, alternating with circles of the beets and stuffed olives. Season the oil dressing very highly and pour over.

Russian Salad.—Cooked fish, anchovies, sardines, hard-boiled egg, gherkins, capers, cold potatoes, lettuce, mayonnaise dressing. Arrange the lettuce in the bowl, flake the fish (which should preferably be white) and pile it up in the center. Cut the anchovies and sardines into strips, chop the hard-boiled egg and gherkins and decorate the centre mound of fish, adding a few capers. Cut the potatoes into regular shaped dice and put in a ring round the fish mound; cover all with a thick mayonnaise. Garnish with capers and a few pieces of the chopped gherkins.

Aspic Salad.—Put in a saucepan one and one-half cups of water, one tablespoonful of chopped carrot, one tablespoonful of chopped celery, a slice of onion, a sprig of parsley and three cloves. Dissolve one tablespoonful of beef extract in a half pint of boiling water and add to the rest. Cover tightly and leave simmering for one-half hour. Soak one-half box of gelatine in cold water for at least an hour and strain in the hot liquid. Put back in the saucepan and stir over the fire until the gelatine is dissolved, season with pepper and salt. When just cool take half of the jelly and stir in three tablespoonfuls of tomato catsup and onehalf cup of very stiff mayonnaise. Pour this into a mold which has been rinsed in cold water and put aside to set. Take three small tomatoes, an equal quantity of peeled and sliced cucumbers, one-half quantity of sliced cold potatoes and one-half pound of blanched almonds and marinate with oil and vinegar. Turn out the jelly mixture and spread the vegetables on top, decorate with the jelly that was left, plain, having first chopped it roughly with a wet knife.

Useful Hints.

A broken cloth peg makes an excellent window wedge.

A bed-ticking apron with a large pocket across the bottom is the best.

A little ox gall in water will set red, so that it will never fade.

Do not open a wet umbrella to dry it. Wipe it down with an old soft silk handkerchief and leave it to drain in a bath or basin, shut up.

The pantry shelves should be covered with varnished paper such as is used for bath-rooms. It can easily be washed, and is a great advantage.

Chimney soot from a chimney where wood is burned, if put into a pitcher and boiling water poured over it, will make a good drink for house plants.

Date and cheese sandwiches are good. Make them by putting dates and cream cheese through the meat chopper, together; add a little salt and cream.

You will find that a comb will last much longer if (before being used) it is washed in soapy water, and when dry rubbed with a little olive oil.

Every member of a family should air his own bed as soon as he gets out of it by turning sheets, etc., over the back of a chair, and opening the windows.

Brass or copper may be easily cleaned by rubbing with a wet, soapy rag dipped in powdered bath-brick. Polish with a soft cloth or newspaper.

When making oatmeal porridge place the oatmeal in cold water and bring slowly to the boil. This gives a better flavor than when made with boiling water.

It is a good idea to wash dates before using them for any purpose. Put them into a colander and dip them up and down in boiling water two or three times.

To preserve patent leather shoes and boots clean with a rag dipped in milk, then polish with a piece of old velvet. This prevents the leather from cracking.

Cut rounds of wax paper and put under the centrepiece on the polished table. This will prevent the linen adhering to the polished surface as often happens from hot dishes.

In sewing on buttons that will have a great strain on them put a piece of old kid glove under the material to which the button is sewn. The cloth will never tear away if this is done.

Permanganate of potash is excellent for cleansing dirty filters of all impurities. A solution should be passed through the filter until it comes out as pink as when it was poured in.

If a cloth, such as is used for dusting and cleaning is dampened and laid over the registers when the furnace is being shaken the annoyance of dust flying over the room will be obviated.

To extinguish flames from gasolene or petroleum pour milk over them and they will be put out immediately, for the milk forms an emulsion with the oil, and so prevents the fire from spreading.

It is a good idea to tack a piece of white oil-cloth on the wall back of each of the kitchen tables, as otherwise it will soon become discolored and greasy, a result that is almost unavoidable otherwise.

To get dust out of crevices in window sashes, baseboards, etc., when cleaning house try using a paint brush of good size. A hidden store of dirt will reward your efforts, for a cloth cannot reach all the corners.

When two glass tumblers or dishes stick together so that there is danger of breaking in getting them apart, put cold water in the inner one and hold the outer one in warm water, and they will separate at once.

Clothes horses make excellent screens. First paint the top and lower part of the legs with enamel to match the wall paper. Then cover the remaining part with some pretty art muslin or silk, and secure to the horse by dainty ribbons.

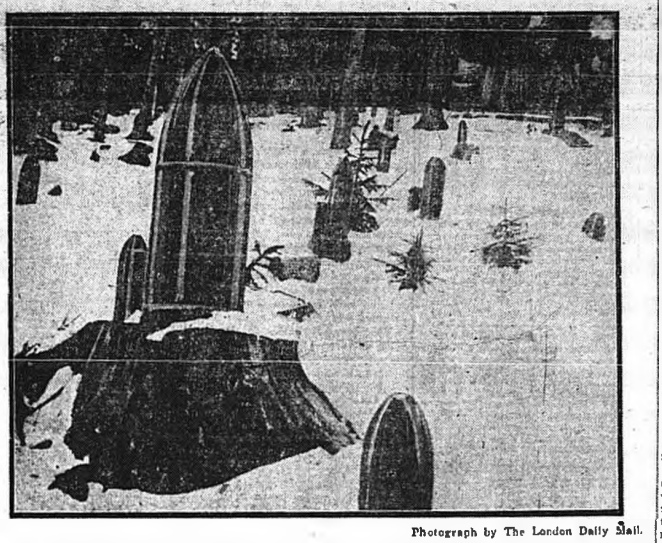
To keep knives clean, fill a flower pot with fine, dry sand, and keep it on the dresser. When putting away knives, instead of laying them in the knife box, plunge the blades into the sand. The sand keeps them clean, and unless used for anything until they will need little cleaning, thus saving both knives and labor.

To get a tight ring off a finger thread a needle with a long end of strong cotton—a short needle is the best to use for this purpose. Pass the eye of the needle under the ring towards the palm of the hand, pull the thread through a few inches, twine the long end of the cotton tightly round the finger up to the nail, then take hold of the short end and unwind it. The thread pressing against the ring will gradually remove it from the finger.

SOME RUSSIAN WORDS.

Most of Them Are Long and Lumbering—Few Monosyllables.

As languages go, I think it may be said that Russian is not so very difficult, says Hamilton Fyfe in the London Daily Mail.



It is quite true that there is more of "the immense pomposity of sesquipedalian verbiage" in this than in most other tongues. Monosyllables are rare.

Small, common words in French and English are long and lumbering in Russian. Man is "chcoviek," bread is "klieb," next (as in next day) is "sliedooyooshtchooyoo." This is not a joke.)

All participles are tremendous. "Being," for instance, is "yahvlinyooshchecyasya." This last word, by the way, illustrates the compendious character of the Russian alphabet. In English it has twenty-one letters; in Russian only ten. "Yah" is represented by one letter, an "R" turned backwards; "shtch" is one letter; "yoo" is one letter.

The only excuse some people have for marrying is that the woman wants a home and the man wants a servant.

AUSTRIAN CEMETERY ON THE ISONZO FRONT.

Photograph by The London Daily Mail.

The picture shows how the Austrians have utilized big shell cases for headstones in one of their cemeteries on the Isonzo front, where heavy fighting has been in progress.

The Fashions

Ribbons As Trimming.

Many a frock, slightly passe has been given a new lease of life by the ribbon fad. If hopelessly worn around the lower edge, a width of ribbon, wide or narrow, according to the need, is added, making the frock more attractive if anything, than when it was in its first youth.

Ribbon Bodices on Evening Gowns.

The entire bodice of many of the dainty net and taffeta frocks for dancing or evening wear, is formed of wide satin, taffeta, or one of the fantastic, beautifully embroidered, or metallic ribbons. To fashion one of these ribbon bodices is simple enough, the ribbon is merely draped about the waist, well over the bust in front and brought down in back to form a V, finishing in a large, softly-tied bow. The transparent material of the frock itself usually veils the ribbon, adding a still softer, more graceful effect.

7021—6773

Ribbon Underbodice and Ruche

The Ribbon Pannier or Farthingale

Many of our skirt draperies, which carry out the demand for the bouffant effect about the hips, constituting the new silhouette, are effected with ribbons. On a most attractive model of dark gray taffeta, with the new Premet collar was a drapery of wide black moire ribbon, pleated over the hips to stand out stiffly, coming down front and back in straight lengths, lapping at the bottom to form a panel. The effect was most attractive, and it was a touch which any woman with clever fingers can apply to almost any frock with equally good results.

Girdles of all widths, and kinds of ribbons, are being made up and sold as accessories to be added to the tub-frock of voile, linen, or other of the summer cottons. For silk and net dresses, there are metallic ribbon-girdles finished with long sash-ends weighted with metallic tassels. Ribbon flowers add a touch of effective contrast, or the one needed bit of color to the somber frock; and narrow satin, taffeta, or picot edged faille ribbon is used to band a cuff, edge a collar, or add just a bit of trimming to a straight, full skirt of a simple summer dress.

How Ribbon Is Used on Hats

It would be quite safe to say, in many instances, that the hat is fashioned of ribbon and trimmed with straw, for such is really the case. Many of the summer hats, both large and small, have the crown and most of the brim fashioned of taffeta, satin, or moire ribbon, edged perhaps with a band or two of hemp, Milan, or angora braid. A particularly pretty hat of Maria Guy's is a wide trimmed black hemp sailor, with crown of wide gray taffeta ribbon crossed and brought down under the brim to form a large loop on each side of the head, framing the face.

Many of the smaller hats have the ribbon crown with high loops of ribbon standing up stiffly about it. Stiff little bows or cockades of ribbons are used to trim the sport hats, which are legion, to accompany the sport suits and dresses. The straight trimmed sailor of some years back is putting in an appearance here and there, as the season advances. This is trimmed usually with a narrow band and bow of moire, grosgrain, or taffe ribbon in the same, or a contrasting tone to the hat. One sees now and then, also a gaily-colored band on a severe little hat, of Roman striped, or wool-embroidered ribbon.

A ribbon-ruche is a pretty feature of the taffeta dance frock illustrated in the first figure of this letter. It is fashioned of transparent metallic ribbon, banded through the center with a strip of the narrow velvet ribbon which trims the skirt. Wide satin ribbon forms the underbodice, and a ribbon rose adds a pretty touch to the completed dress.

Another effective use of wide taffeta

6651

Ribbon Panel and Banding on Net Dress.

ribbon is shown in the second figure; the lower edge of the net skirt is banded with the ribbon and hanging, panel-fashion from the shirred waistline, is a single strip, slightly gathered at the top.

Ribbon is one of the simplest, most easily applied, and most economical of all trimmings. It requires no hemming or finishing, and may be pleated, gathered, twisted, and draped in every imaginable way.

These patterns may be obtained from your local McCall dealer or from The McCall Company, 70 Bond St., Toronto, Ont., Dept. W.

SHIPPING LOSSES DURING THE WAR

OVER 400 BRITISH SHIPS HAVE BEEN SUNK.

France and Britain Have Virtually Made the Losses Good.

Admiral Sir Cyprian Bridge, in a report on merchant shipping losses, gives the following statement of total losses to shipping from the beginning of the war to March 23:

Losses to Belligerents.

Steamers—		Tons.
British	370	1,320,000
French	41	140,000
Belgian	10	30,000
Russian	27	42,000
Italian	21	70,000
Japanese	3	19,000
Sailing vessels		
British	31	19,000
French	12	18,000
Russian	8	7,000
Italian	6	3,000

Trawlers—British, 237; French, 7; Belgian, 2.

Losses to Neutrals.

Steamers—		Tons.
Norway	50	96,000
Denmark	18	33,000
Sweden	33	42,000
Holland	22	74,000
United States	6	16,000
Greece	11	22,000
Spain	4	9,000
Persia	1	760
Portugal	1	625
Sailing vessels—		
Norway	22	20,000
Denmark	10	1,600
Sweden	7	2,000
Holland	2	225
United States	1	170

Trawlers—Denmark, 1; Holland, 7.

Less Than 4 Per cent.

The loss to British steam shipping, says the report, is less than 1 per cent. of the total number of vessels under the British flag, and slightly over six per cent. of their total tonnage.

In further comment, Admiral Bridge details the amount of merchant shipping built in France and Great Britain since the beginning of the war, and shows that the war losses have virtually been made good thereby.

"In 1915," says the report, "after more than a year of the war, the steam shipping of Great Britain increased 88 vessels and 344,000 tons."

Italy and Russia also show an increase, while France is short only 12,500 tons.

Not Due to Subs.

"It is, therefore, clear, says the report, "that the present shortage of tonnage is due, not to the action of submarines, but to the great requirements of the military and naval forces. The latest published statement of these show that they are demanding 3,100 merchant vessels."

I hear their engagement has been broken off through a misunderstanding." "Yes. He understood she had money, and she understood he had money."

From Erin's Green Isle

NEWS BY MAIL FROM IRELAND'S GREEN SHORES.

Happenings in the Emerald Isle of Interest to All True Irishmen.

The salmon fishing at New Ross since the opening of the season has been the worst for many seasons.

John Keegan, Athlone, (when returning from a funeral, suddenly fell and died in a field near his home.

A series of shooting outrages have been committed in the district of Galway. Four farmers' houses were riddled with shots.

The Government has taken over all the six distilleries in Ireland for the purpose of aiding the manufacture of munitions of war.

Owing to the dislocation in the shipping business at Waterford the stock purchased at the Fethard Fair had to be sent to Dublin for shipment.

The will of Ada Rehan, the Irish-American actress, disposes of an estate of more than $125,000 in realty and personal property in excess of $875,000.

At a meeting of the Dublin Port and Docks Board a small committee was appointed to examine into the feasibility of carrying out war munition manufactures for the Government in the Board's workshops.

At the annual ploughing competition in connection with Mullahead (Portadown) Ploughing Association the silver challenge cup presented by the Duke of Manchester for the best ploughman was won by Mr. William Aston.

At a meeting of Athy Urban Council a resolution was adopted viewing with alarm the action of the Board of Education in notifying the managers of National schools that they must have an average attendance of 50 pupils.

During the past season extraordinary prices have been obtained in north of Ireland markets for home-grown flax and at the present time it is one of the most profitable crops that the farmer can turn his attention to.

As the Down Joint Committee of Technical Instruction were convinced that it was impossible to continue six Technical schools the Agricultural Committee has been requested to transfer £2,250 from their accumulated funds.

In connection with the announcement made by the Department of Agriculture stating that certain grants for the primary and secondary schools will be withdrawn, a new circular now issued states that the Treasury consents to the continuance of these grants.

SAILORS REWARDS.

Officers and Men Receive Prize-Money in Proportion to Rating.

In the old days the successful sailor reaped his own reward. He took a large share of the value of the prizes he captured, and on one occasion there was some unpleasantness between Queen Elizabeth and Dartmouth because it was thought she took more than her share.

Spoils were divided in certain proportions, the commander taking the lion's share, though each man received his quota. And very rich were some of these prizes, when it is remembered that great galleons were continually employed carrying gold, precious stones, and valuable merchandise from Spanish colonies to the motherland, such as the rich ship that sailed from Manilla to Acapulco, and was once captured by Anson.

Knighthoods were conferred on successful admirals, and they frequently received a monopoly in some article of merchandise. Blake only received a diamond ring worth £500 and a letter of thanks, but Anson was one of the first to be given a peerage, which he should not have had much difficulty in keeping up, considering his captures.

Hawke received a peerage and a pension of £2,000 a year for his distinguished services; while numerous peers can point to gallant ancestors who won the title. But no sailor has ever received so many rewards as Nelson.

FRENCH UNIFORMS BLUE.

Red Trousers Abandoned and Complete Change Effected.

In the midst of the great war France and succeeding in completely changing the uniforms of the various branches of the army from the bright colors which made soldiers so conspicuous in previous wars to shades that render wearers comparatively inconspicuous, says a Paris despatch.

The question of a change from the bright red trousers to a less brilliant shade was considered before the war, but none was made, partly because the red trousers had come to be associated with the military story of the French army. The red trousers actually came into the army during the reign of Charels X. in 1830, the uniform of Napoleon soldiers and the soldiers of France for two centuries before him being blue.

The losses before the battle of the Marne convinced the military authorities that a change must be made. Experiments showed that a pale sky blue shade made the soldiers inconspicuous and also were for a surprisingly long time.

The troops of North Africa, whose summer uniforms were of khaki, retained them, as did chasseurs-a-pied their old dark blue uniforms, but the bulk of the armies adopted the new and life-saving sky blue uniforms.

The Paisley Advocate

PAISLEY, APRIL 19th, 1916

LOCAL AND DISTRICT NEWS

—Witnesses in Ontario courts will no longer be obliged to kiss the dirty old copy of the Bible when they take the oath. An amendment to the Evidence Act has been passed by the Legislature, which provides that a witness shall be sworn by administering the oath while he has a copy of the Old or New Testament in his hand.

—The enactment of total prohibition in Ontario would be an empty victory, indeed, if the Legislature assents to the clause permitting beer testing over four per cent alcohol to be sold everywhere. At present only liquor that shows 2½ per cent or less is allowed to be sold without license. The proposal to raise the percentage means that the liquor men are busy endeavoring to shape the new prohibition measure so that it will only prevent the sale of whiskeys and wines. Such a prohibition law would be a tremendous boost for the brewers' business. Following is a list showing the percentage of alcohol contained in various beverages: Bordeaux (claret) 10 3, sherry 17.5, Madeira 15.4, champagne 10, lager 3.8, German lager 4.8, beers and potters 5, apple cider 5, cognac (brandy) 47, whiskey, Scotch and Irish, 40, gin 30, chartreuse 51, rum 60 per cent.

—We are informed by a gentleman who does a great deal of driving through this part of the country that he has never seen the roads in quite so bad condition as they are this spring. Municipal councils were more economical than usual in 1915, and among other expenditures cut down was that for road work. Then the season has been very unfavorable for cheap road maintenance. It looks as if the township daddies will be confronted with the imperative necessity of pulling out the cash drawer during the coming summer to provide funds for gravelling. To let the roadways be worn through to the clay because times are likely to be hard and money tight is not going to be the proper kind of economy for this rural region. Time is money, nowadays, and every extra half-hour spent in plodding slowly along mirey roads is just so much lost wealth. Possibly the auto will be blamed partly for the condition of what have been for years splendid gravelled highways in Bruce County. It is generally acknowledged that the motor-cars wear away and throw out in dust a great deal of road material while these heavy vehicles are going about swiftly during the summer, thus adding to the cost of road maintenance. While the time has gone by for farmers or any other class to attempt to cry them off the roads, it is time that part of the taxes collected from the owners was distributed to the local municipalities wherever the autos are running. We are glad to see that our local representative in the Legislature, Mr. Wm. McDonald, is keeping up his attempt to have a bill passed providing for such a distribution of auto fees.

The Price of Gasoline

The astounding prices that gasoline has reached are beginning to alarm the users of it, many of whom were under the impression that the war was the cause of the increase. The Los Angeles Record has studied the matter and says that increased consumption is not the cause of the increased price, but that every time the price of gasoline is raised an added dividend is handed over to the few who have the monopoly of the oil wells. The Alexandria Echo, of Minnesota, says the only way to end the gasoline crush is for the government to take over the oil fields and operate them for the people.

Pork Factory Owner Enlisted

Pte. H. H. Woodcock, proprietor of the Paisley pork factory building, is up from London for a couple of days, giving his property some attention before leaving for overseas with his battalion, the 77th. Pte. Woodcock is an Englishman, from the homebuilded coast town of Scarboro, so it is not surprising that he has a strong desire to get a crack at the German baby killers, and is willing to get into the fight where the bullets are thickest. Should he come through the fray without being disabled we may possibly see him back to Paisley when peace has been declared, to begin the pork packing business on a small scale.

$1,008 for Red Cross Work

The Red Cross Teas have come to a most successful finish. These teas were begun last December by the Women's Institute, in co-operation with the Women's Patriotic League, and ably assisted by the five surrounding districts having no organizations of their own. The total proceeds were $1008, including the sums realized from sale of tickets for Mr H Rudolph's pig and Bell Bros.' tile. The sum of $300 has been sent to Red Cross headquarters in Toronto, in the name of above parties; $200 has been spent in the purchase of flannel, yarn and other Red Cross supplies. The balance remains in the bank for future use. The societies wish to place on record their appreciation of the kindness of Miss Stark and of Mr Cruickshank in providing them with such comfortable, well heated rooms rent free. Hearty thanks to all who helped make the enterprise such a success.

Soldiers for Seeding

Some of the farmers' sons in the 160th Batt. have already obtained leave to work on the land for the seeding season. As all soldiers enlisted who are still in Canada are free to assist at seeding, their farmers of Bruce who are short of help for the season should look up desirable men of the 160th before they are all engaged. The soldier force or will do our part if he really goes to work on a farm and has a farmer to testify to that effect. His $1 to a day for serving the King is continued from the Government, while he earns extra dollars at farming. The services of the men can be secured again in the harvest season, so the productive end of this Dominion's business will not be made to suffer excessively owing to the recruiting.

Bruce Telephone System

Messrs. A. McLean and P. A. Malcomson were in Toronto last week arranging with the Ontario Railway and Municipal Board for the issue of debentures for construction purposes. At the last annual meeting it was decided to ask for permission to issue these debentures for fifteen years instead of ten years. It was necessary to obtain the consent of the Board to do so. This consent was obtained and debentures will therefore be issued for 15 years. The Board evidently considered the Bruce System all right or the consent would not have been given. Spreading these payments over a longer term will make financing the system that much easier. Mr. Malcomson says he had considerable trouble getting Mr. McLean back home as the recruiting sergeants were bound to have him for the "Bantams Battalion."—Kincardine Reporter.

Making It Easier to Get Married but More Expensive

A Bill to amend the Marriage Act was introduced in the Legislature by Hon. W. J. Hanna, by which it will no longer be necessary for both contracting parties to have lived in the Province three weeks to obtain an ordinary license, as in the past. Hereafter this will be possible if either one is a three weeks' resident of the Province. If neither has lived here that long, however, the law will apply as at present, a special license being necessary. The fee is also raised from $1 to $5 for marriage licenses. Heretofore Ontario's charge has been lower than that of any other Province, and $1 80 of the $2 covered the cost of issuer, leaving barely enough to the Government to pay printing costs. Under the new charge the fee to the issuer will remain the same, while the Government will receive enough to cover its expenses and leave a neat revenue in addition.

Have a Garden

Begin now to think of that little garden in the back yard, everybody who has a back yard. Such a modest enterprise has much to do to restore the harmony of life. If you don't get a radish, a tomato, a bean or a mess of peas, you will get something greater—pure air, sunshine, exercise, and companionship with nature, which is a better crop than all the truck in the garden. It is a great thing to watch things grow. They make a man grow, too; add health and strength to every part of his body; give him a clean conscience; make him love his wife and enjoy his victuals. Tending a little garden makes a good citizen out of a man; gives him better thoughts; makes him kindlier to his neighbors, and gives a gentler accent to his voice. And there's life should raise anything in the garden, how happy he is to gather it in and take it into the kitchen and lay it on the table, saying to his wife: "These are some of our own turnips, girl! They're fine! That's life—grander than going church in an automobile.—Ex.

D.D.G.M. at Aldworth Lodge

On Friday night last R. W. Bro. W. J. Leaghleen, of Cargill, the D D G M for Huron District of the A F & A M, paid his official visit to the lodge at Paisley. The ritualistic work was put on by local officers in a manner that drew grateful compliments from the visiting officer. The routine of business over, adjournment was made for refreshments. In the banquet room at the rear of the hall, the brethren sat down to a most tempting spread. "The best supper provided at any place in the district," said the D D G M. The caterers were the ladies of the Patriotic League. With W Bro Rean as toastmaster, a host of after-dinner speeches was gone through. The feast of reason and flow of soul was another very enjoyable feature of the night's programme. Those who were brought to their feet to respond to various toasts included the D G M, Bros H McK rracher, J H Steele, R G Eckel, Dr Houston, Rev L W Diehl, G L Carter, J A Logie, W R Barnett, Thos Muir, Jas A McNeil, C Fraser, J B McArthur, H Fletcher, — Barltrop, R N Brownscombe and W T Hopper.

Clean-up Time

The newsdies of town planning would work wonders in transforming a place like Paisley into one of the most beautiful burgs in the country. We regret to say, however, that some of our citizens have shown no enterprise or public spirit in this respect. While many have done what they could, the indifference and neglect of others in the neighborhood has almost neutralized the commendable efforts to beautify private premises or the public streets adjacent. This spring would be a good time for all those who have not done so to make a start towards smoothing up the rough spots and doing their share towards making Paisley a more attractive. This world is just about what we make it ourselves, and neither individual effort nor community co-operation for improvement of our environments will be frowned on by Providence. The surroundings of the humblest home or the grandest mansion can be improved by the application of a little work at the right season, together with using good taste in the way of doing things. Note how beautiful are the streets and grounds where trees have been planted, the lawn kept green and tidy, or flower beds planted. Compare these with the places where nothing but weeds and hay adorn, and figure out whether it isn't worth while doing something this spring and again next spring.

Bruce Battalion to be Mobilized at Walkerton

The 160th Bruce Battalion will be assembled at the county town on May 1st, and remain there until about May 20th. This is the official information given to the commanding officers a few days ago. There has been a good deal of wire-pulling done to have the Bruce and other rural battalions trained in the home counties, but there is no doubt that after mobilization is completed the training can be much more efficiently conducted in the large district camps such as at London, Niagara, etc, and the authorities are quite right in refusing to listen to the propositions for county camps. This military campaign has not been inaugurated for the financial benefit of any towns or localities. The one great purpose is to lend assistance in beating Germany at the war game, and that can only be done by sending well trained men against them in the field of battle, therefore the plan which will most expeditiously and thoroughly convert our raw recruits into highly trained soldiers is the one that should be followed, regardless of all considerations. There are now 280 men of the 160th billeted in Walkerton, and accommodation must be provided for 1000 more while the battalion is quartered in town. Sleeping accommodation is being arranged for in suitable vacant buildings, such as the old station hotel and a couple of factories, also two church basements, school buildings, rooms over business places, and in public halls. The two rinks will be used as dining halls. The town council is contributing $300 and business men subscribing $900 to pay cost of sanitary and other equipment necessary. If permission can be obtained for the Battalion to remain there over the 24th of May, it is proposed to put on a big celebration for that date. There is no doubt a large number would attend from Paisley and district to see the Battalion on parade.

Lightning Fires a Barn

Mr Jas. Dudgeon's fine big barn at Willsecroft was struck by lightning during the storm on Wednesday night of last week and totally destroyed, together with contents comprising tons of hay, 350 bushels of wheat, over 600 bushels of oats and other grain, some harness and other articles, also the separator of his threshing outfit. All the animals in the stables beneath were rescued except one yearling steer which was killed by the lightning, and a pig that ran back towards its pen. The fire was first seen by a neighbor, Mr. C. Crawford, who ran over and had the stock out of the barn before the owner was there. But nothing was saved except what was taken out of the basement, as the upper part of the building was soon falling in. The driving shed was also destroyed, but everything was got out of that building. Mr. Dudgeon's threshing engine and grain crusher were away from home that day, and thus safe from damage. The total loss is estimated by the insurance appraiser at $4,350, upon which there was a policy for $2,500. The threshing separator was not insured, so is a total loss. While the loss is a very considerable one, Mr. Dudgeon can console himself with the thought that it might have been a great deal more. He is a very enterprising farmer, and had this barn enlarged and remodelled in A shape lately. The building was equipped with lightning rods, which had been on for about ten years, and, while the rodding failed to protect the building, Mr. Dudgeon is of opinion that a part of the force was conducted to the ground by the rods, also that without them every animal in the building might have been electrocuted, instead of only one. The force of that stroke of lightning may be judged from the fact that a lot of window glass was shattere in the vicinity by the explosion that followed, including numerous panes in Willsecroft Baptist church, and some in the houses of Crawford, Alex Robb, and Jas Dudgeon. Such an electrical disturbance was probably never experienced in the district before. The flash was so startlingly vivid even at ten miles away, that some ladies attending a party at a home in Greenock were so startled as they saw it from the window that they cried out with fright and sprang back from the window.

GLAMIS BOY WOUNDED

Word came by telegram to Mrs Catharine McKinnon, of Glamis, that her son, Pte John Alex McKinnon, 1st Batt, C M R, had been wounded in the back by shrapnel on April 1st. Pte McKinnon is a young man about 25 years of age, and a son of the late Archibald McKinnon, an early settler of the Glamis negihborhood. Pte McKinnon enlisted at Calgary along with his brother Findlay, and both brothers are now in France. A sister, Miss Elizabeth McKinnon, is also at the front. Miss McKinnon was located at Chicago when the war broke out, and when she heard that her two brothers had enlisted she decided to go too. She is now at the battle front and sees her brothers frequently. Just the other day the third and last brother, Malcolm, rented the homestead near Glamis and signed up with the 160th Bruce Batt. The McKinnon boys are fine strapping fellows, six feet and upwards. They are highly thought of in the neighborhood, in fact they are the pick of the countryside. They are brave fighters.

A few days ago Mrs McKinnon had a letter from the son who is reported to be wounded. In it he remarked jokingly that he and his brother were now at opposite ends of the trench and both would not hit anyway.—Telescope.

FRUIT, THE GREAT PHYSICIAN

Healing Powers of Fruit Proved by "Fruit-a-tives"

The simple juices of apples, oranges, figs and prunes, when transformed into 'Fruit-a-tives' will relieve diseases of the *Stomach, Liver, Kidneys and Skin.*

The truth of this statement has been proved in thousands of cases of Indigestion, Dyspepsia, Torpid Liver, Constipation, Kidney and Bladder Troubles, Skin Diseases, Rheumatism, Neuralgia and Chronic Headaches.

The enormous sales of 'Fruit-a-tives,' are the best proofs of the value *of this fruit medicine.*

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Why Suffer With Backache, Kidneys or Rheumatism Now?

Letter Tells of Long-looked-for Prescription.

Dear Readers—If I can do any good in the world for others, I wish to do it, and I feel that it is my duty to write about the wonderful results I received from the use of "Anuric." I was suffering from kidney and bladder troubles, scalding urine, backache and rheumatism, and feet and ankles swelled so that at times I could not walk without assistance. I had taken several different kinds of kidney remedies but all failed. I sent for a box of Dr. Pierce's newest discovery, "Anuric," which I received by mail in tablet form. I soon got better and am convinced that this popular new medicine is good. I wish to recommend it to my neighbors and everybody suffering from such troubles.

Miss M. J. Sargent.

NOTE: You've all undoubtedly heard of the famous Dr. Pierce and his well-known medicines. Well, this prescription is one that has been successfully used for many years by the physicians and specialists at Dr. Pierce's Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for kidney complaints, and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine, and urinary troubles.

Up to this time, "Anuric" has not been on sale to the public, but by the persuasion of many patients and the increased demand for this wonderful healing Tablet, Doctor Pierce has finally decided to put it into the stores, or send 10 cents for large trial package or 50 cents for full treatment.

Simply ask for Doctor Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Favorite Prescription, the ever-famous friend to ailing women, and Dr. Pierce's Golden Medical Discovery, proven by years to be the greatest general tonic and reconstructor for any one, besides being the best blood-maker known.

Lost Sight or 'The Light That Failed"

Kipling's pathetic tale of the artist who lost his sight, teaches a lesson. The eyes are the finest winders. Take care of them. Have them examined. Learn that they are right. If they are over-worked [illegible]

A STOPPED WATCH

—one that will not go AT ALL,—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

THE STORE WITH THE QUALITY

Our Distemper Cure is Guaranteed

Mr. Farmer:

Our advice to you is to treat your grain this year before sowing with Formaldehyde, which will prevent smut. Half an hour's time spent on treating your grain WILL MEAN DOLLARS TO YOU next fall.

The outlay is small and we furnish all the necessary information free. So call and let us show you how to reap grain next fall, instead of smut.

Our Distemper Cure is Guaranteed

Not Flattering

The Minister—"Well, Johnny, and how are you getting on at school?" Johnny—"I have left the schule noo, sir. I'm thirteen past, ye ken." The Minister (impressively)—"Oh, but you know, Johnny, I didn't finish my education until I was twenty-three." Johnny—"Did ye no' ete? Ye maun hae been an awfu' thickhead."

WAVE OF IMMIGRATION LIKELY TO BOOM AGAIN

Branch Manager of the C.P.R. Says Many Will Come From Over the Border and Europe After War

Writing in a Canadian newspaper, Mr. Grant Hall, general manager of the western lines, C.P.R., says that there are already evidences of the revival of American immigration to this country.

"So many ex-Americans," he continues, "now farming in this country, have been blessed with exceptional crops in 1916 that their old neighbors in the south are being influenced to look in this direction. The immigration authorities advise me that the effect is already apparent in the number of enquiries being received, and the actual number of settlers in transit. Fictions circulated by interested parties in St. Paul to the effect that Americans coming in would be liable to conscription had some effect for a time, but the farmers in the south are intelligent enough to discount these fables."

After the War

Mr. Hall goes on to predict that after the war there will be a wave of European immigration into Canada. He says: "I think Canada is in an excellent position to provide for such immigration as long as we have such a vast amount of land held by the Governments and by public service corporations, who are equally concerned with the Governments in having the country settled up. As long as these conditions prevail we will have comparatively cheap land to offer. The transportation facilities of the country are in most respects adequate for three times the present population. While we cannot expect these new settlers to cut all the sentimental ties which bind them to the countries of their birth, we can at least insist that they shall become first and last loyal subjects of Canada and to the British Empire."

FIRE

Rome burned for eight days.

Fire is a great purifying element.

Neither Nelson nor Napoleon ever saw a gas lamp.

A fire which cost $150,000,000 gutted Moscow in 1812.

New York's fire department is practically a military organization.

Machines for the extinguishing of fires were employed by the Romans.

No building is really fireproof, although many are "fire-resisting."

To protect wood against fire, silicate of soda is the most effective remedy.

The use of the burning lens to generate fire was known to the ancient Greeks.

The best fuel for a fire engine is dry shavings, dry firewood and steam coal.

There are traces of an organization for the extinction of fire as far back as 2,000 years before Christ.

The first fire engine in which steam was used to drive the pumps was that of Braithwaite in 1829.

There is no doubt that the original method of finding fire was by the friction of two pieces of wood.

Between 1865 and 1895, London more than quadrupled the number and apparatus of her fire brigade.

No Greek or Roman army crossed a frontier without carrying an altar on which a sacred fire always burned.

In the great fire of London in 1666, the damage amounted to ten and three-quarter million pounds and involved 436 acres.

The origin of fire varies, according to old time fables. The Greeks held that Prometheus brought to earth the torch he had lighted at the sun, and hence there was fire.

Radium as Cancer Cure

Of 746 cases of cancer treated in the Radium Institute of London last year there were 69 apparent cures, while 228 were reported improved. Many of the cases came to the attention of the institute in too advanced a stage to be remedied.

The comparatively new curative known as radium is especially useful in dealing with superficial cancers of the skin and with cases that are not easily operable. Conveniently handled, it gets at growths which cannot be reached by means of the X-rays. Because the patient can take radium in the mouth, cancer of the mouth, or palate, for instance, can be readily dealt with by radium.

Those birthmarks commonly known as "port wine stains" seem to be effectively treated with radium. A porter suffering from this disfigurement had repeatedly been refused employment. He went to the institute and after a time the mark was entirely eradicated.

A yearling is a young horse or other animal in the second year of its age.

The largest single sun-spot ever recorded had a diameter of 143,000 miles.

A barking fox at night indicates the coming of a heavy storm.

WORK OF THE LEAVES

Many Necessary and Interesting Processes Impossible Without Them

An examination of the leaves of various plants will show a peculiar structure all for certain purposes. The under side of a rhubarb plant leaf, for instance, has prominent strong veins. The leaves of the poplar tree, even after they have fallen, and the skin all gone, have a network of veins. In the daffodil the veins go in stripes—some branch. The purpose of these veins is to convey fluids to the leaves from the root and stem, and also to take other fluids away. The larger leaves have ribs for support. Plants constantly take in oxygen from the air, and give out carbonic gas as waste. This breathing is called respiration and takes place through the leaves, which are the lungs of the tree or plant.

Carbon is being gradually digested, and then stored up in the stem and leaves in growing plants. Carbon dioxide, or carbonic gas, is absorbed by the leaves from the air, and the plants break up this gas, secure from it the carbon, and allow the oxygen to escape into the air. This process of feeding or digestion is called assimilation, and takes place with the aid of sunlight, the result being that starch is manufactured. Light is absolutely necessary for this process, for starch is found nowhere except in green leaves. When green plants have sunlight, they secure energy to split up the carbon dioxide, store up the carbon, and free the oxygen. But when plants are placed in darkness the opposite takes place. From this it can be readily seen that it is a bad practice to keep plants in bedrooms, as too much carbon dioxide is injurious to animal life.

Another process that is going on in plants is transpiration. Water, in which various salts are dissolved, is absorbed by root hairs, sent up the stems through the bundles of vessels, and carried to the leaves. The flow of sap is excessive in summer, so some outlet is required. For this purpose the leaves are used, and through pores on the upper and under surfaces the excess is carried to the air. This keeps plants cool in the hottest weather, and is so rapid that a sunflower gives off as much as a quart of liquid in 24 hours. If one touches the leaves of a tomato plant at noon on a hot day, as it is growing against a wall, moisture on the surface will be perceived, and one can also see the liquid. If all the leaves of a plant were removed, and the new ones cut off as they came out, the plant could not breathe, no food would be stored up in it, for it could not digest its food, and it would consequently die of starvation.

Poultry Hints

Did you forget to clean out the poultry house last fall? Better take the next sunshiny day and—surprise the hens. They might be able to stand it.

Why are you crowding the house with all those late cockerels and, yes, there is last year's cock. They won't lay; give them a holiday or a trip to town.

Don't expect big egg results if the hens have to roost on the top of the buggy or the binder reel.

Do the hens have access to clean, dry earth during the winter to dust in? It helps them to fight lice, and lice spell profits.

Don't try to keep more than one breed! You might be able to do it for a while, but others have failed.

Found Success in Canada

MR. MARK WORKMAN

who succeeded Mr. Frederick Nichols as President of the Dominion Steel Company, Limited, is perhaps one of Canada's wealthiest men and might be said to be the most prominent Hebrew in the country. Though a native of Buffalo he has lived in Canada since he was 13 years old, and besides being head of a big clothing business, is an official and director of many other companies. His yearly gifts to charity are said to average over $60,000.

How to avoid Operations

These Three Women Tell How They Escaped the Dreadful Ordeal of Surgical Operations.

Hospitals are great and necessary institutions, but they should be the last resort for women who suffer with ills peculiar to their sex. Many letters on file in the Pinkham Laboratory at Lynn, Mass., prove that a great number of women after they have been recommended to submit to an operation have been made well by Lydia E. Pinkham's Vegetable Compound. Here are three such letters. All sick women should read them.

Marinette, Wis.—"I went to the doctor and he told me I must have an operation for a female trouble, and I hated to have it done as I had been married only a short time. I would have terrible pains and my hands and feet were cold all the time. I took Lydia E. Pinkham's Vegetable Compound and was cured, and I feel better in every way. I give you permission to publish my name because I am so thankful that I feel well again." —Mrs. FRED BENDER, Marinette, Wis.

Detroit, Mich.—"When I first took Lydia E. Pinkham's Vegetable Compound I was so run down with female troubles that I could not do anything, and our doctor said I would have to undergo an operation. I could hardly walk without help so when I read about the Vegetable Compound and what it had done for others I thought I would try it. I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Lydia E. Pinkham's Sanative Wash and used them according to directions. They helped me and today I am able to do all my work and I am well." —Mrs. THOS. DWYER, 593 Milwaukee Ave., East, Detroit, Mich.

Bellevue, Pa.—"I suffered more than tongue can tell with terrible bearing down pains and inflammation. I tried several doctors and they all told me the same story, that I never could get well without an operation and I just dreaded the thought of that. I also tried a good many other medicines that were recommended to me and none of them helped me until a friend advised me to give Lydia E. Pinkham's Vegetable Compound a trial. The first bottle helped, I kept taking it and now I don't know what it is to be sick any more and I am picking up in weight. I am 20 years old and weigh 146 pounds. It will be the greatest pleasure to me if I can have the opportunity to recommend it to any other suffering woman."—Miss IRENE FROELICHER, 1923 Manhattan St., North Side, Bellevue, Pa.

If you would like special advice write to Lydia E. Pinkham Med. Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Add play hours to your day

Summer will soon be here and you will want all the time you can get out-of-doors, free from work and worry.

MARRIED

PATTERSON—JOHNSON—At the Methodist Parsonage, Swift Current, Sask., on March 31st, by Rev. J. M. Wagget, Mr. J. L. Patterson, of Halinay, Sask., to Miss Christena, daughter of W. R. Johnson, 18th con. Greenock.

DIED

WALKER—In Arran, on April 11th, Wm. Walker, aged 70 years.

PEACHY—At Smith's Falls, on April 6th, Mrs. W. R. Peachy (nee Nellie Hilborn, formerly of Tara), in her 35th year.

Girls Needed for Office Work

So many men employed in offices are answering the call for recruits that within the next few months there will be a great demand for young women to take their places. Already the need is felt and even the banks are urging young ladies to take the places of clerks long for military service. In order that girls may be quickly trained for office work the Northern Business College, Owen Sound, will remain open throughout the summer. A special course of study has been arranged, commencing April 24th, but students may enter at later dates. Bookkeeping, stenography and all branches of office work will be taught so that those taking a course will be fully qualified to take a place in an office. While the number have decided to raise the course of studies, no there should be a very large class at the mind for business in Belleville will be very great. The course will be under the personal supervision of the principal, C. A. Harding. Those interested should write him for particulars.

SS No 8, Ederallie

Absent from test 2.

ELLA M LEWIS, Teacher

The Retort Cutting

Jones was recently sent by his employer to collect an account from Smith, notorious for his slackness in making payments. After several vain attempts to obtain a settlement Jones remarked, "Well, at least let me know on what date I may expect payment." Smith replied—"Do you take me for a prophet?" "No," responded Jones. "Up to the present I have always regarded you as a loss!"

Attractive Dining Car Service

Probably nothing helps more to make a railway journey really enjoyable than a visit to the "Dining Car," especially if it be a Canadian Pacific dining car, where the passenger is assured of the highest form of efficiency in the culinary art, the choicest provisions the market affords prepared on the scientific principle known as "Dietetic Blending."

Your favorite dish, as you like it, may be enjoyed at reasonable cost, amid ideal surroundings, while travelling on the Canadian Pacific.

Persons who believe in luck and sign will doubtless agree that it is unlucky to be struck by lightning on Monday, to take hold of a circular saw in motion on Tuesday, or tumble down stairs with a cool scuttle on Wednesday, or be hit by a cable car on Thursday, or have a bright well fall on you on Friday, or marry a girl who swings ten pound dumb bells Saturday, or be one of the thirteen at dinner on Sunday when there is food for but twelve.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XII.—(Con't.)

There was time to discuss details on the way down the coast in the Phyllis. The yacht had outwardly all the idle ease of a craft designed merely for luxurious loafing over smooth seas, but Cartwright had built it with one or two other requisite qualities in mind. The Phyllis could show heels, if ever matters came to a chase, to anything less swift than a torpedo-boat destroyer. Her mastheads were strung with the parallel wires that gave her voice in the Marconi tongue, and Saxon had no sooner stepped over the side than he realized that the crew recognized in Mr. Rodman a person to be implicitly obeyed.

If Rodman had seemed to be won over with remarkable suddenness to Saxon's request that he undertake a dangerous rescue, it was now evident to the painter that the appearance had been in part deceiving. Here, he was more at Rodman's mercy than he had been on the steamer. If Rodman's word had indeed been as he boasted, that of an admiral on the City of Rio, it was, on the Phyllis, that of an admiral on his own flagship. By thousand little, artful snares thrown into their discussions of ways and means, Rodman sought to betray the other into any utterance or action that might show underlying treachery, and, before the yacht had eaten up the route back to the strip of coast where the frontier stretched its invisible line, he had corroborating his belief that the artist was telling the truth. Had he not been convinced, Rodman had only to speak, and every man from the skipper to the Japanese cabin boy would have been obedient to his orders.

"We will not try to get to Puerto Frio harbor," explained Rodman. "It would hardly be safe. We shall steam past the city, and anchor at Bellavista, five miles beyond. Bellavista is a seaside resort, and there a boat like this will attract less attention. Also, the consulate is better suited to our needs as to the formalities of entering and leaving port. There, we will take horses, and ride to town. I'll read the signs, and, if things look safe, we can get in, collect your people, and get out again at once. They can go with us to the yacht, and, if you like fireworks, we can view them from a safe distance."

La Punta, as they passed, lay sleeping by her beach, her tattered palms scarcely stirring their fronds in the breathless air. Later, Puerto Frio went alongside, as quiet and untroubled with any sense of impending disturbance as the smaller town. Behind the scattered outlying houses, the incline went up to the base of San Francisco, basking in the sun. The hill was a huge, inert barrier between the green and drab of the earth and the blue of the sky. Saxon drew a long breath as he watched it in the early morning when they passed. It was difficult to think of even an artificial volcano awakening from such profound slumber and indolence.

"You'd better go below, and get ready for the ride. We go horseback. Got any riding togs?" Rodman spoke rapidly, in crisp brevities. "No? Well, I guess we can rig you out. Cartwright has all sorts of things on board. Change into them quick. You won't need anything else. This is to be a quick dash."

When the anchor dropped off Bellavista, Saxon stood in a fever of haste on deck, garbed in riding-clothes that almost fitted him, though they belonged to Cartwright or some of the guests who had formerly been pleasuring on the yacht.

As their motor-boat was making its way shoreward over peacefully glinting water, the painter ran his hand into his coat-pocket for a handkerchief. He found that he had failed to provide himself. The other pockets were equally empty; save for what money had been loose in his trousers-pocket when he changed, and the old key he always carried there. These things he had unconsciously transferred by mere force of habit. Everything else he had left behind. He felt a mild sense of annoyance. He had wanted, on meeting her, to hand Dunks the letter he had written on the night that their ships passed, but haste was the watchword, and one could not turn back for such trifles as pocket furnishings.

Rodman proved the best of guides. He knew a liveryman from whom Argentine ponies could be obtained, and led the way at a brisk canter out the smooth road toward the capital.

For a time, the men rode in silence between the haciendas, between scarlet clustered vines, clinging with heavy fragrance to adobe walls, and the fringed spears of palms along the cactus-lined roadsides.

Hitherto, the man's painting sense had lain dormant. Now, despite his anxiety and the nervous prodding of his heels into the flanks of his vicious little mount, he felt that he was going toward Dunks, and with the realization came satisfaction. For a time, his eyes ceased to be those of the man hurled into new surroundings and circumstances, and became again those of Frederick Marston's first disciple.

They rode before long into the country that borders the town. Rodman's eyes were fixed with a fascinated gaze on the quiet summit of San Francisco. He had himself no definite knowledge when the craters might open, and as yet he had seen no sign of war. The initial note must of course come drifting with the first wisp of smoke and the first detonation from the mouths of those guns.

At the outskirts of the town, they turned a sharp angle hidden behind high monastery walls, and found themselves confronted by a squad of native soldiery with fixed bayonets.

With an exclamation of surprise, Rodman drew his pony back on its flanks. For a moment, he leaned in his saddle, scrutinizing the men who had halted him. There was, of course, no distinction of uniforms, but he reasoned that no government troops would be guarding that road, because, as far as the government knew, there was no war. He leaned over and whispered:

"Vegas y Libertad."

The sergeant in command saluted with a grave smile, and drew his men aside, as the two horsemen rode on.

"Look like it's getting close," commented Rodman shortly. "We'd better hurry."

Where the old market-place stands at the junction of the Calle Bolivar with a lesser street, Rodman again drew down his pony, and his cheeks paled to the temples. From the center of the city came the sudden staccato rattle of musketry. The plotter threw his eyes up to the top of San Francisco, visible above the roofs, but the summit of San Francisco still slept the sleep of quiet centuries. Then, again, came the clatter from the center of the town, and again the sharp rattle of rifle fire ripped the air. There was heavy fighting somewhere on ahead.

"Good God!" breathed the thin man. "What does it mean?"

The two ponies stood in the narrow street, and there began to grow heavier with the noise of volleys, yet the hill was silent.

Rodman rattled his reins on the pony's neck, and rode apathetically forward. Something had gone amiss! His dreams were crumbling. At the next corner, they drew to one side. A company of troops swept by on the double-quick. They had been in action. Their faces streamed with sweat, and many were bleeding. A few wounded men were being carried by their comrades. Rodman recognized Captain Murino, and shouted desperately; but the officer shook his head wildly, and went on.

Then, they saw a group of officers at the door of a crude cafe. Among them, Rodman recognized Colonel Martinez, of Vegas' staff, and Colonel Murphy of the Foreign Legion, yet they stood here idle, and their faces told the story of defeat. The filibuster hurled himself from the saddle, and pushed his way to the group, followed by Saxon.

"What does it mean, Murphy?" he demanded, breathlessly. "What in all hell can it mean?"

Murphy looked up. He was wrapping his wrist with a handkerchief, one end of which he held between his teeth. Red spots were slowly spreading on the white of the bandage.

"Sure, it means hell's broke loose," replied the soldier of fortune, with promptness. Then, seeing Saxon, he shot him a quick glance of recognition. The eyes were weary, and showed out of a face pasted with sweat and dust.

"Hello, Carter," he found time to say. "Glad you're with us—but it's all up with our outfit."

This time, Saxon did not deny the title.

"What happened?" urged Rodman, in a frenzy of anxiety. The roaring of rifles did not seem to come nearer, except for detached sounds of sporadic skirmishing. The central plaza and its environs were holding the interest of the combatants.

"Sure, it means there was a leak. When the boys marched up to San Francisco, they were met with artillery fire. It had been tipped off, and the government had changed the garrison." The Irish adventurer, who had led men under half a dozen tatterdemalion flags, smiled sarcastically. "Sure, it was quite simple!"

"And where is the fighting?" shouted Rodman, as though he would hold these men responsible for his shattered scheme of empire.

"Everywhere. Vegas was in too deep to pull out. The government couldn't shell its own capital, and so it's street to street scrappin' now. But we're licked unless—" He halted suddenly, with the gleam of an inspired idea in his eyes. The leader of the Foreign Legion was sitting on a table. Saxon noted for the first time that, besides the punctured wrist, he was disabled with a broken leg.

"Unless what?" questioned Colonel Martinez. That officer was pallid under his dark skin from loss of blood. One arm was bandaged tightly against his side.

"Unless we can hold them for a time, and get word to the diplomatic corps to arbitrate. A delay would give us a bit of time to pull ourselves together."

Martinez shrugged his shoulders.

"Impossible," he said, dreadfully.

"Wait. Pendleton, the American minister, is dean of the corps. Carter here is practically a stranger in town these days, and he's got nerve. I know him. As an American, he might possibly make it to the legation. Carter, will you try to get through the streets to the American Legation? Will you?"

Saxon had leaped forward. He liked the direct manner of this man, and the legation was his deathsalon.

"It's a hundred to one shot, Carter, that ye can't do it." Murphy's voice, in its excitement, dropped into brogue. "Will ye try? Will ye tell him to git th' diplomats together, and ask an armistice? Ye know our countersign, 'Vegas y Libertad.'"

But Saxon had already started off in the general direction of the main plaza. For two more, he needed no other passport than the countersign, then, as he turned a corner, it seemed to him that he plunged at a step into a reek of burnt powder and burning houses. There was a confused vista of men in retreat, a roar that deafened him and a sudden numbness. He dropped to his knees, attempted to rise to his feet, then seemed to sink into a welcome sleep, as he stretched comfortably at length on the pavement close to a wall, a detachment of routed insurrectos sweeping by him in full flight.

CHAPTER XIII.

The passing of the fugitive insurrectos; their mad turning at bay for one savage rally; their wavering and breaking; their disorganized stampede spurred on by a decimating fire and the bayonet's point; these were all incidents of a sudden squall that swept violently through the narrow street, to leave it again empty and quiet. It was empty except for the grotesque shapes that stretched in all the undignified awkwardness of violent death and helplessness, feeding thin lines of red that trickled between the cobblestones. It was silent except for echoes of th stubborn fighting coming from the freer spaces of the plazas and alamedas, where the remnants of the invading force clung to their positions behind improvised barricades with the doggedness of men for whom surrender holds no element of hope of mercy.

Into the canyon-like street where the frenzy of combat had blazed up with such a sudden spurt tand burned itself out as quickly, Saxon had walked around the angel of a wall, just in time to find himself precipitated into one of the fiercest incidents of the bloody forenoon.

(To be Continued).

On the Farm

Home-Grown Feeds—The Basis of All Rations.

Some men entertain the idea that in order to make a high record with a cow, she must be particularly well bred, fed on specially prepared feeds, and stabled in the most modern stables. Such is not necessarily the case. Many cows, that are a credit to their owners, have attained the pinnacle of fame in the dairy world by having the right blood in their veins, and then converting feeds, such as are grown on the average farm, into milk and butter-fat. True, the dairyman plays an important part in securing the best from his cows by his ability to study the requirements of the individual animal, and to combine the various feeds into a balanced ration suitable for the dairy cow.

The methods of raising calves and feeding high-producing cows, as practiced by a noted Ayrshire breeder, at Norwich, may convince breeders just starting in the business that breeding, careful feeding, and proper attention, are the essentials in building up a show herd.

The herd referred to consists of from 30 to 35 animals, in the pink of condition. Individual yearly records are kept, and mature cows produce from 10,000 to 12,000 pounds of high-testing milk during a lactation period. In years past, animals from this herd have won laurels in strong competition at many of the big shows. This herd is housed in a well-lighted, frame stable. Silage forms the basis of the ration, and about forty pounds is fed each animal per day. Corn for ensilage is sown quite thickly, as it is believed more feed, and better feed, can be gown per acre than if corn is sown with the aim of producing matured cobs. In filling the silo, the corn is cut very fine, and it is believed to make better silage than the coarse-cut corn. A few roots are grown on the farm, and are considered excellent feed for dairy cows. If it were not for the extra labor entailed in handling a root crop, a larger acreage would be grown. Clover hay is fed night and morning. The concentrate part of the ration is composed of oat chop and bran, in equal proportions, the amount fed each cow depending on the milk-flow. The heaviest milkers are giver from ten to twelve pounds per day. Two or three pounds of oil-cake or cotton-seed meal, are fed per day. Preference is given to feeding oil-cake to meal, and cottonseed the next. The cows are watered in the stable, but are turned out for exercise when the weather is favorable.

The Silk From This Herd

goes to a condensary, consequently there is no skim-milk on which to raise the calves. When possible, the cows are bred to freshen in the fall, as there is usually more time during the winter for properly attending to the calves and heavy milkers, than there is in the spring and summer months. Whole milk is fed the calves for four or five weeks, after which the quantity of milk is gradually reduced and prepared calf meals used. At four months of age, the calves are fed only four pounds of whole milk, and are entirely weaned from milk by the time they are three months old. Oat chop, oil-cake, silage, and clover hay are kept before the calves. On the above feed, young animals appear to be thrifty.

Other breeders in Norwich district, who have made big milk and butter-fat records with their herds, rely on silage, clover hay, oat chop, bran, and oil-cake or cottonseed meal, to form the ration. The first three feeds mentioned can be grown on almost any farm, and the quantity of the last three feeds necessary to balance up the ration is not large. Cows, in many noted herds are raised on a limited amount of whole milk, along with oil-cake or calf-meal and shorts grown roughage.

It is believed that the average farmer with his grade stock can increase the returns from his cows by judiciously combining the feeds grown on the farm with a small quantity of purchased concentrates, rich in protein, to form a balanced ration. The cow is a manufacturing plant, and the finished product will be in keeping with the capacity of the plant and material supplied. For greatest returns, both the plant and raw material must be good.

In some districts dairymen are raising choice calves without skim-milk, and with feeding only a limited amount of whole milk. Dairymen with a supply of skim-milk have the advantage over those selling whole milk, in raising calves. A good deal of the success in feeding young or old animals depends on the feeder. Feeding stock, so as to keep it in good condition all the time, it is not an easy task. Simply putting the feed in the mangers is not enough, but the animals must be watched closely to see that the feed agrees with them. There are many little attentions given to the stock by a real stockman that would never be considered important by an amateur. Yet, it is paying strict attention to details that brings success. It is necessary to know each individual animal in the herd, and endeavor to supply its wants. A variety of feeds to form as near a balanced ration as possible, regularity in feeding, and strict attention to details, are items of importance that are considered by the successful stockman.—The Farmers' Advocate.

Why Succulence Pays.

Numerous scientific trials and common experiences on farms have abundantly demostrated the value of adding succulent feeds to the rations of farm animals. The beneficial effects of succulence, whether supplied as pasturage, silage, ensilage, or roots, are many. Just as our own appetites are stimulated by fruits and green vegetables, succulent feeds are relishes for the animals of the farm, inducing them to consume more feed and convert it into useful products.

It is reasonable to hold that such palatable feeds stimulate digestion, and it is well known that their beneficial laxative action aids greatly in keeping the digestive tracts in good condition. There is no doubt that, for breeding stock, less tense and more watery flesh, a natural sequence of feeding succulence, is more conducive to vigorous young at birth and to their hearty maintenance after birth than is the condition of hard, dry flesh produced by feeding only dry forage through the winter.

The dairy cow gives her maximum returns when she is supplied with succulence. Such feeds tend toward rapid sturdy growth with the young of all farm animals. Some succulent food is especialy beneficial in keeping the horse in condition, to which the thrift of the work horse when turned out to pasture bears witness. But the horse at hard or fast work should receive only a limited allowance of these feeds. Steers and sheep make rapid and economical gains on pasture, and grass-fed animals are in the best possible condition to make rapid gains when placed in the feed lot. Among the most important contributions of the experiment stations are their demonstrations of the economy of feeding silage to fattening cattle and sheep and of the possibilities of cheapening the cost of producing pork through the utilization of pasture.—Wisconsin Experiment Station.

MUST SLAY OR BE SLAIN.

Father Vaughan Defends His "Kill Enemy" Advice.

Strong criticism has been voiced against Father Bernard Vaughan, the famous preacher, for having advised the British soldiers from the pulpit to kill the Germans instead of being killed by them. Several letters of protest having been printed in the London Daily Graphic the following reply was sent to that paper by Father Vaughan from Manchester:

"A clipping from your enterprising and clear sighted paper contains letters from the Rev. F. B. Meyer and the Rev. J. H. Newsham-Taylor blaming me for advising our troops to kill the enemy instead of being killed by him. Truth to tell, I have not read Dr. Meyer's letter I had no intention that we considered it a 'misfortune' to kill Germans.

"In my stupidity I had always felt it was a misfortune to miss them; I had no idea that soldiers in war were to be regarded as police on their beat; in my simplicity I was under the impression that our troops had gone to the front, not to take up and hoodwink the aggressor, but, on the contrary, to wipe him out and do for him. Indeed, in my reading of the situation I had never regarded the enemy in the light of a burglar bent on 'swag' only, but rather as an assassin under orders to murder, massacre and mangle widows and children, leaving them nothing but their eyes to weep with.

"Of course if Dr. Meyer's contention is right I must confess to being quite wrong. In other words, if our artillery is not out primarily to find the range for killing our foe, but only to shoot or frighten black beetles, rabbits and mosquitoes, my advice to kill Germans is altogether out of place.

"As for our friend the rector of St. Peter's, Hatton Garden, the Rev. Newsham-Taylor, and his rooted conviction that it ill beseems ecclesiastical lips to advise killing Germans, I must make bold to say to him in reply that the only reason that I can discover for the unseemliness of such advice is that it is unbecoming a minister of religion to speak the truth, the whole truth and nothing but the truth.

"Sir, with Joffre and Kitchener, French and Haig, I beg once more to raise my voice reminding my countrymen that victory can be ours in one way only, by artillery attrition. And I find that the chief reason why our war lords to-day are so sanguine about peace rooted in triumph over the foe is that our artillery is now better than his. As a plain Englishman, I understand this to mean we can kill off the enemy quicker than he us.

"If our Nonconformista ministers had only exhorted their followers to join the colors in the language of Joffre and Roberts instead of in the hesitating terms of Meyer and Newsham-Taylor I venture to think we should now still be under the voluntary system instead of saddled with a compulsion bill.

"Sir, unless our troops are out at the front to kill Germans let them come home and get killed with us. They won't have to wait long."

Outdoors or in—this is the paint that gives satisfaction

Stands the test of Canada's trying weather as no other paint you have ever used. For barns and other buildings, for your implements and waggons, and for your home both outside and in there is a Ramsay finish that is the best of its kind. To the man who does his own painting the convenience and economy of Ramsay's Paint is self-evident.

The man who hires painters to do his work for him will do well to specify Ramsay's ready-to-use, pure mixed and ground paints, wood and metal as thoroughly tinted as desired. The local Ramsay dealer will give you splendid service and suggestions. Or write direct to the factory.

"Mother Says We Couldn't Run The Farm Without

CROWN BRAND CORN SYRUP

IT'S downright scandalous, the number of 20 pound tins I buy. But as Mother says, we use it for 'most everything.

"Nothing else tastes quite so good on all kinds of Hot Bread, Johnny Cake and Griddle Cakes.

"Mother uses it for all her cooking—for Cookies, Cakes, Gingerbread and Pies.

"And I am almost ashamed to mention the quantity of 'Crown Brand' and bread that my youngsters consume. This syrup certainly is a favorite in my home".

If a 20 pound tin is too much for your needs, and economical for home use, although you can get "Crown Brand" in 2, 5 and 10 pound tins and 2 pound glass jars. Ask your dealer.

SPRING BLOOD IS WATERY BLOOD

How to Get New Health and New Strength at This Season.

Spring ailments are not imaginary. They are the most robust find the winter months most trying to their health. Confinement indoors, often in over-heated and nearly always badly ventilated rooms—in the home, the office, the shop and the school—taxes the vitality of even the strongest. The blood becomes thin and watery and is clogged with impurities. Some people have headaches and a feeling of languor. Others are low-spirited and nervous. Still others are troubled with disfiguring pimples and skin eruptions; while some get up in the morning feeling just as tired as when they went to bed. These are all spring symptoms that the blood is out of order and that a medicine is needed. Many people take purgative medicines in the spring. This is a serious mistake. You cannot cure yourself with a medicine that gallops through your system and leaves you weaker still. This is all that a purgative does. What you need to give your health and strength in the spring is a tonic medicine that will enrich the blood and soothe the jangled nerves. And the one always reliable tonic and blood purifier is Dr. Williams' Pink Pills. These Pills not only banish spring weakness but guard you against the more serious ailments that follow, such as anaemia, nervous debility, indigestion, rheumatism and other diseases due to bad blood. In proof of this Mrs. D. E. Hughes, Hazenmore, Sask., says: "About a year ago I was badly run down, my nerves were unstrung, and I could not go up stairs without stopping to rest. As I was in long ways from a doctor I determined to take Dr. Williams' Pink Pills and in the course of a few weeks I felt like a new person. As an all round restorative I can heartily recommend this medicine."

If you are ailing this spring you cannot afford, in your own interest, to overlook so valuable a medicine as Dr. Williams' Pink Pills. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

FRENCH PRAISE FOR BRITAIN.

The English Soldier Is Highly Praised by Them.

There can be no fear that the French will underestimate the value of the British troops' support in the present campaign, for their most famous generals in the past have testified to the fighting abilities of Tommy Atkins.

Napoleon once said that the British troops "stood like stone walls," and he added: "England is the most constant, the most powerful, the most generous of my enemies." In the Peninsular War Marshal Soult once wrote to Napoleon: "Curse these English! They never knew when they are beaten. For I pierced their center, I turned both flanks, I had them at my mercy—and still they did not run!"

Beaurnad, one of Napoleon's generals, once declared, "The English infantry is the best in the world; it is fortunate there is no more of it." General Foy wrote after Waterloo that "nothing could shake the immovable British squares. One would have been tempted to believe that they had struck roots into the earth if the battalions had not swept majestically forward a few minutes after the going down of the sun and given to Wellington the most decisive victory of the age."

The same general once also sighed: "Ah, the English soldier possesses the most precious of all qualities in war—calmness in the midst of excitement."

HANDY HUSBAND.

Knew How to Get Part of the Breakfast.

"I know one dish I can prepare for breakfast as well as any cook on earth," said my husband one morning when the cook was ill and he had volunteered to help get breakfast. He appeared with his dish and I discovered it was Grape-Nuts which, of course, was easy to prepare for it was perfectly cooked at the factory, but it was a good illustration of the convenience of having Grape-Nuts about.

"We took up Grape-Nuts immediately after returning from a five years' sojourn in a hot country. Our stomachs were in bad condition and we were in poor health generally.

"In a day or two we liked Grape-Nuts better than any other kind of food on the table. We both gained steadily in health and strength, and this was caused by Grape Nuts and Postum.

"A friend of ours had a similar experience. She was seriously ill with indigestion and could find nothing to eat that would not give her heartburn and palpitation, especially at night.

"She found that a small dish of Grape-Nuts with cream made her a satisfactory supper and gave her a comfortable night's rest. In a short time she gained seven pounds in weight."

"There's a Reason." Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

GROW YOUR OWN MEDICINE.

Some Drugs Are Now Worth Their Weight in Gold.

What has become of the family medicine-chest, stocked with the products of the herb-garden? It has gone the way of most old-fashioned customs, but its revival is imminent.

The drug-markets of Germany and Austria are now closed, and, in consequence of the very large proportion of drugs which were yearly imported from these countries, we are now paying the price in more senses than one. Cod-liver oil is sixty per cent. dearer than formerly, astropine fetches from $35 to $40 an ounce, bromide is ten times as dear, and aspirin has realised a figure unheard of before hostilities commenced. Certain drugs are now worth their weight in gold.

When you plan out your garden this year, have an eye to the practical as well as the picturesque. Rosemary is not only a pretty plant, but makes a most effective hair-wash, and a good sweetmeat. Pennyroyal was patronized by Queen Elizabeth, who is said to have bought herself penny packets of the herb. Agrimony is an excellent tonic; camomile flowers and camomile tea make an excellent spring medicine.

Rue, betony, cummin, hyssop, horehound, and comfrey should all be given their chance.

ELECTRIC LIGHT ON THE FARMS

Assists in Keeping Young People at Home.

The Hydro-Electric Power Commission of Ontario, in its Seventh Annual Report, gives some interesting data on the advantages and cost of installation of electric lighting in farm houses and outbuildings. The report says: The farmers in the districts that are being served greatly appreciate the improved condition on their places by reason of having electric light in the house, barn, drive shed, and yard. With previous forms of lighting, the dull appearance of the place from the road and from the yard had a depressing effect. The attractive contrast that is the result of installing electric light will probably be beneficial in keeping the young people on the farm. The decrease of fire risk on the premises due to the absence of coal oil lanterns and lamps is another feature that is usually considered by the farmer in arriving at a conclusion regarding the installation of electric service on his premises.

"Installations in barns are now being made in conduit, as this method is found necessary for the protection of the wires and fittings. The cost of installation varies according to conditions in the different districts. The open wiring varies from $1.25 to $1.75 per outlet and the concealed wiring from $1.50 to $2.25 per outlet. Conduit installations in the open, that is, in barns and farm buildings, vary from $3.25 to $4.50 per outlet. The outlet in each case is the opening for either fixture or switch; it does not include fexcept where drop cord is used) the fixture, but does include the switches."

KEEP CHILDREN WELL.

To keep little ones well the bowels must be kept regular and the stomach sweet. Nine-tenths of childhood ailments are caused by derangements of these organs. Baby's Own Tablets never fail to regulate the stomach and bowels—that is why thousands of mothers would give no other medicine to their little ones. Concerning them Mrs. Chas. A. Turner, Marie Joseph, N.S., writes:—"We have been using Baby's Own Tablets off and on for the past year and a half and have found nothing to equal them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

1,200,000 MAKE MUNITIONS.

Germany Has Huge Army Turning Out War Supplies.

Germany now has 1,200,000 men making munitions, according to Senator Charles Humbert, in an article in the Paris Journal, in which he says: "Krupps employed 42,000 hands at Essen before the war. This figure has now reached 115,000, but Essen is only the principal factory. At other works the number of workers has risen from 6,000 to 15,000; from 14,000 to 30,000; from 6,000 to 30,000; from 9,000 to 27,000; while the Bochum and Gelsenkirchen works now employ 25,000 hands instead of 10,000 in time of peace.

"There also exist in Germany two other enterprises exclusively devoted to the making of artillery, namely, Thyssens, which employ 80,000 men and the Ehradt works, which employ 100,000, instead of 30,000 and 40,000, formerly.

"Thus over 420,000 men on the other side of the Rhine are turning out war material, without counting the innumberable necessary work shops employing more than double that number in the manufacture of rifles, cartridges, shells, explosives and asphyxiating gases—or a total of over 1,200,00 men employed in various war industries, without including men who work in the factories for the production of raw material."

The Educated Tramp.

Lady—And you say you are an educated man?

Wearied Will—Yes, mum, I'm a roads scholar.

EXPENSIVE REPAIRS.

How the Village Blacksmith Repaired a Lamp Chimney.

In order to stimulate his trade, the village blacksmith hung out a sign that read, "Whatever It Is, I Can Repair It." On the morning of April Fool's Day, the town wag elbowed his way through the usual crowd that was collected round the door, and handed the blacksmith the parts of a broken lamp chimney.

"I'd like you to put this together for me as soon as you can, John," he said, winking toward the crowd.

The smith took the ragged bits of glass, examining them carefully while the idlers looked on with considerable amusement. Then he went into the room in the rear of the shop. Stepping across the alley to the grocery store, which was out of sight of the crowd, he bought a ten-cent lamp chimney exactly like the broken one. How everyone laughed when he stepped out of his little room a moment later and put the whole chimney into the astonished wag's hands with the dry remark:

"I'll have to charge half a dollar for that job."

Can Do My Work Pain is All Gone

MISS DOLLIE McCLAIN TELLS OF DODD'S KIDNEY PILLS

Alberta Lady Tells of Quick and Complete Cure Through Using Dodd's Kidney Pills.

Ferguson's Flats, Alberta, April 10th (Special.)—"Yes, I am very glad I can say that I have tried Dodd's Kidney Pills and found them all that is claimed for them." So says Miss Dollie McClain, an estimable lady residing here.

"I was troubled with a sore back that made me almost helpless. I took one box of Dodd's Kidney Pills and my back is all right. I can do my work and the pain is all gone."

Thousands of women in Canada are suffering daily tortures from pain in the back. Thousands of others like Miss McClain are doing their work without an effort because they took the advice of others and cured their backache by using Dodd's Kidney Pills.

Every woman should use Dodd's Kidney Pills. They are the finest tonic in the world because, acting directly on the kidneys, they tone up those organs to do their full work of straining all the impurities out of the blood. Pure blood means new strength for all parts of the body. New strength means new cheerfulness. That is why so many women so cheerfully testify to the benefit received from using Dodd's Kidney Pills.

THOUGHTS FOR THE DAY.

We can hardly hate anyone that we know.—Hazlitt.

One example is worth a thousand arguments.—Gladstone.

Thought is the wind, knowledge the sail, and mankind the vessel.—J. C. Hare.

A tactful man can pull a stinger from a bee without getting stung.—G. H. Lorimer.

It is hard to fail, but it is worse never to have tried to succeed.—Theodore Roosevelt.

To the mean eye all things are trivial, as certainly to the jaundiced they are yellow.—Carlyle.

There is always the sun, only we must do our part, we must move into it.—Clara Louise Burnham.

It is best to love wisely no doubt; but to love foolishly is better than not to be able to love at all.—Thackeray.

There is nothing expresses a man's particular character more fully than his letters to his intimate friends. —Steele.

Minard's Liniment for sale everywhere

A Clerical Submarine.

Church service was over, and three prominent members of the congregation walked home together, discussing the sermon.

"I tell you," said the first, enthusiastically, "Dr. Blank can certainly dive deeper into the truth than any preacher I ever heard."

"Yes," said the second man, "and he can stay under longer."

"Yes," said the third, "and come up drier."

I consider MINARD'S LINIMENT the BEST Liniment in use.

I got my foot badly jammed lately. I bathed it well with MINARD'S LINIMENT, and it was as well as ever next day.

Yours very truly,

T. G. McMULLEN.

No Kick Coming.

Mabel—So you asked papa for my hand? Did he give you any encouragement?

Arthur—Well, no, but he gave me a drink and a cigar, so I had no kick coming.

Minard's Liniment Cures Diphtheria

Make Your Body Tingle with life and energy for the day's work by eating foods that contain *real* nutriment—that do not use up all the vitality of the body in an effort to digest them. Shredded Wheat Biscuit supplies the greatest amount of body-building, energy-creating material with the least tax upon the digestive organs. It is a real whole wheat food, ready-cooked and ready-to-serve, containing the life of the wheat grain—nothing added, nothing taken away. Start the day right by eating Shredded Wheat with hot or cold milk. Serve it for luncheon with sliced bananas or other fruits.

Made in Canada.

HOW GERMANS STOP WASTE.

Smallest Metal Trifle is Saved and Sent to Government.

Every British newspaper at the present time is appealing to its readers not to waste certain things, as old newspapers, medicine and other bottles, wood, and so on.

In Germany the appeal was made many months ago and the greatest care has been taken of everything which could possibly help the German armies to continue their fight against the world.

Perhaps the most amazing example of economy of a nation is the way metal of all kinds is collected by the Huns. Not only are such obvious things as copper kettles, pans, doorknobs, handles, and fire irons collected, but everything in the metal line.

When a tube of toothpaste is empty it is not thrown away, but sent for the use of the Government. The tinfoil paper in which tea is put up is kept carefully, and the same with the "silver paper" around chocolate.

In Germany the various town councils advertise regularly for old metal of all kinds. From all towns the collection passes to the great German Government foundries at Mulden, where it is melted down and distributed to the ammunition factories to be transformed into shells and bullets.

Filial Observation.

"When I was your age I didn't dance till 1 or 2 o'clock in the morning."

"Well, paw," replied the young man who was being reproved, "maybe if you had you wouldn't be obliged to spend so much time and money now taking dancing lessons."

The Genius.

Johnnie—I wish I was Tommy Jones.

Mother—Why? You are stranger than he is, you have a better home, more toys and more pocket money.

Johnnie—Yes, I know; but he can wiggle his ears.

THERMOR Waterless Hot Bottle Remains Hot for 12 Hours Lasts a Lifetime

It is made of metal, nickel plated, of a convenient size.

Simply boil the "Thermor" for ten minutes only (no longer) and it stays hot for full twelve hours at an even temperature of 125 deg. Recommended by physicians on account of the steady heat and sanitary metal case.

No trouble — no filling — no danger of scalding the hands—no leaks—no expense and one purchase lasts a lifetime.

In sickness, such as Neuralgia, La Grippe, Rheumatism, Neuritis, Inflammation—in fact all aches and pains, the "Thermor" is invaluable. As a bed-warmer and a foot-warmer it has no equal.

"The "Thermor" measures 8½" across and is 1⅛" thick, yet it weighs less than a filled two quart rubber bottle.

The price is $4.00 sent Postpaid anywhere and sold under an absolute guarantee from the makers.

High-class representatives wanted in some territories.

GOLDEN GATE MANUFACTURING COMPANY, LIMITED
9 Youville Street,
Montreal.

TRAGIC FOLLY.

It will not be long before the fly season is again with us, accompanied by supplications from the general press to "swat the fly." Simultaneously, the deadly poison fly paper, makes its appearance, with the possible risk of fatal poisoning wherever there are children.

For during 1915 twenty-six cases of fly-poisoning were reported from eleven states. In 1914 forty-six children were innocent victims.

This record is in all probability incomplete as symptoms of arsenical poisoning are so similar to those of cholira infantum that even physicians of long experience are likely to confuse them, and the subsequent illness is ascribed to cholera infantum.

The Michigan U.S.A. Legislature has already passed a law regulating the sale of poisonous fly papers. The question should be considered by every civic body of Canada and the States to stop infantum mortality from an absolutely unnecessary cause.

Still Intact.

"How can she marry him, knowing that he's dissipated?"

"But his fortune isn't."

ELORA ROAD NORTH

Mr Jas Sparrow, of Owen Sound, spent a few days at the home of his parents.

Miss Tena Tanner, of Walkerton, is the new schoolmistress at Dunblane.

Pte John McArthur, of Owen Sound, spent the week end at his home here.

Mr John Bryce was in Toronto for a few days.

Miss Ethel Dudgeon spent last week at the home of her sister, Mrs Ed Fraser.

Mr Arthur Walker threshed some of his crop last week. Arthur's barn was so well filled that he was unable to thresh last fall.

Mr John Rae has been a busy man for the last two weeks in the sugar bush. Messrs John McDougall and Arch Bryce are also making syrup.

Mr Neil McArthur, jr, is away to Saskatoon with a load of horses.

Messrs Alex Rose and Harry McCavish have rented Mr Robt Adams' farm for grass.

PINKERTON

Mr William Cruickshanks, one of our oldest and most respected citizens died at the Walkerton hospital on Thursday last, and was buried on Saturday afternoon. The late Mr Cruickshanks was always known to be fair and honest in all his dealings, and his death is generally regretted. He leaves a grown up family to mourn his loss.

Miss Alma Reid and Mrs (Capt) J A Reid are visiting friends in Toronto.

Senator Donnelly spent the week end at his home here.

Mr Jas Gale left on Saturday for Bethany, where he will preach in the summer months.

Prayer meeting this week was held at the home of Miss Gibb on Wednesday evening.

DEATH OF MRS. JAS. PEACOCK

Mrs James Peacock, a highly respected resident of Mount Hope, died at her home, lot 11, con 14, Elderslie, on Saturday, April 15th, after a comparatively short illness. About four weeks previous to her death she had a severe attack of la grippe, which caused internal complications and made it necessary for an operation to be performed. The operation failed to save her life, however. In spite of the best medical skill obtainable, together with careful nursing, she passed away. The deceased, whose maiden name was Isabel T Armstrong, was born in Ayr, Waterloo Co., Ont., thirty-seven years ago. Her marriage to Mr Peacock was solemnized at Ashfield on Nov 1st, 1911. Since then they have resided in the vicinity of Mount Hope. Mrs. Peacock was of a calm, lovable disposition, and possessed the attributes of an earnest christian. Her kindly, unostentatious manner endeared her to the hearts of her friends and neighbors, who will long hold her in loving memory. She and her husband were members of the Methodist church, where she was a valued helper in all the varied branches of the church's work. While friends mourn her departure from their midst, her happy spirit has been translated to the higher service of the church triumphant. Besides her husband she is survived by four sisters—one in Huron Tp, one in Winnipeg, one in Chicago, and Mrs Isaiah Monkman in Arran Tp.,—also a brother in the U.S. On Monday, 17th inst., her remains were interred in Tara cemetery. The funeral services at the home and church were conducted by her pastor, Rev Mr Ockley, assisted by Rev Mr Baudy of Dobbinton and Rev Mr Neilson of the Baptist church, Paisley. The large gathering of friends and neighbors and the beautiful floral tributes bore eloquent testimony to the esteem in which the deceased was held in the community. To the sorrowing husband and friends is extended heartfelt sympathy.

Many Horses and Cattle Burned

Four valuable horses, twenty-five head of cattle, fifteen pigs and a large number of hens were burned to death in a fire which destroyed the mammoth barn of Mr. Alex. McInyre on the 9th concession of Brant about three o'clock on Tuesday morning. The barn, which was one of the largest in the township, was also well filled with implements, including a portable steam threshing engine, together with some 1,600 bushels of grain and a large crop of hay and straw, all of which were destroyed in the conflagration. Of the entire contents, four horses and seven cows were alone saved. The origin of the fire, which is supposed to have started in the straw mow, is a mystery, as no lantern had been near the barn that night, the owner having been away all evening attending a Farmers' Club meeting along with the rest of the neighbors, and on returning about midnight had straightway retired. He was awakened about 3 o'clock by a glare on his window, and looking out discovered his barn in flames. His sister, who resides with him, summoned the neighbors by phone, while Mr McIntyre rushed to the rescue of his stock. While loosening the horses he was kicked by one of them on the thigh, and knocked to the floor, while several of the animals passed over him. Luckily he was able to grope his way out, for before help arrived the part he was in was entirely enveloped in flames, and he must surely have perished in the blaze had his injury been such that he couldn't have made his way out unaided. As it was he was severely burned about the head and neck. Of the 25 cattle burned, 8 of them were fat steers which had been sold and were to be delivered this week.

The origin of the fire is shrouded in mystery, as Mr. McIntyre has no enemies, and no likely reason or theory can be advanced for it. The loss, which is estimated at $6000, is partially covered by $2,500 insurance in the Farmers' Central Mutual of Walkerton.—Herald and Times.

County Board of Agriculture Instead of Farmers' Institutes

Among the many organizations having for their object the advancement of Ontario agriculture none has been of greater service nor had a wider field of usefulness than the Farmers' Institutes. Organized in 1884 by Dr James Mills, late of the Ontario Agricultural College, they have made steady growth all these years and have proved an influential agency in promoting discussion and developing increased interest in the business of improved farming.

It is true there are many agricultural associations among farmers, breeders and dairymen in this Province, but none has brought the work of the Agricultural College, the experiment station and the methods of the most successful farmers to the attention of the everyday farmer in such a simple, attractive and instructive way as has been done through Farmers' Institutes and their staff of speakers. That this work may go on more intensely than it has done in the past it is the intention of the Department of Agriculture to unify all the agencies having for their object the improvement of agricultural conditions in this Province, and also to bring all classes of the community, whether urban or rural, into closer contact with each other, by the formation in each county in the Province of what is known as "A County Board of Agriculture." The object of the new organization will be to interest all by holding meetings at different centres throughout the county, by fostering social gatherings at least once a year, by affording practical demonstrations in different methods of farm work and developing of live stock.

Membership in the new organization shall be made to embrace men on the farm, in the professions, in business and mercantile pursuits.

The work of the organization shall be under the control of a board of directors formed from representatives of Farmers' Clubs, Agricultural Societies, Boards of Trade, municipal councils, Horticultural Societies, Women's Institutes and other kindred organizations, who shall be under the direction of a superintendent appointed by the Department of Agriculture.

This matter was discussed at the series of Institute meeting held throughout the Province during the past winter and the new organization will be effected at the annual meetings of Farmers' Institutes to be held during the month of June. The proposed organization has a it, for at no period in the history spl n did fe'd of opportunity before of this country has the interest in rural occupation been so strong as at the present time and any organization having for its object the bringing closer together and encouraginga more sympathetic relationship between those who happen to live in the town and those who live on the land must have a magnificent future before it.

PRODUCTION AND THRIFT

To use the words of Hon. Thos. White, Minister of Finance: "In order that the resources of the country may not only be conserved but increased for the great struggle that lies before us," the Dominion Department of Agriculture have put on another advertising campaign to stimulate production and thrift by Canadians. The first advertisement of a series has appeared in the newspapers, including THE ADVOCATE, and should be read by everyone. Production must be kept up, so that the great scheme of war may not be a failure from lack of food for the combatants who are fighting our battles.

Hog for Service

THE undersigned has for service on his premises a pure bred Yorkshire hog. W. G. HITCHIE, 95th con, Greenock.

Production and Thrift

"TO win the war with the decisiveness which will ensure lasting peace, the Empire will require to put forth its full collective power in men and in money. From this viewpoint it is our true policy to augment our financial strength by multiplying our productive exertions and by exercising rigid economy, which reduces to the minimum all expenditures upon luxuries and non-essentials. Only in this way shall we be able to make good the loss caused by the withdrawal of so many of our workers from industrial activities, repair the wastage of the war, and find the funds for its continuance. It cannot be too frequently or too earnestly impressed upon our people that the heaviest burdens of the conflict still lie before us, and that industry and thrift are, for those who remain at home, supreme patriotic duties upon whose faithful fulfilment our success, and consequently our national safety, may ultimately depend."—
SIR THOMAS WHITE, Minister of Finance.

PRODUCE MORE, SAVE MORE.
MAKE LABOUR EFFICIENT.
SAVE MATERIALS FROM WASTE.
SPEND MONEY WISELY.

LET US PRODUCE AND SAVE—

The war is now turning on a contest of all forces and resources—men, munitions, food, money. The call to all is to produce more and more. It may be necessary to work harder. The place of those who enlist must be taken by those at home, men and women, old and young. The more we produce the more we can save. Produce more on the farms and in the gardens. Save more and help to win the war.

LET US NOT WASTE OUR LABOUR—

In this war-time all labour should be directly productive or should be assisting in production. Make it as efficient as possible. If your labour is on something that can be postponed, put it off till after the war and make your labour tell now. Making war is the first business of all Canadians. Efficiency in labour is as important as efficiency in fighting.

LET US NOT WASTE MATERIALS—

Begin at home. The larger portion of salaries and wages is spent on the home—food, fuel, light, clothing. Are any of these things being wasted? $20.00 a year saved from waste in every home in Canada will more than pay the interest on a war debt of $500,000,000.

LET US SPEND OUR MONEY WISELY—

Are you spending your money to the best advantage? What do you think of extravagance in war time? Tens of thousands of Canadians are daily risking their lives for us at home. Is it not our duty to be careful and economical? Canadian dollars are an important part of the war equipment. Make them tell. Have a War Savings Account. Buy a War Bond.

Oddfellows to Church

On Sunday morning, April 30th, the Oddfellows will attend service in the Church of the Ascension. The brethern will meet at the lodge hall at 10 30 o'clock and march to the church.

Promoted at the Front

Mr. and Mrs. Dan McNeil received a letter last week from their son, Pte. Archie McNeill, in which he informs his parents that he has been promoted to a position in the Intelligence department. At present was in the trenches for over a year, and was once wounded.

Away for Easter

Miss Elizabeth Gibson, to Toronto.

Mrs T Kerr to Rockwood, and Miss Pre lance to Hespeler.

Miss Wankel, to Port Elgin.

Miss Kerr (milliner) to her home at Dutton.

Miss Rose Woodcock and Charlotte Sutherland to Guelph.

Mr P C Kennedy to Toronto.

Harold Blue to Niagara Falls, N.Y.

Soldiers Crossed the Briney

Several more of the Paisley boys in khaki have landed in England with the latest battalions sent over to the training camps. Pte Carl Ralston, Frank Boyle and T. Fear, of the 71st, are former Paisleyites, also Vic Smeaton, of the 5th University Corps of re-inforcements for the Princess Patricias. Harry Marshall and Wilfred McGill of the Signal Corps. Interesting letters from the last named appear in this issue of The Advocate.

EASTER SUITS

Plenty of people have yet to buy suits. They have lost nothing, either—not a thing. Suits have been going out in a regular procession, but we have been replenishing stocks right along.

Just as much here at this minute as at the season's beginning.

Call—choose the cloth—learn the price—leave the rest to us.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XIII.—(Cont'd).

Vegan and Miraflores had not surrendered. Everywhere, the insistent noise told that the opposing forces were at it debating every block of the street, but in many outlying places, as in this calle, the revolutionists were already giving back. The attacking army had counted on launching a blow, paralyzing in its surprise, and had itself encountered surprise and partial preparedness. It had set its hope upon a hill, and the hill had failed. A prophet might already read that Vegan Liberated was the watchword of a lost cause, and that its place in history belonged on a page to be turned down.

But the narrow street in which Saxon lay remained quiet. An occasional balcony window would open cautiously, and an occasional head would be thrust out to look up and down its length. An occasional shape on the cobbles would moan painfully, and shift its position with the return of consciousness, or grow more grotesque in the stiffness of death as the hours wore into late afternoon, but the quiet iron-studded street-doors of the houses remained barred, and no one stood along the sidewalks.

Late in the day, when the city still echoed to the snapping of musketry, and rumor notes rumbled through the air, small field-pieces were brought to bear upon crossing barricades, the thing that Saxon had undertaken to bring about occurred of its own initiative. Word reached the two leaders that the representatives of the foreign powers resident in Miraflores had come out of their wounded and a number of the American legation, took immediate steps to effect a truce, the government and the insurrectos each seeking to gain the opportunity for their men, exhausted with a long fighting, a breathing space and to move from the zone of shot. Slowly, dazzled in the streets.

Then, as the firing subsided, some of the bolder civilians ventured forth in search for such necessaries as had been caught in the streets by the outbreak of fighting. Saxon, who might not long enjoy immunity.

Among them was Howard Rodman, who, followed up the patch he fancied Saxon must have taken. Rodman was haggard and distrait. His plans were all in ruins, and endless as an army were declared, he must be once more the reformer. His belief that Saxon was safely latter led him into two false conclusions. First, he inferred from this premise that Saxon's life would be so greatly imperiled as his own, and it followed that he, in his own words "got quicker" than Saxon out of the city, if it might be effected. He supposed that in the effort to reach the legation Saxon had taken, as would anyone familiar with the streets, a circuitous course which would bring him to the "Club Nacional," from which point he could reach the house he sought over the roofs. He had no doubt that the American had failed in his mission, because, by any route, he must make his way through streets where he would encounter fighting.

Rodman's search became feverish. There was little time to love. The conference might be brief—and, after that, chaos! But fortune favored him. Chance led him into the right street, and he found the body. Being alone, he stood for a moment indecisive. He was too light a man to carry bodily the wounded friend who lay at his feet. He could certainly not leave the man, for his ear at the chest, his finger on the pulse, assured him that Saxon was alive a balcony above and the skull seemed badly hurt, probably fractured.

As Rodman stood debating the dilemma, a shadow fell across the pavement. He turned with a nervous start to recognize at his back a newcomer, palpably a foreigner and presumably a Frenchman, though his excellent English, when he spoke, was only slightly touched with accent. The stranger dropped to his knee, and made a rapid examination, as Rodman had done. It did not occur to him at the moment that the man standing near him was an acquaintance of the other who lay unconscious at their feet.

"The gentleman is evidently a noncombatant—and he is badly hurt, monsieur," he volunteered. "We must assuredly cannot leave him here to die."

Rodman answered with some eagerness.

"Will you hold me to carry him to a place where he'll be safe?"

"Gladly." The Frenchman looked about. "Surely, he can be cared for near here."

But Rodman laid a persuasive hand on the other's arm.

"He must be taken to the center of the battle, while his eyes frowned inquiringly. He was disinclined to take part in proceedings that might have political after-effects. He had volunteered to assist an injured civilian, not a participant, or refugee. There were many such in the streets.

"This is a matter of life and death," urged Rodman, rapidly. "This man Saxon was safely latter led him into two false conclusions. First, he inferred from this premise that Saxon's life would be so greatly imperiled as his own, and it followed that he, in his own words "got quicker" than Saxon out of the city, if it might be effected. He supposed that in the effort to reach the legation he became involved, and used the insurrecto counters go. Mr. Saxon is a famous artist." Rodman was giving the version of the story he knew the wounded man would wish to have told. He said nothing of Carter.

At the last words, the stranger started forward.

"A famous painter!" His voice was full of incredulous interest. "Monsieur, you can not by any possibility mean that this is Robert A. Saxon, the first disciple of Frederick Marston!" The man's manner became enthused and eager. "You must know, monsieur," he went on, "that I am Louis Herve, myself a poor copyist of the great Marston. At one time, I had the honor to be his pupil. To me, it is a pleasure to be of any service to Mr. Saxon. What are we to do?"

"There is a small sailors' tavern near the mole, directed Rodman; "we must take him there. I shall find a way to have him cared for on a vessel going seaward. I have a yacht five miles away, but we can hardly reach it in time."

"But medical attention!" demurred Monsieur Herve. "He must have that."

Rodman was goaded into impatience by the necessity for haste. He would not be denied.

"Yes, and a trained nurse!" he retorted, hotly. "We must do the best we can. If we don't hurry, he will need an undertaker and a coroner. Medical attention isn't very good in Puerta Frio prisons!"

The two men lifted Saxon between them, and carried the unconscious man toward the mole.

Their task was like that of many others. They passed a sorry procession of litters, stretchers, and bodies hanging limply in the arms of bearers. No one paid the slightest attention to them, except an occasional sentry who gazed on in stolid indifference.

At the tavern kept by the Chinaman, Juan, and frequented by the roughest elements that drift against a coast such as this, Rodman exchanged greetings with many acquaintances. There were several wounded officers of the Vegas contingent, taking advantage of the armistice to have their wounds dressed and discuss affairs over a bottle of wine. Evidently, they had come here instead of to more central and less squalid places, with the same idea that had driven Rodman. They were the rats about to leave the sinking ship—if they could find a way to leave.

The tavern was an adobe building with a corrugated-iron roof and a large open patio, where a dismal fountain tinkled feebly, and one or two frayed palms stood dusty and disconsolate in the tightly trodden earth. About the walls were flamboyant portraits of saints. From a small perch in one corner a yellow and green parrot squawked incessantly.

But it was life about the rough tables of the men that gave the picture its color and variety. Some had been pressed into service to support the wounded. About others gathered men in tattered uniforms, men with bandaged heads and arms in slings. Occasionally, one saw an officer, a sailor whose clothes declared him to have no place in the drama of the scene. These latter were usually hilarious in their bravado with aguardiente against the sense of impending uncertainty that freighted the atmosphere.

The Frenchman, sharing with Rodman the burden of the unconscious painter, instinctively halted in the place with its wavering shadows and flickering lights met his gaze at the door. It was a picture of color and dramatic intensity. He seemed to see these varied faces, upon which sat defiance and suffering, sketched on a heated canvas, as Marston or Saxon might have sketched them.

Then, he laid Saxon down on a narrow table, and stood watching his chance companion who recognized brother intrigues. Suddenly, Rodman's eyes brightened, and he beckoned his Frenchman toward two men who stood apart. Both of them had faces that were in strong contrast to the swarthy Latin American countenances about them. One was thin and bland, the other dark and heavy. The two came across the patio together, and after a hasty glance the slender man bent at once over the prostrate figure on the table. His deft fingers and manner proclaimed him the surgeon. His uniform was nondescript; hardly more a uniform than the riding clothes worn by Saxon himself, but on his shoulders he had pinned a major's straps. This was Dr. Carmody, of the Foreign Legion, but for the moment he was absorbed in his work and forgetful of his professional of limited profession of arms.

He called for water and bandages, and, while he worked, Rodman was talking with the other man. Herve stood silently looking on. He recognized that the dark man was a ship-captain probably commanding a foreign freighter.

"When did you come?" inquired Rodman.

"Called at this port fat coal," responded the other. "I've been down to Rio with flour, and I have to call at La Guayra. I call at two hours."

"Where do you go from Venezuela?"

"I sailed out of Havre, and I'm go back with fruit. The Doc's had about enough. I'm goin' to take him with me."

For a moment, Rodman stood considering, then he bent eagerly forward.

"Paul," he whispered "you know me. I've done you a turn or two in the past."

The sailor nodded.

"Now I want you to do me a turn. I want you to take this man with you. He must get out of here, and he can't care for himself. He'll be all right—either all right or dead—before you land on the other side. The Doc here will look after him. He's got money. Whatever you do for him, he'll pay handsomely. He's a rich man." The filibuster was talking rapidly and earnestly.

"Where do I take him?" asked the captain, with evident reluctance.

"Wherever you're going; anywhere away from here. He'll make it all right with you."

The captain caught the surgeon's eyes, and the surgeon nodded.

Rodman suddenly remembered Saxon's story, the story of the old past that was nothing more to him than another life, and the other man upon whom he had turned his back. Possibly, there might even be efforts at locating the conspirators. He leaned over, and, though he sunk his voice low, Herve heard him say:

"This gentleman doesn't want to be found just now. If people ask about him, you don't know who he is, comprende?"

"That's no lie, either," growled the shipmaster. "I ain't got an idea who he is. I ain't sure I want him on my hands."

On the Farm

To Make First-Class Butter.

Begin by having the milking done in a cleanly way and in a clean stable. Keep the separator in condition by washing and scalding thoroughly after each using. Cool the cream immediately to 50 degrees or lower, in a tub of ice and water and keep cool and sweet until the churning is gathered. Keep the cream covered securely, but not tight. Let the temperature rise to 60 degrees or thereabouts, and add a good starter. There is nothing better for this purpose than well flavoured butter milk Stir frequently until the cream is thick, sour and has a glossy appearance, when it is ready for the churn.

Scald the churn and rinse with cold water before putting in the cream. The temperature should not be above 58 degrees in summer and 62 in winter and the butter should "come" in from 20 minutes to half an hour. Stop churning when the butter is in granules about the size of small wheat, draw off the butter-milk, and rinse with cold water until no trace of milk remains. Care in this matter has much to do with the keeping qualities of the butter.

Remove the butter, (which should still be in grains) to a vessel in which it can be weighed, I use a shallow candy pail, weigh, turn out on the butter worker, and apply salt, from one pound to one and one-half ounces to a pound of butter. You will have to regulate the amount to suit the taste of your customers. Much of mine is sold unsalted. Work very gently, being careful not to spoil the texture of the butter by unnecessary pressure. Let stand half an hour, work again, and print or pack. In printing, make the prints full weight, perfectly shaped and wrap neatly with a good quality of parchment, bearing your name and address, or farm name. Keep in a cool place until wanted for marketing, then place in a clean box or basket, having a clean white cloth around and over the butter, and paper over that and under the box lid. Never let cream or butter stand when there is an odor of any kind.

When you go to market be sure your butter is good and say so. Have it looking neat and clean, yourself (or salesman) dirty, and you'll have no trouble in making good sales.

No, I didn't forget the coloring. The above describes my way of making butter and I never use butter coloring.—Miss. Alex. Aglilary in Farm and Dairy.

Cutting Potato Seed.

In a bulletin issued by the South Dakota Agricultural College, it was shown the the yield of potatoes from pieces of large seed potatoes was 28 per cent. higher than from pieces of small seed potatoes. A more recent bulletin is now to hand from South Dakota, giving a series of experiments designed to determine the relative influence of the mere size of tuber and the strain of tuber in the increased yield obtained by planting pieces of larger tubers. Five series were arranged as follows:—

1. Seed pieces of a given size from selected tubers.
2. Seed pieces of this same size from small tubers or culls.
3. Small seed pieces from tubers of a given size.
4. Medium seed pieces from tubers of a given size.
5. Large seed pieces from tubers of a given size.

These series of plots were carried out with two varieties of potatoes Early Ohio and Carman No. 3.

With regard to the first two series, out of a total of nine pairs of rows, six gave differences in favor of the selected tubers, though the seed pieces were equal in size in all cases. This superiority for the two varieties averaged 5.53 bushels per acre.

In the series 3, 4 and 5 the size of the seed pieces was the only variable factor, each piece being reduced to one eye, only. In every instance there was a pronounced difference in favor of the large seed pieces and the increase in production varied with the increase in size of the seed pieces. The average results of the two varieties (8 plots) were:—

	Bushels per Acre	Per cent.
Small seed pieces	174.73	100
Medium seed pieces	271.71	155.5
Large seed pieces	298.59	170.9

In order to determine the effect of strain of tuber on quality of crop, the crops of potatoes obtained in series 1 and 2 were weighed individually and from small seed 61.8 per cent. weighed 2 ounces or more, whilst the percentage from large seed was 67.6 thus showing a slight superiority in the quality of the crop from selected tubers.

Warm Water for Cows.

Care and attention to the little things pay. Often, little improvements in our system of methods accomplish surprising results.

Milk is nearly 90 per cent. water. To make large quantities of milk a cow requires a large amount of water. In summer she usually has access to water at all times and helps herself at will, but when winter comes she is in the barn most of the time and is offered water only once, or possibly twice, a day. To make matters worse, the water is often at or near freezing temperature, the cold water chills he entire digestive system. The water must be warmed by some means and a considerable amount of heat energy is required to do it. This can be supplied either by feeding the cow plentifully and letting her warm the water, or by heating it with fire.

The question of warming water, then, resolves itself into which method is cheaper. Corn is a nutrient-supplying food. It is not profitable, however, to burn it in a stove to heat a house, because coal accomplishes the same result at a small fraction of the cost. Then why use corn to warm water for the cow?

The amount of water that a cow drinks will be found to have a direct relation to the amount of milk she produces; in general, the more water the more milk. It is essential, then, to provide all the water that she will drink at any season of the year. In the winter, especially in the northern states, water must be warmed in order to produce the best results. Probably the easiest and cheapest way to accomplish this is by using a tank heater. Circular No. 93, United States Department of Agriculture.

What Piano Would Say.

"So Miss Harper played for you? She claims that she can make the piano speak."

"Well, I'll bet if it spoke it would say, 'Woman you have played me false.'"

A horse may pull with all its might, but never with its mane.

THE KAISER'S LOST EMPIRE.

Particulars of Captured German Colonies.

Mr. Bonar Law has furnished a table giving the following particulars of the German colonies captured, and the value of their revenue:—

S. W. Africa—Area, 322,450 square miles. In 1914 estimated revenue £1,175,000 and expenditure £2,017,000. In 1913 imports valued at 43,000,000 marks, and exports at 70,200,000 marks.

Cameroons—Area, 300,000 square miles. In 1914 estimated revenue £565,000, and expenditure £903,000. In 1913 imports valued at 34,600,000 marks, and exports at 29,100,000 marks.

Togoland — Area, 33,700 square miles. In 1914 estimated revenue £175,000, and expenditure - £209,000. In 1913 imports were valued at 10,600,000 marks and exports at 9,100,000 marks.

In the Pacific—Samoa 650 square miles, and Upolu 340 square miles. In 1914 estimated revenue £595,000 and expenditure £690,000. In 1913 imports valued at 5,700,000 marks, and exports at 5,300,000 marks.

Kaiser Wilhelmsland and Pacific Islands—70,000 square miles. No details of revenue.

Bismarck Archipelago — 26,640 square miles. The chief towns are Rabaul and Herbertshoe, both in New Pommern.

Caroline Islands, Pelew Islands, Marianne Islands, and Marshall Islands—Area, 1,000 square miles, and estimated population, 50,159. Revenue estimated at £103,000, and expenditure at £191,500.

Imports of Kaiser Wilhelmsland and the Bismarck Archipelago, estimated at 5,872,000 marks, and those of Caroline and Marshall Islands at 2,335,000 marks, a total of 9,207,000 marks. Exports for the former estimated at 5,011,000 marks, and for the latter at 7,046,000 marks, a total of 12,057,000 marks.

Kiao-Chau — Area, 200 square miles. The principal town is Taingtau. Revenue for 1914 estimated at 8,060,000 marks, and expenditure at 18,410,000 marks. In 1912, imports valued at 141,251,000 marks, and exports at 79,940,000 marks.

Probably the best way to get rich quick is to go slow.

PAINS AFTER EATING

WIND IN THE STOMACH—ACIDITY, HEADACHES—CONSTIPATION

ARE SIGNS OF INDIGESTION.

Indigestion—the complete or partial failure of the digestive processes—frequently throws out of gear the whole machinery of the body. You can't enjoy the meals and you can't get health unless your stomach, liver and bowels do their work regularly and efficiently.

MOTHER

SEIGEL'S SYRUP

As a digestive tonic and stomachic remedy, Mother Seigel's Syrup is esteemed in tens of thousands of homes, where for the English ingredients it contains. It very often cures when all other methods fail. It overcomes disorders of the stomach, liver or bowels, by the effect of taking 15 to 30 drops of this famous remedy in water, after meals, for a few days and note its beneficial effects.

ASSISTS DIGESTION

The word Elliman (meaning Relief to man or beast) on the bottle and on the Outer Wrapper.

SPOHN'S DISTEMPER COMPOUND

INFLUENZA

Catarrhal Fever Pink Eye, Shipping Fever, Epizootic

And all diseases of the horse affecting his throat, speedily cured; colts and horses in same stable kept from having them by using Spohn's Distemper Compound. 2 to 4 doses often cure; one bottle guaranteed to cure one case. Safe for brood mares, baby colts, stallions, all ages and conditions. Most skilful scientific compound. Sold by the bottle or dozen. Any druggist or delivered by manufacturers.

SPOHN MEDICAL CO., Goshen, Ind., U.S.A.

The Housewife's Corner

Maple Sugar Dishes.

Maple Syrup Custards.—Mix thoroughly four well-beaten eggs, a pinch of salt, three cupfuls of sweet milk and one cupful of maple syrup. Pour it into buttered individual moulds and set them in hot water. Bake the mixture slowly until it is firm. Chill them, turn the custard out of the moulds and serve it.

Hot Maple Nougat.—Boil together two cupfuls of maple syrup and one teaspoonful of butter until they reach the soft ball stage—238 degrees. Add one half cupful of chopped pecan nuts and stir the whole well. Use it as a sauce for ice cream. When the hot syrup comes in contact with the cold cream, it forms a delicious caramel.

Maple Parfait.—Sweeten cream with maple syrup and whip it until it is very thick. Pour the cream into a mould that has been sprinkled with nut meats chopped fine. Cover the top of the mould with wrapping paper, and press the lid down securely and tie it with a stout cord. Bury the mould in crushed ice and salt and leave it for four hours.

Maple Whip.—Mix and bring to the boiling point one-half cupful of white sugar, the yolks of two eggs, one cupful of maple sugar and two cupfuls of cold water. Add a pinch of salt and two tablespoonfuls of cornstarch dissolved in a little cold water. Cook the whole until it is thick and remove it from the fire. When it is cold, add the stiffly beaten whites of two eggs. Serve it with cream and sugar.

Maple Nut Fudge.—Boil two cupfuls of maple sugar and one cupful of milk until a bit from the mass will form a soft ball in cold water. Add one tablespoonful of butter, one teaspoonful of vanilla extract, and one-half pound of English walnuts chopped very fine. Remove the mixture from the fire and beat it until it is thick; then add the beaten white of one egg and beat the whole until it is very stiff. Pour it into buttered tins. When it is cold mark it into squares.

Maple Delight.—Beat the yolks of four eggs until they are light. Add gradually three-quarters of a cupful of maple syrup, then one pint of thick, sweet cream. Cook the whole in a double boiler until it is thick enough to eat with a spoon. Remove it from the fire and beat it with an egg whip until it is light. When it is cold, whip in the well-beaten whites of four eggs to which have been added one-half cupful of grated maple sugar. Pack it in ice and salt and leave it for four hours.

Maple Mousse.—To one cupful of maple syrup add the well-beaten yolks of four eggs. Cook the liquid in a double boiler, stirring it constantly, for fifteen minutes. Remove it from the fire and beat it until it is quite cold. Stir in two tablespoonfuls of finely chopped candied ginger, then add one pint of cream, whipped. Pour the mass into a mould, cover it with paper, and put the lid of the mould in place, making sure that it is very tight. Pack the whole in ice and add salt and leave it for four hours.

Maple Butterscotch Pie.—Beat together one cupful of sweet milk, one egg, one heaping tablespoonful of flour and a pinch of salt. Melt three-quarters of a cupful of butter with one cupful of grated maple sugar. Combine the two mixtures and cook the whole in a double boiler until it is thick. When it is cool, pour it into a baked pastry shell and cover it with a meringue made of the stiffly beaten white of one egg to which has been added one tablespoonful of maple syrup. Brown it in the oven and serve it cold.

Maple Tapioca.—Soak four heaping tablespoonfuls of tapioca for four hours in sufficient cold water to cover it well. Drain off all the water that remains, add one quart of sweet milk and a pinch of salt, and cook the whole until the tapioca is clear. Then add the yolks of four eggs beaten with one cupful of grated maple sugar. Cook it until it is thick. Add one teaspoonful of vanilla and pour the mixture into a baking pan. Cover it with a meringue made from the whites of the eggs and two tablespoonfuls of maple sugar. Brown it and serve it cold with plain cream.

Miscellaneous Recipes.

A savory dumpling may be made as follows: Take a quarter of a pound of suet and half a pound of flour, a teaspoonful of salt and enough cold water to mix, into which stir three finely shaved onions. Mold with the hands into a ball and tie up in a floured cloth, room being allowed for its swelling, and boil three hours. When done, turn out, cut in slices and cover with a brown sauce made from plain drawn butter, to which a cup of gravy and a dash of table sauce has been added.

One way to cook beef tongue so as to make it palatable, cover a tongue with cold water and add a sliced onion and two cloves. Simmer until tender, drain and take off the skin. Pour a cupful of strained tomato juice and two cupfuls of meat stock into a casserole, and put the tongue in. Cover, and cook slowly in the oven for about half an hour. Serve with spinach, which has been boiled, chopped, seasoned with salt and pepper and melted butter, and garnish with egg. Thicken the gravy in which the spinach was cooked in the casserole, and serve as a gravy.

This recipe for gingerbread is said to be very good. Stir together one large cupful of molasses, half a cupful of butter and lard, dripping, or any good commercial shortening, one egg, half a cupful of milk, one level teaspoonful of baking-soda, half a teaspoonful of salt, one teaspoonful of ginger, half a teaspoonful of cinnamon, and three cupfuls of flour.

This is a good way to use the leftovers of fried or cold boiled ham. Run one cup of cold ham through the grinder and add to it one cup of cream sauce made by melting one tablespoonful of butter and stirring into it one tablespoonful of flour until thick. Add to the ham and cream sauce three hard-boiled eggs, which have been chopped fine, and one-half a cup of breadcrumbs. Put in a buttered dish and bake until brown.

This is a good white cake recipe: Whites of four eggs, one-half cup butter, one cup sugar, two cups pastry or cake flour, two round teaspoons baking powder, one-half cup water with juice of one-half lemon in one cup water. Cream butter and sugar, then add water and flour alternately (having sifted the baking powder in flour); lastly fold in the whites and flavor as desired. Bake in a slow oven and ice with white icing.

Useful Hints.

It is wrong to cook the vegetables in an iron kettle.

Practice alone gives the confidence and experience necessary to turn out good pastry.

To clean lamp burners wash them in wood ashes and water and they will come out clean and bright.

Wipe the kitchen oilcloth with skimmed milk. This treatment is almost as beneficial to the cloth as a coat of varnish.

To clean bamboo furniture use a brush dipped in warm water and salt. The salt prevents the bamboo from turning color.

To make an excellent dressing for linoleum take equal parts of linseed oil and cider vinegar and mix them thoroughly together.

If you rub a little butter under the spout of the cream pitcher it will prevent a drop of cream running down the side of the pitcher.

Coffee and tea stains, if rubbed with butter and afterwards washed in hot soap-suds, will come out, leaving the table linen quite fresh and white.

Rub cornstarch on a grease spot and it will absorb the grease. Rub off in two hours. If not all gone repeat until the spot is cleared of grease.

Salt should never remain in anything rubber—for instance, hot water bottles or syringes. Rinse them out thoroughly or the rubber will soon rot.

As you pack each article for moving make a note of where you put it, and when you want to reach a certain article you can do it without any difficulty.

When about to clean paint in a kitchen or other rooms where there is a stove heat a boiler of water and allow it to boil without a cover for a long time.

A clothes pin bag made of bed-ticking, or something stout, in the form of a pocket with a slit on the front side is much easier to get at than a common bag.

Pudding cloths should not be washed with soap, but placed in a pan of cold water with a little soda and allowed to boil for ten minutes. Rinse in cold water.

Tea kettles would last longer if after use they were turned upside down to drain dry. It is the little drop of water left at the bottom which starts the rust that ends in a leak.

BRITIONS USE MORE TOBACCO.

5,597,485 Pounds More Than in 1914 Are Consumed.

In spite of the heavy increase of the duty on tobacco the consumption last year exceeded that of 1914 by 5,597,485 pounds. This is the chief feature of the national tobacco bill. The bill has been compiled by R. P. Monchieff of Newcastle-on-Tyne.

The total consumption in 1915 was 116,580,700 pounds, against 110,983,215 pounds in 1914, the increase being 5,597,485.

Mr. Monscrieff points out that these figures do not include the tobacco supplied "duty free" to the trenches and wounded men in the military hospitals.

The consumption per family (in spite of the huge decrease of men through military and naval demands) showed an increase in 1915 of 5 per cent.

THE RUSSIAN LEADER.

As a commander of men the Grand Duke Nicholas is pre-eminent in Russia. He is a stern disciplinarian and has incurred the dislike of some officers who have felt his displeasure, but the soldiers love him because they know that under his austere exterior there are a generous heart and a keen sense of humor.

Pirate Who Single-Handed Captured British Ship.

Ernest Schiller, the German "pirate" who single-handed captured the British steamship "Matapo," has been brought to New York, the authorities fearing his being rescued. Schiller now admits his name is Clarence Hudson, his father being English, his mother German; he being born in Petrograd. With four other men he plotted to board an English steamer and capture treasure on board, but having taken too much intoxicating liquor, he boarded the Matapo and held up the captain and crew when the vessel was well out at sea. He was so disgusted with the meagre loot on board that when off the Delaware coast he ordered the captain to put him ashore; where upon landing he was disarmed and arrested. Schiller's or Hudson's only fear is that he be turned over to the British authorities who he is convinced would hang him from a yard arm for piracy on the high seas.

SEX CONFLICT FOR WORK.

Prominent Frenchman Sees Trouble Following War.

Eugene Brieux, famous French playwright and feminist, seeing in the conflict between men and women in the labor market the most serious post-bellum danger confronting Europe, suggests the following remedies:

1—Man must give up his drunken habits, but he must be so uplifted as to have no such excuse that the saloon is the poor man's parlor.

2—Man must respect woman and not treat her as a silly, shrinking, necessarily subjugated being.

3—The abominable system of marriage dowuries must end. Marriage must not come as a relapse into respectability after mis-spent youth, but it must come during youth's best days, so that the couple may lead together a complete life with its early struggles, anxieties and joyous successes.

4—Mothers must teach their sons to respect women.

5—No honorable woman must have a peaceful moment as long as she knows that some other woman is forced to sell herself through physical or moral poverty.

SOLDIER'S WILL IN VERSE.

Scottish Officer's Testament Is Admitted to Probate.

The will was proved recently of Second Lieut. Norman McGregor Lowe, D.C.M., of the London Scottish, who was killed in France on January 10. The will, dated September 21 last, made on a half sheet of notepaper, reads:

"In the event of my death, which I hope will be an honorable one on the field of battle, I appoint my brother Charles Edward Berkeley Lowe to be executor.

Bury me by the bracken bush
Beneath the blooming briar,
And let never living mortal hush
That a kindly Scot lies there.

(Signed) Norman McGregor Lowe.
Second Lieut. London Scottish,
Long Live the King.

A picture from the Balkans. This old Turk is a favorite of the French soldiers around Saloniki. This is the first time he has faced the camera, and he does so with some amiabity.—(Daily Mirror photo.)

THE SUNDAY SCHOOL

INTERNATIONAL LESSON. APRIL 30.

Lesson V.—Peter Delivered From Prison.—Acts 12. 1-19. Golden Text: Psalm 34. 7.

The story told here is one of the miracle narratives which we cannot expect to see into very far. We cannot explain it, and our guesses will not be profitable. Our curiosity might be relieved if we knew the manner of this Providence, but we might lose the lesson of it by the way.

1. Herod—Agrippa Ist grandson of Herod "the Great" and father of Agrippa II (Acts 25. 13). Through his ill-fated grandmother Mariamne he had Maccabee blood. See him characterized in Josephus, Antiq. xix. 7.

2. James—The earliest martyr of the Twelve. His early death made natural that he should be distinguished by his brother's name. It is easy to believe that the "Son of Thunder" brought Jewish hatred upon himself quickly. With the sword—By beheading; so Heb. 11. 37. It was to be Paul's death, as it had been John the Baptist's. The martyrdom fulfills the Lord's prediction (Matt. 20. 23), and James suffers at the anniversary of the crucifixion, or a little earlier.

3. Four quaternions—Who took alternate watches; in the night perhaps they took three hours each. After the Passover—Similarly the Jews wanted to wait for their revenge on Jesus: Mark 14.2. Bring him forth—For a public execution.

5. That in spite of this incessant prayer the church was utterly staggered when their request was granted is very characteristic of human nature.

6. Two chains—Handcuffed by each hand to a soldier's hand. The guards form the other half of the quaternion.

7. An angel—As in the shorter story of Acts 5. 19. His chains fell—As in the Philippian gaol, Acts 16. 26.

8. Garment—The outer garment, or cloak, which had been acting as a blanket. The girding implies that Peter is to attire himself as for an ordinary walk, without untidiness due to haste.

10. Guard—The verb makes the English Revised Version ward more probable: the cell was an inside one.

11. Peter had thought himself dreaming. Now he is fully conscious, and somehow he is by himself out in the deserted city at night. However it happened, it was the angel of the Lord encamping round his servant for deliverance. Peter's work was not yet done: he was to be girded for a crown one day (John 21. 18), but now he must wait for his crown.

GAMBLING AGAIN IN PARIS.

Resorts Are Raided and Many Foreigners Placed Under Arrest.

All the known gambling houses in Paris were closed at the outset of the war, but the predomination of hostilities has proven too much for the patience of sporting people, and an occasional clandestine resort is now found. One was raided the other evening in the Rue Chateadum where 19 women and four men were found around gambling tables, all of them foreigners.

In certain quarters of Montmartre and in the Latin quarter it is also possible to overlap the regulations of martial law regarding the sale of wines and liquors after the hour of 10:30. Another result of the long session upon people habituated to pleasures of a more or less disorderly character is the growth of pretty gambling now taking larger proportions in the cafes of Montmartre and the Latin quarter. Poker is the favorite game, but in many places baccarat is also played.

BELLS.

Bells have been employed in association with religious worship since the early days of Egypt. Cymbals and hand bells and small crotals served for the festival of Isis. Aaron and other Jewish high priests wore bells of gold upon their raiment. In camp and garrison the Greeks employed bells. The Romans announced the hour of bathing by their melody. Copper and tin, the old composition, is still regarded as the best bell metal. Steel has been tried but does not make a successful bell. Glass bells are mellow and brutiful in tone, but the material is too fragile. The one metal which is impossible is that which everybody imagines makes the best bell—silver.

THE CIGAR TRICK.

The fact that the Italian soldier is an inveterate cigar smoker has not escaped the notice of the Austrians. One night (says a Rome correspondent) an Austrian officer saw a row of red lights behind the wire entanglements, and ordered his men to fire. While they were going so the Italians stormed the trench. The lighted cigars had been left on the entanglements fifty yards behind to deceive the enemy!

Had a Better Chance.

"I assure you, madame, my ancestors came over with the first settlers."

"Very likely. We had no immigration laws then."

THE BACKYARD GARDEN

Hints on Planting Time.

The time for safe planting is a matter that worries the amateur gardener. It is better to be sure than sorry. Early planting is all very good in certain situations, well drained, with eastern exposure and protection from the north and west winds. If this aggregation of circumstances is not possible, it is best to delay until nature gives a reliable signal. One of the best indications of the safe time to put things into the ground is the blossoming of the trees.

The earliest planting is of the peas, the smooth seeded varieties. The wrinkled varieties must be put in when the ground is warm, but the others resist cold and, even wet ground. When the leaves appear on the maples it is safe to put the smooth peas in. The flowering of the peach is the signal for the other varieties, which are of a more delicate flavor, but lack the earliness which makes the smooth kinds so "tasty" before any other crop is ready.

About the same time it is safe in this latitude to put out onion sets. These are tiny bulbs which have been grown the preceding year. They give a good crop of scallions for early eating and the ground used for them can be later sown with beets or some other crop. Parsley, pink, planted to the extent of half a dozen feet for a row, at intervals of three or four days will give a succession. One long row can be planted to mature in the ground; onions can be dug up from time to time for use, the row thus is thinned out to allow room for the remainder to attain full size.

As soon as the ground can be worked into a fairly fine condition a couple of rows of spinach can be seeded in. This will give room later for another crop.

When the cherry blossoms open is a good time to put in onion seed for the main crop. These can be thinned out generously for table use, permitting the residue to mature fully.

This, too, is a safe time for putting out lettuce plants, which can be bought for about 15 cents a dozen, or started in a cold frame or in boxes indoors.

Radishes can safely be planted in the open at this time.

You will have to wait till the pear trees blossom before putting out the early carrots, turnips and parsnips.

Parsley and sage can be planted for the herb garden (which every amateur should have, as it takes up only a few square feet of ground in a corner) at this time. The parsley is very slow to germinate and should be soaked over night to give the seeds a start before they are put into their place in shallow drills. This is a safe date also to put out cabbage plants if any have been grown in the cold frame. Cabbage plants of the early varieties can be bought for a few cents a dozen at the nurserymen's.

Late tomatoes can be planted out in the open in a temporary seed bed at this date. But it will be too early to set out plants. These can be bought a little later for about 30 to 60 cents a dozen. A half dozen early and half a dozen late tomatoes will be an abundance for a family of three. Larger families can be provided for in proportion.

Apple blossom time is early enough for several vegetables. Hills of early cucumbers can be planted then. Squash, muskmelons and pumpkins also wait till this date or a little later.

Beets can be planted directly where they are to mature at this time, or can be planted in the temporary seed bed and transplanted when they have attained three or four leaves.

Early corn can be put in in apple corn for the sake of safety, as the seed may rot in the ground if there is a wet spell.

Wax and string beans can be planted in the rows shortly after the apple trees are in bloom.

WHAT A GENERAL MUST UNDERSTAND

NECESSARY ACCOMPLISHMENTS OF A COMMANDER.

A Successful General Must be the Most Versatile Man in the World.

When the man in the street talks of a general commanding an army he generally sends him up as a "good soldier," and fancies he has said all that need be said about the distinguished officer.

As a matter of dry fact, he has said nothing at all about the general. What the man in the street means by a "good soldier" means very little to the general, for to be a good soldier, i.e., to lead armed men, is about the last thing necessary to a modern commander.

He has to be, of course, an expert in military methods in strategy, which means the art of handling forces at a distance from the enemy, and tactics, which means the art of handling that force when in actual touch with the enemy, and he must know military routine from A to Z. But that is only the cap of his knowledge.

For instance, he must know quite a lot about the comparative values of food, not only because he must keep his army well fed, but because he has to carry with him the minimum quantity to keep his moving army in a state fo efficiency. He has to know how many horses can pull how many wagons of this food, and how many miles they can pull them. He has even to compute how much forage those horses will require, and what will be their daily rate of progress.

Carrying Ammunition.

In the same way he is a cartage expert, who knows that it is not how much ammunition his army can fire off, but how much ammunition it can carry that counts in the actual battle, and he must know which will be the easiest ammunition to carry, and the special circumstances of its carriage. Thus, if he is to assault fortifications, he will not carry shrapnel, which is of great use against advancing infantry, but avails little against concrete bastions, and if he is to face only attacking army divisions, he will not trouble himself much with high explosive shell, which is used mainly against fortifications.

He must also know about the endurance limit of every regiment he employs, recognizing which regiment can stand the hard grind of heavy marching, which will remain stubborn under the most terrible bombardment, and which can be used with electric dash at the decisive moment of a charge.

He must know how to handle his artillery like a master, not only as a death-dealing, defensive-shattering instrument, but also in its effect as a means of destroying the nerve of the men opposing him. A terrific and well-handled bombardment at the right moment may do more to win the fight for him than a whole day's shelling.

All this is knowledge bearing immediately on battles. He must possess an immense amount of varied knowledge that will enable him to take his army at the pitch of its efficiency into battle.

Must be Jack-of-All-Trades.

To this end he has to know something about surveying, engineering, bridge-building, road-making, railroad-laying, telegraphy, fortifications, mining, the manufacture and application of high-power explosives, trench-turning, sanitation, camp, town and barrack planning, plumbing, cooking, camp range making, store-keeping, ballooning, aeroplaning, rough medicine, first aid, rough surgery, veterinary, farriery, smith-work, lathe-turning, small-arm making, field gun repairing, and a host of other crafts and industries. He has experts to help him, naturally, but he must know something of these things if he is to guide and take advantage of experts. And when he has fought his battles and defeated his foe he must be an expert in both military and international law, and he must be a good disciplinarian and a good diplomat, too, for he has to see that he and his country are not over-reached by the diplomatic skill of their adversary.

And, above all, he has to be a human individual, and not a highly-skilled machine, so as to overcome the human element in the composition of his enemy, no less than to be humane in victory.

His Alibi.

An agent, approaching a house, met a little boy at the garden gate and asked:

"Is your mother home?"

"Yes, sir," said the boy, politely.

The agent walked across the long lawn and, after rapping several times without receiving an answer returned to the youth, saying:

"I thought you said your mother was at home."

"Yes, sir, she is," replied the boy.

"But I have rapped several times without receiving an answer?"

"That may be, sir," said the boy, "I don't live there."

When it Came to That.

A cockney angler thinking his Highland boatman was not treating him with the respect due his station, expostulated thus:

"Look here, my good man, you don't seem to grasp who I am. Do you know that my family has been entitled to bear arms for the last 200 years?"

"Hoot! That's naething," was the reply. "My ancestors have been titled to bare legs for the last 2,000 years."

Dear Friends.

Evangeline—How do you like my new hat?

Caroline—I think it is charming. I had one just like it last year.

The Paisley Advocate

PAISLEY, APRIL 26th, 1916

—How best to do for the feebleminded is one of the problems of civilization. Dr. Helen McMurchy of Toronto who has made a special study of the subject, says: Have medical inspection of schools so that we may know where our feebleminded children are; have auxiliary classes for all children who are backward. If it is found that the reason of retardation is feeblemindedness, then they need special training; have training schools and Homes (on the cottage plan) and Industrial Farm Colonies for mental defectives. There they may earn their living and be safe and happy and be prevented from being a source of evil and expense in the community.

—Whether encouraged or discouraged by President Wilson's note-writing proclivities, the people of the United States are taking to writing notes themselves. One document has been signed by 500 leading citizens of the republic—college professors, bankers, merchants, authors and artists, expressing sympathy and agreement with the Allies in their campaign against Germany. Now, the working classes of the different states might have something to say, too. We'd like to hear from the farmers, the mechanics, the laborers, miners and railway employées. If Uncle Sam goes to war, these are the fellows who are going to do the fighting. They also belong to the class among which Prussian militarism finds its greatest body of victims for life sacrifice.

From the Firing Line

From somewhere in Belgium Pte. Alex Blue writes to Mr. J. J. Jacques, under date of April 1st. "Just a few lines in answer to your letter about seven days ago on the firing line. Have not had much time for writing, as the weather has been cold and damp, and we were busy watching Heinie. But to-day the weather is fine and getting better all the time, and it is nearly time, for we had a lot of mud to contend with. I was out to-day looking around and I see the farmers are busy seeding. One thing that I noticed in particular was a three-dog team plowing, and only a small boy behind the plow and a larger boy helping the dogs to pull it. As I watched the team going up the furrow, I noticed it was as straight as a whip. But the land over here is much easier to work than in Canada. I don't think it can be beaten for grain-growing, and they sure are good farmers. The land is so full of humus that if you get a cut or a scratch on your hand, you don't have it attended to at once or blood-poisoning is sure to set in. The horses are the best I ever saw, and it is a treat to see them. I would like a team of them to take back to Perth. Wouldn't the people stare at them! I would sure take some prizes with them at the fairs. If I didn't, I would think there was something wrong. They are also great dairy people and make good butter. But it costs enough here to eat a pound. And eggs are 50 each. I was in an old ruined station one day and noticed a Mollotte cream separator standing there. And at one place in the firing line I saw an old Massey-Harris rake, just in front of my lay—left there in a hurry, I should judge. There were some nice young cattle near the firing line one day, and I says if they come up any closer, we will have one for dinner. But they didn't come. They didn't seem to worry about the "coal boxes" and "smoke wagons" bursting about them. And the rats! You never saw the like. You step over them—and they are so bold. We kill lots of them. One night in the dug-out one of them sunk his claws or teeth into my ear. You should have seen me jump and utter a few words. The country will be overrun with them by the time the war is over, and they are thick around the graves of the boys who have fallen. Another thing that we are bothered with is the louse. They are sometimes as bad as the Germans. Say, if you would come around some nice warm day, you would see the boys hunting for them. But no more worries. Well, John, we've had a couple of good scraps since coming out, and I'm going to tell you the Germans have not much use for us. If both scraps we took quite a few prisoners, who are mighty glad to be made prisoners of war. Some come from Detroit and others from Toronto and some of them can talk as good English as I can. One of our scouts or snipers was talking to a prisoner with whom he had been personally acquainted before the war. The Germans had come down from Verdun for a rest, as they thought, but I guess it was for a scrap. Well, we got there first and got a couple of lines of trenches, which was easy. You can tell the Heeh not to worry, as they will have some fun out here yet. I had some souvenirs, but did not bother carting them around, as we have enough to carry. The only souvenir I want to take home is myself. But a man knows not the hour or minute out here. Tell father I received the parcel yesterday and was mighty glad to get it. I see John Beaton, Jack Devine and Harold Marshall have enlisted. Well, they deserve credit. Gordon Daniels is fine and Jack McDougall is just the same old Jack. Tom Babcock was up to see us to-day. He is in a trench mortar battery out here. Andrew is Sergt. of the transport, and Sammy Tocke is in the transport column. All the boys are fine.

Pte. A. BLUE,
C Company, 18th Batt.,
and C.E.F., 4th Brigade,
Army P.O., London, Eng.

Watch the Advs.

The merchants of Paisley use space in The Advocate to tell the public what they have to sell, and it will pay the public to read the advertising columns every week. The buyers and the sellers are both save time and money by using printers' ink—one using it and the other paying it. Beware what may appear to be a pan by the Advocate man.

From Signaller Wilfred McGill

Mr Adam McGill received a three-in-one epistle from his son Wilfred, who recently went from Ottawa to England with the Divisional Signal Corps.

H M T S Metagama,
Mid Ocean.

DEAR DAD:—

Well, these are the strangest circumstances I've ever written a letter in, but here goes, anyway. It was Saturday morning when we got to St John. Our train stopped right beside the Metagama, and we boarded her without any delay. The Metagama is a C P C boat, was built only a few years ago; her length is about 575. I have heard. It is rather slow though, but seems to be very easy and sea-worthy. It was Sunday at five o'clock when we left St John, and we arrived at Halifax about five on Monday. We stalled around there till Friday morning when we finally sailed at 7 30. As soon as we got out of sight of land and struck a big swell—the result of a stiff nor'wester—I felt a decided change in that part of my anatomy known as the digestive system; everyone that was seasick at all was sick inside three hours. It is the awfullest feeling I ever experienced, and I wished someone would cause happiness to me by shooting me. You would think that a swell would have no effect on a boat this size even, but she rolls and pitches like a mere toy. Well, about three days after I felt as if I could at least hit my head without turning sick, and to-night I feel fine. The weather is decidedly milder and pleasanter. We don't need coats at all on deck now. Yesterday we sighted a big whale about a mile away. We could see his big tail flash in the air, then a few minutes later he would spout a stream of water away in the air. We could see him spouting for two or three miles. To-day we saw two more, and also a school of porpoises. These latter are very interesting to watch. We are accompanied by the Leplander, a bigger and faster liner than ours. She has about 3000 troops aboard, but I don't know what they are. On the Metagama are three field companies of engineers, our signal section, an army medical corps and the third divisional ammunition column—about 2000 in all. We are well sandwiched in, you bet. There are six of us in a little cabin 6x12, but we manage very well. Our meals are—well, I don't know what they are. They tell us they're good to eat, but it is rather hard to believe. Still none of us are suffering very much from their ill effects. We have concerts every evening or so on board, and the talent is not only surprising but amazing. Every kind of entertainer is represented—comedians, singers, violinists and pianists. They're all here. The other night there was THE concert in the officers' saloon, and it was the equal of, if it didn't surpass anything of the kind I ever heard before. A wireless from England informed us to-day that our ship had been sunk with all on board. That's the first we'd heard of it, and of course we were greatly surprised. It's funny how these little rumors will circulate. I hope it didn't reach Canada, as it would naturally cause some concern.

Second instalment—We are in England now. We sighted Ireland last Friday about four o'clock and we were a jubilant bunch of boys. Two little destroyers escorted us after this time, and we reached Liverpool about 6 30 Saturday night. Everyone was very much impressed with the ocean traffic and shipping facilities of Liverpool. We docked at eight o'clock and disembarked at three Sunday a.m. We were on the train eight hours and at noon Sunday we reached Baldock, a little railway town in Hertfordshire. We then marched three miles to Stotfold, a small village where we are now. We are all billeted, and believe me this is certainly great for us. A friend and I are with an old English lady who can cook the tastiest brand of cooking out of the South. She is very nice and treats us royally; in fact everyone here cannot do too much for us. I suppose this is what is called British hospitality, and believe me they certainly set a fine example in that. Stotfold is a typical country village—no railway, no street lamps—in fact blinds must be drawn after sundown in every house. Every so often is a "pub" with characteristic names such as "The Black Lion," "The Pig and Whistle," "The Cock and Horses." Well I'll close this now to get it off to you. Meanwhile I'll start another.

Haynes Park

Well, I've had a week of life in England, and on the whole I believe I like it. We were moved to Stotfold on Thursday to Haynes Park to undergo a course on cable line construction. We will be here for a few weeks perhaps, and will soldier in the meantime. We had a riding test yesterday to see whether we were fit for our job or not, but were turned down on account of our Canadian style which is far more efficient but not so fancy as the English. However, a couple of days in the riding school will fix that up. We get up at five o'clock and feed and groom the horses before breakfast, and ride in the morning and afternoon. The weather has been very fine, this last two or three days, and we are all turning dark as a result. Our meals are very good, but not like those we got in Canada. Haynes Park is the muddiest hole on the face of the earth, but the warm weather soon dries it up. All the British Tommies treat us fine and they are very sociable. There is a big Y.M.C.A. hut here, so we have somewhere to go during the evenings. Last night a couple of pals and myself went and was sunk in the Thames river. For goodness' sake send me THE ADVOCATE every week. You will get a letter from me every week or so. Tell the boys my address and ask them to write soon and often. Copy the address exactly as you have to be very correct in addressing.

New Fire Chief

At the April meeting of the firemen, Mr Jas Ellis resigned from his position as chief of the brigade, owing to his leaving town, and Mr John Smart was unanimously elected to fill the vacancy.

Drinkers' Insurance

Seventy years ago drinking was so common that when a total abstainer applied to a London company for a life insurance policy the board of directors held a special meeting to deal with the unprecedented case. They finally decided to insist on a special premium to cover the extra hazard, but the man upset their expectations by living to the age of eighty-two. Since then every insurance man has learned that even moderate drinking makes a man a poor risk.

"FRUIT-A-TIVES"
THE MARVELLOUS
FRUIT MEDICINE

Has Relieved More Cases of Stomach, Liver, Blood, Kidney and Skin Trouble Than Any Other Medicine

THOUSANDS OWE THEIR GOOD HEALTH TO IT

Made From The Juices of Apples, Oranges, Figs and Prunes Combined With Tonic and Antiseptics.

"Fruit-a-tives" means health. In years to come, people will look back to the discovery of 'Fruit-a-tives' and wonder how they ever managed to get along without these wonderful tablets, *made from fruit juices.*

"FRUIT-A-TIVES" is excellent for Indigestion, Dyspepsia and Sour Stomach. 'Fruit-a-tives' is the only certain remedy that will correct *chronic Constipation and Liver trouble.*

'Fruit-a-tives' is the greatest Kidney Remedy in the world and many people have testified to its value in *severe cases of Rheumatism, Sciatica, Lumbago, Pain in the Back, Impure Blood, Headaches, Neuralgia, Pimples, Blotches and other Skin Troubles.*

"FRUIT-A-TIVES" has been one of the great successes of the century and the sales are enormous, both in Canada and the United States. 50c. a box, 6 for $2.50, trial size 25c. At all dealers, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Death of Mrs. Murrison

Martha Jane McCully, beloved wife of William R Morrison, of 12th con Bruce, passed away on Saturday morning. She had been under the doctor's care for several weeks. Pernicious anaemia was the cause of death. Deceased was a daughter of the late John McCully of Paisley, and besides her sorrowing husband, to whom she had been a very faithful helpmeet, is survived by one brother, John McCully, who lives in Michigan, and a sister, Mrs Hugh McLellan of Alma, both of whom were present at the funeral on Monday afternoon, also Mr McLelland. The services were conducted by Rev Mr Bowers of Queen Hill. Interment was made in Stark Vale cemetery.

PERSONAL.

St. Catharines, Ont.—"Two years ago I was in a very nervous, generally run-down condition, so that I awoke in the morning more tired than when I retired. The doctors thought I had heart trouble and treated me for it but I got no benefit. Heard of Dr. Pierce's remedies through a friend who had been to your Invalids' Hotel for an operation (which proved entirely successful) and I at once got the 'Favorite Prescription.' I took three bottles altogether and at the end of three weeks I felt entirely cured and have been well and strong since, without a single bad spell. I stopped taking it about three months ago and am glad to tell any one how splendidly your medicine has healed me."—Mrs. JOHN LEWIS, 53 Niagara St., St. Catharines, Ont.

The mighty restorative power of Dr. Pierce's Favorite Prescription speedily causes all womanly troubles to disappear and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription prepared only from nature's roots and herbs with no alcohol to falsely stimulate and no narcotic to wreck the nerves. It banishes pain, headache, backache, low spirits, hot flashes, worry and sleeplessness surely and without loss of time.

Get it now! All druggists.

A Great Book Every Woman Should Have.

Over a million copies of the "The People's Common Sense Medical Adviser" are now in the hands of the people. It is a book that everyone should have and read in case of accident or sickness.

Send fifty cents or stamps to Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and enclose this notice and you will receive by return mail, all charges and customs duty prepaid, this valuable book.

—Some people like to criticize newspapers for printing some items while leaving out others which they feel are more important. They even venture the opinion that the newspapers are "muzzled" through business considerations or other influence. There are very few journals of any importance that submit to the muzzle when a vital question is at stake or any matter of real public interest. And those who are guilty are not deserving of confidence or patronage. Most of the excluded things are left out because editors cannot be cold-blooded thinking machines, but have feelings of mercy like their fellow citizens.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand, also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

GILLIES HILL

Elderslie is loyal to the core. Despite the almost impassable conditions of the roads and the rain on Friday evening last, it did not dampen the ardour of the good people of the Tp., for they gathered here in large numbers to honor the boys who are willing to sacrifice life that liberty and truth may be vouchsafed to this and future generations. The old township hall has witnessed many stirring events, but the gathering on Friday evening was certainly unique in its history. Reeve Cass, in his characteristic whole-souled fashion, discharged his duties as master of ceremonies in a manner that pleased the crowd. Mr Cass has given ungrudgingly of his time and energy for patriotic work in this municipality, and we are safe in saying that this night's successful gathering was due in no small measure to his untiring efforts. The first item on the programme was a chorus by the boys in khaki, after which a presentation was made to Albert Rosenthal, of the 71h company, who has enlisted with the 147th Grey Co. Batt. He was the recipient of an address and wrist watch from his neighbors. The address was read by Willie Oswald and presentation made by Emslie Milne. The chairman then called the soldier boys to the front, and read the following address:

To the Soldiers from Elderslie Tp. Who Have Enlisted for Overseas Service:

Defenders of the Empire, it is a source of great satisfaction to the residents of the municipality that you have risen to the occasion at the call of the Motherland. You have responded splendidly.

We feel sorry to see you have to go, but glad to know that we have young men who from a sense of duty and a desire to stay the hand of the oppressor, have taken up arms on the side of humanity, liberty and right (not might). We are also sure that you will triumph gloriously and that fresh honors will be added to those already won by Canadians and acknowledged by the highest authorities. We know what sacrifice you have had to make, such as the leaving of peaceful homes, comfortable surroundings and the severing of ties of a lifetime. But there is also a bright side and it is that side you have had a vision of—the forgetting of self that others may be helped. Therefore, we wish you all God speed and hope that when you go to divisional camp to complete your training that you may be given the health and strength to carry out the work. And if it should be necessary for you to go overseas, that you have a safe passage, and when at the front we will endeavor to send such articles as will contribute to your comfort and will pray that you be guarded and protected and permitted to return to your friends in good health. And now, on behalf of the people of Elderslie, we ask you to accept of these small tokens, which shall be to you a remembrance of your friends and neighbors of the Township of Elderslie.

Signed on behalf of the Municipality by your Reeve and Councillors.

Each one was presented with a beautiful gold ring engraved with the number of the battalion (160th). The rings were presented by Misses Jennie Cass and Kathleen Thompson. Here a surprise followed. The mothers of the boys must surely have a part to play on this memorable occasion, and each soldier received a handsomely bound pocket Testament, presentation being made by Mrs J E Cass, Mrs D Walks and Mrs J McDonald. Mr Roland Brown was chosen by the boys to make reply on their behalf, a duty which he performed splendidly. In a few well chosen words he expressed appreciation of the gifts. He also thanked the mothers for their forethought. Excellent addresses were given by Mr. Wm. McDonald, M.P.P., Mr. Wills, a returned missionary who was through the Boxer rebellion in China in 1900, Rev. A. G. Howat, and Mr. Knighton, a returned soldier, at present inspector of sheills at Hespeler, who gave a thrilling account of the doings at the front. At the battle of Givenchy he was the only one of a machine gun squad who was not killed when a great shell burst over them, and he lay on the ground unconscious for thirty hours. Others who spoke briefly, expressing to the soldiers a hearty appreciation of their devotion to duty and wishing them God speed were ex-reeve McKay, R. C. Pearce, S. K. Ewart, Rich. Daniels, D. Walks, John McDonald, Councillor Lewis, Jos. McNeel and W. J. Savage. The programme was interspersed with patriotic songs by the boys and recitations by Harry Stevens of Chesley. The meeting closed by singing the National Anthem, after which lunch was served by the ladies.

HUSBAND OBJECTS TO OPERATION

Wife Cured by Lydia E. Pinkham's Vegetable Compound

Des Moines, Iowa.—"Four years ago I was very sick and my life was nearly spent. The doctors stated that I would never get well without an operation and that without it I would not live one year. My husband objected to any operation and got me some of Lydia E. Pinkham's Vegetable Compound. I took it and commenced to get better and am now well, am stout and able to do my own housework. I can recommend the Vegetable Compound to any woman who is sick and run down as a wonderful strength and health restorer. My husband says I would have been in my grave are this if it had not been for your Vegetable Compound."—Mrs. BLANCHE JEFFERSON, 703 Lyon St., Des Moines, Iowa.

Before submitting to a surgical operation it is wise to try to build up the female system and cure its derangements with Lydia E. Pinkham's Vegetable Compound; it has saved many women from surgical operations.

Write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for advice—it will be confidential.

Behind The Bolted Door?

YOU will find a gripping detective story in the May number of MACLEAN'S MAGAZINE—"Behind the Bolted Door"—by Arthur E. McFarlane. Full of mystery, tense with interest, alive with action, passing strange in plot and incident, it is baffling until the last paragraph of the last chapter.

This McFarlane story is but one of many "specials" in the May MACLEAN'S—an issue really remarkable for its high quality, as witness the following writers. These contributors are, as you will recognize, a most exceptional company—the best known of Canadian writers.

Arthur E. McFarlane
Stephen Leacock
Nellie L. McClung
Robert W. Service
Agnes C. Laut

EDITORIALS BY:
Sir Herbert Ames
N. W. Rowell
C. C. James
James L. Hughes
J. P. Downey

And next issue (June), the first of ARTHUR STRINGER'S new serial story, "The Anatomy of Love."

MACLEAN'S MAGAZINE

has one feature which commends it to all readers—its Review of Reviews department. Here is reprinted the heart of the best things appearing in the leading magazines and periodicals of the world. So in MACLEAN'S one gets the essence of many magazines.

Rich promise in this May Number of many hours of genuine entertainment and profitable reading. A big 15 cents' worth—more than you find in a $1.50 work of fiction. For the price of a new novel, you can have twelve numbers of MACLEAN'S.

MACLEAN'S MAGAZINE is Canada's best periodical publication. It is out and out Canadian and is doing a fine work for the encouragement of Canadian literature and writers. As a good Canadian, you should be a yearly subscriber.

Begin your Subscription with the May Issue, $1.50

Just write your name and address on this advertisement, and mail to the publishers—The MacLean Publishing Co., Ltd., 143 University Ave., Toronto. Bill for $1.50 will be sent later. Enclose remittance if you prefer.

Notice to Creditors

In the matter of the estate of Patrick O'Hagen, late of the Township of Elderslie, in the County of Bruce, Farmer, deceased.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demands against the estate of the above named Patrick O'Hagen, deceased, who died on or about the 12th day of February, 1916, are required on or before the 25th day of May, 1916, to send by post prepaid, or to deliver to the undersigned solicitor for the executors of the last will and testament of the said deceased, their names and addresses and full particulars of their claims and the nature of the securities (if any) held by them, duly verified by statutory declaration.

And further take notice that immediately after said 25th day of May, 1916, the said executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have received notice, and that they will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by them at the time of such distribution.

Dated this 25th day of April, 1916.

HANNA O'HAGAN and
PATRICK O'HAGAN, Executors.

D. FORRESTER,
Paisley, Ontario.
Solicitor for said Executors.

Bruce Tp Board of Health

Underwood, April 20, 1916

The regular meeting of Bruce Tp Board of Health was held on the evening of the above date. Members all present, also sanitary inspector Farrell. Considerable discussion took place on the measles situation, this disease breaking out in different parts of the township and seemingly moving from south to north. The medical officer of health claimed that the well established belief that measles were a children's disease, and therefore they should have them, was all erroneous, and that if people would exercise the same precaution and co-operation with the Board of Health as they would in cases of small pox, diphtheria, etc, there would be no more of an epidemic of measles than of those other diseases. He also claimed that measles were not as innocent as harmless as many people thought, as doctors frequently come across diseases or complications that can be traced back to an imperfect recovery from measles years gone by. Arrangements were made to have all school premises and slaughter houses in the Tp inspected at an early date. Board adjourned.

J. C. MACKAY, Sec'y.

DIED

MURCAR—At Paisley, on April 25th, Wm Murcar, aged 67 years and 1 month.

MARRIED

EVERS—MCDONALD—At the residence of the bride's parents, on April 19th, Pte Albert Evers, of Paisley, to Miss Viola daughter of Mr. and Mrs. Neil McDonald, of Wiarton.

FRITZ IS IN AN AWKWARD FIX

BRITAIN AND GERMANY'S FINANCES COMPARED.

Unpleasant Facts That the Hun Jugglers Have Got to Face.

If Robinson Crusoe and Man Friday had cared to set up a printing press on their island in order to print banknotes, they could have presented each other with fabulous sums, limited only by their stock of paper, printer's ink, and—credulity. The test would have come if they had tried to pass those notes on their return to civilization.

No sane being would have accepted their home-made money, unless friend Crusoe had been able to state where and when he would be able to produce gold coins in payment for his notes.

Cut off from overseas countries by the steel walls of the British and Allied Navies, Germany and Austria are, figuratively speaking, like a latter-day Robinson Crusoe and Friday on just such an island, and they have actually printed during the war THREE THOUSAND MILLION POUNDS STERLING in paper money and war bonds, which pass among themselves at face value, says London Answers.

Banknotes Compared.

Now comes the measure of German credit! If a neutral were to take a five-pound note of the Imperial Bank of Germany to Switzerland or the United States, he would be fortunate if he received in exchange more than three pounds ten shillings in Swiss or American money. If he offered a five-pound note of the Bank of England, or a Scottish or Irish note, he would be paid as many Swiss francs or United States dollars as the note realized prior to the war.

It is, of course, the plain, unvarnished truth that, since August, 1914, not a single German banknote may be exchanged for gold at any of the branches of the Imperial Bank of Germany, while, since the commencement of the war, the Bank of England has never refused, or been unable to hand out, sovereigns in exchange for its crisp notes.

The financial jugglers at Berlin have succeeded in bluffing their victims at home into the belief that "all is well," because a hundred-marks (five-pound) note will still be taken in payment of German taxes for that amount, or may be exchanged into twenty five-marks, or one hundred newly-created one-mark (one shilling) paper notes.

Her Trade is Paralysed.

But Germany is bankrupt! Her rulers know it; her bankers conceal their anxiety, although they have parted with valuable investments in exchange for doubtful bonds and I O U's of the German Government. And the eyes of the German people will be opened when they attempt, after the war, to resume business in the world's markets.

What has the war done for Germany's industries, trade, and finance? Millions of men have been taken from factories and workshops, totally regardless of industrial needs.

True, these requirements are now insignificant, with Holland, Scandinavia and Switzerland almost the sole neutral customers. One or two examples must suffice. German pianos used to swamp the foreign markets, and one of the most famous factories—in a favored position for the export trade—employed before the war over five hundred men; now it is empty but for three aged watchmen.

The toy-makers of Upper Bavaria and Thuringia have delegated their tasks to women and children, who merely used to assist them in the heyday of peace. Last year, German toy experts were less than one-twentieth of those of 1913.

No Import Duties.

German shipping, except for a little coastwise trade in the Baltic—carried on in fear and trembling of British and Russian submarines—has ceased as completely as if German harbors had been icebound since August, 1914. Imports into Germany, solely across the frontiers of the few remaining neutral neighbors, have fallen off so woefully that factories using cotton, wool, jute, rubber, copper, and other raw materials from overseas sources of supply, would have had to close, even if men had been available to serve the mills and works.

A moment's reflection will show what this stoppage of industries and trade means to the German Treasury. In a country with such high protective tariffs, the loss of revenue from customs, due to the interruption of imports, is alone a most serious matter. At the same time, shipping and harbor dues, other direct and indirect taxes on shipping, and, above all, the huge profits from the carriage of imports and exports over the State railways, are no longer coming in, not to mention the income-tax previously derived from innumerable factories and other peace-time businesses.

On a Gambling Basis.

Nothing illustrates the perilous state of German trade and industries more vividly than the fact that, during eighteen months of the most costly war which Germany has ever undertaken, her Chancellor of the Exchequer has not dared to add one shilling of new taxes to her normal burdens. And all this time he has borrowed huge amounts for the war, so that now, annually, a sum of no less than seventy-five millions is falling due by way of interest on German war loans.

Contrast this with the sound finance of the British Treasury! Every penny of interest due upon our two war loans, and upon our new five per cent. Exchequer bonds, is met from new sources of revenue, principally additional income-tax and fresh taxes upon articles of daily consumption, so that each holder of our war securities is certain of the income upon his savings.

Germany has not only piled loan upon loan, in total disregard of all rules of honest finance, she has made no provision whatever for the annual interest payments upon her war bonds, each fresh issue furnishing the wherewithal to pay interest on the previous series.

The war was a gambler's throw; it is financed in true gambler's fashion. Already, at the time of the second German war loan, loan banks were called into being by the Government, and supplied with a special kind of paper "money," which was only paid out against pledges of the bonds of the first war loan, and could only be used for investment in the second loan. This trick was repeated at the recent third issue.

Utter Ruin Inevitable.

We cannot, however, derive any immediate comfort from the bankruptcy of Germany. The Kaiser and the narrow circle of feudal officers and officials who rule Prussia (and, through Prussia's predominance in the German Parliament, they also rule Germany) will not be stopped by the impoverished condition of the German Treasury. Prussian tyranny, over whose policy the masses of the people have no control, will take the last coin of the widow and the orphan (it has already taken all their copper), and give them worthless "scraps of paper." It will also take the last grain of wheat and the last beast for the Army.

Germany's bankruptcy will not end the war. We must bring it to a victorious conclusion. But, after peace is proclaimed, all our workers and commercial men and women—above all, our factory-hands, transport-workers, miners, and clerks—will benefit by the expansion of British trade which will follow the paralysis of German industries. German banks, manufacturers, and merchants will find themselves loaded up with worthless securities, burdened with heavy taxes, and without credit in other countries.

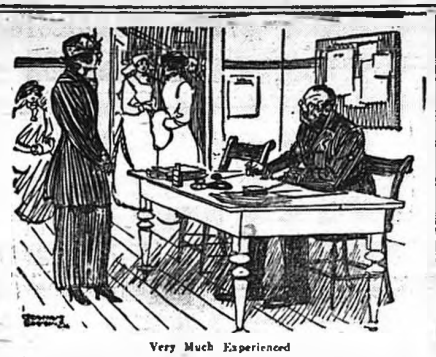
The Kaiser has arrested German progress for many years to come, but at present he is still fighting on the stricken body of German commerce, to save himself, the Hohenzollern dynasty, and his military fellow-criminals from defeat and punishment. He will not succeed, and he will have ruined Germany both financially and politically.

BOCHE AND SULGAR.

King Ferdinand Unknowingly Gives Kaiser Proper Description.

Even in these grim days we may take a little pleasure in the singular performances of the Kaiser and King Ferdinand, says the Westminster Gazette. They met at Nish one day recently and toasted each other in language the absurdity of which is only equalled by its folly. A verbatim report of the proceedings is now produced, with the confident expectation that it will impress and astonish the world and terrify the presumptuous enemies of Boche and Bulgar. The crowning stroke in it is King Ferdinand's Latin peroration, which surely deserves a supreme place among infelicitous classical allusion. Ferdinand addresses William in the formula of the doomed gladiator, "Ave Imperator," for which, as every schoolboy knows, the proper conclusion is, "morituri te salutant." As if this were not enough, he adds, "Victor et gloriosus es," the obvious rendering of which in this connexion is: "conqueror thou art and braggart." Latin words, as well as others, sometimes have double meanings, and Ferdinand appears to have forgotten that "gloriosus" more often means boastful than glorious. Plini gloriosus is not "the soldier," but the braggart captain." It sounds a little different when we translate correctly and supply the missing word. "Hail Emperor, Caesar and King, we who are about to perish salute thee, conqueror and braggart." When that is understood, the rest about ancient Nissa and its saviour is fit for the Bulgars to put in their pipes and smoke.

Dangerous.



A visitor was being shown over a big cotton mill by the proprietor, who proudly displayed some of the fabrics produced. Holding up a piece of printed calico, he said:

"Our latest material. Excellent material, isn't it?"

"It's all right," said the visitor, "but you can't hold a candle to the goods we turn out in our words!"

"Same line?" asked the host, somewhat offended.

"No," replied the other: "ours is gunpowder."

Very Much Experienced

R.A.M.C. Officer: "You wish to go in for The Red Cross. Have you ever done any nursing?"

Candidate: "Done any nursing! I'm the eldest of a family of twelve!"—London Opinion.

FRENCH COURTSHIPS REAL LOVE AFFAIRS

STRANGE RESULTS HAVE BEEN CAUSED BY THE WAR.

Brings Young People in Closer Communion, and Many Weddings Result.

Genuine courtship—real love-making—as an incident to marriage is one of the innovations that war has brought to France. It may develop into a revolution of the marriage system, and is almost certain in any case to be the death of much of the red tape that has strangled and more or less strangled Cupid.

Marriage was hard hit during the first months of the war, but by reason of the authorization of unions by proxy and the infusion of war romance it is rapidly recovering.

In Paris there were only 768 marriages in January, 1915, as against 2,341 in January, 1914. In December, 1915, there were 1,289, showing a remarkable recovery under the circumstances.

In a great many of these war marriages it is noticed that girls without fortune are for the time being running their more favored sisters a close race since in a great proportion of the marriages celebrated since hostilities began the marriage contract has been dispensed with; no mention of dower nor talk about money; romance has taken the place of finance.

The Flirt at the Front.

Wounded heroes have in hundreds of cases fallen in love with and married their nurses. Nearly every day the story is told of some man in a fighting regiment corresponding with an unknown sympathizer who has come home on leave to find that his "godmother" is worth marrying for herself.

Women and girls acting as "godmothers" to unknown correspondents at the front have developed what is lightly called "the flirt at the front" into formidable proportions, and this is at this moment perhaps the most efficient marriage agency in the world. The sacrifices made by some girls marrying soldiers who have been blinded or maimed almost to the point of total helplessness have spread the contagion and love letters are born at every hand by the close communion of sympathetic minds centred on great events, and through the constant movement of soldiers coming in contact with new faces, every one of which under present circumstances is bound to be sympathetic.

Some psychologists have inquired whether there was not in France a craving need for deeper affection, and whether the decreasing natality in the country was not due in great part to the obstacles of marriage and the more material considerations that always entered into it. The soul-stirring incidents of the war have unquestionably brought every one into closer union, and there seems to have been a general wiping out of old scores that kept acquaintances and even families apart. There have been many reconciliations through the exchange of news of the exploits of mutual friends, and many instances of divided families reunited over the tomb of a fallen hero.

Will Transform Marriage System.

Young people are now being brought together, not by contract nor by the attraction of wealth, but simply by the greater force now asserting itself of young hearts and common wills. It is asked whether it will continue after the war, and what effect it will have on the future of France; an idealistic people, after being held in materialistic bondage so far as concerns so vital a question to the race, is coming out so strong in the present irresistible appeal to romanticism that many believe it will result in a transformation, if not in a revolution, of the marriage system. Some contend that men will marry younger and marry for love instead of for money, will marry more in reason and sincerity, and that with the stronger tie of affection taking the place of interest, divorces will become less while the population will grow correspondingly more numerous.

THE PLEASANT SMILE.

Forced Facial Contortion Not Success, as It Is Usually Detected.

To discuss personality without mentioning a pleasant smile and a genial hand shake would be as incomplete as discussing good health without mentioning exercise. A natural smile is readily obtained after one has acquired a musical laugh, wholesome thoughts and a pleasant voice. A forced smile is easily detected and usually results in facial contortion.

The genuine smile prompted by cheerfulness is accomplished by slightly parting the lips, gently raising the corners of the mouth, and is completed by a happy expression in the eyes. Stand before your mirror and see how easily you can be convinced that this is true, also how well it will pay you to wear a genuine smile. The hand shake needs no practice, only remember that a firm grip and a hearty shake implies confidence and are a token of frankness and accord with spontaneous laughter and a well-placed musical voice.

To prove conclusively that personality can be acquired by anyone I have seen some invalids change an irritable and unattractive personality to one of cheer and sunshine, winning all who came in contact with them and accomplishing for themselves many more hours of happiness and many less hours of pain. If you will but conscientiously carry out these instructions you will soon have a personality which attracts, giving pleasure to your friends and great satisfaction to yourself.

HORSES DIE OF FRIGHT.

Peculiar Effect Which Bombardment Has on Animals.

The effect of the war on different animals is described in the "Norddeutsche Allgemeine Zeitung" by its correspondent on the western front:

The big elephant in the Antwerp Zoo, he writes, has since the bombardment of the city been suffering from complete nervous breakdown, and for days tramps backwards and forwards in its enclosure, refusing food and drink.

In some cases dogs slouch away with drooping head and tail as soon as they hear the sound of artillery. In others, having discovered that when a gunner handles a shell an explosion is to be expected, they make for the nearest shelter, and return barking to the neighborhood of the fighting the moment the shell has been fired.

Pigeons remain in their cotes even when shrapnel flies all round them, and singing birds do not cease their songs during the heaviest bombardment.

Horses have on many occasions stopped as though paralyzed when a shell was fired, and remained immovable for several minutes. In cases they have died on the spot from fright.

In a village in Picardy a sparrow was seen carrying hay in its beak on the roof of a shelled church, part of which was still on fire.

ABOUT STEEL HELMETS.

The New Head Dress Adopted By the French Army.

The plain steel helmet now worn by all French soldiers is becoming quite familiar even to people in England. It will surprise most people who have seen these helmets to know that there are no fewer than 64 distinct operations necessary in turning one of them out.

The first step is stamping out disks from large sheets of steel. A special machine is used for this purpose, exerting a pressure of 150 tons and capable of cutting out 5,000 steel disks a day.

Each disk is placed under a stamping machine, which presses the disk into the form of a helmet with a broad rim. Polishing and cutting machines remove all irregularities in the helmet, after which it has holes punched in the crown, some for ventilation purposes, others for fastening on the real mental crest. Each helmet is cleaned and dipped in a special mixture, which makes it a dull, inconspicuous bluish-gray. A lining and leather chin straps are then fastened on, and the helmet is complete.

Since the French army has been protected with the helmet the number of deaths due to wounds in the head has decreased to a remarkable extent.

WAR BREEDS MANY LEGENDS.

Two Examples in the Present Conflict are Cited.

Wars are fruitful breeders of legends, and always have been. Nor is the present war any exception to the rule, says London Answers.

Everybody, to cite but two instances, will be able to recall the story of the Mons angels, and that other one about the Russian soldiers who came through England from Archangel.

Possibly these yarns, and other similar ones, will be incorporated in the history books of the future. It is a fact that stories equally without foundation are taught in our schools to-day.

Take, for example, the one about the Black Hole of Calcutta. Every schoolboy and nearly every grown up person is familiar with the details of that ghastly story. It relates how the Nabob Suraja Dowlah shut up 146 Britons, captured by him in Calcutta Fort, in a small, unventilated dungeon and how, after a night of agony from heat, thirst, and lack of air, only twenty-three were found alive next morning.

For more than 150 years the story has been implicitly believed. Yet now along comes Mr. Little, and proves, in his "Bengal, Past and Present," not only that it is not true, but that it could not possibly be true.

Nine persons only were, it appears from contemporary records, confined in the "black-hole," which was really the common prison, and none of these suffered any very great inconvenience. The remainder of the garrison numbering some 120, were either killed or wounded in the fighting, and the latter were treated by their conquerors with every consideration.

Similarly, Wellington never said, "Up Guards, and at 'em!" at Waterloo, nor did Blucher exclaim, on first seeing London, "What a place to sack!" While the phrase, "Providence favors the big battalions," which is usually attributed to Napoleon, is found in the writings of Clausewitz.

There never was a person named William Tell, and consequently he never shot an apple from his son's head at the bidding of the Austrian tyrant, Gessler.

At Waterloo, the commander of Napoleon's Old Guard is said to have replied to the challenge of surrender pompously: "The Old Guard dies, but it does not surrender!" In the French army, however, it is a tradition that his answer consisted of but one word, not at all fitted for ears polite.

Similarly, the Girondins had no last supper together. Columbus could not have foretold an eclipse of the moon in order to frighten the natives of Jamaica into submission, as has been asserted, for the simple reason that the moon was not in eclipse during the time the famous explorer was on that island.

MAKING UP AFTER THE WAR.

Deadly Conflicts Closed in Feasting and Merrymaking.

Just how the present war will end nobody knows, but it is unlikely that it will finish in a feast of friendship between the belligerents.

Yet this—nothing less—has marked the conclusion of many a conflict in days gone by. The first Boer war, for instance, was closed by a banquet at which General Cronje—the same who surrended at Paardeberg twenty years later—entertained his British officers and officials in fine style, the quantity of champagne consumed being, in the words of one who was there, "truly surprising."

The American Civil War ended under an apple tree in a garden at Appomatox, a village in the State of Virginia, Lee surrendered his sword to Grant. It was at once returned to him, and the two men pledged each other in a flagon of cider, the only drink available, after which they and their staffs breakfasted amicably together on bacon and beans, and "flapjacks sweetened with maple surup."

On the eve of the last day of the Franco-German War of 1870-71, Bismarck gave a supper to celebrate the event, at which, besides the members of the German Headquarter Staff there were present several French officers. In deference to his guests, the German chancellor had arranged that the last shot in the war should be fired by the French.

A dinner given by General Nogi and his officers to the Russian Headquarter Staff celebrated the conclusion of the Russo-Japanese War of 1905. But as has already been said, it is impossible that any similar civilities will mark the close of the present world war. The ill deeds of the Hun, written in blood and fire, are too terrible to be so quickly forgotten or so easily forgiven.

One Guess.

Stranger (at the door)—I am trying to find a woman whose married name I have forgotten, but I know she lives in this neighborhood. She is a woman easily described and perhaps you know her—a singularly beautiful creature, with pink and white complexion, seashell ears, lovely eyes and hair such as a goddess might envy.

Servant—Really, sir, I don't know.

Voice (from head of stairs)—Jane, tell the gentleman I'll be down in a minute.

The plain unvarnished truth is better than questionable rhetoric.

SIR EDWARD GREY IS INVULNERABLE

HAS OUTLASTED ALL OTHER FOREIGN MINISTERS.

Noted British Writer Calls Him the Most English Englishman in England.

It is over ten years since Sir Edward Grey became the British Foreign Secretary. During the whole of that period he has been always a prominent and sometimes the outstanding figure of European diplomacy. One may begin to realise something of what that means by attempting to recall the names of the men who made ado were his more or less friendly rivals, writes Mr. Sydney Brooks.

Where are they all today? Dead, dismissed, retired, or hovering merely for a moment that Sir Edward Grey remains.

No Continental Chancellor or Sovereign, I should say, ever imagined for a moment that Sir Edward Grey could be removed out of his office by a political intrigue or that his held on it was dependent upon the shifting opinions of a King, or that the British people were in the least likely to desert him.

He was irritatingly invulnerable. They could not get at him. He seemed a permanent feature of the British and European landscape, while they were more than transient and awkward visitors. The prestige of continuity—that precisely was what they lacked and he possessed. He held his office on something approaching a freehold tenure, they held theirs under the threat and shadow of a writ of ejectment.

I hope I am not being too insufferably British in thinking that England has always been somewhat envied, at any rate in Europe, for a certain attribute of impassive and self-contained stability.

Respected Abroad.

It was not merely the security of his position that made Sir Edward up to the eve of Armageddon one of the main pivots of the European system. It was also the ease with which he put it. The years during which he has been charged with the conduct of British foreign policy have been years of almost incessant crisis and commotion. They have pretty thoroughly tested him, and, if for the moment we leave the last eighteen months out of account, the universal judgment of friend and foe would be that he has stood the test well. His acceptance of the post was an even greater relief to the nation than to Sir Henry Campbell-Bannerman himself. Abroad, among the friends of England, it had an instantaneous and reassuring effect. Among the enemies of England, or among those who stood to forfeit by a change in British policy, and who would have welcomed the presence in Downing Street of a Minister governed by the Gladstonian spirit, its effect was not less complimentary. If Great Britain and her friends and allies felt that a danger had been avoided, other powers over Morocco and Persia felt that a danger had been avoided, other powers over Morocco and Persia felt that a danger had been enclosure of an opportunity snatched away.

Perfectly Straightforward.

Sir Edward, with that straightforwardness which is the very essence of his nature, lost no time in showing his hand. He publicly on behalf of the new Government, accepted all the engagements entered into by his predecessor. With equal promptitude he took a definite line on the Franco-German dispute over Morocco and unhesitatingly backed France for all he was worth. It was a course of action that on at least three separate occasions before the final rupture of 1914 involved the risk of war with Germany. But Sir Edward did not shrink from it. He held that Great Britain was bound to support the Third Republic with all the diplomatic, and, if necessary, all the material, power at her command; and after some tense moments the issue abundantly justified his prescience and pluck.

Possibly if one were to describe Sir Edward as the most English Englishman in England it might help those who are not English to a clearer comprehension of the man. He has almost all the excellencies and some of the limitations that go with the title. To meet him is to feel yourself in the presence of an English gentleman of absolutely the finest type, one whose dignity is so natural that it never occurs to him to wonder whether he is dignified, one from whose lithe frame and Roman Emperorish features there radiates an instantaneous impression of entire cleanness and squareness of thought and life and conduct. It is inconceivable that he should ever do our contemplate anything mean or petty or underhand—one minute in his company disposes of the notion forever. He is one of the most transparently honest men I have ever come across. So much one sees at a glance, and the conviction is renewed whenever and wherever one encounters him. Along with it one is not less conscious of an atmosphere of quiet reserve, and as it were, impersonal authority.

If you are in a hurry avoid the train of thought.

SPRING REMINDERS OF RHEUMATISM

Raw, Damp Weather Starts the Pains, But the Trouble Lies in the Blood.

Spring weather is bad for rheumatic sufferers. The changes from cold to cold, the raw, damp winds start the aches and twinges, or in the more extreme cases, the tortures of the trouble going. But it must be borne in mind that it is not the weather that causes rheumatism. The trouble is rooted in the blood—the changeable weather merely starts the pains. The only way to reach the trouble and to cure it is through the blood. The poisonous rheumatic acids must be driven out. Liniments and rubbing may give temporary relief, but cannot possibly cure the trouble. The sufferer is only wasting time and money with this kind of treatment and all the time the trouble is becoming more deeply rooted — harder to cure. There is just one speedy cure for rheumatism—Dr. Williams' Pink Pills. They act directly on the impure, acid-tainted blood. They purify and strengthen it and thus root out the cause of the rheumatism. Here is strong proof of the above statements. Mr. Michael Personage, Fenlon, Man., says:—"My mother suffered several years with rheumatism. We tried a number of remedies but they all failed to cure. Then we got Dr. Williams Pink Pills, and after using them for some time she was completely cured and has had no sign of the trouble since."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TOO CUNNING GREEKS.

What Happens to Men Who Are Too Smart.

The Greeks have always been noted for their exceeding cuning. It is a question whether they, the Jews, or the Armenians are the sharpest people of the near East. Someone has said that a Jew could cheat a Greek, but that an Armenian could cheat a Jew. The Greeks showed all their cunning at the beginning of the war. Although Greece is a desperately poor country, with a small army not of the highest efficiency, the Greeks made exorbitant demands upon the Allies as the price of their assistance. They wanted all of Macedonia, Thessaly and Smyrna, and perhaps more. The Allies chaffered with them for a long time, finally found that it would be cheaper to disregard their claims entirely. They took possession of Saloniki, which Greece had recently acquired, and have made it a strong base. Now the Greeks see the probable triumph of the Allies, and are clamoring for consideration in the settlement. On the other hand, the Allies are now telling the Greeks that they have overdid themselves; that they would not help when their help was of some value, and now they are not needed. They will have no consideration whatever in the settlement. This is usually the way with men who are too smart. The Spanish proverb has it, "that more foxes than asses' skins are taken to the tanners."

GOOD REPORT.

Doctor Proved Value of Postum.

Physicians know that good food and drink, properly selected, are of the utmost importance, not only for the relief of disease but to maintain health even when one is well.

A doctor writes, "I count it a pleasure to say a good word for Postum with which I have been enabled to relieve so many sufferers, and which I count, with its valued companion Grape-Nuts, one of the daily blessings.

"Coffee was banished from my own table some time ago and Postum used regularly in its place." (Both tea and coffee are injurious to many persons, because they contain the subtle, poisonous drug, caffeine.)

"I frequently find it necessary to instruct patients when they take Postum for the first time to be quite sure that it is properly made according to directions, then it has a clear, seal-brown color and a rich, snappy taste, as well as health giving qualities."

The above letter, received over ten years ago, is fully confirmed by a recent letter from the doctor, in which he says:

"It is a pleasure to render a good report covering a product of which I am so enthusiastic a friend.

"I am using in my home your Postum Cereal in both its forms. And, what is more, I am having it used in the families of several patients in which there are children, and all unite in endorsing the fine qualities of your admirable product."

Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c. pkgs.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

MULE BETTER THAN CAMEL.

Used as Beast of Burden by British in Mesopotamia.

The mule has proved a far more reliable and useful transport animal than the camel in the Mesopotamia campaign. If breasts were decorated the mule would be covered with ribbons. He knows not defeat. His hardiness is proverbial. None of the plagues of Mesopotamia have effected his sangfroid.

The camel has so far been but an auxiliary. The breed used here, called "Jedi," is not, like his "Bedawi" brother, trained to go without water, but he is proof against the ubiquitous camel fly, and has certain other virtues of his own. In spite of his wobbly extremities and grotesquely proportioned limbs, the camel is a dainty beast. His haughty gait and supercilious glances are generally attributed to pose; as a matter of fact they are the expression of an inward and unsuspected delicacy. Too often the camel's uncouth bulk gives a false impression of hardiness. He is not hardy.

He is brittle, and will break his leg kicking against a stone, and he will split up and die if his legs split apart in the mud. Snow kills him. He is sensitive to damp, and will catch a cold if asked to sleep in a swamp. But well cared for, sufficiently equipped, and tactfully treated, he is second only to the mule as a beast of burden.

WANT ONLY HERO HUSBANDS.

Young Breton Girl Will Not Marry Non-fighting Men.

The young girls in Brittany have formed themselves into an association which forbids its members marrying any young man who has not taken part in the war.

This does not only refer to the deserters and those who fled their duty, but to the "slackers" who found the means, through influence or lying, without reason of ill-health or for other just cause, to keep safe in the rear and left their comrades to do the fighting.

The rallying cry of these patriotic young Breton girls is: "Better a cripple than a slacker!"

One member of the association expressed thus her thought: "I would rather love a man who had no arm than one who had no heart."

CHILDHOOD CONSTIPATION.

Mrs. Andrew G. Lund, Hughenden, Alta., writes:—"Two of my babies were very much troubled with constipation and I tried several remedies without success. A neighbor advised me to try Baby's Own Tablets and they were so satisfactory that now I would use nothing else." The Tablets never fail to cure constipation and they may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Hard for Them.

"Is your father finding it difficult to give up smoking?"

"Oh, he's sticking to his resolution all right, but he's so ugly that the family's likely to crack under the strain any minute."

Sore Eyes Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye free write Druggists or Murine Eye Remedy Co., Chicago

From the Middle West

NOTES OF INTEREST FROM HER BANKS AND BRAES.

What Is Going On in the Highlands and Lowlands of Auld Scotia.

Calgary is about $1,000,000 better off than Edmonton in the matter of tax arrears.

Drumheller, formerly a village under the village act, is declared a town by the deputy provincial secretary.

Cardstown has sent 22 recruits in the kilties, and Coal City 27.

Calgary is to have an institute for the feeble-minded.

The Rozilee, Sask., grain growers have invited women to form a branch of the association.

A patriotic concert at St. Brieux netted $105 to help in the Saskatchewan schools' patriotic fund.

Every unmarried man of the village of Fairdale, Man., has enlisted.

Schools of Saskatchewan have now contributed $5,500 to the Patriotic Fund.

In the year 1916, no fewer than 58 new coal mines were opened in Alberta, according to a report just issued by the provincial authorities.

Instruments for the regimental band of the 203rd "Dry" Battalion at Regina have been donated by a well-known western man.

It is said that there is more work to do and less men to do it this spring than ever before in the history of Alberta, notwithstanding the fact that farmers are offering exceptionally high wages.

Fred Parker, about 45 years old, was instantly killed at Indian Head when the first division of C.P.R. train No. 1 from Montreal struck the wagon that he was riding.

Alberta has contributed to the war just about as many men as the province of Quebec, although the population of that province and that of the city of Montreal are practically equal. The population of Quebec is nearly 3,000,000; that of Alberta about 550,000.

The school children of Calgary are to present a complete set of colors to the 82nd Overseas Battalion. The presentation will take place on Victoria Day.

During February 807 cases of measles were reported in Winnipeg against 447 in the same month a year ago. The total number of communicable diseases for the month was 850 with 25 deaths, compared with 608 cases and 31 deaths last year.

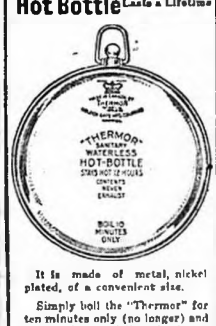
Kinistino, Sask., has made very rapid strides of progress during the last two years of hard times. Over 20 new up-to-date residences have been built in the village, besides another story being added to the public and high school.

A settlement of 60 Dukhobor farmers from the Dukhobor settlement in the Nelson district arrived in Lethbridge the other day, bound for Raymond, where they will farm this year.

The sum of $50,000 has been kept in the country through the efforts of the Winnipeg city controllers in buying 12,000 cords of wood from the wood camp committee of the Patriotic association and selling it to the various civic institutions.

The Doctor Calls It "Auto-Intoxication"

It means self-poisoning—an ailment that is almost universal with men and women of sedentary employment. Its cause is the daily intake of indigestible foods. Mineral salts and saline laxatives will not cure it. Help Nature to clean out the poisons by eating Shredded Wheat Biscuit, a food that builds healthy tissue and keeps the bowels sweet and clean. The perfect food of health and strength for youngsters and grown-ups, for men who work with hand or brain. It is ready-cooked and ready-to-serve.



Made in Canada.

How "Lloyd's" Began.

"Lloyd's" has often been described, but not everyone is familiar with the varied operations of this famous institution. The great Maritime Exchange is really part of the Royal Exchange, and owes its origin to Edward Lloyd, who kept a coffee house in Tower Street, London. This coffee house was in a place where news could be obtained; and to-day Lloyd's is the leading institution in the world for obtaining maritime news. In one of the rooms may be seen the first insurance policy of which there is any record. It was taken for a ship, the Golden Fleece, which was insured for a voyage from Lisbon to Venice on January 20, 1600.

THERMOR

Waterless Hot Bottle Remains Hot for 12 Hours Lasts a Lifetime

It is made of metal, nickel plated, of a convenient size.

Simply boil the "Thermor" for ten minutes only (no longer) and it stays hot for full twelve hours at an even temperature of 125 deg. Recommended by physicians on account of the steady heat and sanitary metal case.

No trouble — no filling — no danger of scalding the hands— no leaks—no expense and one purchase lasts a lifetime.

In sickness, such as Neuralgia, La Grippe, Rheumatism, Neuritis, Inflammation—in fact all aches and pains, the "Thermor" is invaluable. As a bed-warmer and a foot-warmer it has no equal.

"The "Thermor" measures 8¼" across and is 1¾" thick, yet it weighs less than a filled two quart rubber bottle. The price is $4.00 sent Postpaid anywhere and sold under an absolute guarantee from the makers.

High-class representatives wanted in some territories.

9 Yonville Street, Montreal.

RUSSIAN VOGUE IN LONDON.

Language and Customs of Czar's Land Taken Seriously.

There is only one vogue, nowadays, for those fashionables who like "vogue" even better than vermouth, says the London Chronicle. That is the Russian vogue.

It appears that Petrouvna, dallied appreciably with Dostoievsky; then verged round to Votchtchenko. The fair vogulates are now reveling the Russian dresses, high Catherine the Great coiffures, and black cloth boots.

But the Vogulates are taking their Russia seriously. Many have begun to learn the language, according to the manager of a popular West End library. "There is a very great demand," he said, "not only for English translations of Russian works and English books about Russia, but for books in the original language.

The Russian vogue has even extended to eating and drinking, not to say smoking. At least one widely known restaurant is now actually offering nips of real vodka and portions of real borshtch, Russia's national soup on its menu. But very far from real Russian proust.—London Chronicle.

Ask Around You for the Proof

THAT DODD'S KIDNEY PILLS ALWAYS CURE KIDNEY DISEASE

In Every Neighborhood You Will Find People Cured of Backache, Rheumatism, Dropsy or Diabetes by Dodd's Kidney Pills.

Lac Bouchette Lac St. Jean, Que.—April 17th (Special.)—Mr. Arthur Fleurie, well known and highly respected here, has just issued a short, concise statement in regard to Dodd's Kidney Pills. It is as follows:

"I have found that Dodd's Kidney Pills are an excellent remedy and that they cure kidney disease, rheumatism and indigestion."

Mr. Fleurie has received such benefit from Dodd's Kidney Pills that he wants other sufferers to know how to find relief. He feels it is his duty to his fellowman.

If you inquire among your neighbors you will find scores of people who have found in Dodd's Kidney Pills relief from some form of kidney trouble. It may have been the dry, itching skin, dizziness, nervousness and inability to get refreshing sleep that mark the earlier stages of the disease, or it may be diabetes, dropsy, rheumatism, heart disease, or some other of the dangerous diseases that mark its advanced stages.

You will find that Dodd's Kidney Pills cure kidney trouble, no matter where or in what form it is found. Ask your neighbors for the proof.

OLD-TIME CURES PERSIST.

Much Ancient Faith, for Example, About Mandrake Root.

Superstition as to the methods of curing diseases, once very prevalent, are not altogether extinct yet, says an exchange. Much ancient faith clustered about the mandrake root, which was carved in the form of a doll dressed in fine cloth and kept in a box or coffin concealed in some corner of the house. Each month it was washed in wine and water and freshly garbed.

Another universal cure was to carry a piece of hillstoe which had been cut from a tree by a golden sickle and caught in a white vessel as it fell.

Metal scraped from a church bell or a piece of the rope was supposed to have a similar protective influence against disease, as also a cloth stained in the blood of a murderer or the rope with which he was hanged.

Minard's Liniment Cures Burns, Etc

A Good Guesser.

Herbert Edwin—"I say, Johnny, which is the way to the pavilion?"

The Gamin—"Ow'd yer know my name's Johnny?"

Herbert Edwin—"I guessed it."

The Gamin—"Well, if yer so good at the guessing game, yer can keep on and guess yer way to the pavilion."

Minard's Liniment Co., Limited.

Gentlemen,—I had my leg badly hurt, the pain was very severe and a large swelling came above the knee. I expected it would be serious—I rubbed it with MINARD'S LINIMENT, which stopped the pain and reduced the swelling very quickly. I cannot speak too highly of MINARD'S LINIMENT.

AMOS T. SMITH.

TWO WONDERFUL CLOCKS.

One at San Diego Has Twenty Dials, All of Them Useful.

One of the most wonderful clocks in the world is owned by a Frenchman, Louis Descottes. It is mounted on a Louis Seize stand and has four faces. Besides marking the hours, it shows the tides at six different parts of the world, the mean time and the solar time, the age of the moon, the movements of the planets and all eclipses. It is also a perpetual calendar. It was made by Janvier, of Paris, in 1789, and took eleven years to manufacture.

San Diego, Cal., has a wonderful clock with twenty dials, which tell the time simultaneously in all parts of the world, also the days of the week and the date and month. It stands 21 feet high, and four of its dials are each 4 feet in diameter. It is inclosed in plate glass, so that every action can be seen, and the whole is illuminated every night. It is jewelled with tourmaline, topaz, agate and jade, and required 15 months to build. The motive power is a 200-pound weight, which winds itself automatically. The cost of the clock was $3,000.

Minard's Liniment Relieves Neuralgia

Family Affair.

"So my daughter has consented to become your wife. Have you fixed the day of the wedding?"

"I will leave that to her."

"Will you have a church or a private wedding?"

"Her mother can decide that."

"What have you to live on?"

"I will leave that entirely to you, sir."

Minard's Liniment Cures Dandruff

War-Weary in Germany.

Professor Patrick Hageland, a prominent Swedish doctor, writing on his recent experiences in Germany, says that in Berlin "there was over the whole population an indescribable expression of war-weariness," while the groups of soldiers he saw "presented a concentrated picture of mental and bodily exhaustion."

Fluff.

"Some men uses big words," said Uncle Eben, "de same as a turkey spreads his tail feathers. Dey makes an elegant impression, but dey don't represent no real meat."

Shaving a Pleasure —Not an Operation.

"CUTIT," the wonderful new skin food and wrinkle eliminator, is a boon to men with heavy, stiff beards and tender skins.

A man who has used it for a short time said recently: "Shaving is a pleasure now I used to consider it almost an operation."

It is only necessary to rub a few drops of "Cutit" into the beard before lathering to enjoy an easy, quick shave.

"CUTIT" penetrates into the pores, softens the beard, and gives a clean, close shave. The beard peels right off, without pulling a hair.

"CUTIT" is kind to tender skin. There is no smarting or soreness after shaving. Given the face a fine feeling of smoothness and freshness.

"CUTIT" prevents dryness of the skin caused by exposure to excessive winds.

Accept no substitute.

Send 50c to-day for a trial bottle—sufficient for over two months' use.

TENTH CON BRUCE

If present weather conditions prevail much longer seeding will be given quite a set-back. Some of the farmers have considerable plowing to do and help is scarce.

Mr W J Haney spent the week end with friends on the 10th.

A number of our sports secured quite a large haul of fish last week in the creeks where they empty into Lake Huron. Of course, with the large catch of fish they had the usual fisherman's luck.

The party or parties who removed the pig from the pen of the farmer near Elsinore certainly had all their gall with them. We were informed of a similar case which happened near Paisley a week ago. While one of the citizens of the town was driving in with a couple of porkers in broad daylight they actually disappeared out of the wagon and disappeared for parts unknown. It has since been reported that they have been recovered, and that no legal action will be taken against the parties who out of an act of kindness had taken the strangers in. Some people maintain that Dave actually tried to lose the pigs, for he has no use for a hog at any time.

Misses Maggie and Janet Mills, of the O A C, are spending a short vacation at their home here.

Mr Geo Heath, while delivering His Majesty's mail one day last week, had a rather unique experience when he struck Parker's hill near Paisley. Owing to the unusually wet spring the centre of the hill has given away and leaves the roadway in a very serious condition. George got his horse down so deep he had to unhitch him and use some persuasion to get him out. He had also with the help of a good Samaritan to use a lot of main strength and ingenuity to get the mail wagon in shape for further progress.

On Wednesday evening of last week the friends and neighbors of Pte W J White gathered at his home to spend a social evening with him. The first part of the evening was spent in dancing, and after lunch Mr A McLean, who acted as chairman, called the gathering to order. Mr McLean's remarks, which dealt particularly with the European conflict, were well received and appreciated. Mr Jas McKenzie read an address to Pte White while the latter's sister, Miss Violet White, strapped on his wrist a beautiful watch, the gift of his friends. Pte White made a neat and suitable reply. After the presentation dancing was resumed. A good deal of interest was taken in the Scotch reel which was perfectly done by Mr A McLean and Mr Charlie McDonald having as their partners Mrs Geo McGillivray and Mrs J Caldwell respectively.

CANTIRE

Miss Mabel Walpole, who is teaching school near Muskoka Lake, is spending holidays with her parents here.

Farmers are patiently waiting for weather that will enable them to begin seeding operations. Clover and fall wheat are looking particularly well so far.

Inspector McCool paid a visit to our school one day last week and left the usual instructions for the trustees to spend more money.

The Bradley family have got settled down in their new premises. We welcome them to our midst.

We are glad to report that Sylvester and Alex Gowanlock, who have been confined to the house with a severe attack of la grippe, are now convalescent.

Pte Irwin Eson, who has spent the past few weeks at Walkerton, where he has been taking an officers' course, spent the Easter holidays at his home here. Irwin seems to possess the proper qualifications for a crack soldier—a fine physique, a cool head and a resourceful mind.

Mrs Neil McMillan and daughter Marguerite, of Chesley, spent the holidays at the home of her mother, Mrs Angus Bell.

Miss Mary Blue, who has been teaching school near Holland Centre, spent the holidays under the old roof tree.

Children Cry
FOR FLETCHER'S
CASTORIA

WILLOW CREEK

Mrs David Wittig and Mrs Will Berndt were in Toronto over Easter, Misses Bell and Ruth Shipley in London.

Fred Schnitker who enlisted with the 160th a few days ago, is back to civilian life again, resuming farm duties. Although stout and fit in physique, the medical examiner found Fred's eyesight too defective to be of service in war operations.

Miss Nixon, our teacher is spending the vaction at Lucknow.

SECOND CON ELDERSLIE

Hugh Campbell has returned from Pinkerton to work for Thos Pepper for the summer months.

Mrs Geo Greaves has been suffering from a slight attack of paralysis for the past couple of weeks. At time of writing she is improved.

Mr and Mrs Will Lamont visited friends on this line last week.

Mrs J B Allen is spending a few weeks with friends in Galt.

A goodly number from here attended the soldier boys presentation at Gillies Hill on Friday evening.

Mrs (Rev) F Brown of Bervie, and Mrs W Ferrier and little son Jimmie of Bervie, were visitors at W J Allen's last week.

Mr Robertson, of Stayner, is visiting his sister, Mrs Jas Allen, who is critically ill at present.

On Sunday, April 23rd, death claimed another of the early settlers of this section in the person of Mr Francis Flood, who died at his home in Chesley at the ripe old age of 80 years and 8 months. In the early days Mr Flood was one of the most active and energetic men that this community was proud to boast, and he with his partner in life made for themselves a comfortable home on lot 12 of this concession, now owned by Wm Robinson. There they endured the hardships of pioneer life and both lived to see this part of the country settled and prosperous as it is to-day. In the year 1893 they retired from farm life and moved to Chesley where they enjoyed the fruit of the labor of their early days until Mrs Flood was called away about a year ago. Of a family of six sons and three daughters Mrs Campbell, of Vesta, is the only one residing near by. Mr Flood had been enjoying fairly good health all winter and about a week ago returned from visiting friends at St Catherines, but was suddenly laid low by a very severe attack of pneumonia which proved fatal. The funeral which was held from Holy Trinity church on Monday was largely attended by friends and relatives from here.

Wm Walks has returned from Toronto where he has been taking the veterinary course. Pte Jack Walks, of the 160th Bruce Batt, is also home to help with the seeding.

Pte Neil Morrison, of Toronto, accompanied by Mrs Morrison, are spending a month with their aunt, Mrs D Allen.

GLAMIS

Those who are spending the Easter holidays at their homes here are Misses Mabel Klykstown of Ennislillen school, and Alberta from Paisley high school; Nettie Gunn and Mary Webb, from Stratford Normal; Chas McKinnon, of Walkerton; Coll McLean, of North Bay.

We are sorry to report the illness of Mrs Chas McKinnon, who has been confined to the house for the past week.

Miss Jennie McDermaid, of London, spent the week end with her mother here.

Miss Edith Howson is home for a short visit.

Misses Hazel and Irene Colwell are spending a few days with Mrs Dan Robertson.

Mrs Reith is visiting friends in Toronto.

Mrs Tom McIntosh, of Stratford, spent a few days with friends here.

Mrs J K McLennan is visiting at the home of Dr Black in Clifford.

Miss Flossie McLennan is spending vacation with her sisters in Detroit.

Miss Ethel Stewart is home from Guelph for a short visit.

Mr and Mrs Maber, of Mikado, Sask, arrived from the west on Monday and will spend some time at the home of Mr Chas McKinnon.

Children Cry
FOR FLETCHER'S

PINKERTON

Here for Easter: Miss Mertis Donnelly, Frank Donnelly, Walter Birrell and Rich Trotter, from Toronto; Miss Greta Gregg, from Paisley, at A Gregg's; Miss Verna Donnelly and Gordon Pinkerton, from Stratford Normal; Robt Gale, from Alma, at the manse, and Miss Sylvia Reid, from Harriston.

Miss Alma Reid was called to Harriston to attend Mrs George Mason, who has been very sick.

Miss Mary Culham, of Dunnville, visited her friend, Miss Jennie Pinkerton last week.

Pte Gordon Garland spent Easter in Toronto.

Rev Mr Gale attended a church meeting at Stratford the first of the week. Mrs. Gale is visiting at Arthur.

Miss Mary McKee returned from Stratford where she has been attending business college.

Our tonsorial artists have both left town, Mr Herb Fiddis returning to his home and Mr Neil Thompson going to St Thomas where he has secured employment.

PRESENTATION TO BRUCE TP SOLDIERS

On Tuesday evening last a social time was spent in the Tp Hall, Underwood, by the ladies of the Underwood Red Cross Society and their friends, the object of the gathering being to do honor to the brave boys forming the Tiverton platoon of the 160th O. S. Battalion by presenting each with a pair of socks. Bruce Tp. Council also availed themselves of the occasion to present, on behalf of the municipality, each Bruce Tp. recruit for overseas service who has been attested and passed the medical examination, with a cheque for $15 as a mark of appreciation.

Rev. A. MacNab officiated as chairman, and a programme of vocal and instrumental music, recitations, addresses, etc., was rendered, to the pleasure and edification of all present.

A seven weeks old pig presented to the Red Cross by Mr W Schnitker, and for which tickets had been sold, was drawn for. The winner of the porker was Miss Jessie McNaughton. Nearly $15 was realized from the sale.

Lunch was served after the programme.

The following address was read to the soldiers:

DEAR FRIENDS, SOLDIERS OF THE TP. OF BRUCE:

We are gathered here to-night to show our appreciation of your action in consecrating your service to our King and Empire in the severe trial that has been forced upon us by the lust of power and greed of the German Empire. A nation that loves peace may be forced to fight for its right to continued existence, just as a peace loving man may be forced to resist the aggressions of a bully. Germany has been the arrogant and swaggering international bully of the last half century. She has armed herself to the teeth on land and sea that she might bring Europe and the world under her autocratic domination. The British Empire was her greatest envy, and envy was changed to diabolical hate, as is witnessed by the fact that the Kaiser decorated Lenaurt, the poet of the Hymn of Hate. Like a mad bull she has run amock of the world. The strength of a nation is the strength of her people. Hate is not caused by strength, but by weakness and fear. Great Britain and her loyal overseas dominions are not engaged in a congenial work in destroying the power of the most bitter and ruthless foe she has ever been forced to face in a disagreeable task. Still, disagreeable as the task is, it has to be done for our own and the world's good, and Great Britain and the sons of the Empire will do it. We have set ourselves to the task, and there can be no rest to the fight until the militarism of Germany has been smashed beyond the possibility of repair and the dreams of the Kaiser and his arrogant war lords have been shattered by the rude awakening that has already begun. We rejoice in the fact that Canada is contributing to the ultimate victory, and that our own municipality of Bruce is sending forth some of her gallant sons to help to smash the most inhuman and barbarous military machine that ever cursed God's fair earth. We know that you will uphold the honor and fair fame of the British and Canadian name, that you will do nothing unworthy of the stock from which you sprung. We, the Township council, in the name of the Township of Bruce, present you each with a cheque to show our appreciation of your action in offering yourselves for the defence of our and the world's liberties, and in defence of law and right against brute force. We will follow your fortunes with the deepest interest and concern, and we hope that when you have helped to cage the wild beast that has been tearing the world's vitals with fang and claw, and polluting everything holy, we may have great joy and delight of welcoming you home again, without one missing.

Signed on behalf of the Tp of Bruce,
JAS JOHNSON, Reeve,
J G MACKAY, Clerk.

CARGILL

After prayer meeting at Mr Wm Cliff's on Wednesday evening of last week, the Anglican people presented Mrs Thos Abell with a clock and Miss Bessie Abell with a comb and brush set, as a token of appreciation of the help given by these ladies in the different branches of church work in which they have been ardent workers. The Abell family leave the village shortly for Brussels, where Mr Abell and son Bertram are now employed.

Born—On April 19th, to Mr and Mrs M L Zeigler, a son—Arnold Emerson.

Mrs John Laughleen is on a visit to friends in Nanagoways and other points.

The Misses Gowanlock, of Walkerton, spent Sunday at Mrs R Laughleen's.

Mr and Mrs H Sperling are in Goderich attending the wedding of their son, Mr Roy Sperling, who is in the employ of the G T R in that town.

Those who were away for the holiday were: Miss G Keeling to Toronto, Miss Newman to Owen Sound, Miss M Hood to Paris, Mrs Bricker to Toronto, Miss Selling to Midway, Messrs R Hood and J Brown to Ayton, Mrs and Master Trimble Baillie to Clifford.

Those here for the holiday: Corp Loughleen from Barrie, Corp Hamilton, Pte Pegelo, Hanson, Zimmerman, Garland of the 160th, Pte Howard Parker from Owen Sound, Messrs Phil Sperling, Lon Cliff, E Dietrich of Chesley, Mr Geo Mahoney from Southampton, Mr Harold Loughleen from Drayton, Mr Spencer of Milverton, Mr A Jordan of Colborne, Mr Wm Jordan of Brussels.

Mr Geo Welsford is back to the village and has decided to remain here for the summer. We are glad of this, as the Welsfords are citizens we do not like to lose.

Mr and Mrs Jas Wells, of Port Elgin, spent Monday at Mr R Wells'.

Death claimed another pioneer on Saturday, when Mrs Pat Connors passed to the great beyond from whence no traveller returns. The late Mrs Connors was among the early settlers in this vicinity, living for a great many years on a farm about three miles from this village. During the past year or so she had been a great sufferer and death came as a happy release. The funeral took place to the R C cemetery on Tuesday morning.

Mrs Leppert, of Welland, spent over Sunday at the parsonage.

Miss M Martin returned on Saturday from a three weeks' visit to Sarnia.

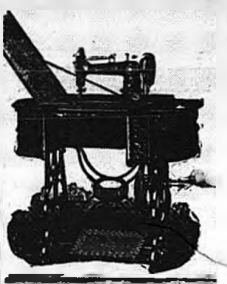
Mrs McLelland, of Grand Valley, visited at Mr W Jordon's over the holiday.

Pte Nelson Abell visited his sister, Mrs Ben Neal, here this week.

PRESENTATION IN ELDERSLIE

The following address fully explains the purport of a gathering of friends and neighbors at the home of Mrs P O'Hagan, on Tuesday evening, April 18th:

DEAR MRS O'HAGAN:



It was with feelings of the deepest regret that we, your friends and neighbors, learned that it is your intention to leave this vicinity and take up your residence in Guelph. You have been with us now for a number of years and in that time you have earned, and deserve, a warm place in our thoughts and hearts. We appreciate you for the high standard of living which you have set, for your trueness as a neighbor, and the many other good qualities which we know you possess. Nor can we refrain at this time to refer in a word or two to the one who is now departed; the true manliness displayed by him and the many acts of kindness which have endeared him to all will live long in our thoughts, so that to years to come you will both be remembered only with pleasure and affection. We have taken the privilege of meeting here to-night, as we have planned a little surprise to you which we hope will be a pleasant one. We have obtained this silver tea pot and cut glass set, and we present it to you on behalf of your friends. We ask you to accept these small gifts, not for their intrinsic value but as a token of the respect and esteem which we bear for you, and when you have occasion to use them may they remind you of the friends assembled here to-night whose kind thoughts of you have prompted this action. We also convey to you our very best wishes for your future and express the hope that your new home in your new home may be filled only with blessings.

(Signed) JOHN BANNERMAN,
JOHN HAMMOND,
EDWARD COLLINS.

Mr. Jas. Hammond read the address and Mr. F. P. Collins made the presentation.

Mr. Jas Cameron was chairman of the meeting, and following Mrs O'Hagan's response to the address, called upon a number of those present, who made short speeches.

—The population of Huron County, as shown on the assessment rolls of 1915, is 49,913. The total population of the county in 1890 was 66,781, thus showing a falling off in population of 16,868 during the past 25 years.

We have the Heintzman, Hammond, New Williams, Willis, Heppe and Standard—all the very latest models. Ball Pianos and Organs. Edison Phonographs and Records.

House Building Contract to Let

SEALED tenders will be received by the undersigned up to Friday, May 5th, at 5 p.m., for the mason and work required for erection of a brick residence on Queen St south, Paisley. Plans and specifications may be seen at my residence. The lowest or any tender not necessarily accepted. J. A. MCARTHUR.

Hog for Service

THE undersigned has for service on his premises a pure bred Yorkshire hog. W. G. HUTCHIN, 36th con. Greenock.

Production and Thrift

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—*HON. MARTIN BURRELL, Minister of Agriculture.*

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN "THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

LIVE STOCK—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

MEATS—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 304,245 tons came from without the Empire. Out of 430,420 tons of beef only 101,007 tons came from within the Empire.

The demands of the Allies for canned beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

DAIRYING—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly 28,500,000 over 1914. Prices at Montreal—Cheese: January 1915, 15¾ to 17 cents; January 1916, 18½ to 18⅞ cents. Butter: January 1915, 24 to 28¾ cents; January 1916, 32 to 33 cents.

EGGS—Canada produced $30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.

Soldiers to Walkerton Mobilization Camp

All our recruits for the 160th, except those employed on farms during seeding, went to Walkerton on Monday, so that in our community there are no signs of war other than many vacancies in the homes from whence the brave men went forth to answer the call of the nation.

The Late Wm. Murcer

On April 23th an attack of pneumonia, from which he suffered for two or three weeks, proved fatal to the life of William Murcer, a sturdy working man known to nearly everyone in Paisley and vicinity. He was born in Scotland, and came with his parents to Saugeen Tp. For twenty-five years he lived in Paisley, occupied at teaming and labouring. He was married to Ettie Bell, of Saugeen, who survives him, together with a family of four sons and four daughters. The funeral took place on Wednesday afternoon to Stark Vale cemetery.

Back From Egypt

Mr Robt Tucker is about as pleased as any Israelite could have been in the days of Moses to get away from Egypt and back to his native country. He arrived here on Saturday night. After being with a corps of medical students on hospital duty at Cairo for several months fourteen of them returned to Canada last week to take up their last term's work in a special summer course provided for the benefit of those students who answered the call to war service. Mr Tucker has a lot to tell of his experience during this short sojourn in the land of the Pharoahs.

EASTER SUITS

Plenty of people have yet to buy suits. They have lost nothing, either—not a thing. Suits have been going out in a regular procession, but we have been replenishing stocks right along.

Just as much here at this minute as at the season's beginning.

Call—choose the cloth—learn the price—leave the rest to us.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XIII.—(Cont'd.)

A sudden quiet came on the place. An officer had entered the door, his face pale and, as though with an instantaneous prescience that he bore bad tidings, th noises dropped away. The officer raised his hand, and his words fell on absolue silence as he said in Spanish:

"The conference is ended. Vegas surrenders—without terms."

"You see!" exclaimed Rodman, excitedly. "You see, it's the last chance! Paul, you've got to take him! In half-hour, the armistice will be over. For God's sake, man!" He ended with a gesture of appeal.

The place began to empty.

"Get him to my boat, then," acceded the captain. "Here, you fellows, lend a hand. Come on, Doc," The man who had a ship at anchor was in a hurry. "Don't whisper that I'm sailing; I can't carry all the people that want to leave this town to-night. I've got to slip away. Hurry up."

A quarter of an hour later, Herve stood at the mole with Rodman, watching the row-boat that took the other trio out to the tramp steamer, bound ultimately for France. Rodman seized his watch and studied its face under a street-lamp with something akin to frantic anxiety.

"Where do you go, monsieur?" inquired the Frenchman.

"Go? God knows!" replied Rodman, as he gazed about in perplexity. "But I've got to beat it, and beat it quick."

A moment later, he was lost in the shadows.

CHAPTER XIV.

When Duska Filson had gone out into the woods that day to read Saxon's runaway letter, she had at once decided to follow, with regal disdain of half-way methods. To her own straight-thinking mind, unhampered with pretty conventional intricacies, it was all perfectly clear. The ordinary woman would have waited, perhaps in deep distress and tearful anxiety, for some news of the man she loved, because he had gone away, and it is not customary for the woman to follow her wandering lover over a quadrant of the earth's circumference. Duska Filson was not of the type that sheds tears or remains inactive. To one man in the world, she had said, "I love you," and to her that settled everything. He had gone to the place where his life was imperiled in the effort to bring back to her a clear record. If he were fortunate, her congratulation, direct from her own heart and lips, should be the first he heard. If he were to be plunged into misery, then above all other times she should be there. Otherwise, what was the use of loving him?

But, when the steamer was under way, crawling slowly down the world by the same route he had taken, the days between quick sunrise and sudden sunset seemed interminable.

Outwardly, she was the blithest passenger on the steamer, and daily she held a sort of salon for the few other passengers who were doomed to the heat and the weariness of such a voyage.

But, when she was alone with Steele in the evening, looking off at the moonlit sea, or in her own cabin, her brow would furrow, and her hands would clench with the tensity of her anxiety. And, when at last Puerto Frio showed across the purple water, with a glow of brief sunset behind the brown shoulder of San Francisco, she stood by the rail, almost holding her breath in suspense, while the anchor chains ran out.

As soon as Steele had announced Mrs. Horton and Duska at the Frances y Ingles, he hurried to the American Legation for news of Saxon. When he left Duska in the hotel patio, he knew, from the anxious little smile she threw after him, that for her the jury deciding the supreme question was going out, leaving her as a defendant is left when the panel files into the room where they ballot on his fate. He rushed over to the legation with sickening fear that, when he came back, it might have to be like the juryman whose verdict is adverse.

As it happened, he caught Mr. Pendleton without delay, and before he had finished his question the envoy was looking about for his Panama hat. Mr. Pendleton wanted to do several things at once. He wanted to tell the story of Saxon's coming and going, and he wanted to go in person, and have the party moved over to the legation, where they must be his guests while they remained in Puerto Frio. It would be several days before another steamer sailed north. They had missed by a day the vessel on which Saxon had gone. Meanwhile, there were sights in the town that might beguile the intervening time. Saxon had interested the envoy, and Saxon's friends were welcome. Hospitality is simplified in places where faces from God's country are things to greet with the fervor of delight.

At dinner that evening, sitting at the right of the minister, Duska heard the full narrative of Saxon's brief stay and return home. Mr. Pendleton was at his best. There was no diplomatic formality, and the girl, under the reaction and relief of her dispelled anxiety, though still disappointed at the hapless coincidence of missing Saxon, was as gay and childlike as though she had not just emerged from an over-shadowing uncertainty.

"I'm sorry that he couldn't accept my hospitality here at the legation," said the minister at the end of his story, with much mock solemnity, "but etiquette in diplomatic circles is quite rigid, and he had an appointment to sleep at the palace."

"So, they jugged him!" chuckled Steele, with a grin that threatened his ears. "I always suspected he'd wind up in the Bastile."

"He was," corrected the girl, her chin high, though her eyes sparkled, "a guest of the President, and, as became his dignity, was supplied with a military escort."

"He needn't permit himself any vaunting pride about that," Steele assured her. "It's just difference of method. In our country, a similar honor would have been accorded with a patrol wagon and a couple of policemen."

After dinner, Duska insisted on dispatching a cablegram which should intercept the City of Rio at some point below the Isthmus. It was not an original telegram, but had Saxon received it, it would have delighted him immoderately. She said:

"I told you so. Sail by Orinoco."

The following morning, there were tours of discovery, personally conducted by the young Mr. Partridge. Duska had wanted to leave the carriage at the old cathedral, and stand flat against the blank wall, but she refrained, and satisfied herself with marching up very close and regarding it with hostility. As the carriage turned into the main plaza, a regiment of infantry went by, the band marching ahead playing, with the usual blare, the national anthem. Then, as the coachman drew up his horses at the legation door, there was sudden confusion, followed by the noise of popping guns. It was the hour just preceding the noon siesta. The plaza was indolent with lounging figures, and droning in the sleeping singsong chorus of lazy voices. At the sound, which for the moment impressed the girl like the exploding of a pack of giant crackers, a sudden stillness fell on the place, closely followed by a startled outcry of voices as the figures in the plaza broke wildly for cover, futilely attempting to shield their faces with their arms against possible bullets. Then, there came a deeper detonation, and somewhere the crumbling of an adobe wall. The first sound came just as Mrs. Horton was stepping to the sidewalk. Duska had already leaped lightly out, and stood looking on in surprise. But Mr. Partridge knew his Puerto Frio. He led them hastily through the huge street doors, and they had no sooner passed than the porter, with many mumbled prayers to the HolyMother, slammed the great barriers against the outaides world. The final assault for Vegas y Libertad had at last begun.

Mr. Pendleton had insisted that the ladies remain at the rear of the house, but Duska, with her adventurous passion for seeing all there was to see, threatened insubordination. To her, the idea of leaving several perfectly good balconies vacant, and staying at the back of a house, when the only battle one would probably ever see was occurring in the street just outside, seemed far from sensible. But, after she had looked out for a few moments, had seen a belated fruit vender crumple to the street, and had smelled the acrid stench of the burnt powder, she was willing to run away.

Inasmuch as the stay of Duska and her aunt involved several days of waiting for the sailing of the next ship, Duska was somewhat surprised at hearing nothing from Saxon in the meanwhile. He had had time to reach the point to which the cablegram was addressed. She had told him she would sail by the Orinoco, since that was the first available steamer. At such a time, Saxon would certainly answer that message. She fancied he would even manage to join her steamer, either by coming down to meet it, or waiting to intercept it at the place where he had received her message. Consequently, when she reached that port and sailed again without either seeing Saxon or receiving a message from him, she was decidedly surprised, and, though she did not admit it even to herself, she was likewise alarmed.

It happened that one of her fellow passengers on the steamer Orinoco was a tall, grave gentleman, who wore his beard trimmed in the French fashion, and in his bearing had a certain air of distinction.

On a coast vessel, it was unusual for a passenger to hold himself apart and reserved against the chance companionships of a voyage. Yet, this gentleman did so. He had been introduced by the Captain as M. Herve, had bowed and smiled, but since that he had not sought to further the acquaintance-ship, or to recognize it except by apolite bow or smile when he passed some of the party on his solitary deck promenades.

Possibly, this perfunctory greeting would have been the limit and confine of their associations, had he not chanced to be standing one day near enough to Duska and Steele to overhear their conversation. The voyage was almost ended, and New York was not far off. Long ago, the lush rankness of the tropics had given way to the more temperate beauty of the higher zones, and this beauty was the beauty of early autumn.

Steele was talking of Frederick Marston, and the girl was listening with interest. As long as Saxon insisted on remaining the first disciple, she must of course beinterestedinhis demi-god. Just now, however, Saxon's name was not mentioned. Finally the stranger turned, and came over with a smile.

"When I heard the name of Frederick Marston," he said, "I am challenged to interest. Would I be asking too much if I sought to join you in your talk of him?"

The girl looked up and welcomed him with her accustomed graciousness while Steele drew up a camp-stool, and the Frenchman seated himself.

For awhile, he listened sitting there, his fingers clasped about his somewhat stout knee, and his face gravely speculative, contributing to the conversation nothing except his attention.

"You see, I am interested in Marston," he at length began.

The girl hesitated. She had just been expressing the opinion, possibly absorbed from Saxon, that the personality of the artist was extremely disagreeable. As she glanced at M. Herve, the thought flashed through her mind that this might possibly be Marston himself. She knew that MMaister's fondness for the incognito. But rhe dismissed the idea as highly fanciful, and even ventured frankly to repeat her criticism.

On the Farm

Handling Manure on a Large Farm.

There are various methods of handling manure in practice in our locality. Quite frequently we see the manure drawn out and spread off the sleigh on top of a lot of snow, a very poor way unless, perhaps, on a real level field of sod. If put on plowed ground in this way it tends to leave the soil, if any way heavy, in a soggy condition. Another method followed by some, but gradually becoming less popular, is to team the manure out in winter in small piles ready to spread in the early spring, but owing to the frost remaining in these heaps so long, they usually are not spread for a long time, and lie exposed to sun rain and wind until very little but straw is left to be thrown about, and the spots where the piles lay can be noticed in several succeeding crops, writes Wm. J. Bald, in Farm and Dairy.

Then we come to those who are more up-to-date and own a spreader. I do not wish to give the impression that I condemn this machine. It is all right in its place, and can be used to great advantage, but for handling a big bulk of manure successfully and in the shortest possible time, unless you can afford two spreaders, we prefer our own method.

We leave the manure all in the yard where it becomes tramped down tight, freezes quite hard, and very little is wasted. Right after the other spring seeding is done, we engage another extra man or two, and with two good teams and low truck wagons, if far to haul, we take a third, we manage to put a very heavy coat on all our corn ground, and probably some for hoe crop that hasn't been manured in the fall, in about three days. We then get the men at spreading which is not a bad job when done while fresh. If the field is one that has been plowed in the fall we give it a thorough cultivation before the manure goes on. Now, while the manure is being spread, two light twin plows are going, being very careful not to turn the manure under and deeper than that it is covered, and in course of a week or less our manure is out and under ground. I think in this way we have the least waste, and the soil gets all that is in the good old barnyard manure.

When all the planting is done we take the spreader, clean up all the manure that may have been left about the yard and put it on some nearby field of grain or meadow. A light top dressing on a field of oats, when up a few inches, works wonderfully.

To prove that our plan works successfully, we have a silo 12 x 36 which we filled last fall with less than six acres of corn, had four good men tramping continually, using the inside pipes, and on account of rain were stopped one day and one night, which gave it a nice chance to settle.

Picking Out the Calves.

From time to time, says one farm paper, some exponent of more live-stock rises to remark against the slaughter of the calves and not always is this without reason. We must agree that very often calves which should be kept in the herd for breeding purposes are turned away for veal and their owner gets little profit from them, and they are not permitted to do the good in the herd which they would have done if kept for breeding purposes. However, there are large numbers of calves raised each year which should go to the veal route, and many of those which are killed while very young would be no use if kept in the herd as breeders.

The good dairyman has a basis upon which he works in selling or keeping his calves as the case may be. He uses first of all, a pure-bred sire with milking propensities well marked in the blood of his ancestors. He keeps in his herd nothing but the best individual animals and heaviest milkers and he weighs the milk from each cow or heifer regularly and systematically, and, if necessary, has the milk tested for fat, so he knows exactly what each of his cows is doing and whether or not calves from that cow are likely to go on and make valuable animals to place in his herd. If the cow, mother of the calf, cannot, through milk production, justify her existence in the herd there is little reason why the calf from such a mother should be kept past veal age, and it is far better that such a calf should go to the butcher early in life than to prove a bill of expense, in fact, a robber, in the dairy herd.

The Profitless Calf.

There is little use of keeping an inferior dairy calf to the age of two or three years, because it will generally cost more, especially when grain is high in price, as it is now, to put meat on the wedge-shaped dairy carcass than it is worth. It would be folly then to keep all calves without discrimination. Only the best should survive for breeding purposes, and the only man who knows which are the best is the man who is using a proper sire of a heavy milking strain and is weighing the milk regularly from the cows to which this sire is bred, and keeping the calves from those cows which lead in milk production and give enough to pay for all feed and labor and leave a handsome profit besides.

B74

Sealed Packets Only.

Try it—it's delicious. BLACK GREEN or MIXED.

The point is, to be able to pick out calves which should remain in the herd, something must be known about the producing ability of their dams and this cannot be estimated by the ordinary guess-work method. The scales and the tests should be made just as important in determining the future individuals which shall comprise the herd as in determining which cow now milking shall remain in the herd.

It is important also that no faulty individual as to conformation and type be kept in the herd. It is not enough that the sire be from good milking ancestry and the cow be a heavy milker herself. They must have such conformation and preponency that the calves show the desirable type of the milking breeds.

Faulty calves should be discarded even though their ancestry be right This close selection will send thousands of calves to the block as veal which would otherwise be kept in the herd at a loss. It may be after all that there are not too many calves slaughtered young, but that there is not enough system followed in determining which shall go and which shall be kept Undoubtedly, many are kept which should go and equally true is it that many go which should be kept. The matter is in the hands of the dairyman, and the sooner he makes all his selections on conformation and type, backed by production, will it be righted.—Prairie Farm and Home.

FAMOUS OLD HOTEL.

Permanent Home Near London for War Cripples.

Since the fateful day in August, 1914, when it became known that Great Britain was involved in the great war, the men and women of England—the latter more especially—have been sympathet-cally endeavoring to alleviate the lot of the victims of the great devastation.

Charities of every description have been started, money has been poured out without stint in very direction. The great families have vied one with another in turning their town and country houses into hotels and hospitals for the wounded and sick. But in the welter of charitable endeavor there is the particular scheme which has laid hold of the imagination of the people, the home for totally disabled soldiers which it is proposed to establish in one of the beauty spots of England.

In a few months the old Star and Garter Hotel at Richmond, rich in memories of bygone festivities, will be ready for the reception of a number of men who have given their health and strength, their all, for their country.

All Londoners have made acquaintance with the beautiful scene which one obtains from the summit of Richmond Hill. The Star and Garter Hotel, on whose site will rise the new hospital for totally disabled soldiers, has been the scene of much and varied gayety. Marshall Soult, Louis Philippe, King Victor Emmanuel and Napoleon were among the many distinguished guests who have lived in it; the young guardsmen of the days of Waterloo took the air on its ample terraces, and the beaux who ruffled there in the early days of last century are said to have paid as much as £9 for the sight to look through its windows on the fair picture below.

Since then gay weddings and countless merry excursions of humbler folk have spread wide its name, but the coming of the automobile spelled disaster and ruin for the once so prosperous hostel. Richmond was found to be too near the metropolis to be used as more than a temporary halting place. Motorists stopped on the summit of the hill, gave an admiring glances at the superb view and sped on their way. But the new guests are among those to whom speeding in any shape or form is no longer possible. Their day for work or pleasure is over, at least they can and must take life easily, wherefore it is fitting that the nation should find for them a place of perfect peace and restfulness. The old, old song the "Lass of Richmond Hill" sang of the beauties of nature, beauties which can never be more appreciated than they will be by England's crippled heroes.

Little Willie: "Dad, give me five cents, and I'll be a good boy." His Pa: "No, my boy, I want you to understand that a son of mine must be good for nothing."

GOOD DIGESTION

When poor digestion is built, weakness and pain are certain and disease is invited.

Mother Seigel's Syrup corrects and stimulates the digestive organs and builds the way ultimate which arise from indigestion.

FOR 40 YEARS THE STANDARD REMEDY

MOTHER SEIGEL'S SYRUP

FOR STOMACH AND LIVER TROUBLE

At all Druggists, or direct on receipt of price, Re. 40-41-42. The large bottle contains three times as much as the smaller. A. J. White & Co. Limited, Craig Street West Montreal.

Watch Your Colts

For Coughs, Colds and Distemper and at the first symptoms of any such ailment give small doses of this wonderful remedy, now the most used in existence.

SPOHN'S DISTEMPER COMPOUND.

For sale by any good druggist, harness dealer, or delivered by

SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U.S.A.

MUSKRATS

We are now paying for SPRING MUSKRATS from Ontario, Quebec, and Eastern Canada the following guaranteed prices.

Ex Large	Large	Medium	Small	Shot and Cut
90	80	65	45	according to value.

We are the largest handlers of this article in Canada and need 500,000 skins for present demand. We want your collections. Our average price will positively exceed all others. Ship early and often. Ship small parcels of 10 skins or under by parcel post. We pay all charges.

N.B. All other furs full market values.

ROSENTER WILLIAMSON & CO., 272 St. Paul Street West Montreal, P.Q. Dept. W.C.

Experiment and Experience

Both point to Ramsay's Paint as your best of choice. In purity, wear and beauty of color they are unsurpassed. In economy they are unmatched. Courteous advice from local agents. Write for interesting paint literature. (4)

Selected Recipes.

Apple Snow.—One pint apple sauce forced through strainer, one cup water, one-half cup sugar, juice of one lemon, white of one egg well beaten. Mix, place on ice and serve cold. Or pack in freezer and freeze. Enough for six persons.

Spanish Roast.—Sear medium-sized round steak in tablespoon butter. Roll in flour and put in roaster, covered with thick slices of potatoes, three or four large onions, sliced, and three green sweet peppers, cut in rings. Sprinkle all with flour and dot with pieces of butter. Add pint of water and bake one hour in covered roaster. Thicken gravy and serve with roast.

Corn Bread.—Two cups corn meal, one-half cup sifted bread flour, one teaspoon salt, two teaspoons baking powder, one tablespoon sugar, two eggs, one and one-half cups water or water and milk, two tablespoon melted lard and butter. Mix dry ingredients. Beat eggs well and add to liquid. Add dry ingredients, then melted shortening. Bake in flat pans about two inches deep. Grease pans well and after butter is poured in dip a little milk over top to make better crust. When serving, cut in squares in pan and take up with flat knife.

Vegetable Soup.—One-half cup lima beans, one-half cup dried peas, two tablespoons barley, two tablespoons rice, two tablespoons brown beans, two potatoes, two onions, one small turnip, one carrot, one cup canned tomatoes, seasoning of salt and pepper, one stalk celery, one ham bone. Wash peas, barley and rice and soak for an hour and half in sufficient cold water to cover. Bring to boiling point, add vegetables cut in little pieces and cook slowly until tender. About one-half hour previous to serving, add ham bone, and season with salt and pepper. Stir frequently and add boiling water as it cooks down. Serve quite thick, and also very hot. Cheap, delicious and nourishing.

Scalloped Finnan Haddie. — Two pounds finnan haddie, one tablespoon each of butter and flour, four hard-boiled eggs, one-half teaspoon salt, one-eighth teaspoon pepper, one tablespoon chopped chives, three-fourths cup plain or diluted evaporated milk. Wash fish, cover with boiling water, and simmer for ten minutes. Make sauce of butter, flour, salt, pepper and milk, and add chives. Skin and flake fish. Butter baking dish, put in layer of fish, then, of sauce and one chopped egg. Repeat until dish is full, sprinkle with bread crumbs, wet with melted butter, and bake until brown on top, about twenty-five minutes.

Boiled Salad Dressing.—Mix together one teaspoon salt, one teaspoon sugar, one level teaspoon mustard, and dash of cayenne pepper. Melt two tablespoons butter, stir in two tablespoons flour and seasonings. Add one-half cup vinegar and cook in double boiler until mixture thickens. Remove from fire and cool. Mix two-thirds cup evaporated milk with one-third cup water. Beat two egg yolks slightly, add to evaporated milk, and cook until thick. Cool and stir into vinegar mixture. This salad dressing will keep some time if put in cool place, closely covered.

Butterscotch Pie.—One cup butter, two cups dark brown sugar, four eggs, four tablespoons flour, one cup milk, seven-eighths cup granulated sugar, few grains salt, one-half teaspoon lemon extract, flaky pastry. Melt sugar, add butter and flour blended together, and then milk. Cook three minutes, remove from heat, add egg yolks, slightly beaten, and salt. Strain if necessary and cool. Fill individual shells of flaky pastry, baked over inverted tins. Cover with meringue made from egg whites and granulated sugar. Beat whites until stiff, gradually add two-thirds of sugar, and continue beating until meringue will hold its shape. Fold in balance of sugar and flavor with lemon extract. Brown in slow oven. Teaspoon acid jelly may be spread over filling before meringue is added.

Marmalade and Jam.

Grapefruit Marmalade.—One grapefruit, one orange, one lemon. Slice in wafers or put through food chopper, using all but the seeds. Measure and add three times the quantity of cold water. Let all stand 24 hours; boil 10 minutes; allow to stand 24 hours. Add to the fruit and juice an equal quantity of sugar, boil 2 hours or until it will jelly when chilled, and pour off into jars or glasses, as preferred.

Cherry Jam.—Stone and stem tart cherries, saving all the juice. To every pound of fruit allow a pound of sugar. Put sugar and juice in the preserving kettle over the fire, and when the sugar is entirely dissolved add the cherries. Cook until the syrup is thick, put into glass jars and seal.

Plum Jam.—Wipe plums carefully and extract the stones from nine in the older, taking care not to waste the juice. Weigh the fruit, and to every pound allow one pound of sugar and half pint of water. Cook sugar and water to clear syrup, then lay in the plums and boil gently for 40 minutes. Take out the fruit with a skimmer and lay on dishes to cool. When the syrup has cooked thick return the fruit and simmer 20 minutes more. Damsons are put up in the same way.

Household Hints.

When washing white woodwork put a little turpentine in the water.

Salt (a tiny pinch) added to the whites of eggs makes them froth more quickly.

Salt thrown on the fire once a day prevents the accumulation of soot in the flues.

Dingy oversboes can be made to shine if wiped off with a cloth wrung out of ammonia water.

An old piano stool will be found very useful in the kitchen, as it can be adjusted to different heights.

Potatoes peelings should be dried in the oven and used for lighting fires. Less wood will be required.

A rag of sulphur hung up in the bird cage keeps the birds healthy, and also keeps away parasites.

To make an excellent dish-cloth take a piece of mosquito netting, double it, and sew round the edges.

Rub the flatirons over waxed paper before setting them away and they will keep bright and smooth.

Before cleaning copper kettles fill them with boiling water. They will then be found to polish more quickly.

A little vaseline applied to the hinges of a door which creaks will stop all noise. It is far more satisfactory than oil.

If the hands are thoroughly greased with vaseline before using dyes it will prevent the stain penetrating deeply into the skin.

When cleaning windows in cold weather add a dessertspoonful of salt to the water. This prevents the glass from freezing and cracking.

When pouring hot jelly or fruit into glass jars set the jars first on a damp cloth. This goes a long way towards preventing their breaking.

Crushed and faded artificial flowers can be made to look fresh and new again if held over the steam from a boiling kettle for a few minutes.

To save tea, put a lump of sugar in the teapot when making the tea, and then the spoonful usually put in "for the pot" can be dispensed with.

Leaves of a head of lettuce for the egg salad, while the hearts are kept for the tomato, fruit, and other salads.

If potatoes are kept in a place where the light strikes them they will turn green. If they must be in a light place cover them with newspapers.

Save all the tissue paper that comes into the house. It is excellent for drying and polishing lamp chimneys and mirrors when they are washed.

To stop the squeaking of new boots take a small oil can and put a few drops of oil all round the boots, between the upper leather and the soles.

When the kettle lid has lost the knob push a cork half through the little hole and secure it by driving a nail horizontally. It will last a long time and save burning the fingers.

Never put away for any length of time linen that has been starched. It is apt to crack and even to rot. Rinse the articles quite free from starch, dry, and fold up in blue paper, as this keeps them from turning yellow.

Cane bottomed chairs that have gone slack can be mended and tightened up by sponging both side with hot suds in which a handful of salt has been dissolved. Drying must be done out of doors. When nearly dry cover the seat with a cloth and iron it. It will clean and "tight" after this treatment.

ENEMY TIRED OF WAR.

Letter to New York Man Declares Teutons Want Peace.

An interesting letter from Budapest was received by a business man in New York. It was delivered to him by a civil engineer who had travelled through Austria and Germany.

The writer of this letter, an observant gentleman, speaks of the high price of food prevailing everywhere and of real suffering among the people in consequence. Coffee, which the Germans and Austrians like so much, no longer graces the table except in the homes of the wealthy residents. In Austria the price of coffee, when this letter was written two weeks ago, was sixteen kronen a pound, which represents $3 in United States money. Meat is really out of the question for the poorer classes.

Milk, eggs and other necessities have become luxuries, and there is much complaint. The people, says the writer of the letter, have lost their enthusiasm and optimism, for they feel now that, despite the successes of the Teutonic armies, they cannot win, and the best that is to be expected is a draw in the conflict. The people pray for peace; they want it now whatever the issue of the war may be, and if they had their way they would have peace at once.

R.M.C. Commandant

LIEUT.-COL. C. N. FERREAU,
who has been appointed commandant of the Royal Military College at Kingston, with the rank of colonel. Hitherto he has been only acting commandant.

SAVAGE GERMAN SURGERY

Deliberate Lack of Attention to Wounded French Soldiers.

"There is no longer any doubt in my mind," said the chief surgeon; "it has been done on purpose. Look at this!"

He stripped the bedclothes from the pallid and shrunken body of a lad and showed me his thigh. Shattered by a projectile, the thighbone had been allowed to set itself. The strong muscles, exercising pressure on the surrounding tissues, had grown together without any kind of artificial direction, forming a huge misshapen, conglomerate lump, extending from just below the hip to the knee, with the result that the leg was bent rigidly inwards at an angle of nearly 45 degrees, and could never be made straight again.

The patient was one of a batch of wounded French prisoners, hopelessly infirm, who had just been repatriated from Germany. "The most we can do for him is to amputate above the fracture. He will be better off without a withered limb fixed in that position. In this case the shortening of the leg amounts to six inches.

"To give you a further idea of the incredible brutality with which some of the German surgeons conducted their operation, here is another case, with a four-inch shortening, in which in order to extend the fractured leg an iron rod has actually been run through the patient's flesh, between the tendon and the bone, and then adjusted to a rough kind of pulley."

This conversation took place at Hospital 29 at Poitiers, the chief surgeon being Dr. Malapert one of the best known operators in the French midlands.

OUTWITTING A BORE.

How Lord Rosebery Got Even With a Nuisance.

Like most celebrities, Lord Rosebery has had to suffer a good deal from the attentions of utter strangers. At one time he was often annoyed by an old lady who called upon him almost daily. Of course, his Lordship always managed to avoid her when he was at home, but one day she happened to see him just as he was about to enter his carriage. "My lord," she called out, "I must see you on a very important matter."

"Very well, madam," said Lord Rosebery, holding open the door of the carriage for her, "I beg of you to get in."

Delighted at the idea of driving with such a famous man, the old lady immediately jumped into the vehicle, but his Lordship gently closed the door on her, before she could remonstrate, she heard him say to the coachman: "Take this lady wherever she wishes to go, James, and then home."

Looking out of the window the now irate old lady saw her victim stepping into a cab. After that she did not worry Lord Rosebery again.

Lucky.

Reins—What did you get out of your aunt's estate?

Krans—After settling things up the lawyer blew me to a good dinner and loaned me $5.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON.
MAY 7.

Lesson VI.—The Missionaries of Antioch, Acts 11. 19-30; 12. 25 to 13. 12. Golden Text: Matt. 28. 19

Verse 19. This takes us back to Acts 8. 4, the narrative being resumed at that point. The disciples had obeyed the Lord's command, Matt. 10. 23. Travelled—The verb is regularly used of "travelling preachers" in Acts. Phœnicia—The long seaboard plain to which Tyre and Sidon belonged. Antioch—Of Syria, not the Pisidian Antioch of Acts 13. 14. It was a large and important city.

20. Men of Cyprus and Cyrene were countrymen respectively of Barnabas and the "Simon, father of Alexander and Rufus" who carried the Lord's cross. Perhaps it is not fanciful to see a fitness in such men's taking up the wider mission. Greeks—The best attested reading is Hellenists, Grecian Jews. The difficulty about Greeks (that is Gentiles) is that Cornelius was the first Gentile convert, as is clearly implied in Acts 15, 17. It also seems strange that in Antioch had already witnessed such an extension of the Faith to Gentiles, we should have in Acts 14, 27 what looks like the report of a novel fact. But there is no necessity to make Acts 11, 20 fall earlier than the time of Peter's visit to Cæsarea, and the inference from Acts 14, 27 is not essential. The difficulty of the marginal "Grecian Jews" is obvious and has never been adequately explained. Perhaps a very early copyist introduced it just because he felt the difficulty about Cornelius.

21. The hand of the Lord, as an Old Testament phrase, naturally refers to Jehovah. But the Lord at the end of the verse is almost certainly Jesus. So inevitably and unconsciously do these New Testament writers, trained to a horror at compromising the unique Godhead of Jehovah, apply his special titles to Jesus, as a matter of course!

22. The church—Notice how this universal term, denoting the whole body of those who "love the Lord Jesus Christ in sincerity and truth," is qualified by the local designation. It may be further narrowed to a church meeting in someone's house, and the plural "churches" thus becomes possible. It is a later extension, but perfectly natural, by which we speak of an organized Union of such units, bound together by common order or doctrine, as the "Methodist Church," "the Roman Church," etc. Only we must be careful to allow no narrower definition of "the church" than that which depends on personal loyalty to Christ.

23. The grace—To Barnabas the one impression made by this "mass movement" was that of the amazing wealth of God's bounty which had been poured on so many unlikely people. In India, where these notes are written, we have to-day many opportunities of entering into this "good man's" joy. Exhorted—His own name was "son of exhortation" (Acts 4. 36). It was his preeminent gift. The next verse shows us why "exhortation" or encouragement" went so far when it came from him. He was not a mighty genius like Paul; but he had that winsome kindliness and that transparent faith and spirituality which made his words a tonic. Purpose—Note the stress laid on the will. "Our wills are ours— we know not how"; when they are surrendered God will do the rest.

24. Added unto the Lord—The phrase suggests that the Lord thus increases his wealth by the one treasure he covets to obtain.

25. From the first the Christian missionaries had been used to work in pairs, as Jesus sent out the twelve. A humble man, who knew and rejoiced in Paul's superior gifts, Barnabas feels that he needs his help.

26. The suggestion is that Barnabas had difficulty in finding him, although Paul's father, as a Roman citizen, was a well-known man. But a Jew who sent his brilliant son away to Jerusalem to study under the greatest of the rabbis, was sure to resent bitterly Paul's perversion to the "sect of the Nazarene." We may be sure Paul was cast out, and living in obscurity. Very possibly he was only just back from Arabia (Gal. 1. 17). Christians—A nickname to begin with, like "Methodist." Herod Agrippa uses it in a light sneer (Acts 26. 28); Peter speaks (1 Pet. 4, 16) of a man's suffering "as a Christian" and "glorifying God in this name." It was of course conferred by outsiders, and those heathens. Christ is a Greek rendering of a Hebrew word ("Anointed"), and the termination -ianus is Latin, so that we see the three great languages of the Roman world combined to name the world-religion.

13. 1. Prophets—Preachers, we should call them. But we must remember that preaching includes both these functions—that of speaking as God's mouthpiece and that of instructing those whom the prophet has aroused. Note how the two famous men are named among those who are otherwise unknown, though one was of royal upbringing. Lucius of Cyrene was presumably one of the evangelists who preached to Gentiles (Acts 11. 20). Manaen (Menahem) and Herod the tetrarch, the Baptist's murderer, were an ill-assorted pair and the grace of God had a signal triumph over environment.

2. Ministered—The word suggests a time of "retreat," in which they "waited on the Lord" to win a revelation of his will. At such a time fasting was instinctive for an Oriental: to interrupt meditation and prayer by taking food seemed sacrilege. Fasting, however, is never prescribed in the true text of the New Testament; to the Western temperament it would generally be a hindrance rather than a help. Jesus only says it must be genuine and unostentatious when it is observed. The Holy Spirit said—Presumably through one of the "prophets." Separate—Paul recalls this word, so memorable in his experience in Gal. 1. 15.

3. Laid their hands—See Lesson Text Studies for February 27, verse 6.

FRENCH SOLDIERS WARNED.

An Appeal to Them to Leave Alcohol Alone.

The French soldier has been specifically warned against alcohol by the Academy of Medicine in Paris, which has drawn up an appeal to the army and is circulating it by means of leaflets. The following translation was made for the British Medical Journal, from which we quote it:

"Those who, like you, are exposed to exhausting labor, to perilous enterprises, and to strong emotions, are ever inclined to look to alcohol as a stimulant and a comforter, and to seek for it in the tavern as a distraction from the monotony of cantonment and garrison life.

"It is, therefore, well that you should know what use you may make of alcohol without impairing your health.

"Certain errors about alcohol are widespread:

"1. It is said to give strength. This is not exact. The truth is, it gives a false spurt of short duration, but a grave diminution of strength never fails to follow this excitement. Thus alcohol takes away more strength than it gives.

"2. It is also said that alcohol gives warmth. This is true for a few minutes, but the feeling of warmth which spreads over the limbs after a nip of brandy is delusive and is soon followed by a lessening of warmth and strength. Men who take nips are far more subject to chills and to diseases to which men at the front are liable.

"3. It is further asserted that in the form of a 'pick-me-up' alcohol stimulates the appetite. This is quite wrong. It would be difficult to produce any man whose appetite had ever been really stimulated by a 'pick-me-up.' These aperitifs, habitually taken, lead without fail to disease of the stomach, liver and mind.

"4. Lastly, it is maintained that alcohol taken during meals, as wine, beer or cider, aids digestion. An important distinction must be drawn between 'distilled' liquors like brandy and 'fermented' liquors such as wine, cider and beer. Alcohol is altogether noxious. The petit verre after meals should only be taken on rare occasions. Fermented liquors, on the other hand, may be drunk subject to two conditions. They must be consumed in great moderation, which, as regards wine, should never exceed one liter (a pint and three-quarters) in twenty-four hours, and only at meals."

SEES GERMANY REMINATED.

But Runciman Says Neutrals Will Contest for British Trade.

Sir Walter Runciman, M.P., in an interview in the London Chronicle, predicts that the allies will win the war, and says that Germany can never hope to regain her place as one of the leading mercantile powers of the world. At the same time, he says, the neutrals are advancing rapidly in commerce abroad, and they will be in a strong position after the war.

"There is no doubt," declared Sir Walter, "that we are winning the war, and when we have won we must see to it that Germany is no longer a menace from a naval, military, or commercial point of view. But when the allies have proved triumphant serious discussion must arise in regard to the various mercantile sets. There is no need for any serious regard to be paid to the strength of the German mercantile fleet. Germany can never become one of the leading mercantile powers commercially. The Germans must in that respect be kept in the background, where they have been forced by the British navy. All their endeavors to revive trade and re-establish their mercantile service will be futile.

"What is really giving concern to the British ship-owners is that the neutral countries are reaping such a harvest just now that the force of their competitive power will be felt in the days to come. There are still good grounds for anxiety as to British mercantile supremacy."

WORLD'S LARGEST TEAPOT.

The largest teapot in the world was made at Shigaraki, 200 miles from Tokio, Japan. The teapot was made for exhibition in a Japanese tea house at the San Francisco Exposition. It measures three and one-quarter feet in diameter, and without the handle is three and one-half feet high. When the wicker handle is raised the teapot is five and one-half feet high.

Silly Billies

"What is your favorite time, old chap?"

"Fortune, dear boy."

THE TRAGEDY OF BRUSSELS.

It Was a Rich, Gay City of 800,000 Before the War.

"Before the war Brussels had the reputation of being the gayest, the liveliest capital in Europe," writes Dr. Charles Sarolea in the Sunday Pictorial.

"It was a little Paris, where you could buy enjoyment at a lower cost than anywhere else, a city of pleasure and a city of leisure, attracting residents from all parts of the world. To-day the city of pleasure is turned into a city of gloom.

"Not only was Brussels before the war the most cheerful capital of the Continent, it was also the most prosperous, providing employment for its 900,000 inhabitants. But most of the trades were concerned with the superfluities rather than the necessities of existence. There were carriage builders and manufacturers of lace, artificial flower makers and jewellers, dealers in fashions, and milliners and dressmakers.

"All those luxury trades have come to a complete standstill. Even were there any money left for luxuries, the money-spending aristocracy have emigrated. The Belgian Government are at the Havre. The printing works and newspaper offices are closed. Railway traffic is still going on, but it is only used for the transport of troops and supplies.

"Only the churches are filled with mothers and widows who are praying for the absent and the dead.

"This paralysis of trade, which has lasted now for nearly 18 months, has resulted in appalling poverty. Worse even than the poverty of the poor is the silent, unobtrusive, genteel poverty of the well-to-do. For the benefit of the 'wealthy' cheap meals are sold in public kitchens for twopence or threepence, and 10,000 'rich' people are taking advantage of them.

"There have been repeated attempts on the part of the Germans to rebuild the shattered fabric of trade and industry. But, as the Germans divert all the traffic of the ordinary railways for the transport of troops, as they have torn up hundreds of miles of light railways to be transported into Poland and Russia, as they have lifted all the available copper and metal useful for military purposes, as they have taken thousands of machine tools for their own factories, as they are still extorting hundreds of millions of francs from a starving population, their attempts to revive Belgian trade have totally failed.

"The patriotic Belgian workers have hitherto resisted all the bribes and all the attempts at compulsion, which, if successful, would transform Belgium into a huge munition factory for the conqueror.

"More poignant even than the visible suffering of unemployment and poverty is the invisible moral tragedy. There is the moral suffering of a proud, freedom-loving, easy-going people, groaning under the heel of the Hun.

"To the intolerable oppression of martial law we must add the anguish of isolation. There are not many families in Brussels who have not a soldier at the front or a refugee in exile. And, as Brussels is cut off from the rest of the world, they have no news of their dear ones.

"And there is the harrowing uncertainty of the future. What will tomorrow bring forth?

"The people of Brussels still believe in the triumph of the allied armies, but they are living in daily terror that, when victory does come, it may have to be paid for by the final destruction of their beautiful and beloved city."

NEW WOMEN STAMMER.

Defect is Due to Nervousness or Self-consciousness.

Have you ever met a woman who stammers? If you have you are a man in a thousand, for stammering is extremely rare among the fair sex.

In most cases the reason why a man stutters over his words is due to sheer nervousness or self-consciousness. He thinks he is going to stammer and that makes him do so.

Women suffer far less from self-consciousness than men, and that is why they so seldom stammer. If they are self-conscious they usually show it by blushing and not by halting in their speech.

Of course there are cases of stammering which simply cannot be cured whatever means are tried. But nine people out of ten can cure themselves if they will not think they are going to stutter, and if they will learn for a time to speak slowly and distinctly. An excellent help, too, is to read aloud to oneself.

WORSHIP OF CROCODILES.

What extraordinary pathological state can the old Egyptian civilization have been in which treated crocodiles as divinities worshipping them alive and embalming their hideous carcasses after death? Was all that world made together, and was it the germ of a spiritual sense which nourished itself off such appalling fancies and by the transfiguring of things so abominable?

Life vs. Existence.

"Where do you live now, Bill?"

"No place, still boarding at the same house."

If a millionaire tells you that he was far happier when he earned a dollar a day, remind him of what David said in his haste.

The Paisley Advocate

PAISLEY, MAY 3rd, 1916

COURAGEOUS POLITICAL LEADERS

The arena of political action in Canada has never at any time in the history of this young nation witnessed such statesmanlike boldness as has been displayed by the two party leaders in the Ontario Legislature, Hon. W. H. Hearst, the Conservative Premier, and Mr. N. W. Rowell, leader of the Liberal opposition. These men have both displayed a notable strength of purpose and purity of motive in facing the prohibition question and lending their influential support to a measure that gives the province the most drastic temperance legislation that can be looked for from the local governing body. They have both declared themselves for this advanced legislation in the face of strong opposition from sections of their own party and their followers in the Legislature. We give below a few quotations from the splendid speech of Premier Hearst on the prohibition measure, which gives a very clear index to his attitude:

"Some men as honest and sincere as I am have said that this measure will not make for temperance or the real welfare of the Province. Some have said that by this measure I have sealed the political doom of my Government and signed my death warrant as a public man. But I would rather ten thousand times go down to political oblivion and disappear forever from view as a public man than to fail in what I believe to be my duty at the present time. . . . In this day of national peril, in this day when the future of the British Empire, the freedom of the world, and the blessings of democratic government hang in the balance, if I should fail to listen to what I believe to be the call of duty, if I should neglect to take every action that in my judgment will help to conserve the financial strength and power and manhood of this Province for the great struggle in which we are engaged, I would be a traitor to my country, a traitor to my own conscience and unworthy of the brave sons of Canada that are fighting, bleeding and dying for freedom and for us. . . . Personally it matters little to me whether my career as prime minister of this Province is long or short, but it does matter much that I discharge my duty to the best of my ability while I retain this high position. . . . And whatever comes, approval or condemnation, I will always have the witness of a clear conscience that in the hour of my country's greatest peril I hesitated not to do what to me seemed right, and waited not to count the cost."

Mr. Rowell, in taking a firm stand on the prohibition platform and remaining there ever since he became leader of the Liberals in Ontario, did so realizing that the step would not bring him or his party immediate popularity or help them to office at once. It must be acknowledged, now, however, that the consistency with which Mr. Rowell and the small number of his elected supporters in the Legislature adhered to that line of policy made the path clear and plain to the Hearst Government when prohibition really became an issue this year. Had the Liberals chosen to take advantage of the situation and oppose the Temperance Act, the form in which it would finally be passed would in all probability be much less satisfactory to the temperance people. Mr. Rowell is taking an equally advanced stand on moral and social legislative questions as he did upon temperance. Following is a brief expression of his views, which appears over his signature in MacLean's Magazine:

We are living to-day in a new age. The world conflict in which we are engaged has forced us all to think of larger issues and in terms of our common humanity. The period of re-construction following the war will be one of the most critical which modern civilization has faced. The future depends on how we face the new conditions. Our fellow-men have poured out their life's blood to preserve for us our liberty, our free institutions, our democratic government, our Christian ideals. Can we deny to the toilers, who have made this sacrifice, full recognition in the common brotherhood which should make up society in the future?

No one will claim that under our existing social conditions there is a fair and equitable distribution of wealth. All serious students recognize that the worker does not receive his share. We must grapple with the situation and endeavor to see that he receives full justice. We must see that neither poverty nor unsanitary surroundings are permitted to deny the child a real opportunity for full and healthy development. The workingmen who, by sickness or misfortune, is thrown out of employment through no fault of his own should be protected from want during the period of sickness or unemployment. A life of toil honorably spent should not end in an old age of penury and want, but the declining years of all who labor should be sweetened and brightened by the consoling fact that there is provision made to guarantee against want.

We must cultivate a love for country life, and place agriculture in the commanding position to which it should occupy. We must realize that more important than schemes for national development or exploitation are the development of character and the production of the best type of citizen; and that Canada's greatness will depend upon the growth of a strong, courageous and progressive Canadian nationality, possessing worthy ideals and ever striving to realize those ideals in the life of the nation.

With men of such advanced and high ideals occupying the positions of leadership, we may expect that, in the next few years there will be more than mere party exigiencies taking up the attention of our legislators, and some real statesmanship be displayed in deciding the issues that may be brought up in the interests of our Province.

LOCAL AND DISTRICT NEWS

Vestry Appointments

At the annual Easter vestry meeting of the Church of the Ascension, John J Jacques was elected People's Warden; John Turner, Rector's Warden; I Shoemaker, Treas; Jas Maxwell, sr, lay delegate to Synod; D S Watson, alternate.

I.O.O.F. Anniversary

The 97th birthday of the establishment of Oddfellowship in the American continent was celebrated generally by attendance of lodges at divine service on Sunday last. The members of Ahiram Lodge, en chief to the Church of the Ascension for the morning service, where they heard a very appropriate discourse from Rev L W Diehl.

Pastor Resigns

Rev. Mr. Sawers, who has been pastor of North Bruce and St. Andrew's congregations for four years, has decided to resign and retire from active pastoral work. The rev. gentleman's decision calls forth a general expression of regret from not only the church but all people of the community. His resignation is to take effect June 30th.

McRae—Murray

The marriage of Mr. Jas. McRae, of North St., Paisley, and Miss Jessie Murray, of Pinkerton, was quietly celebrated at the Presbyterian manse in Walkerton on Wednesday of last week. The young lady was on the staff of Ballachey, Laidlaw & Co's store for a number of years, and was deservedly popular among the patrons. Mr and Mrs McRae have the best wishes of a large circle of friends for a long and happy married life. They have taken up home making on the groom's farm on the 12th con Bruce.

French—Giles

The First Baptist Church, Calgary, was the scene of a very pretty wedding yesterday afternoon, when Margaret Ellis, eldest daughter of Mr. and Mrs. W. H. Giles, was united in the holy bonds of matrimony to Mr. Merritt H. French, eldest son of Mr. and Mrs. Alfred A. French, of Lorebarn, Sask. Rev. J. Austin Huntley performed the ceremony, while Madam Beatrice Chapman presided at the organ. Easter lilies and palms made a most effective decoration for the church. The bride, who was given away by her father, was becomingly attired in a cream serge suit, with a blouse of tinted pink silk crepe and a large black hat, with touches of pink, relieved by foliage, and carried an exquisite sheaf of pale pink roses and lilies of the valley. The guests included only the immediate relatives and friends. After the ceremony the bridal couple left on the eastbound train for Maple Creek, Sask., where the groom, who is a member of the staff of the Dominion Irrigation Office, has headquarters for the summer. —Calary Albertan, Apr. 25th.

War Affects Shoe and Woollen Trade

Retail shoe dealers say that wholesalers and manufacturers simply refuse to quote prices or enter into contracts for the supplying of leather next fall. They have no assurance that they shall be able to get leather to make into shoes. Several of the great sources of supply of hides and leather—notably Russia and Australia—have been cut off. Almost the whole world's supply of leather is being made into shoes for the armies in Europe. The waste of shoes in the army is tremendous. Repairing, of course, is shut out of the question, so that when a sole or an upper gives out the pair go to the waste heap and the soldier gets a new pair—that is, if he is fortunate enough to belong to a rich country. Among the civil population the supply of shoes promises to be a serious problem within a year; so don't be in a hurry to throw away the old pair. A like problem is developing in connection with woollen goods. It is said that the whole world's supply of wool is not sufficient to keep clothing on the armies in the field. This is another point on which the strain will catch the poorer countries.

A Summerless Summer

The year 1816, that is 100 years ago, was known as the "Summerless Summer." Snow commenced falling in the middle of June; by the middle of August it was one foot in depth, and from the first fall of snow in June till the following summer the earth never was free from covering of the wintry blanket. Absolutely nothing in the way of harvest was garnered; everything in the way of crop rotted in the ground. What did the people live on? Meat—meat and fish; there were no vegetables and there was no flour; it was venison and fish to-day, relieved by fish and fresh to-morrow taken from slaughtered cattle. Hay had to be shipped from Ireland to save the starving cattle in Quebec, and was sold there at $45 per ton; flour at $17 per barrel in Quebec, and potatoes were one penny a pound. This year was called "The year eighteen hundred and frozen to death." The cause of the cold was supposed to be the sun spots which were so large that for a long time in their history they could be seen without the aid of a telescope. It was also know as "Poverty Year." In New Hampshire hay sold at $180 a ton. The next spring the market price of corn was $3 00; a bushel of wheat, $3 50; rye, $2 00; oats 90c.; beans $1 00; butter, 25c. per lb. (It is usually sold in those days at eight or ten cents). Further particulars of the "Summerless Summer" are among the files of the Grenville Historic Society.

MARRIED

McRAE—MURRAY—At the Manse, Walkerton, on April 26th, by Rev. Thos. Wilson, Mr. Jas. McRae, son of Mr. and Mrs. Alex McRae, North St., Paisley, to Miss Jessie, daughter of Mrs. Jas. Murray, of Pinkerton.

DIED

BROCKIE—In Fergus, on April 25th, John Brockie, formerly of Greenock Tp., in his 86th year.

SHE RECOMMENDS "FRUIT-A-TIVES"

Mrs. Corbett Read the Advertisement and Tried It

Avon, May 14th, 1914.

"I have used 'Fruit-a-tives' for *Indigestion and Constipation* with most excellent results, and they continue to be my only medicine. I saw 'Fruit-a-tives' advertised with a letter in which some one recommended them very highly, so I tried them. The results were more than satisfactory, and I have no hesitation in recommending 'Fruit-a-tives'" ANVILE A. CORBETT.

Time is proving that 'Fruit-a-tives' can always be depended upon to give prompt relief in all cases of *Constipation and Stomach Trouble*.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Plans and specifications may be seen at my residence. The lowest or any tender not necessarily accepted. J. A. MACARTHUR.

Homeseekers' Excursions via the Great Lakes Route Each Wednesday

Homeseekers excursionists may, if they so desire, take advantage of the "Great Lakes Trip."

The Steamship "Manitoba," on which Homeseekers' tickets will be honored, on payment of $5.00 additional to cover meals and berth, sails from Owen Sound each Wednesday during season navigation, calling at Sault Ste. Marie, Port Arthur and Fort William, connecting at the latter point for Winnipeg and Western Canada points.

The "All Rail" Homeseekers' Excursions are in effect each Tuesday until Oct. 31st, inclusive.

Particulars from any Canadian Pacific Ticket Agent or W. B. Howard, District Passenger Agent, Toronto.

—Any "honor merchant" who is not awake and fails to tell the people about his wares should read this startling statement made by the manager of a big Toronto mail order house recently: "We have a bureau whose duty it is to read the newspapers. There is not a paper of any consequence in our territory we do not get. The bureau looks over these papers and when we find a town where the merchants don't advertise to the local paper or where advertisers do not change their advertisements regularly we immediately flood that section with our literature. It always brings results far in excess of the same effort put forth in territory where the local merchants use their local paper."

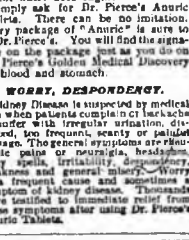
BIAS CORSET STYLE 1250

SUDDEN DEATH

Caused by Disease of the Kidneys.

"The close connection which exists between the heart and the kidneys is well known nowadays. As soon as kidneys are diseased, arterial tension is increased and the heart functions are attacked. When the kidneys no longer pour forth waste, uremic poisoning occurs and the person dies, and the cause is often given as heart disease, or disease of brain or lungs.



It is a good insurance against such a risk to send 10 cents for a large trial package of "Anuric"—the latest discovery of Dr. Pierce. Also send a sample of your water. This will be examined without charge by expert chemists at Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. When you suffer from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired, worn-out feeling, it's time to write Dr. Pierce, describe your symptoms and get his medical opinion without charge—absolutely free. This "Anuric" of Dr. Pierce's is found to be 37 times more active than uric acid, for it dissolves uric acid in the system as hot water does sugar.

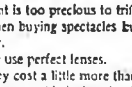
Simply ask for Dr. Pierce's Anuric Tablets. There can be no imitation. Every package of "Anuric" is sure to be Dr. Pierce's. You will find the signature on the package just as you do on Dr. Pierce's Golden Medical Discovery for blood and stomach.

WORRY, DESPONDENCY.

Kidney Disease is suspected by medical men when patients complain of backache or suffer with irregular urination, disturbed, too frequent, scanty or painful passage. The general symptoms are rheumatic pains or neuralgia, headaches, dizzy spells, irritability, despondency, weakness and general misery. Worry is a frequent cause and sometimes a symptom of kidney disease. Thousands testified to immediate relief from these symptoms after using Dr. Pierce's Anuric Tablets.

THE SHOE STORE

You should not fail to see our splendid showing of



Spring Boots, and Shoes

The line includes some of the nicest values you have ever seen. They're stylish, new and up-to-date, built to comfort your feet, stand lots of hard wear and still look nice.

We've Talked Shoes a Lot—

We've been repeating over and over what is practically the same story—a story of good shoes at fair prices—and that they can be got here any time they are wanted.

Now, it seems to us as if you ought to prove our claims for yourself. It seems as if you ought to want to buy the very best shoes you can with the money that you wish to spend. Maybe you think you are doing that now, but ARE YOU?

We again and all the time invite you!

Bring us your BUTTER, EGGS, POTATOES and ONIONS. We always pay the top price in cash or trade.

—THE ADVOCATE office has a splendid stock of wedding stationery and calling cards on hand. also the most beautiful styles of type, so we are able to turn out the finest lines of wedding invitations, announcements, cards, etc. We can do work fit to invite the best of people to a wedding, so why pay two or three times as much to city printers or engravers for something that isn't a whit better for the purpose? See our samples.

FROM THE WAR ZONE

From Sergt. Babcock

DEAR BROTHER—Just received your letter dated 20th March, and was pleased to learn that you are still all well. This leaves me O.K., although this really isn't a very healthy country to live in, especially where they shoot over those whizbangs and coal boxes. If they light anywhere near a fellow they have a very uplifting effect; but such is life out here on the international line. We are having swell weather out here now. This sure is sunny France at times, and it is pretty nearly time too, as it is getting on in April. The mud is drying up fine, and things are getting a little more promising, except for the stirring events which are taking place oftener—every week it seems, now that they can move the artillery without getting it stuck in the mud. However, I have no room to kick as long as they don't pot me. Well, I have made a little change since I last wrote you. I have transferred to the transport section of this battalion. I made the change about three weeks ago and like it fine now, although I didn't on the start, as everything was strange to me. Then, too, I didn't like the idea of leaving the platoon that I had been with for six months out here in the trenches. However, they told me that I was foolish to let the chance go by, so I decided to take it over, and here I am for better or for worse. I didn't know anything about my transfer until the colonel sent for me one day and asked me if I would like to take it over, so I said I would try it. One good thing about it is that I have a horse of my own to ride whenever I wish, and don't have to carry my pack around. Then we don't change our billets so often. We are in the same place nearly all the time, and can carry more little necessities which add to our comfort out here. I invested in a violin about a week ago, which helps to while away the spare hours. Our corporal has a mandolin, too, so we have quite an orchestra in our tent. Some of the other boys are sending for instruments so we will be able to run in opposition to our regimental band, which they have managed to hold together yet. I saw Tom the other day. He has moved up a little closer to us now, in fact he is only about a mile from here. He is looking his old self yet. I think he has grown about two inches since he came out here. Suppose you heard that he transferred to the trench mortar battery. All the other boys are hearty, as far as I know. ANDREW.

In the Signalling Training Camp in England

Under date of April 9th, Spr. Wilfred McGill wrote another interesting letter to his father here from Haynes Camp. We are still going strong, he says. The weather has been beautiful for a few days, and as a result we are not so submerged in mud as formerly. There is one thing we don't like about this place—getting up at five o'clock gets on our nerves. One feels like murdering the bugler when he comes around. We get a cup of coffee and a couple of biscuits before going to work, though, and it certainly hits the right spot. Talk about riding horseback; we never knew what riding was in Ottawa. They certainly show you how here. I'll just tell you what we have to do. When we go out in the field, which is about 75 acres square, we draw our stirrups over the front of the saddle and do all our riding without them. After trotting in a large ring for a time we are sent to the farthest corner of the field and have to gallop back to the sergeant without either reins or stirrups. This is a lot easier than it sounds. Then we have to go over jumps without stirrups, and then without either reins or stirrups. I fell off the first two jumps, but now it is easy. There are numerous logs laid a few yards apart and we have to jump all of them, also over ditches and all that kind of stuff. The last few days we have been doing more difficult fancy riding, such as making the horses show off by high stepping and arched necks, also side-stepping, turning on the haunches, then on the front feet. The instructor seems to be especially pleased with us, and is taking us out tomorrow on a long jor ride. We are only forty miles from London, and I expect to get off next week and go down for the week-end. We often hear the bugle in the early evening sounding lights out, when every light inside and out is doused. That means the Zepps are around, but no one here pays the slightest attention to them. There is a large number of fellows here who have been at the front, been wounded and ready to go back again. We are in the camp of the Royal Engineers, and they are reckoned to be quite an organization here in England. You should see the rate at which we are supposed to lay a telephone line. They think nothing of going out in the forenoon and lay six or eight miles of cable, do some signalling and then reel it all up again. Over half the forces here are out all over England fixing up telephone and telegraph lines that were completely wrecked in a big blizzard we had here a week or so ago. The newspapers here do not publish half the war news the Globe or Mail do, but what they have is official. No person here believes any war news unless it is official.

From Nurse Fletcher

Miss Mary Fletcher, who went with the Toronto University hospital corps to Salinika, but is now in England on sick leave, writes to her mother here from London: "On Feb 23 we left No. 4 General Hospital at Salonika, and embarked on the S.S. "Egypt," bound for Malta. Being a patient, I was ordered to bed, and, as in the army, one asks no questions. I had to submit to the inevitable. After a fairly rough voyage we arrived at Malta on Feb. 26th, and I had the honor of being carried on a stretcher from the boat to the hospital, an honor I did not enjoy, as I was perfectly able to walk. The harbor at Malta is very pleasant, not hot like it was when we were here in October. There was more green to be seen, and as the sun was not so strong there was not such a white glare. The buildings are of white stone, a sort of chalky stone, and where there are no trees to be seen, or even shrubbery, the glare is almost intolerable and very trying to the eyes. We experienced the warm waves of the Sirocco on its way from Algeria, an I the effect was far from invigorating. My window overlooked one of the harbors, and the view was grand. I enjoyed watching the different ships come in and go out—the small row boats, the hospital ships, the huge battle-ships, and various other ships of different nationalities. The view at night was particularly lovely—the row boats looked so picturesque with their little lights gleaming everywhere. Then the large hospital ships all lighted in green and so many other lights added a charm to the scene. But I enjoyed the view without better than the atmosphere within. The houses are so cold, the walls, floor and everything you touch, except the furniture, being of stone or some sort of iron or steel. I felt lonely at times, while I was resting at the "Florianna," and the other girls were out sight-seeing, but I tried to take a lesson from the brave Tommies and be patient. Roman Catholicism is the religion of Malta, and as we were there just before Lent, we saw some of the customs of the place. It is the custom to hold a carnival just before Lent, and everyone dresses in costume for this wonderful affair. Tiny children and very old people mingle with the other masqueraders and parade the streets. Every caste takes part, and for three days business is stopped and all business places closed. From my window I saw a good deal of the parade, and the costumes in all colors of the rainbow were very fantastic. The whole affair is called "The Devil Let Loose," and I do think he did get loose from the noise that was kept up all night long. All things come to an end, however, and after having spent seventeen days in the hospital Florianna, we embarked on the hospital ship "Asturias" March 13th. There were several hundred English sisters leaving Malta and two hundred V.A.D.'s, the sisters to mobilize for France. We had an excellent voyage, with scarcely a ripple on the water. By the way, whom should I meet but Sergt. Tucker. Fourteen of the Queen's University boys were returning to write on their final exams. It was a treat to meet some one from Paisley. We met on deck almost every day, and discussed Paisley and the people each time. We arrived in Southampton on March 24th, and were met by a hospital train. It was wonderful to see the system and method they have of caring for the wounded and sick. Cots for the patients were made the full length of the compartments, so that we were very comfortable. When we reached Waterloo station motor cars and ambulances provided by the Red Cross were there to meet us, and two nurses to direct us to the right car. How thankful we were to be in London once more among people who could speak English. We landed at the Queen Alexandra Hospital, thence sent to a rest home, a beautiful house in Chelsea which was turned over to the Canadian Red Cross by the Hon. Mrs. Graham Murray. A Canadian sister was in charge, and eight patients can be accommodated at one time. It is so quiet one would hardly think it was busy London. When I get out and see the crowds on the streets I can hardly believe my eyes, after looking at the Greeks all winter. However, I am very glad to have had the experience in Salonika, if gazing out on a desolate waste did grow monotonous.

Behind The Bolted Door?

YOU will find a gripping detective story in the May number of MACLEAN'S MAGAZINE—"Behind the Bolted Door"—by Arthur E. McFarlane. Full of mystery, tense with interest, alive with action, passing strange in plot and incident, it is baffling until the last paragraph of the last chapter.

This McFarlane story is but one of many "specials" in the May MACLEAN'S—an issue really remarkable for its high quality, as witness the following writers. Three contributors are, as you will recognize, a most exceptional company—the best known of Canadian writers.

Arthur E. McFarlane
Stephen Leacock
Nellie L. McClung
Robert W. Service
Agnes C. Laut

EDITORIALS BY:
Sir Herbert Ames
N. W. Rowell
C. C. James
James L. Hughes
J. P. Downey

And next issue (June), the first of ARTHUR STRINGER'S new serial story, "The Anatomy of Love."

MACLEAN'S MAGAZINE

has one feature which commends it to all readers—its Review of Reviews department. Here is reprinted the heart of the best things appearing in the leading magazines and periodicals of the world. So in MACLEAN'S one gets the essence of many magazines.

Rich promise in this May Number of many hours of genuine entertainment and profitable reading. A big 15 cents' worth—more than you find in a $1.50 work of fiction. For the price of a new novel, you can have twelve numbers of MACLEAN'S.

MACLEAN'S MAGAZINE is Canada's best periodical publication. It is out and out Canadian and is doing a fine work for the encouragement of Canadian literature and writers. As a good Canadian, you should be a yearly subscriber.

Begin your Subscription with the May Issue, $1.50

Just write your name and address on this advertisement, and mail to the publishers—The MacLean Publishing Co., 143 University Ave., Toronto. Bill for $1.50 will be sent later. Enclose remittance if you prefer.

Notice to Creditors

In the matter of the estate of Patrick O'Hagan, late of the Township of Elderslie, in the County of Bruce Farmer, deceased.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demands against the estate of the above named Patrick O'Hagan, deceased, who died on or about the 12th day of February, 1916, are required on or before the 8th day of May, 1916, to send by post prepaid, or to deliver to the undersigned solicitor for the executors of the said will statement of the said deceased, their names and addresses and full particulars of their claims and the nature of the securities (if any) held by them, duly verified by statutory declaration.

And further take notice that immediately after said 8th day of May, 1916, the said executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have received notice and that they will not be liable for the said assets or any part thereof, to any person or persons of whose claims notice shall not have been received by them at the time of said distribution.

Dated this 25th day of April, 1916.

HANNA O'HAGAN and

ONTARIO WORKMEN'S COMPENSATION ACT

OVER 17,000 CASES SETTLED WITHOUT RESORT TO LAW.

Experience of the Board After the First Year's Test.

The reason for so many of the serious accidents in Ontario factories is strikingly shown by the Workman's Compensation Board records.

Twenty-one set screws which might have been easily countersunk for $7.35 caused an accident burden of $5,618.39.

Open gearing on machines wounded 60, killed 4 and crippled 37 wage earners, all within one year.

Because workmen did not wear appropriate footwear, 217 feet were severely burned. Protruding nails, and broken glass and metal caused 126 injuries.

Two automatic locks on elevators would have saved two lives and a compensation loss of over $6,000.

One hundred and fifty pay cheques, amounting on an average to $3,600 are posted daily from the offices of the Board to injured and disabled workmen, or their widows and children. During 1915, a man aged 81 and two children aged 11 were hurt while at work and received their payments under the law.

An Illuminating Story.

Such matters are mentioned in detail in the annual report of the Workmen's Compensation Board of Ontario. They form one of the most illuminating stories to come from Government presses. Not only is an accounting given of the money received from employers and disbursed to employees, but the causes of accidents are laid bare sufficiently to prove that most of them can be avoided by common sense and vigilance. In this connection one of the most useful steps was the co-operation of manufacturers with the Board in forming safety associations. Seventeen such bodies have been organized and received from the Board's funds over $24,000 to pay the salaries and expenses of inspectors, but the educative and preventive work accomplished outstrips considerably any such sum. These inspectors concentrate their efforts upon a particular industry and are directly responsible to the organizations of employers who have an immediate interest in keeping down the average of accidents.

After only one year's operation of the Workmen's Compensation Act, which was originally drafted by Sir William Meredith, after wide investigation, it is apparent that few employers operating under it would accept a return of the vexatious and costly relations which used to hold between Ontario employers and some of those on their pay sheets. No less than 17,031 cases were handled in twelve months without recourse to any law court or the expense of lawyer's fees. The Board dealings with injured workmen are simple and sufficient. Within three days of an accident the employer notifies the Board of the fact. Report forms are at once sent to the employee and his surgeon to be filled in. It takes usually only from two to three days after the return of these forms to post a cheque to the employee, which can be cashed at par in his own town. So efficient and so free from "red tape" have been the workings of the Act during 1915 that requests have been received from many employers to be included in the Act, and those already affected by its operations show a willing inclination to co-operate with the Board and its officers to the fullest extent.

The Assessment Collected.

during the year amounted to $1,539,492, of which $1,188,221 was distributed, or will be, for accidents. A net balance remains of $205,025, a large portion of which will be remitted to the employers in lessened rates during the present year. There were 14,750 employers contributing to the accident fund, but not individually liable, and 1,262 employers liable for payment of compensation fixed by the Board and yet not contributing to the accident fund. The latter class includes such bodies as railways and municipalities.

Undoubtedly, one of the most valuable results of the year's experience consists in the information gained as to the causes of accidents, and how simple many of these may be prevented. For instance, set screws to the number of 21 were responsible for an accident burden of $5,619.39. The 21 set screws might have been countersunk for about $7.35, a safety investment which would have paid a dividend of 765 per cent. and which would have preserved three lives. Open gearing wounded 66, killed 4, and crippled 37 wage earners. An expenditure of a few cents in each case for box covering would have been sufficient. The wearing of goggles, costing altogether $150 might have saved 38 permanent injuries to eyes and $42,846.50 in compensation.

The seriousness of the situation with which the Board is called to deal may be gauged from the fact that of 9,929 cases in which compensation was called for, 8,441 were for temporary disability, 1,034 permanent and 251 deaths. The latter cases are easily disposed of, the law providing for a pension of $20 a month to the widow and $5 a month for each child under 16 years of age, but in no case exceeding 55 per cent. of the wages of the workman while living. If an invalid husband survives he receives the same compensation as the widow. Other dependants are arranged for on an equitable basis.

While the "benefit" under the Act are not sufficiently high to invite carelessness, they guarantee to a reasonable extent that those workmen in over 16,000 establishments of Ontario who are laid aside through the ordinary risks of their employment shall not become charges on their community, but will be able to maintain a fair standard of comfort, and hold their places as self-respecting citizens.

CAMPHOR MADE FROM LEAVES.

Recent Discoveries Prove of Great Importance to Industry.

Camphor is a vegetable product. It is procured from a tree called the Camphor Laurel, and although it can also be manufactured from chemicals, this "artificial" camphor is produced on such a small scale as not to be worth considering.

The Camphor Laurel is a tree of China, Japan, Formosa, and Cochin-China, and it has also be extensively planted in Java and the West Indies.

Hitherto the method of manufacturing camphor has been as follows:

The tree was cut down and the trunk sliced into chips. These chips are then placed in water and heated, when the vapor of camphor would rise with the steam which was then condensed in the ordinary way. From this camphor oil is obtained, which is extensively used to relieve the pain of rheumatism.

But in this stage the camphor itself is still crude. In order to refine it the impure grains of camphor are placed with a small proportion of quicklime into a large glass vessel in quantities of about ten pounds at a time. The whole is then reheated. At first the water rises in the form of steam, and this is allowed to escape at a small aperture. This aperture is then closed and the camphor passes again from a liquid to a solid, and forms a semi-transparent cake, leaving all the impurities behind.

In this form it may be seen in the chemists' shops and elsewhere, but it is sometimes sent out in the form of powdery crystals for the special convenience of chemists and others who wish to "make it up."

Now, this method of cutting down the trees have many obious disadvantages. It is, in the first place, cumbersome and so expensive. Also, it is extremely wasteful, as it uses up the camphor forests very quickly; the tree, of course, is completely destroyed in the process.

For these reasons scientists have long been busying themselves in attempts to improve the process of manufacture. And some startling discoveries have resulted.

A careful examination revealed the fact that the camphor oil was to be found not only in the wood of the tree trunk, but also in their branches. Indeed, very nearly twice as much in proportion exists in the twigs as in the trunk.

Further investigation resulted in the discovery that the green leaves contain more than twice as much camphor as the twigs—that is, nearly four times as much in proportion as the trunk. Dried leaves contain more than green leaves. And dead leaves contain more than twice as much camphor as the trunk.

The stupendous importance of this discovery to the whole camphoric industry throughout the world will at once be apparent. For it means that the leaves could be collected each year and the tree left standing.

It will be sufficient simply to wait till the leaves fall to the ground of their own accord, and the labor of harvesting is then reduced to the mere sweeping up of the dead leaves and collecting them in carts to be taken to the camphor factories.

SCIENCE FACTS.

Bullets are called "haricot beans" at the front.

One of the bells in a Paris cathedral weighs twenty tons and its accessories add another ten tons.

Carbons for lights and electro-chemical purposes are being made from tar by a new Swedish process.

Adding a few drops of cedar oil to gasoline will lessen the odor of the latter when used for cleaning.

Paris plans to obtain 500,000 electrical horse power by damming the River Rhone at a point 300 miles from the city.

When a door knob is turned a new burglar alarm rings an electric bell and flashes a light in any desired direction.

A portable but very powerful hydraulic press has been invented for bending large pipes to any desired curve without injury.

MAJOR AT 19 YEARS.

Youngest Officer of that Rank in the British Army.

When the war started, Henry Pattinson, then seventeen years old, offered his services and was rejected, says a London despatch. He persisted and the officers stretched a point and admitted him. In school at Haileybury, England, he had been a member of the branch of the officers' training corps and after a war office examination he was gazetted a second lieutenant, and when he was made captain in June last he was probably the youngest officer of that rank.

At Loos his regiment saw severe fighting and after the action, Captain Pattinson was the senior surviving officer. Until a new colonel was appointed he was in charge of the regiment. Now he has been gazetted major. He has served under five commanding officers.

TRAINING MULES FOR THE WORK OF THE ARMY

FORTUNES IN FIVE MINUTES

MILLIONS ARE MADE BY STOCK GAMBLING.

Some Instances of Money-Getting That Read Like Fairy Tales.

To the average man, who toils long hours for a few hundred dollars as the fruits of a year's labor, stories of large fortunes made between breakfast and luncheon must seem the veriest "fairy tales," to be read with smiles of incredulity. And yet across the Atlantic such stories are too common to provoke even a moment's wonder, says London Answers.

There are men by the score in the land of dollars who think nothing of adding a million to their pile in a few pleasant hours of speculation. Recently Mr. Joseph Hoadley, within five minutes of entering the Cotton Exchange, made a round million dollars, and when, a few hours later, he left the Exchange, he was $4,000,000 richer than when he ate his breakfast that morning.

Between Luncheon and Dinner.

On a previous occasion, Mr. Theodore Price is said to have made money at the rate of $100,000 a minute during one frenzied quarter-of-an-hour's dealing in cotton, at a time of panic due to a report that there was a short cotton crop. On the same Exchange Mr. J. J. Livermore, who started his wonderful career as an office-boy, added $500,000 to his bank-balance between luncheon and dinner by selling cotton to alarmed speculators.

During a recent boom on the New York Stock Exchange, inaugurated by the unexpected high dividends declared by the Union Pacific, and the Southern Pacific Railways, many men made fortunes ranging from $500,000 to $2,500,000 in a single day's operations.

Mr. Harriman is credited with having won $2,000,000 in a few minutes; Messrs. Gates, W. Rockefeller, H. H. Rogers, and Stillman cleared sums ranging up to $2,500,000; and Mr. Abraham White, a well-known broker, was able, out of the fruits of a few hours' gambling, to make a birthday present to his wife of a holiday house on the Atlantic coast, which had cost its late owner $750,000.

Made in One Deal.

Nor are such feats of rapid gold-winning by any means a monopoly of recent times. Long years ago Commodore Vanderbilt netted five million dollars by a single shrewd deal in Harlem Railway Stock; and Jay Gould, in one of his many meteoric speculations, once made $4,000,000 clear profit in five minutes in Wall Street.

In speculations extending over a few months some enormous fortunes have been realised. By controlling the wheat supply E. P. Hutchinson, in 1868, was able to unload 10,000,000 bushels at the average profit of $1.75 a bushel, thus adding $17,500,000 to his already colossal pile of gold. At a time of frenzied speculation in the Chicago wheat pit, a few years ago, Mr. James Patten made $800,000 profit on a single deal in five million bushel of maize; and before he emerged from his "corner" his "spoil" had risen to $2,000,000.

But few peculators have had such consistent good luck as Mr. J. R. Keene, known to fame as "The King of the Bears," who after clearing $1,500,000 by his clever handling of Brooklyn Rapid Transit stock, made in rapid sequence the following sums by manipulating other stocks, from National Cordage to Northern Pacific: $4,000,000; $2,000,000; $3,000,000, and $2,500,000.

$10,000,000 a Month.

There is, however, one man who can afford to smile even at such amazing money making feats as these—Mr. J. D. Rockefeller, whose millions have grown from five to five hundred in less than forty years. Between 1890 and 1899 his fortune leaped from one hundred to two hundred and fifty millions, an average increase of over $10,000,000 every year.

Early in the following year—1900—he stated under oath that he owned $21,000,000 in Standard Oil stock alone That stock advanced 400 points before the year closed, being then valued at nearly $900, its par value being $100. Thus, in one year, Mr. Rockefeller's fortune had grown at the rate of more than $10,000,000 a month!

In this phenomenal year, it is said, twenty-three American millionaires increased their capital by no less than $300,000,000, half of which is credited to one of them, Mr. Rockefeller, who was actually $150,000,000 richer when the year closed than when it opened.

CHARACTER IN THUMBS.

An Unerring Index to a Man's Natural Strength or Weakness.

The man with a long, straight thumb, square at the tip, possesses good mental capacity, and can always be relied upon to carry out successfully any work with which he may be entrusted. His temperament is even and judicial, and he is a born governor of men.

If the thumb be long, thick, and heavy at the tip, with the joints prominent, a tyrannical and cruel nature is indicated, everything being viewed from an intensely selfish standpoint.

A short, straight thumb shows obstinacy and driving power. If very thick and heavy at the tip, a brutish, unreasoning disposition will be noticed.

A short thumb, tapering at the tip, denotes an inconstant, changeable nature, particularly in matters of the affections. A man with a tapering thumb cannot concentrate, is unpunctual, and unable to work, except in spurts.

If the thumb lie close to the hand, a cautious, timid, mean nature is indicated.

If the thumb curve outwards at the tip, adaptability to people and circumstances is shown accompanied by natural politeness, and a tendency to make compliments. The owner is broad-minded, a good conversationalist, impulsive, generous, and easy-going.

If the curve be very marked, and the whole thumb stands away from the hand, extravagance and want of principle in money matters will be found, accompanied by boasting, a desire to "show off," and vain pride in any abilities or accomplishments which may be possessed. The nature is also highly impulsive, erratic, and careless.

"KING GEORGE'S KEYS!"

Quaint Ceremony Gone Through in Tower of London Nightly.

Some few minutes before eleven o'clock the yeoman warder on duty calls to the main guard for the "escort of the keys."

The main guard immediately turn out under charge of an officer, and on their approach the sentry challenges, "Who comes there?" The yeoman warder answers, "Keys." The sentry again challenges, "Whose keys?" and the warder replies, "King George's keys."

The sentry then calls out, "Advance, King George's keys! Guard, turn out!"

The officer of the guard then gives the command, "Guard, present arms!" and the warder advances, and, standing in front of the guard, holds up the keys in his hand, and calls out, "God preserve King George!" to which the guard respond with a volley of "Amen."

The yeoman warder then proceeds to the Governor's house, and there deposits the keys.

ALL TRAVEL BY AIR SOON.

Wonderful Advance in Flying Since the War Began.

The conquest of the air is the greatest material achievement in the world's history. With such amazing swiftness has the art of flying advanced during the last decade that in forecasting the near future the imagination must be enlisted. It is not idle to say that in a few years the aeroplane will be as commonly used as the automobile is now. In the rapidity of its development, and in a far more difficult field at that, the aeroplane has fairly run away from the automobile.

This progress is largely the result of the war. A few years ago, a flight across the English Channel was an amazing feat, the aeroplane was the helpless victim of every fickle gust of wind, while the flight of an hour with a passenger aboard made a thriller for the headlines. The memorable trip across the channel by Miss Harriet Quimby, in 1912, the first Channel flight by a woman alone, has not yet been duplicated.

"Less than a decade ago," says Senor Santos-Dumont, the Brazilian aviator and scientist, "my aeroplane was considered a marvel. In this machine, in which there was room for only one person, I used a 20-horse-power motor. My record flight was 12 miles, and I could carry only enough gasoline to fly three-quarters of an hour." To-day aeroplanes can carry 30 passengers, can fly more than 24 hours without alighting, have ascended virtually five miles, and between sunrise and sunset have travelled 1,000 miles. "We no longer," says M. Santos-Dumont, "fear wind or weather. The modern machine can brave any gale, and fly through a storm of any velocity. It can travel over mountains, forests and seas. The atmosphere is its ocean, and its ports are everywhere."

Claude Grahame-White predicts that in 20 years giant aeroplanes making 200 miles an hour will speed from New York to London in 15 hours. The next step will be around-the-world trips by air. While all this is developing, the local uses of the aeroplane will increase correspondingly. Far-seeing automobile makers will soon be turning to the aeroplane, one of the largest concerns having already purchased a trying-out ground for flying machines. Travel in the future is to be through the air.

IS LAZIEST BIRD ALIVE.

Sits on a Limb and Waits until Food Comes to Him.

Laziest of birds, he is. He sleeps all day, and instead of flying about in seach of food, he sits still on a limb and literally waits for the insects to come and feed him. He's such a sound sleeper that you can knock him off his perch with a club, and he'll not wake up. He inhabits the islands of the Indian Ocean and Australia, and he's called the frog-mouth.

He's about the size of the whip-poorwill and gets his name from his wide mouth, which also serves as his insect trap. Too lazy to fly for his food, lik other birds, he crawls along the limb of a tree, opening his wide mouth and snapping it shut, catching what flies and gnats come within his range.

At night he's found perched with his mate on the roofs of houses, on fences or stumps. Only after the sun goes down does he show any inclination to move about. All day he sits feet glued to the limb of a gum tree, indifferent to rain tropical sun or the call of the woods.

Not Thirty Cents.

Mrs. T.—"How does my new spring hat look, Tom?"

Thomas—"Um! It looks to me like two weeks' salary."

A man seldom thinks how hard he has to work for his money until his wife asks for a little of it.

From the Middle West

NOTES OF INTEREST FROM HER BANKS AND BRAES.

What Is Going On in the Highlands and Lowlands of Auld Scotia.

Raymond will plant one of the biggest crops in its history.

The Calgary street railway shows a net profit of $291.23 for 1916.

An Irish battalion will probably be authorized to be raised in Saskatoon.

A young Alberta farmer walked 20 miles in the rain the other day to enlist.

Calgary Council voted $1,500 to the Y.M.C.A., instead of $1,000 as last year.

Some farmers in Southern Alberta had 200 acres seeded during the first week in April.

The 51st Edmonton Battalion has raised 2,047 men since the authorization, Jan. 4, 1916.

Saskatoon Fair Board intends to make a grant this year for school children's gardens.

George W. Young was committed for trial at Calgary on a charge of seditious utterances.

The Douglas block in Main street, Moosejaw, is being changed into an armory for the Frontiersmen.

The tax rate for Regina for 1916 will be 23.3 mills, as compared with 24.7, the rate in existence last year.

Edward Morden, a Calgary boy, last week shot a large lynx which had chased his brother near the city.

Ninety six prominent business men of Winnipeg practically closed their offices for three days to aid in canvass for the "hero fund."

According to figures compiled by the Saskatchewan Department of Agriculture, the province "broke" 729,533 acres of new ground in 1915.

Mrs. Mary Craig died recently in Edmonton at the age of 95 years and 9 months. She formerly lived in Toronto, but came to Edmonton in 1909.

Three civilians, found guilty of participating in a recent street riot in Winnipeg, were each fined $20 and costs with an option of two months in prison.

Scout Melfort Crawford, of the 9th Winnipeg Troop, was presented at that city with a medal for saving Scout Spitzer from drowning in the Assiniboine River.

Billie Caryk, a little five-year old Polish boy, was operated on with much difficulty and danger in a Winnipeg hospital and a safety pin removed from his throat.

Arrangements are being made for a street railway line from Calgary to the big military camp at the Sarcee reserve, where from 20,000 to 25,000 men will be quartered this spring and summer.

PERSONAL POINTERS.

Interesting Notes About Well Known Men and Women.

Prince Henry of Prussia is one of the most skilful fencers in Germany.

"Coffee, biscuits, and a pipe" is the breakfast menu of Sir Douglas Haig.

Lord Lonsdale is one of many who believe that the war will be over in August.

The Queen of Sweden has visited the German Empress three times since the outbreak of war.

Lord Derby's signature is just now more in demand among autograph-hunters than that of any other peer.

Mr. Patrick McGill, the soldier poet and writer and former navvy, has composed part of a new book in the trenches.

The British Prime Minister's household accounts are settled monthly, Mr. Balfour's weekly, and Lord Lansdowne's quarterly.

The Grand Duchess George of Russia since the outbreak of war has knitted thirty-five pairs of socks and twenty pairs of mittens for the Russian Army.

The King of Spain has lately interested himself in the condition of Spanish prisoners, and has been visiting the chief penal establishments in his realms.

The Prince of Wales occupies a lower military rank than any other Royalty serving in the war. His Royal Highness has repeatedly refused to accept promotion.

A good story is being told by Mme. Vandervelde, wife of the famous Belgian Socialist orator. A Belgian entering a street car in Brussels happened to tread on the toe of a German officer, and profusely apologised. The officer, not to be outdone, offered to let the Belgian pass first. "No no," replied the latter, "you go first. I'm at home."

BANISH PIMPLES AND ERUPTIONS

In the Spring Most People Need a Tonic Medicine.

One of the surest signs that the blood is out of order is the pimples, unsightly eruptions and eczema that come frequently with the change from winter to spring. These prove that the long indoor life of winter has had its effect upon the blood, and that a tonic medicine is needed to put it right. Indeed, there are few people who do not need a tonic at this season. Bad blood does not merely show itself in disfiguring eruptions. To this same condition is due attacks of rheumatism and lumbago; the sharp stabbing pains of sciatica and neuralgia; poor appetite and a desire to avoid exertion. You cannot cure these troubles by the use of purgative medicines—you need a tonic, and a tonic only, and among all medicines there is none can equal Dr. Williams' Pink Pills for their tonic, life-giving, nerve-restoring powers. Every dose of this medicine makes new, rich blood which drives out impurities, stimulates every organ and brings a feeling of new health and energy to weak, tired, ailing men, women and children. If you are out of sorts give this medicine a trial and see how quickly it will restore the appetite, revive drooping spirits, and fill your veins with new, health-giving blood.

You can get these Pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

REVERED AS SAINTS.

Where Lunatics Are Looked Upon as Wonderful Beings.

It appears there are places where lunatics are not shut up and kept away from the rest of the world, but are revered as saints and far superior to the ordinary run of mortals. This is the queer state of affairs that exists in some of the interior cities of Persia. A British traveller named Fetter, recently returned from the Orient, brings back some interesting tales of the mentally-deranged men who are looked upon in the light of wonderful beings.

One particularly crazy man, according to Mr. Fetter, the craziest man he ever saw or heard of, does nothing all day long but race up and down the streets crying at the top of his voice:

"Ali! Ali! Ali!"

This is not a temporary form of madness, either, for he has kept it up for twenty years or so. He started it when he was still a young man, and his idea, of course, is to venerate the name of the God he knows by ceaselessly shrieking his name.

Everyone venerates him. The richest men in the city have presented him with rare gifts. One of them gave him a horse and saddle, and with that he gallops through the streets when he is not walking. He is privileged to break up any kind of a meeting or assembly, and all stop and listen to his cries as long as he is of the notion to stay in their midst.

At his death a huge monument has already been promised, on which will be carved the word "Ali," so it will tell to generations to come the story of the man who spent the best years of his life and all of his waking hours shrieking the name of the deity he worshipped.

The Wise Fool

"No man can serve two masters," observed the Sage.

"That's right," agreed the Fool. "The law won't let a man have more than one wife at a time."

Well Built Is Built To Win—

but in building brain and body, often the daily diet lacks certain essential mineral elements.

These necessary factors are abundantly supplied by the field grains, but are lacking in many foods—especially white flour, from which they are thrown out in the milling process to make the flour white.

Grape-Nuts

made of whole wheat and malted barley, supplies all the rich nutriment of the grains, including their vital mineral salts, those all-necessary builders of active brains and vigorous bodies.

To build right, eat Grape-Nuts

Invents for Allies

WILLIAM MARCONI

the Italian inventor, who now announces that he has invented a new method of telegraphing without wires, which will revolutionize telegraphy. It will be used exclusively by the Allies until the war is over.

Cure Borders on the Miraculous

A SAWYER TELLS OF WONDERFUL WORK OF DODD'S KIDNEY PILLS.

He and His Wife, After Years of Doctoring, Found Quick Relief and Permanent Cure in Dodd's Kidney Pills.

Caporal Junction, Ont., April 24th.—(Special.)—Bordering on the miraculous is the cure of Mr. A. Sawyer, of this place. For ten years he was an invalid. Five doctors failed to help him. When he was a complete wreck, and unable to walk across his room, he decided to try Dodd's Kidney Pills. Six boxes of them made him like a new man.

"Yes, I suffered for ten years," Mr. Sawyer said in speaking of his cure. "The doctors of whom I tried, five altogether, couldn't give me any permanent relief. Some said I had rheumatism, others called it lumbago, but I got steadily worse.

"I must say I was a complete wreck when I started to take Dodd's Kidney Pills. They made a new man of me.

"My wife got the same good results from them. It was after trying several doctors and a specialist from Sault Ste. Marie, who advised her to stay in bed a month, that she decided to try Dodd's Kidney Pills. She took a dozen boxes in all with splendid results. We both praise Dodd's Kidney Pills. No one can speak too highly of them."

Dodd's Kidney Pills have a record of over a quarter of a century in Canada, during which time they have earned undying praise in all parts of the Dominion. Ask your neighbors about them.

GEN. HINDENBURG'S FACE.

Neither Kindness, Justice Nor Humanity Are Seen.

"My face is my fortune," is a little phrase most of us have heard; but recent events have demonstrated that one's physiognomic expression may also be one's ruin.

Take the case of the Huns. Look at the generals who are leading the atrocity-army in the trenches in France and Russia—study the portraits of Von Bulow, Hindenburg, and Mackensen. Can any sane person really see in their features any semblance of kindness, of justice or of humanity? Forgetting for a moment all that has happened; is it possible to find in their sunken, staring eyes, any expression of love or pity?

That there are numerous traces of handsomeness there can be no doubt, and specially is this so in Hindenburg's face, but it is a handsomeness of its own kind—that, indeed, which seems strangely akin to beauty of pre-civilized days. There are, too, marked qualities of cleverness. But is there anyone who could study their short, clipped hair, and tightly-closed mouths, and not believe it is a ruthless cleverness?

Now have a look at the Kaiser's portrait. Not the searching, almost piercing eyes, his sneer-like mouth, his irregular scattered moustache. Watch, too, his pose when he is laughing—that peculiar mocking grin that seems to scorn all treasured traditions.

Then study photographs of our own generals. Can you discover those crafty, cat-like glances, that animal type of head, that relentless, sneering mouth? Do not the photographs of Kitchener, of Haig, and of Jellicoe inspire confidence? Is there not something about their look akin to the human mind?

Study, also, the portrait of General Joffre. Is there not about this man a look of sympathetic understanding? True, there are traces of emotion about the eyes, but it is an emotion which seems to ring true. "A happy, contented face" is how someone once wrote about France's great commander. And there are suggestions of a happy, contented mind, too!

The actual doings of the generals named above are curiously analogous to the delineations of the face-readings.

Has not the Huns' army been rushed on and on without regard to human life?

"A soldier is merely a tool in the machine of war," a German writer has declared. And certainly Hindenburg, Crown Prince & Co. have lived up to that maxim.

And the Allies? Where is the evidence that our men have been hurled into hades-like situations for the mere purpose of "taking a trench at all costs"? Has it not been written of Joffre that he "nibbles," and of French that he "bites"? And what of Tommy and Jean? Is there not respect and love for their officers throughout the ranks?

DANES FOR BRITISH FARMS.

New Scheme for Importation of Alien Labor.

A project for employing Danish labor on farms in England and Wales is announced by the British Board of Agriculture. The President has discussed the settlement of discharged sailors and soldiers at a meeting at the Mansion House, London, but an official announcement issued subsequently by the board, states that the Central Labor Exchange is prepared to obtain Danish labor for farms outside prohibited areas provided engagements for not less than twelve months can be guaranteed and that traveling expense (about three pounds) from Denmark will be advanced by the farmers, who may repay themselves out of the men's wages. The men would mainly be young single men betwen 18 and 25, with practical dairy forming. They would need to be lodged and boarded under reasonably comfortable conditions, and would have to be paid the current rate of wages.

When a woman resorts to the use of drug store complexions she's only trying to make up for lost time.

Fly Poison Kills More Children

Than All Other Poisons Combined

For Safety's Sake, Use

Is there within your home, anywhere within baby's reach, a saucer of arsenic poisoned paper floating in water, or a can with a sweetened poisoned wick?

During 1915, 26 cases of fly poisoning were reported from 11 states; in 1914, 66 cases from 14 states. *Fly poison kills more children than all other poisons combined.*

Yet fly poison still is left unguarded except in the homes where mothers have learned that the *safe, sure, non-poisonous,* efficient fly catcher and destroyer is

TANGLEFOOT

The Journal of the Michigan State Medical Society comments thus in a recent issue:

"Symptoms of arsenical poisoning are very similar to those of cholera infantum; and probably a number of cases of cholera infantum were really cases of arsenical poisoning, but death, if occurring, was attributed to cholera infantum.

"We repeat, arsenical fly destroying devices are dangerous and should be abolished. Health officials should become aroused to prevent further loss of life from their source. Our Michigan Legislature, this last week, passed a law regulating the sale of poisonous fly papers."

The O. & W. Thum Co.
Grand Rapids, Mich. (73)

A Crisp, Delicious "Snack" for luncheon or after-the-theatre, or any old time when the appetite craves "something different" is TRISCUIT, the Shredded Whole Wheat toast. Heat it in the oven to restore its crispness, then serve with butter, soft cheese or marmalades As a toast for chafing dish cookery it is a rare delight. It is full of real nutriment.

Made in Canada.

FEWER SUICIDES IN PARIS.

Every One Anxious to See How War Will End, It Is Explained.

Suicides in Paris have dropped to about two a week, as compared with an average of fifteen to twenty in ordinary times.

People who always want to know the why and the wherefore of everything have endeavored to get at the reason of this. A wag, who is perhaps not so far off the truth as some might imagine, suggests that every one is so anxious to see how the war will end that they cannot bear to shuffle off this mortal coil until victory crowns the day.

It is just possible that suicides are fewer now because so many favorite means of going to one's long account are not readily available. For instance, from the first moment that war was declared all gunsmith shops were closed up and neither arms nor munitions of any kind can be bought. No one is allowed on any of the great public monuments, so that jumping off bridges or the Arc de Triomphe is no longer possible.

THE BEST MEDICINE FOR THE BABY

The best medicine for the baby is the one that never fails to cure and which, at the same time, the mother may give with perfect assurance that it is absolutely safe. Such a medicine is Baby's Own Tablets. They are the only medicine absolutely guaranteed entirely free from injurious drugs and what is more they never fail to free the baby from those minor ills of babyhood and childhood. Once a mother has used them she would use no other medicine. They regulate the stomach and bowels; drive out constipation; expel worms and make teething easy. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Just Overtook Him.

It was a wizened little man who appeared before the judge and charged his wife with cruel and abusive treatment. His better half was a big, square-jawed woman, with a determined eye. "In the first place, where did you meet this woman who has treated you so dreadfully?" asked the judge. "Well," replied the little man, making a brave attempt to glare defiantly at his wife, "I never did meet her. She just kind of overtook me."

Minard's Liniment Co., Limited:

I was very sick with Quinsy and thought I would strangle. I used MINARD'S LINIMENT, and it cured me at once. I am never without it now.

High Finance.

"Another new hat? You should really save your money with the price of everything going up."

"But why? The longer I save it, the less I can buy with it."

Ask for Minard's and take no other

"TOO OLD AT FORTY?"

An Old Saying That a Man Is Just as Old as He Feels.

The cry of "Too old at forty!" has—in one sense, at any rate—got its death blow during the present war. The older men have been called to fill the places of the youngsters who have gone to the front, and they have filled them well, says London Answers.

The late Dr. Alfred Russel Wallace, O.M., issued one of his biggest and most learned books when he had passed his ninetieth year. He actually wrote four big books after he passed his eightieth year!

Tennyson was remarkable both for the quantity and quality of the work he did in old age. He wrote that supreme lyric, "Crossing the Bar," when past eighty. One of his most famous poems, "Locksley Hall," was written when he was a mere boy of two-and-twenty, and its sequel, every bit as fine, sixty years after, as its title shows.

Mr. Gladstone had reached his eightieth year when he was called to undertake the Premiership of the greatest Empire in the world for the fourth time.

There is much truth in the old saying that a man is just as old as he feels, and many a man feels as young at eighty as another does at thirty, and the former is often a better man than the latter, even if he can't lift as much. It's ideas that rule mankind, not flats, "mulled" or otherwise.

Crushing.

It was the morning after a visit from the Zepps, and a certain street "somewhere in London" was sprinkled with broken glass.

There was the usual crowd of spectators, among whom was a timid-looking man in spectacles, who at last ventured to speak to the constable on duty.

"Is this the result of the air raid?" he asked nervously.

The policeman looked pityingly down at him as he replied:

"Well, now, and d'ye think a stone dune it?"

CARRY SWORD, SAYS KING.

Officers on Duty Get Orders About Dress.

Strict rules are laid down in the King's regulations and orders from the army regarding the dress and decorations to be worn by officers, says London Tit-Bits.

A soldier, in the first place, must not leave his quarters until properly dressed, and it is the duty of all officers, warrant officers, and N. C. O.'s to report irregularities of dress for soldiers on pass or furlough to the men's commanding officer, whether the men belong to their own corps or not.

Regulation uniform must not be worn at fancy dress balls, but there is no objection to military uniforms of an obsolete pattern being worn on such occasions. Great coats must be worn by officers on duty when the men parade in them, and the former must carry a sword when on duty, unless otherwise directed.

Keep Minard's Liniment in the house

Associations.

A few days after a farmer had sold a pig to a neighbor, he chanced to pass his place and saw his little boy sitting on the edge of the pen, watching its new occupant.

"How d'ye do, Johnny?" said he. "How's your pig to-day?"

"O, pretty well, thank you," replied the boy. "How's all your folks?"

Flummixed.

Pat had but a limited knowledge of the bird kingdom. One day, walking down the street, he noticed a green bird in a cage, talking and singing. Thinking to pet it he stroked its head. The bird turned quickly, screaming "Hello! What do you want?" Pat shied off like a frightened horse, lifting his hat and bowing politely as he stuttered out: "Ex-excuse me, sor, I thought you was a parrot!"

Minard's Liniment Lumberman's Friend

Unreasonable.

A stranded traveler reluctantly took a room at a somewhat shabby village inn in England recently. He retired to rest, but ten minutes later came downstairs again, with anger in his face. "I must insist on having another room, sir!" he informed the innkeeper sternly. "What's the matter with the one you've got?" asked the latter. "Matter!" snapped the angry man. "Why there are a couple of mice fighting—actually fighting in the corner of it!" "Well, sir," replied mine host coldly, "and what dy'e expect for two shullings a night—a bull fight.

GLAMIS

The Misses Lena McKenzie and Alice Combs, of Kincardine, spent a few days at Mr Neil Currie's.

Miss Jennie McKeeman is home from Toronto for a short vacation.

Mrs Chas McKinnon, we are pleased to report, is improving from her illness.

Mr McCauley has gone to Tara for a few days' visit to his parents.

Mrs Kitchen (nee Miss Alice McCormick) has rented Mr Wm McKenzie's house and will make her home there for the present.

Miss Phyllis Moffat spent the holidays with her father, Major Moffat, in Walkerton.

Clyde McKeeman is in Toronto this week on business.

Quite a number of new books have been added to the library.

Mrs Abel and daughter, of Cargill, Sundayed at Mr W J McKeeman's.

Mr Neil McFarlane has been confined to the house for the past two weeks, owing to illness, and has been unable to attend to business.

Fishing seems to be the latest pastime. Quite a number of our citizens went out last week and brought suckers and mullets galore, enough to supply the village.

Mr Robt McNally, of Kintare, a former resident of Glamis, had the misfortune to lose his barn and blacksmith shop by fire a few days ago.

Mr John McNally, an old resident of Greenock, who has been living with a son at Sarnia for a year, departed this life on Monday of last week at the advanced age of over 90 years. The remains were brought for interment in Purdy's cemetery on Wednesday last, and were accompanied by two sons, Robert from near London, and John E of Sarnia. Two other sons are living—William Henry, of Bruce Tp, and George, of Macauley, Man. Mrs McNally, sr, died in September, 1915.

Two daughters of Mr Albert Pinkerton spent the holidays at the home of Mr David Robertson.

Miss Edith Dawson returned to Clifford this week.

The death of Hon Peter Cameron, of Tyner, N Dakota, will be learned of with regret by many in this section, as the deceased was a former resident of Greenock, being a son of the late John Cameron, who lived for years on the blind line, 2½ miles from Glamis. The Hon Peter Cameron was 66 years of age. He was born in Stanley Tp, Huron Co, and came to Greenock with his father's family about 1869. At 30 years of age he was married to Miss Kate Stewart of Bruce, and moved to North Dakota in the spring of 1880, locating on a homestead near Tyner, in Pembina Co, and resided there since. His first wife died in May, 1886, and five years later he married Miss Eva McKee, of Pinkerton, who survives him. Two sons by the first marriage are living, also one son and two daughters by the second marriage. Two brothers and one sister also survive—Alex Cameron, of Huntingdon Beach, California; John Cameron, of Calvin, N D; and Mrs G J McCurdy, of Tyner. The deceased had been in poor health for some time, and had gone to spend the winter with his brother in California, where his death occurred recently. Mr Cameron was elected a member of the territorial council of Dakota in 1886, served one term, and was also elected one of the railroad commissioners of North Dakota in 1892, serving two years, also filled many local positions in the Tyner community, and was very active in church work and took large interest in moral reforms. His life stood for everything that was highest and best. Pembina county, the state of North Dakota and the world is better because Peter Cameron lived and performed his duty in them, says the Cavalier Chronicle. He especially will be greatly missed in Pembina county, where he had lived and served his day and generation so many years.

PINKERTON

The V P S of the Presbyterian church here spent a very pleasant evening at the home of Mr A Pinkerton last week.

Mr Russell Birrell is spending a few days at his home here, before taking a position in Toronto.

Miss Alma Reid returned from Harriston last week.

A number of the youth and beauty spent a very pleasant evening at Mr Fred Gibb's last week.

A contest is on here under the auspices of the Red Cross Society for the winning of a beautiful centre-piece donated by Miss Lizzie Lamb.

Mr Paxton has been engaged to work in the mill here.

Prayer meeting will be held this week at the home of Mr A Gregg on Thursday evening.

Miss Carlotta Mutrie visited with friends in Mount Forest last week.

CARGILL

Signaller Kirvan, of the 160th, spent over Sunday in the village.

Mrs W D Cargill and daughters Misses Juanita and Phyllis are home from Toronto, having arrived on Monday night.

Miss Gladys Keeling arrived home Saturday from a week's visit to friends in Toronto.

Mrs and Miss Muriel Dietrich returned to their home in Chesley on Tuesday, after a short visit at Mr Thos Grice's.

Word was received here on Monday of the death of Mr Robt Elder, a former resident here. His demise took place in Goderich where he had been residing for a number of years. The funeral took place from the G T R station here on Wednesday. We extend our deepest sympathy to the bereaved family.

Mrs Baillie and Master Trimble are home after spending a week with friends in Clifford.

The following interesting letter was received by Mrs H Sparling from her son Edgar, who arrived in England a short time ago with the 71st Battalion:

Lipback, England, Ap 13, 1916

DEAR MOTHER—Well, we are in England at last, and I certainly am glad that the trip is over. I was tired of travelling. When I wrote you that letter from Halifax we were supposed to be quarantined for two weeks. We got there on Saturday morning and stayed in the barracks over night. After dinner on Sunday they told us to get ready to go on board ship, and we were sure glad. One platoon was left behind. We came over on the Olympic, and she is some boat, probably the biggest on the Atlantic now. We left Halifax on Wednesday morning and got to Liverpool on the following Wednesday. We would have made the trip much quicker but were kept back by fog the first two days. Two destroyers met us twenty-four hours out of Liverpool and escorted us in. We only passed two boats before that. We could see the south coast of Ireland all Tuesday afternoon and it looked very pretty. It is very hilly. The ocean was calm all the way over and the boat did not roll very much. I was sick half a day, but it did me good. We slept in hammocks on the outer deck and were cold the first few nights, till we got out further and it was much warmer. We drilled and had physical exercise every day, and had to do guard duty too. There were over 7500 soldiers on board, besides doctors and nurses, and about 900 of a crew. They said we were chased by a submarine the last night, but I don't know whether it is so or not. They were very careful not to show any lights, anyway. They have fancy railway trains here. The engines and cars are very small, but they travel twice as fast as the trains in Canada. The cars are divided into compartments, and each compartment holds eight persons. You cannot get from one compartment to the other except when the train stops at the station. We left Liverpool station at six o'clock last night and got to Lipchok at 3.30 this morning, and then had to walk two miles with full pack to Bramshott Camp. It was nearly daylight when we got here, and we had lunch in the mess room. We slept until nine this morning and then had breakfast. We were too cramped on the train to sleep. We are in huts—just frame buildings without plaster. They hold about fifty men, and we have to sleep on the floor yet, although we may get cots soon. The country roads here are all paved, and when passing anybody we have to go to the left of the road. All the towns are dark after night. They have motors on their transport wagons here—two teams, one ahead of the other, and a rider for one mule of each team besides a driver in the wagon. Frank Sawyer was left in the hospital at Galt with the measles, and Windell Russell was left in Halifax with them. Sawyer will be transferred to the 70th in London, but I don't know what they will do with Russell. Pete and Alex are O K, also Elmer Gregg and Sam Reuburn. I think we will like it here. We get six days leave next week and are going to take a trip somewhere.

At a social evening held in the Presbyterian church on Monday evening Miss Eleanor Jordan was made the recipient of a beautiful gift and address by the young people of the congregation. Miss Jordan with her mother leaves this week for her new home in Brussels. The good wishes of their friends here follow them.

TENTH CON. BRUCE

Pte Robt White is engaged with Mr J Thornburn for the seeding.

Messrs White and McDonald are having their artesian wells looked after by Mr Boettger.

Mr and Mrs Geo Heath, accompanied by the former's mother, spent the week-end at S Haney's. Mr Wm Parsons, of Hepworth, was also a visitor there last week.

Mr and Mrs Angus Atkinson and family, accompanied by Miss Passmore, of Wingham, motored up and spent the week-end with friends on the 10th.

Mr and Mrs A McInnes spent Sunday with friends near Dornoch.

TURNERS'

Mr Oliver Christie, who was home from North Bay normal school for a few days, is now training with the 160th Batt in Walkerton.

Mr Ryan, our teacher, has returned, after spending the Easter holidays in Toronto.

Mr Wm Cairns went to Toronto and joined the 201st Batt.

Miss R McRae is spending a short time with friends in Toronto.

Mr and Mrs Jos Hyde, 4th Bruce, spent Sunday with his mother.

Mr Melzer Dier had a very successful sale last week. He has sold his farm and expects to leave for the west in a short time.

GRESHAM

Mr John Young is in Kincardine, staying with his brother, Mr Robt Young, who is very ill.

Mr Jas A McKinnon has rented Mrs Knapp's 150-acre farm.

Misses Bell and Ruth Shipley spent the holidays at London.

Mr D J McFadyen has bought the Seth Nicholson farm on the 13th con.

We regret to learn that Rev Mr Sawyers, of North Bruce, has resigned his pastoral.

Ptes Harvey McArthur, Rob Roy McGregor and Bruce McGregor are at present all home for seeding. They all look fine.

We are pleased to report that Mr Robt Mewhinney, who was ill during the winter, is keeping much better.

Miss Marion McArthur and Pte Harvey McArthur spent the week-end in Kincardine at Mr Ed Forrester's.

Messrs Wm Young and Peter Dobson visited the former's brother in Kincardine lately.

Mr V D Cottrill, of the Bank of Nova Scotia, Barrie, who was home on a visit to his parents at Port Elgin, has enlisted in the Simcoe Battalion. He was around here last week saying good-bye to his friends and relatives. We hope he may return safely, after doing his share for his country.

Mr Jas A McKinnon has returned home, after spending a month in the west. Mr McKinnon is very favorably impressed with the west.

Miss Currie, who has spent the winter months with her brothers in the west, returned home last week.

Mrs. Jacques of Paisley has been visiting at the home of her sister, Mrs W Minto, 10th con.

ELDERSLIE COUNCIL

Gillies Hill, May 1st, 1916

Council met on the above date. Members all present. Minutes of last meeting read and adopted.

Lewis—Fraser — That no wire fence bonus be paid until after Oct 1st.—Carried.

Allen — Thomson — That this Board do now adjourn to meet on Monday, May 29th, at one o'clock p m, as a Court of Revision and for general business.—Carried.

R C PEARCE, Clerk.

AFTER SIX YEARS OF SUFFERING

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 178 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since, and I feel like a new woman. I now weigh 127 pounds as you can see what it has done for me already. My husband says he knows your medicine has saved my life."—Mrs. J. S. Barrow, 1686 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely.

It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

AUCTION SALE

— OF VALUABLE —

Farm Stock, Implements and Household Effects

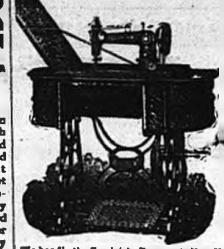
The undersigned has received instructions from Mr. J. Crawford, lot 10, con. 11, Elderslie Tp., to sell by public auction on the premises, on

Friday, May 12

at 1 o'clock p.m. the following:

CATTLE—2 milch cows nearly calved or due to calve soon, 1 fat heifer 2 yrs old, 2 steers 2 yrs old, 3 heifers 2 yr old, 2 yearlings, 4 young calves. SWINE—2 sows due to farrow in young pigs 2 months old. POULTRY—About 60 hens. IMPLEMENTS—1 Massey-Harris binder nearly new, 1 hay loader, 1 hay rake, 1 seed drill, 1 single plow, 1 two-furrow plow, 1 turnip cutter, 1 disc harrow, 1 set light spring wagon, 1 hay rack, 1 stock rack, 1 set sleighs, 1 set bobs, 1 fanning mill, 1 sugar kettle, about 80 sap buckets. HOUSEHOLD EFFECTS—1 parlor suite, 2 tables, chairs, 1 sideboard, bedsteads, 1 heating stove, a quantity of stove pipes and other household effects.

Terms—All sums of $5 and under cash, on sums over that amount 10 months' credit will be given on furnishing approved joint notes, or a discount of 6 per cent per annum off for cash on credit amounts. No reserve, as the proprietor has sold his farm and is going west.



R. C. PEARCE, Auct.

UNDERWOOD

Mr Harry Inkster has moved his household into the old post office residence.

Mr Logan Wittig was operated on Saturday for appendicitis. Drs McDonald and Ferguson, of Kincardine, and Struthers, of Tiverton, performed the operation.

Mr Aaron Roppel, of Tiverton, is busy moving from Tiverton to the old Greenslade place at the Elbow, which we understand he has bought.

We handle the Goodrich, Raymond, New Williams, White, Singer and Star dard—all the very latest models. Small Instruments and Organs, Edison Phonographs and Records.

Hog for Service

THE undersigned has for service on his premises a pure bred Yorkshire hog. W. G. BURNIE, School, Greenock

TARA

The Glorious Twelfth of July will be celebrated in Tara this year.

Mr J B Rigg has accepted a position as leader of the band at Smith's Falls, and will leave Tara with his family in a few weeks. Mr Rigg will dispose of his business here. He has been a resident of Tara for the past twenty-five years and his many friends will be sorry to hear of his leaving.

It would appear as though this neighborhood is infested with a gang of thieves. Several complaints have been lodged of whips, rugs and other articles being stolen out of buggies in the different sheds in Tara. Another theft took place on Sunday night, when two young pigs were stolen from their pen belonging to Mr Jos Coleman, of the 4th con Arran. If these thieves are caught the magistrate should not hesitate in giving the guilty parties a term in prison.—Leader.

Production and Thrift

CANADA'S CALL FOR SERVICE AT HOME

Produce More and Save More The Empire needs food. If you are not in the fighting line you may be in the producing line. Labour is limited—all the more reason to do more than ever before. Grow food for the men who are fighting for you. The Allies need all the food that you can produce. Every little helps. You are responsible for your own work. If you cannot produce as much as you would like, produce all you can. Work with the right spirit. Put fighting energy into your effort and produce now when it counts. The more you produce the more you can save. Producing and saving are war-service.

Make Your Labour Efficient In war-time do not waste time and energy on unimportant and unprofitable work. Economize labour. Put off unproductive work till after the war, and, if possible, help in producing something needed now. Let us not waste labour. Canada needs it all. If possible help to feed the Allies. Make your backyard a productive garden. Cultivate it with a will. Make your labour count for as much as possible.

Do Not Waste Materials There should be no waste in war-time. Canada could pay the annual interest on her war expenditure out of what we waste on our farms, in our factories, in our homes. Every pound of food saved from waste is as good as a pound of increased production. The way for a nation to save is for every individual to save. France is strong to-day because of thrift in time of peace. The men and women of Great Britain are not only "doing" but are learning to "do without."

Spend Your Money Wisely Practise economy in the home by eliminating luxuries. Wasting our dollars here weakens our strength at the Front. Your savings will help Canada to finance the war. Save your money for the next Dominion War issue. There can be no better investment.

—Miss Mary McArthur returned to Toronto on Thursday after a few days' visit at Lovat.

—Miss Harriet Barnes, of 12th Bruce, who has been in Guelph for some time, is home for the summer.

—A hen egg measuring 7 x 8¼ inches was laid by one of the Shoemaker boys' flock of white Wyandottes.

—Hazel Bird had her arm broken last week when she fell down the steps at the front of her home on Inkerman St.

—Pte Victor Lamont, of the 92nd Highlanders, Toronto, was a visitor at the home of his aunt, Mrs A. Rose, over Sunday.

—Mr. Geo. Nicoll, of Underwood, has rented the Rowley farm in Greenock, and will remove to there after seeding time.

—Mrs. Jos. A. Rowley left a few days ago for Schomberg, where she and her children will make their home in future.

—Pte. Wm. S. Mitchell, who enrolled recently with the Home Guard Corps, at London, was home for a few days last week.

—Mrs. C. Briggs, treasurer of the Women's Institute, has received official acknowledgement of $500 sent to the Canadian Red Cross Society.

—Pte. D. J. Bain, bandsmen Emerson Pearce and L. R. Putnam, of the 95th, Toronto, were home during the past week on their last leave before the battalion departs for overseas.

—Kincardine Review: As Mr. Henry Coleman, of the Kincardine pork curing house, says "Years ago if you called a man a 'og he was insulted, but now we all 'ave to take off our 'at to the 'og."

—Mr H Roy, postmaster of Port Elgin, died on Monday evening, after an extended illness from an incurable internal trouble. The deceased was a popular citizen of our sister town, and his untimely demise will be much regretted by all who knew him.

—Robert and William Osborne, sons of Mr. and Mrs. Albert Osborne, former residents of Greenock, and later of Bruce Tp., both joined the 160th at Port Elgin, where the family now reside. Both soldiers have received wrist watches from Port Elgin citizens, the presentation being made at their home.

—Mr H Irwin has removed his household to Walkerton, where his headquarters in connection with buying have been for some time. It is a decided gain to Walkerton business interests to have an enterprising dealer, such as Mr. Irwin, located there, and a loss to Paisley when he and his estimable wife cease to be citizens of our burg.

—From reliable statistics it appears that the purchasing power of $1 ten years ago is equal to that of $1.75 at the present time. We are all aware that values have been soaring but few have realized that they have gone up so high. It follows that there are many people not so well off to day as they were ten years ago, although they may be getting higher wages.

Tags for Men of 160th

The citizens of Kincardine town are raising $450 for the purpose of supplying a metal identification tag for each private of the Bruce Battalion. On Friday last $340 of the amount required was collected by canvassers.

Chesley Boy Killed in Action

Joseph Harold McNeel, son of Mr. Jos. McNeel, of Chesley, was killed in action at St. Eloi on April 18th. The deceased enlisted in the first contingent, and left Chesley in August, 1914. He was in the Bermudas for a year, and from November, 1915, had been at the front in France.

Arbor Day Doings

The teachers and pupils made a nice clean-up of the school grounds on Arbor Day, also prepared some flower beds in which seeds and bulbs have been planted. With the enlarged playgrounds there is some space available for flower culture, and considerable can be done to beautify the surroundings.

The War in Picture and Story

A treat is in store for Paisley, on Monday evening, May 15th, when Frank Veigh, of Toronto, Canada's most popular illustrated lecturer, will give his well-known subject, as given over fifty times to large audiences throughout Canada. In addition to the eloquence of the speaker his reputation for beautiful pictures assures us that the 250 stereopticon slides to be shown will form a vivid panorama of the war, especially from the Canadian point of view. The audience will be taken not only to the camps in Canada, but overseas and to the actual battle front, with genuine and realistic scenes of the titanic struggle in which the Canadians have borne such a glorious part.

The Housewife's Corner

Dainty Dishes.

Rhubarb Fritters.—Cut the stalks of the plant into inch-long pieces. Simmer until tender, remove from the stove and drain. Dip in sweetened fritter batter. Brown and roll in powdered sugar.

Cheese And Celery Salad.—Mash Roquefort cheese with a little butter to thick cream. Mix with one-third as much minced celery, and arrange on lettuce leaves for individual service. Dust liberally with paprika and serve with dressing and toasted crackers.

Bread Pudding With Orange.—Soak a half cupful of stale bread in a quarter of a cupful of sweet milk, and when it is quite soft beat lightly with a fork. Flavor with the grated yellow part of half an orange rind and the juice of a whole one. Add sugar to taste and the yolk of one egg. Beat again, fold in the white of an egg beaten very stiff and turn into individual custard cups. Cook like bread custard.

Cheese Straws.—To one-quarter pound puff paste take ten ounces grated Parmesan cheese and a tiny dash of paprika. Roll cheese into paste as if rolling in flour. Roll out thin, cut into strips four or five inches long and one-fourth inch wide. Twist each strip and bake in moderate oven ten or twelve minutes.

Fish in Potato Cases.—Pare potatoes of uniform size and cut thin slices from one side of each to provide good base. Bake until nicely done take from oven remove inside of each potato, leaving wall all round. Fill with creamed codfish mixed with chopped hard-boiled eggs or any other creamed fish or meat mixture preferred, cover with butter crumbs and return to oven to complete cooking.

Cream of Cheese Soup.—Put one quart milk, one blade mace, one tablespoon grated onion and a bit of red pepper on to cook. Cream two tablespoons flour with two of butter, strain and keep hot in double boiler. Add one-half cup grated cheese and one teaspoon salt and heat until cheese is melted. Pour over two beaten yolks of eggs, stirring all the time. Serve at once in bouillon cups.

Left-Over Roast.—Line a deep baking dish with mashed potatoes, to which you have added a bit of cream, butter and seasoning. Now slice your beef into as many slices as you can get out, and add a bit of onion, butter, seasoning and a couple of ripe tomatoes, sliced thin. Add any gravy you may have left over, or dip each slice in flour before browning. Fill the dish half full of this mixture, then cover all over with a top layer of mashed potatoes. Put the whole thing into the oven and bake until brown.

Creamed Cabbage.—Spread one small head cabbage in kettle, with piece of butter or drippings size of egg and a little water enough to keep it from burning and simmer. Stir once in a while. Wet small tablespoon of flour in small bowl and when smooth stir in beaten egg and full bowl half full of cream and milk. Evaporated milk is good to use in place of cream. Mix well and add to hot cabbage, continue to stir until flour is well cooked. Add four or five tablespoons of vinegar, stirring to keep from curdling. Season with salt and pepper. This was mother's cabbage recipe. She was famous for it.

Cabbage With Lemon Sauce.—Cut one small cabbage into quarters, lay in cold water for thirty minutes, drain, cover with boiling water and boil forty-five minutes without cover. Lay in hollow serving dish and cover with sauce made as follows: One cup boiling water, two tablespoons butter, two tablespoons flour, one tablespoon lemon juice one teaspoon grated onions or a little grated nutmeg, one-half teaspoon salt, dash of white pepper. Rub flour and butter together, add to boiling water and boil three minutes. Add lemon juice or seasoning, boil two minutes, pour over cabbage and dust with paprika.

Creamed Frizzled Beef.—Shred one-half pound chipped beef with fork, and pour boiling water over it. Let stand a few minutes and drain. Put two tablespoons butter in pan, and when hot toss beef in it until it looks frizzled. Sift one tablespoon flour in gradually while beef is frizzling and add one cup, or as much more as liked, of liquid composed of equal parts of boiling water and evaporated milk. Cook for five minutes longer, and serve. Browning flour should be omitted if eggs are added. In that case, after frizzling beef, add liquid and thicken with one tablespoon flour made into paste with a little milk. Just before taking from fire, add beaten yolks of two eggs and dash of white pepper.

Useful Hints.

Carrots and peas are an excellent dish when mixed together.

The young, tender leaves of the cucumber are very good in a salad.

Spirits ammonia water is said to be excellent for removing iodine stain.

To clean white enameled woodwork use clear turpentine and a soft cloth.

Old nightdresses make excellent covers for dresses hanging in the closet.

The ground in which roses are planted should be fertile and well drained.

Potatoes are fattening, therefore, they are sometimes good diet for thin persons.

Pure alcohol is more desirable than gasoline for cleaning white kid articles.

Before peeling fruit, always pour boiling water over it and let it stand until cool.

Save time in washing spoons by keeping old teaspoons in the soda and baking powder can.

Water which potatoes have been boiled, is the best thing with which to sponge and revive a silk dress.

To clean coffee or tea pots boil a little borax solution in them twice a week for fifteen minutes and it will purify and sweeten them.

Needlework should be ironed on the wrong side in a piece of flannel, and should be kept long enough under the iron to thoroughly dry it.

To save your stockings, sew a piece of chamois leather on the inside of the heel of your shoes and by so doing delay the appearance of those dreaded holes.

If your alarm clock rings too loudly, slip an elastic band around the bell to diminish the noise. The wider the band you use, the greater the suppression.

An excellent substitute for a knife-board is made by folding a newspaper lengthways and sprinkling the bath-brick on as usual. Knives will have a better polish than when cleaned in the ordinary way.

To keep the bread jar and bread box sweet rinse, after washing, with boiling water in which a little common soda has been dissolved; then set them out of doors in the sun for a few hours.

Tumblers that have been used for milk should be filled first with cold water and rinsked; then use a little warm water. Putting the milky glass into hot water first has the effect of clouding it permanently.

When a velveteen dress is done with, the material is still valuable. It makes excellent polishing cloths for mahogany and other woods with a high finish and is good for use on silver and plated ware also. When soiled the velveteen may be cleaned by washing in soapy water.

When you want to make lemonade, hot or cold, try boiling the sugar and lemon juice together before adding the water. This will do away with the stirring difficulty, and the taste of the beverage will be improved. The same applies to any drink containing sugar.

If you include your cut glassware in the general spring housecleaning, here is a simple way to make it sparkle: Immerse the article in the dishpan, or sometimes large enough to accommodate it. Use a soft nail brush, so that there will be no crack or design left untouched. Warm water, white soap and a few drops of ammonia added to the rinsing water will do the rest. Try it.

SMOOTH TO GET BUTTER

Problem One of Hardest for Kaiser's Subjects in Berlin.

How to get a quarter of a pound of butter in a problem which every Berliner has had to study. Lack of butter has been one of the most difficult of the many problems with which the Berlineers have been confronted, says a despatch from The Hague.

A young lady who served in a butter shop was a power to be reckoned with. A customer would approach her with an ingratiating smile and greet her as "My dear Fraulein," or yet more softly as "Fraulеinchen," and then speak sweetly about the purchase of many things which were hardly wanted, then disappear, only to return the next day with a little present and more smiles and then at the critical moment:

"Can you please reserve for me a quarter of a pound of butter, my dear Fraulein?"

Young men declared that the only way to get butter was to be the sweetheart of a butter-Fraulein. It is even said that married women urged their husbands to the same plan for the same end.

Butter scarcity reigned in the German capital for three months. Lines of people stood for hours, often only to find the supply exhausted before their turn came. Confectioners who also dealt in butter would only sell to their regular clients.

But now this reign of terror is to end. Butter cards have come. The authorities are to try and provide a weekly ration for each person, while the public will be able to get without the sugar-saver: miles and expensive tricks of the past.

At a largely attended meeting in Glasgow a resolution was adopted demanding that the rents, rates, taxes and insurance premiums of all men serving or about to serve in the army should become a state charge during the war.

John Hays Hammond, Jr., Inventive Genius, and His Father.

A recent photograph of Mr. John Hays Hammond and his son, taken in the office of the elder Hammond. John Hays, Jr., has invented many wireless contrivances. He has invented a wireless torpedo that can be controlled by wireless from the coast fortifications. He has applied for more than one hundred patents covering the system in the United States and foreign countries. Hammond is only twenty-eight years old and has achieved a reputation in the inventive world. Mr. Hammond, sr., has had a long and varied career.

VERDUN FIGURES OFTEN IN HISTORY

HAS BEEN BESIEGED A GREAT MANY TIMES.

Became the Centre of a Vast Entrenched Camp After War of 1870.

A semi-official despatch dated Paris, April 16, reported that the German Emperor, addressing his soldiers besieging Verdun, said: "The war of 1870 was decided at Paris. The present war must end at Verdun."

Verdun has been compared to Friedland. Napoleon forced the Russian army to battle at Friedland in 1807, with its back to the river, with the object of occupying the bridges, which would thus cut off retreat. Mackensen would follow Napoleon's manoeuvre in 1807 by forcing the French army to fight, its back to the Meuse, while Mackensen, attacking from the north, east and south simultaneously, would occupy the bridges of Verdun.

The difference between Napoleon's manoeuvre and that of Mackensen is manifest. Ney took the bridges of Friedland, while the kronprinz has not taken the bridges of Verdun, nor is there probability that they can be taken.

Verdun was first mentioned in the "Itinerary of Antonius" (A.D. 320) under the name of Verodunum. After 1870, Verdun was created a first-class fortress, in the centre of a vast intrenched camp, destined to bar the Champagne road to an enemy coming from Metz. A line of intercepting forts connects the entrenchments of Verdun on the Meuse with Toul on the Moselle to the south-east.

It was at Verdun in 843 the sons of Louis the Pious signed the treaty of division of the Carolingian Empire. Louis of Bavaria took Germanie Charles le Chauve, France, and west of the Meuse, Lothaire, Italy and the Rhine. The latter finally was prey to German and French ambitions. Louis d'Outremer took Verdun, 970; Othon the Great recaptured it. Verdun was created the property of bishops in 1247.

From the fourteenth century French influences prevailed in the valleys of the Meuse and Moselle; the inhabitants of Verdun claimed the protection of Philip IV., "the Good," son of Philip III., King of France, and signed with him a treaty of protection and Philip IV. gave to Verdun a French governor 1310-1330.

Captured by French in 1551.

The annexation of Verdun to the royal domain was one of the consequences of the rivalry between Austria and France. Charles V. prepared to invade France in 1551, and imposed a garrison on Verdun. Henry II., King of France, captured Verdun, also Toul and Metz, and the treaty of Cateau-Cambresis (1559) confirmed the possession.

In view of the present conflict the treaty of Cateau-Cambresis is destined to be frequently mentioned, and its conditions should be clearly defined.

The treaty was signed the 2nd of April, 1559, between the plenipotentiaries of Henry II., King of France, on the one part; those of the Queen of England, Elizabeth, and Philip II., King of Spain, on the other. That peace put an end to the wars of Italy and to the first period of rivalry of the houses of France and of Austria. Of these conquests France retained only Metz, Toul and Verdun, with their territories, and Calais.

Verdun was besieged by the Prussians in 1792, and was defended by Nicolas Joseph Beaurepaire, lieutenant-colonel of volunteers of Mayenne and Loire. Although badly supported by an undisciplined and disaffected national guard, Beaurepaire resisted with energy the demand of the Duke of Brunswick to surrender. But during the bombardment the royalists caused a part of the population to revolt, and Beaurepaire, unable to continue his valiant defence, blew out his brains, and Verdun capitulated September 2, 1792.

Siege of 1870.

During the Franco-Prussian war Verdun was again besieged (October 12, 1870). Notwith-tanding the wretched conditions, the defence was maintained with energy, and surrendered only November 8, 1870.

This country of the Meuse department, formed by a part of the Champagne and the ancient duchy of Bar, has its prefecture at Bar-le-Duc, 254 kilometres, or 160 miles east of Paris.

The historic River Meuse rises in the department of the Haute-Marne, passes through France, Belgium and Holland, passes Verdun, Sedan Mezieres, Namur, Liege, Maastricht, Rotterdam, and falls into the sea; it is 578 miles in length.

The country presents another interesting side. M. Vidal de la Blache says on this head: "All the geographical vocabulary there is impregnated with those old Gallic names of waters and of summits, deue, nona, couse, dun." For example, south of Verdun there are Dieue, Somme-dieue, Nant-le-Grand, Nant-le-Petit, Nantois-dans-le-Barrois, Consance, Consance-aux-Bois, Dun-sur-Meuse; unknown or forgotten places until the war, but destined henceforth to publicity because they have become the stage of the drama which is still being enacted.

Dun is a Celtic suffix common to a number of ancient places; Loudun, Issoudun, Chateaudun, Sivardun. The Latins converted dun into dunum to indicate a fortified castle. Verdun in the time of the Gauls was then as now an obstacle in the way of an enemy approaching from the Woevre.

The new names of the "front" in the valley of the Meuse show, too, how great is the participation of the names of men in the designation of places—places destined to have a peculiar interest to those who will be attracted from afar to visit battlefields consecrated by the blood and heroic deeds of their soldiers.

Auguste-dunum was a fortress of August. Bezandun, Loudun, Verdun, Moudon, Lyon, Leon are names formed of dounos names associated with those of persons. Douros is the name of a fortress; Abalidouros, Ixernore, a fortress of Izarnos, Tonnere of Tenos, etc.

A great number of names of place names thus: "Bois-vert," "Bois-noir," "Bois-enharbe"—greenwood, blackwood, chopped wood, Bois-noir in the Roman epoch was called "Nigerlucus."

Indian "Moons."

Time is calculated among the American Indians by moons instead of months. January is called "the hard moon"; February, "the raccoon moon"; March, "sore-eye moon"; April, "the moon in which geese lay eggs"; May, "the planting moon"; June, "the moon when the strawberries are red"; July, "the moon when chokie cherries are ripe"; August, "the harvest moon"; September, "the moon when rice is laid up to dry"; October, "the rice-dying moon"; November, "the deer-killing moon"; and December, "the deer moon."

"BREATHE AND BE WELL."

There Is Health, Wealth and Wisdom in Proper Breathing.

What can you learn from the horse? William Lee Howard, M.D., says you can learn to be well, to be beautiful and to live to a ripe old age. In his book, "Breathe and Be Well," recently issued, he says he learned how to breathe through watching a horse. "The horse goes out into the open air from his stable and snorts. He does not take a deep breath after that, but continues to blow every particle of stable air out of his lungs. It is only after this is accomplished that he commences to take in air until his chest veins and arteries swell with every effort.

"Most of us are stabled animals and jump from our sleeping stalls to put on tight neckwear or confining waistbands before we have had a good snort in fresh air and a run around the paddock.

"If you will recall the lives of famous singers you will be surprised to notice how long lived they are and how full of energy and charm are those who have gained their throne store. One of the first things a singer has to learn is to breathe correctly.

"About one-third of lung capacity is untised by the average person. This third is the lower portion of the lungs where you get that stitch in the side. This comes when you attempt to run some distance. It is a good sign, because it means that you have opened up some new cells in the lung that have from long disuse stuck together.

"The woman who eats rich, nitrogenous food, is lightly laced and never more than half breathing, leaves a bit of unburned fuel in her system. When attacked by indigestion, and later on finds she has inelastic arteries—hardening of the arteries—she blames the food and starts dieting, the very worst thing she could do.

"What such a woman needs is freedom to breathe way down to the bottom of her abdomen, to allow oxygen to set fire to the waste material and release energy for abdominal muscles to work. Under these natural conditions she could eat anything within reason and preserve her figure. Fashion for women makes the superfluous necessary in clothes but it also causes a superfluity of flesh which is an abomination. To attempt to show how necessary it is to dress so as to breathe in such a manner as to keep thin is like trying to bore a hole in a cloud. Doctors, diet and distress are kept away by the woman who goes to the full her breathing apparatus.

"The exercise, the too lean, the sedentary and the physically active each needs different modes and methods of learning how to breathe properly. The girl who works in a shop, the woman in the factory, the woman of society all need to know how to utilize breathing. Nervous instability, the craving for drugs, or stimulants, inferior resistance to the germs, lassitude, headaches, sleeplessness, are many times due to wrong breathing habits.

"When Russia needed men of endurance it was the open-air breathing Cossacks she called to her aid. Wildness is only harmful when it is lawless and Governed wildness is power. You cannot get this wildness or vitality from vitiated air."

Dr. Howard's advice is to stretch slowly and completely before bounding out of bed, giving each muscle a complete limbering up, and when that is done thoroughly to go to the window and inspect the air out of your lungs. He says: "Now take a partial inhalation; hold it for twenty seconds. Blow outwardly! With head held up fill your lungs, then let them empty themselves slowly. Repeat this exercise fifteen or twenty times. Now take your cold plunge or shower.

"For your nightcap expel all the air possible from your lungs. Pay more attention to exhaling than inhaling. The latter movement will take care of itself.

"When you are in a crowded place breathe lightly; do not try any lung exhibition. Wait until you get out into the open."

WAR SCHOOLS NEAR FRONT.

Soldiers Instructed in Sniping, Trench Digging and Bombing.

The spectacle of officers and soldiers playing at war within gunshot of operations which form a part of the greatest conflict in history might seem to be an unusual sight, and yet this is actually taking place daily back of the British line, writes the Associated Press correspondent. One of these schools was for the training of snipers. At one point a line of trenches was laid out just as though for battle. At this school any new ideas pertaining to this method of warfare are experimented with, and each man learns numerous ways of protecting himself from the German fire. At another point a group of men were firing from behind sandbags at imaginary German loopholes a considerable distance away. When a man has perfected himself in the art of sniping he is sent along to the front line trenches, or wherever needed.

The second school was one for experimenting in the building of trenches. Trenches of all descriptions are carefully laid out, dugouts are built, and machine gun positions are constructed. Wire entanglements of different varieties also are experimented with.

Cost of British Pensions.

The British War Office estimates that the cost of pensions arising out of the war for 1918-19 will be $13,000,0000, and for 1919-17, assuming the war to last through the year, will be $50,000,000. In addition, there is a charge of nearly $25,000,000 for pre-war pensions.

Just Staying.

"Where are you living now, Podgers?"

"Nowhere. Boarding at the same old place."

THE SUNDAY SCHOOL

INTERNATIONAL LESSON MAY 14.

Lesson VII.—"Lo, We Turn To The Gentiles."—Acts 13. 13-52.

Golden Text—Acts 13. 47.

Verse 13. Paphus—On the west coast of Cyprus, where Paul's sensational confounding of the Jewish "Magian" had convinced the Roman proconsul. It was here, on his first definite entry on the Gentile mission, that the historian begins to use Saul's alternative name, always naturally applied to him outside the strict Jewish circle. It is noteworthy that the missionary group is now "Paul's party": he swiftly and naturally took the lead, which the gentle Barnabas never grudged him. Perga in Pamphylia—This province lies on the sea-board next to Cilicia on the west. Perga is on the river Cestrus, some seven miles from the mouth. John departed—His Jewish name is significantly used when he makes the great refusal and abandons the Gentile ministry. Long after, when he had repented and served in it for years, he is "Mark" again (2 Tim. 4 11; Philem. 24; Col. 4. 10). It is useless to speculate on Mark's reasons for running away from home enough to say that when the probable easy going nature would have given him a rude trial, Paul felt it would be disastrous, and preferred separating from Barnabas. An impulsive temperament like that of his master, Peter, enthusiastic and timorous by turns, explains it best: compare his own autobiographical reminiscence (as usually understood) in Mark 14. 51, 52.

14. Passing through—See note on travelled in the same way. Lesson Text Studies for May 7, verse 19. Antioch of Pisidia, like the greater Antioch in Syria, was built by Seleucus "the Conqueror" in memory of his father Antiochus, three and a half centuries before this time.

15. The rulers—The synod committee responsible for the upkeep of the building and the conduct of worship. Any rabbi or other person of distinction might be invited to preach. So Jesus taught in the synagogues continually. If Ye have—Literally, "if there is among you discourse of encouragement to the people, speak ye." The invitation gave free scope for any of them who had something of purpose to say.

42. They besought—The subject is quite indefinite and the Jews are presumably rebuked, as in the next verse.

44. Almost the whole city—A compliment hyperbole so far (instance Matt. 3. 5.

45. Jealousy—It is the same ruling passion that made the mission to the Gentiles the breaking-point in the Jews' attention to Paul's story in Acts 22. 22. The book of Jonah is the Old Testament condemnation of the national eagerness to monopolize their God and his gifts. Blasphemy—The word need not mean this—coarse abuse of the missionaries is quite as likely as the other meaning. It may, however, imply reviling Jesus.

46. Boldly—The verb is very characteristic of the first preachers, and their uncompromising declaration of central principles. First—As Jesus ordained (Acts 1. 8). Compare Rom. 2. 9. Judge yourselve—For Jesus declared (John 12. 48) that his word when rejected would judge men in the Last Day.

47. In Isa. 49. 6 the reference is to the "servant of Jehovah," the central conception of the prophet who wrote chapters. Starting from Israel as God's people, he rises to an ideal Israel, and ultimately assigns to this servant what even a Jeremiah could not accomplish, and only Jesus could fulfill. But even Jews who denied the fulfillment in Jesus could not deny that these words gave Israel a missionary destiny. A light of the Gentiles—Simeon caught up this thought, Luke 2. 32.

48. Ordained—By their own choice, if any passive sense is to be sought in the verb. There is no allusion to any "predestination."

50. Devout—That is, proselytes. They artfully achieved their purpose through the upper classes of the native population. That they had such a hold on them is very suggestive of the hunger for a new and pure faith in those days of dead religions. The ladies of the town had evidently been largely won by Jewish propaganda; and they in turn urged on their husbands.

51. Shook off—Compare Acts 18. 6 and Gospel passages. It seems to have been proved that the symbolism was not as usually understood: the dust which had been on the apostles' feet or dress was to be "for a witness" at the Last Day, when the angels would recognize it as evidence that the messengers of God had been there. It is told of a Saracen warrior that he asked that the dust of his clothes should be buried with him, to witness of the fields on which he had fought for Islam. Iconium, now called Konieh, is still a fair-sized town 18 was four or five days' journey southeast of Antioch.

A Marked Difference.

Teacher—Tommy, what is the difference between angling and fishing?

Tommy—Well, the rich man angles and the poor man fishes.

MORE WARSHIPS FOR BRITISH NAVY

FLEETS MUCH STRONGER THAN SIX MONTHS AGO.

Admiralty Debate Reveals the Addition of Several New Dreadnoughts.

The recent sharp debate in Parliament between the First Lord of the Admiralty, Mr. Balfour, and his predecessor in that position, Winston Churchill, as to whether capital ships were being hastened to completion with sufficient rapidity to meet the menace of the German building programme, was obscured by the necessary reserve in referring to the actual details of capital ships, so that few outside of the naval experts understood the bearings of the remarks of the remarks made by the Admiralty chiefs.

There is much information available, however, which explains the status of these big ships. This information is official and semi-official, open to the public, and therefore not within that cautionary reserve, as it was permitted to appear in Jayne's summary of the status of the navies of the world appearing last fall. This shows that the new capital ships, upon which the debate hinged, stood about like this:

The Queen Elizabeth headed a class of six dreadnoughts provided in the estimates of 1912, namely, Queen Elizabeth, Warspite, Valiant, Barham, Malaya and another unnamed. They were of 27,500 tons displacement, making them among the largest dreadnoughts afloat, with eight 15-inch guns, as against the guns previously used; 12 to 16 six-inch guns, 12 anti-aerial guns, and four submerged 21-inch torpedo tubes. The Queen Elizabeth, standing as the head of the six monster ships, became the representative of a type, and the Queen Elizabeth class is now a familiar reference to ships of this new and formidable character.

The Queen Elizabeth

and her sister ships were duly completed, the first two, Queen Elizabeth and Warspite, being finished in October, 1914, and the Valiant, Barham and Malaya in 1915. The Queen Elizabeth has been heard from during the Dardanelles operations. Beyond this, however, little is known, and there is rarely a reference to these formidable ships, although it is officially definite they were completed at the times stated and must now be somewhere afloat with their formidable 15-inch batteries. These ships were not primarily the ones under discussion in the recent debate, as they were completed, but the Queen Elizabeth was referred to as the type of later ships around which the debate really centred.

Two more capital ships of the Queen Elizabeth class were provided in the 1914 estimates, namely, the Agincourt and the Renown; and two more of the Royal Sovereign class, with slightly less tonnage, namely, the Repulse and the Resistance. The first two were to be 27,500 tons, the others of 25,750 tons. All were to have 15-inch main batteries, with 12 to 16.6-inch guns, anti-aerial guns, etc. The Agincourt was to be built at Portsmouth, the Renown at Fairfield, the Repulse at the Palmer yard, and the Resistance at Devonport. These were part of the ships under discussion in the debate. Except for the foregoing known information as to their authorization, size, power, etc., nothing more is known of them, officially or otherwise, and quite properly as a matter of necessary reserve. All that is known is that the Agincourt and her big sister ships were provided for, but no further reference has ever been made to them.

Five More Big Dreadnoughts

were provided for in 1914, namely, the Royal Sovereign, Royal Oak, Resolution, Ramilies and Revenge. These have since become known as the "Royal Sovereign class." The capital ships were to be of 25,750 tons, with eight or ten 15-inch guns and 12 six-inch. The first two, the Royal Sovereign and the Royal Oak, were actually completed, the first at Portsmouth in December, 1915, and the Royal Oak at Devonport at the same time. The Resolution, Ramille and Revenge were, according to the last information permitted in Jayne's summary, building at the Palmer, Beardmore and Vicker yards, and to be completed in 1916. Beyond this nothing is known of the ships of this class, except that the Royal Sovereign and Royal Oak were completed and are now afloat somewhere with their 15-inch guns.

The foregoing are the ships around which the recent debate centred, and on the details of which ships there is complete silence except on the known facts before given. The rare references to the ships of the grand fleet usually mention ships of an earlier date, such as the Lion, completed in 1910; the Royal Princess, in 1911; the Queen Mary, in 1913; and the Tiger and Iron Duke, in 1914. Admiral Sir John Jellico, in command of the fleet, dated a recent letter to the Times from on board the Iron Duke, and this and the Lion and Tiger are frequently referred to. But it is over the later ships of the Agincourt, Queen Elizabeth and Royal Sovereign class that the veil of complete silence in drawn, except for the foregoing known details.

Without asking details on the progress or completion of the foregoing ships, Mr. Balfour in his recent speech declared generally that "the fleets are much stronger than they were 12 months ago, and their excess over what we possessed 12 months ago is still greater."

A BRILLIANT EXPLOIT.

How a Small British Vessel Captured a Spanish Frigate.

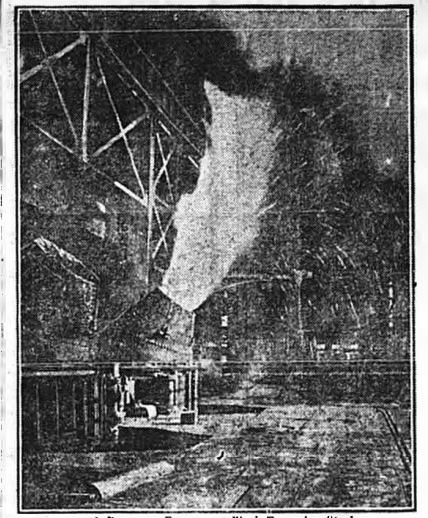
A recent writer, Mr. J. J. Edgar, has retold the almost incredible exploits of the Speedy, the first command of young Lieutenant Cochrane, afterward Admiral Lord Dundonald, inventor, fighter and strategist. The little vessel was absurdly small and ill-equipped; an over-manned and under-armed craft of 158 tons, carrying ninety men and fourteen four-pounders. Nevertheless, she soon became troublesome to the enemy that a Spanish frigate was especially dispatched to hunt her down. But young Cochrane, foreseeing trouble, had purposely shipped a Danish quartermaster; and instead of avoiding his formidable foe, he dressed the Dane in his own uniform, disguised the Speedy, with the aid of paint and canvas, as a Danish brig, and ran up the quarantine flag. A few questions were asked, to which an unmistakably genuine Dane, apparently the captain, replied; and the hoodwinked enemy continued peacefully on her course.

Some months later, however, they met again, and an encounter could not be avoided. The action that followed was unique in naval history. The Speedy made no effort to escape. Instead, she boldly attacked. She had at the time only fifty-four men, and her scant crew and fourteen four-pounders were opposed to the thirty-two heavy guns and 319 men of her six-hundred-ton opponent the frigate El Gamo. Coming swiftly to close quarters she ran in under the frigate's broadside which hurtled harmlessly above her, while every shot from her own guns told. A moment later the vessels touched, and Cochrane, at the head of his crew, actually boarded and carried the frigate, which struck her flag after the first rush.

Between these two exploits the Speedy visited Valetta and Cochrane enjoyed a little adventure ashore. A fancy-dress subscription ball was being given, under the patronage of French Royalist officers, and this he attended, selecting for his costume the ordinary dress of a British common sailor. A Frenchman, mistaking him for a genuine jack-tar of dubious sobriety who was intruding among his betters, ordered him out. He refused to go. The Frenchman collared him; he knocked the Frenchman down, and the next day they fought a duel on the sands. Cochrane received a ball through the trousers and the Frenchman one through the leg after which they parted gayly with expressions of mutual esteem.

The Speedy's career ended at last in capture; but although she surrendered to one vessel, the French battleship Desaix, she had been gallantly fighting against several at once. The chivalrous French captain declined to accept Cochrane's sword, saying he could not deprive of his sword an officer who had so many hours struggled against impossibilities."

The Pallas Cochrane's first really adequate ship, did not achieve so many near-impossibilities as the little Speedy; but her return to Plymouth after her first cruise was marked by a uniquely brilliant touch. She had taken rich prizes. Among the booty were some wonderful great golden candlesticks from Mexico. They were of superb size and workmanship, and designed for ecclesiastical use; but Cochrane found them equally adapted to enhance a naval triumph. When, at sound of the signal gun, the inhabitants of Plymouth flocked to the wharves, to behold the Pallas sweep nobly to her anchorage, they were dazzled and amazed to see her tall masts aglitter in the sunshine as if tipped with living flame. To each mast proudly affixed a five-foot candlestick!



THIS MAN WANTS QUIET

Copy of a Letter Sent to Railroad Officials.

Anybody who lives in the vicinity of a noisy railway yard might try writing to the officials of the road a copy of this letter, sent to officials of a Dallas (Texas) railroad office, signed "Unfortunates Why Try to Live and Work and Sleep in the Vicinity":

"Gentlemen,—Is it absolutely necessary, in the discharge of his duty day and night, that the engineer of your yard engine should make it ding dong and fizz and spit and clang and bang and bus and hiss and bellow and howl and grate and grind and puff and bump and click and clank and chug and moan and hoot and toot and crash and grunt and gnap and groan and whistle and wheeze and squawk and blow and jar and perk and rasp and jangle and ring and clatter and yelp and crank and howl and hum and snarl and puff and growl and thump and boom and clash and jolt and jostle and shake and screech and snort and snarl and scrape and throb and crink and jingle and quiver and rumble and roar and rattle and yell and smoke and smell and shriek like ——?"

Of course, the officials make reply: "It is."

A Bessemer Furnace at Work Preparing Steel.

The war is being fought in the steel foundries and armament factories as much as on the field of battle. More than any other war has ever been, and on a far vaster scale, it is pre-eminently a struggle of guns and munitions. Our photograph shows one of the earlier stages in the making of cannon—a Bessemer furnace at work preparing steel. The Bessemer process, so named from its inventor, the late Sir Henry Bessemer, consists in the conversion of cast iron to steel by oxidizing the carbon by means of a current of air blown through the iron while molten. The air oxidizes the carbon to carbonic oxide and carbon monoxide, and as the same time maintains the iron at a suitable high temperature by this oxidation, until practically the whole of the carbon is removed. The pear-shaped vessel used in this converting cast iron to steel is known as a Bessemer Converter. Some of these vessels are seen in the photograph here reproduced, one being in operation.

PROJECTILES FOR VERDUN.

The French Have a Splendid Transportation System.

Never in the history of the world were so many combatants, such a large number of horses and so great a quantity of guns massed in such a small space, declared the French critic, Polybe, discussing in the Paris Figaro one phase of the battle of Verdun. Food and projectiles are being sent into this narrow lozenge shaped area in quantities heretofore undreamed of, even in this war.

Night and day automobiles are moving along all the roads converging on Verdun taking food to the men at the front, fodder for the horses, and above all supplies of projectiles for the greedy mouths of the cannon. The big automobile transports follow each other at regular intervals with their heavy loads and two drivers each. One of these does not sleep while his comrade watches. Thus they pass hour after hour without interruption, making such a noise that it drowns the sound of the bombardments. At night the rear of each truck is lighted by the lanterns of the one following. Under the clear sky of spring-time, sprinkled with stars, they look like an immense dragon moving along the slopes of the hills.

Naturally the passage of such heavy weights along the roads soon wear them into ruts and make them impassable were it not that the engineers of the territorial reserve always are on hand to repair the roads as fast as they threaten to deteriorate.

This wonderful trucking system has shown itself to be more flexible than the railroad, more elastic, slower but surer, and therefore more regular in discharging its abundance at the front. The system has excited the admiration of every one who has learned of it. First it was necessary to arrange all the details in advance; then to requisition, buy and bring together these innumerable automobile trucks; then to recruit their drivers, to assemble at the starting points the bread, meat, wine, projectiles and medical supplies, to load them and finally to regulate their march until it now goes on like clockwork all through the day and night.

Against all this concentration of force the waves of the German armies are breaking in vain. Professor van Hammel, editor of the Dutch weekly newspaper, De Amsterdammer, in this connection recalls the conversation of a young officer, back from the German victories in Russia last summer, who said to a major on the General Staff:—

"Now, all we have to do is to march West to break the front on that side."

To which his superior replied, shaking his head:—

"My dear comrade, you are young. On the West nobody will break through, our enemies no more than ourselves. To succeed 800,000 men would have to be sacrificed, and there is not a general who would dare attempt it."

SCIENTIFIC RESEARCH.

Lord Shaughnessy Thinks Canada Has Many Natural Resources.

The time has come, in the opinion of Lord Shaughnessy, when a Canada-wide organization should be formed for the scientific research of this country's vast mineral, metal, hydro-electric and chemical resources, which will result in the practical application in industry of many minerals heretofore neglected or exported for manufacture to other countries, of by-products in existing industries and for other natural resources which were neglected or insufficiently exploited, the waste of straw, for instance, in Canada's wheat fields, of flax fibre, of lumber, seventy-five per cent. of the product of which has been wasted in the forest or at the mill, while in tungsten, molybdenite, graphite, oil, shale, mica, manganese, magnetite, talc, felspar, and other minerals there is a field for the profitable investment of much larger capital than at present.

The Canadian Pacific Railway Company has technical schools attached to its shops, and at Trail, B.C., the company has a great chemical and metallurgical laboratory and hydro-electric equipment equal to anything on the continent. These are, however, local activities. The railway now plans to secure the mobilization of the ablest and most scientific brains of this continent and to associate them with a central organization to direct the activities of all the scientists and experts engaged in research work in all parts of the country. The discoveries and information gleaned by the central organization, while supplied for the special information of the Canadian Pacific, will be disseminated from time to time by bulletins which should be of great value to merchants and manufacturers as well as to students and pros-pectors.

To carry out these views, arrangements have been made with Arthur D. Little, of Boston, for the establishment of a central organization at Montreal for research work. Mr. Little has been president of the American Chemical Society, and is a member of the Institute of Chemical Engineers, and a director of the Chemical and Engineer department of Technology. Indeed, Mr. Little's fame as a chemist and a chemical engineer is world wide, and as an organizer and investigator he has no superior. His activities have extended to every branch of industrial and chemical work, having seventy practical chemists associated with him. Lord Shaughnessy is confident that Mr. Little will build up an organization in Canada which will confer immense benefits on the Dominion.—Wall Street Journal.

OPEN WHITE TOWER.

Public Will be Permitted to Visit Ancient Vaults.

The White Tower, or Keep, of the Tower of London, said to be the oldest, largest, and most interesting part of the whole fortress, will shortly be opened to the public to its uttermost depths. This is in accordance with the policy initiated by the authorities over a year ago, when the Bloody Tower was opened for inspection. Now the vaults and main floor of the White Tower have been cleared of the refuse of centuries, and a new field of exploration will be open for the student of antiquities.

It was during the reign of William the Conqueror that the White Tower was built, though legend has erroneously connected its erection with Julius Cæsar. In the basement it is said that a well, probably of Roman construction, was discovered a few years ago, and it is quite likely that the present building stands upon the site of an earlier Roman one. Although it looks loftier, the White Tower is only ninety feet high. It is very strongly built, its walls being from eleven feet to fifteen feet in thickness. It got its name through being so frequently whitewashed.

The Tower has been restored several times in its history, but the greatest alteration to it appears to have been made by Sir Christopher Wren, who, in his work of restoration, modernized nearly all of the windows. It is built in four storeys, including the vaults, and each floor is divided into three main rooms. The lowest, which is slightly below the level of the ground, is the basement or vaults, the next above is the main or reception floor, the next is the banqueting floor, then comes the State or Royal apartments. The vaults were originally in total darkness, but they have been lighted in recent years by windows

A WILD ELEPHANT.

The Monster Nearly Wrecked a Small Steam Launch.

The strongest opponents to the advance of civilisation in west Central Africa, says Bishop Lambuth, the Methodist missionary, are the wild elephants. They break down fences, trample gardens, pull up trees and even telegraph poles, for no other apparent reason than because they object to anything in their familiar haunts. One savage monster nearly wrecked a small steam launch belonging to the mission on the upper reaches of the Congo.

The boat, with three white men, including the bishop, and a crew of five negroes, had tied up on the edge of a deep forest in a quiet bend of the river. A stout plank was laid as gangway from the bow to the bank, and the crew worked until nightfall cutting and piling firewood for the boat's furnace; then they came on deck for their evening meal. The three white men were already at dinner, when a fearful yell from the natives brought them out of the cabin to see a large elephant viciously attacking the woodpile. The blacks shouted and threw missiles, and two of the more venturesome even went ashore with firebrands snatched out of the cookstove to drive the monster away. But he paid no attention to them until he had demolished the woodpile, when he whipped one man with his trunk heels over head into the river, and chased the other back into the boat.

Thundering after, with red gullet open, tusks flashing and trunk flailing the air, he planted both tremendous forefeet on the gangplank. It bent until cracked under his weight, but held stoutly, although the whole boat careened, and seemed ready to capsize.

In another moment the elephant had crossed the plank, and was astride it with hindfeet on the shore and forefeet on the boat. There he stood, afraid to advance or retreat, a gigantic image of baffled rage. In his fury he began stamping with those great forefeet, and the boat rocked crazily back and forth.

What might have happened if the monster had come aboard with all his frenzied weight can only be imagined; for the captain by this time had fetched the only rifle on board and, risking all on one shot, had thrust the muzzle almost into the gaping mouth and pulled the trigger.

Fortunately, the bullet lodged in the base of the brain. The elephant tumbled to his knees and into the water near the bank, his bulk thrusting the boat aside so suddenly that it snapped the bowlines and sent the men tagging to the catwalk.

At the next government trading post the captain had two splendid tusks to show as the result of his cool daring; but to his astonishment, he was arrested for shooting the elephant without a license. It was with great difficulty that the government official was convinced that the animal had been shot in self-defence. Even then he confiscated the ivory.

MORE DRUGS USED IN PARIS.

Deputy Declares Opium Dens Have Grown to 1,2000.

The war has incidentally revealed the existence in Paris of opium smokers, cantonniaetr ofaHCC smokers, cocaine and morphine users, which was unsuspected before. Chas. Bernard, deputy for the district of Montmartre, where he is a druggist, estimates the number of opium dens in existence at 1,200.

"Even the flower girl in the street," M. Bernard says, "have been drawn into the traffic in stupefacients. Recently a girl in short skirts and with a vicious expression offered a bouquet of violets to a passerby. The man wanted no violets, but the girl's expression excited his pity, and he tossed her two sous. 'But it's 20 francs,' she said softly. Then, approaching near enough to whisper, she added, 'there's some "Coco" inside.'

"Coco" is the familiar term used in the quarter for cocaine, of which there was a little paper concealed in the heart of the bouquet. There are other quarters of Paris also where the same practice has taken root."

The Chamber of Deputies has voted a law raising the maximum penalty for illicit traffics in opium and kindred drugs from 3,000 francs to 10,000 francs fine and from two months to two years' imprisonment.

ASKS THIEF TO FIGHT.

British Farmer Challenges Robber Who Stole His Suet.

One of the most curious offers ever made to an unknown thief was that once made by a Monmouth hire (England) farmer. He had occasion to slaughter a cow, and the carcass was placed in an outhouse. Next morning it was found to have been denuded of every particle of suet, whereupon the farmer issued the following notice:

"If the person or persons that robbed my cow of the suet are really in want, I will give them a stone of flour to make dumplings with. Should it be that they are not in want and the thief is a man and will come forward, I will fight him in fair open battle; if he beats me, I will give him 5 shillings and let him keep the suet."

The delinquent did not accept the challenge, as the farmer's fisticuff ability was well known.

WEAR FLEET FOOT SHOES for every SPORT and RECREATION

THE "WHITE LADY" OF HOHENZOLLERN

STORY OF BERTHA, THE WOMAN THE KAISER FEARS.

Credited to Have Appeared Before Many Sovereigns Passed Away.

Kaiser Wilhelm may fear no man on earth, but at the very mention of one woman's name it is said his cheeks blanch.

In fact, there has been no Hohenzollern for many a century past who has not held this formidable female in dread. Even Frederick the Great, fearless man as he was, would never allow her name to be mentioned in his presence; while his neurotic nephew, Frederick William II., once fell in a dead faint when he was told that she had been seen in a corridor of his Berlin palace.

And, indeed, the Hohenzollerns have good cause for their fear; for whenever "Bertha," known as the "White Lady," has been seen she has always been the harbinger of death or some great calamity to their house.

The evening before William I. drew his last breath, and the very night on which his son, Frederick III., died in agony, she was seen by more than one, wandering through the rooms of the palace in which they were lying.

Clothed in White.

On the latter occasion it is said the intruder, challenged by a sentry, walked up to him with such fierce eyes and such a menacing aspect that he uttered a piercing shriek and fell unconscious.

Those who have looked on this apparition that haunts the Hohenzollerns describe her as an old woman, clothed from head to foot in white, with black eyes blazing from a deeply-furrowed, corpse-like face, and carrying a broom—a circumstance from which the irreverent and sceptical have dubbed her the "Sweeper."

But the Hohenzollerns have no monopoly of White Ladies in Germany. A similar phantom haunts the palace of Hesse-Darmenstadt—indeed, it was from the legend of this palace that Wagner borrowed the subject of his Lohengrin; the Grand Dukes of Baden are haunted by a third; and there are few ancient castles in the whole of Germany which are not the haunts of other varieties of this spectral woman, mostly bent old crones, carrying a heavy, tapping walking stick, which heralds their approach.

Ghost Foretold a Shipwreck.

But the most attractive—or the least unattractive—of them all is the White Lady who, for centuries, has foreshadowed calamity to the Hapsburgs—"a pale young woman," she is described, "marvellously beautiful, with a long, flowing white veil."

She was seen by many in the Castle of Schonbrunn the night before Maximilian, Austrian Archduke, came to his tragic end in Mexico; and in 1889, immediately before Crown Prince Rudolph died so terribly and mysteriously in the Mayerling hunting lodge.

She was the herald of the shipwreck which closed the romantic career of the Archduke Johann ("John Orth"), and at the very time a cowardly assassin struck the Empress Elizabeth her death-blow in Switzerland, a sentry on guard in the Schonbrunn Castle saw the same spectral White Lady slowly walking in the room where he was stationed.

WAITED ENTIRELY TOO LONG.

Man Gets Black Eye for Delaying Professions of Love.

The poor, weeping woman stood before the judge, and the sympathies of the spectators went out to her. She looked muscular, but so miserable, says Answers, London.

"You are charged," said the magistrate, sternly but kindly, "with assaulting your husband."

Gulping down her sobs, the prisoner wiped away her tears with a brawny hand and replied sadly:

"Yes, your worship. I only asked the brute if he would ever cease to love me, and he was so long in answering that I hit him in the eye with a broom. I'm only a defenceless woman," she went on in broken voice "and a woman's life without love is a mere blight."

The Paisley Advocate

PAISLEY, MAY 10 h, 1916

LOCAL AND DISTRICT NEWS

Overland Agency

Mr Geo Gilchrist, of Greenock, has the agency for the famous Overland cars, and his adv. will be found in this and following issues of THE ADVOCATE. He has already disposed of three cars, the purchasers being Senator Donnelly, Mr And Cormack, and Mr Jas Thompson (2nd Bruce). Mr Gilchrist was in Toronto for a few days on business with the Willys-Overland Co.

Scott Act in Perth Co.

On May 1st the Scott Act went into force in the County of Perth, except in the city of Stratford, where the bars will continue to flourish until provincial prohibition comes into force on Sept. 16th. The Scott Act puts twenty-eight hotel bars and three shop licenses out of business in the county. Some of the towns in Perth, notably Listowel, have been distributing points from which a lot of liquor flowed into adjacent local option territory.

A Soldier in Earnest

Pte. Archie McNeil, who went to the front with the First Canadian Contingent, writing recently to his aunt, Mrs. Wm Dryden, says: "I don't see how any fellow can live around there now who has not enlisted. We were told that we might take out commissions, after having over a year's service in France, but I think I'll stay as I am. I don't think my nerve is quite good enough for a commission. It takes a good man to make a good officer, and a poor one is worse than useless."

Fifteen Creeds Represented

The age, occupation, and religious denomination to which every private of the 160th Bruce Battalion belongs was given in the special edition of the Walkerton Telescope. Private Henderson Cole went to the trouble of enumerating the members or adherents of the different churches who responded to the call and this is the result: Presbyterians 454, Methodists 345, Anglicans 103, Roman Catholics 91, Baptist 72, no church preference 14, Evangelists 8, Latter Day Saints 7, Salvation Army 7, Lutherans 3, Mennonites 3, Congregationalists 2, Protestant 1, Dutch Reformed 1, United Brethren 1.—Enterprise.

Tom Babcock Killed in Action

Just as we are preparing to go to press on Wednesday morning, news comes that Pte. Thos. Babcock has lost his life on the battle-field in France. The official intimation by wire was addressed to Mrs. Thos. McGregor, of 6th Bruce, a sister of the deceased soldier, and states that he was reported killed on Ap. 28th.

A Ticket Tax

On May 15th the provincial regulations for a tax on patrons of amusement places comes into force. A tax of one cent is imposed on those paying not more than ten cents for admission, two cents for admission over ten cents and under fifty cents. This does not apply to entertainments of a religious or semi-religious nature, conducted by any religious body or denomination, agricultural fairs or exhibitions, or any entertainment where the entire proceeds are devoted to charitable uses. The tax must be paid when entering the concert hall or place of amusement. The special tickets are procured from the Treasury Department of Ontario, and are destroyed by an automatic chopper, so that they cannot be used more than once.

Drowned in the Saugeen

Mrs. Chas. Oppertshauser, of Hanover, was drowned in the Saugeen river at Crispin's bridge, about a mile from that town on Friday week. The deceased lady had gone to the river accompanied by her two-year-old baby daughter and a maid. The latter was sitting near the roadway when she heard a scream, and running to the river bank saw Mrs. Oppertshauser struggling in the water, which at that point is about twelve feet deep, and running very swift. Not being able to swim, the maid realized that she could do nothing to save the drowning woman, so she took up the baby and ran to the nearest house and gave the alarm. Four men were soon on the spot, making efforts to recover the body, but it was in vain, as it has not yet been recovered, although the river has been dragged for several hundred yards and dynamite been used. The husband of deceased is employed in Knechtel's factory. The deceased was 35 years of age, and leaves two children. A reward is now offered for the recovery of the body.

County Patriotic League

Judge Klein, President of Bruce War Auxiliary, points out in a circular letter that after the 160th Batt. is mobilized there will be nothing further for the War Auxiliary to do, and proposes that a Patriotic League be organized for the county to take up work such as the following: 1 Arrange for employment of soldiers who return; 2 Encourage admission of disabled war heroes of Bruce; 3 To induce retired farmers to return to the land 4 To assist in future recruiting when necessary; 5 Assist and encourage immigration to the county; 6 To instil patriotism in the rising generation; 7 To boost the County of Bruce in general. The proposition is a good one, and we have no doubt if the people fall in with the idea much effective work can be accomplished through such an organization.

W. M. S. Entertainment

The ladies of the Methodist church W. M.S. held a very successful social evening at the home of Mr. and Mrs Jas. B. Fleming on Friday evening. The musical programme included solos by Misses Arietta Johnston and Edna Carter, violin duett by Miss Nettie Trafford and Mr I Logie, piano duett by Mrs Fleming and Miss C Carter, song by Bandsman L R Putnam. Miss B Miller gave a recitation. There was also a debate, the topic of which was, "Resolved, that Fashions are a greater curse to humanity than the love of Money." The affirmative side of the question was so convincingly presented by three ladies, Mrs A Pearce, Mrs (Rev) Pacey and Mrs H B Puntam that the decision of the judges was in their favor. The negative debaters were Messrs W R Barnett, J B Fleming and Dr Gage.

Engine Through Bridge

Mr Herman Boettger, of Paisley, had a thrilling experience on Monday, when the engine of his well drilling outfit broke through a small wooden bridge and stopped into the bottom of a creek on the 20th side line of Bruce between the 8th and 10th conc. Mr Boettger was at the throttle himself, standing on the engine platform when the accident happened, but was lucky enough to come out of the mess without a scratch. The creek bottom is about ten feet below the floor of the bridge, and the engine was partly overturned in about four feet of water. The water tank wagon was hitched to the back of the engine, and was almost upended but did not go down altogether. There will be considerable difficulty in extricating the outfit from its position, and the extent of the damage will not be known until it is out of the water. The Township Council met at the bridge on Tuesday and viewed the wreck.

FRANK YEIGH, Lecturer, who gives the illustrated talk on "King, Country and Empire," in Town Hall, Paisley, Monday, May 15th.

Death of Hugh McKay

The fast depleting ranks of the pioneers of Elderslie Tp. suffered another loss by the death of Mr. Hugh McKay, of Salem, who passed away on Friday last at the patriarchal age of 90 years. The late Mr. McKay was a native of Islay, Argyleshire, Scotland, and came to this country in the summer of 1848, he being then 22 years of age. After remaining some time in Toronto, he came with relatives to Glenelg Tp., near Durham, where they took up a homestead. Some time later he went to work in Collingwood and Owen Sound. Then he secured a position as head teamster with an American contractor who was building the docks at Southampton and Port Elgin. In 1858 he purchased lot 14, con. 12, Elderslie, giving $500 for Mr. McGillivray's claim, although the farm was still in virgin forest. Having been married two years before to Miss Agnes Simpson, of Southampton, they moved from Port Elgin to this homestead, and there they lived until about 1905, and then gave up farming to live retired in Paisley. Mrs. McKay died eight years ago, and five years ago Mr. McKay went to make his home with his son, ex-reeve Geo. McKay, where he remained until his death. The funeral on Sunday afternoon was very largely attended, the services being conducted by Rev. A. G. Howat. The remains were laid to rest in the family plot in Salem cemetery. The family of deceased consisted of five sons and three daughters, of whom four sons survive—Gilbert and Hugh, in Victoria, B.C.; George and Neil, in Elderslie. Two brothers and two sisters are also living—Gilbert, in New Zealand; Donald, Margaret and Katie, in Belmore, Scotland. Mr. McKay was a staunch Presbyterian and Liberal. He was one of the typical sturdy, honest and industrious pioneers who did so much for Bruce when there was a lot to do, and whose example is an inspiration to the present generation of men to face their greatest duty for home and country.

The Late John Brockie

Another of the few remaining pioneers of the Aberdonian settlement in Greenock Gore was gathered to his fathers on April 25th, when Mr. John Brockie passed away at Fergus. Mr. Brockie was born in Aberdeenshire, Scotland, in 1830. Soon after his father and family came to this country and settled on a bush farm near Fergus, where John grew to manhood. In 1854, along with his brothers William and George, also a number of others from the same locality, the deceased came to Greenock Tp. and settled on lots 30 and 31, B line. With the exception of a few years spent in Paisley, Mr. Brockie lived on his farm until the fall of 1914, when, on account of failing health, he sold out and went to live in Fergus. He had reached the ripe old age of 85 years. Mr. Brockie was a man of sterling character, shrewd and energetic. He made a success of his life as a farmer and took great pride in his farm and his fine stock. He was a genial and well informed man, a kind neighbor and a friend whom it was a pleasure to meet. He married a daughter of the late Alexander Lillie, of Fergus, who survives him. Two brothers are living, Archie, of Vancouver, and James, of Baltimore, Md. Among those who attended the funeral were the following from Paisley neighborhood: Mr. and Mrs. Wm. Edgenno, Wm. Dryden, Wm. Lamb, John Alexander, of Greenock; Peter Smart, of Brant; and P. E. Sheppard of Brantford, the last four mentioned acting as pall bearers.

A Gift for the School

The chairman of the School Board has received from a former principal the following letter, which is of such interest to all in the school section that we publish it in full, feeling assured that its purport and sentiment will be fully appreciated:

455 Hunter St.,
Peterboro, May 6, 1916

DEAR MR. MCKENZIE—

I am sending to you, in the course of a few days, a picture of General Wolfe to hang in your new public school. It is a good reproduction of the best painting we have of Wolfe. As it is to him that the Empire is indebted for Canada, it is fitting that his face should become familiar to young Canadians.

Some of my most satisfactory work as a teacher was done during my six years' principalship of the Paisley school, and I am proud of the success in life that has attended so many of the boys and girls who attended the school during that period.

In common with the people of Paisley, I deplore the loss of the late George Bell, one of our most promising teachers. I was intimately associated with him for sixteen years as his teacher, Model School principal and Inspector, and had many opportunities of proving his worth.

I congratulate the Board upon the public spirit shown by it and by the public generally in maintaining the efficiency of the school for so many years.

I am,
Yours respectfully,
W. I. CHISHOLM

Soldiers' and Old Boys' Re-union after the War

Judge Klein made a happy suggestion at a recent soldiers' banquet in Port Elgin, says the Times. He says that by the 1st of July, 1917, the war should be over, the 160th Battalion would be back. On the 1st of July, 1917, Bruce county celebrates its jubilee, having on that date been fifty years a county. The judge suggests that on that day a big re-union be held when all the old boys and girls, then living in other parts, be asked to make a trip to the old county, and along with the soldiers, have a big celebration.

HOW LONG WILL THE WAR LAST?

The War Against Health Is Quickly Ended By "Fruit-a-tives"

MRS. DEWOLFE

East Ship Harbour, N.S.

"It is with great pleasure that I write to tell you of the wonderful benefit I have received from taking 'Fruit-a-tives'. For years I was a dreadful sufferer from *Constipation and Headaches*, and I was miserable in every way. Nothing in this way of medicines seemed to help me. Then I finally tried 'Fruit-a-tives' and the effect was splendid. After taking one box, *I feel like a new person* as I am deeply thankful to have relief from those sickening Headaches".

Mrs. MARTHA DEWOLFE.

"FRUIT-A-TIVES", the medicine made from fruit juices, has relieved more sufferers from *Headaches, Constipation, Stomach, Liver, Kidney and Skin Troubles than any other medicine.*

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

"HAD ALMOST GIVEN UP."

Sarnia, Ont.—"About 27 years ago I was taken very bad, my blood, too, was in bad shape. I got so I had to go to bed and I was there for over three months. I could not eat and suffered untold agony. I had three of the best doctors I could get but it just seemed nothing was going to help me. I had almost given up. I thought I would never be any better and was willing to give up and die rather than suffer as I was. A neighbor of mine told me of Dr. Pierce's wonderful remedies and I decided to use them. My husband bought me six bottles of 'Favorite Prescription.' I had not taken it long until I felt better. In less than six weeks I was out of bed, and in less than six months I was cured and have been well ever since. Do all my own work. I have raised three daughters, two are married and have children. They have used it and they are healthy, as are their children. I am sure it was all on account of my having them use the medicine.

"I keep all of Dr. Pierce's medicines in the house. Have 'Favorite Prescription,' 'Golden Medical Discovery' and 'Smart-Weed'—anything prepared by Dr. Pierce is good. I also have a copy of the People's Common Sense Medical Adviser, which I have had 26 years; it has been very valuable to me."—MRS. J. WAY, 232 Ontario St., Sarnia, Ont.

If you are a sufferer, if your daughter, mother, sister need help, get Dr. Pierce's Favorite Prescription in liquid or tablet form from any medicine dealer to-day. Then address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., and get confidential medical advice entirely free.

A most valuable book in any home is Dr. Pierce's Common Sense Medical Adviser. A splendid 1008-page volume, with engravings and colored plates. A copy will be sent to anyone sending fifty cents in stamps, to pay the cost of wrapping and mailing only, to Dr. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up nearly 50 years ago.

A Canadian Commander's View of the War

Brigadier General Currie, commander of the First Canadian Division, who has won the Victoria Cross as well as the Legion of Honor for his services at the front, expresses the following sentiments in a letter to an old friend and school mate in Ontario: "I am not going to tell you anything about the war. One thinks of it 23 hours out of every 24. I have no idea when, where or under what circumstances it is going to end. All I do know is this, we are going to win. We must bring Germany to her knees. We must punish her until she howls for mercy, and I don't think I would stop then. I want to see them suffer what the people of this country have suffered. In destroying German power I am proud of the part our beloved Canada is playing. No troops in the allied armies stand higher than the Canadians, none more self-reliant, none more efficient. Hardships are cheerfully borne, death is met with a smile, and I often thank God that I have been privileged to serve with these heroes. I hope you will remember us in your daily prayers. If we don't get back to Canada we will have no regrets. Life seems to have a different meaning now. Our nation needed the chastisement she has received. I pray the lesson will not be forgotten. We were too much wrapped up in money-making, in seeking selfish pleasures, in personal bickerings and jealousies. We were no longer Christians."

BETTER ROADS

Sir,—As thousands of auto owners are now applying for license for the next six months, the thought of "Where Bruce County is drifting in regard to her leading roads" looms up as strongly in my mind that I have written this little article. Many letters have lately appeared in various papers of this Province, some of which criticized the auto tax, some the increase for 1916, while others made serious complaints because the Government does not return the money thus collected to the municipalities whose auto owners have contributed to that fund.

Under certain conditions there should be no objection to a fair auto tax. I object to the increase for 1916. But the suggestion that "the Government should return this money to the municipalities composing this county" would be unfair to those counties which have taxed themselves two-thirds the cost of constructing their leading roads, and this some of them have been doing for a long time. The Government is not to blame in this matter. In 1901 it took a certain initiative in promoting leading roads, and, irrespective of politics, I believe they will stick to this Good Road's Act, through its improved amendments.

The fault of this money not coming back lies with each successive county council. I have been told that I am to a certain extent guilty of this negligence, since I had the honor of being a member of that body a few years. In answer to that let me refer your readers to a report I submitted to the county council in 1910, which is incorporated in the minutes of that session, and which advised the council to take up the Good Roads Scheme.

Of course, I am aware many county councillors are usually very cautious in taking up a new thing involving even a small amount of money, though it were the best move possible, unless they were sure of its approval by their supporters. Caution is a good thing and is always necessary but it is often carried too far.

Among other things in that report was that the government had already voted $1,000,000 towards one third the cost of constructing leading roads in the province also the provision that very much more would be voted when required and that it would yet be contributing towards the maintenance.

There was no agitation to have the government assume one half the cost of constructing the roads. All these suggestions have been incorporated in the Act. Let us not be afraid of this thing because a few counties have made a mess of it by building a good road at every man's door for his vote. They built a lot of miles to do this, with little money, and did not do permanent work. As the Act originally did not require the government to contribute towards maintenance there was nothing done by the government and the county did nothing. Hence a failure. Has not experience taught us this spring, that, where the road is well crowned, well drained with proper slopes to good ditches and covered with lots of gravel, there was no sign of a rut, whereas, if there were no crown, no ditches, little gravel, it would be a mire, like too many of our roads were this spring. Bad roads cost more money than good roads.

However the building of our leading roads under the Good Roads Scheme is bound to come, for necessity demands it and circumstances will force it. I am not suggesting that the people pay out a lot of money just because other counties are doing it. It is because the principle is the best we have, if properly carried out. I submit it is the only way we can handle our leading roads and save the auto tax from going into other counties to build good roads for other people.

I have heard it suggested that the county council should not take the matter up for four or five years at least, as we have a big war tax to pay. About that time we will be in the thickest of our war tax. But we can pay it. It is the easy part of the war. Just think of what Port Elgin has contributed to the war. From 1916 to 1920 inclusive the auto owners of this county will have paid as we have from $60,000 to $70,000 or more into the Provincial treasury to be paid out as the government's share of one half the cost of constructing and maintaining leading roads in other counties. Are we going to stand for that? Surely not.

When the Good Roads Act was passed the government did not have much or any idea of an auto tax. The intention was to pay one third of the cost of the leading roads out of the general funds of the province, which it had a perfect right to do. I would suppose that the government gets more money from the auto tax just now than it pays out towards good roads, and what will be the condition of things a few years hence. That being the case the government should assume a larger percentage than one-half the cost. If not it will be paying nothing out of the general funds of the treasury. You will notice that our auto owners would be paying the government's share of the one-half the cost of the road and also his share of the other half which would be the county's proportion.

What kick should come from the man with the horse and buggy? The light auto is no harder on the road than the single driver which runs the centre right out of the road, whereas in the case of the auto the gravel in the centre will spread out slowly to the wheel tracks. It is altogether probable that the light auto is the one the masses are going to buy, for during the last year ending a few months ago there were 22,076 autos sold in Canada, of this number 17,500 were Fords most of which were only 20 h.p. This would leave 4,570 cars to the credit of all other makes. Farmers seldom go one way in anything unless it be a good thing and if a successful tried out competitor appears on the scene they will divide up.

As far as other than leading roads are concerned I believe the time is not far hence when there will be a large amount of money to come back to these municipalities as their share of this tax, but the time is not yet. Put the money on the leading roads first. It cannot be said statute labour is not a fair success in this section. Of course a few beats have too far to haul their gravel and they should be getting help from the council but some other beats would not have a good road under the best possible conditions. Agitation and agitation alone would make the statute labor system a general success. But remember statute labor cannot keep up a leading road.

It is not expected that this letter will meet the approval of all people. I have no objection to a friendly criticism. If it does nothing else than draw out other people's opinion on the matter, it will have served a good purpose. Dear only knows, there is need of some more enthusiasm on the good roads question.

In conclusion let me reiterate that I am not asking to pay out a lot of money. Rather, I am asking you to get back every cent we are paying out to auto tax and as much more as we can get from the general funds of the Province even if we do pay out a little more money to get it. Money is not everything.

Paisley, R. R. 4

May 5th, 1916.

VILLAGE COUNCIL

Council met 8 p m on Wednesday, May 3rd, all members present. Minutes of last meeting read and confirmed.

Mr John A McArthur requested information as to drainage from Inkerman St northwards on east side of Queen St.

Mr H B Putnam requested the construction of a crossing from his new residence east to west side of Queen St.

Mr Murdoch Leitch requested a crossing from west to east side of Queen St north, at his residence. All of which was referred to the road and bridge committee.

The Canada Law Book Co, Toronto, offered copies of "Merrellth's Municipal Manual" at $18 per copy.

Copy of the Amusements Tax Act was received with circular from the Treasury Department and read.

Applications for the position of night constable were read.

George—Nicholls—That the clerk is hereby instructed to procure tickets and a chopper, in compliance with the Amusement Tax Act.—Carried.

More—Sparrow—That the reeve is hereby instructed to purchase a stop watch for the use of supervisor and night constable.—Carried.

The following payments were authorized, viz:

Mur Leitch	$41 66
Alex Blue	43 75
Paisley Elect Light Co...	50 01
Weighmaster	9 02
Alex Jack	32 05
Paisley Advocate	4 65
Wm Sparrow	21 74
John Shaw	10 59
John Stoddart	8 55
I H Maurer	35 00

Council adjourned to meet as a Court of Revision on Monday, May 29th, at 9 a.m.

BLACK, MIXED OR GREEN

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XIV.—(Cont'd.)

At last, Herve replied, with great gravity:

"Mademoiselle, I had the honor to know the great Frederick Marston once. It was some years ago. He keeps himself much as a hermit might in these days, but I am sure that the portion of the story I know is not that of the vain man or of the poseur. Possibly," he hesitated modestly, "it might interest mademoiselle?"

"I'm sure of it," declared the girl.

"Marston," he began, "drifted into the Paris ateliers from your country, callow, morbid, painfully young and totally inexperienced. He was a tall, gaunt boy with a beard that grew hardly as fast as his career, though finally it covered his face. Books and pictures he knew with passionate love. With life, he was unacquainted; at men, he looked distantly over the deep chasm of his bashfulness. Women he feared, and of them he knew no more than he knew of dragons.

"He was eighteen then. He was in the Salon at twenty-two, and at the height of fame at twenty-six. He is now only thirty-three. What he will be at forty, one can not surmise."

The Frenchman gazed for a moment at the spiraling smoke from his cigarette, and halted with the uncertainty of a bard who doubts his ability to do justice to his lay.

"I find the story difficult." He smiled with some diffidence then continued: "Had I the art to tell it, it would be pathos. Marston was a generous fellow, beloved by those who knew him, but quarantined by his morbid reserve from wide acquaintanceship. Temperament—ah, that is a wonderful thing! It is to a man what clouds and mists are to a land. Without them, there is only arid desert—with too many, there are storm and endless rain and dreary winds. He had the storms and rain and winds in his life—but over all he had the genius! The masters knew that before they had criticized him six months. In a year, they stood abashed before him."

"Go on, please!" prompted Duska, in a soft voice of sympathetic interest.

"He dreaded notoriety, he feared fame. He never had a photograph taken, and, when it was his turn to pose in the sketch classes, where the students alternate as models for his fellows, his nervousness was actual suffering. To be looked at meant, for him, to drop his eyes and find his hands in his way—the hands that he could paint the finest pictures in Europe!

"To understand his half-mad conduct, one must understand his half-mad genius. To most men who can command fame, the plaudits of clapping hands are as the incense of triumph. To him, there was but the art itself—the praise meant only contagement. His ideal was that of the English poet—a land where

> only the Master shall praise us,
> and only the Master shall blame:
> And no one shall work for money and
> no one shall work for fame."

That was what he wished, and could not have in Paris.

"It was in painting only that he forgot himself, and became a divine embodied behind a brush. When a picture called down unusual comment from critics and press, he would disappear—remain out of sight for months. No one knew where he went. Once, I remember, in my time, he stayed away almost a year.

"He knew one woman in Paris, besides the models, who were to him impersonal things. Of that one woman alone, he was not afraid. She was a pathetic sort of a girl. Her large eyes followed him with adoring hero-worship. She was the daughter of an English painter who could not paint, one Alfred St. John, who lodged in the rear of the floor above. She herself was a poet who could not write verse. To her, he talked without hesitancy, and for her he felt vast sorrow. Love! Mon dieu, no! If he had loved her, he would have fled from her in terror!

"But she loved him. Then, he fell ill. Typhoid it was, and for weeks he was in his bed, with the papers crying out each day what a disaster threatened France, and the world, if he should die. And she nursed him, denying herself rest. Typhoid may be helped by a physician, but the patient owes his life to the nurse. When he recovered, his one obsessing thought was that his life really belonged to her rather than to himself. I have already said he was morbid half to the point of madness. Genius is sometimes so!

"By no means a constant absinthe-eur, in his moods he liked to watch the opalescent gleams that flash in a glass of Pernod. One night, when he had taken more perhaps than was his custom, he returned to his lodgings, resolved to pay the debt, with an offer of marriage.

"I do not know how much was the morbidness of his own temperament, and how much was the absinthe. I know that after that it was all wormwood for them both.

"She was proud. She soon divined that he had asked her solely out of sympathy, and perhaps it was at her urging that he left Paris alone. Perhaps, it was because his fame was becoming too great to allow his remaining there longer a recluse. At all events, he went away without warning—fled precipitantly. No one was astonished. His friends only laughed. For a year they laughed, then they became a trifle uneasy. Finally, however, these fears abated. St. John, his father-in-law, admitted that he was in constant correspondence with the master, and knew where he was hiding. He refused to divulge his secret of place. He said that Marston exacted this promise—that he wanted to hide. Then came new pictures, which St. John handled as his son-in-law's agent. Paris delighted in them. Marston travels about now, and paints. Whether he is mildly mad, or only as mad as his exaggerated genius makes him, I have often wondered."

"What became of the poor girl?" Duska's voice put the question, very tenderly.

"She, alas, left Paris. Whether she let her love conquer her pride and joined him, or whether she went elsewhere—also alone, no one knows but St. John, and he does not encourage questions.'

"I hope," said the girl slowly, "she went back, and made him love her."

Herve caught the melting sympathy in Duska's eyes, and his own were responsive.

"If she did," he said with conviction, "it must have made the master happy. He gave her what he could. He did not withhold his heart from a'int, but because it was an eritten." He paused, then in a lighter vein went on:

"And, speaking of Marston, one finds it impossible to refrain from reciting an extraordinary adventure that has just befallen his first disciple, Mr. Saxon, who is a countryman of yours."

The girl's eyes came suddenly away from the sea to the face of the speaker, as he continued:

"I happened to be on the streets, when wiser folk were in their homes, just after the battle in Puerto Frio. I found Mr. Robert Saxon—perhaps the second landscape painter in the world—lying wounded on a pavement among dead revolutionists, and I helped to carry him to an Intrurrecto haunt. He was smuggled unconscious on a ship sailing for some point in my own land—Herve, I think. Allons! Life plays pranks with men that makes the fairy tales seem feeble!"

Steele had been so astounded that he had found no opportunity to stop the Frenchman. Now, as he made a sign, M. Herve looked at the girl. She was sitting quite rigid in her steamer chair, and her lips were white. Her eyes were on his own, and were entirely steady.

"Will you tell us the whole story, M. Herve?" she asked.

"Mon dieu! I have been indiscreet. I have made a faux pas!"

The Frenchman's distress was genuinely deep.

"No," answered the girl. "I must know all the story. I thank you for telling me."

As Herve told his story, he realized that the woman whom Saxon had turned back to warn, according to Rodman's sketching, was the woman sitting before him on the deck of the Orinoco.

CHAPTER XV.

Captain Harris had been, like Rodman, one of the men who make up the world's flotsam and jetsam. He, too, had meddled in the affairs of that unstable belt which lies just above and below the "line." South and Central American politics and methods were familiar to him. He had not attained the command of the tramp freighter Albatross without learning one decisive lesson, that of eliminating curiosity from his plan of living. He argued that his passenger was an insurrecto, and, once seized in Puerto Frio, could hardly hope to shield himself behind American citizenship. There had been many men in Puerto Frio when the captain sailed who would have paid well for passage to any port beyond the frontier, but to have taken them might have brought complications. He had been able at some risk to slip two men at most to his vessel under the curtain of night, and to clear without interference. He had chosen the man who was his friend, Dr. Cornish, and the man who was his countryman and helpless. Of course, all the premises upon which both Rodman and this wan-going man acted were false premises. Had he been left, Saxon would have been in no danger. He had none the less been shanghaied for a voyage of great length, and he had been shanghaied out of sincere kindness.

It has not occurred to either the captain or the physician that the situation could outlast the voyage. The man had a fractured skull, and he might die, or he might recover; but one or the other he must do, and that pre usually before the completion of the trip across the Atlantic. That he should remain in a comatose state for days proved mildly surprising and interesting the physician, but that at the end of this time he should suffer a long attack of brain fever was an unexpected development. Saxon knew nothing of his journeying, and his only conversation was that of delirium. He owed his life to the skill and vigilance of the doctor, who had been and treated human ills under many crude conditions, and who devoted himself with absorption to the case. Neither the physician nor the captain knew that the man had once been called Robert Saxon. There was nothing to identify him. He had come aboard in the riding clothes borrowed from the lockers of the Phyllis, and his pockets held only a rusty key, some American gold and a little South American silver. Without name or consciousness or baggage, he was slowly crossing the Atlantic.

Other clothing was provided, and into the newer pockets Captain Harris and Dr. Cornish scrupulously transferred these articles. That Carter, if he recovered, could reimburse the skipper was never questioned. If he died, the care given him would be charged to the account of humanity, together with other services this rough man had rendered in his diversified career.

Meanwhile, on the steamer Orinoco, the girl was finding her clear, unflinching courage subjected to the longest, fiercest siege of suspense, and Steele tried in every possible manner to comfort the afflicted girl in this time of her trial and to alleviate matters with optimistic suggestions. M. Herve was in great distress over having been the unwitting cause of fears which he hoped the future would clear away. His alcohol ebbed ended, and, like Steele, he attached himself to her personal following, and sought with a hundred polite attentions to mitigate what he regarded as suffering of his authorship. Duska's impulse had been to leave the vessel at the first American port, but Steele had dissuaded her. His plan was to wire to Kentucky at the earliest possible moment, and learn whether there had been any message from Saxon. Failing in that, he advocated going on to New York. If by any change Saxon had come back to the States; if, for example, he had recovered on voyage and been transferred, as was not impossible, to a west-bound vessel, his agent in New York might have some tidings.

Clover—A Soil Renovator.

Practically every variety of clover is considered by farmers to be a soil renovator. It does not require four leaves in order to bring luck to the farmer growing it, but clover and riches go hand in hand. This may seem an absurd statement to make, when the price of clover seed is considered, but, even at the present high price, a farmer would hardly be justified in curtailing to any great extent the amount of clover seed to be sown per acre this spring. There is a considerable variation in the amount of red clover seed sown per acre, some farmers obtaining a good catch from five or six pounds of seed, while others sow from eight to ten pounds per acre in order to ensure a good stand. The amount of seed to sow depends somewhat on soil condition, preparation of seed-bed, and vitality of the seed.

It has been noticed that, where clovers can be successfully grown, and a liberal supply of seed is used each year, the land is gradually increasing in fertility, and increased fertility—other things being equal—means larger crops and consequently more money in farming. Many farmers are making a practice of sowing a large acreage with clover, each spring, than was formerly the custom, and it is believed that the average amount of seed sown per acre is also increasing during recent years. Where three or four pounds of seed was considered sufficient, a few years ago, six or seven pounds is now aimed at, and many farmers consider it profitable to sow as high as ten pounds along with timothy and alsike.

Clover Roots Add Humus to Soil.

The clover plant is valuable to the farmer because of its ability to take nitrogen from the atmosphere and store it in the soil in such a way that plants can utilize it. To purchase this valuable plant food as a fertilizer, would come very expensive, much more so than securing it through buying clover seed, even at the prevailing price. Plowing under a three-ton crop of green clover is claimed to return to the soil about 40lbs. of nitrogen, 8 lbs. of phosphoric acid, and 34 lbs. of potash per acre. Supposing a crop of hay is harvested, the soil will still be in a better condition for succeeding crops than if any crop, other than a legume, had been grown. Clover roots add humus to the soil, increase the amount of nitrogen, make the soil more friable, and open it up, thus allowing for a freer passage of air. Besides being a soil builder, clover, either as pasture or cured for hay, is valuable feed for all classes of live stock. If the aim is to increase the fertility of the soil at least expense, it is advisable to increase, rather than decrease, the acreage devoted to clovers.

True, there are difficulties in the way of growing clover successfully year after year, but it is believed that many of the obstacles standing in the way of securing and retaining a good catch, for one year at least, can be overcome. The clover plant demands that certain soil conditions be granted, if it is to give maximum returns. These conditions are: that the soil be sweet and properly underdrained, either by natural or artificial means; that there be available plant food and favorable conditions for the development of bacteria; that the seed be given a good bed and not covered too deeply. On most farms these demands can be complied with. Soils may be tested for acidity by the use of litmus paper by placing a small strip of blue litmus paper in moist soil, and, if it turns the paper red, lime is required in the soil. Another method is to pour a few drops of acid on the soil, and, if it does not "fry" it is an indication that the soil is acid. Clover does not do well with wet feet. If conditions are such that water remains on the surface of the ground for any length of time, after a heavy rain, few crops will pay for a system of underdrainage in a few years, besides assisting in giving the clover plant a chance. In regard to plant food, it is necessary that the young seedling have easy access to available material to give it a start, after which it is able to look after itself, and return more to the soil than it takes out. Where clover has been successfully grown, there is usually sufficient bacteria in the soil. These minute organisms which appear on the roots of the plant are essential to the growth of clover, as they are the means by which nitrogen is absorbed and stored in the plant and soil. If there is reason to believe that the soil is deficient in bacteria these may be supplied by treating the seed with nitro-culture just previous to sowing. A culture is prepared for the different clovers, and may be secured with full directions for using, from the Bacteriological Department, Ontario Agricultural College, Guelph.

The Method of Seeding.

For the successful growing of clover, a good deal depends on the seeding operations. Clover seed is small, yet it must contain sufficient plant food in itself to develop the first roots and leaves. These leaves must reach the surface before the tiny plant can commence drawing food from the soil, or atmosphere. If the seed is buried too deeply, the tender growth never succeeds in reaching the surface and is lost. A rough seed bed is not conducive to giving the seed a good start, as it has a tendency to dry out more or less, and the small seed lying near the surface does not secure sufficient moisture to start life. With a seed bed in fine tilth, less risk is involved. The method of seeding is also important. Sowing the clover and grass seed from a seed box, attached behind the drain drill, is the practice most in vogue, but some farmers are trying other methods which, while probably taking more time, are proving satisfactory. It is claimed that by sowing behind the drill, the small seeds fall in the furrow made by the drill, and, when a stroke of the harrow is given, the seeds are buried too deeply. This difficulty is believed to be partly overcome by turning the spouts of the grass-seeder to sow before the hoes of the drain drill, but are brought close to the surface again when the harrow is used. Even with time such an important factor as it is, possibly it would pay in the end, especially on some farms, to prepare the seed bed, drill in the grain, give a stroke with the harrow, then sow the grass and clover seeds with a broad seeder, and follow with a smoothing harrow. The seed bed would be made finer by the extra stroke of the harrow, and the seed would have a shallow covering of soil, which is essential for small seeds.

Any farmer who has difficulty in growing clovers, is more or less handicapped, and every effort should be made to find the cause of clover not growing satisfactorily on his particular farm. If possible, make the soil conditions right, then prepare a fine seed bed in the spring, and sow plenty of good seed.—Farmers' Advocate.

A' Ye Blind?

A large firm in Aberdeen, says Pearson's Weekly, recently engaged as office boy a raw country youth. It was part of his duties to attend to the telephone in his master's absence. When first called upon to answer the bell, in reply to the usual query, "Are you there?" he nodded assent. Again the question came, and still again, and each time the boy gave an answering nod. When the question came for the fourth time, however, the boy, losing his temper, roared through the telephone:

"Man, a'ye blind? I've been noddin' me head off for the last half hour."

Not That Sort.

Helen—Do you love me, dear?
Jack—Dearly, sweetheart.
Helen—Would you die for me?
Jack—No, my pet. Mine is an undying love.

At the Chemistry Examination.

Professor—Can you tell me what will happen to gold when it is left uncovered in the air?
Student—It will be stolen.

"What was the idea of putting that old bore, Blokely, on the list of speakers at the banquet?" "Oh, that's all right. We put him last on the list. We want the party to break up some time, don't we?"

AN IDEAL TONIC

When your head is dull and heavy, your tongue furred, and you feel done-up and good for nothing, without knowing what is really the matter with you, probably all that is needed to restore you to health and vigour is a few doses of a reliable digestive tonic and stomachic remedy such as Mother Seigel's Syrup. Take it after each meal for a few days and note how beneficial is its action upon the stomach, liver and bowels—how it restores tone and healthy activity to these important organs, and by so doing enables you to gain new stores of vigour, vitality and health.

SPOHN'S DISTEMPER COMPOUND

Horse Sale Distemper

You know that when you buy or sell through the sales that about one chance in five is taken for STABLE DISTEMPER. It spreads with lightning rapidity. Your protection, your safeguard, for as sure as you treat all your horses with it, you will not have the disease. It acts as a cure preventive, so quickly that they are exposed. Try the bottle, or some for all druggists, horse goods houses or delivered by manufacturers.

SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen, Ind., U.S.A.

A GOOD MEDICINE FOR THE SPRING

Do Not Use Harsh Purgatives—A Tonic Is All You Need.

Are exactly sick—but not feeling well. That is the way most people feel in the spring. Easily tired, appetite fickle, sometimes headaches, and a feeling of depression. Pimples or eruptions may appear on the skin, or there may be twinges of rheumatism or neuralgia. Any of these indicate that the blood is out of order—that the indoor life of winter has left its mark upon you and may easily develop into more serious trouble.

Do not dose yourself with purgatives, as so many people do, in the hope that you can put your blood right. Purgatives gallop through the system and weaken instead of giving strength. Any doctor will tell you this is true. What you need in spring is a tonic that will make new blood and build up the nerves. Dr. Williams' Pink Pills is the only medicine that can do this speedily, safely, and surely. Every dose of this medicine makes new blood, which clears the skin, strengthens the appetite, and makes tired, depressed men, women and children bright, active and strong. L. R. Whitman, Harmony Mills, N.S., says: "As a tonic and strength builder I consider Dr. Williams' Pink Pills wonderful. My whole system was badly run down, and although I faithfully took a tonic given me by my doctor I could note no improvement. When I began Dr. Williams' Pink Pills, and was soon restored to my old time health. I can most heartily endorse this medicine."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TELLS OF TEUTON CRUELTY.

Russian Embassy Says Captives Were Tortured and Killed.

Brutal treatment of prisoners by deliberate torture and neglect is charged against Germany in a report issued at Washington by the Russian Embassy for distribution in the United States.

The report is accompanied by 14 photographs of soldiers who were tortured because they would not divulge military secrets and soldiers who suffered wounds from explosive—or dum-dum—bullets. There are also reproductions of two letters found on the bodies of dead Germans, in which the writers told of driving Russian prisoners before them in a charge to lessen their own losses.

Instances where wounded soldiers have met their death by being beaten, stabbed, shot or neglected are given in the report.

"There were no baths in the camps," the report continues. The prisoners were obliged to remain unwashed and soon were covered with vermin.

The food in the camps was described by the soldiers as uneatable and nauseating. "These conditions of bad nourishment, combined with the cold and damp, produced epidemic cholera, hunger typhus, and the spotted form of that disease in many of the camps."

The report says that a large number of the cripples who were repatriated were not wounded in warfare, but by Germans in the camps.

"On the night of the 7th of May, in the camp of Wittenberg, seven Russian prisoners were shot for applying to the commandant for better food."

EXPERIMENTS.

Teach Things of Value.

Where one has never made the experiment of leaving off tea or coffee and drinking Postum, it is still easy to learn something about it by reading the experiences of others.

Drinking Postum is a pleasant way out of tea or coffee troubles. A man writes:

"My wife was a victim of nervousness, weak stomach and loss of appetite for years, and although we resorted to numerous methods for relief, one of which was a change from coffee to tea, it was all to no purpose." (Both tea and coffee are injurious to many persons, because they contain the subtle, poisonous drug, caffeine.)

"We knew coffee was causing the trouble, but could not find anything to take its place until we tried Postum. Within two weeks after she quit coffee and began using Postum almost all of her troubles had disappeared as if by magic. It was truly wonderful. Her nervousness was gone, stomach trouble relieved, appetite improved, and, above all, a night's rest was complete and refreshing.

"This sounds like an exaggeration, as it all happened so quickly. Each day there was improvement, for the Postum was undoubtedly strengthening her. Every particle of this good work is due to drinking Postum in place of coffee." Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c. and 25c. pkgs.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c. and 50c. tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

SEED POTATOES.

The man who grows good potatoes when potatoes are needed is a public benefactor.

According to present production and consumption in Ontario, from twenty-five to thirty people, or from five to six families, are supplied with potatoes for one year from each average acre of land which the farmer plants with this crop. An increase of fifty per cent. in yield would mean an increase in the amount of potatoes produced on each average acre of land sufficient to supply about one dozen people for twelve months. In most years Ontario imports potatoes from the Maritime Provinces, and at the present time a part of our supply is coming from the Provinces of Alberta and of British Columbia. Ontario is well adapted to the production of potatoes of excellent quality, and should supply at least her own demands.

The potato crop of Ontario could be decidedly and economically improved by a more general use of pure, well bred seed of a few of the best varieties, by the adoption of better methods of culture, and by a more complete control of insects and diseases. It should be the aim of every grower to produce large yields of uniform potatoes free from disease and of high table quality. Varieties of potatoes differ greatly not only in yield per acre but also in freedom from rot and in cooking qualities. For instance, in the trying season of 1915 the varieties of potatoes grown under uniform conditions at the Ontario Agricultural College varied in yield per acre from 13 to 366 bushels, in amount of rot from less than 1 to over 70 per cent., and in table quality from 36 to 83 per cent., out of a maximum of 100 points. Some kinds are found to be very susceptible to rot, and others to be almost immune. The table quality of potatoes varies far more than many people realize when mealiness, flavor and appearance of different varieties are taken into consideration and are carefully determined.

In each of four years an experiment has been conducted at the Agricultural College in testing under similar conditions potatoes obtained from different sources. For instance, eighteen lots of Empire States potatoes were secured from eight different sources, five in the Province of New Brunswick and three in Ontario. Seed potatoes grown about one hundred and forty miles north of Guelph, in Muskoka district, near the Muskoka Lakes, have given a higher yield per acre than those obtained from any other source in each of the four years of this experiment. Seed potatoes grown in a cool, moist climate which prevents maturity are often superior to those which have ripened in a hot, dry climate. Immature seed potatoes are usually inferior for table use, but furnish excellent seed. Potatoes grown in Ontario in a comparatively cold, wet season like that of 1915 are likely to be of good quality for planting providing they are free from disease. Tubers showing discoloration or signs of rot on the outer surface or when cut should not be used for planting.

There are far too many varieties of potatoes grown on the farms of Ontario. This is one of the greatest weaknesses in the potato industry of the Province. It is a defect that should be remedied as soon as possible. If Ontario would confine herself to a few of the best varieties of potatoes the annual crop would be increased in yield, in quality, and in commercial value.

There are over one thousand named varieties of potatoes in North America, and fully four hundred have been grown under experiment at the Ontario Agricultural College. Many of these are quite inferior, even though they have been extravagantly advertised; some are old varieties under new names, and comparatively few are worthy of general cultivation by the farmers of Ontario. If these few were grown to the exclusion of fully eighty per cent. of the kinds now under cultivation better results would be obtained, whether the potatoes were produced for home uses or for commercial purposes.

Some of the varieties of potatoes which have been prominent in the experiments at the Ontario Agricultural College and in the co-operative experiments throughout Ontario are the Empire State, the Davies' Warrier, the Rural New Yorker No. 2, the Green Mountain and the Carman No. 1 of the late, and the Extra Early Eureka, the Early Ohio, and the Stray Beauty or Bliss Triumph of the early varieties. In appearance there is a similarity between the Green Mountain and the Delaware varieties and also between the Extra Early Eureka and the Irish Cobbler varieties. In the experiments at Guelph, however, the Green Mountain and the Extra Early Eureka gave the best results in yield per acre, in table quality, and in freedom from rot. The three varieties of potatoes which have made particularly good records in the co-operative experiments throughout Ontario in productiveness, table quality and popularity with the experimenters are the Davies' Warrior and the Empire State of the late and the Extra Early Eureka of the early varieties.

In the average results of all the varieties grown in the years, 1906, 1909, 1910 and 1915, in which there was more or less rot in the potato crops at the College, the Davies' Warrior, the Extra Early Eureka and the Stray Beauty produced the smallest, and the Early Rose, the Beauty of Hebron and the Early Ohio the largest percentages of rotten potatoes of all the varieties grown under uniform conditions.

It has been found to be good practice to use smooth, well shaped, sound tubers of good size and of the best varieties. These can be cut by hand into sets from one to two ounces in weight, each set containing two, three or, even better, four eyes. It is an advantage to throw the freshly-cut potato sets into finely ground land plaster and to plant them immediately after being cut. Good results have been obtained by dropping the pieces separately from twelve to fifteen inches apart in the rows and by having the rows twenty-eight or thirty inches apart. The potato sets can be planted from three to five inches deep, depending upon the character and the condition of the soil. Level cultivation frequently gives the best results on a light soil, and ridged cultivation on soil of a heavier nature.

It is often an advantage to expose whole seed potatoes in a subdued light in a warm room about three weeks before planting. Especially is this true if the potatoes are to be grown for early use. The production of short, thick, green sprouts before planting helps to hasten the growth and increase the yield.

C. A. ZAVITZ.

Ontario Agricultural College,

Guelph, Ont., April 20th, 1916.

She Did Not Heed the Danger Signals

BUT DODD'S KIDNEY PILLS CURED HER DIABETES.

Mrs. McDonald Might Have Saved Herself Months of Pain, Sleeplessness and Anxiety by Using Dodd's Kidney Pills Earlier.

Grand Narrows, Victoria Co., N.S., May 1st.—(Special.)—That Dodd's Kidney Pills will cure kidney disease in its worst form is evidenced by the case of Mrs. Roderick McDonald, an estimable resident of this place. Mrs. McDonald suffered from diabetes for two years, and found her first relief in Dodd's Kidney Pills.

"I am sure I would be in my grave to-day but for Dodd's Kidney Pills," Mrs. McDonald states. "The doctor attended me for five months for diabetes, but I was worse when I stopped taking his medicine than when I started. I could not get a wink of sleep.

"As soon as I started taking Dodd's Kidney Pills I fell in a solid sleep for one hour, and soon I got so that I could sleep fine.

"Dodd's Kidney Pills have done so much for me that I feel like recommending them to everybody."

Mrs. McDonald states that her earlier symptoms were shortness of breath, dizziness, backache and a bitter taste in the mouth in the morning. All these are symptoms of kidney trouble—danger signals that no one can afford to neglect. Had she heeded them and taken Dodd's Kidney Pills she would have saved herself months of pain and anxiety.

DRAINAGE FOR WETNESS AND DROUGHT.

How shall we obtain the most satisfactory soil moisture condition throughout the year? The great factor in moisture control is drainage, natural or artificial. Few farms are sufficiently drain by natural means; nearly all require some artificial drainage.

The problem then is, "Where shall we place our drains?" "How deep shall we put them?" "What size of tile shall we use?" The position of the drains depends largely on the slope of the field, the depth on the kind of soil, the size of tile on the extent of the area drained, and the fall or grade given the tile.

If you are uncertain about these points or anticipate any difficulties, the Ontario Agricultural College will send you a drainage surveyor who will, if necessary, prepare a map of your farm, showing the location of your drains, the size of tile to use, and the grades and depths of the drains.

The cost to you for these services will be the travelling expenses of the surveyor, and as several surveys are made on one trip the charge is seldom over three dollars for each survey.

Those who have had their farms surveyed and have installed part or all of their drains may have a new plan prepared free of charge if they will return the old plan after marking in all changes made in the original system.

On the same terms as those for surveys the college will send a man to give you a start on the installation of your drains if you have had no previous experience. He will show you how to set grade stakes, grade the ditch bottom, make the junctions of main and lateral, lay the tile, and assist you in any way required.

If you contemplate draining during 1916 or are planning for 1917 and need assistance, write to the Department of Physics, O.A. College, Guelph, or your District Agricultural Office, state your difficulties, and request assistance.

He Meant Well.

"It's a dreadful night. Won't you stay and dine with us?"

"Re-really, thanks most awfully, but it's not quite so bad as all that."

What Does Your Food Cost?

You could easily spend two dollars for a meal and not get as much real, body-building nutriment as you get in two **Shredded Wheat Biscuits**, the food that contains all the muscle-making material in the whole wheat grain prepared in a digestible form. Two Shredded Wheat Biscuits with milk or cream will make a complete, perfect meal at a cost of not over five cents. A food for youngsters and grown-ups. Eat it for breakfast with milk or cream; eat it for luncheon with fresh berries or other fruits; a perfect meal for the Spring days.

Made in Canada.

THEIR WAY TO HAPPINESS.

How a Young Couple Started Housekeeping, and the Result.

"But they had to keep up appearances," the other woman declared, speaking of a young couple who had lived beyond the husband's salary and were in all sorts of trouble.

"Why did they——what appearances?" the woman opposite asked.

The other woman stared.

"Why, they had to live to some extent at least like their friends did, the people they were thrown with. They had to live in a nice neighborhood and dress respectably and entertain a little once in a while."

"No," the woman opposite insisted. "They only thought they did. They were merely keeping up with Lizzie and didn't know how foolish it was when they couldn't afford it."

"But what could they have done?" They couldn't go and live in the slums and they had to keep up their self-respect."

"It all depends upon what you call self-respect. I can maintain mine best by not going in debt up to my eyes. And it wasn't necessary for them to go to the slums wherever those may be. I know a couple who found two rooms out on a side street and went to housekeeping in them with the few bits of furniture they could afford to buy. Most of their wedding presents were packed away as not suitable for their environment. They were several miles away from the aristocratic neighborhood with which they were most familiar, but they didn't mind that."

"I should have thought they would."

"At any rate, they didn't mind it enough to put off getting married until the man got a big salary."

"Did their friends come to see them?"

"They certainly did. Some of the callers came from curiosity, I suppose, and some probably if they are not they were very happy just the same. The point was that they did not spend more than they had and ever out of the little they saved something."

"But didn't they have to go shabby?"

"They did sometimes; they went without many things to which they were accustomed, but you see they were very much in love and they had counted the cost and were prepared."

"What about them now?"

"Oh, they're living in a house of their own, but I doubt if they are any happier than when they were going without in their two rooms. But they proved to me that it is not necessary to keep up appearances."

MANY GENERALS' SONS KILLED.

French Publish List of Deaths in Commanders' Families.

A list which does not pretend to be complete has been printed in Paris of sons and son-in-law of Generals who have been killed in the war.

Gen. de Castelnau and Gen. Besserier have both lost three sons, Gen. Foch a son and a son-in-law, Gen. Pouydraguin, Renouard, DeLardemelle and Neyraud each two sons; Gen. Garnerat (killed in the Dardanelles) a son-in-law, Gen. Baillaud a son and a son-in-law, Gen de Lamouvelle two sons-in-law.

The Generals who have lost a son include De Maudhuy, D'Amade, Ebener, Ronnal, Falque, Marjoulet, Chailley, De Benoit, Louis, Corvisart, De Lestrac, De Lestapis, Bonfait and Dieudonne, and those who have lost a son-in-law are Gens. de Mondesir, De Vassar, De Morlaincourt.

There isn't much self-love in the make-up of the man who loves his enemy as himself.

HAVE YOU A BAD SORE?

If so, remember these facts—Zam-Buk is by far the most widely used balm in Canada! Why has it become so popular? Because it heals sores, cures skin diseases, and does what is claimed for it. Why not let it heal your sore?

Remember that Zam-Buk is altogether different to the ordinary ointments. Most of these consist of animal fats. Zam-Buk contains no trace of any animal fat, or any mineral matter. It is absolutely herbal.

Remember that Zam-Buk is at the same time healing, soothing, and antiseptic. Kills poison instantly, and all harmful germs. It is suitable alike for recent injuries and diseases, and for chronic sores, ulcers, etc. Test how different and superior Zam-Buk really is. All druggists and stores at 50c. box. Use also Zam-Buk Soap. Relieves sunburn and prevents freckles. Best for baby's bath. 25c tablet.

WOMEN TURN MACHINISTS.

Working for Britain in Constructing Aeroplane Parts.

Overalled, leather aproned, capped and goggled—displaying nevertheless a woman's genius for making herself attractive in whatever guise—some eighteen women are being trained in the Nottingham (England) Hillgate workshops of the Women's Service Bureau in the skilled engineering work of welding joints and fine angle sockets needed for the construction of aeroplanes.

As fast as they are trained the women are placed in Government factories, where they receive the same pay as men. The woman welder is another instance of woman's adaptability to work believed to be out of her province. She bends over an oxy-acetylene blowpipe with a flame of 6,000 Fahrenheit that can make steel run like sealing wax. Though her eyes are protected by goggles of colored glass, a rain of bright sparks impinges on her face and neck, but she heeds them not, nor obviously, does her complexion.

She saws, files and hammers steel, and the women welders' workshop is filled with a hundred loud or shrill clamors of metal, but the nerves of the women welders are unaffected. Miss Woodward, the principal, declares that many of these women, who have never done manual work before find their work "a nerve tonic," and that headaches are left at home.

NOTHING TO EQUAL BABY'S OWN TABLETS

Mrs. Lawrence M. Brown, Walton, N.S., writes: "I have used Baby's Own Tablets for the past ten years and believe there is nothing to equal them for little ones. They instantly banish constipation and teething troubles, and, unlike any other medicine I have used, they are pleasant to take and do not gripe the baby." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Transparent.

"Mamma," asked small Mabel, "what does 'transatlantic' mean?"

"It means 'across the Atlantic'," replied the mother. "'Trans' always means across."

"Then I suppose," continued the logical little miss, "that transparent means 'across parent', doesn't it, mamma?"

Minard's Liniment Lumberman's Friend

Re-r-revenge!

Mrs. Owens—John, the butcher from where we used to live has found out our address. He called with that last year's bill and was really impertinent.

Owens (dotly)—Impertinent was he! Well, now, we'll just let him wait for his money.

Minard's Liniment Co. Limited:

Dear Sirs,—Your MINARD'S LINIMENT is our remedy for sore throat, colds and all ordinary ailments.

It never fails to relieve and cure promptly.

CHAS. WHOOTEN.

Port Mulgrave.

Would be Concealed.

"Why, Johnny," said a mother to her 4-year-old son, "aren't you ashamed to go about with such a dirty face?"

"Don't you worry about it, mamma," he replied. "As soon as I get a little bigger I'll raise whiskers, then you won't notice the dirty."

Sore Eyes Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, Just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye Free ask Druggists or Murine Eye Remedy Co., Chicago

Money By the Bunch.

She—What's this I hear about your getting a lot of money from some woman?

He—Someone's been kidding you. Who was the woman?

She (innocently)—Why, May Wheat they told me her name was.

Minard's Liniment used by Physicians

The Privileged Classes.

A cockney angler, thinking that his highland boatman was not treating him with the respect due to his station, expostulated thus: "Look here, my good man, you don't seem to grasp who I am. Do you know that my family have been entitled to bear arms for the last two hundred years?"

"Hoots, that's naething!" was the reply. "My ancestors have been entitled to bare legs for the last two thousand years."

Striving to Change Name.

So bitter is the hatred in Russia against everything German, since the beginning of the war, that the new Premier, Bazil Sturmer, is, according to the Petrograd newspapers, taking steps to change his name to Flanin, on the ground that Sturmer not only sounds German, but is also of undoubted German origin.

Ask for Minard's and take no other

Women will never be paid as much for lecturing as men, because they do too much of it for nothing.

GLAMIS

Pte John Kitchen spent Sunday here with his family.

Mr Percy and George McKay have bought the Jas McKenzie farm.

Mrs Margaret Beaton and two children have moved here from Toronto, and are at present living in Malcolm McLean's house on the hill.

Quite a number of the Glamis lodge attended the Oddfellows' parade and service which was held in Tiverton on Sunday.

Miss Myrtle Garland, of Pinkerton, and Mr Cecil Garland's young son spent a few days at Mr Jas Thompson's.

Miss Ethel Pickard, of Paisley, is the guest of the Misses Howson.

Pte Clyde McKeeman has returned from Toronto.

Mr and Mrs Avery, of Armow, Miss Pinkerton and Miss Sadie Colwell spent Sunday at Mr David Robertson's.

We are sorry to say that Mr Neil McFarlane is not improving.

Mr J K McLennan is confined to the house owing to an accident he had on Saturday night, but with good care he expects to be around again in a few days.

Children Cry FOR FLETCHER'S CASTORIA

PINKERTON

A large crowd attended the recruiting meeting here last Wednesday evening and listened to fine addresses by His Honor Judge Klein, Rev Mr Gale, John Rowland and Major Moffat. Mr W D Cargill acted as chairman. A feature of the evening was a presentation and address from the people of Brant to Pte Wm Barry, who was wounded at Ypres. No recruits have been forthcoming as yet.

Pte Gordon Garland Sundayed at Glamis.

Misses Aileen Pinkerton and Sadie Colwell spent Sunday with the latter's sister, Mrs D Robertson, of Glamis.

Senator Donnelly spent Sunday at his home here.

Arbor Day was observed at the school here on Friday, and after the usual cleaning up of yard and school house things are shining again.

Mrs Adam Reid visited at Paisley last week.

CARGILL

Mrs Fred Baldon spent the first of the week visiting her parents in Pickering.

Ptes Chas Adair and Wm Brownscombe, of the 160th, spent Sunday here.

Quite a number from here were in Walkerton on Sunday witnessing the church parade of the 160th. They were greatly pleased with the appearance of the battalion.

While working on the bolting machine last week Mr Jas Handaker had the misfortune to have the end of one of his fingers taken off by the saw. It was dressed by the doctor and is doing nicely. Mr Oliver Taylor had a finger badly squeezed in the same institution, which is also mending.

Miss M Clancy spent over Sunday in Walkerton.

Mr Wes Brownscombe has severed his connection with Mr Cameron's store for which he has delivered for the past year or more, and has taken a position with the Dom Well Supply Co. Mr Geo Welsford succeeds Mr Brownscombe.

TENTH CON BRUCE

Probabilities: Showery, with a little rain.

Mr Howard McPhail, of Kincardine, spent a few days last week at Mr W H Brown's.

The Ladies' Mission Circle of the North Bruce Baptist church met last week in the church, and had a very enthusiastic meeting. Mrs Edgar Anness and Mrs A McKinnon were appointed delegates to the association meeting which is to be held in Paisley early in June.

Children Cry FOR FLETCHER'S CASTORIA

ELORA ROAD NORTH

Pte John Ralston is helping Mr David Bryce with the seeding.

Mr Roger Darroch is working in Greenock at present.

Pte John McArthur was over from Owen Sound for a week.

Messrs Dune McKinnon and Andrew Miller drove a bunch of steers up to Sauble Falls last week, where they have a ranch rented.

We are glad to hear that Mrs Arch Bryce, who has been ill, is recovering.

—Kincardine assessor reports the population of the town to be 2,306.

PRESENTATION TO SOLDIER

On Monday evening last Mr Wm Pearce's home, Elora road north, was the scene of a pleasant gathering in honor of his nephew, Pte. Emerson Pearce, Bandsman in 95th Batt. Mr. Andrew Miller acted as chairman, and after the numerous friends and acquaintances had assembled, explained the object of the gathering by asking Pte. Pearce to come forward, when the following address was read by D. D. Campbell, and the presentation of a fountain pen, chain and locket was made by Miss Maggie McArthur:

To Pte Emerson Pearce,
Bandsman, 95th Batt, C E F

It is with mingled feelings of pride and regret that we learned, some little time ago, of your enlistment with the 95th Battalion; pride, that you would make the necessary sacrifice entailed in fighting for home and country, and regret, that we should have to lose you from our midst for a time at least. During the years it has been our privilege to know you, we have seen ample proof of your honest and upright character and feel sure that you will acquit yourself honorably in your soldier life. We know what sacrifice you have had to make, the departure from a happy home and the severing of the ties of a lifetime. But on the other hand, we know there is your vision—the forgetfulness of self, in struggling for the liberty of others. Therefore we wish you God-speed, and hope that you may be given health and strength to enjoy the brief time you will remain in Canada, and when at the front we will pray that you may be guarded and protected so that you may return safely to your friends. And now we would ask you to accept these tokens, which shall be to you a remembrance of your friends' appreciation.

Signed on behalf of your many friends,
John Rae,
Stuart McNeil,
Cash Irwin,
Welfrid Campbell,

Pte. Pearce in his reply stated that his boyhood days had been spent on Elora road north, at which time he had formed attachments and friendships which he could never forget. He then went on to tell how he had attempted to serve the public to the best of his ability as assistant agent at Paisley station. Upon the outbreak of war he felt the call of duty, and sent in an application to enlist as a signaller. While waiting a reply, he was urged by a friend to go to Toronto with a view to enlisting as a bandsman, which he did, with the 95th. Pte Pearce spoke in highest terms of the battalion to which he belongs. The men of the 95th expect to go overseas very shortly, and are looking forward eagerly to the time when they shall reach the front. In conclusion, Pte. Pearce assured his friends that whether doing duty in the trenches or playing the march of the 95th Battalion into Berlin, he would remember with deepest affection his many friends of Elora road north.

After the song entitled "Good Luck to the Boys of the Allies" had been sung at Pte Pearce's request, solos were rendered by Mr. Neil McArthur and Mrs. F. Pearce, a recitation given by Miss Edna Sparrow, and short speeches made by Messrs M. Sparrow and D. D. Campbell, Mr. Wm. Pearce, in a few words, gave the guests assembled the freedom of his home, and expressed the desire that they would enjoy themselves in any way they wished. After lunch, dancing and games were enjoyed until the wee sma' hours o' the mornin.'

Presentation to Soldier

Pte Sam Stanley, who enlisted with the 160th at Port Elgin, was given a good send-off by his friends on Friday night, when about fifty assembled at the home of his mother, Mrs John Stanley, near Dunblane, and presented him with a wrist watch. The following address was read by Cecil McFadden, and the presentation was made by Morley Hanbidge:

Dear Sam—We have assembled here tonight to spend a few social hours with you as our appreciation of you before leaving for overseas service. We are sorry at losing you, yet we feel proud at the step you have taken with so many others to defend our King, country and homes. We hope that the Almighty Hand which guides us all will, after the struggle is ended, permit you to return to us in health and strength, and we will ever pray for your safe return. We all know the hardships and dangerous life the soldier has to contend with, but we know that you will perform your duty with unfailing courage and true manliness. We therefore ask you to accept this wrist watch as a slight token of esteem in which you are held by us. Signed on behalf of friends and neighbors,

J H McFadden,
D McArthur.

The evening's proceedings were completed with an interesting programme of music and speeches, and a lunch served by the ladies.

Through Day Coach to New York Leaving Toronto 8.20 p.m. Daily Via C.P.R. and N.Y.C. Lines

Commencing Sunday, May 7th, day coach passengers for New York may board 8.20 p m Canadian Pacific train at Toronto, daily, and arrive at "Grand Central Terminal" in the heart of New York city, without change en route.

Particulars from Canadian Pacific Ticket Agents, or W. B. Howard, District Passenger Agent, Toronto.

—Printing Invitations is part of The Advocate's business.

EBENEZER

Still keeps raining. When will we get seeding done?

Pte Louis Grant entertained a number of his soldier friends and ladies on Monday evening.

Mrs Ernie Grant and children spent the week end visiting friends in Owen Sound.

We are sorry to say that Mr and Mrs Wm Grant are still on the sick list.

Pte Stanley Martin, from our burg, is now fighting in the trenches in France. We hope he may be spared to return.

Mr and Mrs H T Potts spent Sunday at their old home here.

About eighty of their neighbors and friends gathered at the home of Mr and Mrs J H McFadden on Thursday night to do honor to their soldier son before he leaves for the training camp. Richard Grant was appointed chairman and the following address was read:

To Pte Russell McFadden:

Dear Russell—We, your neighbors and friends, on hearing you had answered the call of your King and country, deem it our duty to meet here to spend a social evening together, and express our profound appreciation of your loyalty, courage and unselfishness in enlisting for overseas service. We deeply regret our loss but feel proud that you have so nobly given yourself to aid in the defence of righteousness, justice and liberty from tyrant an oppressor, who has over-ridden all the written and unwritten laws of humanity in his cruel treatment of the women and children of our Empire and our brave Allies. Your task will not be an easy one, but when you are called on to endure the hardships and suffering incident to a military campaign we believe you will measure up to whatever occasion may arise and do your duty nobly and well. We ask you to accept this wrist watch and cheque as a slight token of the honor in which you are held by us, and we sincerely cherish the hope that the severance of our happy relations may be temporary, and when the conflict is over and the victory won that the Mighty Hand that guides us may permit you to return in health and strength, and with much honor to your home in Avran, where a hearty welcome will always await you. Signed on behalf of your friends and neighbors.

Jas McArthur,
Eph Grant.

Russell made a very suitable reply, thanking his friends for their kindness toward him, and said that no matter where he went he would not forget his friends around Ebenezer. A programme was then gone through, consisting of choruses, solos and speeches, after which three cheers were given for Pte Stanley Martin, who is now in the trenches, and also for the boys of the 160th. A vote of thanks was then tendered to the chairman, it being Dick's first attempt. He made a hit with the crowd, especially with the fair sex. The programme then ended by singing the National Anthem, and lunch was served before the gathering dispersed.

"I DON'T SUFFER ANY MORE"

"Feel Like a New Person," says Mrs. Hamilton.

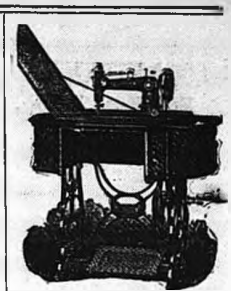
New Castle, Ind.—"From the time I was eleven years old until I was seventeen I suffered each month so I had to be in bed. I had headache, backache and such pains I would cramp double every month. I did not know what it was to be easy a minute. My health was all run down and the doctors did not do me any good. A neighbor told my mother about Lydia E. Pinkham's Vegetable Compound and I took it, and now I feel like a new person. I don't suffer any more and I am regular every month."—Mrs. Hazel Hamilton, 822 South 18th St.

When a remedy has lived for forty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their health to it, is it not reasonable to believe that it is an article of great merit?

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Eldersle Tp. Court of Revision

NOTICE is hereby given that the council will meet as a Court of Revision at the town hall, Gillies Hill, on Monday, May 29th, at the hour of 1 o'clock p.m., when appeals against the assessment roll of the township of Eldersle for current year will be considered. Appeals must be in the hands of the clerk not later than May 15th, 1916.



Dated this 6th day of May, 1916.

H. C. PEARCE, Tp Clerk
R. R. No 2, Paisley

Paisley Court of Revision

TAKE NOTICE that the Court of Revision re assessments, 1916, will be held on Monday 29th May, 1916, at 9 o'clock a.m., at the council chamber here.

A Complete Car in Every Particular
And It's a Car You Will Be Proud to Own

It's the first complete car at anywhere near so low a price.

It stands out alone—boldly—unapproached—a powerful five-passenger touring car complete for only $850.

Note that word "complete."

That means Electric Starter, Electric Lights, Electric Horn, Magnetic Speedometer—in fact, every necessary item. Nothing is lacking. There are no extras to buy.

Note that it is not a small car. The wheelbase is 104 inches. The tires are four-inch size—many cars costing more have smaller tires.

And it is a perfect beauty—snappy, stylish, speedy.

In every way it's a car you will be proud to own and ride in.

No wonder there's a rush to possess the car the world has been waiting for.

Don't delay—see us at once and talk it over.

He will allure them to a home in the wilderness and keep them in safety all through the time of trouble.—Hos. 2: 14-20. After the war is over, men will be slain in hundred of millions by famines, pestilences and earthquakes. Luke 21: 10, 11. Rev. 6: 15-17. See the book of explanation on sale at ADVOCATE OFFICE at 25c. each. WM. ELLIOT.

—Walkerton Council has raised the poll tax from $1.00 to $3.00.

—Recognizing the fact that there has been so much litigation over the commission to be paid in real estate, the Ontario Government has brought in an act this session making it compulsory that every real estate agent must have a written agreement setting out the commission he is to receive before he can collect the amount in court on any real or personal property he sells.

—Mrs I Stanley was visiting friends in Kincardine and Ripley last week.

—Mrs Wm C Anstead is visiting her daughter, Mrs Warder, in Wiarton.

—The Red Cross Workers of No. 15 Bruce shipped on May 6th to hospital shirts, 26 flannel shirts, 40 pairs socks.

—Pte Burton Tooke is in the hospital at Walkerton. Mrs Tooke has gone to stay there until her husband is able to come home.

—Mr D McArthur, of town, has bought an Overland car, and Mr R W Tanner of Elderslie is driving a Chevrolet when he comes to town.

—Mr. A. W. Ross, of Vinemount, was up for a few days attending to his farm on the 8th of Bruce, and putting a herd of grazing cattle on for the summer.

—Mr John Neilson, son of the pastor of Paisley Baptist church, has joined the divisional signallers training at Ottawa. He has been attending McMaster University.

—Mr Fred Foster, who sold out his confectionery business at Clifford, has secured a good position in Flint, Mich. Mrs Foster and Evelyn left Saturday to join him there.

—Elmer and Robt Carson, medical students who go overseas with the 13th Battery shortly, and Pte and Harry Carson of Dunboro, were visitors at Mr M Daniels' last week.

—Mr and Mrs Harry Wade and young son, from Toronto, are visiting at the home of her parents, Mr and Mr and Mrs Arch Sinclair, 10th Bruce, before leaving for Regina, Sask.

—Pte Thos A Woods, of the 236th Batt, Swan River, Man, left for the West on Tuesday, after spending a fortnight at the home of his parents, Mr and Mrs David Woods, of Lovat.

—The Chesley Enterprise says—The Enterprise will get in line with the other newspapers of Bruce and Grey, and after July 1st the price will be $1 50 per year payable in advance.

—Mr Mel McArthur, after being laid off for over five months by an attack of appendicitis for which he was operated upon, returned to Guelph on Monday to resume his position with the Bell Telephone Co.

—Mr John Nelson, managing editor of the Vancouver Daily World, was a visitor at the home of his brother, R J Nelson, V S, of Greenock, over the week-end. Under his able management the World has been kept free from partizan political strings, and is steering a clear-cut independent course, adopting a constructive policy that aims to advance the political, moral and business interests of the people and the country. In short, it puts patriotism before party politics. Its influence has already become a factor in promoting reforms that are desirable.

—The Ontario Government has purchased a field ambulance, costing $1700 from the proceeds realized by the sale of potatoes grown on the School Children War Plots. The Government furnished the seed and the children raised and sold the potatoes. Of this amount Bruce County children sent through the Agricultural Department at Walkerton $165 dollars towards the ambulance or near one tenth of the total sum contributed by the forty counties in Ontario. Bruce children headed the Province in this respect, we believe, as did also their elders in the matter of County recruiting.

Bound Over to Keep the Peace

Norman McDougall has been again annoying his wife, from whom he has been separated, and Alex McDowell. Upon complaint heard before J C. Gibson, J.P., McDougall was bound over to keep the peace.

Four Sons Enlisted

Mr. Jas. Tooke, of Rosebank, Man., sold out his tinsmithing and hardware business to join the Canadian Engineers, and will train at Ottawa. He is the eldest of four sons of Mrs. Tooke, of Paisley, who are now in khaki. Her youngest son Harold is in the trenches in France, while Burton and Earl are in the 160th. James is a married man with two children.

Ordained and Inducted

Mr. Geo. C. Mitchell, son of Mr. and Mrs. Wm. Mitchell, of Paisley, passed his final examination in the divinity course at Queen's University, and won the Toronto scholarship in History of Religion. He has received and accepted a unanimous call from the Presbyterian congregation at Roslin, north of Belleville. His ordination and induction took place on May 9th. Besides having a most creditable record as a student, Mr. Mitchell has marked ability as a speaker, so is very well equipped, indeed, for ministerial work. His many friends in the old home town here wish him every success.

Patriotic League

The regular meeting of the Women's Patriotic League will be held next Friday, May 19th, in Putnam's hall, at 3 o'clock. For the sake of convenience, arrangements are being made to have some one at the Public Library every Saturday afternoon from 3 o'clock to 5, to give out yarn and Red cross sewing all ready cut, and to take in any finished work. All those who feel that they could help in any way please call, as the committee would like a good bale to ship to Jaue. There is urgent call for those supplies, as there are so many men now going overseas.

The Acknowledgment Verbatim

MRS SARAH C RIGGS,
President Women's Institute,
Paisley, Ont.

Dear Madam—I beg to acknowledge with thanks receipt of your letter of the 18th inst., to Col Marshall, enclosing a cheque for $400, being a donation from the Paisley Women's Institute in co-operation with the Women's Patriotic League and five surrounding districts which have no patriotic organizations of their own, to the Canadian Red Cross Society. I have much pleasure in enclosing herewith official receipt, and would ask you to accept and be kind enough to convey to all those interested in this donation the hearty thanks of our Executive Committee for their kind interest and co-operation in our work.

Yours truly,
R. S. McINNES,
Hon Recording Secretary.

Another Hope for Gasoline Users

Mr John Campbell, engineer of the Ridgetown waterworks department, has perfected a device for his automobile which robs the increasing price of gasoline of its terrors. For some time he has been experimenting and has succeeded in developing a principle by which he burns coal oil instead of gasoline for power. The principle of the new device is a coil pipe passing from the supply tank around the exhaust, the heat of which evaporates the coal oil before it passes into the combustion chamber. Mr. Campbell has applied for a patent on his idea. He has been using the fuel for several days and claims a gallon of coal oil will go as far as a gallon of gasoline and at less than half the cost.

Pleased a Full House

Mr Frank Yeigh's illustrated lecture on "King, Country and Empire" drew an audience that almost crowded the town hall on Monday evening. Of the lecture itself, it is sufficient to say that it was everything that was claimed for it in the advance notices, being educative, patriotic and interesting from beginning to end, this applying to both the pictures and the words of the lecturer. In the drawing of a ticket for the embroidered lunch cloth made by Miss Annette Johnston and donated to the Red Cross fund, Mr F C Kennedy was the holder of the lucky No 114. The sale of tickets for this article realized $50. Piano and violin music was given by Mrs Bloomfield-Zeiger and Miss Nettie Trelford, Reeve Ballachey occupied the chair. Proceeds of the lecture amounted to $65.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XV.—(Cont'd.)

Herve cursed himself for his failure to learn, in the confused half-hour at the Puerto Frio tavern, the name of the vessel that had taken Saxon on board, or at least the name of the fellow refugee who had befriended him.

When the ship came abreast of the fanglike skyline of Manhattan Island, and was shouldered against its pier at Brooklyn by swarming tugs, the girl, although outwardly calm, was not far from inward despair.

Steele's first step was the effort to learn what steamer it might have been that left Puerto Frio for Venezuela and thence for France. But, in the promiscuous fleets of rusty-hulled tramps that beat their way about the world, following a system hardly more fixed than the course of a night-hawk cab about a city's streets, the effort met only failure.

The girl would not consent to an interval of rest after her sea-voyage, but insisted on accompanying Steele at once to the establishment of the art dealer who had the handling of Saxon's pictures.

The dealer had seen Mr. Saxon some time before as the artist passed through New York, but since that time had received no word. He had held a success ful exhibition, and had written several letters to the Kentucky address furnished him, but to none of them had there been a reply. The dealer was enthusiastic over the art of the painter, and showed the visitors a number of clippings and reviews that were rather adulation than criticism.

The girl glanced at them impatiently. The work was great, and she was proud of its praise, but just now she was feeling that it really meant nothing at all to her in comparison with the painter himself. To her, he would have been quite as important, she realized, had no critic praised him; had his brush never forced a compliment from the world. Her brow gathered in perplexity over one paragraph that met her eye.

"The most notable piece of work that has yet come from this remarkable genius," said the critic, "is a canvas entitled, 'Portrait of a Lady.' In this, Mr. Saxon has done something more than approximate the genius of Frederick Marston, and one is led to believe that such an effort may be the door through which the artist shall issue from the distinction of being 'Marston's first disciple' into a larger distinction more absolutely his own." There was more, but the feature which caught her eye was the fact stated that "A gentleman bought this picture for his private collection, refusing to give his name."

"What does it mean?" demanded Dunkin, handing the clipping to Steele. "That picture and the landscape from the Knob were not for sale."

The dealer was puzzled.

"Mr. Saxon," he explained, "decided that from this assignment two pictures were to be reserved. They were designated by marks on the back of the canvas and the canvases. Neither the portrait nor the landscape was so marked."

"He must have made a mistake, in the hurry of packing," exclaimed the girl, in deep distress. "He must have marked them wrong!"

"Who bought them?" demanded Steele.

The dealer shook his head.

"It was a gentleman, evidently an Englishman, though he said he lived in Paris. He declined to give his name, and paid cash. He took the pictures with him in a cab in his hotel. He did not even state where he was stopping." The dealer paused, then added: "He explained to me that he collected for the love of pictures, and that he found the notoriety attaching to the purchase of famous paintings extremely distasteful."

"Have you ever seen this gentleman before?" urged Steele.

"Yes," the art agent answered reflectively, "he has from time to time picked up several of Mr. Saxon's pictures, and his conversation indicated that he was equally familiar with the work of Marston himself. He said he knew the Paris agent of Mr. Saxon quite well, and it is possible that through that source you might be able to locate him. I am very sorry the mistake occurred, and, while I am positive that you will find the letters 'N. F. S.' (not for sale) on the two pictures I have held, I shall do all in my power to trace the lost ones."

In one of the packing rooms, the suspicions of Dunkin were corroborated. Two canvases were found about the same shape and size as the two that had been bought by the foreign art-lover. Palpably, Saxon, in his hurry of boxing, had wrongly labeled them.

In the flood of her despair the girl found room for a new pang. It was not only because these pictures were the fulfillment of Saxon's most mature genius that their loss became a little tragedy; not even mercly because in them she felt that she had in a measure triumphed over Marston—hold on the man she loved but because by every association that was important to her and to him they were canonized.

That evening, Steele made his announcement. He was going to Havre and Paris. If anything could be learned at that end, he would find it out, and while there he would trace the pictures.

"You see," he assured her, with a cheery confidence he by no means felt, "it's really much simpler than it looks. He was hurt and he did not recover at once. By the time he reaches France, the ten-voyage will have restored him, and he will cable. Those tramp steamers are slow, and he hasn't yet had time. If he takes a little longer to get well, I'll be there to look after him and bring him home."

The girl shook her head.

"You haven't thought about the main thing," she said quickly, leaning forward and resting her finger lightly on his arm, "or perhaps you thought of it, and were too kind to speak of it. After this, he may wake up—he may wake up the other man. I must go to him myself. I must be with him." Her voice became eager and vibrant: "I want to be the first living being he will greet."

Steele found a thousand objections rising up for utterance, but, as he looked at the steady blue of her eyes, he left them all unsaid. She had gone to South America of course she would go to France.

It would be imaginative flattery to call the lodgings of Alfred St. John and his daughter commodious, even with the added comforts that the late years had brought to the alleviation of their barrenness. The windows still looked out over the dismal roofs of the Quartier Latin and the frowning gray chimney pots where the sparrows quarrelled.

St. John might have moved to more commodious quarters for the days were no longer as pinched as had been those of the past, yet he remained in the house where he had lived before his own ambition died.

His stock-in-trade was his agency in handling the paintings of Frederick Marston the half-mad painter who, since he had left Paris shortly after his marriage had not returned to his ancient haunts, or had any parcel in the life of the art world that idolized him, except as he was represented by this ambassador.

St. John sold the pictures that the painter, traveling about, presumably concealing himself under assumed names sent back to the waiting market and the eager critics.

And St. John knew that, inasmuch as he had been poor, in the half-starved, hungry way of being poor, now his commissions clothed him and paid for his claret and, above all, made it possible for him to indulge the one soul he loved with the simple comforts that softened her suffering.

The daughter of St. John required some small luxuries which it delighted the Englishman to give her. He had been proud when she married Frederick Marston he had been distressed when the marriage proved a thing of bitterness, and during the past years he had watched her grow thin, and had feared at first, and known later, that she had fallen prey to the tubercular troubles which had caused her mother' death.

St. John had been a petty sort, and had not withstood the whisperings of dishonest motives. Paradoxically his admiration for Frederick Marston was, seemingly at least, wholly sincere.

In this hero-worship for the painter, who had failed as a husband to make his daughter happy, there was no disloyalty for the daughter. He knew that Marston had given all but the love he had not been able to give and that he had simulated this until her own insight pierced the deception, refusing compassion where she demanded love.

The man who rendered unto Marston their enthusiastic admiration were men of a cult, and tinged with a sort of cult fanaticism. St. John, as father-in-law, agent and correspondent, was enabled to pace along the Boulevard St. Michel as something of a high priest, and in this small vanity he gloried. So, when the questioners of the cafes bombarded him with inquiries as to when Marston would tire of his pose of hermit and return to Paris, the British father-in-law would throw out his shallow chest, and allow an enigmatical smile to play in his pale eyes, and a faint uplift to come to the corners of his thin lips, but he never told.

"I have a letter here," he would say, tapping the pocket of his coat. "The master is well, and says that he feels his art to be broadening."

Between the man and his daughter, the subject of the painter was never mentioned. After her return from England, where she had spent the first year after Marston dropped out of her life, she had exacted from her father a promise that his name should not be spoken between them, and the one law St. John never transgressed was that of devotion to her.

Her life was spent in the lodgings, to which St. John clung because they were in the building where Marston had painted. She never suggested a removal to more commodious quarters. Possibly, into her aplid life had crept a sentimental fondness for the place for the same reason. Her weakness was growing into feebleness. Less, each day, she felt like going down the steep flights of stairs for a walk in the Boulevard of St. Michael, and climbing them again on her return. Moreover, each day, she leaned on his supporting arm. All these things St. John noted, and day by day the traces of sandy red in his mustache and beard faded more and more into gray, and the furious between his pale blue eyes deepened more perceptibly.

St. John had gone one afternoon to a neighboring atelier, and the girl, wandering into his room, saw a portrait standing on the easel which St. John had formerly used for his own canvases. Most of the pictures that came here were Marston's. This one, like the rest, was unsigned. She sank into the deeply cushioned chair that St. John kept for her in his own apartment, and gazed fixedly at the portrait.

It was a picture of a woman, and the woman in the chair smiled at the woman on the canvas.

"You are very beautiful—my sister-in-law!" she murmured. For a time she studied the warm, vivid tones of the painted features, then, with the same smile, devoid of bitterness, she went on talking to the other face.

CHILDREN AND DISCIPLINE.

Make the Child Trust You, and Use No Threats.

The following hints to teachers which appeared in the Educational Review will be equally useful for parents.

Prevention of wrongdoing is better than punishment of the wrongdoer.

Exercise great care in taking a stand that you may have no occasion to retreat.

Fault-finding is not calculated to cure a fault.

Distrust in the parent breeds deceit in the child.

A child properly employed gives no trouble.

Be firm.
Be kind.
Be patient.
Be self-contained.
Be as perfect as you ask your children to be.

And above all, make no threats.

ENGLAND AGAIN AIDS ITALY.

Provides 70 Freighters to Carry Wheat and Coal.

As a result of the mission of Baron Mayor des Planches, formerly Italian Ambassador at Washington, to London, the British Government has agreed to place at Italy's disposal seventy freight vessels of about 5,000 tons each to transport to Italy 350,000 tons of wheat at once and 50,000 tons of coal a month for the State railways during the war.

The Italian Government undertakes to charter these ships at the same rates paid by the British Admiralty for ships requisitioned for the public service. To expedite the discharge of cargoes in Italian ports the Italian Government, will, when necessary, militarize harbor laborers, who will be considered as soldiers and be bound to obey the naval authorities in everything connected with the hours of work and the amount of cargo unloaded daily.

ON THE FARM

Prepare Good Seedbed

The promise of an early Spring will attract the attention of farmers to the approach of the grain-sowing season. The first crop considered by the majority is oats, and the buying of seed or preparing of the home-grown grain for seeding should be looked after at once.

The best way to sow oats is with the grain drill. Drilling gives a more even stand than broadcast seeding, for all the seed is covered to about the same depth. In sowing broadcast some of the seed may not be covered at all, and some may be covered too deeply. Germination is better from drilled seed and the growth is more uniform throughout the season. In numerous tests at the experiment stations drilled oats have outyielded oats sown broadcast by several bushels to the acre. Better stands of grass and clover can also be obtained in drilled than in broadcast oats.

The best depth to sow oats varies with the soil and the season. In any case they should be covered with half an inch to an inch of moist soil. They should be sown deeper in sandy soils than in loams or clays. Deeper seeding is also necessary when the ground is dry than when it is moist. On the average the best depth is from one to one and a half inches.

Oats should be sown as early in the Spring as it is possible to make a good seed bed. The exact date of course varies with the season and with the locality. This does not mean that the preparation of the land should be neglected in order to sow early. Better yields will be produced from seed sown in a good seed bed than from that sown a few days earlier in ground too cold and wet for the seed to germinate.

In a good seed bed the best rate of seeding in the corn belt is about two and a half bushels to the acre. If the seed is sown broadcast, more is necessary. More seed is required in a poor seed bed than in a good one, as fewer seeds are likely to grow. A lower rate of seeding may be used for small-kernelled varieties than for large-kerneled ones for there are many more of the former in a bushel.

Allow the Winter protection provided the plants last Fall to remain upon the plants for some time to come. It is during the alternate freezing and thawing weather of late Winter and early Spring that the protection is most needed.

Maintaining Humus in the Soil.

A valuable pamphlet has just been issued by the Nova Scotia Department of Agriculture. It deals with soils, soil cultivation and crops in that province, being a reprint of a series of articles appearing in the annual report of the Secretary for Agriculture for the year 1915. The articles have been specially prepared by experts and contain a fund of valuable information for farmers generally. In an article prepared by Mr. Cumming appear the following valuable hints on humus:

Humus may be maintained or even gradually increased by the following practices:—

(a) Live stock farming, with its attendant use of barnyard manure.

(b) Reasonably short rotations in which clover and grass soils are plowed under at not more than 3 to 5 years intervals.

(c) The use of clover, always, when seeding down.

(d) The plowing under in extreme instances of green crops, such as buckwheat, rye, clover, vetches, etc.

(e) When commercial fertilizers are largely depended upon, short rotations and the plowing under of green crops are absolutely necessary.

The humus supply may be depleted by the following practices:—

(a) Selling hay and other products off the farm instead of feeding to live stock.

(b) Careless preserving of barnyard manure.

(c) Growing too many successive crops of oats, etc. or roots or even hay (the latter is the most common source of humus depletion in Nova Scotia).

(d) The wrong use of commercial fertilizers.

In a light, open soil, humus is rapidly decomposed and lost, and consequently one must apply manure more frequently and follow a shorter rotation in order to conserve the humus supply than on heavier soils.

Reduce Fire Risks.

The average farm building is a fire trap from one end to the other. It is full of readily inflammable material. Once started, a farm fire is very seldom stopped. We will suggest a few precautions which we take to reduce fire risks.

If a lantern is upset almost anywhere in the ordinary barn or stable, there is a litter of chaff around to take fire. The first precaution we would advise is to clean up the chaff and litter and eliminate this danger. Another precaution is never to set a lantern down where it can be knocked over. Everywhere in our barns we have convenient hooks or wires running from one end of the stable to the other on which the lantern may be suspended.

Spontaneous combustion is supposed to be the cause of many farm fires. Is there such a thing? A United States professor who has examined into hundreds of cases, states his belief that in almost all cases of so-called spontaneous combustion the heating of the forage was not sufficient to set the forage itself on fire, but that it got some smudge of oil or grease a-blazing. The dirty lantern carried into the hay mow is a prolific disturbutor of oil dirt. The best preventative is to throw down the hay by daylight. A lantern in which the burner is always kept clean, however, is not so liable to distribute oil...

We never let the tramps sleep in our barns, no matter how solemnly they swear that they will not smoke or throw matches around. They are a prolific source of farm fires. We restrain our own love for "the weed" when we are around the buildings. Farm and Fireside, compares a smoking man to a walking stick of dynamite, and they are about right. There may be dozens of other methods of reducing fire risks. These are a few.—J. Fraser in Farm and Dairy.

The Virtue of the Natural Leaf
is perfectly preserved in the sealed

"SALADA" B104

packet. Young tender leaves only, grown with utmost care and with flavour as the prime object, are used to produce the famous Salada blends.

NO SMOKING ALLOWED.

Famous People Who Detested Tobacco in Every Form.

"A custom loathsome to the eye, hateful to the nose, harmeful to the brains, dangerous to the lungs, and in the blacke, stinking fume thereof nearest resembling the horrible Stygian smoke of the pit that is bottomeless."

So, on one occasion, wrote James I, who hated smoking more than he hated anything else; which recalls the fact that Swinburne, the poet, detested tobacco so much that he forgave James I. for being a knave, tyrant and coward because he "slit the throat of that blackguard Raleigh who invented this filthy smoking."

Gladstone and William Penn hated tobacco like poison, while Wellington abominated smoking to such a degree, and was so annoyed by the increase of cigar-smoking among officers of the army, that in the early 'forties he issued a General Order (No. 577) which contained a paragraph which would have delighted the heart of James I. It ran thus: "The Commander-in-Chief has been informed that the practice of smoking, by the use of pipes, cigars or cheroots, has become prevalent among the officers of the army, which is not only in itself a species of intoxication occasioned by the fumes of tobacco, but undoubtedly occasions drinking and tippling by those who acquire the habit."

Both Queen Victoria and the Prince Consort detested smoking, so tobacco was taboo wherever the court was. "On the other hand, many royal ladies of Europe, contemporaries of Queen Victoria and her son, have had the reputation of being confirmed smokers. Among them may be named "Carmen Sylva," the poetess-Queen of Rumania; the Dowager Czarina of Russia; the late Empress of Austria; King Alfonso's mother, formerly Queen Regent of Spain; the Dowager Queen Margherita of Italy; and ex-Queen Amelie of Portugal, says Mr. G. L. Apperson in his book, "The Social History of Smoking." It is, of course, well-known that Austrian and Russian ladies generally are fond of cigarette smoking. On Russian railways it is not unusual to find a compartment labelled "For ladies who do not smoke."

Among men of letters and artists who ignored the social prejudices in regard to smoking which Queen Victoria fostered was Sir John Millais. He is said to have smoked a clay pipe in his carriage during the first Jubilee procession of the Queen. William Morris was a pipe smoker, so was Rossetti, while Carlyle, as everyone knows, was a great smoker. The story is familiar—it may be true—that one evening he and Tennyson sat in solemn silence smoking for hours, one on each side of the fireplace, and that when the visitor rose to go, Carlyle, as he bade him good-night, said, "Man, Alfred, we hae had a graund nicht; come again soon."

TRAINING 15,600,000 MEN.

Russia Can Put Huge Army in Field Before 1918.

Colonel Koumetrof, who is now retired and whose activities are confined to army missions for the Russian Government, has just returned to Petrograd from a tour of the empire, including Central Asia, and has told the correspondent of the Paris Figaro that 15,600,000 Russian soldiers, of whom a certain part are already trained, can easily be put in the field between 1916 and 1918, if the war lasts that long.

"They are all men of sound constitution and of military age," he says. "We will leave in peace at home the men of the older classes corresponding to the old classes of the German landsturm. Russia has enough men of sound constitution and fit for war to make a breach in the German lines and destroy the Kaiser's strongest armies."

The Whale's Little Joke.

Tom—That saying, "It's hard to keep a good man down," is thousands of years old.

Dick—That so?

Tom—For a fact. That's what the whale told Jonah.

Obvious.

Father (reprovingly)—I you know what happens to liars when they die?"

Johnny—"Yes, sir; they lie still."

It pleases the average man more to have a woman tell him that he is the first man she ever loved than to have her tell him the truth.

NEW STRENGTH IN THE SPRING

Nature Needs Aid in Making New Health-Giving Blood.

In the spring the system needs a tonic. To be healthy you must have new blood, just as the trees must have new sap to renew their vitality. Nature demand it, and without this new blood you will feel weak and languid. You may have twinges of rheumatism or the sharp stabbing pains of neuralgia. Often there are disfiguring pimples or eruptions on the skin. In other cases there is merely a feeling of tiredness and a variable appetite. Any of these are signs that the blood is out of order—that the indoor life of winter has lessened your vitality. What you need in spring is a tonic medicine to put you right, and in all the world of medicine there is no tonic can equal Dr. Williams' Pink Pills. These Pills actually make new rich, red blood—your greatest need in spring. This new blood drives out the seeds of disease and makes easily tired men, women and children bright, active and strong. Mrs. Eugene Cadarette, Amherstburg, Ont., says: "I suffered for a long time from dizziness, pain in the back and sick headache, and nothing I took did me any good until I began Dr. Williams' Pink Pills. These cured me after taking six boxes and I now feel better than ever I did in my life. I had fallen off in weight to 82 pounds, and after taking the Pills I had increased to 100 pounds."

These Pills are sold by all medicine dealers or can be had by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Cultivating Apple Orchards.

Some points not well understood among ordinary farmers about orchard cultivation and fertilizing are brought out in a Fruit Branch circular. Mr. W. H. Gibson, Newcastle, who has very large acreage in orchards, grows beautiful apples. He does not leave quite 7 feet of soil around each tree. There is not much use in cultivating within five feet of the trees. None of you would put manure any closer than five or six feet to a bearing apple tree, because there is no such thing as a feed root as close as that to the trunk of the tree. This refers to a bearing tree only.

He tries to cheapen the cost as much as possible. He cultivates the orchard and then sows a strip to clover, about ten feet wide in each row, and cuts it with a mower the last part of June. It saves a great amount of labor in cultivating. He finds that in a dry year the trees will not bear as large apples as they would if cultivated, but in an ordinary year the size is good enough and the trees make plenty of wood. The feed roots are out beyond this strip with the rows 30 to 35 feet apart, that gives 25 feet of working ground in the centre and he sows cover crops in that. One year he sowed a cover crop of clover and then broke it up the following spring. He also mulched with manure. His orchards are near the lake and have a deep clay loam. Until this cover crop was used he could not get a good color in the fruit. He is sure that if he broke up this sod and cultivated close to the trees, he would not get as good color as he has been getting.

This bit of practical information from a man who knows much about apple growing and orchard culture will be appreciated by all who have orchards on their farms. Too many neglect to cultivate orchards properly.

GLASS OF WATER

Upset Her.

People who don't know about food should never be allowed to feed persons with weak stomachs.

Sometime ago a young woman had an attack of scarlet fever, and when convalescing was permitted to eat anything she wanted. Indiscriminate feeding soon put her back in bed with severe stomach and kidney trouble.

"There I stayed," she says, "three months, with my stomach in such condition that I could take only a few teaspoonfuls of milk or beef juice at a time. Finally Grape-Nuts was brought to my attention and I asked my doctor if I might eat it. He said, 'yes,' and I commenced at once.

"The food did me good from the start and I was soon out of bed and recovered from the stomach trouble. I have gained ten pounds and am able to do all household duties, some days sitting down only long enough to eat my meals. I can eat anything that one ought to eat, but I still continue to eat Grape-Nuts at breakfast and supper and like it better every day.

"Considering that I could stand only a short time, and that a glass of water seemed so heavy, I am fully satisfied that Grape-Nuts has been everything to me and that my return to health is due to it.

"I have told several friends having nervous or stomach trouble what Grape-Nuts did for me and in every case they speak highly of the food."

"There's a Reason." Name given by Canadian Postum Co., Windsor, Ont.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

PREMIER HUGHES.

His Speeches in Britain Have Caused a Sensation.

The Hon. William Hughes, Premier of Australia, is causing the British people to sit up and take notice. Says the London Tatler, from which we reproduce the accompanying photograph:

"His amazing career from odd-job man to Premier is the wonder and admiration not only of Australia, the scene of his labors, but of the Empire he dreams and slaves for. It is said that great crisis throw up the great men necessary to deal with them, but up to the present, although England as a whole has risen to the occasion, no outstanding personality has

Sir William Hughes.

arisen here throughout this great war. Hughes is great in thought and execution, with an unerring faculty of simple and clear expression. He realizes the necessities and opportunities not only of the war, but, what is even as important, of the period after the war. He stands for a sound Imperialism, and it may be given to him to realize the dream of Joseph Chamberlain of a united Empire, whose citizens will not in prosperity forget their first duty, namely, the knowledge of how to defend their homes."

JOKES WITH DEATH UP IN THE AIR

ALL IN THE DAY'S WORK OF THE AVIATOR.

Mixtures of Tragedy and Comedy Found in Life of the War Flyers.

"Humors of War in the Air," is the subject of an interesting article in the London Daily Express by Mr. C. M. Grey, editor of the Aeroplane, in which he narrates an aviator's version of the old farce "Box and Cox" and some incidents of Turkish "chess."

"A story that appeared in a Turkish communique the other day relating how a Turkish aviator dropped bombs near one of the allies' cruisers and caused her to change her course, after which he attacked a destroyer with his machine gun," he writes, "is probably something of an exaggeration, but it would be quite a mistake to put it down as an absolute fabrication, because people who have quite a high opinion of the Turks as fighting men and even respect their aviators. The Turkish communique refers to the aviator as a Turk, but the pilots of the Turkish aeroplanes have been Germans chiefly.

"There is one incident, however, related to me by an officer who has just returned from Gallipoli, of which the hero was more likely to have been a Turk than a German, for the German, although he may on occasion fight quite well, does not apparently believe in taking chances purely as a sport.

The Diving Aeroplane.

"One night when things were fairly calm both in the air and on the ground the sound of an aeroplane engine was heard approaching the British lines. It drew nearer and nearer, and it was evident from the sound that the aviator was flying very low. Suddenly he appeared over a certain part of the British camp so low that he could have been hit with a revolver if anybody had seen him in time. As he went he dropped several bombs, which did no particular harm. Half a dozen officers rushed out of their tents and began firing at him, the sound of his engine stopped, and his machine was seen to throw up its tail, and dive down over the cliff at the edge of the plateau on which the camp stood.

"Everybody thought he had been hit and had fallen into the sea or on the sand just over the cliff edge. Much to their surprise, a few seconds afterward his engine was heard running again, and a minute or so later there was a burst of firing a mile or two out at sea.

"Next morning a destroyer came in and said that, hearing the noise of bombs in the camp, some of the officers had come on deck and were looking up at the shore when suddenly an aeroplane dived off the cliff, flew straight at them almost level with the water, and as it passed raked them from end to end with a machine gun.

"Dinner, I Think."

"Another incident which occurred very early in the Gallipoli operations also has its humorous side.

"On this occasion two British officers went up and discovered that their machine refused to rise more than about three thousand feet. Somewhere above the Turkish lines a shell burst almost under the tail, and the machine stood on its head. The pilot pulled it out of its dive and had climbed to the best height the machine could reach when another shell burst on one side of it and tipped it up so that it did a terrific side slip and again lost several hundred feet.

"Once more he pulled it up, and had climbed to his maximum when another shell burst right in front, and he and his passenger saw the shell case drop past them within a foot or two of the body of the machine. The pilot scribbled something on the writing block fixed in front of him, handed the paper back to the passenger, and turned the nose of the machine for home. As the machine turned round the passenger read the comforting words, 'Dinner, I think!'"

Spreading Good News Broadcast

WANTS EVERYBODY TO KNOW DODD'S KIDNEY PILLS CURED HIM.

Louis Champagne, After a Long Period of Sickness and Weakness, Says He Found New Health in Dodd's Kidney Pills.

Millerand, Ont., May 8th (Special.)—Strong and hearty again after a long period of weakness and ill-health, Louis Champagne, a well-known resident of this place, is spreading broadcast the good news that he found new health and strength in Dodd's Kidney Pills.

"For a long time," Mr. Champagne states in an interview, "I suffered from kidney disease and backache. My appetite was uncertain, and I got up in the morning with a bitter taste in my mouth. There were flashes of light before my eyes, and I had a dragging sensation across the loins. My limbs were heavy and I was always tired.

"Then I decided to try Doddy's Kidney Pills, and I am glad to be able to say that two boxes made me well. I recommend Dodd's Kidney Pills to all those who suffer from feebleness or bad kidneys."

If you have the symptoms mentioned by Mr. Champagne you may be sure your kidneys need attention. Neglected kidneys are the cause of more than half the ills mankind is heir to. The way to treat sick or weak kidneys is to use Dodd's Kidney Pills.

THE HUMORS OF GREAT MEN.

Mr. Gladstone and Dean Stanley at Home.

The London correspondent of the Boston Transcript, speaking of a new volume edited by the publisher, Mr. John Murray, said:

Mr. Murray drew an amusing picture of Gladstone in bed. "The last time I was at his house," he said, "I had breakfast early one morning alone as I was going to Scotland. When I had finished, I was told that Mr. Gladstone did not know that I was leaving so early, and that he wanted to have another talk with me. I went to his bedroom, a very large room with a double bed in it.

"Gladstone was dressed in a night gown, with a brown Shetland shawl round him. He was lying flat on his face, his head at the foot of the bed and his feet on the pillows. In one hand he held a cup of coffee and the other was a book in the other. I shall never forget that interview and the eccentricity of the great lion head popping up as I went toward him."

"Ah," said the dean, "you need not be afraid of the duck! I have my foot on it."

Reversing It.

"I'll take this hat at $6."

"But the madam is trying it on upside down."

"And the price tag, too, eh? Um! It's $9 now."

Rich.

"Is this land rich?" asked the prospective purchaser, cautiously.

"It certainly ought to be," replied the gentleman-farmer. "I have put all the money I had into it."

Some hair is premnturely grey and some is prematurely dyed.

You Owe Yourself this Rare Treat

after the heavy meats and the canned vegetables of the Winter—with a jaded stomach and rebellious liver—**Shredded Wheat with Strawberries**—a dish that is deliciously nourishing and satisfying—a perfect meal, and so easily and quickly prepared. For breakfast, for luncheon or any meal.

PRODUCTION AND THRIFT.

Why We Should Save and How.

A pamphlet has been issued by the Parliamentary War Savings Committee in Britain entitled "Why We Must Save and How." As it is intended to illustrate the possibilities of saving by all classes there are necessarily many hints calculated to be of value the world over and especially in affiliated countries. In the first place it combats the notion that those people who spend all they make are necessarily benefiting trade. On the contrary those who save wisely advantage themselves, their neighbors and their country. Spending money on luxury gives a certain amount of employment, but nothing like the employment that investment in desirable and necessary articles does. The best way to convey the meat in this useful and timely pamphlet would seem to be to summarize its contents in brief, emphatic sentences:

Thrift is a national duty, so that the money thus saved may be invested with the government.

The more goods we buy at home and the more we make and send abroad the richer the country becomes.

Every dollar borrowed abroad that might be obtained at home means money going out of the country.

By devoting all our energies to producing things useful and abandoning the purely ornamental and the luxurious we are helping the country.

The only money judiciously spent is that that keeps ourselves in health of mind and body and thus by investment in productiveness helps in the progress of the land and the country.

Women are the main power in the campaign for thrift. As leaders of the home they can best foster economy in food and clothing.

Reduction in meat-eating might be generally practiced without loss of strength.

Cheese is one of the best and most wholesome substitutes for meat.

Economy and good digestion are aided by never eating bread that is not at least 24 hours old. Ten per cent. of the cost of bread would be saved by rigidly adhering to this simple practice.

Fewer courses at dinner would not mean any wearing on the health, but less work and more saving.

It is in dress that women could best economize. Frugality of material does not mean less attractiveness.

Excessive expenditure on weddings and funerals should be avoided.

Later released from the manufacture and sale of things that can be dispensed with is available for other and more useful work.

Expenditure on golf, tennis and other games of pleasure could be beneficially curtailed.

The giving of presents on all trivial occasions is to be discouraged and, when given, they should be of an inexpensive and useful character.

Presents and gifts might take the form of war-loan vouchers.

Much money might be saved by spending less on hobbies.

Neighbors could benefit each other by systematically combining to buy food in quantities and sharing it.

Economy to-day means riches in the future.

The only luxury the Empire can afford is victory.

Next to a woman, the most changeable thing in the world is another woman.

MOTHERS

REMEMBER! The ointment you put on your child's skin goes into the system just as surely as food the child eats. Don't let impure fats and mineral coloring matter (such as many of the cheap ointments contain) get into your child's blood! Zam-Buk is purely herbal. No poisonous coloring. Use it always.

THE HILLS OF DEATH.

Hardships and Perils of Italian Troops in Carso.

The London Morning Post's correspondent on the Italian front writes: The hills of Carso might well be called hills of death. The main characteristics of this army, whose achievement is sometimes wrongly considered slow or too careful, is that it has never given up an inch of ground conquered on a front of more than 600 kilometres. Each shell as it bursts scatters the rocks in a thousand splinters, deadly as bullets. This is one reason why the Italian losses are so heavy. Many corps have been living for months under these terrible conditions. It made me shudder to see many soldiers, exhausted by fatigue, asleep leaning against a trench parapet, with mangled remains unspeakably horrible sticking out in many places.

The Austrians have concentrated about a million men in front of the sector of Gorizia and on the Carso. The next offensive will be one of the greatest battles of the war.

MOTHER AND BABY.

The fond mother always has the [illegible] of an ugly much that I did not heard of Lydia E. Pinl I thought I would give well as ever. I cannot [illegible] Lydia E. Pinkham remedies."—Mrs. Mayme Asher, Lawton, Okla.

Looking For The Dog.

A visitor to a small country town lost his dog, an animal which he prized very much. Rushing to the office of the local newspaper he hurried in an advertisement, offering fifty dollars reward for the return of his dog. Half an hour later he thought he would add to the advertisement the words: "No questions asked." So he hurried off to the office again. When he got there the place was empty save for a little boy, who looked very sulky. "Where's the staff?" asked the tourist, glancing round the deserted room. "Out looking for your dog!" was the aggrieved retort.

[illegible] day for Minard's and take no other

Grasp and Grip.

They were alone in a shady nook, [illegible] had timidly declined his love for [illegible] fair lady, but the response was [illegible] cold. "No, George," she said. "I [illegible] like you; but you lack go and fruitfulness." "What—what do you mean, Genevieve?" he gasped. "Oh," he replied, "I'm knowing my trade!" He won the girl.

BRANCHES IN ALL CITIES

The Paisley Advocate

PAISLEY, MAY 17th, 1916

—It is reported that the Austrian fodder committee has offered to pay good prices for dried June bugs, to be used as cattle fodder. Well, it appears to the agricultural editor of THE ADVOCATE, that had all the war bugs been gathered up in 1914 and thoroughly dried, there would now be no necessity for departing from the old reliable ration of hay for the cows.

—By the shooting down of F. Sheehy Sheffington without trial in Dublin, the people of that city got a taste of what real militarism would be like. The hasty and over officious officer guilty of the crime may be punished, however, and that's more than would occur under German military rule. After the recruiting campaign that has been carried on in this county, we can readily realize how lives might be sacrificed even in Canada were we under military rule. Some men become such tyrants when they get into an officer's suit that they are liable to say or do very troublesome things because of the exaggerated idea of their positions and the duties attached thereto.

—The facts being brought out by the fuse contracts investigation have proven that the charges made by Geo. W. Kyte, M.P., were fully warranted. A story of the operations by the speculators who have made millions out of the contracts without giving anything of value to the country supplying the funds, is one that rivals the most fabulous tales of mystery ever invented. Agents are sure entitled to their commissions, and manufacturers to their profits, but when it comes to doing things as they have been done according to the evidence in this investigation, it can only be termed robbery, and robbery of such a kind that some of the guilty ones should be kicked to death as traitors. Hanging or electrocution is really too kind a method for punishing the class of crime that is being committed in the name of business at this war stage of the world. While millions of men are being sacrificed in the trenches, and many more millions of human hearts deadened by the loss of husbands, fathers, sons and brothers who have gone to fight for their country, here are a score of business buccaneers taking the biggest rakeoffs ever heard of out of contracts made in the interests of the fighting men and all they are fighting for. The Judas Iscariots of to-day don't as a rule hang themselves. Nevertheless, they shouldn't escape strangulation in some form.

VILLAGE COUNCIL

A special meeting of council was held on May 11th. Members all present except Mr More.

George—Sperrow—That whereas, the first fatality amongst those who enlisted from Paisley in the war zone has occurred in the person of Pte Thomas Babcock, this council considers it advisable and becoming that a public religious memorial service be held on behalf of the deceased, and believe that such religious services would meet with the hearty approval of the community;

And whereas, our four local clergymen have graciously expressed their desire to co-operate in conducting such services;

And whereas, the pastor of Knox church, on behalf of himself and congregation, has kindly offered their large and comfortable edifice for that purpose;

Be it therefore resolved that such services be held on Sunday next in Knox church at 7 p.m.;

And be it further resolved that in the event of further fatalities amongst Paisley soldiers similar memorial services will be held on the Sunday next following the receipt of such information, at the place and time and in the manner hereinbefore stated.

—A new pipe organ is being installed in Shelburne Presbyterian church, half the cost being procured from the Carnegie Trust.

LOCAL AND DISTRICT NEWS

Now Training in England

Several more native sons of Paisley or vicinity have recently reached the soldiers' training camps in England: Major Neil McLean and Pte Norval Kyle, with the 65th, of Winnipeg; Tr. Wilfred McArton, of the 10th C M R; Pte. Millard W. Switzer, of the 79th, Brandon; Pte. Otto and Ivan Scott, with the 4th Divisional Cyclist Corps, Toronto.

Homestead Grant for Soldiers

Militia orders from Ottawa announce that the way is now open for every man serving in the Canadian forces to secure for himself a homestead, the time spent on active service to count as residence duty on land. Homesteads thus secured will be protected against cancellation, and in event of a man receiving wounds which result in disability so he cannot complete his homestead duties on return to civilian life, he will receive his patent without further effort.

A Member for Fifty Years

Mr. Wm Houston, M.A., chairman of the Toronto Board of Education, in welcoming the delegates of the Ontario Educational Association, said; "I claim fifty years membership of this association and have not missed more than ten years' attendance. I say this because I want to impress upon the younger generation the importance of attending these conventions. I am strongly of the opinion that of all the organized bodies I have ever known, and without the help of a legal incorporation this association has done more than any other class in helping and uplifting childhood."

Presbyterial W.M.S.

The annual meeting of Bruce Presbyterial Women's Missionary Society was held in Port Elgin on May 11th, fourteen auxiliaries being represented. The President, Mrs Hogg of Southampton, occupied the chair. Mrs Munro, in a cordial little speech, welcomed the delegates, and the Hon. President, Mrs Robertson, replied, adding a few words inciting the members to deeper consecration and more earnest service. In the address of the President, Mrs Hogg, some of the points noted were: that we have no auxiliary, but not a mission band, in every charge in the Presbytery; that the deficit in the general society was not the fault of the Ontario Provincial Society, as it had an increase of $11,000 last year, but Ontario members gave an average of $2.37 each, while Quebec members give $3.15 each. Alberta and Saskatchewan also gave more per member than Ontario. Miss Cass of Chesley, missionary elect for Corea, kindly offered to help any society in any way possible before her departure next fall. Following are bare summaries of the reports given by secretaries: There are 20 auxiliaries with a membership of 448, contributing $1402 39; 9 mission bands, with a membership of 340, contributing $164; 119 home helpers contributing $145 20; total contributions for 1916 $1712 59. Twenty bales of clothing valued at $349 30 were sent to Toronto and the Indian school at Kenora. Members take 354 copies of our Missionary Messenger. Greetings from the Presbytery were extended by Mr Robinson of Tiverton. Mrs McEroy of London, in her address showed how, by organizing a department of home helpers, we could get the interest, sympathy and prayers of those unable to be present at our meetings—business girls, mothers with small children, the old and the sick. Helpful hints from the Provincial meeting in London were most interesting as given by Miss Robertson of Southampton. The roll call showed 61 out-of-town delegates. Greetings were brought to the meeting from the sister societies of the Baptist, the Episcopal and the German Evangelical churches. Hanover is to be the next place of meeting. All the former officers but two were re-elected. Mrs Sowers and Mrs Dougherty resigned and Mrs MacNab and Mrs McLaren took their places. Appropriate closing words were given by Mrs Staples, a delegate from Hanover. At the evening meeting the chair was occupied by Rev Mr Hogg of Southampton. The speaker of the evening was Mrs McEvoy of London, who took her hearers over 21 mission fields and showed what the Women's Missionary Society must do to hold these "trenches" in fighting to bring the world to Christ. Music was furnished by the choir of the church. The ladies of the church provided dinner and tea for all the W M S delegates and and members of Presbytery.

Why We Should Save and How

A pamphlet has been issued by the Parliamentary War Savings Committee entitled "Why We Must Save and How." As it is intended to illustrate the possibilities of saving by all classes, there are necessarily many hints calculated to be of value the world over, and especially in affiliated countries. In the first place it combats the notion that these people who spend all they make are necessarily benefitting trade. On the contrary, those who save wisely advantage themselves, their neighbors and their country. Spending money on luxuries gives a certain amount of employment that investment in desirable and necessary articles does. The best way to convey the meat in this useful and timely pamphlet would seem to be to summarize its contents in brief, emphatic sentences, as follows:—

Thrift is a national duty, so that money thus saved may be invested with the government.

The more goods we buy at home and the more we make and send abroad the richer the country becomes.

Every dollar borrowed abroad that might be obtained at home means money going out of the country.

By devoting all our energies to producting things useful and abandoning the purely ornamental the luxurious we are helping the country.

The only money judiciously spent is that which keeps ourselves in health of mind and body and that by investment in productiveness helps in the progress of the land and the country.

Women are the main power in the campaign for thrift. As best leaders of the home they can best foster economy in food and clothing.

Reduction in meat-eating might be a general practised without loss of strength.

Cheese is one of the best and most wholesome substitutes for meat.

Economy and good digestion are aided by never eating bread that is not at least 24 hours old. Ten per cent. of the cost of bread would be saved by rigidly adhering to this simple practice.

Fewer courses at dinner would not mean any wearing on the health, but less work and more saving.

It is in dress that women could best economize. Simplicity of material does not mean less attractiveness.

Excessive expenditure on weddings and funerals should be avoided.

Labor-released from the manufacture and sale of things that can be dispensed with is available for other and more useful work.

Expenditure on golf, tennis and other games of pleasure could be beneficially curtailed.

The giving of presents on all trivial occasions is to be discouraged and when given they should be of an inexpensive and useful character.

Presents and gifts might take the form of war-loan vouchers.

Much money be saved by spending less on hobbies.

Neighbors could benefit each other by systematically combining to buy food in quantities and sharing it.

Economy to-day means riches in the future.

What Is Uric Acid?

THE CAUSE OF BACKACHE, RHEUMATISM, GRAVEL AND SUDDEN DEATH.

Ever since the discovery of uric acid in the blood by Scheele, in 1775, and the bad effect it had upon the body, scientists and physicians have striven to rid the tissues and the blood of this poison. Because of its overabundance in the system it causes backache, pains here and there, rheumatism, gout, gravel, neuralgia and sciatica. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and completely eradicate this uric acid from the system. "Anuric" has proved to be 37 times more potent than *lithia*, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send to Dr. Pierce, of the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., for a pamphlet on "Anuric," or send 10 cents for a trial package of "Anuric Tablets."

If you feel that tired, worn-out feeling, backache, neuralgia, or if your sleep is disturbed by too frequent urination, go to your best drug store and ask for Dr. Pierce's Anuric Tablets. They are put up in 50-cent packages.

Doctor Pierce's reputation is back of this medicine and you know that his "Golden Medical Discovery" for the blood and his "Favorite Prescription" for the ills of women have had a splendid reputation for the past fifty years.

Doctor Pierce's Pellets are unequaled as a Liver Pill. *One tiny Sugar-coated Pellet a Dose.* Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

To the Memory of a Soldier

The Late Pte. Thos. Babcock

Killed in Action April 28th, 1916

Enlisted with the 34th Overseas Battalion at London, but was drafted into a detachment for reinforcement of the 1st Battalion, and went overseas in July, 1915. After training for a term at Shorncliff Camp in England, he went to the trenches in Belgium in August, he and Sam Fleming being the first of the boys enlisted here to see active service. Pte. Babcock was 20 years old.

Memorial Service

In accordance with arrangements made by the council and the ministers of the different denominations, a union memorial service was held in Knox church on Sunday evening, which was attended by a much larger congregation than could have been accommodated in the town hall, where it was first proposed to be held. All the ministers were present, and took part in the impressive services. The sermon was preached by Rev. Mr. Neilson, pastor of the Baptist church, the deceased having been a member of the Bible Class in that church. The singing was led by a union male choir, with Dr. Cage as organist. Draperies, flowers and a stand of rifles upon the platform made appropriate settings.

THE SERMON

"The Lord gave, and the Lord hath taken away; blessed be the name of the Lord."—Job 1: 21, was the text chosen by Rev Mr Neilson as applicable to an occasion such as this, where the people have assembled to do honor to the memory of a hero who has laid down his life for his King, country and empire. The speaker said: "We are much readier to acknowledge God in the things that He gives than in the things which He takes away from us. It is always much easier to recognize love when its gifts enrich us and add to our happiness and peace, than when its withdrawals bring the cloud of sadness and anxiety, of sorrow, discomfort and restitution into our lives. The secret of abiding hope and blessing is in the recognition that the same hand from which we receive the gifts is the hand which withdraws them also. It is never an easy task to reconcile the bitter things of life with our ideals of happiness, and there are occasions common to us when the very sorrows of the way threaten to turn our faith into blind unbelief. We cannot always understand the seeming contradiction, but we have grown accustomed to the truth that all our joy is touched with pain, and we now expect a thorn in every rose. At this time the thorns are in abundance. Sorrow and grief have become the commonplaces of our daily life, and there is apt to creep over us a feeling that nothing really matters. It is in the hour of such calamity that we need the grace of a quiet spirit; for if we can preserve the early onslaught of our grief it is not unlikely that we shall emerge chastened and strengthened by the ordeal.

"The Lord gave and the Lord hath taken away; blessed be the name of the Lord." These words are not a mere expression of stoical indifference; they are are really an interpretation of this seeming calamity, and an interpretation, mark you, that this child of God was ready with. It seemed to be entirely spontaneous. Immediately upon receipt of the staggering news this man had the interpretation of the seeming unkindly Providence at hand—"The Lord gave and the Lord hath taken away." This, at least is testimony to the fact that he had lived to the secret of God's presence, that the secret of God's will had been disclosed to him, as well as that on the instant when his hopes were frustrated, when his whole world tumbled about him, he was ready with a satisfying interpretation to his own heart, and clear and unhesitating witness to those who brought him the evil tidings. It is a great thing for a man to realize, when he seems to be overwhelmed, that he is really overshadowed. It is a great thing to know that the Lord sometimes for His own purpose takes away His own gifts, and to realize this is often the pathway to the soul's greatest triumph. I need not remind you of more than the outline of the story of Job. It is a story which always makes strong appeal to suffering men, because it is a mirror of life as they find it. Here is a good man at ease, enjoying unclouded prosperity, to whom there comes tidings of the sudden loss first of fortune, then of family, and subsequently the experience of the loss of health. Everything which had made life delight, everything which had made him what he was—taken away at a stroke. He had a wife who was void of spiritual understanding, and a company of middle-some friends who could not understand that a man of professed goodness could be brought into such a state as that in which they found him. Their verdict was that his suffering was the cause of his sin; that, hidden beneath the mask of his piety, was some unchecked moral disorder with which God was now proceeding to deal. The reasoning seems specious—but as you read the full record you find that his sufferings had nothing to do with sin. This was not the punishing of sin so much as the perfecting of righteousness in this man. As you read the record you find that his burdens became heavier, his perplexities became greater, his darkness became thicker, his loneliness became more terrifying. The sympathetic understanding which often helps men in such circumstances, became yet rarer to Job; yet in the end you realize that you have been reading the story of a triumphant soul; of a man who in these things had been prepared by God for infinitely greater prosperity than hitherto he had ever known; you find you have been reading the story of a man whose true interests have been advanced by his losses, whose life has been enriched by its limitations, and whose spirit has been made more fruitful by the promises to which his life had been subjected. "The Lord gave and the Lord hath taken away." First of all, we see the faith of this man who can utter this word, as I have said spontaneously, without premeditation as it would seem—his faith is that God is the author of these mystifying losses, just because God never contradicts himself. In the dim past of his experience Job had come to know God, and had had a supreme disclosure of God's will, and to this vision he clung in the darkness, of that assurance from God he laid fast hold in the days when everything seemed to contradict it. The conviction grows upon one every day that God never intended any one of us to be equal to the straits of life apart from the Divine reinforcement of His grace. We were never meant to be able to face life without God. That is the lesson that God is impressing upon His people at this time. World to God we might learn it individually and as a nation. Job was able to sing, to the wonderment of those who heard him and who saw his state, because he realized these reinforcements of God's own nature in the hour when he most needed Him.

I bring you this word to-night, because I am very conscious that there are those in this gathering whose hearts are crushed—there are those here from whose lives has gone all the brightness. Loved ones have been taken. The child of many prayers has been shot down on the fields of France. There are some here to-night who have lost precious opportunities for the exercise of influence in God's service. There are some who have lost health, mental vigor and alertness. All around us hearts are crying out "My God, why?" I want to help such to-night to realize that all our seeming losses—it our lives are truly Christ's—are really gains. There is no alternative solution to some of these apparently inexplicable things in life. You may consider second causes if you like, but I have yet to find that the consideration of second causes affords any comfort, brings any peace, any lasting satisfaction. The only solution to this problem is God Himself. If our losses, our anxieties and sorrows are without any moral and spiritual meaning, then God's love is a mere myth. If these things have no moral and spiritual import in life, then I have believed in the love of God in vain. But, if it is true that the Lord sometimes takes away things, then this is the pathway to blessing unspeakable. May God help us to find it to night. I look round about, and I find that this word of Job is borne out by every observation of God's way in the world. For instance, every story of life has beebled it the story of loss. I look upon the orchard in its spring beauty—the fair blossom and the tender green leaf, and then that is taken away. Why? That the harvest of fruit may be reaped. I look at the achievement of men in every sphere of life and on every level, and if I am allowed to see the under side of their worthy achievement I see that it is a record of sacrifice, a record of loss. I do not think I strain the meaning or application of this word when I say that in God's greatest gift of all, in God's great Son and the Lord took Him away, and the taking away of the Son of God has been an eternal blessing to the world. We had not been gathered here to-night had the Lord not taken away the great gift that He gave to human forest to man. It is impossible to pass by in these circumstances the application of a word like this to the great affairs which perplex and trouble us all in our nation. Surely the Lord gave to our nation long peace, wonderful opportunity and power of expansion and influence; it was the Lord who gave to our land an honorable supremacy among the nations of the earth; it was the Lord who gave us that sense of security which you and I have always lived, and that consciousness of firm, strong establishment; and the Lord hath taken it away. The Lord hath taken it away, probably never to give it back in just the same way; for, believe me, behind and above all the machinations of evil which have resulted in this terrible strife is the permissive will of God. If I did not believe that I had no word to say to-night. If I did not believe that I would be floundering in the black sea of doubt. Above the noise of the strife I think I hear God saying to our nation, to this country and individuals: "As many as I love I rebuke and chasten; be zealous, therefore, and repent."

Sometimes God withdraws His gifts from nations as from men, because they have been misused or perverted, and their return is withheld until that nation or that man can say: "Blessed be the name of the Lord." I do not want to speak only in this general way to-night, but to personal and individual cases in this audience to whom these words are very specially applicable. I do not know if this message is for more than one or two, but I pray God to bless it to such ones. These seeming unkindly methods of God are justified by the character-product in the lives of His people. It is often by our tears that our eyes can be cleansed from the sin dust which mars their vision. It is only by our sorrows experienced that our intuitions and sympathies are quickened, until we ourselves become to some degree representatives of our Lord in all His sympathy and insight with human need.

Notice what we learn from sorrow. It is only our sorrows that quicken our sympathies until we can touch broken hearts without making them wince, until we can stand where others stand and weep with them that weep, and unselfishly rejoice with those that rejoice. We are better men and women, we see further into the hearts of things and into the plans of God when He has taken away some of the brightness which has hitherto encircled and illumined our lives. Our anxieties and impoverishments deepen our dependence upon God. The loneliness of our spirits develops in us a sense of utter necessity of cultivating companionship with the Lord. The crushing of our proud aims makes us truly humble, and the consciousness of God's hand upon us invests life with a saving, sanctifying awe. That is what we need in these days. Sorrow is, if possible, more retrospective than forward looking. "A sorrow's crown of sorrow," says Tennyson, "is remembering happier things." If only we could forget, if only we could refrain from comparing the present with the sunlit past! When we are stripped of all that makes life a grand investment, the chief element in our grief is not so much in the thought of actual and immediate deprivation; it is the memory of what we had; it is the thought of the day that is dead. The mother who weeps for her brave son sleeping in some rough-hewn grave in Flanders, has a heavier cross than the ordinary observer knows, for she has to endure the pleading voice of the past as well as the agony of the present. And everything relating to those happier days is a sword in her heart. Her crown of sorrow is not the shell which hurled her precious boy into the unknown, but the cricket ball, the baseball, the few remaining tin soldiers, and the simple yet eloquent relics of childhood. Few of us have escaped the haunting charm of Constance Powell's little war poem: "An open drawer, a woman lowly kneeling, some crimson shoes, a tiny lock of hair, some childish toys—no engine and a trumpet, a headless horse, a battered teddy bear; some school-boy's books all inky, torn and thumb-marked; a treasured hat, his favorite cricket ball; the things he loved, the letters that he wrote her. And now she places on the top of all a soldier's sword, his photograph in khaki. The boyish eyes smile back into her eyes, while in her hand she holds at V. C. tightly, and in her heart a grave in Flanders lies." And so, by a mysterious law, our present grief is accentuated by our past gladness. It is the memory of what we were, of what they were, that weaves the crown of sorrow. For in the first shock of our grief, we are oppressed by its viciousness. If sorrow be an end, then God is no longer kind, and emphatically, no longer love. We are prepared to tear the creeds to pieces, and fling the confessions from us with merciless contempt. What matters heresy, orthodoxy, a creed to-day, fear or favor, when compared with our outraged hearts? And this very mood of ours is a complete demonstration of the fact that we have interpreted God better than we knew. The mood is God-like, and carries us back to a faraway scene, when another groaned in the spirit, and seeing the apparent victory of the enemy, wept by a graveside. Should not this be healing to our hearts? I say that Christ was indignant in the presence of death; it was an alien, an intruder; and we may be sure that He will ever have pity with our frail hearts, as we stand by our dead or by the face made sacred by them. Christ Jesus, our Lord, would teach us the real worth of sorrow, which is not that of an end in itself; but rather as a means to an end; and what is perhaps more important, He would inspire us to retain and maintain our old faith in the joyousness of life. It must be borne in mind that sorrow and pain have a unique ministry to perform, which, when once it is perceived, will help us, not a little, to adjust some of the painful conclusions regarding the goodness and love of God. Pain is a vital necessity to life, for without it we have no true or comparative sense of pleasure and happiness. Without pain God could never call forth those finer virtues of patience and sympathy, charity and long suffering which we all admit to be so necessary in the world. Sorrow there is in abundance, and much pain is the lot of men, but when we see that the seemingly brutal chiselling is the road to the perfect design, we grow more quiet, and if not reconciled, at least resigned. Even if we cannot see any wisdom in the crushing burden we have to bear, let us, as we walk with Jesus, believe and wait for no other process can the results be secured.

"The Lord gave, and the Lord hath taken away; blessed be the name of the Lord." I do not think this song ever sounds sweeter in the Lord's ears, and I do not think it is ever so powerful in its witness to the world, as when it rises courageously out of the silence of a crushed and stricken and broken heart, as when it is sung by quivering lips with breaking voice, as when the light of glad surrender to Him shines through tear-dimmed eyes. God help us to sing it in these days. It is the music of the gospel which will lead weary, earth-bound souls to Christ. The light of His love, the reality of His grace, and these translated into testimony in your stricken, crushed lives, will be the greatest force for the blessing of this world that has ever been exerted by divine grace through your life. So let us humble and bow ourselves before Him in reverent and glad certainty that what he does is right, that God does not contradict Himself, that His ministry of withdrawal is part of the process of grace to which I submitted myself at the first, that in this way God is doing what he could do in no other way for my life, for His glory and for the world in which he has set me as His witness."

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine —Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. MCCASLAND, 509 Have St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. OSGOOD, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Notice to Creditors

In the matter of the estate of William Cruickshank, late of the Township of Greenock, in the County of Bruce, laborer, deceased.

NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demands against the estate of the above named William Cruickshank, deceased, who died on or about the 14th day of April, 1916, are required to send by post prepaid, or deliver to the undersigned solicitor for the executors of the last will and testament of the said deceased, their names and addresses and full particulars of their claims and the nature of their securities if any, held by them duly certified by statutory declaration.

AND FURTHER TAKE NOTICE that immediately after said 1st day of June, 1916, the said executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have received notice, and that they will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by them at the time of said distribution.

Dated the 8th day of MAY, 1916.

The Housewife's Corner

Selected Recipes.

Ginger Nuts.—Three cups flour, one-third cup sugar, one-fourth cup butter, one cup molasses, one tablespoon allspice, two tablespoons ginger. Mix together in order given, roll with hands into small, flat nuts as large as a quarter and lay on pans lined with brown paper. Bake in very slow oven.

Prune Charlotte.—Stew one and one-half dozen large prunes. When cold remove stones and chop very fine. Whip pint of cream stiff with three tablespoons sugar, then whip minced prunes into this, line glass dish with ladyfingers and fill center with prune cream. Or serve in individual sherbet glasses. Leave in ice box until time to serve.

Grape Cornstarch Pudding.—To one pint boiling grape juice and paste made of two tablespoons each of cold water and cornstarch. Cook until starch taste is gone, then add one teaspoon butter, two tablespoons sugar, juice one one-half lemon and one-fourth teaspoon salt. Lastly, fold in one stiffly beaten egg white and pour into mold decorated with split almonds and citron slivers. When cold, turn out, and serve garnished with grapes.

Fruit Wheels.—Sift together two cups flour, one heaping teaspoon baking powder, one-half teaspoon salt and one tablespoon sugar. Rub in two tablespoons butter. Mix to soft dough with milk and roll out one-half inch thick. Spread with soft butter, dust with one teaspoon flour, four tablespoons sugar, one teaspoon cinnamon and sprinkle over one-third cup each of chopped, seeded raisins and cleaned currants. Roll up, cut into one-half inch slices, put one inch apart on greased pans and bake in hot oven.

Swiss Steak.—Three pounds bottom round steak, flour, two teaspoons salt, one-fourth teaspoon pepper, small piece of suet, one-fourth teaspoon mustard. Wipe steak carefully, dust on salt and pepper, rub in as much flour as it will hold—at least one cup—using edge of saucer to help grind flour in. Fry suet, add mustard, and brown steak in it on both sides. Almost cover with boiling water, boil rapidly five minutes, reduce heat and simmer three hours. This is good fireless cooker recipe. Before serving add, if liked, one-half teaspoon celery salt and one tablespoon Worcestershire sauce to gravey, which should be rich and brown, and not need more flour to thicken. Chopped mushrooms are also good to add.

Crown Roast of Lamb.—Mutton or lamb may be used for this handsome roast. Have butcher prepare it, and be sure that he sends home all trimmings as they constitute half the weight paid for and make up well into stew. Cover ends of bones securely with stripes of salt pork. Rub flesh with salt, or salt when partly cooked. Set in hot oven ten or fifteen minutes, then reduce heat, and, if necessary to keep drippings from burning, add hot water. Baste often and cook from forty-five to sixty minutes. Pre-cup in center of circle of meat to insure its shape. Before serving fill center with peas or blanched chestnuts, cooked tender in stock and glazed, or with Saratoga or French-fried potatoes.

When Milk Turns.

If the housewife will paste these recipes in her cookbook, it will not be a catastrophe when she finds the milk or cream has soured. She may even find that the family likes the new thing better than what she had planned.

Cake.—Cream one cup of sugar and one cup of shortening together. Sift together one and one-half cups of flour and a teaspoonful of soda, cloves, cinnamon and nutmeg and add it to the sugar, alternately with a cup of sour milk. Chop a couple of raisins, sprinkle them with half a cup of flour and add to mixture. Frost with a soft chocolate icing.

Cherry Pudding.—Beat one egg with a third of a cup of sugar. Add a cup of sour milk in which a fourth of a teaspoonful of soda has been dissolved, and a teaspoonful of melted butter. Then add a cup of flour and a cup of stoned cherries. Bake in a hot oven and serve with vanilla sauce.

Sour Cream Pie.—Beat two eggs till light, then add a cup of sugar, a cup of thick sour cream, half a cup of raisins and half a teaspoonful each of cinnamon and nutmeg. Bake between two crusts.

Dressing for Cold Claw.—Whip a cup of sour cream till stiff, then add half a cup of vinegar, slowly, half a cup of sugar, and salt to taste.

Ginger Balls.—Cream half a cup of sugar with half a cup of shortening. Add one egg, well beaten, a cup of molasses and a cup of sour milk in which a teaspoonful of soda has been dissolved. Sift a half teaspoonful each of cloves, cinnamon, ginger and nutmeg with a cup of flour and add. Then add enough more flour to make a rather stiff batter. Bake in gem pans.

Hermits.—Beat one egg and add a cup of sugar creamed with a half cup of butter. Then add half a cup of soda cream, a teaspoonful of soda, two tablespoonfuls of molasses, spice to taste, and half a cup each of chopped walnuts and raisins. Mix soft and drop from a spoon. These will keep a long time.

Sour Cream Filling for Cakes.—Whip a half cup of sour cream and add half a cup of powdered sugar and half a cup of blanched almonds, chopped fine. Flavor with vanilla.

Pancakes.—Dissolve half a teaspoonful of soda in two cups of sour milk and add one and one-half of breadcrumbs, one tablespoonful of melted butter and two or three eggs. Enough flour must be added to make the batter the right consistency.

Housekeeping Helps.

One pint of lard weighs one pound.

Oil of turpentine will remove tar stains.

Stewed rhubarb is an excellent spring food.

Oatmeal makes a very good thickening for soups.

Eggs when scrambled should be stirred constantly.

A wooden box is better for keeping bread than a tin one.

There is no finer polish for tinware than wood ashes.

A sweet red pepper should always hang in the canary's cage.

Never buy spices in large quantities; they lose their flavors.

Beeswax and salt will make rusty flatirons as smooth as glass.

Coarse sandpaper is better than sandsoap to scour kettles with.

Fruit grows more important at breakfast as the spring advances.

To remove shoe blacking that has been spilled on clothing use vinegar.

Toothbrushes should be dipped in boiling water occasionally to disinfect them.

The good housekeeper goes over her food supplies every day, to avoid waste.

In using canned vegetables for cream soups, the liquor should be discarded.

Worn table napkins are useful for drying the lettuce, when preparing it for the salad.

Thick blotting paper under doilies will prevent hot dishes from marking the table.

Blotting paper saturated with turpentine may be placed in drawers to keep away moths.

The best cereals are whole natural grains steamed in a double boiler for 24 hours.

LURED GERMANS OVER A MINE.

Canadian Troops Trick the Enemy at the Front.

How the Canadians have once more done the Huns in told by officers returning on leave to London. The Canadians have long been top-dog in their conflict with the Germans and it is said that in the trenches opposite the men from North America there are twice as many sentries as elsewhere along the line, for the Canadians are forever thinking of some new thrill for their enemies.

Not long ago the story goes, the Canadians dug a shaft that the Germans had, in some way wholly unexpected, tapped a Canadian trench telephone wire. A connection had been made which led to the German trenches. Thus the Germans were able to hear all of the orders passing on the telephone in that vicinity. There was a good deal of consternation when the testing of the line showed that it had been tapped and the first impulse was to cut the German wire. A Canadian colonel, however, had a better notion. He took the matter up with headquarters and laid a deep plot to profit by the circumstance.

At a certain point, the Canadians had finished a mine under the German trenches. Its explosion was deferred. Then the Canadians arranged a fake set of orders. With the Germans listening in orders were issued for an attack. The Germans did not know, of course, that their trick had been discovered. The orders were that the attack should be made on the very point under which there was a Canadian mine. The Germans didn't know about the mine, either. Profiting by the information obtained over the telephone wire, the Germans in turn, planned a surprise for their aggressors. They literally packed men in the trenches where the supposed attack would take place, two deep they were awaiting the Canadians to come on.

When time had been given for the Germans to make ample preparation for effectual resistance, the Canadians exploded their mine and then made a small attack. Scores of Germans were killed and it isn't likely that the Germans will ever again believe anything they hear over a telephone.

Making Headway.

"Making any progress toward getting acquainted with those fashionable people next door?"

"Just a little. Their cat invited our cat over to a musicale last night."

Our idea of true faith is that of a man who advertises for the return of a lost umbrella.

KAISER'S CHANCE FOR PEACE

MUST BE CONCESSIONS OR SURE DESTRUCTION.

Germany's Return of Belgium and Alsace Would Avert This Fate.

Under the caption "The Might-Have-Beens of History," Mr. Watterson says in the Louisville, Ky., Courier-Journal:

"There is reason to believe that Germany is approaching, if it has not reached, the point which the South faced when Sherman marched across Georgia to the sea and Grant moved through the wilderness upon Richmond.

"It is only a question of time when the Kaiser's wondrous fighting machine, set for world conquest, will come to its Appomattox. As God smote slavery in America, and struck down the war lord of France, will He find a way to circumvent the powers of darkness in Germany. Be the time limit long or short, the end is sure.

"The medieval spirit must die. The Prussian militarist must be crushed and will be crushed as the Southern confederacy was crushed, as the vaulting ambition of Napoleon was crushed, else the century that is sinks back into the feudal ages that were, government but an armed camp, the earth a universal battlefield.

The "Might-Have-Beens."

"But what may Germany do to be saved? Except the Kaiser, there is none to speak for her. Will the Kaiser speak—can he speak? Or must the end come to Germany as it came to Napoleon, to the South, in bloody, all-embracing conflagration?

"Let us give even the devil his due. There are those who believe that the Kaiser did not want to go to war. Their theory is that the sword was thrust into his unwilling grasp by the war party—that is, the Prussian General Staff—using the bellicose Crown Prince as a monkey wrench to open his hand. Certain it is that August 1, 1914, the first anniversary of the war, the Kaiser issued from army headquarters a manifesto in which he said:

"'Before God and history my conscience is clear. I did not will this war. One year has elapsed since I was obliged to call the German people to arms.'

The Hour Is Striking.

"Germany has lost one friend in the world, and the German leaders, both in Germany and in America, have done their utmost to alienate this friend. Except for the pro-German propaganda, raising civil war upon our industries whilst threatening civil war, if we went to war with the Kaiser, public opinion in the United States would have been divided.

"At no time have the American people been hostile to the German people. At all times have we recognized their virtues as citizens and neighbors. We have resented with proper emphasis and spirit an organized intention fostered and directed from Berlin, which has subsidized American newspapers, printed in the German language and let loose among us a horde of secret service agents who defy our laws, disturb the public order and flout our dignity as a nation and a people.

"Concurrent with the war of intrigue a campaign of frightfulness has been pursued at sea in contravention alike of humanity and treaty obligations, a campaign unlike anything since besting and barbarous beneath whose cruel sway our citizens, helpless and unarmed, have been slaughtered. Now we demand—nay, we command—and woe to the consequence to that Germany—to those Germans that heed not; that hesitate to heed; that favor, as the foolish Mexicans fancy, that the Gringoes will not fight.

Germany's Only Chance.

"Yet the solution were to easy if the Kaiser—even the Kaiser—could only see the opportunity. It is such an opportunity as Napoleon was offered by Metternich, as Jefferson Davis was offered by Abraham Lincoln. America is not the enemy of Germany. America is the friend of England. The true American hates no land and no people, loving none, except his own.

"The Kaiser could ask the intervention of the United States and make proposals so reasonable that the United States could compel a parley and in the end bring the war to a close without the annihilation of the German fabric.

"Belgium must be put where Belgium was. Alsace-Lorraine must be returned to France. Short of these acts of reparation there can be no lasting peace and should be no peace at all. Further details as to Poland and Serbia may be left to a congress of the Powers. Finally, universal disarmament, the four kingdoms composing the German Empire to determine their future as they please; no further war indemnity for Germany to pay; the United States, potent and rich, to stand by the German people and German industries; to furnish them the credit and the money, their true friend.

"The alternative to this is massacre and ruin; more massacre and more ruin; and last scene of all, annihilation, the earth and the heavens meeting in dire confusion as they met for Napoleon after Waterloo, for the Confederacy after Appomattox."

Sir Max Aitken, M.P.,

who is the author of the best record of warfare since Napier's "Peninsula War"—his book, "Canada in Flanders," being the official story of the Canadian Expeditionary Force. Sir Max Aitken is himself a Canadian by birth, as he is the son of the Rev. William Aitken, who was Scotch minister at New Brunswick. Sir Max Aitken has sat as Unionist member for Ashton-under-Lyne since 1910, and on the outbreak of the war he was accepted as the official "recorder" to the Canadian Force.

WAITRESSES IN BERLIN.

High Priced Cafes Are Forced to Employ Women.

The Berliner Tageblatt discourses half mournfully, half jocularly, at the changes which the war is effecting in the capital, and especially in the cafes and eating houses. The first significant change was the bread card instead of bread ad lib. Then the table d'hote was suppressed, then the limitation of beers, the "verlost" about schlepper time 9 p.m., the fleshless days, the fatless days, the shrinkage of beer, the shrinkage of potatoes, the diminution of the sugar supply, and, finally, the disappearance of the waiter.

In lieu of "klops" and "braten" the waiter is now handing bombs in the trenches instead of offering procured remains of various comestibles he is dispensing machine guns at the front. And in the place of the waiter, who has been long ago mobilized in Flanders, there were mainly confined to establishments which sported a certain amount of "chic" their floor, establishments which were not visited by ladies. In more respectable places the waitress did not make her appearance, for the simple reason that the proprietors never knew how to conduct himself towards a respectable girl.

But now has at last compelled her appearance at decent establishments, and according to the Tageblatt, she has come to stay. After all, he says, is not the waitress a purely Germanic institution? Was it not one of the minor duties of Wotan's daughters, the Walkyries, to offer the drinking horns to the heroes of Valhalla? They are therefore in place when they serve Berliners with the national beverage. But it is not a jovial crowd, they serve and the tables seldom dissolve in laughter.

No Kick Coming.

Mabel—So you asked papa for my hand? Did he give you any encouragement?

Arthur—Well, no; but he gave me a drink and a cigar, so I had no kick coming.

Experienced.

Suitor—What makes you think, sir, that I will not be able to support your daughter?

Her Father—The difficulty I have had in doing it myself.

Safely Wounded.

Mr. S. S. Kensington—We have such good news from the front! Dear Charles is safely wounded at last.

"Is he rich enough to keep an automobile and a yacht?" "Yes. He is even richer than that. He keeps a lawyer."

"What is the difference between lightning and electricity?" a schoolboy was asked one day. "Well, you don't have to pay for lightning," he replied.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON.

MAY 21.

Lesson VIII.—The Cripple at Lystra—Acts 14. Golden Text.—Isa. 40, 22.

Verse 8. Lystra—Six hours southwest of Iconium on a tableland nearly four thousand feet above sea level. Hence came Timothy (Acts 16. 1). Sat—In some public place, where presumably he begged his living.

9. Heard—The tense may imply repeated hearing, or it may be pictorial, of listening throughout a discourse. Fastening his eyes—A favorite vivid verb of Luke's (Acts 1. 10; 13. 9; 23. 1). To be made whole—"Saved," in body or soul. Paul has the gift we call thought-reading, often found still in men who have the faculty of evangelistic preaching in a preeminent degree.

10. Loud voice—Psychologically, the effect of this sudden and utterly unexpected shout would be to produce a thrill of conviction, leaving no time for questions. It produced the initial "leaping up": when the power was recognized, he "went on walking"—note the force of the tenses.

11. They talked the Lycaonian patois among themselves, but could use and understand Greek in dealing with strangers. The apostles had no idea what they were saying; the "gift of tongues" did not help them.

12. Zeus and Hermes: (margin)—of which Jupiter and Mercury are Latin equivalents—must be understood as the nearest Greek equivalents of the local Lycaonian deities. In Phrygia, not far away, these two gods were fabled to have come down to earth unrecognized, and to have been hospitably entertained by an old couple, Philemon and Baucis, who received a blessing when they departed. The people of Lystra were determined not to be caught napping this time! Ramsay well remarks, "True to the Oriental character, the Lycaonians regarded the active and energetic preacher as the inferior, and the more silent and statuesque figure as the leader." That Paul was here taken for Hermes, and in Acts 21. 38 for a brigand captain, sufficiently show that tradition has made an absurd inference from 2 Cor. 10. 10 when it describes him as "short, bald-headed and bowlegged." Chief speaker—Hermes was the inventor of speech: god of eloquence.

13. The famous Cambridge manuscript reads Zeus Propolis, that is, Zeus the defender of the city; and this reading is very possibly right. Garlands—Used in Asia Minor as to-day in India. Gates—Of the temple, near which the apostles happened to be.

14. Apostles—Note this wider use of the word, without restriction to the twelve. Rent—A well-known and universal sign of grief and horror.

15. Like nature (margin): so read. Vain things—Pointing to the sacrifice which would produce no effect. The classic picture of this "futility" is the great description of the priests of Baal at their worship in 1 Kings 18. 25-29. That passage also vividly illustrates the contrasted thought of a living God. Who made, etc.—Paul lapses naturally into the familiar language of the Decalogue (Exod. 20. 11). But almost the same words can be quoted from the great monument of the Persian King on the Behistun Rock: many "heathens" had a complete doctrine of God as Creator. To this general knowledge Paul makes his appeal—a true missionary, instinctively starting from the truth that these people did know.

16. In the generations gone by—Had he been able to complete his argument, it would have been on the lines of Acts 17. 26. Nations—The marginal Gentiles is better, for the word normally excludes the Jews, and Paul certainly did not regard his own people as having been left to the light of nature. They were for him a missionary nation, trained to take God's truth to the world.

17. Note the instinct by which Paul goes straight to the one central fact of religion which can be realized from "natural theology," the fact that God is good. He does not suggest that the Lystrans might have learnt more from the bounties of nature. What they had actually inferred was the divinity of the sky (Zeus), which gave the rain and the plents that produced fruit. Hearts—Used as in 1 Sam. 25. 37, where there is the same combination with food and gladness. The last word, euphrosyne, is personified in Milton's L'Allegro, and rendered as "heart-cheer"—so the verb in Luke 15. 23.

19. Persuaded—The fickleness of these "Galatians"—they lived within the Roman province of Galatia, and in spite of all hot disputes to the contrary are best regarded as among the addresses of the Epistle—is well illustrated by Paul's distress at their "so quickly changing to a different gospel" (Gal. 1. 6). Stoned—See 2 Cor. 11. 25. We may reasonably assume that a stone left a permanent scar on his face, to which he alludes in Gal. 6. 17. Since scars were regularly noted for identification, we may further assume that this scar prompted Claudius Lysias to identify Paul with the "wanted" brigand (Acts 21. 28) whose official description he had by heart.

20. That Paul had an iron constitution is sufficiently proved by his surviving such experience as he records in 2 Cor. 11. A thin and wiry frame is quite consistent with the "weak bodily presence" his detractors described. Entered into the city—This casual notice is very characteristic: almost anybody else would have given Lystra a wide berth! But Paul even returned there from Derbe, how overwhelmingly striking in such a connection is the address he gave the Lystrans then (verse 22)! Derbe—Probably near the "Cilician Gates," through which they would naturally have returned to Antioch in Syria. Compare the journey sketched in Acts 15. 41 and 16. 1.

FREEMEN OR SERFS.

In Germany the Individual Belongs to the State.

Early in the war German professors took it upon themselves to instruct the uninformed people of the United States on the beauties of the German government, says the Wall Street Journal. Harvard's German professor did some especially notable work of this kind. He showed wherein the Empire differed from the Republic of the United States, with everything in favor of the Empire. One of his principal points was that in Germany the individual belonged to the State.

Germany's compact strength and united front is a tribute to this efficiency of this form of government. It makes for strength. The individual "belongs to the State" as much as the feudal vassal who knelt before his lord and swore that he was henceforth his man "of life and limb and earthly honor."

The callous indifference to human rights or human life shown in the whole war is a complete answer. The rape of Belgium, the ruin and devastation wrought in Poland and Serbia, the cynical sneers at civilization's horror for the Armenian atrocities, furnish an answer. Louvain and Rheims are answers. Verdun has been presenting the obverse side of the medallion, where another answer is written—that of the State's appreciation of its own vassals.

Wave after wave of humanity breaking upon an almost impregnable defense shows the value of an individual in the eyes of the master. In the columns of a recent issue of this newspaper a description of one assault as seen by an onlooker was published. The Germans were moving forward in mass formation, when:

"The French guns opened, and mangled humanity was piled in windrows. * * * In a short time another line in solid formation was sent forward; as they started to pass over the piled-up heaps of their comrades the French cannon again blazed, and the pile of dead and wounded looked like a solid wall. The sight that followed I think no man ever saw before. High explosive shells began blowing into pieces the masses of dead and dying.

"It seemed fiendish. I wondered that the French were so insatiate when, horror of horrors! I discovered that the high-explosive shells were from German guns, blasting the walls of dead and dying that another line of German troops might pass through!"

Why should they not do it, when these individuals belonged to the State?

There is a classic story of one who, reading of the happiness of a future state, jumped into the crater of Vesuvius that he might the sooner enjoy it. After the story of Verdun even the hyphenated American might be excused for hesitating to jump into the crater of pro-Germanism in order to bring about in this country a government where the citizen "belongs to the State."

DESPERATE DIET.

How Wives May Cure Grumbling Husbands.

There is naturally much talk in war-time of rations and food supply, and the possibility or probability of starving out one or other of the belligerents. But it is amazing what people will eat at a pinch.

A recent Arctic explorer seriously advised the wearing of skin clothing in preference to woollen, simply and solely because, if the worst came to the worst, one's outfit could be stewed for a meal, or at any rate given to the dogs!

Well, when a man finds enjoyment and a sort of inward satisfaction in a stew made of his wife, his children, and his sledge-gear, he must be pretty "peckish," and when he gets back to civilization he will make a model husband, never likely to turn up his nose at cold mutton on washing-days.

The Bishop of Yukon thinks nothing of eating his boots. He had probably declared he was ready for that operation many a time when he was a boy, but he has actually done it since he came to man's estate—in his case, the great gold-field of arctic Alaska.

Poet's Vacation.

Edmund Rostand, the poet, is taking an isolation cure of three months, which he is passing in bed. He sees nobody except one servant and everyone must take pains not to make any noise in the house. He receives no letters or communications with the outside world except through the newspapers.

Not all the foolish things are done by the fools; the wise men contribute their share, too.

Thanks to the Enemy

The little destroyer nosed her way swiftly through a sharp south-westerly gale. Bayliss, the lieutenant in command, every now and then turned to give a muffled order to the man at the engine-room telegraph, as his little craft raced on its errand to guard the mighty liner approaching the coast from America.

Presently he turned to his sub-lieutenant, who, clad in oilskins and sea-boots, stood, with a signalman beside him, sweeping the horizon with their binoculars.

"I'm going below for a few minutes, Tearl!" he shouted. "Keep her as she is; she's doing well!"

"All right, sir! I'll call you if we sight the Gloriana."

Bayliss, clinging to the rail, crept below and removed his oilskins; then from a little drawer he slowly drew two letters and a photograph and looked at them. He took the letters from their envelopes and read them.

One was from his wife—just a few brief words, telling him how she had tired of her life with him. His profession had taken up all his time and interest, so she had decided to return to hers—the stage.

He read the letter, though the words had over a year ago imprinted themselves on his memory. The second letter was from his little girl—a tiny, childish note, asking him to find mamma and bring her back. Bayliss laughed bitterly.

"Poor little, deserted bairn," he thought; how lost to mother-love and natural feeling his wife had been to leave her child behind! Well, he'd never troubled to inquire after her; her letter was merely an excuse; he thought, to still his brooding suspicions at out the other man.

The other man—of that he felt certain; no woman would desert her husband and child unless tempted to do so.

A twinge of conscience disturbed his train of thought. Perhaps he had been over-jealous, but she was to blame; she should have taken more interest in his profession. He put the two letters and photograph in his inner pocket, and closing the door of his cabin, ascended the companion-way and gained the shelter of the bridge, where Tearl stood.

"I've been delving among my secrets again, Tearl; I can't help it. I've got a peculiar feeling—you can call it intuition, or anything you like—but I feel I shall see my wife before long."

Tearl put his hand in his pocket.

"Memories, eh? Try and put the whole affair out of your mind. You must not blame me for speaking plainly, for you gave me the privilege. You and I are old friends, and we can trust each other."

The two men exchanged hearty grips, and as Bayliss removed his hand he felt an envelope in it.

"Why, what's this, Tearl?"

"I owe you an apology. I collected the letters from the post-office just before we sailed and forgot I had one for you. It has an American stamp on it."

"You were afraid the contents might upset me, eh? Of course, you know Estelle went to the States when she left me. Signed on with some wretched musical comedy crowd. She wrote me from New York and asked me if I wanted her back."

"And you replied?"

The younger man voiced his question anxiously.

"Of course not!" Bayliss returned angrily. "I only wish I knew the name of the blackguard who persuaded her to go! God, if he were here now his life would not be worth much!

You've always been pretty quiet on the subject, Tearl; tell me, have you ever suspected any of our mutual friends?"

Tearl bit his lips; then, with a determined manner, turned on his questioner.

"You've never been happy since she left you, and, hang it all, man, you were greatly to blame! The only man in the case was yourself. I must speak frankly, and tell you the truth. The Service has always been your first thought, and all your interests have been afloat. Man," he whispered tensely, "your wife worships you!"

"Why do you think my wife still loves me?" Bayliss eagerly inquired.

"Some months before she went away we were watching the ships in Plymouth Sound. 'That's where my husband's heart lies, Reggie,' she said to me. 'His whole soul is bound up in those monsters, and he speaks of nothing but them. I want his love so badly, and yet I feel I can only win it for myself in one way. I must leave him—go right away for a time, and then—only then—will he realise what I am to him."

Silence, but for the throbbing of the engines and the pounding of the wind and waves against the craft. Tearl shifted his position slightly and continued:

"I cannot remember exactly what else she said, but she referred to the petty things of life—the things that, to a woman, really matter. Then the greatest grievance—the girl. Why did you blame her? Was it know how you longed for a boy, who would one day take your place and become a naval officer."

Bayliss stood as if turned to stone. The letter clenched tightly in his hand.

"I've been a blind fool!" he said bitterly. "If I'm spared, Tearl, you'll see a change in me. I'm just going to prove there are other things in life to a man besides his career."

"Then that letter may help you; it's from her."

Bayliss straightened it out in his hands.

"You're right. I'll slip below again and read it."

He was turning away again when a seaman's voice reached them.

"Light on the starboard bow!"

The two officers adjusted their binoculars and gazed in the direction indicated. And there, sure enough, to starboard of them, a dull blur with mast lights showing dimly through the stormwrack, came the s.s. Gloriana.

Bayliss gave a sharp order to the engine-room, and the craft hummed beneath them, leaping like a greyhound slipped from leash. He looked at the indicator; their speed was a good twenty knots, and momentarily increasing. The skipper again raised his glasses and scanned the oncoming liner, and he then grasped Tearl's arm, pointing out to his junior a second dark blotch on the horizon coming rapidly astern of the Gloriana.

Those on board the giant steamship had seen their danger, and flames shot up from her funnels as, with every ounce of steam in her boilers, she strove to escape from the German cruiser, who at that moment proved her nationality and purpose by firing a shot at the liner. The rays of a searchlight slithered through the night and lit up the Gloriana, showing her decks crowded with passengers, who, hastily donning their clothes, had come on deck, panic-stricken.

The cruiser again fired on her prey, bidding her lay-to, yet still the Gloriana continued on her way, hoping to out-distance the enemy. Another shot was fired, this time with success, for one of the four mighty funnels came crashing down on the steamer's deck, and screams of agony were borne on the wind to those on board the destroyer.

Intent on its prey, the cruiser did not notice the lithe, dark craft creeping up towards her and the Gloriana, that now lay helpless; whilst on board the destroyer the crew obeyed their commander's whispered orders and stood to their stations like carved figures, stern emblems of England's vengeance.

Hurriedly giving orders to have the torpedo-tubes ready, Bayliss brought his craft round in a half-circle, and came up alongside the towering cruiser.

Captain Greinheim paused in the act of giving a command, as a pungent whiff of oil fuel reached his nostrils. There was no time for him to issue orders, for, with a rending crash a torpedo flew into a vital part of the ship, and a dull explosion, followed immediately by a greater one, shook the vessel from stem to stern; then, with a gigantic upheaval, men and machinery were flung in the air, and the Konig Ludwig sank beneath the waves.

Bayliss' first order was to lower the boats, and getting into one of the collapsible lifeboats, he gave the command of the other to a petty officer. With the heavy sea running, their errand was fraught with danger, but they pulled strongly over the surface where, a few minutes before, the Konig Ludwig had majestically steamed.

The liner also lowered her boats, but there were few survivors, for out of eight hundred souls only forty-five were saved, the rest having gone to the fate they would have meted out to the innocent non-combatants aboard the steamship.

Bayliss pulled to the side of the liner and mounted her deck, where he was cordially greeted by the captain. He laughed away the thanks they would have showered on him.

"It's nothing at all—just luck! But I'm thunderingly glad I was on the spot to stop the Germans' little game. If they had spotted us I'm afraid neither your craft nor mine would have reached port."

His eyes swept the deck of the liner, taking in the havoc caused by the fallen funnel.

"Jove, sir," he added, "you've suffered!"

The captain of the Gloriana took his hand.

"It's God's mercy we have not fared worse. You'll excuse me, I know, but I must get some semblance of order on board."

The German prisoners were marshalled on deck, and some of the seamen from the destroyer stood guard, whilst a knot of passengers surged round them and Bayliss as the chief centres of interest.

"Jack!"

The voice—a sweet, womanly one—sounded close to him, and Bayliss turned sharply to face—his wife! He had remained comparatively cool throughout the ordeal he had passed, but at the sound of the woman's voice he trembled. She advanced towards him and took his hands in hers, and together they found themselves saying: "Can you forgive me?"

Words were needless, for Bayliss, in spite of the onlookers, who now respectfully drew away, clasped his wife tightly in his arms in a grip that hurt yet pleased her, for it proved his love was hers.

* * * * *

Regulations could not be broken, and the State forbade a woman being allowed on a ship of war during hostilities, so Bayliss and his wife were forced to part.

As the dawn broke the s.s. Gloriana, piloted by her tiny protector, steamed majestically up Southampton Water, the Union Jack flying proudly at her masthead.

Bayliss, at the stern of his craft, read over and over the letter Tearl had given him from America, in which his wife had stated that she could not live without him, and was returning in the Gloriana to beg for his forgiveness.

A woman in white stood in the bows of the incoming liner and waved her handkerchief towards where he stood. That was the commencement of the second honeymoon, thanks to the enemy!—London Answers.

The Professional Touch.

"Chuck us out that bag o' bombs, mate; it's under your 'ead."—By Captain Bruce Bairnsfather in the London Bystander.

PEOPLE GOING "THE PACE."

Sugar is the Barometer of British Activity.

The increase in the consumption of sugar in England since the war points to an equivalent increase in the "pace" at which the country is living and working, says the medical expert of the London Times. He explains:

"From the point of view of the physiologist, one of the most striking reports issued recently was that dealing with sugar consumption during the first year of the war.

"People who failed to grasp the significance of the figures spoke in a pained way about a lack of national conscience and efforts made to preach economy. Nobody pointed out that the high consumption of sugar was due directly to the fact that war had whipped up the activities of every man, woman and child in the country so that, even at a much higher price, sugar was worth the money.

"The simple truth that one may infer from the demand for sugar is that the whole rate of life has been quickened in this country. Sugar is the fuel of activity and in activity more and more sugar is burned. In England, and indeed all over Europe, men and now living at a greater rate than in times of peace. Civilization, if you will, is going the pace; and for the pace sugar is essential, no matter what the price may be."

LIFE IN THE TRENCHES.

Illustrations of What the Men Have to Put Up With.

The trench warfare in France has been responsible for some remarkable horrors. There have been plagues of blotted flies, which are produced in millions by a few hours' sunshine. In some districts, too, there have been plagues of voles, due no doubt to the non-cultivation of the fields, which fall into the trenches by scores, are trampled under foot by the men, and are then devoured by dreadful beetles. To these plagues has now succeeded one of giant rats, some having been measured as nearly two feet in length from tip of nose to end of tail and of a girth which is proportional. To combat these ferrets are now being sent out in hundreds from Britain, with the result that the price of ferrets has considerably risen everywhere, while in some places they are not procurable at all. The men consider it great sport, and a bag of over 400 rats has been made in an afternoon. The cold in the trenches has not been so great the past winter as that which was encountered last year, and if it should come later the troops are probably better prepared to meet it; but the wet and mud have been terrible, the rain especially being heavy and constant.—Army and Navy Journal.

King Collects Papers.

King George is making a collection which may some day prove as valuable as his great stamp collection. It is a complete set of all the trench periodicals that are being issued for private circulation by the men at the various fronts. Many of them are extremely curious.

LITTLE ACTS OF KINDNESS.

It isn't the thing you do, dear,
It's the thing you leave undone
That gives you a bit of heartache
At setting of the sun.
The tender word forgotten;
The letter you did not write;
The flower you did not send, dear
Are your haunting hosts to-night.

The stone you might have lifted
Out of a brother's way;
The bit of heartsome counsel
You were hurried too much to say,
The loving touch of the hand, dear,
The gentle winning tone
Which you had no time or thought for
With trouble enough of your own.

Those little acts of kindness,
So easily out of mind,
Those chances to be angels
Which we poor mortals find—
They come in night and silence,
Each sad, reproachful wraith,
When hope is faint and flagging
And a chill has fallen on faith.

For life is all too short, dear,
And sorrow is all to great,
To suffer our slow compassion
That tarries until too late;
It isn't the thing you do, dear,
It's the thing you leave undone
Which gives you a bit of heartache
At the setting of the sun.

Margaret E. Sangster.

SERVANTS ARE SCARCE.

English Maids Have Become Munition Workers.

England has no more servant trouble, for there are no servants to be obtained. With the exception of a few old retainers most of the maids have become munition workers in which occupation they receive three or four times the remuneration they got in doing house-work with the added satisfaction that "they are doing their bit" and helping fathers, brothers and sweethearts in the trenches.

This situation has its pathetic side too. Many middle class people in England who actually need a servant because of sickness in the house are suffering, their sons being at war or at home wounded and daughters working in munition factories or hospital contingents.

The demand for cheap jewelry and furs is remarkable throughout Great Britain as a result of this prosperity among the servants and it is almost impossible to supply the demand.

TAKEN AS OMEN OF PEACE.

Church Bell at Nay Fell, as on Two Previous Occasions.

A curious incident which has just happened at Nay, a little Pyreneean village far from the noise of battle, about which superstitious people are talking, is narrated by Mr. John N. Raphael, the special correspondent of the London Daily Express in Paris.

Twice in the history of France, he says, the big church bell of Nay has fallen without being damaged. It fell from the belfry exactly three months before the Crimean War ended, and it fell from the belfry again three months before the end of the war of 1870. It has just fallen a third time, again without damage, and the superstitious are wondering whether this time the fall of the church bell in Nay belfry is an omen of peace.

What She Needed.

Mistress—What do we need for dinner?

Servant—Sure ma'am, and I've tripped over the rug and we need a new set of dishes.

LORD KITCHENER IS HUMOROUS

GREAT LEADER ALWAYS FOND OF A JEST.

Some Anecdotes Which Give An Insight Into His Character.

Anecdotes collect round a great personage like flies around a sweetmeat; and sometimes the real nature and appearance of the object of attraction is quite obscured by the swarm. So many stories of Lord Kitchener's devotion to duty, and his inability to be moved by human frailties, are current that he has come to be regarded as a man of a much more grim character than is actually the case.

He is generally thought to be a soldier pure and simple, an unbending disciplinarian, and a ruthless advocate of efficiency. One hears stories of how his most devoted A.D.C.'s having been disabled in his service, have been dismissed and discarded without a further thought; of how his men have been worked "till they dropped; and of how all gentler considerations—as, for example, the domestic concerns of his officers—have been treated by him with scorn. This, in point of fact, is not altogether true; and Lord Kitchener is a great deal more "human" than he is usually supposed to be.

An Eager Collector.

It is not generally known that his lordship is a man of considerable intellectual and artistic attainments. As the result of his being, as a young man, for several years a member of the staff of the Palestine Exploration Fund, under the auspices of which body he conducted excavations and archaeological researches in the Holy Land, antiquarian journals of thirty and forty years ago contain many papers written by him discussing with great earnestness the character of the Moabites or Amorites, and demonstrating the verity of Holy Writ. In recent years he has given full play to these interests, and has made collection of antiquities which is notable for its artistic and historical value. He is constantly engaged in adding to this collection.

He is a very great authority on old china, and has a trained eye for almost all works of art. He is a connoisseur of antique carpets, early Christian paintings, ancient bronzes, and so forth.

War and Carpets.

It is said of him in Egypt that he was much more concerned as to whether his exquisite carpets would fit the floors of Broome Hall than as to all the military operations of the world. "I have had enough of soldiering," he often remarked, and it is said that on one occasion he added that he did not wish to have anything further to do with military affairs.

One sometimes hears it said (writes Arthur E. P. Weigall in the London Star) that Lord Kitchener is devoid of a sense of humor. That is very far from the truth. Those who know him well, and have been with him when he is off duty, generally find him jovial and fond of a joke.

During his tenure of office as commander-in-chief of the Egyptian army, the head of a certain administration in that country, an Englishman of eminent respectability and of peculiarly unprepossessing appearance, was one day passing the barracks near Cairo when he was smiled upon by a lady with golden hair and languishing eyes, who, not knowing him, had hoped that he might prove a profitable acquaintance. Her advances were, however, very much resented, and the great man lost no time in writing an angry report to Lord Kitchener, saying that it was disgraceful that such things should be allowed to happen at the very gates of the barracks. Lord Kitchener, however, did not consider the complaint worth serious attention, and returned the document to the sender with the pencilled remark, "That fatal beauty of yours again!"

"Hullo, Kitchener."

While he was commander-in-chief in India he chanced to make the acquaintance at a luncheon one day of a young man who was travelling round the world. A few weeks later, as he was standing in the street talking to one of his generals, the same young man happened to pass, and recognizing him, called out, "Hullo, Kitchener! How are you?" Lord Kitchener turned to his companion and remarked in a low voice, "I wonder why he didn't call me Bertie?"

The public estimate of his lordship's character, however, is based more upon such anecdotes as the following:

When he was commander-in-chief in the Sudan, a young subaltern was sent by him to blow up a certain disused fort with dynamite. The young officer hoped to carry it out with precision and despatch, and he looked forward with the keenest expectancy to the Sirdar's commendation. Owing to an unfortunate accident, the dynamite exploded before its time, blowing ten of his Sudanese troopers to atoms, but leaving the fort quite intact.

In an agony of mind, the subaltern telegraphed the humiliating news to Lord Kitchener, deeply regretting the terrible accident and deploring the loss of life. After an hour or two of bitter mortification, Lord Kitchener's reply came to hand, and with beating heart the youth scanned the message. It read: "Do you want any more dynamite?" That was all.

Such tales are probably quite true. They reveal a certain callousness, and an extraordinary ability to reduce every matter to its essentials; but in spite of this there can be no question that Lord Kitchener has a gentle side to his character.

TOWNS WITHOUT TAXES!

Where a Former Generation showed Wisdom.

In these days of expensive living, when everything costs double what is used to, and four times more than you can afford to pay, what a boon to live in a city without taxes! Are there such things? you ask. Most certainly!

There is Orsom, in Sweden. This municipality has its ordinary city expenses, but it imposes no taxes. Moreover, the local railway is free to every citizen, and there is no charge for telephone service, schools, libraries, and the like.

All this is due to the wisdom of a former generation, who planted trees on all the available ground, with the result that during the past thirty years the town authorities have sold over £1,000,000 worth of young trees and timber, while judicious replantings have provided for a similar income in the future.

Then there is Monmarlon, in the Midi, France. Here not only are there no taxes, but the timbers on the communal lands are sufficient to grant each person a small annuity. There are only seven electors in this hamlet, so, to avoid anything like rivalry, the seven returned themselves to the local council, says London Answers.

Nearer home we have the island of Innishmurray, off the west coast of Ireland. Here there are no taxes, simply because the fourteen families who live on the island resolutely refuse to pay. In a recent report to the Local Government Board, the rate-collector stated that he could not get a boat on the mainland to take him to the island on such an errand as collecting rates. At a meeting of the Sligo County Council it was stated that some years ago two officers of the council, who tried to land on the island for the same purpose, were stoned off the shore by the inhabitants!

HEARTS ARE PUMPS.

Some of the Wonders of the Average Heart.

It is an astounding fact that the average heart beats thirty-six millions of strokes every twelve months, working, resting, or tideping. In that period it does work sufficient to fire with their present velocity a dozen of the largest projectiles used in the war, or to lift a light cruiser clean out of the water.

If such is the energy of a single man's heart, what is the aggregate force of three million men in heartbeats? If it were concentrated into one explosion it would be sufficient to destroy utterly the German Navy and the Kiel Canal.

Such an explosion, operating in a moment of time, has never been engineered by man, although Nature has exceeded it many times in her volcanic energies.

To put it another way, the hearts of three million men force a broad river of blood, nine hundred feet wide and six feet deepover a course of seven miles in a single hour, and in the course of a day as far as from Liverpool to Edinburgh, and in a week as far as Paris to Constantinople!—London Answers.

How Japs Harvest Wheat.

As in most of their ways the Japanese differ in their way of harvesting wheat from that used here. Instead of cutting it with a scythe or reaper, they pull up the greater part of it by hand, and clip off the roots with shears. The reason for this is to keep the long golden straws from getting bruised or broken. With the Japanese, who allow nothing to go to waste, the straws are almost as valuable as the grain. They first flatten them, and then after being softened, the straws are woven, either whole or split, into matting, baskets, hats or other articles.

SECOND CON. ELDERSLIE

Owing to the heavy rains seeding operations have been greatly delayed but if the weather is fine this week most of the farmers will be ready to celebrate the 24th.

Mr and Mrs Ferrier and family of Bervie autoed over and spent Sunday here.

Mrs Smellie who was quite ill last week, is able to be out again.

A number of the farmers in this section delivered their fat cattle last Friday and realized nice sums for them.

Mrs Jas Allen's many friends will be pleased to hear that her health is improving.

Wm Ward, of Owen Sound, called on a few friends and relatives here last week.

Pte Neil Morrison of the 123rd Grenadiers, Toronto, also Mrs Morrison returned to Toronto on Saturday after spending a month with their aunt Mrs D Allen.

Gunner Archie Lillico, of the 54th Battery, spent a few days recently under the parental roof. Archie expects to go overseas soon.

Another of the brave sons of this con has donned the khaki in the person of Norman McDonald, son of our worthy citizen, John A McDonald. For some months Norman has been taking a medical course in Brandon. He enlisted with the Canadian Field Ambulance Corps and left last week for Bramshott Camp, England.

The sympathy of this community is extended to Mrs Wm Manly and Blain Fortune in the loss they have sustained by the death of their sister Mrs Wm Ward (nee Miss Lucy Fortune) who died in Owen Sound on May 5th. About ten days previous to her death she was taken down with typhoid fever and although she was taken to the Hospital and all was done that medical skill or loving care could do yet the disease did its work and she was called to her reward. The remains were brought to the home of her mother, townline Hid and Brant, and were laid to rest in Vesta cemetery. Previous to her marrage Mrs Ward resided on this Con for almost two years and by her genial spirit and industrious habits won the love and esteem of all with whom she came in contract and her early demise is deeply regetted by all. Deceased was 27 years and 2 months old.

—Jessie McLachlan, the famous Scottish vocalist who sang in Paisley several times, died recently in Scotland.

GLAMIS

Mr Finlayson spent Sunday with his family, Mrs Finlayson returning to Port Elgin with him on Monday.

Miss Sara Beere of Hamilton is visiting at the home of Mr Jos Cunningham.

Mrs Woodstock, who spent last winter in Ripley, has returned to our village.

Several of the members of St. Paul's church took in the Presbyterial convention at Port Elgin.

Miss Jennie McDonald, of Shoal Lake, Man, who has spent several months with friends here, leaves for the west on Tuesday.

Miss Tessie Patterson spent a few days in Paisley last week.

Rev Mr Neilson, of Paisley, and Mr McCauley will exchange pulpits next Sunday.

Mr Clyde McKeeman had the misfortune of having his wrist broken. The accident happened in Port Elgin while cranking his car.

Pte John Kitchen has been successful in passing his examinations. He is now Corporal Kitchen.

CASTORIA

In Use For Over 30 Years

Always bears the Signature of Chas. H. Fletcher

WILLOW CREEK

Among those who have purchased cars recently are Messrs Wittig, Carleton and Westman. They intend going to Walkerton on the 24th.

The Y P A of the Bruce Evangelical church are having a rally day program on Sunday, the 28th, at 2 p m. Everybody welcome.

Children Cry FOR FLETCHER'S CASTORIA

Unreasonable

A stranded traveller reluctantly took a room at a somewhat shabby village inn in England recently. He retired to rest, but ten minutes later came downstairs again, with anger in his face. "I must insist on having another room, sir!" he informed the inn-keeper sternly. "What's the matter with the one you've got?" asked the latter. "Matter!" snapped the angry man. "Why there are a couple of mice fighting—actually fighting in the corner of it!" "Well, sir," replied mine host coldly, "and what d'ye expect for two shillings a night—a bull fight?"

VESTA

On Friday, May 12th, about 100 friends and neighbors gathered at the home of Mr and Mrs Wm Shouldice to do honour to Corporal Tom McCaw who some time ago enlisted with the 160th at Port Elgin. A number of soldiers accompanied Corporal McCaw from Walkerton. Mr. David Walks was chairman and performed the duties in a most excellent manner. The address was read by Miss Elizabeth McCurdy and the presentation of a wrist watch, fountain pen and purse was made by Miss Bell Shouldice. The address is appended:

To Corporal Tom McCaw:

DEAR TOM - Knowing that you have donned the king's uniform in answer to the call of king and country, we your friends and neighbors deem it a pleasure to spend an enjoyable evening together before you take your departure for distant lands. We deeply regret that you are leaving us, yet we admire the courage and devotion that enabled you to make this sacrifice. We feel honored that we are represented by another townline boy in the great fight which our country is struggling against. We realize what a trial it must be to you to break home ties, but self is forgotten in serving others. We feel we cannot let you depart without some token of remembrance and ask you to accept this wrist watch, pen and purse, not for their value but to show our appreciation of your manly and noble act. May God spare you to return safe and well is the wish of all present. Signed on behalf of your friends and neighbors.

Mrs. Wm. Shouldice
Mrs John McCaw

Corporal McCaw made an excellent reply thanking his friends for the gifts. A short program followed consisting of speeches by W. J. Fortune, Wm. McCaw and Pte. Wm. McCurdy; a ladies' chorus, recitation by Jannet McCurdy; Songs by Ptes. Angus McIntyre and Mike Black. Miss Edith Fortune was organist. Tom's boy friends gave three hearty cheers in his honour. The rest of the evening was spent in dancing. Everybody was delighted at the pleasant evening spent with this old townline boy who has offered his services for his king and country.

PRODUCTION TO CAPACITY

Is the farmer justified in believing that the firm tone of the horse market and the present high prices for live stock rest upon a secure foundation? May he look forward with any confidence to the next season's or next year's market? Should he prepare, as against an advertised shortage and high prices for all classes of farm animals, by breeding a larger number of mares or of cows, sheep, hogs and poultry? We are confident that the farmer has never been in a more secure position than the present, as regards the extension of his breeding operations, but to enable him to form more easily his own conclusions, the following facts are submitted:

HORSES

Since the outbreak of the war, the British Remount Commission has purchased in Canada 15,000 horses. 8,000 have been bought by French contractors and 25,000 by the Canadian Department of Militia. The Department of Militia is now engaged in buying an additional thousand head. The British Remount Commission has purchased over 700 since March and is buying daily in Montreal. French contractors are anxious to obtain supplies and are arranging to buy all that are available both in the east and in the west. It is understood that as a result of the purchases already made army buyers are finding it increasingly difficult, both in the United States and in Canada, to readily secure the number of horses which they require, particularly of the type suitable for heavy cavalry or heavy artillery.

In addition to the purchases for army account, commercial activity from two distinct quarters has exerted a very evident influence upon the Canadian horse market during the past three or four months. During the months of January, February and March 1,805 horses were exported to the United States. A few hundred more went forward to the same market in April. The horses exported were good farm chunks weighing from 1300 to 1500 lbs. As high as $500 a pair was paid for animals possessing extra quality and conformation. This new movement in the horse market is having its effect upon prices all over Canada.

Buyers report that the better classes of drafters and farm chunks are getting scarce and hard to buy. The same holds true of good big roadsters and saddlers. The noticeable scarcity of good horses of these descriptions illustrates the fact that demand has already overtaken supply and makes it very evident that all the really good sound mares in the country should be bred this year. It cannot be too strongly emphasized, however, that they should be mated only with strictly high class sires. The number of horses rejected by army buyers indicates that there is no place for the unsound horse or for the misfit. Such animals have been, are now and always will be a drag on the market. Breed to the best if you would have the best. Unsound or malformed mares are just as bad as unsound stallions. It is easier to raise a good animal than a poor one. Manage the work this spring in order that the best mare on the farm may be regularly returned to the horse. Next year a good crop of sound, healthy colts will be as good as a bank account. Canada is likely to enter shortly the commercial export market and that market will require all you can produce.

Children Cry FOR FLETCHER'S CASTORIA

Grateful for the Socks

Mrs. McLeod, sr., of 12th Bruce, is over 80 years of age, but takes a youthful interest in the welfare of our soldiers. With her own hands she made homespun yarn and knit a pair of socks which were sent to the front. Recently Mrs. McLeod was delighted to receive from the wearer of the socks the following letter of acknowledgment:

Somewhere in Belgium

DEAR LADY—This morning while getting ready to go to the trenches the sergeant of our platoon came around with a pair of socks for each of us, and I was the one who received the pair you knit. I found the slip of paper in the heel, and having a few minutes to spare I thought it was the least I could do to answer your small request that the receiver would kindly write you and say how they fit. They fit fine. I have them on now and they will soon be on their way to help strafe Fritz, as we call the Germans. I am sorry I cannot sit down and write you a nice long interesting letter, but it is not allowed to mention any names, so I must be content with just thanking you very much for the socks and for sending them. I remain, yours sincerely, Pte L. L. MARTIN, Reg No 21640. No 7 Platoon, No 2 Co. 16th Batt, Canadian Scottish, First Canadian Division, C E F, France.

County Town Roadway Bad

Walkerton town council has a good sized proposition on just now for the improvement of the roadway from the G.T.R. to the C.P.R. stations. The condition of that piece of highway is so extremely bad that its notoriety has spread abroad to every other town in the country. Firms who have much teaming to do find it costs much more to haul loads over the road, and the druggists threaten to increase the cartage rates because they can only take 1½ tons to a load where they formerly put on 2½ tons. This is certainly a practical demonstration of the value of good roads. It would cost $20,000 to macadamize the whole roadway. The council has instructed the street committee to have estimates prepared for the work required, and will submit a by-law to the ratepayers.

The Most Popular Overland

There is already an enormous demand for this big four cylinder Overland.

With certain improvements, it is the same car of which 55,000 Overlands were sold last season for $1050.

The price is $85 less.

Standardization of product and the purchase of raw materials at before-the-war prices, made this reduction in price possible.

It will not be lower, for materials are rising in price.

So order your Overland now, to make sure of getting it.

We handle lines of field and garden seeds procured from the most reliable growers on the continent, also buy and sell home grown seed. Look into your needs early and leave us your orders. H. G. ECKEL.

How He Sold the Calf

I asked eight dollars and a half for one fine black Polled Angus calf, which price was not too high; I hoofed it west, I hoofed it east, endeavoring to sell the beast, but no one wished to buy. Day after day I toiled along and bored men with the same old song, "I have a calf for sale; I ask eight bones and fifty cents, for this unequalled critter, gents—who will dig up the kale?" Then said a friend, "Oh, rest your feet, and quit your wearing out the street, and bawling by the year; spend fifty cents and advertise your reward-off cow of pocket size, and buyers will appear." I followed up that same advice, and put my jaded feet on ice; and when the ad. appeared ten customers came to my gate. One bought the calf and paid the freight, and others bucked and reared. And thus by printing little ads. the wise man gathers in the seads, and rests his aching corns; a little ad. will make more noise than fifty-seven busy boys all tooting on their horns. —Walt Mason

—Miss Lucille Fraser was home from Mount Forest over the week end.

—Pte. Roddie McLennan, of the 93th, was up from Toronto over Sunday.

—Mrs. Sutherland, of Bradford, is visiting her daughter, Mrs. F. C. Ryan.

—Mrs. Thos. Muir is on a visit to her former home and friends at Kingston.

—Mr. Wm. Dyce, of Toronto, is a guest at Mr. G. B. Irwin's for a couple of weeks.

—Artillerysman W. Johnston, of Guelph, is visiting at his home on con. A, Elderslie, for a week.

—Miss A McBride was the lucky ticket holder for the lunch cloth, not Mr P C Kennedy, as first announced.

—Sergt. Edwin W. Fraser, of the 97th Batt., was in town over Sunday. He is a nephew of Messrs. John and Alex Fraser.

—Miss Lizzie Thompson attended the W. M. S. Convention held in Hamilton last week being a delegate from the Paisley branch.

—Rev P Reith, of Glamis, preached very acceptably at preparatory communion services in Knox church on Friday afternoon and evening.

—Mr Jas Stark has purchased a Chevrolet car. Last week we mentioned Mr R W Tanner of Elderslie, as driving a car, but it is his brother, Mr A E Tanner, who has taken to motoring

—Mr. and Mrs. W. J. Ross, Lovat, announce the engagement of their daughter Mary Jessie to James Edgar Wilson, 14th concession Greenock, the marriage to take place about the middle of June.

—Miss Ella Grant, daughter of Mr. Jos. E. Grant, recve of Tara, who has just graduated as a nurse at the Toronto General Hospital, won the senior year scholarship in connection with the department of social service, University of Toronto, for one year's continuation work, given by the Hospital Board of Trustees and Mr A W Austin.

Body Found

The body of Mrs. Chas. Oppenhauser, drowned in the Saugeen near Hanover, was found on Saturday week, by Mr. Jas. Crispin, at the rear of his farm, not far from where the drowning occurred. The body was floating about a foot from the surface, and was caught in the soft soil.

Prostrated by Paralysis

Mr Adam McGill has been bedfast for over a week, having had two strokes of paralysis within a few days. At time of writing there is little change in his condition, and other troubles are threatening. Messrs Walter McGill of Thornhill, Louis of Galt, and David H of Orillia, were here since their father was stricken.

Home From the Front

Sergt. Milton Aiken, of Allenford, who has been on active service at the front, arrived home last week. His arrival was made the occasion for a big demonstration at Allenford. Sergt. Aiken was among the first soldiers from the county to enlist for overseas. He will now be given a commission with the 160th Bruce Batt. machine gun section.

How about the Daylight Saving Plan?

There will not be a Thursday afternoon holiday for Paisley business people this year, as all did not sign the agreement. The next best thing to try is the daylight saving idea of starting business an hour earlier in the morning and quitting an hour earlier in the evening. The experiment is being tried out by the whole of Great Britain, and many municipalities in Canada are also adopting it for the summer.

Twice Married Within Two Days

To be twice married within two days was the experience of Margaret F. Walks, B.A., daughter of Mr. and Mrs. D. Walks, of Elderslie. But on each occasion the groom was the same young man, so that there is no need of apprehension on the part of the numerous friends. It happened in China, and that is the reason for the somewhat surprising matrimonial method employed, observes the Galt Reporter, in which paper the particulars of the event are given. The groom is a son of Mr. R. G. Struthers, of Galt. On May 10th, by Rev. R. A. Mitchell, M.A., at the home of Dr. R. G. Struthers, Wei Hwei, Honan, China, Dr. Ernest B. Struthers, B.A., was married to Margaret F. Walks, B.A. The wedding party included quite a number of Presbyterian missionaries and other friends of the contracting parties. The wedding march was played by Miss Sadie Lethbridge, sister of Mr. G. Lethbridge, formerly organist of Knox church, Galt. On the following day, in order to make the marriage legal in China, the bride and groom had to proceed to Ten Tsin, where a second ceremony was performed by the British Consul. Dr. and Mrs. E. B. Struthers are stationed at Hwai King, North Honan, China, under the Mission Board of the Presbyterian Church.

Section Boss Badly Hurt

Mr. Ed Monahon, formerly of Dunkeld, now section boss on the G.T.R. at Elmwood, was the victim of a serious mishap on Wednesday morning of last week, when with a small crew he was going down the track on a jigger about a mile and a quarter south of Elmwood. The day being wet and windy he didn't hear or see the approach of the incoming freight until the train was almost on top of him. Jabbing a pole quickly between the rails and a front wheel of the jigger the stick broke and precipitated him backwards onto the track, resulting in his right leg being broken above the ankle, the upper and lower teeth knocked out of his right jaw. The side of his face was also badly gashed and bruised. He was picked up in a semi-conscious state and removed to his home where a doctor was summoned and the damages repaired. Fortunately the freight crew saw the approaching jigger and were able to stop their train before a collision ensued, otherwise the mishap might have developed into a tragedy and the episode been aired at a coroner's inquest. As it is Mr. Monahon will be off duty for most of the summer nursing the busted trotter and other wounds.—Herald and Times.

DIED

IRWIN—At Paisley, on May 19th, Mrs Elizabeth Irwin, relict of the late Wm Irwin, aged 82 years and 6 days.

The House Fly Danger

House flies are now recognized as most dangerous carriers of the germs of such diseases as typhoid fever, infantile diarrhoea, tuberculosis, etc. From filth and decaying materials, they carry infection to the home and to the food which we eat. The best method to exterminate flies is to prevent their breeding. House flies breed in decaying or decomposing vegetable and animal matter and in excrement. Stable refuse is especially attractive to them. In cities this should be stored in dark, fly proof receptacles and should be regularly removed within six days in summer. Farm manure should also be removed within the same time and either spread on the fields or stored at a distance of not less than a quarter mile from a house or dwelling. Manure piles may be treated with borax, using three-fifths of a pound to every ten cubic feet of manure. Scatter the dry borax principally around the sides and edges of the pile and wash in with water. Kitchen refuse is a favorite breeding place for flies, and great care should be taken to keep garbage cans tightly covered. The contents should be buried or burned at once, if possible. No refuse should be left exposed. If it cannot be disposed of at once it should be sprinkled with borax, as described above, or with chloride of lime. Windows and doors should be screened to keep flies out of the house. Milk and other foods should be covered with muslin or other netting. It is especially important to keep flies out of sick rooms and to prevent the spread of disease by this means.

MUCH LESS DRINKING NOW IN ENGLAND

TOTAL PROHIBITION IS NOT SOUGHT.

Public Drunkenness Has Decreased 50 per Cent., Says Lord d'Abernon.

"Fifty per cent. less public drunkenness and disorder than before the war," was Lord d'Abernon's answer to the question of the result obtained by the drink restrictions which the Central Liquor Control Board, of which he is the head, had put in force, writes a London correspondent.

Lord d'Abernon was emphatic in denying that total prohibition is his ulterior aim. He made this denial in answer to certain suggestions which have been afloat that the various restrictions are simply stepping stones to prohibition. The official board of which Lord d'Abernon is the leading figure took over control of Great Britain's liquor problem on May 15, 1915.

Designed to affect areas such as munition centres and seaports, it has gradually extended its scope of operations until 28,000,000 people are directly affected by its decisions. The board possesses drastic powers, even to the point of absolutely closing saloons when it considers their existence prejudicial to the interests of national productiveness.

At present saloons may sell intoxicating liquors only between the hours of noon and 2.30 p.m. and 6.30 and 9.30 p.m. on work days, and on Sundays between 1 and 3 p.m. and 6 and 9 p.m. Limited hours are prescribed also for the sale of bottle liquors for consumption off the premises; the prohibition of selling liquor on credit and the absolute stoppage of treating in saloons, clubs or any other places.

Increased Efficiency.

In addition to the diminution of drunkenness and disorder, Lord d'Abernon said one of the most satisfactory results in the increased efficiency and productiveness of workers in munition areas. Continuing, he said:

"The first step toward realizing the true conditions is to appreciate the fact that in the years immediately preceding the outbreak of war both consumption of alcohol and the number of convictions for public drunkenness were steadily going up. In the past good trade has always coincided with an increase of alcohol consumption, but it is disappointing to realize that in 1910-14 increased taxation of alcohol, the temperance propaganda and the licensing regulations in force which resulted in an annual diminution of about 1,000 licenses a year had not been sufficient to counterbalance the influence of good trade and high wages.

"The second point is the readiness with which the public has conformed to the drastic regulations which have applied during the last nine months. I attribute this attitude to the restrictions being regarded as war necessities and the realization that in a great crisis personal convenience must give way to national efficiency. This patriotic view has not been confined to the consumer and to the public. It has been supported by all the better members of the trade.

"Regarding the restriction of hours, more divergence of opinion exists. The board has sought to confine the consumption of alcohol to those hours which conflicted least with the working day and which coincided best with ordinary meal hours. One unexpected result appears to have occurred in many cities, that the reduction in the number of convictions for drunkenness with aggravations—aggravations usually representing disorder and assault—had been even greater than the reduction in simple drunkenness.

Wants Permanent Reform.

"If you ask my general conclusion I should say that the period has been too brief for any final opinion to be expressed, but that there can be no doubt that there is ample ground for belief that a vast improvement has been achieved. The drop in public intemperance and of convictions resulting from it which occured in such area, directly the orders were put in force, has been steadily maintained up to date. It is often said, 'Men cannot be made sober by act of Parliament.' My belief is that under a really effective system of regulation three-fourths of the drunkenness which prevailed before the war would never exist again.

"Among other reasons why improvement is or should be easy is the undoubted fact that the financial results of the present system are good. Do not imagine that the present condition is favorable to trade interests. Licensed houses are not only too numerous from the public order and police point of view, but they do not know that they are too numerous from the standpoint of trade efficiency, and that the same net profit could be realized from licensed houses reduced in number by 30 or 40 per cent.

Trade Competition Evils.

"Assuring internal economies in the brewing trade to be accomplished, it would be much easier to effect the kind of reforms which are necessary in the public interest. The present competition for trade, which is said to account for much of the drunkenness which prevails, would almost wholly disappear. Again, it would be possible to negotiate for a stricter code of management and observation in the public houses themselves. Those responsible for the management of the trade would be able to approach all such questions from a very different standpoint from that adopted in the past, in that they would have a greater percentage of profit out of a smaller business because of the economies of management.

"It might be made almost impossible for the habitual drunkard to obtain more than was good for him, and the occasional drunkard could be largely eliminated if checked in time on curative lines. Very little is done for the drunkard to-day. I think he has a real grievance. These are results which might flow from the suppression of unnecessary houses and foolish expenditure. Intoxicating liquor needs no artificial pushing to command a steady sale and a lucrative trade. The customers are there and the number of those who misuse the privilege of purchase is relatively small. This small minority brings discredit upon and danger to the trade as a whole.

"The public has now had an opportunity of seeing what is possible on new lines under the board's orders, and in a readjustment of pre-war conditions we may easily find a solution of many of the more pressing problems of the evil of intemperance."

DIDN'T RECOGNIZE ENEMY.

German Machine Seized Despite Soldier's Lack of Suspicion.

A good specimen of a Fokker aeroplane is now in British hands. A straggling soldier belonging to a signal company of the Royal Engineers, was trundling along on his bicycle near the front, when he suddenly came upon the scene of the landing. He beheld an aeroplane which was clearly not of British pattern, and a well-swatched figure standing by it. The idea that it was likely to prove an enemy machine never entered the soldier's head. He frankly admits that he took it to be a French aeroplane which had been forced to alight. Having dismounted, he went up to the Boche with his hand extended and a genial smile. The German shook silently and sadly.

The soldier then moved towards the machine with the idea of investigating the trouble which had brought it to earth. It was just at this juncture a party of Fusiliers came around a bend of the road. Taking in the situation—a black cross aeroplane on the ground and what was evidently one of its occupants trying to get the engine to work again—they came on at the double, unslinging their rifles as they came.

The engineer's presence of mind seems to have gone by the board. He suspected some trick and took to his heels. The Fusiliers, concluding that he was a Boche trying to make away with papers or photographs, paused and let fly. Happily the aim was too hurried to be good. The soldier took a flying leap into the roadside ditch and awaited capture.

When he learned that he had missed the chance of making this fine capture himself single-handed I am told his language was quite unrepeatable.

Ditch Digging Extraordinary.

A French soldier with a taste for statistics has calculated the amount of soil that has been moved in the work of trench making. There are about five hundred miles of first-line trenches, stretching all the way from the North Sea to Switzerland, and there are five or six lines of trenches on each side. A total of ten lines of trenches would give about five thousand miles, and this, according to the calculating soldier, means a total excavation twice that of the Panama Canal. And it has all been done by hand labor with military shovels, and much of it under fire by men who had to work while lying on their stomachs.

Uncle's Way Out

There could be no two questions about it that old Uncle Robert was, in the words of his niece by marriage, "a perfect drag." Mrs. Harvey, the said niece, even went to the length of terming her husband's relative "an 'indrance"—her "h's" having a way of appearing in the wrong places when Mrs. Harvey got angry.

She often did get angry with Uncle Robert since he gave up his business, or his business gave him up, and the hints which she dealt out to the poor man at frequent intervals daily would have been quite plain to even a duller brain than old Uncle Robert's. The arrangement had sounded quite pleasant at first, and Mrs. Harvey, as a keen business woman, had been fully alive to the advantages of having the old man live with them.

She had married Joe Harvey somewhat late in life, and his uncle's nice houseful of solid, old-fashioned furniture probably attracted her a good deal more than did her prospective husband. She took him somewhat on the principle which moves a woman at an auction to buy a wheelbarrow, a rolling-pin, and a never-to-go-again barometer in one lot, in order to secure the barometer to fill a vacant place in the hall.

She had not sized up the possibilities of the wheelbarrow—otherwise Joe Harvey—anything like as much as she had thought of the mahogany sideboard with which he was, as it were, "thrown in." However, he had been quickly given his proper place by the lady who had married him, and made to understand that he came very much second to the sideboard, and chairs, and the plushette curtaining, and the polish on the linoleum.

There came a time when Joe Harvey said things about that linoleum as he left the house in the morning which would have caused his wife to give him a look of horror. The floor of the old days, unpolished and comfortable, remained in his mind's eye like a lost paradise. He had been persuaded by Mrs. Harvey that a mirsiage was the thing that was wanted to put right the many little drawbacks of life with a bachelor uncle.

He came to the conclusion before many months that there were worse drawbacks than having to wash your own breakfast dishes before you could have your supper, and that having plain meals at proper hours, though good for the digestion, did not give such a spice to the day as having tasty snacks of whatever you liked best just when you fancied them.

Moreover, meals under Mrs. Joseph Harvey's direction had to be eaten properly, and were often ordeals. Shirtsleeves were not allowed, and the comfortable chairs, in which Uncle Robert and his nephew had always eaten Sunday morning breakfast, before the latter's marriage, would positively have scared Mrs. Joseph stiff.

Being a really capable manager, it took a surprisingly short time for her to "manage" her husband. His disposition, naturally mild, rapidly became meek, and he began, as the result of many curtain-lectures, to regard himself and his uncle as drawbacks to the social and financial advancement of the family.

For Mrs. Joseph had ambition, and Uncle Robert certainly did not fit into the picture, with his rough ways and broad, Dorset speech. As long as he had been capable of carrying on his small business, and giving her a steady sovereign a week—the furniture she regarded as a natural perquisite—things had not been so bad. Now that the business had dwindled away, and the old man's savings had been so much affected by the war that they also were in danger of disappearing, Uncle Robert's niece by marriage gave him to understand that he was in the way.

She told him this, in anything but veiled terms, about twenty-five times a day, particularly when she wanted to "turn out," and found it necessary to move him on from one haven of refuge to another.

Finally, he took to "turning-out" himself, and Mrs. Joseph, at first, audibly thankful for his removal, became, for a while curious to know where he spent the absentee hours, especially as he began to miss teas at home, and then dinners, and took to "popping out" in the evening as well. She also noticed a new cheerfulness about him—a certain youthful sprucemess that was suspicious.

One day, discovering a new suit during her explorations of his room, she bluntly demanded explanation.

"Where did you get the money for the new things, I'd like to know?" she jerked out at the offender when he came in that evening. "You don't seem to have much to pay up for your keep here—and all the wear and tear on things that there is. Look at that line now"—with a glare at a worn fragment—"just under your feet!"

The old man kept back the retort that, after all, it was his own linoleum, and answered mildly that the suit didn't happen to be quite new.

"I got it from a friend whose brother didn't want it no more, and that I'd done a piece of work for."

Mrs. Harvey sniffed, but was uncertain whether to say that she didn't believe him, or to demand the friend's name, or ask the nature of the work; and the old man seized his chance to escape upstairs.

Her curiosity might have prompted her to keener inquiries next day, but for the veritable bomb dropped at the supper-table by her husband. He had come home very late, and had, as usual, said nothing to the many sarcastic inquiries of his wife. Like his uncle, he was not very talkative by nature, and he had had still fewer chances of becoming an easy speaker since Mrs. Harvey had married him.

"Well," he said, as he finished supper, staring at a knob on an armchair as if asking it advice, "I've enlisted."

Uncle Robert gazed at his nephew as if he had suddenly become a total stranger. Mrs. Harvey gave a gasp, and she said absolutely nothing — a marvel in itself.

Then she tried to say all she wanted at once, and as a natural result became wildly incoherent, and ended by going off into tears and sobs, through which she loudly proclaimed that Joe was a wretch to think of doing it. Whatever was she to do, and why didn't he leave that sort of thing to them whose job it was?

From which it will be seen that Mrs. Harvey's patriotism was not her strong point. She held quite openly the view which sundry tradesmen, big and little, held in private—that war is a thing which only concerns proper regular soldiers, and that other people were bound to do the best they could for themselves out of it.

To all her protests, Joe Harvey only said:

"It's no sort of use making a fuss, old girl. I've been to the barracks to-night, and I'm starting to-morrow."

He pushed back his chair—his first open sign of the new order of things; Mrs. Harvey did not allow chairs to be "scraped along the floor." Then he slowly filled his pipe, pulled the paper out of his pocket, and started to read, oblivious of the long-winded opinion of his conduct voiced by his wife.

Only once did he even glance up, and that was when Uncle Robert seized the chance to whisper hurriedly, Mrs. Joseph being occupied in noisily piling up dishes in the back kitchen:

"Good luck, my boy! Never should 'a' thought you'd the pluck to do it."

Joseph gave a slow wink.

"Wants more pluck to stay here," was all he said. But it put things on a confident footing between them, and Uncle Robert said to himself several times before he went to sleep that his sister's son wasn't such a fool, after all.

Neither did he mean to be one himself, for all he was sixty-five and given over to rheumatism. He might not be able to enlist, but he thought a move from his present quarters would be wiser before Mrs. Joseph began to train him to perform Joe's duties.

So the next day, after seeing his nephew off, h also went out, and had a long talk with a pleasant-faced little woman who kept a general shop the other side of the town.

He seemed to be quite at home there and she swift appearance of a mug of warm cider showed that the little woman did not decline, like Mrs. Joseph Harvey, to provide Uncle Robert's favorite drink on the ground that it was bad for his rheumatism.

Quite at ease, he sat by the fire in the back parlor, and talked to the little woman as she trotted in and out in the intervals of serving customers, and contrasted the cosiness of it all with the cheerless rooms over which his niece by marriage presided.

He was quite decided that he wanted to leave those rooms as soon as possible, or anywhere else that involved the company of Mrs. Harvey. The proposition had evidently been made in the pleasant little woman some time ago. She was more than agreeable, but there were pratical difficulties in the way.

The war had crippled her finances, as it had done Uncle Robert's, and they'd have to have a bit more patience, she thought, until things brightened up. Perhaps things would be better sooner than they expected, and then she smiled so cheerinely that Uncle Robert decided he could endure two Mrs. Josephs if the little woman came as a final compensation.

* * * * * *

The compensation did indeed arrive sooner than had been expected, for it came only three days later, before Mrs. Joseph had recovered from the shock of seeing her meek husband disappear from her power, and change into a self-reliant man in khaki.

It came in the shape of a letter, which caused Uncle Robert, whose scanty breakfast had not cheered him up much for the day, to smile broadly.

The writing was plain, and rather irregular, but the message it bore was finer, in the old man's eyes, than ever written.

"I'll be getting my dinner out to-day," he told Mrs. Joseph, as she faced him with an accusing look across the table, having got to the stage when she thought everyone ought to show their personal interest in the war by going without their meals and looking miserable.

"Oh, will you?" was all she jerked out, by way of reply.

She still harbored the idea that the enlisting had been in a great measure due to Uncle Robert, and she had an extra grudge against him accordingly.

"Yes," said the old man deliberately, "and I don't suppose I'll want many more here at all. I'm going to move over to the shop in Dale Street. She and I fixed up to get married some time ago, and now she's just come in for a tidy bit—two hundred and fifty pounds it is, so there's no call for us to wait no longer. Clever little woman, Annie is."

"Maybe," he went on, "we'll move back along to Dorset; she comes from those parts, too. I'll ask her to slip round some day, and see what she'd like of the furniture. She's a set of her own, but maybe some of this will come in handy, too."

He ended the most amazingly long speech he had ever made, feeling that the moment held its reward for all the weary months he had suffered at Mrs. Joseph's hands.

And Mrs. Joseph continued to stare at him, speechless, open-mouthed and goggle-eyed, with her bewildered thoughts on the mahogany sideboard. —London Answers.

LORD WIMBORNE FINE SPORTSMAN

HE IS QUITE POPULAR AMONG THE IRISH.

Lord Lieutenant of Ireland Has Been Lacking in Political Foresight.

Lord Wimborne is an agreeable and affable man. He wears an eternal smile on his face and an everlasting flower in his buttonhole. He is 43 years old, and, ten years or so ago, was an average representative of the "young man about town"—of the "gilded youth" of England. If not overburdened with brains, he has loads of money and owns pretty close on a hundred thousand acres, chiefly in the county of Dorset and in South Wales, where some of his acreage consists of coal fields. In short, in normal times, he would have made an ideal figurehead at Dublin Castle—lavish with dinners and dances, strong at races and horse shows, and the rest of it. But when plots are on foot to establish a Republic in Ireland, times can scarcely be said to be normal. And if neither the Lord Lieutenant could sense these plots, nor was forewarned of them by his officials, then either he must have been singularly obtuse or some of the officials ought to be shot.

Lord Wimborne, Lord Lieutenant of Ireland.

The post of Lord Lieutenant of Ireland is, at the best, a difficult and thankless one in many ways. In these days, it is a post of positive danger. Had the rebels been able to carry out their project, no doubt it would have included the capture of the Lord Lieutenant and his family, and the holding of them as hostages. Lord Wimborne's courage is undoubted. He has given plenty of proofs of it in the hunting field and on the polo ground, as well as on the battlefield in South Africa. But he has a very beautiful wife, as well as a young family. And the last week or so must have been days of great anxiety for him on their account.

A Fine Sportsman.

The Lord Lieutenant has now held his office for over a year. During that time he has made himself reasonably popular with the Irish people, all the more so in contrast with his immediate predecessor, Lord Aberdeen. The latter and his wife were both amiable and well-meaning people, but they had not the happy knack of adapting themselves to Irish sentiment that his successor has been able to do. He has done his utmost to encourage certain enterprises which the majority of the Irish people happen to be interested in. He cares greatly for horse racing and for horses, as do the majority of the Irish. Horse breeding, moreover, has always been a considerable industry in Ireland, so that a Lord Lieutenant who does a good deal to foster it is assured of a certain measure of goodwill. Racing may not be so important as many other things—as the crusade against tuberculosis, for instance, with which the Aberdeen regime was associated—but the Irish like the stranger (as far as they like strangers at all) who will adapt himself to their little weaknesss.

It was only the year before last—only a couple of months before the outbreak of war—that the name of Lord Wimborne, as "the cup-winner," was in everybody's mouth. For it was he who organized the sporting invasion of the United States by his clever polo team which "lifted" the international challenge cup. As regards polo, he is an enthusiast of the orthodox kind. But he is almost as keen on many other forms of sport—on hunting, racing, shooting and so forth.

His Brainy Mother.

He inherited his money from his father. What brains he has must have come from his mother, who is an aunt of Winston Churchill's—Lord Wimborne's family are said to have been of a good deal of assistance to the deserving cause of the Churchill finances ere now—and who is certainly a woman of consummate ability. Indeed, it is said to have been largely due to his mother's influence that Lord Wimborne and Winston Churchill, too, definitely broke with the Unionist party over the question of Tariff Reform. For, like his cousin, Lord Wimborne was, for some years, a Unionist M.P.

Lord Wimborne has a regular host of relatives living in, or hailing from the United States. His aunt by marriage, Lady Randolph Churchill, was an American millionaire. The wife of the Duke of Marlborough, his cousin, is the daughter of another. One of his brothers, Capt. F. E. Guest, M.P., is married to a daughter of Mr. Henry Phipps, of New York. Another of his brothers, Mr. Lionel Guest, married Miss Flora Bigelow, daughter of the late Mr. John Bigelow, of New York. His brother-in-law's wife, Mrs. Robert Grosvenor, was formerly Miss Florence Padelford, of Washington.

WOMEN TURN MACHINISTS.

Receive the Same Pay As Men In British Factories.

Overalled, leather-aproned, capped and goggled—displaying nevertheless a woman's genius for making herself attractive in whatever working guise—some 18 women are being trained in the Notting Hill Gate, England, workshops of the Women's Service Bureau in the skilled engineering work of welding joints and flange socket needed for the construction of aeroplanes.

As fast as they are trained, the women are placed in Government factories, where they receive the same pay as men. The women welder is another instance of woman's adaptability to work believed to be out of her province. She bends over an oxy-acetylene blowpipe with a flame of 6,000 Fahrenheit that can make steel run like sealing wax. Though her eyes are protected by goggles of colored glass, a rain of bright sparks impinge on her face and neck, but she heeds them not, nor obviously does her complexion.

She saws, files and hammers steel and the women welders' workshop is filled with a hundred loud or shrill clamors of metal, but the nerves of the women welders are unaffected. Miss Woodward, the principal, declares that many of these women, who have never done manual work before, find their work "a nerve tonic," and that headaches are left at home.

GAMBLERS NEVER SUICIDES

True Dealers in Chance Are Persons of Eternal Hope.

Great police officials assure us that the professional gambler or person moved by true gambling instincts never under any circumstances takes his own life, says Melville Post in the Saturday Evening Post. It is the defaulting clerk who kills himself, the ruined shopkeeper, the desperate woman of the world, the involved financier, the defaulter and the like, who have turned for the moment to the gambling table in the vain hope of recouping their losses or mending their ruined fortunes.

The true gambler is a person of eternal hope. If he loses to-day he believes that he will win to-morrow. "None but reasonable and reasoning men, players from ambition, from envy or necessity, ever give way to despair and commit suicide. "The professional gamblers lives to old age," says Monsieur Claude in his memories.

Might be Worth Trying.

Mrs. A.—Doctor, is there anything in the theory that our natures are affected by the food we eat?

Doctor—Oh, yes; that point has been conceded by the best authority.

Mrs. A.—Then I think I'll get a setting hen and feed my little boy on the meat. He's the most restless child I ever saw.

At the Show.

Edith—I noticed you wiping your eyes when "The Sorrow of Sarah" film was being shown.

Jack—Yes, it was a moving picture.

HARD WORKING WOMEN

Will Find New Strength Through the Use of Dr. Williams' Pink Pills.

It is useless to tell a hard working woman to take life easily and not to worry. Every woman at the head of a home; every girl in offices, shops and factories is subjected to more or less worry. These cannot be avoided. But it is the duty of every woman and every girl to save her strength as much as possible, and to build up her system to meet unusual demands. Her future health depends upon it. To guard against a breakdown in health the blood must be kept rich, red and pure. To keep the blood in this condition nothing can equal Dr. Williams' Pink Pills. They strengthen the nerves, restore the appetite, bring the glow of health to pallid cheeks, and renewed energy to listless people. Women cannot always rest when they should, but they can keep up their strength and keep away disease by the occasional use of Dr. Williams' Pink Pills. Mrs. A. Rhodes, Hamilton, Ont., says: "A few years ago on coming to Canada, working long hours, and close confinement began to tell upon me. I was completely run down, and finally could do no work. I was pale, suffered from headaches, did not rest well, and felt altogether very miserable. The doctor said that the trouble was anaemia, and after doctoring for some weeks without getting any relief, I decided to drop the doctor and take Dr. Williams' Pink Pills. Very soon I began to notice a change for the better, and by the time I had used a half dozen boxes of the Pills I was again enjoying the best of health. I have never had any return of the sickness and never felt better in my life than I do now. I give my experience, therefore, that it may be used for the benefit of others."

You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

THE FAMILY BOTTLE.

As Prohibition approaches, a good many who still believe in the virtues of alcohol as a family medicine may be disturbed as to how they can have the bottle replenished. To all such I address this letter, asking them to examine the matter fairly and candidly.

Alcohol as medicine is rapidly being given up in all the large hospitals. This is shown by the collated reports of seven of the largest hospitals in England. In 1862 $37,403 was spent for alcohol and only $14,675 for milk. In 1902 only $13,186 was spent for alcohol and $43,818 for milk, with about the same number of patients. Sir Victor Horsely tells us that some of the present day rapid recoveries are due to the fact that after operations, the patients are no longer dosed with alcohol. Many of the most successful physicians of the day never prescribe it even in the smallest quantity. That being so, would it not be wise to leave it out of the family medicine chest.

It is now beyond dispute that alcohol even in moderate quantities, lessens efficiency, lessens power of endurance, weakens the memory and eyesight. It does not require any great intelligence to understand that what does all this must lessen the power of a patient to fight disease. If a single glass of beer lessens a man's endurance by seven per cent. and his power to remember things by fifteen per cent., it follows that it also weakens his power of recovery from disease. Dr. Welsh, of Johns Hopkins University said "Alcohol in any form or in any quantity lessens a patient's chance of recovery." If that be true of an adult, how much truer it is of the delicate tissues of a child. Some years ago the German government issued a poster, warning parents to give their children "not one drop of beer, not one drop of wine, not one drop of whiskey or any other form of alcohol."

Not only does alcohol lessen a patient's chance of recovery from illness, but it greatly increases his tendency to contract disease. No one will accuse military men of being temperance cranks, and yet the Handbook of the Royal Army Medical Corps takes great pains to put that fact beyond question. On page 20 of that book experiments are described that would convince any man that even one glass will render a man more liable to any contagious or infectious disease.

Not long ago the Academy of Medicine of Toronto, unanimously declared against the use of alcohol in any form as a medicine. Finally let us remember that in the U.S. whiskey and brandy have been left off the American Pharmacopeia, which is the official list of medicines recommended for the use of Physicians. If that be so, are you not quite safe in dropping the use of it as a family medicine? Sometime I may advise what to use in its place.—H. Arnott, M.B., M.C.P.S.

Napoleon's Rise.

Napoleon, who rose to be a general of brigade after only eight years' connection with the French army, was shortly after shorn of that honor when Robespierre fell; yet, so adroit a politician was he that by 1795 he was the head of the forces of the convention, though nominally an aide-de-camp to Barras as commander-in-chief, and actually the most effectively powerful man in France.

Giving Their Lives to Blinded Soldiers

George A. Kessler, a Lusitania survivor, has decided to give up his business to direct the handling of the fund for the blinded soldiers of France, Belgium and Great Britain. He is an officer and founder of the Permanent Blind Relief War Fund. Mrs. Kessler will also aid the cause, not only by giving money but by personal efforts. Already a large number of influential and wealthy people of the United States have become interested in this movement, and Mr. Kessler is hopeful that millions will be contributed. Jules Bois, the noted French author who addressed a gathering for the purpose of receiving contributions, said, "The American people should consider the blinded of Belgium, France and Great Britain as their own blind, because these allied blinded soldiers and sailors have given their eyesight for humanity and for the future of America."

REDUCTION IN CRIME.

Estimates for Year for British Prisons Drop $500,000.

A reduction in the prison estimates of the British Isles for the coming year of $500,000 or about 12 per cent., and the shutting up, in whole or in part, of a score of prisons are some of the visible evidences of the reduction of crime owing to the war, according to the report of the commissioners of prisons. Of the 20 prisons closed or in process of being closed eleven have been closed entirely, all being situated in towns of moderate size like Chelmsford, Hereford, Stafford, St. Albans, etc.

The biggest drop in crime was noticed in the year ending March, 1915, when the percentage was 281 per 100,000 population. The fiscal year now drawing to a close is expected to show a still further decrease in crime, the report says.

MEAL-TIME CONSCIENCE.

What Do the Children Drink?

There are times when mother or father feeds the youngsters something that they know the children should not have. Perhaps it is some rich dessert but more often it is tea or coffee.

It is better to have some delicious, hot food-drink that you can take yourself and feed to your children, conscious that it will help and strengthen, but never hurt them.

An Eastern lady says: "I used coffee many years in spite of the conviction that it injured my nervous system and produced my nervous headaches." (Both tea and coffee are injurious to many persons, especially children, because they contain the subtle, poisonous drug, caffeine.)

"While visiting a friend I was served with Postum and I determined to get a package and try it myself. The result was all that could be desired—a delicious, finely flavored, richly colored beverage. Since I quit coffee, Postum has worked wonders for me.

"My husband, who had suffered from kidney trouble when drinking coffee, quit the coffee and took up Postum with me and since drinking Postum he has felt stronger and better, with no indication of kidney trouble.

"You may be sure I find it a great comfort to have a warm drink at meals that I can give my children, with a clear conscience that it will help and not hurt them as tea or coffee would."

Name given by Canadian Postum Co., Windsor, Ont.

Postum comes in two forms:

Postum Cereal—the original form—must be well boiled. 15c and 25c pkgs.

Instant Postum—a soluble powder—dissolves quickly in a cup of hot water, and, with cream and sugar, makes a delicious beverage instantly. 30c and 50c tins.

Both forms are equally delicious and cost about the same per cup.

"There's a Reason" for Postum.

—sold by Grocers.

DEMANDS OF MODERN WAR.

Soldiers Are Trained to Throw Grenades at the Enemy.

With cannon firing shells weighing a ton a distance of 22 miles, there was little thought that in a modern war men would exchange bombs at a distance of from 22 feet to 22 yards. But the present war, as is well known, has brought back the close range fighter in the form of the grenadier of the first empire without the bearskin cap, the legendary plume and the scarlet epaulets; he is now distinguished from the infantryman only by a grenade embroidered in gilt on the sleeve of his dolman.

The modern grenadiers are made up of the elite of the infantry. The most athletic, most sportive and most audacious of recruits are selected for this service where cool headedness, strength and skill are required. They are trained with almost as much care as a prizefighter preparing for a world championship match. They are given exercise for the development of the muscles, and are trained in grenade throwing when on the march, while lying on the ground, while kneeling, and in all other positions in which the body may be placed while the man is trying to protect himself. They have a thorough preparation in the judging of distances and throwing grenades from one trench to another. After a batch of men chosen for this work have gone through this kind of preparation, competitive trials are held and those only are selected who demonstrate that at 20 yards they can hit any sort of a silhouette with a grenade.

Grippe Left Her Seriously Ill

BUT DODD'S KIDNEY PILLS CURED HER COMPLETELY.

Mrs. Halquist Tells Just Why She is the Firm Friend of the Grand Canadian Kidney Remedy, Dodd's Kidney Pills.

Bangsund, Sask., May 15th (Special).—Mrs. Pete Halquist, a well-known resident here, is a firm believer in Dodd's Kidney Pills, and, is always ready to tell the reason why.

"About a year ago," Mrs. Halquist says, "my little girl was taken ill with the grippe. She was sick in bed for three weeks with pains in the joints. They were swollen and stiff.

"She had cramps in her muscles, so it was useful hard for her to get around for the longest time. After she was able to be around her skin became harsh and came off in scales.

"After using two boxes of Dodd's Kidney Pills she was as well as ever she was in her life. She has been strong and healthy ever since."

The after-effects of grippe are more to be dreaded than the disease itself. That is because they generally act on weak kidneys and put them out of working order. Sick kidneys are the cause of rheumatism, backache, dropsy and numerous other diseases. The one sure way to avoid them is to keep the kidneys toned up and able to do their work. The best way to keep the kidneys healthy is to use Dodd's Kidney Pills.

GERMANS TURN ON KAISER.

Civilians and Military Show Signs of Dissatisfaction.

The London Chronicle's Amsterdam correspondent sends an account of a visit to Germany and Belgium just made by an educated neutral, who said:

"I was in Germany about three months ago when hope was high; Verdun had not brought its disillusionment. But now, I never could believe an entire national spirit could have changed so completely. There has been a veritable revolution in feeling and opinion. What astonished me more than anything else was the outbreak of feeling against the Kaiser. I could never have believed such a change possible—to the German people. And not only the people—the same spirit of revolt shows itself among the officers. The Kaiser, of course, has his bands of supporters, both in the army and among the people, and in this fact I sometimes thought I saw the beginning of civil strife, which is more and more certainly threatening to rend Germany in twain.

"Very soon, unless I completely misread the signs, it will be only pro-Kaiser and anti-Kaiser, and on side or the other will be driven out of power. At present, owing to the unwillingness of the great majority to show their feelings openly, it appears the pro-Kaiser party is the stronger, but once there is an open breach I believe the others will prove immeasurably more numerous and influential. If the universal and deep desire of the entire people has any power to make itself felt in the councils of Germany, then peace ought not to be far away.

"As for the condition of Belgium what strikes one there is the dreadful scarcity of food. For three months the people of Brussels have scarcely seen a potato. I often wondered what was happening to the stores which the United States is sending for the Belgians. I did hear a story which gave me some idea of what is going on. It is the custom for the burgomasters of the smaller Belgian towns to send in a statement of the urgent requirements to headquarters at Brussels. When the supplies arrived in these places there was, of course, a tremendous demand from the population, but I was assured that before the distribution to the public took place the officers of the German force there, firsts had their pick. When they had finished there often was not much left for the famished people.'

Better Muscle, Better Work—the power to do things comes from food that supplies the greatest amount of strength-giving nutriment with the least tax upon the digestive organs. **Shredded Wheat Biscuit** contains all the muscle-making material in the whole wheat grain—the most perfect food given to man—made digestible by steam-cooking, shredding and baking. Contains more real nutriment than meat or eggs and costs much less. Being ready-cooked and ready-to-serve, it is the ideal Summer food. Delicious for breakfast, for luncheon or any meal with milk or cream, or with fresh fruits.

Made in Canada.

EMULATES NAPOLEON.

Enver Pasha Aspires to Regenerate His Country.

Any one who reads Turkish history for the last eight years—the Young Turk movement the deposition of Abdul Hamid, the Turkish revolution and the Balkan wars—constantly meets the name of Enver Pasha, says World's Work. This statement has one ruling idea—that he is a man of destiny, a man almost divinely appointed to regenerate his country.

In his working room he sits with a large picture of Napoleon on one side and one of Frederick the Great on the other. These men are his heroes, and what Napoleon did for France and Frederick for Prussia Enver aspires to do for Turkey. There is, indeed, something in common between his career and that of the Corsican.

Like Napoleon, Enver came into power on the crest of a revolution. Like Napoleon, he succeeded in turning this revolution into a personal asset. Both men became powerful first as military men. Enver, no less than Napoleon, has had youth on his side. Napoleon, at the age of 30, became the dictator of France; Enver, who is now one of the two masters of Turkey, is only 34. And in the fact that Turkey defeated the English at the Dardanelles and forced their withdrawal Enver sees a military triumph that is almost Napoleonic in its proportions.

Minard's Liniment used by Physicians.

Utilizing Refuse.

Among the recent patents filed in England is a process for removing the solder, tin and chemicals from scrap and galvanized articles and for utilizing the base metals. The inventor is a South Wales tinplate worker, who has already obtained contracts from several municipalities for treating down refuse such as tin cans, containers and similar metallic waste products.

Had ship's anchor fall on my knee and leg, and knee swelled up and for six days I could not move it or get help. I then started to use MINARD'S LINIMENT and two bottles cured me.

PROSPER FERGUSON.

One Empty, the Other Cracked.

A Scotsman once complained that he had got a ringing in his head. "Do ye ken the reason of that?" asked his friend. "No," "I'll tell ye—it's empty." "And hae ye never a ringing in your head?" asked the other. "No, never." "And do ye ken the reason? Because it's cracked."

Sore Eyes Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, Just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book at the Eye Free ask Druggists or Murine Eye Remedy Co., Chicago

Just a School Story.

History was the subject the class studying, and presently the teacher asked, "Now, can anyone tell me who Joan of Arc was?" Profound silence. Some of the children looked in thoughtful speculation at the teacher, while others stared wildly round the room, as if in hopes that the maps on the walls might answer the question. Then suddenly a hand waved wildly in the air, and a small boy shouted gleefully, "Please, teacher, Noah's wife!"

Minard's Liniment Lumberman's Friend

SCIENCE FACTS.

Some of the brightest clouds we see on a summer's day are made of snowflakes and tiny floating crystals of ice.

It has been found that oil in sand or earth causes it to have a very high resistance to the flow of an electrical current, while, on the other hand, certain ores in the earth cause it to have a very low resistivity.

If the number of seconds between the time of seeing a flash of lightning and of hearing the thunder be counted an estimate may be formed of the distance of the thunderstorm, because lightning is seen instantaneously, while the sound of thunder travels at a definite rate. An interval of about five seconds would indicate that the flash is a mile away.

Stocks of absinthe now are being converted into an ingredient for explosives at a co-operative distillery at Pontoise which has been supplying clear alcohol extracted from beet roots to government explosive factories, where it is used in the manufacture of guncotton. Unable to supply the demand, the managers of the distillery, conceived the idea of buying up the stocks of the forbidden beverage which had been sealed in the warehouses of manufacturers. The liquor is transformed into alcohol under the supervision of four government inspectors.

CHILDHOOD AILMENTS.

The ailments of childhood are many but most of them are caused by some derangement of the stomach and bowels. Therefore to banish these troubles the stomach must be kept sweet and the bowels regular. To do this nothing can equal Baby's Own Tablets. Thousands of mothers have proved this. Among them is Mrs. Thomas Holmes, Blissfield, N.B., who writes: "Every mother in this locality uses Baby's Own Tablets as we all consider them the very best medicine for childhood ailments." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

100,000,000 Stars In Map of Sky.

A map of the visible universe, upon which the astronomers of the world have been working for twenty-five years, is almost complete. It will contain every star which can be found by the most powerful telescope. The number will not be less than 100,000,000. Some of the stars which will be represented have never been seen by the eye of man and probably never will be seen. They are caught and recorded by the photographic plate, which is more sensitive to light than the retina of the human eye.

Ask for Minard's and take no other

The Great Moral Question.

Teacher—Children, how can we distinguish right from wrong?

Pupil—If we enjoy doing a thing it's wrong.

ABSORBINE STOPS LAMENESS

from a Bone Spavin, Ring Bone, Splint, Curb, Side Bone, or similar trouble and gets horse going sound. It acts mildly but quickly and good results are lasting. Does not blister or remove the hair and horse can be worked. Page 17 in pamphlet with each bottle tells how. $2.00 a bottle delivered. Horse Book 9 M free.

ABSORBINE, JR., the antiseptic liniment for mankind, reduces Painful Swellings, Enlarged Glands, Wens, Bruises, Varicose Veins, heals Sores. Allays Pain. Will tell you more if you write. $1 and $2 a bottle at dealers or delivered. Liberal trial bottle for 10c stamps.

SAM KATZ, Suite L 2202, 2300 Indiana Ave., Chicago, Ill.

The Paisley Advocate

PAISLEY, MAY 24th, 1916

Death of Mrs. Irwin

After only a few days' illness, Mrs Elizabeth Irwin, widow of the late William Irwin, passed away at her residence, Queen St north, on Friday morning last. The deceased had been a resident of Paisley for 14 years. She was a native of the Tp of Caven, Ont, but was living in the Tp of Essay, Simcoe Co. when she was married in 1857. Six years later she went with her husband to Ashfield Tp., Co of Huron, where Mr Irwin died about 27 years ago. Mrs Irwin was a very active woman, enjoying good health and the possession of her faculties up to the time of her fatal illness, which came upon her just as she was entering her 83rd year. Kindly and friendly in disposition, she was loved and esteemed by all friends and acquaintances. She is survived by a family of six sons and two daughters: Wm., of Wiarton; George, of Dungannon; Robert and Henry, of Walkerton; Arthur, of Paisley; Thomas, of Flora Road north; Hamilton, of Glenavon, Sask; Mrs Edwards, of Dungannon, and Mrs J Millie, of London. A funeral service was held at the house on Friday evening, conducted by Rev Mr Facey—the deceased having been a lifelong Methodist, and on Saturday the remains were taken by train to Dungannon for interment.

Printing Costs Soar

St. Thomas Journal: The printing, publishing and kindred trades in Canada are feeling keenly the war's influence on prices of the various supplies used by them. Large advances made in the price of printing papers, inks, etc., since the war began, but present indications are that existing conditions will become much more serious during the present year. The price of newsprint has gone up twenty-five per cent. in the past three months and the mills are fighting shy of all new business, even at higher prices. Some indication of the trying situation that confronts the Canadian mills is to be found in notices sent out to customers of this week, stating that they cannot undertake to fill orders under ninety days' notice. Formerly only thirty days' notice was required. Conditions with Canadian mills supplying the better qualities of book papers, cardboards, writing papers, etc., are even worse, and none of these will guarantee future deliveries at definite prices. Prices have been climbing month after month, and in many items are practically the ruling prices of two years ago. Even the higher grade writing papers, that cost at the mills 20 to 30 cents a pound normally are up to 45 cents. Unlike most lines of business where the burden of increased costs is promptly shifted to the consumer, publishers cannot so readily do so, and up to the present they have been bearing the burden. It has now reached the point where this cannot be done, and advances in advertising and subscription rates are bound to be made.

SPRING TERM
— AT THE —
NORTHERN Business College

Opens on Monday, April 3rd

Students are admitted at any time. Young women should begin making preparation at once to fill the places of the office men who have enlisted. Write for particulars and circular.

C. A. FLEMING, Pres. D. D. FLEMING, Secy.

The 160th Bruce Overseas Battalion

THE 160TH Bruce Battalion! The regiment is indeed fortunate in its name. In the first place, 160 is a round number conveying an idea of completeness which would be lacking in such a number as 157. Then, the word "Bruce" calls to mind heroic deeds of a great soldier who, "fighting fearful odds," was unafraid; one who, after six hundred years, is still remembered as the hero who gave back to Scotland her freedom. Surely the name is a good omen. The officers and men of the Battalion are worthy to bear this honored name. In the personnel of the staff are combined the enthusiasm of youth, the wisdom that comes with years, the executive ability of the successful business man and the experience of the veteran soldier. The result of this happy combination is a record for recruiting and organization—a battalion that has been raised in less than six months—and a battalion thus quickly raised is not a regiment of odds and ends, rejected elsewhere, nor of unwilling recruits, but of fine upstanding soldiers, proud to be entolled in Bruce Battalion. Of the rank and file of the Battalion one hears unstinted praise from all sides, not only for their efficiency and soldierly bearing—marvellous when one considers how short a time they have been in training—but also for their gentlemanly conduct.

The Battalion is now up to full strength, and a base company almost formed. It is claimed that this will be one of the best equipped Canadian battalions that has yet been prepared for overseas service. And why shouldn't it be? There is nothing too good for the soldier boys from Bruce.

Who's Who Among the Officers

LIEUT.-COL. WEIR
Officer Commanding

LIEUT.-COL. WIER commenced his military career in 1881, at the early age of 17, when he entered the ranks as a private in the 32nd Bruce regiment. He subsequently held the following positions: 1882, Corporal; 1883, Sergeant; 1885, Quartermaster Sergeant; 1886, Lieutenant; 1889, Captain of Walkerton Company, and in 1892, Major of the 32nd Regiment.

In 1899 he was made Lieut.-Colonel and kept that rank until 1907, when he was made Brigade Major of 2nd Brigade. In 1911 as Brigadier of the 2nd Infantry Brigade, 1st Division, Col. Weir was again promoted, until he now commands the 160th Bruce Overseas Battalion.

In 1902 the 32nd, under Col. Weir, acted as Guard of Honor for the Duke of York, now King George V, during his visit to Canada.

As a result of these long years of faithful service, Col. Weir wears the "Long Service Decoration Medal."

Major Moffat

ONLY a few months have elapsed since the subject of our sketch, Major A. McLean Moffat, arrived in Canada from England to serve under Colonel Weir, just as the latter fought under Major Moffat's father in the Northwest Rebellion in 1885.

The Major is second in command of the Bruce Battalion. He is considered well fitted for the position owing to the fact that he has been a soldier all his life, and holds certificates in infantry, cavalry, field artillery and musketry, and is also a veteran of the Spanish-American war. After this war he went to Kentucky, where he held several important military positions, finally becoming Lieutenant-Colonel, and holding the responsible position of Inspector-General of the state militia.

Major Moffat has also invented a new hand grenade, which is constructed on the same principle as a shrapnel shell, and bursts five seconds after it leaves the hand, the explosion being automatically timed.

Canadian Pacific
Great Lakes Steamship Service

AN IMPORTANT LETTER FROM NIAGARA FALLS.

Niagara Falls, Ont.—"I was miserable, tired out and dragging around. My legs could scarcely support me. My husband had read about 'Favorite Prescription' and he got me to use it. I used four bottles and the results were surprising. I got stronger, was less nervous, my appetite improved and I felt like a new person. It is the best medicine for women I have ever heard of."—Mrs. A. C. BROWN, 29 Clifton Ave., Niagara Falls, Ont.

There is nothing that will bring comfort and renew hope to the invalid so surely as good news. When the vital forces are at a low ebb and everything seems useless, a ray of joy and assurance will stimulate the weary body to new effort and energy. A letter from a loved one has turned the tide in many a siege of sickness.

Doctor Pierce, of 'he Invalids' Hotel, Buffalo, N. Y., has good news for every suffering woman. Write him to-day and tell him your troubles, and he will send you just the right advice to restore you to health and bring back the roses to your cheeks, and without charge. His "Favorite Prescription" has been the rescue of thousands of suffering women. Many grateful patients have taken Dr. Pierce's advice.

Mothers, if your daughters are weak, lack ambition, are troubled with headaches, lassitude and are pale and sickly, Doctor Pierce's Favorite Prescription is just what they need to surely bring the bloom of health to their cheeks and make them strong and healthy.

It is not a secret remedy because its ingredients are printed on wrapper. Sold in either tablet or liquid form.

Eye Tax.

Greater demands are constantly being made on the eyes by our advancing civilization. The most perfect adjustment is called for. Life is often a failure through poor sight. The eyes are the bread winners. We can give you the best vision possible.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

Paint Has Two Duties to Perform

One is to protect—the other to beautify. Paint that doesn't do both is not good enough for your buildings.

Lowe Brothers

HIGH STANDARD LIQUID · PAINT

both protects and beautifies—and has many distinct advantages over hand-mixed and cheap paints. It covers more surface—and does it more thoroughly; it is easy to apply, enabling your painter to do the work in less time; it wears from two to three years longer than ordinary paint and holds its color well; it fails only by gradual wear and leaves a good surface for repainting.

"High Standard" saves repairs and makes your buildings worth more. You'll get best results with this good paint. Ask for color card.

Sinclair's Hardware

Major A. W. McNally

MAJOR MCNALLY, Junior Major of 160th Bruce Battalion, entered his military career in June, 1900, as a private in the 32nd Regiment, and in the same year was made a sergeant. In the following year he was given a Lieutenancy, and in 1902 was in command of C Company, and in two years became Captain.

In August, 1914, when war was declared, Captain McNally was among the first to answer Canada's call, being attached to the 11th Irish Fusiliers of Canada, in Vancouver, B.C., and going overseas in the 7th Battalion, 1st British Columbia Regiment, as a Lieutenant with that never-to-be-forgotten "Canadian Armada." The following April he was sent to France with a draft of 250 men, being second in command. Major McNally was wounded at Festubert on May 24th, and on June 20th, while still in the hospital in England, he was appointed Captain of C Company, and rejoined his regiment on July 12th. On November 9th he was again wounded by shrapnel, and after spending some time in the hospital, returned to Canada on short leave. Upon his arrival he learned of his appointment as Adjutant of the 160th Bruce Battalion, and after filling that position for a short time, he was made Junior Major on Feb 14th. As Major McNally has come from the ranks and has had experience of the stern realities of warfare, he will prove a valuable officer in the Battalion.

YOUNG WOMEN MAY AVOID PAIN

Need Only Trust to Lydia E. Pinkham's Vegetable Compound, says Mrs. Kurtzweg.

Buffalo, N.Y.—"My daughter, whose picture is herewith, was much troubled with pains in her back and sides every month and they would sometimes be so bad that it would seem like acute inflammation of some organ. She read your advertisement in the newspapers and tried Lydia E. Pinkham's Vegetable Compound. She praises it highly, as she has been relieved of all these pains by its use. All mothers should know of this remedy, and all young girls who suffer should try it."—Mrs. MATILDA KURTZWEG, 529 High St., Buffalo, N. Y.

Young women who are troubled with painful or irregular periods, backache, headache, dragging-down sensations, fainting spells or indigestion, should take Lydia E. Pinkham's Vegetable Compound. Thousands have been restored to health by this root and herb remedy.

If you know of any young woman who is sick and needs helpful advice, ask her to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass. Only women will receive her letter, and it will be held in strictest confidence.

The Pioneers

ACCOMPANYING the 160th Battalion is a body of men called "Pioneers." This consists of ten men who are skilled workmen—a plumber, a pipe-fitter, a saddler, a blacksmith, a carpenter, a brick layer, a stone mason, a wheelwright and a painter. At the head of these men is Sergt F B James, who, before joining the Bruce Battalion, was well known in both London, England, and Winnipeg as an engineer, surveyor and architect.

The Pioneers superintend and help to build and repair the trenches and if a squad of engineers are available these in turn superintend the trench work of the Pioneers. Often, however, the engineers are not at hand, and the Pioneers must do their hazardous work alone.

Besides looking after the trenches, the Pioneers must build huts, cookhouses, etc. When not building or repairing, these men help in the fight by carrying rifles and ammunition.

They are easily distinguished from the other men in khaki, by the crossed axes they wear on their sleeves.

Capt. Shaw, P.M.

The Bands

THE 160th Brass Band is composed of 28 players, who will be equipped with the best English instruments. The cost of equipment will be about $2,000, and this sum has been raised largely by private subscription. The bandmaster is Sergt. Wright, formerly in charge of the 32nd Regt band.

There is also a Bugle Band which, at full strength, will be composed of 24 buglers and 16 drummers. When the Battalion reaches the front, eight of these men will be retained as buglers for the battalion, while all the others will become stretcher bearers or assistants in hospitals. The leader of the band is Sergt Tucker, an Englishman who for eight years was a member of the Gordon Highlanders.

Lieut. Whitehead

PRESENTATION

A pleasant evening was spent at the home of Mr and Mrs J H Crawford on Monday, May 15th, when a goodly number of their friends and neighbors assembled to bid them farewell before leaving for their new home in Alberta. An exceptionally fine evening permitted the programme to be rendered on the lawn, the main item of which was an address to the Crawford family.

Dear Mr and Mrs Crawford and Family—

It is with sorrow that we have learned of your intended departure from our midst, and we have gathered here to-night as an expression of our good will toward you. Having known you for many years we have enjoyed your pleasant companionship and your hospitality. You will be missed in all the departments of church work where you have been always ready and willing to give your services, also in the social affairs of the vicinity. In sickness you have always been willing to sacrifice your own interests to go and share the burden of your neighbors and help in any way possible. Your family will be missed among the young associates, and especially in the Sunday School, where they have been faithful in attendance. We join in wishing you all success in your new home in Alberta and hope and pray that you may be long spared to enjoy it, and you may rest assured that our good wishes will follow you. We therefore ask you to accept these gifts—Mr Crawford a gold watch and chain, Mrs Crawford a dozen silver knives and forks, Elton a locket and chain and Erwin a fountain pen—as a slight token of our love for you, and we hope as you use them you will remember your friends in Ontario, and if at any time you may return you will be gladly welcomed by your many friends here. Signed on behalf of your friends and neighbors,

S. ROSS.
R. WAGNER,
N. POOLE,
R. GRANT.

Mr Crawford made a very suitable reply after which refreshments were served and the company dispersed feeling they had spent a very enjoyable evening.

Benefit of Enlisting

We read the other day in a city daily that the best step a man can take to robust health and physical fitness is to enlist and take the full round of military drill. The motive of joining the army for one's health may not appeal to some, but the man who does so and builds up his body to the proper standard of efficiency will have a better chance of reaching eighty years of age, war or no war, than the slacker who stays at home and loafs. "No headache or bilious attacks have ever been known in our regiment since we began drilling and marching," remarked a soldier to the editor, one day recently. Discipline, too, contributes greatly to healthfulness. The extraordinary variety of mental interest which is awakened by army life is a sure aid to longevity. The philosopher says that the man who is not interested in life, cannot live, and adds that an active and intelligent curiosity about the things of life, about one's fellows and their destiny, about their doings and their relations with one's self and one's nation, adds to the force of a man's character, and character is another contributive element to health preservation. The big strong man of character is likely to live longer, others things being equal, than the measly small minded subject who thinks of little but himself and his own personal comfort. So wisdom comes with age, it is encouraging that the healthy man, who keeps himself fit through physical exercise can look forward to the prospect of being filled with years and possessing all along life's path, good health to enable him to enjoy his lenght of days. This is a thought worthy the attention of any man who wishes to make the most of life for himself, his home and family, or his country.

HE STRUCK IT RIGHT AT LAST

After Suffering Almost Two Years, "Fruit-a-tives" Brought Relief.

MR. WHITMAN

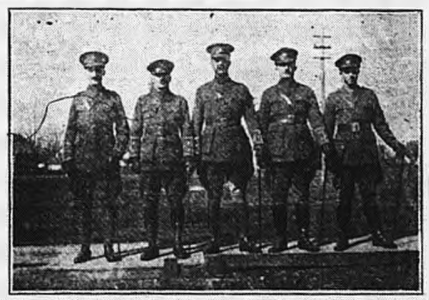
1674 Papineau Avenue, Montreal.

"In 1912, I was taken suddenly ill with Acute *Stomach Trouble* and dropped in the street.. I was treated by several physicians for nearly two years. I was in constant misery from my stomach and my weight dropped down from 225 pounds to 160 pounds. Several of my friends advised me to try 'Fruit-a-tives' and I did so. That was eight months ago. *I began to improve almost with the first dose.* No other medicine I ever used acted so pleasantly and quickly as 'Fruit-a-tives', and by using it I recovered from the *distressing Stomach Trouble, and all pain and Constipation and misery were cured.* I completely recovered by the use of 'Fruit-a-tives' and now I weigh 208 pounds. I cannot praise 'Fruit-a-tives' enough". H. WHITMAN.

50c. a box, 6 for $2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Notice to Creditors

In the matter of the estate of William Cruickshank, late of the Township of Greenock, in the County of Bruce, laborer, deceased.



NOTICE is hereby given pursuant to the Revised Statutes of Ontario, 1914, chapter 121, section 56, and amending acts, that all creditors and others having claims or demands against the estate of the above named William Cruickshank, deceased, who died on or about the 13th day of April, 1916, are required, on or before the 1st day of June, 1916, to send by post, pre-paid, or deliver to the undersigned solicitor for the executors of the last will and testament of the said deceased their names and addresses and full particulars of their claims, and the nature of their securities, if any, held by them, duly verified by statutory declaration.

AND FURTHER TAKE NOTICE that immediately after said 1st day of June, 1916, the said executors will proceed to distribute the assets of the said deceased among the parties entitled thereto, having regard only to the claims of which they shall then have received notice, and that they will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by them at the time of such distribution.

Dated the 6th day of May, 1916.

About the House

Useful Hints and General Information for the Busy Housewife

Choice Dishes.

Parsnip Fritters.—Thoroughly wash the parsnips and bake them in their skins until tender. Peel and cut into thick round slices. Sprinkle with flour, dip in egg and bread crumbs, and fry in deep fat till a golden brown.

Date Pie.—Simmer one pound of dates in milk enough to cover. Mash and add one-half cup sugar, yolks of three eggs, one pint hot milk and sprinkling of cloves and cinnamon. Bake like custard pie, adding, when set, meringue of white of eggs and three tablespoons sugar.

Browned flour will impart flavor and coloring and make soups and gravies especially good. To brown flour, sift it into a granite pie pan or flat pan, using about one cupful. Then place it in the oven to brown; it must be stirred and not allowed to burn. Remove from the oven and sift it as soon as it is browned evenly; keep it in a tin box or fruit jar. It will always add flavor to warmed over meats.

Stewed Parsnips.—One-half pound salt, lean pork, two quarts cold water, three pints sliced raw parsnips, three tablespoons flour, pepper to taste. Cut pork into thin slices, cover with water and boil three hours. Half an hour before serving time, add parsnips, and when they are tender, thicken with flour wet with cold water. There should be about three pints of liquid left. If not, water should be added to make this amount. Add pepper to taste, and if necessary, a little salt.

Caramel Pudding.—One cup sugar, two cups water, four egg whites, one and one-fourth teaspoons gelatin, one-third teaspoon vanilla. Caramelize three-fourths of sugar, and dissolve by pouring over boiling water and cooking for few minutes. Turn in remainder of sugar and gelatine, which should have stood ten minutes in cold water to cover. Beat egg whites stiff, flavor with vanilla and beat liquid into them. Beat thoroughly, pour into wetted mold and when stiff, unmold and serve with boiled custard made of egg yolks.

Soft Raisin Cookies.—One cup brown sugar, one-quarter cup butter, two eggs, one teaspoonful of vanilla extract, flour, one tablespoonful of warm water, one-half teaspoon baking soda, one-quarter teaspoon salt, raisin filling. Cream sugar and butter. Add eggs well beaten, soda dissolved in warm water, salt, vanilla and enough sifted flour to make soft dough. Roll out, cut in rounds, spread layer of raisin filling between two cookies, press filled cookies lightly with rolling-pin and bake in buttered pans in hot oven until lightly browned.

Cream of Tomato Soup.—One two-pound can tomatoes, two small onions, one teaspoon salt, one teaspoon sugar, one-half teaspoon soda, one-fourth teaspoon pepper, dash cayenne pepper, small sprig celery or dash of celery salt and one cup water. Boil all ingredients except milk together for twenty minutes. Strain through colander. Add milk, first warming it, and let all come to boiling point, then serve. If thicker soup is desired, cream equal amounts of butter and flour together, say one tablespoon of each, and add to soup at a boil.

To make orange cake take the weight of two eggs in butter, sugar and flour, the grated rind of one orange and the juice of a half. Beat butter and sugar together, then add grater rind and flour, mix with the beaten up eggs and juice, beating the mixture till quite smooth; add half a teaspoonful of baking powder, and bake for half an hour in a moderately hot oven in a well-greased sandwich tin. When cold, ice with six tablespoonfuls of icing sugar, which has been well rolled until a fine powder and mixed into a paste with the juice of the remaining half of the orange.

Anyone who will try the following recipe will never buy corned-beef from the butcher again: For 10 pounds of beef take one pint of salt, one teacup of brown sugar, one tablespoonful each of ground cloves, allspice and pepper, and one tablespoonful of pulverized saltpetor. Rub the beef with this mixture and place in a jar. Rub each piece on all sides with the mixture twice a day for a week, then wash off the spices, put in a pot of boiling water and let simmer for five hours. Remove from fire and press under a heavy weight until cold. The same pickle will do for another 10 pounds of beef by first rubbing into it a handful of salt.

Preserving Eggs.

Now is the time to preserve eggs. The water glass method is very simple. Eggs put up according to it will retain their original flavor. The eggs must be fresh and clean. Washing an egg spoils its keeping qualities. Galvanized iron vessels, crocks, jars or wooden kegs may be used. The vessel must be clean. If of wood it must be thoroughly scalded. Use a good grade of water glass. One like a heavy white jelly that flows like cold molasses. Use one quart of the water glass to 10 quarts of pure water that has been boiled. Pour into the vessel, when cool. Fresh eggs can be put into it from time to time until the jar is filled. There should be two inches of the solution above the eggs.

Keep the preserved eggs in a cool place as in a cellar. The eggs will contain some gas and so crack when boiled. This can be prevented by making a pin hole in the blunt end of egg before boiling them.

Household Hints.

Honey should be reckoned as food and not merely a confection.

Whole wheat bread is always best made up in very small loaves.

Oxalic acid, dissolved in hot water, will clean paint from windows.

A red-hot iron will soften old putty so that it can be easily removed.

Do your own thinking, and do not be afraid to overwork your thinking machine.

Never hurry with the family mending. It is not worth doing unless it is done well.

Blunt skewers are fine for poking out contrary corners of pillow-cases, bags and such articles, when turning.

An iron stand which can be fastened to the ironing board is a great help on ironing day.

Patent leather shoes should be cleaned with milk, or a little sweet oil may be rubbed into them.

To take the shine off a serge skirt sponge with hot vinegar and rub until the shine disappears.

In decorating the home have all the rooms that are closely connected tinted in harmonizing colors.

A small square of velveteen is excellent to use as a polishing cloth, and is cheaper than chamois.

Spoons used in cooking should be of wood as far as possible. A few metal ones should be kept for measuring.

Do a lot of baking before beginning housecleaning. You may not have time nor strength for it after you get busy.

Many soaps are injurious to painted walls and woowork. It is safer to use a little borax powder or ammonia in the water when doing such cleaning.

Flies may be kept from damaging gilt frames by going over them with a soft brush dipped in a pint of water in which three or four onions have been boiled.

Do not use water or oil to clean gilt picture frames, as both are injurious. Instead, apply the white of an egg with a soft cloth, which will solve the difficulty.

When a pot or teakettle has boiled dry, pour boiled water into it, never cold water. There will be little danger of the vessel cracking, or of the enamel peeling off if this is done immediately.

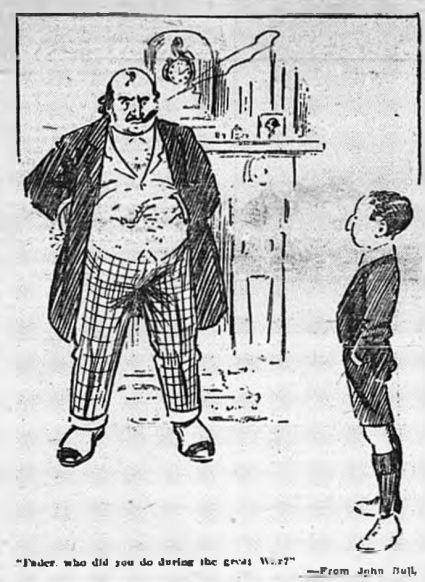
Children do not love working alone, but enjoy laboring in a pleasant, companionable way, especially if their coworker is a cheerful mother, and not one who considers them as a bother.

A towel with an initial on it has a dainty appearance. By using a little ingenuity one may work the initials in the form of a monogram that looks neat and gives he towel a distinction all its own.

When Buffalo moths or common moths are in a carpet lay over it thick wet cloths and press these with very hot irons, driving he steam down through the carpet. Repeat to kill later hatches.

When washing lamp chimneys wash and rinse them in hot water and stand them in a safe place to dry. Put them on a wire dish-drainer, and the glass will emerge bright, clean and sparkling.

Shears in the kitchen are very useful. Use them to trim lettuce, cut raisins and figs, dress chickens, prepare grapefruit, and for many other uses that may be discovered daily by the thinking housewife.



BOOTS BY THE MILLION.

British Factories Turning Out Supplies for Many Armies.

No less than $1,600,000 worth of boots a week are being turned out by the Northamptonshire factories, who are supplying not only the British army with footwear, but are also making boots for the French army and navy, the Belgian, Serbian and Italian armies. And now there is a likelihood of an order for three million pairs of high-legged boots for the Russian army being placed in England.

It is pointed out that if this order should be placed, it will have a remarkable effect on the leather trade, for each pair of legs will cut into nine feet of leather, and each pair of fronts will take another two feet. It would, in fact, absorb well over thirty million feet of upper leather, in addition to 250,000 hands for the soles and 200,000 hands for repairing, the leather altogether being equal to 300,000 hides.

Many curious boots, by the way, are being turned out by the Northampton factories. There is a thigh boot for sailors in which he can almost float; short-footed boots for Gurkhas; sandals for West African soldiers; special boots for the Flying Corps; and last but not least, mosquito boots for our soldiers fighting in tropical countries.

"Finder, who did you do during the great War?" —From John Bull.

THE FASHIONS

Some Summer Accessories.

Hats, veils, shoes, parasols, dainty little collar and cuff sets, and all the numerous other accessories which go to complete the costume are charmingly designed this season to fit in smartly with the new silhouette and the general lines of the costume.

Shoe manufacturers are loud in their praise of the short-skirt vogue. In former years skirts have varied in width and trimming, but until this season have always remained at a conservative length. With the modish short skirt of the moment, smart, trim shoes are absolutely necessary to the general effect of the costume. The high laced boot of tan, brown, black or gray is popular with the tailored suit; for afternoons, with the light silk or the novelty cotton frock, the old-time Colonial pump, with its huge buckle of silver or gun-metal, is once more a low-shoe favorite.

Veils, Parasols and Collars.

At the beginning of the season there were any number of novel effects in veilings, but with the advance of the season the call for veilings for street and general use, aside from motoring, dwindles usually to the face veil, of almost invisible mesh, intend merely to keep the hair in place. The trick of arranging the veil over the hair, under the hat, is practical and clever, especially with the larger hats. The hat may be readily removed and the veil remain, keeping the hair smoothly and neatly in place.

Parasols promises to pay a more prominent part in this summer's wardrobe than for many a summer past; they are oddly shaped and vividly colored. One of the newest ideas is the blue-bird parasol; these are embroidered, stencilled, or appliqued, and spread their wings all around the outside edge of the white or softly tinted parasol, or scatter here and there over the inside surface. It is an extremely dainty notion, completing the summer frock in a most fascinating manner. Ostrich feathers edging the parasol is another effective fancy.

7151

Spanish Dance Dress.

Neckwear this season is as fascinating and offers as many possibilities for individuality as ever. Some smart little novelty ruches from Paris, now being shown in the shops, to complete a costume effectively, are narrow and finished with buckle, or tie with narrow ribbons.

Popularity of Lace and Embroidery

The extreme favor being shown the typical lingerie frock has brought lace and embroidery into wide use again this summer. Lace is being used for trimming dresses and blouses, and often forms the greater portion of the garment. The sheer lace flouncings are particularly pretty for summer dance and evening dress. Metal lace are effective on the more formal gowns for daytime and evening. A particularly pretty use of lace flouncing is illustrated in the Spanish dance frock shown here; upper portion of skirt and bolero are of taffeta, bodice and flounce of a thread-lace flouncing. An effective bit of contrast is introduced in the dark girdle and the narrow ribbons banding the short puff sleeves. Another, a simpler, even more youthful dress, is illustrated of voile and embroidered flouncing; it is charmingly suited to the young girl for summer wear.

7138

Voile and Embroidery Flouncing

The tub-frock is more popular than for many a year; Paris herself endorses the cotton dress this summer. Many attractive novelties are being sent us from the French looms among them are the artistic piques voiles, and other fabrics of Roller, with their quaint patterns and effective colorings. A particularly pretty voile for blouses and frocks is a fine check in color, with a solid selvage; this colored selvage is used as a finish for collar, cuffs, jabots and the like.

The Colored Lingerie Blouse.

The colored blouse of organdy, voile, Georgette, and wash satin, has taken such a hold on the popular fancy that it is quite difficult to find a really attractive plain white blouse, excepting those for sports wear. Pale pink, all tones of tan and yellow, soft blues and grays predominate. The costume-blouse of pale cream lace or Georgette, usually has an interlining of the palest flesh chiffon; the blue waist is piped with pink, or another harmonious contrast. It is indeed a season of color and one may indulge to the heart's content.

For the sports blouse, handkerchief and butcher's linen are both popular; pongee, the rough Chinese crepes, and the coarser voiles are also practical and well liked. Costume-blouses and shirt-waists are mostly finished with the open throat or adjustable collar, although with the strictly tailored suit one sees now and then a fetching choker.

These patterns may be obtained from your local McCall dealer or from The McCall Co., 70 Bond St., Toronto, Ont., Dept. W.

FROM A HOSPITAL COT.

By Carl Hawes Butman.

At first they said I was dyin',
But I prayed to my God not to go,
There's the folks back 'ome and Jimmie;
I've been missin' 'em lately, you know.
I fought best I could in the trenches,
Do you think that I wants to be 'ere?
But wot could I do? I was shot through and through.
An' they ordered me back to the rear.

We'd 'ad an 'ard fight with the Deutschers;
I must 'ave plugged forty or more,
Orders came to advance on the beggars—
I must 'ave got 'it in the fore.
But I never knowed that until later,
When I woke in a 'ospital cot,
With a nurse fussin' round, 'andy some'ow;
I was clean, but the fever burned 'ot.

To-day I'm more fit an' quite 'opeful,
That last charge—it ain't 'arf been told;
We'd been waitin' and waitin', most tiresome,
With weather first 'ot and then cold.
When it rained you were wet to your middle,
You couldn't keep dry an' stay whole;
Everyone was clear out of tobacco,
And the stench from the field 'urt your soul.

Well, the charge come at last, on a Sunday,
We was up an' away at the sign,
'Twas me and Jimmie, me Hunkie,
Were a-leadin' that khaki-clad line.
There was bullets and shrapnel a-plenty—
Small wonder we didn't all die,
But we fired from prone on our bellies
At nothin' mostly, an' 'igh.
—From The Canadian Magazine for May.

WHERE FRANCE WAS BORN.

Verdun Is Where Charlemagne's Sons Divided an Empire.

It is a curious thing, worth remark in passing, that at Verdun, where the turning point of the war between France and Germany is likely to be, there two great nations were born, says an article in the Philadelphia Record. The empire of Charlemagne, 1,000 years ago, took in under one sovereignty the lands that are now France and Germany. At Verdun in 843 the sons of Louis I., Charles, Louis and Lothaire, met to portion out among themselves their father's empire.

The map of Europe as it is now began with this memorable meeting at Verdun. The city then fell to the lot of that portion of the empire which became Germany. For 200 years Verdun was German. In 1552 it was ceded to France. From that day on it has been a great fortress, commanding the great highway along the River Meuse to Belgium and the road that runs from Metz to Paris. The fortifications date from an old keep built by Vauban on the site of a Benedictine monastery, which was torn down to make room for the fortress. Gradually the risk of unwalling forts has been built. Of late years they have been modernized until at this day they are as nearly impregnable as military science can make them.

"THEY SHALL NOT PASS."

French Officer Tells of Phrase That Saved Verdun.

"The fundamental secret of French resistance before Verdun was psychological," said a high French officer, incapacitated from service by wounds, to a correspondent. "It was universal auto-suggestion on a vast scale. All were so self-hypnotized by a constant repetition of the phrase: 'They shall not pass' (ils ne passeront pas), that no idea save that of resistance to the uttermost could enter their heads."

Continuing his novel explanation of the French success, the officer said:

"Anyone familiar with crowd psychology must have noticed the immediate responses of bodies of men to suggestion. Of all the peoples on earth the French are the most sensitive to such influences. Imagine, then, the result when General Petain transferred doubt and discouragement into iron determination, when throughout the whole army flashed his resolution that the Germans should not get through. That is what enabled the infantry to undergo unexampled bombardments and then push forward with the bayonets as eagerly as fresh troops. That is the explanation of the confidence in victory, seen even in captured Frenchmen, which has amazed their German captors."

Import Labor From Denmark.

An employment bureau has been established in Copenhagen, Denmark, for twenty large factories in Germany. Contracts are made for two months, with travelling and passport expenses. Wages are about 12½ cents an hour, the working day usually consisting of from ten to twelve hours. The bureau has already secured 400 workmen.

From the Ocean Shore

BITS OF NEWS FROM THE MARITIME PROVINCES.

Items of Interest From Places Lapped By Waves of the Atlantic.

Fresh fish arrivals at Halifax one day last week totalled 59,600 pounds.

Twenty-one deaths were reported to the Board of Health at St. John, N.B., during last week.

From February 10th, 1915, to April 18th, 1916, over 1,200 men have enlisted in Fredericton.

The long-talked of bridge is to be built across the Jemseg at Jemseg Corner, N.B., this year.

William Graham and Alex Conrod, of Three Fathom Harbor, were last week reported drowned.

Pte. John Burke, who was killed in action last week, was one of the first volunteers from Quebec.

Mr. Abraham Langille, of Pictou celebrated his 94th birthday last week by sawing wood in his yard.

Dartmouth will fall in line with Halifax, Yarmouth and Windsor and adopt the daylight saving scheme.

There is a good run of black salmon in the Miramichi at Boiestown, and anglers are enjoying good sport.

A valuable performing "silk haired" dog, worth $500, strayed away and was lost in the Moncton woods last week.

Fredericton is contributing at the rate of $100 per month to the fund for the Canadian prisoners of war in Germany.

The famous "pavilion" is now being moved by stages from Victoria school at Moncton, to the race track.

Liquor Inspector Jones is working energetically to eradicate the illegal transportation of liquor into Scott Act towns in New Brunswick.

The house and barns of Charles Gillespie, at Pennfield, were totally destroyed by fire with loss at between $5,000 and $6,000.

The building containing the office of the Asticou Canal at St. Pierre, Miq., was recently destroyed by fire of undetermined origin.

The returning soldiers residing in Fredericton have formed a European War Veterans' Association, and thus far the organization has met with success.

Colin McLean, contractor, who was born in Nova Scotia 72 years ago, died of pneumonia, at Baltimore, Md. He built the Stature of Liberty and Brooklyn Bridge.

As a result of the explosion of a dynamite cap which he was playing with, Harry Purcell, son of Robert Purcell, ferryman, at Halifax, had several of his fingers blown off.

Lieut.-Col. F. D. Black, M.P.P. of Sackville, who has been home convalescing after several months' service with the Canadian Expeditionary Force in Flanders, has gone to the front again.

ALL FOR THE CHILD.

My folks an' me are going to see
The circus this here week,
My Paw he'll go, an' my Aunt Flo,
An' Maw an' Uncle Zeke,
My Paw last night allowed he might
Take me to see the show.
"It's on'y just," sez he; "we must
Amuse the child, ye know.
Of course, I've got an awful lot
O' work on hand," sez he,
"But I suppose I'll fix it so's
'Twon't interfere with me."
Then Maw sez: "Jake, for goodness sake!
Are you expectin' me
To set home while you take that child
Where all them wild things be?
Why, I'd jist set an' fret, an' fret,
Lest somethin' might go wrong;
So if you go I'll have ye know
That I'm a-goin' along."
Then Uncle Zeke, who come last week
Along o' my Aunt Flo
To board with Paw an' me an' Maw,
Allowed that they would go.
"I'm sure," sez he, "that Flo an' me
Would feel sick loneliness,
Left here alone when you were gone,
We'd best go, too, I guess."

* * * *

Now, ain't my Paw an' dear old Maw
As kind as they kin be
To plan so much, providin' such
A splendid treat fur me?

SCHOOLS FOR HORSES.

Methods Adopted by Instructors of the British Army.

The method of educating a horse is rather a lengthy process, and that followed by the horse instructors of the British army has answered splendidly. A horse is first taught to lie down at a given signal. Then he is taught to trot around a field, then to jump hurdles. He is always rewarded for doing well.

Gradually he is accustomed to various pieces of harness, until, when the time comes for him to be mounted by a man, instead of plunging about and having to be thrashed into submission, he sees at last what the whole thing is about, and thoroughly enters into the spirit of it.

Then he is trained to charge at dummy figures, and he is always coaxed and soothed if frightened, and soon learns that the dummies do not harm him; and after that he is taught to knock them over. A course of courses of gradually increasing violence teaches him to keep his head, and he is finally put to charging figures stuffed with fireworks.

If some men fail to get their just deserts they have cause for rejoicing.

If women looked like the pictures in fashion magazines men would take to the woods.

There's a Subtle Charm

about the delicious flavour of

"SALADA"

This flavour is unique and never found in cheap, ordinary teas. Let us mail you a sample. Black, Mixed or Green.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XV.—(Cont'd.)

"I know you are my successor," she said, 'because the enthusiasm painted into your face is not the enthusiasm of art alone—nor," she added slowly, 'is it pity!"

Then, she noticed that one corner of the canvas caught the light with the shimmer of wet paint. It was the corner where ordinarily an artist affixes his name. She rose and went to the heavy studio easel, and looked again with her eyes close to the stretchers. The paint was evidently freshly applied to that corner of the canvas. To her peering gaze, it almost seemed that through the new coating of the background she could catch a faint underlying line of red, as though it had been a stroke in the letter of a name. Then, she noticed her father's palette lying on a chair near the easel, and the brushes were damp. The lake and VanDyke brown and neutral-tint that had been squeezed from their tubes were mixed into a rich tone on the palette, which matched the background of the portrait. Sinking back in the chair, fatigued even by such a slight exertion, she heard her father's returning tread on the stairs.

From the door, he saw her eyes on the picture, but true to his promise he remained silent, though, as he caught her gaze on the palette his own eyes took on something of anxiety and forboding.

"Does he sign his pictures now?" she asked abruptly.

"No. Why?"

"It looked—almost," she said wearily, "as though the signature had been painted out there at the corner."

For an instant, St. John eyed his daughter with keen intentness.

"The canvas was scraped in shipping," he said, at last. "I touched up the spot where the paint was rubbed."

For a time, both were silent. The father saw that two hectic spots glowed on the girl's bloodless cheeks, and that her eyes, fixed on the picture, wore a deeply wistful longing.

He, too, knew that this picture was a declaration of love, that in her silence she was torturing herself with the thought that these other eyes had stirred the heart that had remained closed to her. He did not want to admit to her that this was not a genuine Marston; yet, he faltered a moment, and resolved that he could not, even for so necessary a deception, let her suffer.

"That portrait, my child," he confessed slowly, "was not painted by—by him. It's by another artist, a lesser man, named Saxon."

Into the deep-set eyes surged a look of incredulous, but vast, relief. The frail shoulders drew back from their shallow-chested sag, and the thin lips smiled.

"Doesn't he sign his pictures, either?" she demanded, finally.

For an instant, St. John hesitated awkwardly for an explanation.

"Yes," he said at last, a little lamely. "This canvas was cut down for framing, and the signature was thrown so close to the edge that the frame conceals the name." He paused, then added, quietly: "I have kept my promise of silence, but now—do you want to hear of him?"

She looked up—then shook her head resolutely.

"No," she said.

CHAPTER XVI.

Late one evening in the cafe beneath the Elysee Palace Hotel, a tall man of something like thirty-five, though aged to the seeming of a bit more, sat over his brandy and soda and the perusal of a packet of letters. He wore traveling dress, and, though the weather had hardly the bitterness to warrant it, a fur-trimmed great-coat fell across the empty chair at his side. It was not yet late enough for the gayety that begins with midnight, and the place was consequently uncrowded. The stranger had left a taxicab at the door a few minutes minutes before and, without following his luggage into the office he had gone directly to the cafe to glance over his mail before being assigned to a room.

The man was tall and almost lean. Had Steele entered the cafe at that moment he would have rushed over to the seated figure and grasped a hand with a feeling that his quest had ended then on second sight he would have drawn back, incredulous and mystified. This guest lacked no feature that Robert Saxon possessed. His eyes held the same trace of the dreamer though a close scrutiny showed also a hard glitter—his dreams were different. The hand that held the letter was marked front and back though a narrow inspection would have shown the scar to be a bit more aggravated, more marked with streaked wrinkles about the palm. He and the American painter were as identical as models struck from one die in the lines and angles that make face and figure. Yet, in this man, there was something foreign and alien to Saxon, a difference of soul-texture. Saxon was a being of flesh, this man a statue of chilled steel.

The envelope he had just cast upon the table fell face upward, and the waiting garcon could hardly help observing that it was addressed to Senor George Carter, care of a steamship agency in the Rue Scribe.

As Carter read the letter it had contained, his brows gathered first in great interest then in surprise, then in greater interest and greater surprise.

"There has been a most strange occurrence here," said the writer, who dated his communication from Puerto Frio, and wrote in Spanish. "Just before the revolution broke, a man arrived who was called Robert A. Saxon. He was obviously mistaken for you by the government and was taken into custody, but released on the interference of his minister. The likeness was so remarkable that I was myself deceived and consequently astounded you should make so bold as to return. He, however, established a clean bill of health and that very fact has suggested to me an idea which I think will likewise commend itself to you, amigo mio. That I am speaking only from my sincere interest in you, you need not question when you consider that I have kept you advised through these years of matters here and have divulged to no soul your whereabouts. This man left at once, but the talk spread rapidly in confidential circles than an Americano had come who was the double of yourself. Some men even contended that it was really you, and that it was you also who betrayed the plans of Vegas to the government, but that scandal is not credited. Most of those who are well informed know that the traitor was one whom we trusted, a man who in your day was on the side of the established government. That man is now in high influence by reason of playing the Judas, and it may be that he will make an effort to secure your extradition. Embezzlement, you know, is not a political offense, and he still holds a score against you. You know to whom I refer. That is why I warn you. You have a double and your double has a clean record. For a time if there is no danger of crossing tracks with him, I should advise that you be Senor Saxon instead of Senor Carter. This should be safe enough since Senor Saxon sailed on the day after his arrival for North America. I have the felicity to inscribe myself," etc., etc.— A dash served as signature, but Carter knew the writing, and was satisfied. For a time, he sat in deep reverie, then, rising, took up his coat, and went to the door. His stride was precisely the stride of Robert Saxon.

At the desk above, he discussed apartments. Having found one that suited his taste, he signed the guest-card with the name of Robert Saxon, and inquired as to the hour of departure of trains for Calais on the following morning. He volunteered the information that he was leaving then for London. True to his word, on the next day he left the hotel in a taximeter cab which turned down the Champs Elysees.

When it was definitely settled that Duska and her aunt were to go to Europe, Steele conceived a modification of the plans, to which only after much argument and persuasion and even a touch of deception he won the girl's consent. The object of his amendment was secretly to give him a chance to arrive first on the scene, accomplish what he could of search, and be prepared with fore-knowledge to stand as a buffer between Duska and the first shock of any ill tidings. Despite his persistant optimism of argument, the man was far from confident. The plan was that the two ladies should embark for Genoa, and go from there to Paris by rail, while he should economize days by hurrying over the northern ocean track. Duska chafed at the delay involved, but Steele found ingenious arguments. The tramp steamer, he declared, with its roundabout course, would be slow, and it would be better for him to be armed against their coming with such facts as he could gather, in order that he might be a more effective guide.

Possibly, he argued, the tramp ship had gone by way of the Madeiras, and might soon be in the harbor of Funchal. If she took the southerly track, she could go at once by a steamer that would give her a day there, and, armed with letters he would send to the consulate, this contingency could be probed, leaving him free to work at the other end. If he learned anything first, she would learn of it at once by wireless.

So, at last, he stood on a North River pier, and saw the girl waving her good-by across the rail, until the gap of churning water had widened and blurred the faces on the deck. Then, he turned and hastened to make his own final arrangements for sailing by the Mauretnia on the following day.

In Havre, he found himself utterly baffled. He haunted the water-front, and browbeat the agents, all to no successful end.

In Paris, matters seemed to look no better results. He first exhausted the more probable points. Saxon's agent, the commissaire de police, the consulate, the hospitals—he even made a melancholy visit to the grewsome building where the morgue squats behind Notre Dame. Then he began the almost endless round of hotels. His "taxi" sped about through the swift, seemingly fluid currents of traffic, as a man in a hurry can go only in Paris, the frictionless. The town was familiar to him in most of its aspects, and he was able to work with the readiness and certainty of one operating in accustomed haunts, commanding the tongue and the methods. At last, he learned of the registry at the Elysee Palace Hotel. He questioned the clerk, and that functionary readily enough gave him the description of the gentleman who had so inscribed himself. It was a description of the man he sought. Steele fell into one grave error. He did not ask to see the signature itself. "Where had Monsieur Saxon gone? To London. Certainment, he had taken all his luggage with him. No, he had not spoken of returning to Paris.

Yes, monsieur seemed in excellent health."

So Steele turned his search to London, and in London found himself even more hopelessly mixed in baffling perplexity. He had learned only one thing, and that one thing filled him with vague alarm. Saxon had apparently been here. He had been to all seeming sane and well; and had given his own name. His conduct was inexplicable. It was inconceivable that he should have failed to communicate with Duska. Steele cabled to America, thinking Saxon might have done so since their departure Nothing had been heard at home.

(To be Continued.)

Utility.

"Did your audience throw you bouquets after your speech?'

"No," replied the reckless orator, "they brought only useful gifts, such as bricks and other building material."

First Class in English.

Teacher—"Compose a sentence which will contain these three words, 'Boys, bees, and bear.' "

Jimmy Burns—"Boys bees bare when they go in swimmin'."

ON THE FARM

Work for the Bull.

Farmers generally do not begin to realize the amount of power there is stored up in a big, vigorous bull, writes Joseph A. Carroll, of Massachusetts, in the Farm Journal. We have here at the Elm Hill Farms a registered son of the great Colantha Johanna Lad that we broke when he was three years old (he is five now), and he is as useful as any horse we have. He weighs a little better than 1,700 pounds in working order. We plow with him, harrow, furrow out, cultivate, run the weeder, horse rake and tedder. On the horse fork he is a wonder. We have never been able to put a load on the fork yet that would puzzle him in the least, and that is more than I can say for the horses.

In hard going we put him in the lead of a pair of horses on the manure-spreader, and the combination makes a pretty rugged team. We make frequent trips to town with him, with wood, produce, etc. We have drawn one cord of hardwood at a load from here to Milford, five miles, and the bull came home fresh as a daisy. For any work around the place that requires only one horse we use the bull, as he is just as handy and much stronger.

We have a registered Percheron stallion that we frequently hitch at side of the bull to plow, and they make as good a plow team as a man could ask for. The bull was dehorned when he was a year and a half old. He can be driven with reins, but we use a whip mostly, and drive as you would an ox. For harness we turn a horse collar and hames upside down.

We have a herd of grade cows which we breed to this bull and raise all the heifer calves. He has sired some good ones. About seventy per cent. of his calves are heifers. Before this bull was broken he was slow at service, but now at five years he is as quick and vigorous as a yearling, and a sure getter. He has never shown any signs of being cross, and a twelve-year-old boy can drive him anywhere. We are going to buy an ox to work with him.

If farmers who make a practice of keeping a bull would only buy a pure-bred one and break him to work, then keep him until he is seven or eight years or older, and raise all the best heifer calves, they would find it a very profitable investment. A bull, worked either as a stag or with an ox for a mate, will do nearly as much work on a farm as a pair of horses.

The time has come when we must raise more heifer calves and any farmer who is a little bit wise will not raise one from a scrub bull. Teach the bull to earn his keep in the yoke, and make him doubly profitable.

How Old Should a Heifer be When She Freshens?

With the prevailing high price of milk and its products, there is a strong temptation to start the heifer working at as early an age as possible. Some dairymen make a practice of breeding the heifers when 15 to 18 months old, while others prefer to allow the young animals to obtain growth before they are bred. It is claimed that heifers bred too young will never develop into the big-framed cows that they would if allowed to obtain their growth before being forced into the producing ranks. A stable was recntly visited where the cows appeared undersized for the breed. These cows had been bred to freshen when about twenty-six months old, but it is not known whether or not this was the cause of the cows being undersized. Lack of proper feed and attention during calf-hood will have a tendency to prevent the proper development of the animal, so it would not be just to blame the early breeding for having been the entire cause of the undersized cows. However, there is a danger of checking development by too early breeding. In certain herds the heifers were not bred until they were twenty-four or twenty-six months old, and they turned out to be big, strong-framed cows, while heifers of the same breed in the same herds, freshening at the age the former heifers were bred, never grow to the proper size. Twenty-eight to thirty-two months is believed to be a satisfactory age to have heifers freshen, and then keep them milking nearly a year, if possible, the first lactation period. If heifers are allowed to become too old before they are bred, there is a danger of them not breeding. Some men claim that by breeding the heifers when young and then not breeding so soon the next time that better milkers are produced. That may be possible, but it stands to reason that if a young animal gives birth to offspring and is expected to produce milk before she is fairly well developed, she will not make as good a cow as she would have, had growth been obtained before commencing to produce.—Farmer's Advocate.

Quick Milking Increases Yield.

"Quickness in milking is highly desirable. There is not only a saving of time, but there is also an increased yield," says an English exchange, The Farmer and Stockbreeder. Recent investigations carried out at the Garforth Farm of Leeds University have shown that the increase may be as much as 10 per cent. in the yield and from 30 to 40 per cent. in the butter fat. Slow milking results in a smaller yield, and the cows frequently get restless. There is no surer way of decreasing a cow's yield or to dry her off quickly than by slow milking, which does not remove all the milk in the udder.

It is probable that the average number of cows milked per hour is about seven; but there are many milkers who will milk ten cows per hour, and there are probably others that could do so if they tried. The time taken to milk any one cow will, of course, vary with the quantity of milk and the ease with which the cow can be milked.

Mulching.

There is far too little mulching done. Small fruits, trees and garden crops are given a most favorable opportunity for attaining the highest perfection and development when their roots are covered with a thick mat of leaves, hay or other suitable material.

A good mulch keeps down weeds, and renders the soil loose, moist and porous at all times, and that, too, with little labor of cultivation.

His Advice.

"Would you advise a young man to marry before he has sown his wild oats?"

"I'd go further than that; I'd advise him to die before sowing them."

Move to Incorporate.

She—"I will have to be a little firm with you."

He—"Fine. Let us make it a partnership!"

Don't worry if your sins find you out; they'll be sure to call again.

PRICELESS PLATINUM.

More Than Four Times the Value of Gold.

The war in Europe has cut off the supply of platinum. In December this heaviest of metals reached the unprecedented price of one hundred dollars an ounce—four times the price in 1908, and more than four times the value of an ounce of gold. The warring nations have forbidden their citizens to export platinum, because it is used in making munitions, and the consequent shortage has greatly inconvenienced manufacturers of fine jewelry and of electrical, photographic, dental and surgical supplies. In Germany many manufacturers have already substituted where they can an alloy of rhodium and palladium, two other metals of the platinum family, instead of platinum wire, but own manufacturers of electrical supplies are using for the lead-in wires in electric lamps wire made of nickel-chromium, metallic tungsten or molybdenum. For the ignition points of spark plugs they are using tungsten and for the resistance wires of electric furnaces, molybdenum. Most of the platinum comes from a comparatively small area in Russia among the Ural Mountains where the metal occurs in deposits of alluvial gravel along the banks and beneath the beds of the rivers.

THOUGHTS FOR THE DAY.

Ambition breaks the ties of blood and forgets the obligations of manhood.—Sir Walter Scott.

It is often necessary and kind rather to write letters that amount to nothing than not to write at all.—Goethe.

Commercial relations between the countries of the world are among the most powerful factors for the preservation of peace.—Mr. W. T. Stubbs.

Dante saw devils where I see none. I see good only. I have never known a very bad man who had not something very good about him.—Wm. Blake.

Life is but a light dream, which soon vanishes. To live is to suffer. The sincere man struggles incessantly to gain the victory over himself.—Napoleon.

Men's destiny is towards progress He cannot progress if he does not cultivate his mind. That has to be watered and cared for just as a plant.—Peter Keary.

Boys may be governed a great deal by kindness and gentle methods, and by appealing to their better feelings But deeds must second words when needful or words will be laughed at.—Dr. Arnold.

It is the aggressors who ought to make the first proposals for peace. Why should we make overtures to a country which has broken every convention and committed every atrocity?—Mr. Walsh, British Labor M. P.

AFTER MEALS

When digestion fails, whether from loss of tone, climatic changes, overwork, or errors of diet, nothing so soon restores tone and healthy activity to the digestive system as the root and herb extract—Mother Seigel's Syrup. It tones and clears the system of the decayed products of indigestion—the fruitful cause of headaches,

TAKE THE DIGESTIVE TONIC

Languor, acidity, heartburn, flatulence, brain fog, and biliousness. It makes food nourish you, and thus builds health on good digestion.

MOTHER SEIGEL'S SYRUP.

The new 1.00 size contains five times as much as the trial size sold at 50c per bottle.

EDEN GROVE

Mrs Rosseau received the sad news of the death of her sister, who passed away at her late home in Montreal last Friday. Mrs Rosseau left on Saturday to attend the funeral. She has the sympathy of her many friends in this vicinity.

We must congratulate Miss Gertie O'Reilly upon her graduation as a nurse at St Joseph's Hospital, Guelph, and wish her a long and successful career in this noble profession. Mrs O'Reilly went down to attend the graduation exercises on Thursday.

Mrs Herb Pearson is in Toronto visiting her sister, who is seriously ill.

Ladies vs gents, last Monday evening, resulted in a score of 20 to 12 in favor of the ladies. Misses L Alexander and Martha Fordyce did the pitching for the winners.

Mr and Mrs A McKeeman spent Sunday with friends in Durham.

Hogs took a drop last week.

There seems to be only two seasons this year—winter and autumn.

Our genial agent at sunny station left Tuesday for a trip through western Ontario and Michigan. We all wish him a good time and that he may soon return.

One of the features of this sporting season will be our ladies' baseball team.

Mrs Tennant and daughter Martha enjoyed a pleasant visit with Paisley friends last week.

Our enterprising merchant, Geo Washington, says he got fifty pounds of fish last Thursday.

Miss Maggie Desmond visited Walkerton friends Friday.

We understand Billy secured half a dozen marriage licenses before the advance in price. We expect there will be something doing before he returns.

The Methodist church and young people's society intend holding their annual garden party about the middle of June. This is one of the events of the season.

GLAMIS

Miss Sara Beere, who has been visiting at Mr Jos Cunningham's, returned to Hamilton on Tuesday.

Miss Margaret McLennan, of Detroit, is visiting her parents, Mr and Mrs Jas McLennan.

Mr and Mrs Albert Pinkerton spent Sunday at Mr David Robertson's.

Mr and Mrs Peacock and two little daughters, of Meaford, motored up on Saturday. On Sunday morning Eleanor, the elder of the two, had the misfortune to fall and break her arm.

Miss Ida Stanley has gone to Paisley and is engaged at Dr Gage's.

The Oddfellows gave a farewell supper and dance to the soldiers on Tuesday of last week.

Hector McNally, of Detroit, is home and will likely remain for the summer.

Miss Pickard, who was visiting the Misses Howson, left on Saturday for Toronto.

Mr and Mrs Alex McKinnet and Mr John McKinnet motored down to Dundalk to attend the funeral of their sister-in-law, Mrs Robert McKinnet.

The Misses McKenzie, of Kincardine, spent the week end at Mr Neil Currie's.

We are sorry to report the illness of Mr Kenneth McLennan. He is at present under the doctor's care.

Our sympathy goes out to Mrs Jas McLennan, who is at present confined to her bed suffering from very painful burns she received on Friday last.

All the 160th recruits who have had leave of absence for the past few weeks returned to Walkerton on Monday.

Children Cry
FOR FLETCHER'S
CASTORIA

ELORA ROAD NORTH

Mr Gourlay Campbell has been up from Brantford, visiting at the home of his parents, Mr and Mrs J S Campbell.

Mr and Mrs Wm Hyde spent Sunday at Mr John Brown's.

We are sorry to hear of the serious illness of Mrs Angus McMillan.

Mr Alex Morland is working for Mr Harry McTavish.

Mr and Mrs Wm Miller are visiting here for a few days before leaving for Alberta.

Mr and Mrs Thos Irwin and son Case went down to Dungannon on Saturday with the remains of the late Mrs Irwin, sr.

Mr John Bryce is first man on the road to finish seeding.

McNeill Bros are building a new fence along the road, which will make a great improvement in the appearance of their farm.

Messrs Clarence Fraser and Alf Tanner are taking great enjoyment out of their autos.

Sunday School re-opened last Sunday in Winch's school house.

TWELFTH CON BRUCE

On Wednesday, May 17th, a large crowd of friends and neighbors assembled at the home of Mr and Mrs Alex McGillivray (ex-reeve) to do honour to their soldier son, Pte Clarke McGillivray, and also Pte Wm Strachan, before they left for the mobilization camp in Walkerton on Monday. Mr Alex H McGillivray filled the position of chairman, and after explaining the object of the gathering, called upon Ptes McGillivray and Strachan and the following address was read by Elgin Cumming and the presentation of a wrist-watch to each was made by Ambrose McFadden:

DEAR FRIENDS—To assure you of our interest in you and in the great cause which you have pledged yourselves to champion, we your friends and neighbors deem it our duty to meet here to spend a social evening together before your departure from us, in defence of our Empire. We feel deep regret at losing you, yet pride at being represented in the great army our Dominion is sending out to fight our foreign foe. As some evidence of our esteem and good wishes we ask you to accept these wrist watches, and we hope that the Almighty Hand which guides us all will, after the struggle is ended, permit you to return to us in health and strength, where a hearty welcome awaits you. Signed on behalf of your friends and neighbors.

Elgin Cumming
Ernest Porter
Eldon McGillivray
Ambrose McFadden

Pte McGillivray made a very suitable reply, thanking his friends for their kindness toward him, and that he felt it was his duty to serve his king and country. A short programme was then gone through consisting of songs, instrumental music and a Gaelic recitation by Mr Alex McLeod, which proved the most enjoyable of all. Mr McGillivray then gave the freedom of the house to all to enjoy themselves in whatever way they pleased. The rest of the evening was spent in games and dancing and everybody was delighted with the pleasant time.

TURNER'S

Mr Wm Atkinson has purchased a new threshing separator.

Pte Jas Wallace left Monday morning for Walkerton.

Messrs Henry and Albert Dier, Mr and Mrs Enoch Gibbons motored up to Park Head and spent Sunday with friends there.

On Thursday evening of last week a very sociable time was spent at the home of Mr and Mrs James Wallace, the occasion being the presentation of wrist watches to four young men who have donned the King's uniform—Ptes Jas Wallace, Oliver Christie, Wm Kidd and L Schell. Each of the boys made a suitable reply, and then came a good programme of songs, recitations and speeches.

Mrs Wm Atkinson, who underwent a critical operation in Owen Sound hospital, is doing well.

WILLOW CREEK

Mr Reuben Wittig took some soldiers to Walkerton on Saturday, and had some remarkable experience with his car.

Mrs Hugh Hunter was taken to Kincardine on Saturday to undergo an operation for appendicitis.

Mr Henry Reppel, sr, formerly of the 6th con, sold his residence at Tiverton, and intends going to Port Elgin.

Mr George Brill, of Port Elgin, spent Sunday at Mr Henry Glenz's.

Rev S S Lautenschlager, B A, of Berlin, preached in the U B church last Sunday. The rev gentleman said that in Berlin they have a union prayer meeting during the week. This would be a good plan for all to adopt.

CARGILL

The official visit of the Right Worshipful D.D.G.M., W. J. Loughheed, took place last Friday evening, May 12, to Moravian Lodge, A.F. & A.M., in this village. Quite a number of brethren from Walkerton, Paisley, Chesley, Palmerston and Southampton were present. After the degree work had been conferred, all adjourned to the banqueting hall, where tables laden with good things and beautifully decorated had been prepared by the wives of the members. After satisfying the inner man, the following toast list was gone through with. W. Bro Geo Sirrs acting as toastmaster: "King and the Craft;" "Canada and the Empire," responded to by Wor. Bro. H. McKercher, Paisley; "160th Battalion,"—Wor. Bro. Lieut. H. Parker; "Army and Navy,"—Wor. Bro. F. C. Ryan, P. D.D.G.M. and Bro J. H. Steele of Paisley; "Education,"—W. Bro. Rev. A. T. Walker of Walkerton, and W. Bro. Dr. Houston, of Paisley; Sister Societies."—W. Bro. G. Lamont, of Chesley; "Silent Toast," proposed by W. Bro. W. J. Loughheed, to the absent ones unable to be present, especially those who are fighting for freedom's cause at the battle front. All rose and sang, "Keep the Home Fires Burning;" "The Ladies,"—Bro. Lieut McLeod and Bro. Sergt. McLeod of Southampton; Junior Warden's toast, "Auld Lang Syne" closed one of the most successful banquets ever held in this lodge. The fact that this lodge bears the honor of having the present D.D.G.M. picked from its membership this year, added interest to the proceedings. The thanks of the lodge are due the ladies for the sumptuous repast prepared as only the ladies of our village know how, and whose immense amount of work in preparing the supper made the banquet the success it was.

Mrs Grey, of Toronto, is here on a visit to her daughter, Mrs Bricker.

Mrs. Wm. Grainger and children, of Stratford, are here on a visit at Mr. H. Brownscombe's

Mr and Mrs Fody of Mildmay spent Sunday at Mr. Jos. D. Shuell's.

Born—On May 21st, to Mr. and Mrs. J. J. Schmidt, twins—boy and girl.

Mr Jas Taylor and family are moving to Walkerton this week.

Major Tidy, of Toronto, spent Sunday at Mr W D Cargill's

Mr A Zettler, late sau't agent here, but now of Southampton, was here the first of the week.

Dr Murray, of Toronto, was in the village this week renewing acquaintances.

Mrs C W Keeling is away on a visit to friends in Cranbrook.

Mrs W J Fiddle and babe are visiting friends in Cayuga.

Mrs Selling, of Mildmay, and Pte Selling, of the 65th Battery, Guelph, were visitors here on Monday.

D D G M Loughheed pays his official visit to Kincardine Lodge A F & A M on Monday evening, May 29th. The Most Worshipful Grand Master will also be present on that occasion.

NOTICE is hereby given that the council will meet as a Court of Revision at the Town Hall, Clifford Hill, on Monday, May 29th, at the hour of 1 o'clock p.m., when appeals against the assessment roll of the township of Elderslie for current year will be considered. Appeals must be in the hands of the clerk not later than May 15th, 1916.
Dated this 6th day of May, 1916.
R. C. PEARSON, Tp Clerk
R H No 3, Paisley

Paisley Court of Revision

TAKE NOTICE that the first sittings of the Court of Revision re assessments, 1916 will be held on Monday 29th May, 1916, at 10 o'clock a.m., at the council chamber here.
J. C. GIBSON, Town Clerk

Electric Control Buttons at Your Finger Tips

Naturally, you want a car that can be operated easily—you realize that the extent of pleasure and safety in driving depends upon the ease of control.

In most cars the details of control seem to be planned with an eye for convenience in assembling the various parts.

But the Overland control was arranged just as you would arrange it if you were designing a car for your own convenience.

You control the electric magneto, the electric lights, the electric horn, with your finger tips, without bending forward.

To start the motor you merely touch a foot button in the floor.

A woman or girl can drive the Overland in safety. Its control is easy and instinctive.

Let us tell you about the other Overland advantages.

GEO. W. GILCHRIST, Agent

Bruce 'Phone. No. 5-48 — PAISLEY R. R. No. 2

Model 75 Touring Car $850; Roadster $825
Model 83 B Touring Car $965; Roadster $935
Model 86 Six—Touring Car $1600
Prices f. o. b. Toronto, Ont.

All models are completely equipped in every particular. There are no extras to buy.

Farm Produce at Highest Prices

'Phone us your orders and we'll be glad to deliver the same

Guaranteed Clothes!

You get a complete and absolute guarantee when you buy made-to-measure clothes here—the guarantee means what it says—you're the judge.

You'll find that we don't ask you why the clothes are unsatisfactory or how—if you say they're not right, we don't argue about the matter.

That sort of a guarantee, added to the very evident advantage of wearing custom-tailored clothes, makes them all the wiser choices.

160th to London

It now appears certain that the Bruce Battalion will train at London camp. We are informed that a number of men from the Batt. have gone there to prepare the camp for their arrival.

New Slaughter House

Mr. P. Oltsher is now using his new cement slaughter house, built on the property he bought just south of the village limits. The slaughter house fills all the requirements of the latest Provincial health regulations, having in connection both a septic tank and a supply of pure spring water from a well. It is a credit to Mr. Oltsher's butchering establishment.

Bell Telephone Assessment

The only item of business before the Paisley Court of Revision on Monday that amounted to an appeal was that of the Bell Telephone Co. Heretofore the Co. has been assessed for all business paid for at the local central office, but an amendment to the Act provides that a telephone or telegraph company shall be assessed only for the business done on the lines and equipment within the municipality. This appears very much like a special loophole through which such companies can evade payment of a large amount of taxes, as in the surrounding townships there are no central offices, and under the Assessment Act no taxes can be collected by a municipality wherein there is no central. The Bell Co. were represented by counsel at the Paisley Court of Revision. The Court decided to secure the opinion of the Municipal World, and adjourned to June 14th.

Presentation

Taking advantage of a short furlough that Bandsman Harry Jack was spending in town, Knox church choir called upon him at the home of his parents, Mr. and Mrs. Alex Jack, on Saturday evening, and presented him with a gold ring, suitably engraved. The following address was read by Miss I. Galbraith, and the presentation was made by Miss Edna Hamilton:

DEAR HARRY—Since you volunteered to lend your assistance in a musical capacity towards restoring the harmony of nations, we have desired to express our appreciation of your readiness to do your bit in persuading the German Emperor and his choir of militarists to bring their voices again into accord with the music of modern civilization. Instead of singing the Hymn of Hate. However much we regret your going, and deplore the terrible and tragic cause of your going, there are few, indeed, who do not admire those who are responding to the call in duty to facing conditions that involve loss and sacrifice, and danger to life and limb. We hope and pray that you may be spared to return in the same strength and vigor in which you go forth, and that you may resume your place as a member of our organization. Please accept this ring as a small token of esteem, good will and appreciation from

Knox Church Choir

Bandsman Jack, in a brief response, expressed appreciation of the gift and the spirit in which it was given. The proceedings were necessarily brief, but a very pleasant time was spent.

CANADIANS AT SALONIKI HOSPITAL

NOTED DOCTORS AND NURSES DOING THEIR "BIT."

Surgeon Performing Delicate Operation When Austrian Bombs Fell Near Tent.

The London Daily Express has the following from its correspondent at Saloniki:

Seventy-five girls from Canada standing among their hospital tents on a little hill seven miles out from Saloniki, looking into the sky; above them a circling Austrian aeroplane; the whistle of falling Austrian aeroplane shells; three terrific explosions on the earth nearby; a heavy thud of one shell that did not explode and that would have killed a tenful of wounded men if it had—this was my first glimpse of No. 4 Canadian Hospital. The Austrian killer sailed away.

In the name of God and humanity why did he try to kill nurses and surgeons and sick and dying men? You feel these things more when you see them yourself than when you read about them. In one of those tents at the time, not a hundred feet from where an Austrian shell fell, a great surgeon from Canada, whose name is known and honored among the surgeons of Germany and Austria, was taking with his knife on the vitals of a young officer, using all the skill and science that twenty centuries of study have afforded the art of surgery, and one of these Austrian shells might have wiped out that scene, actors and all.

Toronto Surgeon There.

You feel strongly about an incident of this sort, especially if you are marked to go on the operating table yourself the next day. And also if you are scheduled to spend a couple of weeks in one of the tents lying helpless until the surgeon's cuttings have begun to heal.

You are escorted to a tent by an orderly who, you discover later, first learned his business in Bellevue Hospital in New York. A sweet-faced nurse meets you at the door of the tent. Everywhere about you are men in uniform or in bed. They are all British officers. Your entrance as a civilian creates something of a furore, for a man in civilian's clothes in these days in Greece is an oddity worth attention.

A soldier in uniform brings you your tea at five that evening; another soldier brings you a cup of hot malted milk at eight in the evening, and at nine a soldier in uniform—one of Canada's most noted surgeons, who has given up his work in the city of Toronto to "do his bit" for the British Empire—comes to your cotside, looks you over, and says, "You must not expect any breakfast in the morning, young man, because we'll take you to the operating room at ten o'clock."

The Friendly Orderly.

"Too breezy for German aeroplanes," you hear an officer in an adjoining cot observe. And that remark brings you clear back to the world; back to the loudly flapping tent; back to the war; back to the killing and the dying.

By seven o'clock next morning everybody is awake. A very much muffled-up little nurse with a sparkling smile and two basins of steaming warm water enters the tent. Behind her comes a boy from Canada in the uniform of an orderly, with two more basins. The orderly, being in a friendly mood, stands in the centre of the tent and surveys the occupants of the various cots; a British major, two British captains, and a British lieutenant. Let it be understood that no British orderly ever addresses a British officer first; the advances must come from the officer. But this was a Canadian orderly.

"Well, how'd everybody sleep last night?" he says.

To your surprise the British officers don't freeze him. One and all they say they have slept well. Then you realize that they have been in the hospital for some time; that they are acquainted with this Canadian orderly and his free and easy Canadian ways.

Bit of Romance.

"Funny people in this world," says a British officer, a captain, in the next cot. "There was a time when I couldn't understand Americans. One day I was walking along a street in Gibraltar in full rig when an awfully pretty American girl jumped out in front of me with her camera and said to her friends, 'Oh, look at this nifty little officer.' Then she snapped her camera and smiled at me and went right away. But you know I got acquainted with her after that, and I found out she was one of the finest girls I ever knew. If I hadn't got acquainted with her, what do you think I'd have thought of Americans all the rest of my life? I never would understand them."

About ten in the morning a huge Canadian medical officer passes through the tent. "Has anybody any complaints?" he asks. He's the orderly officer of the day, and if you don't like the way the hospital is being run he's the fellow to tell about it. Everybody's contented, so he goes on his way.

Toronto's Donation.

This Canadian tent hospital cost the people of Toronto $225,000, and some of the best surgeons and the most expert physicians on the North American Continent are here in Saloniki with this unit. It seemed to me that there was a specialist for every human ailment or for any possible sort of a wound. These doctors pass about among the patients, each attending to his own particular cases, and the latter part of every forenoon is filled with this activity.

IN LIBERTY'S NAME.

How the Turkish People Honored the Constitution.

The ignorance of the Turkish masses concerning political questions, says Sir Edwin Pears in "Forty Years in Constantinople," is shown by certain incidents of the revolution of 1908. The hamals, or porters, in the towns, like the peasants in the country, when they heard that His Majesty had sworn to be faithful to the constitution, inquired what it was. Was it a person? Was it a new caliph? And very few could give any clear explanation. The word "liberty" and "equality" meant something good, although they could not have said what. To some they signified general license.

Two English friends of mine were motoring outside Smyrna when a number of Turkish boys set upon them and flung stones at them. The Englishmen gave chase and caught the principal offenders. The eldest was asked why he had thrown stones.

"Hurriet var," was the reply. "There's liberty. We can do what we like now."

The English replied, "Hurriet var, and I am at liberty to give you a good thrashing, am I not?"

One of the boys said yes, he supposed that would be so, but he hoped the liberty would not be used. The Englishman replied that it would not be used that time, but if the offense were repeated he would use it to the fullest extent.

The workmen on a newspaper during that time asked for a large increase of wages.

"But why?" asked the owner.

"Because there is a constitution."

The tramway men struck for higher wages, and the only justification that they put forward was that there was now a constitution. Yet men of all classes cheered in the lustiest manner for the constitution. Throughout the month of August smuggled tobacco was openly sold in the streets at a very cheap rate, buyers and sellers alike considering that the constitution allowed men to set aside the law that had made the sale of tobacco a government monopoly.

EXTERMINATE THE ANT.

The Tiny Insect Brings Death and Sickness to Man.

No suspicion until lately had arisen that the industrious ant might upon occasion act as the transmitting agent of infection to man, says the London Lancet. It was known that some species, such as the white ant, has very destructive tendencies in certain parts of the tropics, and that the bites of some large tropical ants caused a good deal of general disturbance, being attended with faintness and shivering and sometimes with temporary paralysis. It was also known that some savage races used the dried bodies of ants, beaten into a paste, as an arrow poison, but it is only of late that suggestion has been made that this insect might convey pathogenic bacteria to man.

The ant is commonly found in and around the dwelling of people residing in the tropics. It is, indeed, a matter of difficulty to keep this insect away from food-stuffs in such houses, and it is equally difficult to keep the ant away from refuse when these are not properly disposed of. So that it cannot be doubted that the ant has the opportunity of carrying from infected excreta the specific organisms of disease to the food stored in human dwellings.

Little or no experimental work, however, had been done to obtain proof that ants were capable of transmitting disease to man, but in 1912 Dr. L. B. Bates, bacteriologist to Ancon Hospital in the Panama Canal zone, undertook a series of experiments with a view of putting to the test whether or not the ant acted as a transmitting agent of such infections as enteric fever and bacillary dysentery. His investigations were carried out with the large yellow ants which are found in and around the houses in the canal zone.

He fed a number of these insects on bread soaked with cultures of bacillus typhosus for five days, killing and examining some of them at certain intervals, but in no instance was he able to recover the typhoid bacillus from the intestines of the ants. The experiment was carefully repeated with like negative results. He then tried to determine if the ant could carry the specific organisms on its legs or body in a purely mechanical way to human food.

To this end a number of the insects were dropped into a broth culture of the typhoid bacillus and allowed afterward to crawl out and walk over dishes in such a way that their footprints would be "cultivated" for bacteria. The typhoid bacillus was easily found in every instance. This experiment was repeated several times, and in the majority of cases positive results were obtained.

The New French Shell Now on View in Paris.

This new shell, which is being shown at the French Ministry of Munitions, is bigger even than the great 42-cm. shell which so startled many in the earlier days of the war; the growth of the heavier munitions of war from size to size is one of the features of an "artillery war." The shell illustrated above is almost the height of a man, and has a correspondingly great girth. Its steel nose tapers gradually to a sharp point.

WHAT LIFE IN A SUBMARINE IS LIKE

NERVE-RACKING WORK WITH CONSTANT RISKS.

Crews of British Subs Are All Volunteers, Because of Dangers and Hardships.

Many people are under the impression that the crew of a British submarine is composed of a certain number of sailors and a cage of white mice.

Such used to be the case, but the mice were "struck off the books" long ago. In the early days of submarines mice were carried in them as a kind of danger gauge. Their duty—and they performed it faithfully—was to begin squeaking as soon as poisonous fumes escaped inside the boat. Being more sensitive to these than men are, the mice could detect the fumes much sooner than the other members of the crew could. Therefore, a close watch upon the little animals used to be kept. As soon as they showed signs of distress up shot the boat and open went her conning-tower.

Now the skill of designers has given us submarines that require neither white mice nor "potted air" to ensure of the safety of their crews. It has also given us under-water craft capable of doing things undreamed of a few years back, but it has not yet succeeded in making these pleasant to live in. Ask a "submariner" what "life aboard" is like, and he will answer nonchalantly, "Oh, it's all right." But if you were able to try it for yourself you would soon fall to wondering what he would deem "all wrong" if he found this sort of life "all right." As a matter of fact, the "submariner" has about the most uncomfortable time of any sailor, though the second nature which comes with us has so acclimatized him to it that he thinks lightly of its hardships.

During their infancy submarines enjoyed the fostering care of a "mother ship" when they went cruising. Having now grown up," the submarine gets but little "mothering" and has to look after itself.

In these days submarines make long, independent trips, and for the whole duration of these their crews are "boxed up," in the literal meaning of the expression. Even the relaxation of going on deck to stretch their legs is denied them, because there is no deck worth calling such for the purpose.

A Hard Life.

A submarine lying snugly alongside a dockyard jetty gives one no adequate idea of what the same boat looks like when scudding through the waves. Watch her setting off on a trip and you will see only a few hands on deck. There will be, perhaps, a couple of officers on the conning-tower and one or two men at its base. All are clad in thick clothing and wear heavy sea boots. Possibly some of them may have donned "hammy" suits, and you wonder why they adopt such an Arctic-like rig. A view of the boat after she has reached the open sea will make the reason apparent to you.

Probably all you may be able to see will be a rapidly moving heap of white water, amid which one or two heads appear indistinctly. If you could peer down from an aeroplane upon this traveling geyser you would find the submarine's conning-tower sticking up in the middle of it, and would recognize how necessary warm, waterproof clothing was to the men on the top of that structure.

Although you can discern but little of her the boat is awash—that is, traveling as high out of the water as she can. Presently she gives a heave forward and every part except her conning-tower disappears from sight. By partly filling her tanks the boat has trimmed for diving. The men who were "on deck" have dropped through the conning-tower, closing the cupola after them, and every member of the crew is now at his post below.

And as long as the boat remains "down" he must stay there. In these underwater craft there is little room for moving about. A man may be at the tanks, he may be at the tubes, or he may be at any other of the stations, but wherever he be there he must stop with his whole mind concentrated upon the task allotted to him. Some boats have a tiny cabin for the officers, but if the men want a nap they must take it on the floor. This, however, is no hardship to a bluejacket, who is able to sleep comfortably anywhere. For sleeping there is no time in a submarine when she is on the move.

Remember, they cannot smoke, they cannot cook anything, and consequently must live upon "tinned tack," while if they wanted to talk the noise made by the machinery would prevent them from doing so. Enclosed in this steel shell they are shut away in the depths of the sea, and only the officer at the periscope knows aught of what may be happening on the surface.

Always Facing Death.

The air in the boat is warm and heavy, and grows more vitiated and "sleepifying" the longer she stays down.

An eerie feature of this underwater voyaging is that although a submarine's crew can see nothing outside their boat, and do not know from one moment to another what peril they may be running into, they can feel a great deal. Every knock, every bump, every scrape outside the hull is audible to them. And they do not know at what moments any one of these knocks, bumps, or scrapes may mean the end of all things for them.

All the officers and men who man British submarine flotillas are volunteers. They know that for them there is no escape should mishap befall their boat, yet despite its hardships and dangers there is never any lack of men willing to take on this work.

It often happens that a submarine has to "go under" altogether, periscopes and all, to lie on the bottom and wait, chancing whatever may come to her in the process. At such times the crew are absolutely cut off from all the world and they can never feel any certainty to breathing the free air of the open sea again. Very often there are odds against them doing so. All they can do is to wait patiently until it is deemed safe to take the risk of blowing out the tanks and going to the surface again.

In fact, connected with the submarine service there is no such thing as pleasure cruising. At the best it is comfortless, nerve-trying, wearing work, full of peril, empty of joy, except such as comes at the thrilling moment when a successful shot has been made at the enemy—and that compensates for all difficulties and dangers undergone. During the war British submarines have braved many risks and done wonderful work, the story of which may not yet be told nor barely hinted at.

Time is money to the man who is working out a fine.

It is as easy for you to please everybody as it is for everybody to please you.

VISIT TO BRITISH WAR OFFICE

INSTITUTION THAT DIRECTS THE CONDUCT OF WAR.

More Than 4,000 Persons Engaged in 120 Departments of the Establishment.

Sir Reginald Brade, Secretary of the British War Office, received a representative of the Associated Press and gave facilities, through one of his staff as escort, to see something of this huge war machine in full swing under the pressure of one of the greatest wars with which it has ever had to cope. It was an experience of several hours, exploring the labyrinths of the vast institution, fairly vibrating with energy at every point and yet proceeding with precision and efficiency in meeting the big part it is taking in the conduct of the war.

Some idea of the immensity of this war establishment may be had from the fact that its corridors are two miles long—a good, brisk walk of an hour. And along these two miles is a good-sized city of people, over 4,000, engaged in the infinite details of this war work, great and small, all the way from Lord Kitchener, Secretary of State for War, down to boy scouts and girl messengers. And this is only the central establishment, for the war exigencies have outgrown even this huge building and many outside buildings, business blocks and other premises have been taken in as War Office branches. The sudden extension of censoring as a precaution of military defence has called into service a large army of censors, and a number of large business premises in various quarters have been acquired for the military censors' branch. Three or four other branches are at other points and practically the whole ordnance branch has grown into a separate government department, with a Cabinet Minister, Lloyd George, at its head.

Difficult To Get In.

Yet the War Office still remains the throbbing centre of the war work. Here the larger questions of strategy and the campaigns in various theatres of war are worked out; here the Army Council and the Imperial General Staff hold their meetings, and here the many branches of military work ramify from the headquarters of Lord Kitchener, General Sir W. Robertson, chief of the Imperial Staff; Lieutenant General Sir H. Sclater, adjutant general to the forces; Lieutenant General Sir I. Cowans, quartermaster general, and the two members of parliament who represent the civilian branch and keep the war branch in touch with Parliament; Mr. Tennant, Parliamentary Under Secretary for War, and Mr. Foster, Financial Secretary for War, with Sir Reginald Brade as Secretary of the War Office and of the War Council.

It is difficult to get into the War Office and more difficult to get out—like the continental railway station. Guards turn away all those without papers from authorized sources, stating a definite purpose for the visit and a fixed time. Passing this barrier, one's name and address is taken and a permit issued, and the addresses are always available if Scotland Yard wishes to investigate the antecedents of any one making unauthorized inquiries.

Within the building there is an air of work under high pressure, and with rigid military discipline, with many officers in uniform, old soldiers as messengers, also in uniform, the girls in brown khaki dress and blouse with brass buttons and a brass device on the collar.

The Supreme Head.

There are two outstanding figures of interest at the War Office just now—Lord Kitchener, the supreme head of the whole establishment; Lord Derby, whose scheme for increasing the army has brought him very much in the public eye; while across the road, at the Horse Guards, is Field Marshal French, now Lord French of Ypres, who as commander of home defence is now directing home defences in general and the aircraft defences in particular. Lord Kitchener's windows look out on the busy traffic of Whitehall, with the Horse Guards across the way, and the bronze equestrian statue of the Duke of Cambridge, in sweeping plume and full regalia of a field marshal, at the entrance. The offices are stately, with portraits of distinguished War Ministers. But under Kitchener they have taken on an air of the camp, with maps all about and on the walls indicating the campaigns in many fields of British operation—in Flanders, at Salonika, in Egypt and Mesopotamia, and of the Allies' operations on the Austro-Italian front, in Russia and other points.

But while these main figures of the War Office are most before the public, there is also a vast organization carrying on the innumerable day-to-day branches of military work. The main divisions are the General Staff, the Adjutant General, the Quartermaster General and the Civil and Finance Departments, with most of the Ordnance branch now transferred to the Ministry of Munitions. Under these main heads there are some 120 divisions, taking in the whole range of military activities. The War Council is, in effect, made up of the heads of the main divisions, seven in all, with Lord Kitchener as president of the Council and General Robertson, chief of staff; Adjutant General Sclater, Quartermaster General Cowans, Major General Von Donop, Parliamentary Secretary Tennant and Financial Secretary Foster as the other members of the War Council. The General Staff, with General Robertson at its head, makes the scientific studies of military defence, assembles all the available intelligence on different campaigns, furnishes the experts and has charge of the military inter-communication by telegraph and signaling. The extensive purchase of American horses, harness and supplies has come under the direction of Quartermaster General Cowans, who has general charge of food, clothing and supplies, land and water transportation of troops, supplying horses, etc.

A Visit to the Registry Branch

of the War Office gave an idea of the immensity of the work going on, for this branch receives everything coming in and distributes the business to all branches. Over 100,000 letters are received every week, and of these an average of 40,000 go through the formality of registering. Once registered, a communication is an official record of the government, eventually under the control of the Master of the Rolls. The mere registering of this vast influx of 40,000 pieces of separate war business is a prodigious work. Ten youths were at a long table engaged solely in slitting open the envelopes. Fourteen sacks of war business had come in the first morning mail, and this was only the start. Room after room is filled with men and women workers registering these communications and getting them started to the 120 branches. A war communication addressed personally to Lord Kitchener or any other official is delivered direct, but unless personally addressed it is part of the War Office business and goes to the subject treated. There is no time for high-sounding titles, and so every branch and every official is known by a group of letters and every officer in the service has a number.

This registry branch, under the direction of one of the veteran members of Sir Reginald Brade's staff, Mr. Pedley, is a model of efficiency in the handling of the avalanche of documents which the war turns loose on every branch of the War Office. Going down in the sub-basement, below the level of the Thames, one could see the bewildering vistas of documents, stretching for long distances but arranged with mathematical precision for instant reference as a government record.

Business of the "Searchers."

One of the curious requirements growing out of the rush of war work is the need of a staff of "searchers" to look up lost documents. The "searchers" make their rounds early every morning. Very often, in the pressure of many kinds of work, an important war record will get laid aside or covered up on some desk, and it is the business of the "searchers" to ferret out every lost record and get it back again in the regular channels.

Altogether this glimpse of the War Office and the passing exchanges with the many officials gave the impression of a perfectly regulated machine with the steam gauge wide open and working under full pressure, and from end to end of this vast establishment, along with the sure and steady movement, was the spirit everywhere manifest and expressed among these war workers, "Let us do our part to win the war."

The Grand Duke's Playful Way.

The Grand Duke Nicholas is not a man who talks much, says Mr. Julius Wei in "Soldiers of the Czar," but he has a playful way at times. Some time ago, during an inspection, the grand duke was standing next to the Czar, a few yards from a group of lesser generals. He ordered General Ruzsky, then in command of the forces in that region, to step forward. The grand duke next ordered a private soldier to come forward and hack off the general's epaulettes. We can imagine the dismay of the other generals as the soldier obeyed.

"Now cut mine off," was the next order. The soldier did so.

"Now put mine on his shoulders."

It was the grand duke's playful way of promoting General Ruzsky to the highest rank in the Russian army.

Adam's apple was given to him to remind him of the time when he got it in the neck.

THIN-BLOODED PEOPLE

Often Become Seriously Ill Before They Realize It.

Some people have a tendency to become thin-blooded just as others have an inherited tendency to rheumatism or nervous disorders. The condition in which the blood becomes so thin that the whole body suffers comes on so gradually that anyone with a natural disposition in that direction should watch the symptoms carefully. Bloodlessness can be corrected more easily in the earlier stages than later. It begins with a tired feeling that rest does not overcome, the complexion becomes pale, slight exertion produces breathlessness and headaches and backaches frequently follow. In the treatment of troubles due to thin blood no other medicine has had such a great success as Dr. Williams' Pink Pills. They go right to the root of the trouble, make rich, red blood, thus restoring the weakened system to health and strength. Mr. R. F. Ashford, Peterboro, Ont., says: "Four years ago my condition became so serious that it seemed to me I possessed every pain and ache and every morbid feeling possible. For months I had been overworked, and bereavement added the last straw necessary to break down my constitution. I had a severe ever-present headache and pains in the back of the eyes, and at the same time I was seldom free from severe neuralgic pains. I was rarely hungry, and when I was it seemed to create a morbidness which made my other ills harder to bear. Of course I consulted a doctor, and he told me a rest and a change of air, just the thing I was unable in the circumstances to take. I had a particularly bad spell on the day my daughter returned from college, and she insisted that I should take Dr. Williams' Pink Pills. I was decidedly sceptical, but she got some and to please her I took them. The result—After the first box I was compelled to admit that I really did feel better. After the second box I ungrudgingly admitted that they were doing me good, and after the sixth box I felt free from every ache and pain and in gratitude I began to praise the pills to others. I am feeling as fit as I did twenty years ago and I owe it to Dr. Williams' Pink Pills."

You can get these pills from any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

LACK OF FOOD IN BERLIN.

Hunger Is the Most Powerful of Germany's Enemies.

"Truth cannot be hidden any longer!" exclaims "Carl S." in a message to Stockholm from Berlin.

"The poorer classes in the capital are actually reduced to starvation. For them neither butter nor lard can be got for love or money. Margarine to the extent of four ounces per person per week can be got only after hours of waiting in a queue. More often than not, even then, the needs of only a few can be satisfied.

"It is by no means an uncommon thing that in such cases the dissatisfied crowd breaks shop windows or pillages shops.

"Hunger is, generally speaking, the most powerful of the enemies which Berlin and Germany have. Bitter distress naturally creates unrest amongst the working classes; and uproars and revolts in the poorer quarters of Berlin are almost daily happenings. There is money enough in Berlin, but little enough to buy with it.

"Milk is only allowed for the feeding of babies, and every infringement of this order is punished very severely. The quality of the war-bread is getting worse. Thousands of families have emigrated to neutral countries."

"He who has health
has hope,
And he who has hope
has everything."
(Arabian Proverb)

Sound health is largely a matter of proper food—which must include certain mineral elements best derived from the field grains, but lacking in many foods.

Grape-Nuts

made of whole wheat and malted barley, supplies all the rich nourishment of the grains, including their vital mineral salts—phosphate of potash, etc., most necessary for building and energizing the mental and physical forces.

"There's a Reason"

Sold by Grocers.

Canadian Postum Cereal Co., Ltd., Windsor, Ont.

General Luigi Cadorna, Italy's Leading Soldier.

is the son of a distinguished Italian general of the nineteenth century, Rafael Cadorna, who, in his younger days, won the Legion of Honor while fighting as a volunteer for France in Algeria, and later did brilliant work as an Army Corps commander against the Austrians in 1866. The present Italian commander-in-chief is in his sixty-sixth year. In 1886 and the years following, as a staff officer attached to the Fifth Army Corps at Verona, he made a minute study, tramping on foot as an ordinary sightseer, of the Alpine districts where the Italians are now fighting. Gen. Cadorna's military notes then made, as a fact, form the hand-book which the Italian officers at the front are now using with advantage. As colonel of the 10th Bersaglieri in 1891 he proved a master of the tactics of mountain-warfare and an able leader of men. After the Tripoli campaign of 1912 he was entrusted with the supervision of the general army reorganization. For the perfectly equipped condition in which the Italian troops took the field last May, with Gen. Cadorna himself at its head, the generalissimo is largely responsible.

Cotton in War.

One thousand tons of cotton are fired every day from the mouths of the German and Austrian cannon. Cordite, one of the explosives employed by the artillery of the present day, is two-thirds cotton. The raw material is dipped into nitric acid, washed and dried, and the material thus supplied becomes the base of the explosive. It takes 400 pounds of gun-cotton to make the charge for one shot from the Queen Elizabeth's guns or from one of the German seventeen-inch guns. Guncotton can only be made from raw cotton.

STRONGLY RECOMMENDS BABY'S OWN TABLETS

Mrs. Alonzo Tower, Johnson's Mills, N.B., writes: "I can strongly recommend Baby's Own Tablets to all mothers whose little ones are suffering from constipation as I have proved them an excellent medicine for this trouble." Baby's Own Tablets not only cure constipation, but they make teething easy; break up colds, expel worms and regulate the stomach and bowels. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

RUSSIAN TRIBUTE.

Editor of Retch Lauds British Military Power.

Reuter's representative has had an interview with M. V. Nabokoff, the editor of the Retch, a member of the Russian deputation visiting Britain. He said: "The scope of the efforts made in Britain for the creation and development of its military power has filled us with intense admiration and strengthened our faith in the final triumph over our common enemy. We saw your powerful and ever-growing fleet; we saw the display of your colossal energy in equipping, provisioning and drilling the army, and in installing a true ideal into your men. Last, but not least, we came in contact with that wonderful human material of which your country may well be proud. Our present close union with Great Britain may be considered as an external alliance serving an external purpose, and unconnected with the internal life of either country. But there is another standpoint, and in my opinion the only true one. The complete independence of each State in its internal affairs is a truism, but it must be recognized that intimate rapprochment necessarily leads to mutual influence, intellectual, moral, even esthetic, and political and social ideals which form the basis of the greatness and power of Great Britain are to be more widely recognized and adopted in Russia. All true lovers of progress, right and liberty can but hope and pray that this influence may grow and spread."

Kind To Him.

Wife—The dressmaker says she won't make one another gown until you pay her bill.

Hub (with relief)—That's very good of her. I'll send her a note of thanks.

It is easier for some men to spend all they make than to make all they spend

BEER KEGS WEAPONS OF WAR.

Austrians Use Them as Bombs—Fire Them From Cannons.

An Italian correspondent writes that the Austrians are now making use of a wooden bomb on the Carso front. The bomb looks like a cask, its outer shell being, in fact, composed of wooden staves with iron hoops, and it is large enough to contain 220 pounds of explosives.

For the purposes of firing this "beer-cask" bomb is placed in the mouth of a 420 millimetre gun like a great cork. It does not travel far, and causes far more noise than destruction.

The Italians are puzzled to know why the Austrians bother about them at all. One reason suggested is that it enables the Austrians to use up the innumerable casks lying idle at the Pilsen breweries now that the export of the famous Pilsen lager has been stopped.

The same correspondent states that the Italians are using the Roman helmet for outpost work and in the trenches. It is said to be better than the new French helmet, inasmuch as it protects the neck and jugular as well.

Calls Them One of Her Best Friends

DAME BELANGER TALKS OF DODD'S KIDNEY PILLS.

Tells How They Cured Her Rheumatism and Made Her so Well She Could Work Without Fatigue.

St. Amateur, Gloucester Co., N.B., May 22nd (Special.).—Cured of rheumatism, from which she has been a severe sufferer, Dame Pierre Belanger, well known and highly respected here, is telling her friends that Dodd's Kidney Pills have made her well.

"I consider Dodd's Kidney Pills one of the best friends I have." Dame Belanger states. "I had rheumatism and the pains in my limbs caused me a great deal of suffering.

"I took six boxes of Dodd's Kidney Pills, and they made me well. My pains are all gone, and I can now work without being fatigued. I will always keep Dodd's Kidney Pills in the house."

Dodd's Kidney Pills cure rheumatism because it is caused by sick kidneys. Rheumatism is caused by uric acid in the blood. If the kidneys are healthy and doing their full work they strain all the uric acid out of the blood, and there can be no rheumatism. Dodd's Kidney Pills always make the kidneys well. They take away that tired feeling by ensuring pure blood and good circulation.

Reason Enough.

Everything in the dear old village seemed the same to Jones after his absence of four years. The old church, the village pump, the ducks on the green, the old men smoking while their wives gossip—it was so restful after the rush and hustle of the city. Suddenly he missed something.

"Where's Hodge's windmill?" he asked in surprise. "I can only see one mill, and there used to be two."

The native gazed thoughtfully round, as if to verify the statement. Then he said slowly:

"They pulled one down. There weren't enough wind for two of 'em."

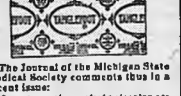
Minard's Liniment Used by Physicians.

No Efficiency.

Wounded Soldier—Yes, they got twenty-four bullets out of me! They ought to have sent me to the munition depot—not to a 'ospital!

Fly Poison Kills More Children

Than All Other Poisons Combined



For Safety's Sake, Use

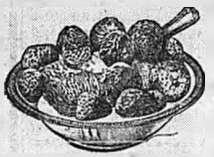
Is there within your home, anywhere within baby's reach, a saucer of arsenic poisoned paper floating in water, or a can with a sweetened poisoned wick?

During 1915, 26 cases of fly poisoning were reported from 11 states; in 1914, 48 cases from 14 states. *Fly poison kills more children than all other poisons combined.*

Yet fly poison still is left unguarded except in the homes where mothers have learned that the *safe, sure, non-poisonous,* efficient fly catcher and destroyer is

TANGLEFOOT

The Journal of the Michigan State Medical Society comments thus in a recent issue:



"Symptoms of arsenical poisoning are very similar to those of cholera infantum; undoubtedly a number of cases of cholera infantum were really cases of arsenical poisoning, but death, if occurring, was attributed to cholera infantum.

"We repeat, arsenical fly destroying devices are dangerous and should be abolished. Health officials should become aroused to prevent further loss of life from their source. Our Michigan Legislature, this last session, passed a law regulating the sale of poisonous fly papers."

Don't Live in the Kitchen—Emancipate

yourself from kitchen worry by learning the food value of **Shredded Wheat Biscuit.** You can prepare a most wholesome, nourishing meal in a few moments by heating a few Shredded Wheat Biscuits in the oven to restore crispness; then cover with berries and serve with milk or cream.

Made in Canada.

JUVENILE COURTS.

What the Probation Officer Should do to Encourage Parent and Child.

As there is a growing desire throughout the Province to secure the appointment of a Children's Judge entirely apart from the regular Court procedure, the following points are worth keeping in mind:

The Judge of a Children's Court should be a man who was once a real boy, alert, enthusiastic, a student of philanthropy, keeping in close touch with social service agencies and modern child-saving methods.

A Children's Court is educational and inevitably leads to a study of child life and the general social conditions of the city or district. Naturally, it will tend to co-ordinate the work of child welfare organizations and to build up a system of probation and friendly guidance.

While clothed with legal authority the probation officer in a friendly capacity advises, assists, encourages both parent and child so that the child may remain in his home and become a good citizen.

Likewise the object in bringing a youthful offender before the Children's Court (which should not be done hastily), is not to convict him of guilt, but to find out how he can be encouraged, inspired and helped in noble living. The wrong doing of children is usually caused by neglect or improper parental training, and it is not the children who should be punished but those responsible for their misdeeds.

Parents should be summoned to produce the child offender in Court and arrest by the ordinary police officer discouraged.

Too much emphasis cannot be laid upon the influence of true religion in bringing about reformation. Properly directed effort may materially assist parents to realize their obligations and may awaken in young and old a genuine desire for a life of usefulness and respectability.—J. J. Kelso.

POLICE DECIDE FASHION.

Costumes of Women in Germany Are Now Censored.

The Munich commandant has issued an order giving power to the police to effect the arrest of ladies who are very fashionably dressed, says an Amsterdam despatch. Conspicuous dress, it was stated, meant waste, which was not permissible in war time.

The first arrest occurred within two hours of the issue of the order, the lady arrested belonging to one of the best military families in Bavaria. She was taken to the police headquarters, but was released after a few hours' detention, after being warned to dress in a more simple fashion.

The Munich papers are unanimous in their protest against the order, under which the police are made the judge of ladies' fashions and of propriety in dress.

Minard's Liniment Co., Ltd.

Gents,—I have used your Minard's Liniment in my family and also in my stables for years and consider it the best medicine obtainable.

Proprietor Roxton Pond Hotel and Livery Stables.

If He Had Wings.

Algie's mother was an invalid, so his Aunt Lavinia locked after him and the house.

"Oh, dear," said Algie one day, after Auntie had lectured him for 10 minutes, "I wish I had wings."

"Why my pet?" asked mother, pleased at this angelic inspiration.

"Oh, I'd fly up in the air with Aunt Lavinia, and I'd fly and fly till I couldn't get any higher."

"Yes, dear," said mother, proudly, as the little chap paused impressively. "What would you do then?"

"I'd drop Aunt Lavinia!" said Algie, savagely.

Ask for Minard's and take no other

Nothing takes the conceit out of a flirt like encountering a masculine heart that is unbreakable.

NICKEL VS. PAPER.

Wood Pulp Is Not the Sole Paper Material.

Edison is not alarmed by the paper scare; he foresees the day when nickel will be substituted for paper in books. He estimates that a sheet of nickel one twenty-thousandth of an inch thick is cheaper, more flexible, and more durable than an ordinary sheet of notepaper.

The weight would not be great either, for a nickel book, containing forty thousand pages, would only weigh one pound, and only be two inches thick.

The Japanese are wonderful paper manufacturers, paper being put to far more uses in Japan than in Europe, and they cultivate a certain mulberry osier solely for the use of its bark in paper manufacture.

Wood pulp is not by any means the sole paper material, for at the Paris Exhibition of 1889 silky webs, or rolls, of paper were displayed, each roll being made from a different fibre. Books, too, have seen the light produced from several hundred leaves of different fibre.

The pity is, though, that these discoveries are either too costly for production or that the substances are unobtainable in Europe.

LOCAL AND DISTRICT NEWS

Electrocuted at Port Elgin

Walter Schnarr, employed with the Saugeen Electric Light Co., lost his life on Saturday night at Port Elgin, by coming in contact with a live wire while up a pole adjusting some lines. His head touched the wire and a very heavy voltage passed through his body. As he was using a strap to hold himself to the pole, he did not fall. When, after the current was shut off, he was released and brought down by a ladder, life was almost extinct, and he breathed his last a few moments later. The deceased was a Walkerton boy, and about 22 years of age.

Lightning and Wind Destroy

The electric storm of Saturday morning, followed by a cyclonic wind, caused considerable damage to property in other localities, although we escaped here. At Port Elgin a rear wall of the Arlington hotel was partially blown out by a bolt of lightning. From Brant Tp a couple of barn fires are reported. On the Durham road, near Kincardine, two barns belonging to A. Stewart were levelled, and the roof blown off one of W. Thompson's barns. Robt. Fanning had a narrow escape. Some of the scantlings from Stewart's barns were carried eighty rods, crashing through the roof of Fanning's house into his bedroom. In Kincardine the residence of Angus McDonald, Victoria street was struck by lightning. The bolt came down through the chimney into the bedroom, where Mr and Mrs McDonald were sleeping, striking the bed and setting the mattress ablaze. Neither Mr nor Mrs McDonald was injured, and the blaze was beaten out by Mrs McDonald, who wielded a pillow. The bolt passed into the adjoining bedroom, where a son was sleeping, and went on out the window. Running around the eavetrough it struck a shed causing some damage there. In Kincardine township Donald Norman's residence was struck by lightning, but only slight damage was done.

From Where the Artillery Booms and Bayonets Are Used

Pte Alex Rose wrote to his father on May 22nd.

DEAR FATHER—Just a few lines to let you know that I am well, hoping you are the same. Received your last letter all O.K. The weather is beautiful and very hot. The farmers are very busy getting in their grain. They have beautiful land to work on. Their land cannot be beaten. And the fighting is hot also, for I have been in some very heavy fighting lately, in which we have had our share of success. Old Hilary seems too busy on his gun, which does not bother us. The Germans have lately suffered heavily on this front. They are making every effort to break the lines on the Canadians, and every time they have tried it they have had to retire with heavy losses. So it makes us think he is on his last legs. Some Germans surrender to us every day, so we are giving them h— all the time. Of course, we have casualties, which can be expected. I was on the road to-night when the Gordons went up with their pipe band. Probably you have heard pipe bands, but I will say that this band can't be beat anywhere. Their tartans were flying as they marched along—did not care a rap for anything. I have heard of the Gordons being in charge, but have been close to them as they were going over the parapet, so I can judge for myself. You would think they were going through h— without stopping, and it is h—, believe me. They sure like to have the Canadians with them, and we are happy to be with them, to back them in everything. The cold steel goes far. A charge is easy for us, for it is one mad rush and we get there. One does not seem to care as the shrapnel lights all around. It is the counter attack, but we stay there rather to die than give up—a thing which the Canadians have yet to do. There was one battalion that lost a crater to the Germans, and it fell our luck to retake it. Well, it was a well planned attack and unaware to Hilary. We took it as easy as anything in about 6-8 minutes' time. When our brave captain gave the order to go we were there before we could say Jack Robinson. We still have it and are going to hold it, as we have it well fortified now. A crater is simply a hole in the ground caused by the explosion of a mine composed of about seventeen tons of gun cotton and high explosive. When that goes, over we go with the steel. Of course the bombers go first, then the bayonet men. Well, I am a bayonet man, and we do not believe in light jobs. When you get the opportunity sink the bayonet with all your strength. If it is fast jump on his body and pull it out, and if you have trouble getting it out pull your trigger and then it will come out easy, for you have your magazine full and lots on you.

Saw the 160th at Walkerton

Probably the largest crowd of people ever seen on the county town fair grounds was that which witnessed the military review of the 160th Overseas Battalion on May 24th. Every seat in the special train from the north in the forenoon was filled before Paisley station was reached, and the throng from here overlazed the standing room, so the train ran straight through to Walkerton and came back for Elsinore Grove, Cargill and Dunkeld excursionists. Then for the return at night the train made three trips in all. Everyone admires a soldier, and the people of Bruce Co were particularly anxious to see their own brave lads in all their military splendor before the Battalion leaves for a more distant training camp. And it was a most imposing sight the khaki lads were, just to look at as they marched along the street with the bands playing, and a still more imposing sight when manoeuvering for the march past on the grounds, or going through the training movements and exercises. The men stepped out together more like veterans than fresh recruits, and gave performances that showed they are rapidly assimilating the training officers' instructions. Bruce Battalion is made up of a splendid selection of men to begin with, and when fitted with a few months' training will be well qualified to take their place as a link in the great iron chain that is holding back the Huns at the front and which will eventually tighten upon the enemy and crush them to the point of submission. It was altogether a great day for the visitors from this section. Any who were not there should go to Chesley on Saturday next, where the Battalion will be in full force to be presented with the colors.

Canadian Pacific
Great Lakes Steamship Service

Canadian Pacific Steamship sails from Owen Sound 11.00 p.m. each wednesday for Sault Ste. Marie, Port Arthur, and Fort William. Connecting trains leaves Toronto 5.25 p.m. Full particulars, reservations, etc. from any Canadian Pacific Ticket agent or W. B. Howard, District Passenger Agent Toronto.

—If you want to ruin your boy just take his side on every question and dispute his case with the teacher or neighbor's child. Just let him know you are with him right or wrong, in all his disputes. This will give him a good start on the downward path.

VIOLENT ATTACKS OF DYSPEPSIA

Suffered Tortures Until She Tried "Fruit-a-tives"

ST. JEAN DE MATHA, Jan. 27th, 1914.

"After suffering for a long time with *Dyspepsia*, I have been made well by "Fruit-a-tives." I suffered so much that at last I would not dare to eat for I was afraid of dying. Five years ago, I received samples of "Fruit-a-tives" and after taking them I felt relief. Then I sent for three boxes and I kept improving until I was well. I quickly regained my lost weight—and now I eat, sleep and digest well—in a word, *I am fully recovered*, thanks to 'Fruit-a-tives.'

MRS. CHARBONNEAU.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

—A news item says, "Canada is to put heroes on the farm." Another item in comment on it asks if the heroes are not already there. At 4 a.m. the farmer feeds the pigs, then he milks the cows, feeds the horses, chops wood, fixes the fence, plows awhile, does some harrowing, weeds the truck patches and gets through in time to do "the evening chores." Does it take a hero for that? But the farmer needs no sympathy. Health is his. He doesn't have to keep up the steam-engine pace of modern business. He just works. He doesn't have to worry. As one has well said, "Life, liberty and the pursuit of happiness are his."

—"I am not prepared to say that my fellow-countrymen of French origin have no rights in Ontario, but I am prepared to say this, and I want my word to be heard throughout the length and breadth of this land: whether my fellow-countrymen have rights or no rights in Ontario, whether these rights are granted or denied, these conditions are no bar to the paramount duty which the French Canadians owe to themselves, and to their race, to come forward and take part in the great struggle that is going on to-day in the land of our ancestors, for the cause of freedom and liberty, and for the civilization of mankind."—Sir Wilfred Laurier in his speech on the bilingual question.

—A committee of the House of Commons has recommended the following scale of pensions for those totally disabled in the war:—Rank and file, $480 per year; Squad Sergeant-Major and Quartermaster Sergeant, $510; Regimental Sergeant-Major, Master Gunner and Regimental Quartermaster Sergeant, $620; Warrant Officer, $680; Lieutenant, $720; Captain, $1000; Major, $1,260; Lieutenant-Colonel, $1,560; Colonel, $1,800; Brigadier-General, $2,700. Loss of both eyes, both hands, or all fingers and thumbs, incurable tuberculosis, loss of both legs, insanity and permanent leaking valves of the heart will be considered total disablement. For less serious wounds there will be a lower scale of pensions. Further grants will be made to those totally helpless. The amount will be $250 each year for all ranks up to that of lieutenant, and with an increasing scale for higher ranks. The allowance for children of soldiers of all ranks up to that of lieutenant will be $6 per month for each child, with a varying scale up to the rank of brigadier-general, whose children will receive $10 each. Pensions for children will continue until boys are 16 years of age and girls 17, unless they are mentally or physically infirm, when the pensions will continue until they are 21, or marry before that. When a soldier has been killed his widow will be entitled to 80 per cent of his pension.

BALLACHEY, LAIDLAW & CO.

"The Store with the Stock"

Silk is the Ideal Material for a Summer Gown

We have Plain and Fancy Silks in a great variety of shades and weaves and all at old prices. Wholesale prices have all advanced, but as long as our stock lasts you get the benefit.

SUFFERED FROM BACKACHE RHEUMATISM, DROPSY.

Dear Mr. Editor—I wish to tell you of a recent experience I had when suffering from backache, weak back, rheumatism, dropsy, and congestion of the kidneys. I tried a new medicine called "Anuric," which has recently been discovered by Dr. Pierce, of whose medicines and Surgical Institution in Buffalo, N. Y., you have no doubt heard for years. This medicine acted upon me in a wonderful manner. I never have taken any medicine so helpful in such quick time. I do wish anyone in need of such a remedy would give it a trial.

(Signed) G. H. HERR.

NOTE: Folks in town and adjoining counties are delighted with the results they have obtained by using "*ANURIC*," the newest discovery of Dr. Pierce, who is head of the INVALIDS' HOTEL and SURGICAL INSTITUTE, in Buffalo, N. Y. Those who started the day with a backache, stiff legs, arms and muscles, and an aching head (worn out before the day began because they were in and out half a dozen times at night) are appreciating the perfect rest, comfort and new strength they obtained from Dr. Pierce's Anuric Tablets. To prove that this is a certain uric acid solvent and conquers headache, kidney and bladder diseases and rheumatism, if you've never used the "Anuric" cut this out and send ten cents to Doctor Pierce for a large sample package. This will prove to you that "Anuric" is thirty-seven times more active than lithia in eliminating uric acid—and the most perfect kidney and bladder corrector. If you are a sufferer, go to your best druggist and ask for a 50-cent box of "Anuric." You run no risk for Dr. Pierce's good name stands behind this wonderful new discovery. It has for the past half century for his "Golden Medical Discovery" which makes the blood pure, his "Favorite Prescription" for weak women and "Pleasant Pellets" for liver ills.

He who has lost his sight best knows its value.

Hundreds suffer loss of sight.

Timely attention might have prevented it.

Examination free.

Satisfaction guaranteed.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

RUPTURE

SPECIALIST HERE

J. Y. Egan, the Canadian rupture appliance specialist, will visit towns mentioned below. Mr. Egan's latest inventions, the "Curatus" and the "Curative" forms, retain rupture perfectly and are intended to aid nature to close the opening in the slightest time known without an operation. These new appliances (entirely different from anything else in the world) have received the highest awards wherever exhibited. Testimonials from men, women and parents. Results are accomplished without inconvenience or loss of time. Why continue to experiment with so-called mail order cures when you can obtain better service right here at small cost? Never mind "past failures"—as there is a reason for such. There are many wrong ways—but only one right way. It costs you nothing to be examined. Delay may be dangerous. Now is the time to make yourself physically fit for your season's work. Tear out coupon now.

THIS FREE RUPTURE COUPON

Upon presentation to J. Y. Egan, specialist, 414 A Yonge street, Toronto, who will visit the towns below and there be for consultation, demonstration and examination of samples. Age at last birthday. Address in full. Name. Post office. Nature of rupture. Is it single or double? Have you ever worn a truss? If so, what kind? Are you married or single? Do you work indoors or outdoors? Name this paper. Date.

W. H. DAVISON

Arthur Stringer

Most versatile of Canadian authors, has just finished, in "The Anatomy of Love," a novel of Canadian life which combines rare drollery and whimsical humor with wholesome and satisfying romance. Mr. Stringer's brilliancy has never been more strikingly displayed then in this story, the first instalment of which appears in the June MACLEAN'S. To have secured the first rights to so important a novel is a notable achievement.

Agnes C. Laut

contributes another of her prophetic war articles—"Give America the whole truth." This is an examination of Germany's intrigues in the United States—a remarkable expose of Germany's aims and plottings in the Western hemisphere, written with an astounding knowledge of "inside" facts.

Robt. W. Service

provides two poems written at the front—"The Odyssey of Robert 'Iggins" and "The Convalescent."

Arthur E. McFarlane

contributes a mystifying detective story, "Behind the Bolted Door"—the best detective story since Sherlock Holmes.

Alan Sullivan

supplies a timely sketch—"The Romance of Cobalt"—a sketch of the camp, past, present and future.

MACLEAN'S

MAGAZINE is getting the best Canadian writers to put their best work into articles and stories of particular Canadian interest. This is a deliberate policy on the part of MACLEAN'S publishers. Other Canadian writers of note whose work appears in MacLean's are:

Stephen Leacock — H. P. Gadsby
L. M. Montgomery — Ernest Cruikshank
Nellie McClung — Robert E. Pinkerton

Not the least appreciated feature of MACLEAN'S is its popular Review of Reviews Department which condenses for busy readers the cream of the world's best periodical literature.

MACLEAN'S MAGAZINE maintains a clean and wholesome tone. Its advertising pages are censored to exclude all objectionable advertising. MACLEAN'S can be taken into your home without any hesitancy, to be read by any member of your family.

MacLean's is $1.50 a year. Remittance for yearly subscriptions need not accompany order.

Attention is directed to the remarkable low round trip fares in connection with homeseekers' excursions to Western Canadian via Canadian Pacific Railway. Tickets on sale each Tuesday until October 31st inclusive, and are good to return within two months from date of sale. Apply to any C.P.R. agent for full particulars. W.B. Howard, District Passenger Agent, Toronto.

WIFE TOO ILL TO WORK

IN BED MOST OF TIME

Her Health Restored by Lydia E. Pinkham's Vegetable Compound.

Indianapolis, Indiana. — "My health was so poor and my constitution so run down that I could not work. I was thin, pale and weak, weighed but 100 pounds and was in bed most of the time. I began taking Lydia E. Pinkham's Vegetable Compound and five months later I weighed 133 pounds. I do all the housework and washing for seven and I can truthfully say Lydia E. Pinkham's Vegetable Compound has been a godsend to me for I would have been in my grave today but for it. I would tell all woman suffering as I was to try your valuable remedy."—Mrs. Wm. Green, 532 S. Addison Street, Indianapolis, Indiana.

There is hardly a neighborhood in this country, wherein some woman has not found health by using this good old-fashioned root and herb remedy.

If there is anything about which you would like special advice, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass.

TWO thoroughbred Shorthorn bulls, aged 11 and 13 months, dark red color. Apply to JOHN D. McARTHUR, lot 32, con 1, Seaforth, Port Elgin P.O., R.R. No. 3.

WHEN IS A MAN DRUNK?

Under the above heading the American Magazine for April contains an article that is lengthy, which has been condensed to the following:

Scientific experts say that one little drink will set you back seven per cent in physical endurance and fifteen per cent in your ability to remember things.

This is no temperance lecture. It is the findings of cold scientific accuracy, and shows the moderate drinker that he does not need to make a fool of himself to get drunk. One glass of beer will make him drunk in the sense that he will be that much less of a man than he was before in body and brain. We all want life and want it more abundantly, but science shows us that alcohol in any form and even in small quantities lessens our life, our vitality and our efficiency.

One of the first things the scientists found out when they commenced to measure drunkenness was that every man who drank alcoholic liquors was drunk, to degree, for two or three days afterwards. Now it may be too much to ask the moderate drinker to believe that. He thinks he has increased his vitality, instead of lessening it, but there is no getting around the ergograph or the hundreds of memory tests. The ergograph is a little instrument that tests muscular strength and endurance, first without alcohol for several days, and then with a glass of wine after meals for several days. These experiments were duplicated hundreds of times.

It would require too much space to describe the other tests and the machines used to secure accuracy. The results prove that a man cannot write as fast or as accurately after one drink, and the strange part of it is that he thinks he is writing more rapidly. That has fooled many a man.

The memory tests were interesting and instructive. These were carried on for two weeks without alcohol, and then for two weeks with alcohol, and the results showed, first, that memory power was weakened fifteen per cent; second, that when alcohol was taken before breakfast it requires four times as long to memorize a given task.

Dr. Ridge, an English physiologist, carried out a series of experiments on medical students, nurses and porters, to ascertain the effect of liquor on the eyesight, with the startling result that the average man who had taken the equivalent of a pint of beer had to approach twenty feet nearer to read letters that he had read at thirty feet the day before, and that the effect lasted from four to five hours after drinking.

When we consider how much depends in this awful war upon the vigor of body and clearness of brain of our soldiers, and when we think that they are not only permitted, but are actually tempted to drink, that a few men may make money, it shows us that a large number of people are still ignorant of the true nature of this terrible poison.

The Results of Evil Teaching

Students of the political history of the nations tell us that the causes leading up to the world present war, and with it the world crisis, had their inception at the conclusion of the Franco-Prussian war of 1870. From that time onward Prussianism Gradually gained away in Germany. Previous to that time Germany produced many great men in arts of peace. Since then all her so-called great men have been great only in so far as they manifested military genius of the iron brand. We are told that the change has been wrought by teaching. The German child is taught from his earliest recollections that Germany is one of the chosen nations, and that all other nations must fall before her. So has the child been taught since the Prussian element with the House of Hohenzollern gained away. The German boy and girl have instilled in their minds from the very beginning that all the world is gradually coming under German rule, and that which does not submit gracefully must be crushed by the cruelest Bismarckian methods. Nothing is too bad for any nation or people who would stand in the way of German or rather Prussian progess. The end justifies the means. People who cannot see eye to eye with Prussianism must be taught a lesson or wiped out entirely. To accomplish this Germany has for over 40 years dreamed, taught and worked militarism. The strong arm of Germany had to be made stronger in order to insure power to crush. As Owen Wister puts it, Germany put the uniform on her mind. So have her children been reared and educated in an atmosphere of the chronic nightmare of miliarism and rule by the iron hand. According to Prussianism it is good for other people to suffer. Is there any wonder the German people of today, after nearly half a century of rule and teaching by Prussian war lords, believe they are right, and the thing of conquering the world must be done? But suppose Germany had during the past 40 years, prepared for peace. Suppose the teaching had been different—boys and girls had been taught that only by the untiring pursuit of peaceful occupations, the advancement of agriculture, industry, science, art, music, etc., could Germans become permanently great, what a difference there would have been—a great Germany in place of the present home of Prussianized barbarism which is nearing its end through a sea of the blood of the innocent as well as of the combatant. The lesson for nations, peoples and individuals is to be careful of the teaching the young minds are developed by. As a child is taught so he grows up. Teach war and you will have war: teach peace and war will be no more.—Farmers' Advocate.

The Revolt of the Sinn Fein

The pathos of the Irish revolt that rose and failed within a week lies in the fact that it was the work of generous and unselfish young men who were carried by a passionate love for the land and the language of their fathers, but who had not the wisdom to understand what was possible, or to put into practical form the visions that moved them.

In part at least, the Sinn Fein (pronounced Shin Fane) is an outgrowth of the recent Gaelic revival in poetry and the drama. The leaders of it are not from the men of affairs, the merchants or farmers of Ireland. Those men know that the country is more prosperous to-day than it has been for a hundred years, and they see in the increasing willingness of England to treat Ireland fairly and justly a promise of greater prosperity than the island could attain by itself. The leaders of the Sinn Fein are not even politicians of Ireland, for those men are clever enough to see that home rule is attainable, and that independence is not attainable at any price that Ireland could pay.

The men who led the uprising in Dublin were poets and dreamers. The "president of the republic" was the principal of a college near Dublin and a writer of Gaelic verse. One of the chief prophets of the movements for Irish iupendence, although he seems not to have been implicated in the actual revolt, is the professor of early Irish history at University College. Among the staff that surrounded President Pearce were a number of men who had taken part actively or appreciatively in the revival of Gaelic literature. The rebellion was inspired and fought by men in whom the dreamy, impratical side of the Celtic character was predominant.

Their failure was a certainty from the first. Their political programme was sentimental and their military preparation inadequate. They had no really widespread support among the people, and they made it difficult to get any by offending and alienating the Catholic clergy in a land where the influence of the Church of Rome is strong. It is not by such means that the union of Great Britain and Ireland can be seriously threatened.—Youth's Companion.

"An Invitation"

Is extended to all Ladies and Gentlemen to see

"Dorenwend display of Hair Goods"

at Balmoral Hotel, Paisley

Wednesday, June 14

for one day only

when the finest and newest hair goods creations in every style from a pin-curl to a complete head-dress will be exhibited.

Transformations, Pompadours, Switches, Waves, Etc.

Every Bald Man

should see THE DORENWEND TOUPEE. It is a benefit to the appearance and a protection to the health.

THE Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XVI.—(Cont'd.)

Late in the afternoon on the day of his arrival in London, Steele went for a walk, hoping that before he returned some clew would occur to him, upon which he could concentrate his efforts. His steps wandered aimlessly along Pall Mall, and, after the usage of former habit, carried him to a club, where past experience told him he would meet old friends. But, at the club door, he halted, realizing that he did not want to meet men. He could think better alone. So, with his foot on the stone stairs, he wheeled abruptly, and went on to Trafalgar Square, where once more he halted, under the lions of the Nelson Column, and racked his brain for any thought or hint that might be followed to a definite end.

He stood with the perplexed air of a man without definite objective. The square was well-nigh empty except for a few loiterers about the basins, and the view was clear to the elevation on the side where, at the cab-stand, waited a row of motor "taxis" and hansoms. The afternoon was bleak, and the solemn monotone of London was graver and more forbidding than usual.

Suddenly, his heart pounded with a violence that made his chest feel like a drum. With a sudden start, he called loudly, "Saxon! Hold on, Saxon!" then went at a run toward the cab-stand.

He had caught a fleeting and astounding vision. A man, with the poise and face that he sought, had just stepped into one of the waiting vehicles, and given an order to the driver. Even in his haste, Steele was too late to do anything more than take a second cab, and shout to the man on the box to follow the vehicle that had just left the curb. As his "taxi" turned into the Strand, and slurred through the mud past the Cecil and the Savoy, he kept his eyes strained on the cab ahead, threading its way through the congested traffic, disappearing, dodging, reappearing, and taxing his gaze to the utmost. For a moment after they had both crowded into Fleet Street, he lost it, and, as he leaned forward, searching the jumble of traffic, his own vehicle came to a halt just opposite the Law Courts. He looked hastily out, to see the familiar shoulders of the man he followed disappearing beyond a street-door, under the swinging "Sign of the Cock."

Tossing a half-crown to the cab-man, he followed up the stairs, and entered the room, where the tables were almost deserted. A group of men was sitting in one of the stalls, deep in converse, and though two more hidden by the dividing partitions, Steele saw the one figure he sought at the head of the table. The figure bent forward in conversation, and, while his voice was low and his words inaudible, the Kentuckian saw that the eyes were glittering with a hard, almost malevolent keenness. As he came hastily forward, he caught the voice: it was Saxon's voice, yet infinitely harder. The two companions were strangers of foreign aspect and they were listening attentively, though one face wore a sullen scowl.

Steele came over, and dropped his hand on the shoulder of the man he had pursued.

"Bob!" he exclaimed, then halted.

The three faces looked up simultaneously, and in all was displeasure for the abrupt interruption of a conversation evidently intended for no outside ears. Each expression was blank and devoid of recognition, and, as the tall man rose to his feet, his face was blanker than the others.

Then, with the greater leisure for scrutiny, Steele realized his mistake. For a time, he stood dumfounded at the marvelous resemblance. He knew without asking that this man was the double who had brought such a tangle into his friend's life. He bowed coldly.

"I apologize," he explained, shortly. "I mistook this gentleman for someone else."

The three men inclined their heads stiffly, and the Kentuckian, dejected by his sudden reverse from apparent success to failure, turned on his heel, and left the place. It had not, of course, occurred to him to connect the appearance of his snarler of Saxon's affairs with the name on the Paris hotel-list, and he was left more baffled than if he had known only the truth, in that he had been thrown upon a false trail.

The Kentuckian joined Mrs. Horton and her niece in Genoa on their arrival. As he met the hunger in the girl's questioning eyes, his heart sickened at the meagerness of his news. He could only say that Paris had divulged nothing, and that a trip to London had been equally fruitless of result. He did not mention the fact that Saxon had registered at the hotel. That detail he wished to spare her.

She listened to his report, and at its end said only, "Thank you," but he knew that something must be done. A woman who could let herself be storm-tossed by grief might ride safely out of such an affair when the tempest had beaten itself out, but she, who merely smiled more sadly, would not have even the relief that comes of surrender to tears.

At Milan, there was a wait of several hours. Steele insisted on the girl's going with him for a drive. At a picture-exhibition, they stopped.

"Somehow," said Steele, "I feel that where there are paintings there may be clews. Shall we go in?"

The girl listlessly assented, and they entered a gallery, which they found already well filled. Steele was the artist, and, once in the presence of great pictures, he must gnaw his way along a gallery wall as a rat gnaws its way through cheese, devouring as he went, seeing only that which was directly before him. The girl's eyes ranged more restlessly.

Suddenly, Steele felt her clutch his arm.

"George!" she breathed in a tense whisper. "George!"

He followed her impulsively pointed finger and further along, as the crowd of spectators opened, he saw, smiling from a frame on the wall, the eyes and lips of the girl herself. Under the well-arranged lights, the figure stood out as though it would leave its fixed place on the canvas and mingle with the human beings below, hardly more lifelike than itself.

"The portrait!" exclaimed Steele breathlessly. "Come, Duska; that may develop something."

As they anxiously approached, they saw above the portrait another familiar canvas: a landscape presenting a stretch of valley and checkered flat, with hills beyond, and a sky tuneful with the spirit of a Kentucky June.

Then, as they came near enough to read the labels, Steele drew back, startled, and his brows darkened with anger.

"My God!" he breathed.

The girl standing at his elbow read on a brass tablet under each frame, "Frederick Marston, pxnt."

"What does it mean?" she indignantly demanded, looking at the man whose face had become rigid and unreadable.

"It means they have stolen his pictures!" he replied, shortly. "It means infamous thievery at least, and I'm afraid—" In his anger and surprise, he had almost forgotten to whom he was speaking. Now, with realization, he bit off his utterance.

She was standing very straight.

"You needn't be afraid to tell me," she said quietly; "I want to know."

"I'm afraid," said Steele, "it means foul play. Of course," he added in a moment, "Marston himself is not a party to the fraud. It's conceivable that his agent, this man St. John, has done this in Marston's absence. I must go to Paris and see."

CHAPTER XVII.

In the compartment of the railway carriage, Steele was gazing fixedly at the lace "tidy" on the cushioned back of the opposite seat. His brows were closely knit in thought. He was evolving a plan.

Duska sat with her elbow on the sill of the compartment window, her chin on her gloved hand, her eyes gazing out, vague and unseeing. Yet, the loved beauty, and just outside the panes there was beauty drawn to a scale of grandeur.

They were climbing, behind the double-header of engines, up where it seemed that one could reach out and touch the close-hanging clouds, into tunnels and out of tunnels, through St. Gothard's Pass and on where the Swiss Alps reached up into the fog that veiled the summits. The mountain torrents came roaring down, to beat their green water into swirling foam, and dash over the lower rocks like frenzied mill-races. Her eyes did not wake to a sparkle at sight of quaint chalets which seemed to stagger under huge roof slabs of rugged slate. She did not even notice how they perched high on seemingly unattainable crags like stranded arks on Helvetian Ararats.

Each tunnel was the darkness between changed tableaux, and the mouth of each offered a new and more wonderful picture. The car-windows framed glimpses of Lake Como, Lake Luggano, and valleys far beneath where villages were only a jumble of toy blocks; yet, all these things did not change the utter weariness of Duska's eyes whose enthusiasm usually dwelt, or tempt Steele's fixity of gaze from the lace "tidy."

At Lucerne, his thinking found expression in a lengthy telegram to Paris. The Milan exhibit had opened up a new channel for speculation. If Saxon's pictures were being pirated and sold as Marston's, there was no one upon whom suspicious would fall more naturally than the unscrupulous St. John, Marston's factor in Paris. Steele vaguely remembered the Englishman with his petty pride for his stewardship, though his own art life had lain in circles that rarely intercepted that of the Marston cult even at its outer rim. If this fraud were being practiced, its author was probably swindling both artists, and the appearance of either of them in Paris might drive St. John to desperate means of self-protection.

The conversion of the rooms formerly occupied by Marston into a school had been St. John's doing. This atelier was in the house where St. John himself lived, and the Kentuckian knew that, unless he had moved his lodgings, he could still be found there, as could every minor "academy" of Marston-idolizers, with their none-too-exalted instructor, Jean Hautecoeur.

At all events, it was to this address that Steele directed his message. It purport was to inform St. John that Americans, who had only a short stay in Paris, were anxious to procure a Marston of late date, and to summon him to the Hotel Palais d'Orsay for the day of their arrival there.

When they reached the hotel, he told the girl of his plan, suggesting that it might be best for him to have this interview with the agent alone, but admitting that, iff she insisted on being present, it was her right. She elected to hear the conversation, and, when St. John arrived, he was conducted to the sitting-room of Mrs. Horton's suite.

Pleased with the prospect of remunerative sales, Marston's agent made his entrance jauntily. The shabbiness of the old days had been put by. He was now sprucely clothed, and in his lapel he wore a bunch of violets.

His thin, dissipated face was adorned with a rakishly trimmed mustache and Vandyke off gray which still held a fading trace of its erstwhile sandy red. His eyes were pale and restless as he stood bowing at the door. The afternoon was waning, and the lights had not yet been turned on.

"Mr. Steele?" he inquired.

Steele nodded.

St. John looked expectantly toward the girl in the shadow, as though awaiting an introduction, which was not forthcoming. As he looked, he seemed to grow suddenly nervous and ill-at-ease.

APIARY DEMONSTRATIONS.

Arrangements Being Made to Hold Them in Many Places.

We have raised an enormous army of fighting men. Many of them have dropped their tools in the shops, left their machines, locked up their desks or have left the ranks of the feeders to await those of the fighters. We cannot all go to the firing line of fight, but we can do our utmost to feed those who have, and their dependencies where they have left to our care.

Honey is a staple that is sometimes classed as a luxury. It has a real food value and at this time when sugar is so expensive it should be more extensively used than ever before. The production must be maintained.

To help you "keep better bees and to keep bees better," the Ontario Department of Agriculture is arranging to hold Apiary Demonstrations in all parts of the Province. The practical nature of the program is very inviting to all interested in beekeeping and in almost any district a good attendance is assured, provided the weather is suitable. A specially trained practical beekeeper is sent to take charge of the meeting and handle the bees, and he is generally assisted by local beekeepers. Several hives are opened and the actual working of the bees explained. Often a queenless colony or one preparing to swarm serves as an excellent object lesson. No Matter how many or how few colonies you keep, you are sure to learn something at one of these meetings.

Already arrangements are well under way for over fifty of these meetings. The Department of Agriculture attends to all the advertising and supplies he speakers, so that the beekeepers do not incur any expense whatever.

Interested beekeepers desirous of having demonstrations in their apiaries should communicate immediately with Mr. Morley Pettit, Department of Apiculture, Ontario Agricultural College, Guelph, so that arrangements can be made for the meetings.

MAY WEAR WOODEN SOLES.

German Children Said to be Short of Boots.

In Berlin the school authorities have asked teachers to recommend the wearing of "Pantinen" to the poorer of their children. Pantipen are wooden soles without heels, fastened over the feet by leather straps. This step has been taken in consequence of the great rise in the price of leather which makes it impossible for the very poor to provide boots for their children. As soon as the weather is warmer poorer children will be permitted to attend school barefooted. The teachers are asked, however, to see the children use ordinary precautions not to injure their feet.

In Vienna the district authorities have issued orders against little boys wearing military uniforms. Any parents permitting their children to wear uniforms after the publication of the order are to be heavily fined. The "Arbeiter Zeitung," commenting on this regulation, while admitting the silliness of dressing up children in uniform, opposed the drastic character of an order which removes clothes from use at a time when most people find the greatest difficulty in buying the very barest necessities of life. If sumptuary regulations regarding dress are to be applied a beginning should be made not, with these silly little cheap uniforms, but with the extravagant raiment of the well-to-do.

A Great Loss.

"So your car was stolen?"

"Yes."

"I wouldn't worry; perhaps it will be recovered."

"I'm not worrying about the car; that was insured. But I had six gallons of gasoline in the tank and I can't afford to stand that loss."

Deaths From Cancer.

On the basis of the last statistics, there are 78,000 deaths due to cancer annually in the United States. The mortality rate has steadily increased from 63 per 100,000 population in 1900 to 78.9 in 1913.

A stuttering man may be thoughtful even when he does break his word.

ON THE FARM

Soiling Crops Best Pasture.

Every year farmers who produce milk lose a great deal of money by reason of having an insufficient amount of fodder, or by being obliged to devote too great an area as pasture during July and August, in order to get satisfactory results. For an ordinary milk herd to be profitable each cow must be able to produce during these two months as much as in the preceding months and in the following months.

The way in which cows are fed in July and August has a very great influence on the quantity of the milk that they will produce in September, October and November. There will be a rapid decrease in the production of milk from cows which have not had enough to eat during these two months. When the yield of milk has decreased for a few weeks it is impossible to bring it, during that season, back to what it would have been. Consequently, although there is generally plenty of good pasturage during the months of September, October and November, a time when the price of cheese and butter is very high, it is of the greatest importance to feed well during the months of July and August that all possibit profit may be secured from the high prices and the abundance of fodder.

The most economical, the safest and easiest way to secure abundant fodder during the months of July and August is to cultivate fodder plants to be cut down green, or to be fed on the field. The most useful plants for this purpose seem to be: vetch, peas, oats, clover, alfalfa and corn.

For Twenty Cows.

We recommend to milk-producers to prepare as follows:

(1) Red clover, 3 acres.—Must have been sown the year previous with the mixture of peas, vetches, oats and clover, given below. Cut clover June 20th to July 15th.

(2) Peas, vetches, oats and clover, 1½ acres.—About vetches, 3 bushels oats and 10 lbs. red clover seed. Cut or feed on field, July 15th to 31st.

(3) Peas, vetches, oats and clover, 1½ acres.—About the third week of May sow the same mixture as above. Cut or feed on field, August 1st to 15th.

(4) Corn, 1½ acres.—The third week of May, or as soon as possible, sow on a well-drained field, clover manured at the rate of 10 tons per acre; and in hills 3 feet apart in each direction, 10 lbs. of Longfellow corn (or any other small variety). Cut August 15th to 31st.

(5) Corn, 1½ acres.—Sow in the same way as above, 12 lbs. of Leaming corn (or any other variety of medium height). Cut in September.—Canadian Farm.

Making Pork Rapidly.

No hard and fast rule can be laid down regarding the breed of hogs or kinds of feed that will give the most satisfactory returns. A good deal rests with the care and attention given by the feeder. Some feeders claim to make large profits from feeding hogs while their next neighbor with the same breed of hogs, similar style of pen, and same variety of feeds barely meets expenses. Armstrong Bros., successful York county farmers, feed their hogs a little differently from most feeders but they secure very remunerative returns. Three Yorkshire sows of splendid type are kept and bred to a Tamworth boar. They have left large litters that do well both summer and winter. One sow raised three litters, of ten pigs each, since February 1, 1915, and is due to farrow again in May. The pigs are housed in a frame building which is ventilated by leaving two of the four windows out all winter.

In case of a storm, a bran sack is hung over each opening and the pigs never appear to suffer from cold. The pen has a concrete floor which is kept well bedded.

When the pigs are two weeks old, they have access to sweet skim-milk regular ration. The custom is to wean the pigs when four weeks old and feed them principally on skim-milk for a few weeks. While the majority of feeders consider middlings and finely ground oats almost indispensable for starting young pigs, such feeds are not used for hog-feeding on the farm in question. Wheat and barley chop in equal proportion comprise the grain ration until the hogs are about four-months old. then the grain ration is composed of two-thirds wheat to one-third barley. Mangels are fed the growing pigs and dirt from the root house is thrown in the pen. On the feeds mentioned, one pen of nine would average about 150 pounds at four months old. Another litter of nine, farrowed November 6, averaged close to 190 pounds by April 6. Six of this litter weighed over 200 pounds, but three were smaller. Last summer these same feeders had two sows farrow June 8, and seventeen hogs were shipped Nov. 29, which averaged 200 pounds. These results with both summer and winter litters show that the method of feeding is giving satisfactory returns. The supply of skim-milk no doubt is a large factor in keeping the pigs doing well.

Without a liberal supply of skim-milk, the pigs could not be weaned so young, and wheat and barley would probably be too strong a feed for young pigs. On this farm skim-milk is valued highly. Another feeder might not have any success in feeding the ration outlined. The majority of hog raisers prefer to allow the pigs to remain with the sow until they are at least six weeks old. and then start them on skim-milk, middlings, and finely ground oats, using the heavier feeds for finishing.—Farmer's Advocate.

BRIDE FOR PRINCE OF WALES.

She Will Probably Be of Russian Imperial Family.

The matrimonial prospects of the Prince of Wales are again much discussed in society. Despite the interest in the subject, however, it is certain that there will be no announcement of his engagement until the end of the war. The Prince is now serving in the British army in Egypt.

Although the bride of the heir to the throne has not been selected, it is practically certain that she will be a Russian princess. The war has completely disrupted the privately settled arrangement of an alliance with a princess of the ruling house of Roumania.

The final choice of a bride for the Prince, if is believed in social circles in London, is between the niece of the Czar, who has been with Queen Alexandra so much that in opinions and tastes she is virtually an English girl, and her cousin, the Czar's second daughter, the Grand Duchess Tatiana.

The Grand Duchess has been the guest of King George and Queen Mary on several occasions, and speaks English perfectly. She is perhaps stronger in character than her cousin. She is also a skilled horsewoman and is an exceedingly graceful dancer.

Teachers in Khaki.

Eleven thousand four hundred British men teachers are serving with the forces and about 9,000 have attested under the Derby scheme. In addition there are 147 serving with the naval forces and 230 women nursing as nurses. Teachers have already gained five Victoria Crosses, while 232 have been killed, 118 wounded and nine missing.

The Secret of *Flaky* Pie Crust

It's in our Recipe Book—with a lot of other recipes for making good Pies.

But—we're going to tell you right here—you'll get flaky crust like and flaky—and how to have the under crust just right, even when using fresh fruit.

Just use part

BENSON'S CORN STARCH

instead of all wheat flour. Try it, and prove it.

Get a package of BENSON'S at your grocer's, and write to our Montreal Office for copy of our new recipe book, "Desserts and Candies" that tells how.

TRAINING DISTEMPER

SPOHN'S DISTEMPER COMPOUND

Ever heard of this? Yes of course you did, but under a different name. To have seen it in cases where the horse was "over-trained," worked a little too fast and regular. The nervous system gets the shock after the voluntary muscular system has been taxed too heavily. The trouble starts in the mucous surfaces, and the digestive apparatus, too, must then be impaired. It begins to cough when distemper is materially affected.

"SPOHN'S"

is your true salvation. It restores the appetite and normal functions of the whole system. The action in such cases is remarkably rapid and sure for recovery when you use this remedy according to instructions with each bottle. By the bottle, or case. Sold by all good druggists, horse goods houses, or express prepaid by SPOHN MEDICAL CO., Chemists and Bacteriologists, Goshen.

The Housewife's Corner

Selected Recipts.

Nutmeg Tea Rolls.—Cream together half cup of butter and one cup sugar, add half nutmeg grated and beat until very light. Mix and sift together four cups flour, three teaspoons baking powder and one teaspoon salt. Put in one tablespoon butter and moisten with enough milk to make soft dough. Roll out rather thin, spread with creamed mixture, roll up like jelly cake, cut off about one inch thick and bake in quick oven.

Baked Carrots.—Scrape three or four good-sized carrots and cut into dice. Simmer gently in salted water until very tender. Drain off water, mash, fine, season with salt, pepper and a little butter. Turn into deep pudding dish, cover with fine cracker or bread crumbs, sprinkle with salt and a dash of pepper and dot with butter. Put into reasonably hot oven and bake until crumbs are a delicate brown.

Chicken Pie.—Dress and cut up the fowl as for frying; steam or boil until it is quite tender. When it is about half-done, season with salt; lay the piece in a baking dish, enough water to the stock to make about a pint of liquid. Thicken smooth with cold water and pour over the chicken. Make a good biscuit dough, roll out half inch in thickness, and cover the chicken with it. Brown in a moderate oven.

Strawberry Shortcake.—One experienced woman says that the best way to make the biscuit crust is not by splitting the thick crust, as most housekeepers do, but by making two separate layers like an ordinary chocolate cake. Spread the upper part of the lower layer well with butter and place the other layer on top of this. When they are baked you will find that they separate easily. It is much better than running the risk of ruining the cake by splitting the hot crust.

Rhubarb Salad.—Soak three tablespoons powdered gelatin in one-half teacup cold water until soft. Add one pint boiling water and stir until dissolved. Add one-half teacup sugar and four tablespoons lemon juice. Pour to depth of one inch into rather shallow, square pan and set in cool place or on ice until mixture begins to congeal. Have ready one pint chopped rhubarb, steamed until tender and slightly sweetened, and one teacup blanched almonds. Stir them into gelatine. When ready to serve cut in three-inch squares on shredded lettuce, with boiled dressing.

Washington Pie.—Two cups flour (after sifting), one cup sugar, one teaspoon soda, two teaspoons cream of tartar salt. Sift all well together. Break one egg into measuring cup fill cup with milk and stir well into dry ingredients. Add three tablespoons melted butter, and bake twenty minutes. Coffee filling.—Heat two cups cold coffee left from breakfast. Add twothirds cup sugar, two teaspoons butter, and two teaspoons each of cocoa and cornstarch, mixed with cold coffee. When it has thickened, and cooled, flavor with vanilla if desired, particularly if coffee was mild. It would be hard to find recips in which one egg goes farther.

Strawberry Dessert.—A tapioca pudding with a garniture of strawberries is easily made. First f all, the berries must be cleaned and drained well. Now prepare the tapioca with a quart of scalded milk, using about a half cupful to the tapioca. Cook for a quarter of an hour in a double boiler. Beat together the yolks of 2 eggs, a half cupful of sugar and a pinch of salt. Stir this into the milk. Cool the mixture, and put into individual glasses. Now, in order to utilize your egg whites, beat them to a stiff froth with some powdered sugar, add to this a cupful of fresh strawberries, slightly mashed. Serve as a dressing for the pudding. This dessert should be chilled before putting on the table.

Lima Bean Cutlets.—One-half pound of dried lima beans, one-half cup dry bread crumbs, one-half teaspoon salt, one-eighth teaspoon pepper, one-fourth teaspoon baking soda, one egg, milk to moisten (about one-third cup), two tablespoons minced parsley and additional bread crumbs. Soak beans over night, drain, add baking soda with water to cover and boil until soft. Drain and mash beans. Add crumbs, seasoning, parsley and one-half of beaten egg. Moisten with milk if necessary. Form into cutlets or croquettes, let stand a while in a cold place, roll in bread crumbs, then in egg diluted with two tablespoons cold water and in crumbs again. Fry in deep fat or saute. Watter drained from beans may be added to vegetable stockpot, if soda is not used.

Veal, French Style.—Two pounds veal shank, well washed; two small onions chopped fine, tablespoon butter or drippings, rounded teaspoon salt, saltspoon pepper, two tablespoons vinegar, one bay leaf, corn starch for thickening and boiling water. Put butter or drippings in hot frying pan and when melted and heated add veal, cut in small pieces. Cover and let brown and cook slowly until golden brown on both sides, turning once. Add onions, chopped fine, salt and pepper, and stoir until onions are golden brown, then cover contents of pan with boiling water; add vinegar and bay leaf, cover and let summer on back of stove or over simmering burner for one hour, or until veal can easily be pierced with fork. Do not let liquid boil more than half away. Add more water if it does. Serve with dumplings or potato balls and sprinkling of chopped parsley.

Household Hints.

Cornmeal is excellent for waffles and griddle cakes.

Veal less than six weeks old should never be eaten.

Young turkeys have smooth black legs and short spurs.

If the floor is of hardwood have it finished so that it may be easily kept clean.

Save time in washing spoons by keeping old teaspoons in the soda and baking powder cans.

A faded dress can be made perfectly white by washing it well in boiling cream of tartar water.

When the clothesline needs cleaning wrap it around the washboard and scrub it with a brush in soapsuds.

A square of wire netting bound and mounted on four little feet is a good thing for the cooling of cakes, etc.

White silk or satin slightly soiled may be cleaned by dusting with powdered magnesia and then brushing out.

It saves having the windows washed so frequently if the inside panes are occasionally wiped over with a dry cloth.

If a garment is spotted by the rain it may often be freshened by laying a damp cloth over the article and steaming it.

A rich soup, with whole wheat bread and butter, a vegetable or salad, makes an excellent foundation for a dinner.

To prevent the iron from sticking to the clothes while ironing put a teaspoonful of kerosene into the hot starch and let it boil up.

To remove mud from clothes scrape with the edge of a penny. This will not destroy the nap of the cloth as will a sharp knife.

To clean coffee or tea pots boil a little borax solution in them twice a week for 15 minutes, and it will purify and sweeten them.

If you wet a spoon before using it to serve jelly you will find the jelly will not stick to it, and the serving is more easily accomplished.

Stains in table linen are easily removed by plunging the articles in pure boiling water. The addition of soap or soda would have the effect of fixing the stain.

Muslin and cotton goods can be rendered waterproof by putting an ounce of alum in the last rinsing water, or by putting, the alum in the starch.

Water From a Tree.

At Mount Lowe, Cal., the thirsty visitor has only to turn on a faucet projecting from a large tree near the hotel and water begins to flow. No water pipes are to be seen, and curiosity is aroused at once. The lower part of the tree is hollow, and the pipes are run underground and up through the hollow part to a knot-hole where a faucet is attached. Around the faucet the hole is plugged up with cement which looks like the tree itself.

Somebody is always doing something that the wise swear will never be done.

Railway Girl As Orator

It is not often that the Canadian Club of Montreal asks a woman to address it, but the fame of Miss Kathleen Burke, the special delegate to America of the Scottish Women's Hospitals for Foreign Service, had preceded her and when her address was actually delivered no one regretted the invitation. A great grandniece of Edmund Burke, whose "dagger speech" was perhaps the most theatrical incident in the history of the British House of Commons, this lady has a wonderful gift of oratory and her descriptions, humorous and pathetic, of the hospital conditions in Servia during the typhus epidemic and of the magnificent heroism of the British nurses in the Balkans and in France during the war, moved her hearers to their very heart. What Miss Burke, however, is most proud to be is that she is a railway girl. She is the daughter of the late Thomas Francis Burke, Continental Manager of the London & North Western Railway, and until she became a nurse lived, talked and thought of railways. In her present mission she has achieved extraordinary success, raising in a few weeks over $250,000 by her oratory. After addressing some recruiting meetings in Montreal, she plans to tour the United States, but later in the year hopes to visit the Canadian West where she will probably address the leading Canadian Clubs on the subject which she has so much at heart. The hospitals to which Miss Burke has herself been attached as a nurse were originally started by a group of Scottish political women, but now include nurses and women doctors from all over the Empire. Their work has been enthusiastically endorsed by both the French and British Governments.

THE SUNDAY SCHOOL

INTERNATIONAL LESSON

JUNE 4.

Lesson X.—The Call of The West—Acts 15. 36 to 16. 15.

Acts 16. 9.

Verse 6. Phrygia and Galatia—The term Galatia is probably used, like Asia and Bithynia, to denote a Roman provincia. If so, is included not only Galatia proper—the old Keltic country in the center of Asia Minor, with Ancyra, Pessinus, and Tavium as its chiefs towns—but also the country round Iconium, Lystra, and Derbe. Phrygia was the older name, derived from the aboriginal population who preceded the Keltic (Galatic) invaders. The great advantage of the "South Galatian" view is that we can recognize many contacts between Acts and the Galatian Epistle (see Lesson Text Studies for May 21). Forbidden—The word is quite general (compare Rom. 1. 13), and may imply any kind of hindrance that Paul believed to be providential. Note that the hindrance was only temporary, as in the case of Rome: the long ministry in Ephesus was to come after a few years.

7. Mysia Minor, part of Provincia Bithynia. To turn to the north, into a district only less populous and important than "Asia," seemed the obvious and necessary sequel of the closing of Asia by the prohibition realized while they were still in Galatia. A still clearer and more imperative indication of divine guidance was needed to convince them that this was not the way. It came from the Spirit of Jesus, a manifestation connected especially with the Saviour, and very probably given through a vision of the Lord himself in a dream, as in Acts 18. 9. The phrase is not found elsewhere exactly; but phrases with the same meaning are found often enough to make it hard to understand how any New Testament believer could question that the Spirit "proceeds from the Father and the Son."

8. Troas—Southwest of the site of ancient Troy.

9. A man of Macedonia—Ramsay's suggestion that this was Luke himself is most attractive. The tell-tale we begins here, showing that Luke met Paul at Troas. It ceases when Paul leaves Philippi, and begins again (Acts 20. 5) when he returned to it after six or seven years. That Luke was a Philippian is an easy inference, and there is nothing but a late tradition to oppose it. In that case Paul sees his new-found friend in a dream which he tells as they meet in the morning. How natural that Luke should eagerly press home the perfect consonance of the vision with the bewildering veto that had closed two most fruitful fields of labor!

10. We—The "we passages" (Acts 16. 10-16; 20. 5-15; 21. 1-18; 27. 1; 28. 16—with context often where the we has no reason for appearing are the very pivot of New Testament literary criticism. Even the most revolutionary agree with the conservative critics that they come from a companion of Paul. But nothing can be proved more certainly than that their author wrote the rest of Acts and the 3rd Gospel. If this is denied, we may as well drop all arguments from literary style. Sought—Implying difficulty to be got over (compare Text Studies on Acts 11. 25, May 7). Concluding—The verb implies "putting two and two together," as we say. The vision and the mysterious providences are followed by an exercise of "ordinary" reason, in which for the consecrated man God is equally present.

11. Straight—The wind being well astern. The same journey, the outer way took five days (Acts 20. 6) later on.

12. Philippi—Named after its founder, Philip of Macedon, father of Alexander the Great. The battle that avenged Julius Cæsar was fought close by in B.C. 42; and Augustus, his great-nephew and heir, founded there the Colonia Augusta Julia Philippensis, recognizing its strategic importance. It was on the Via Egnatia, one of the great Roman roads, on which we find Paul traveling in Acts 17. 1. First—In importance, in the eyes of a patriotic Philippian like the writer. Colony—The word Roman is added to remind us that the word is not used in our modern sense. It was a military outpost, whose citizens used Roman names for their magistrates (see verse 35, margin) and were immensely proud of Roman citizenship (see verse 21, and compare Phil. 1. 27, margin, and 3. 20). Paul took care to make it a parable: the church is a colony in an alien world, and exists to further the empire of its metropolis.

13. A river—Called Gangites. A Jewish proseucha, or praying place, was a humbler affair than a synagogue, and implies that there were not many Jews in the place. The neighborhood of water was desirable because of the lustrations. That Luke apparently was not sure there was a proseucha there need imply no more than (for instance) that it was not built when he was last in Philippi. Women—It may have been a time of day when men were at their business, so that the place was occupied by women only.

14. Purple—Thyatira had a guild of dyers, as we know from their inscriptions. The purple dyeing of this region had been famous for ten centuries. The town was in "Asia" (Rev. 2. 18). Opened—Literally, "opened wide."

15. Household—Her children and slaves, such as accepted the faith. We may assume she was a widow, carrying on business on her own account. Constrained—The same word is used in Luke 2. 29 of hospitality as here.

The Amateur Camper: "You certainly take a lot of trouble to put out a camp fire!"

The Guide: "Better to take the trouble now than burn down ten miles of camping sites. Only a greenhorn nowadays fools with fire in a forest."

SURGICAL MARVELS ON BATTLEFIELD

TRIUMPHS OF BRITISH DOCTORS AT THE FRONT.

Recoveries From Wounds as Result of Prompt Attention—Nurses' Work.

Strange as it may seem, a soldier badly wounded near the British lines in France has a better chance of securing prompt and skilful treatment, thereby enormously enhancing his chance of recovery, than has the civilian who meets with a grievous accident in any rural part of England. It is not yet within the bounds of human capability to drop a fully equipped hospital over the spot where a wounded soldier falls, but the British army medical service has gone as near to this as is humanly possible. Unless the enemy fire is such that rescue is out of the question it will provide the necessary treatment of the most skilled surgeon in considerably less time than could happen in ordinary life, writes a London correspondent.

These peaceful victories of a terrible war will probably not be chronicled for many months to come. But a system whereby a man in need of a grave operation finds himself on the operating table within three or four hours of his being shot is worth attention. There have been instances where operations to the skull and abdomen have been performed within two and a half hours of the infliction of the wound.

Surgeons the Most Famous.

This attention is not of the improvised, rough and ready order. On the contrary, the patient finds himself in an operating theatre, equipped with the best and most recent appliances, and in the hands of an operating surgeon of the first order. And, into the bargain, has the advantage of regular and frequent visits from a consulting surgeon of European reputation. Perhaps of equal importance is the fact that he is cared for by army nursing sisters, probably the best trained body of women in the world. In fact, apart from outside disturbances, the patient might just as well be in a first-class London hospital. Naturally such disturbances do occur. It is no uncommon thing for a few shells to fall on a hospital, and in one instance recently, the electric lighting having been destroyed by enemy fire, one of England's most famous surgeons finished a delicate operation by candle light.

Only a complex, fine, well thought out organization makes such a system possible, and history of the British Army Medical Corps during this war is certain to be very carefully studied by all nations who have not yet attempted the raising of a great army. Although its numerical force cannot be stated, it is an open secret that its present strength is more than fifteen times what it was at the beginning of the war, and its equipment infinitely more perfect. The manner of its working can best be judged by the experiences of a soldier from the moment he is wounded.

Field Dressing in Kit.

Every British soldier carries a field dressing as part of his kit. It is drilled into him that he must apply this himself or get some one else to apply it at the first moment possible. If he can be reached he is attended to at once by the regimental doctor, who works right up in the trenches. Then the stretcher bearers come and place him on a stretcher, whence he is carried to the advanced dressing station.

It is quite a short journey. In fact nearly all these stations are well within the range of the enemy fire. It is not unusual for a soldier to be inside one within an hour of his wound. As a rule, there is one large ward, provided with every necessary detail. Attached is a small, carefully equipped operating theatre, where operations of an urgent nature—such as the arrest of hemorrhage, temporarily controlled by a tourniquet—can be carried out. Wounds are also cleaned and redressed here, fractures more comfortably adjusted and anti-tetanus serum injected. Nearby are two dugouts where the patients can be removed if the shelling becomes too hot for safety. And if a patient cannot safely be moved further he can be kept at this station until he improves sufficiently.

The next point is the casualty clearing stations. These are situated as near the firing lines is consistent with safety, and they are always in direct touch with the base either by rail or a good road for automobiles. Here the patient comes under the charge of the finest surgeons England can provide.

Women in the World.

Promptitude in the majority of cases is the prime factor in the soldier's chances of recovery. Time after time a man's life has been saved by early operation when a long journey on to the base would have rendered his case hopeless. In one instance a surgeon of world repute, performed 146 severe abdominal operations between May 1 and September 30 last. They included wounds of the bowels, stomach, spleen, liver and kidneys, and of the number seventy-one recovered and seventy-five died. Considering the nature of the cases some of the greatest surgical authorities of the world admit that such results have never been even remotely attained in the history of military surgery. A few years ago scarcely one would have stood any chance of survival and the saving of so many is a triumph of skilled surgery, good nursing and perfect equipment.

It is not to be imagined that military surgeons rush to operate in every possible case. "Conservative surgery" is the modern principal. The smaller the list of operations the greater the pride felt by the surgeon in his work and nothing gives him greater satisfaction than a case where a maggled limb has been saved after weeks of unrelaxing care. And a military surgeon deserves all the satisfaction he can obtain. No work is harder than his, because vast shell wounds require constant and elaborate dressing that absorbs much time and can be performed only by the surgeon himself.

The volume of the work can be judged from the fact that at one station alone 2,660 casualties were dealt with the day after the battle of Loos. Most of these surgeons have made great sacrifices in undertaking this work for their country. Very few of them are paid more than $3,000 a year, and numbers of them could easily make ten times that amount in practice at home.

Incidentally, casualty clearing stations have other uses. They constitute rest camps for soldiers after long spells in the trenches. They will keep a man slightly wounded, and after a few weeks send him back to his regiment perfectly fit. If necessary, they will fit him with a set of false teeth, moulded on the spot, and they will replace any article in his equipment from his boots to his rifle.

From the casualty clearing station a patient is taken either to one of the big base hospitals or to England. The base hospitals differ only a little from any big city hospital, except that frequently the buildings were never designed for such purpose. Otherwise they have every appliance known to science. In any event, the man's path to England is easy and comfortable. If he is unable to walk he is wheeled on to the hospital ship lying near the hospital. On board he is placed in a comfortable swinging bed-cot, attended by doctors and nurses and is cheered by the visions of the convalescent home to which he is being sent.

Miracles of Comfort.

Arrangements are also made on the ship for the man to spend his convalescence as near his home as possible in order to be within easy reach of his friends. While on the ship he is asked which part of England he wishes to go to. When he arrives at Southampton four ambulance trains are in waiting, and he is then sent on the one going nearest to his own home. These trains are miracles of ingenuity and comfort. Driven with such care that the patient is practically unshaken, he lies in a comfortable cot still under the care of nurses and doctors, while everything necessary is at hand in case he needs treatment almost as perfectly as though he were in hospital.

In some cases of slight wounds the speed with which a man is taken to England is extraordinary. In a recent fight a man was wounded in the early morning, taken to a clearing station, and by night was in hospital at Sheffield, his home town!

The patient remains in a convalescent home until thoroughly cured. In suffering from a complaint like rheumatism where massage is required, but a slight amount of work is beneficial, he is sent to a "command depot" and placed on light duty. In any event, when quite well, he is sent home on leave, and by the time that expires he is absolutely fit to take his place in the firing line again.

MANY PRISONERS' LETTERS.

Switzerland Handles Much Mail for War Captives.

The volume of postal traffic which Switzerland is handling between the countries and the countries of the prisoners is shown by figures in a recent copy of the Gazette de Lausanne. The figures for February show that the station established at Bern received, handled and forwarded a total of 8,203,931 letters and cards and 431,809 small parcels.

Of this traffic 3,708,018 letters and cards and 205,250 parcels were sent to Germany, 3,459,511 letters and cards and 174,640 parcels to France, 479,367 letters and cards to Austria-Hungary and 442,450 letters and cards and 1,383 parcels to Italy. The number sent to England was only 8,468 letters and cards and 128 parcels.

The total traffic of this sort passing through the Bern station from September, 1914, to February, 1916, was 91,222,699 letters and cards, 5,170,442 parcels, 20,396,414 post packages, 1,243,910 bread packages and 3,817,205 postal money orders for a total sum of 48,301,200 francs ($9,660,840).

Courageous Child.

Rose, aged four, was gazing intently at the visitor's new bonnet.

"Well, dear," asked the lady at last, "what do you think of it?"

"Oh," replied the small observer, "I think it's all right. Aunt Mary told mamma it was a perfect fright, but it doesn't frighten me any."

A lot of men are always waiting for fortune to come to them, while as a matter of fact fortune is waiting for men to do the same thing.

GRESHAM

Mr Neil McDonald is having a well drilled on the John Hill farm which we learn he has purchased. Mr Boettger has the job.

Mrs E Young of Toronto is up on a few weeks' visit at the homes of Messrs John and Wm Young.

We regret to learn that Mr Art Cameron is at present under the weather.

Mr Lionel Shipley of Port Elgin was in this neighborhood last week.

We regret to learn that Mrs Annes, sr, is not able to be out.

Mr John Young has returned from a month's stay with his brother in Kincardine who was ill.

We are pleased to learn that Mrs Pace, who was ill, is recovering nicely.

Much sympathy is felt here for the relatives of the late Pte Thomas Babcock. He was a former Gresham boy.

Mrs Wade and son are here from Toronto on an extended visit to her parents on the 10th con and sisters here Mrs Len and Alex Shipley.

Children Cry FOR FLETCHER'S CASTORIA

PINKERTON

A large number from the village and vicinity took in the celebration at Walkerton on the 24th and all report a good time.

Mrs Adam Reid returned from Paisley this week.

Mrs (Rev) Gale returned home last week after spending some time with her daughter, Mrs Richardson, in Arthur.

Miss Myrtle Garland visited in Walkerton last week.

Pte Gordon Garland and Mr Cecil Garland attended the Oddfellows' Parade in Glamis on Sunday morning.

Mr Wes Birrell has purchased a McLaughlin runabout.

TURNER'S

Seeding is the latest for years. Last year many had their potatoes in at this time.

Pte Rod McLennan, of Toronto, was calling on friends here.

Mr and Mrs Vance spent Sunday at the home of Mr Arch Pollock, jr.

Mr C McRae, of Vancouver, was visiting his old home here.

GLAMIS

Those who left on Monday to attend the Baptist Association at Clinton were Misses Laura Cunningham, and Margaret McKinnon, Messrs McCauley, Allan McKinnon and Christopher Young.

The Oddfellows paraded to St Paul's church on Sunday. Rev Mr Reith conducted the services.

Anniversary services are to be held in the Baptist church on Sunday, June 4th. Dr Farmer, of McMaster University, will preach.

Mrs Tufford, of Beamsville, is visiting her parents, Mr and Mrs W J McKeeman.

Mr Dick Kirktown and Pearl went down to Markdale on Friday last.

Miss Kate McLeod is home from Detroit.

The Free Methodists held their quarterly meeting last week, Rev Mr Eagle, of Sarnia, assisting Rev Mr DeMille.

Mr Dan Finlayson moved his family to Port Elgin on the 24th.

Miss Phyllis Moffat spent a few days in Walkerton last week.

Pte Mack McKinnon spent the week end at his home.

The Free Methodists are having a new roof put on their church. Mr Jos Wrightson is doing the work.

Mr Tom McFarlane, of Toronto, visited his parents last week.

Mr Albert Pickard and family, of Wiarton, called on friends here last week.

Misses Margaret Campbell and Vera Whaley, of Harriston, spent a few days at the former's home here.

Mrs Jas Thomson, of Toronto, spent a week with her aunt, Mrs J C McIntyre.

GLAMIS RED CROSS

The following is a list of the work done by the Red Cross Society since Feb 1st, 1916: Miss Marj McKinnon, 10th Kincardine, 2 pair socks; Miss Hannah Stanley, 10th Kincardine, 2 pair socks; Miss Sadie Stanley, 10th Kincardine, 5 pair socks; Mrs Wm Sinnett, 10th Kincardine, 2 pair socks; Mrs R Cooper, Kingarf, 6 pair socks; Mrs S Neil, Kingarf, 2 pair socks; Mrs F Gordon, Kingarf, 3 pair socks; Mrs John Russell, sr, 5th Kincardine, 2 pair socks; Miss Ada Cunningham, 9th Kincardine, 2 pairs socks; Mrs R Russell, 9th Kincardine, 4 pair socks; Mrs Fuller, 9th Kincardine, 1 pair socks; Miss I Shaw, 9th Kincardine, 6 pair socks; Miss Maude McKay, Glamis, 2 scarf; Mrs John Wrightson, Glamis, 2 pair socks; Mrs McCormick, Glamis, 8 pair socks; Mrs McIntosh, Glamis, 1 pair socks; Mrs Gamble, Glamis, 1 pair socks; Mrs J Cunningham, Glamis, 23 pair socks; Mrs Thos Splan, jr, Kingarf, 2 pair socks; Miss Coffey, 9th Kincardine 1 pair socks; Mrs A McDermid, Glamis, 1 pair socks; Mrs T Percy, 8, 1 pair socks; Miss Sarah McIntyre, Glamis, 2 pr socks; Mrs D Woods, Lovat, 1 pair socks; Miss Annie Currie, Glamis, 6 pair socks; Mrs J K McLennan, Glamis, 2 pair socks; Mrs N McFarlane, Glamis, 1 pair socks; Mrs Allen Robertson, 9th Kincardine, 2 pair socks; Mrs F Gilchrist, Glamis, 1 pair socks; Mrs D Finlayson, Glamis, 1 pair socks; Mrs Wm Stringer, Kingarf, 1 pair socks.

The following donations have been made: Mrs Thos Splan, sr, Kingarf, pillows, pillow slips, 30 wash cloths, 125 mouth wipes; Mrs J K McLennan, Glamis, 1 sheet, towels and wash cloths; Miss I Shaw, 9th Kincardine, 4 slings. Mrs Deehan wishes to thank her many friends for their generous help in knitting socks for the soldiers. In the past 15 months 325 pairs have been handed in to the society. Mrs Jos Cunningham, Glamis, has knit over 60 pairs and footed over 20 pairs of socks Miss Sara McIntyre, Glamis, knit 27 pairs and footed 8 pairs socks, Mrs S Stephenson, Glamis, knit 1 pair mitts, 1 scarf, 8 pairs socks and footed 8 pairs socks. Others who have knit from 10 to 12 pairs of socks are Miss Howson, Glamis; Mrs Wm Robinson, Glamis; Mrs McLean, and Bruce; Mrs McCormick, Glamis; Mrs J Shaw, 9th Kincardine; Miss Alice Gardiner, 10th Kincardine.

Forty flea surgical shirts have been made: Miss M McIntyre, Glamis, 25; Miss Maude McKay, Glamis 5; Miss Laura Cunningham, Glamis, 13; Mrs R Needham, 9th Kincardine, 2.

Mrs Deehan will be glad to give yarn to anyone for this great cause.

SIXTEENTH CON. GREENOCK

On Monday ev'g, May 22nd, a large crowd of friends and neighbors gathered at the home of Mr and Mrs And Woeffle, to do honor to another of our brave boys in the person of their son John, who has enlisted with the 160th Bruce Battalion. Mr Thos Houston acted as chairman, and in a few well chosen remarks explained the object of the gathering. The following address was read by John A Porter, and the presentation made by John Kincaid and Wm McFadden:

To Pte. John Woelfe:

DEAR JOHN—Knowing that you have so nobly responded to the call of your king and country by having penned your name in the heroes' roll of Bruce county, we your friends and neighbors deem it our duty to meet here and spend a pleasant evening with you before you take your departure for distant lands, and by our presence express our profound appreciation of your manly and noble act. We deeply regret our loss which is but the Empire's gain, yet we feel honored that we are represented by one of ourselves in the great army which our Dominion is sending to fight our battles for us on the war-stained fields of France. You have taken upon yourself the hardships and dangerous life of a soldier and when you are called to face the trials of the battlefield we believe you will perform your duty nobly and well. We therefore ask you to accept this wrist watch, ring and pen, not for their value but as mementos of our friendship and tokens of our good wishes. Needless to say, we hope when those arduous duties are over to see you march victoriously back to your home in Greenock where a hearty welcome will always await you. Signed on behalf of your friends and neighbors.

W H McFadden
J A Porter
J Kincaid

Pte Woelfe made a very suitable reply, thanking his friends for the presents, and said he thought he was only doing his duty in serving his king and country. A short programme was opened by the audience singing the national anthem, after which there were short speeches by Mr Beaton Wells, Corp. Johnson and others; instrumental music by Messrs Hetzler and Craig; songs by Mr Geo Gilchrist, and mouth organ music by little Margaret Porter. Miss Margaret Bain was organist. The rest of the evening was spent in dancing.

BRUCE TOWNSHIP

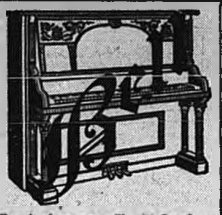
The home of Mr. and Mrs Wm. Foster, 8th Bruce, was the scene of a large gathering on Monday evening, May 22nd, to do honor to their son who has enlisted with the 160th Battalion. Mr Geo Brown, as the chairman, discharged the duties of the position most efficiently. The following address was read by Miss Laura Nelson, while the presentation was made by Miss Olive Foster:

To Pte Thos Foster:

DEAR TOM—The rally of Canadians to the support of the Mother Country and her Allies fighting against the great German military menace is one of the glorious things of this age. But while we entertain a strong patriotic pride in the courage of those of our fellow countrymen who are getting into khaki and going off to face the dangers of the stupendous conflict, sincerely regret that it comes to us to lose another of our boys who voluntarily deckles that his duty is to follow the flag of world liberty wherever it may lead him in the struggle for victory that must eventually be gained over the enemy. We all deplore the conditions which call for your going. While you are prepared to sacrifice all the comforts and privileges of civilian life to do your bit for the Empire, we can assure you that we feel it a sacrifice to part with you even for the present, but hope that you may be spared to rejoin your family and friends again when the strife is o'er. Please accept this wrist watch, safety razor and auto strap as slight tokens of our admiration and appreciation for your ready and unselfish devotion to your country's cause and interests. Signed on behalf of your neighbors and friends.

Fred Schnittker
Wm Nelson
Lorne Mewhinney

Pte Foster made an appropriate reply, thanking the friends for the gifts. A short programme followed, consisting of speeches by Reeve Johnson, ex-warden Mewhinney, and Fred Schnittker, songs by McLean Youngand Jock McKay. The rest of the evening was spent in dancing. The Red Cross Society ladies had a supply of ice cream on hand, by the sale of which they realized $15, also selling a quantity of fresh cream.



Ptes. Harvey McArthur and Albert Abbs were made recipients of wrist watches, the presentation taking place at the home of the former parents, Mr and Mrs And. McArthur, on May 16th.

Another presentation gathering occurred at the home of Mr. John Nuttall, when Ptes Robert Nuttall and Wm Dobson were given wrist watches.

Pte George Nelson was similarly honored, the friends meeting with him at the home of his father.

Children Cry FOR FLETCHER'S CASTORIA

Jones was a kind-hearted butcher. One day he was going home with a block of ice in his cart, but being called to dinner he left it in his shop. On coming into the shop after dinner he was surprised to see a small boy sitting on the ice. "Get off! You will be frozen!" roared Jones. The boy did not get off, so Jones shouted at him a second time. "Have you ever been a boy?" was the pitiful answer. "Why, yes," said Jones. "Did you ever have a father?" "Yes," returned Jones. "Did your father have a strap?" asked the boy. Then the light of understanding came to Jones, so he replied, sadly: "Stay there, my lad, stay there."

A Complete Car in Every Particular
And It's a Car You Will Be Proud to Own

It's the first complete car at anywhere near so low a price.

It stands out alone—boldly—unapproached—a powerful five-passenger touring car complete for only $850.

Note that word "complete."

That means Electric Starter, Electric Lights, Electric Horn, Magnetic Speedometer—in fact, every necessary item. Nothing is lacking. There are no extras to buy.

Note that it is not a small car. The wheelbase is 104 inches. The tires are four-inch size—many cars costing more have smaller tires.

And it is a perfect beauty—snappy, stylish, speedy.

In every way it's a car you will be proud to own and ride in.

No wonder there's a rush to possess the car the world has been waiting for.

Don't delay—see us at once and talk it over.

Guaranteed Clothes!

You get a complete and absolute guarantee when you buy made-to-measure clothes here—the guarantee means what it says—you're the judge.

You'll find that we don't ask you why the clothes are unsatisfactory or how—if you say they're not right, we don't argue about the matter.

That sort of a guarantee, added to the very evident advantage of wearing custom-tailored clothes, makes them all the wiser choices.

I. S. CRUICKSHANK

Gypsy Foreigners

A small band of strange-tongued gypsies, who are part of a colony that have been making periodical tours of Ontario for several years, passed through Paisley a few days ago. They did not remain long, but, we glean from our exchanges, their sojourn was long enough. It is reported that "the female of the species is more deadly than the male," for they rush through stores and shops and are practiced in the art of shop-lifting. They also pretend to tell fortunes and ask for the loan of bills to assist them in bringing good luck (usually to themselves) and while they chase over the anatomy of the recipient of the "good luck" manage to dexterously extricate a few bills from the roll. Sometimes they are caught at it and tearfully disgorge but often the theft is not noticed until the victim has an opportunity of counting his roll when he concludes it would be fatuous to "squeal" and usually regards it as so much paid for experience.

ADVERTISING RATES

Subscription Price—$1.50 per annum in advance. To United States subscribers $2.00 per year in advance.

Advertising Rates—Local and other casual advertisements 10c per agate line for first insertion. As per line for each subsequent insertion.

Advertisements in the local columns are charged 20c per line for first insertion, and 5c per line for each subsequent insertion. This includes announcements for church or school entertainments, garden parties, &c. No notice less than 25c. Cards of thanks or in memoriam, 50 words or less than this. Set in black-faced type, price and one-half.

Advertisements of Strayed, Farms for Sale or to Rent, and similar, $1 for first three weeks and 25c for each subsequent insertion.

Advertisements without specific directions will be inserted till forbidden and charged accordingly. Transient display advs. charged by the inch. Rates on application.

—Private funds to loan. D. FORRESTER.

—TO RENT—House on Colcine St. J. C. Gibson.

—Marriage licenses issued and money to loan. T. H. Gepson.

—Barber shop to rent. Apply to Mrs E McNeil, prop., or E.H. George, Paisley.

—Boy wanted to learn the printing at THE ADVOCATE Office, or a girl to set type.

—Five Roses, Rainbow, Purity, Cream of the West, and Stark's high-grade flours, also Bran and Shorts. Blatchford's Sugar and Five Crown Molasses. Steel, and full line of Poultry Foods and Tonics. Always in the market for coarse grains. E. G. ECKEL.

—Homeseekers' excursions, all rail, every Tuesday, and via lake Owen Sound every Wednesday up to and of October, to all points in Canada or north-west. For tickets, maps and all information call at the old reliable C.P.R. agency, McFarlane's old stand, Paisley.

—We now have in use in our dairy a Champion Cooler, with which we cool all milk to 40 degrees before bottling. This kills all animal heat quickly and secures all milk thus improving the flavor and keeping quantities. We deliver twice a day during the summer. J. Milne, Paisley Dairy.

—SEEDS! SEEDS! Planting time is near, and more than ever the planter will require good seed to bring big production in war year. We handle all lines of field and garden seeds procured from the most reliable growers on the continent, also buy and sell home grown seed. Look into your needs early and leave us your orders. E. G. ECKEL.

Early Closing Notice

The merchants and business men of the village of Paisley have agreed to close their stores and places of business at the hour of 6 o'clock every night except Wednesdays, Saturdays and evenings before public holidays, commencing Monday, June 12. Signed by the merchants and business men of Paisley.

—Miss J Salter was the guest of Mrs Barton Tooke for a few days.

—Mr Jas. Potts, of Regula, is down on a short visit to his old home in Arran.

—The Synod of Huron meets in London next week in St Paul's Cathedral.

—Mrs Wm Winter, of Walkerton, has been visiting Mrs Geo Welsford for a few days.

—Mr. Norman Sheppard, of the Royal Bank staff, Brantford, was in town over the week end.

—Mr Wilson Carr, of Greenock, has moved to Paisley and takes the position of nightwatchman.

—Mr J. C. Gibson, is away to Clifton Springs, N.Y., taking a course of treatment for stomach trouble.

—Miss Margaret Andrews, of Toronto, is visiting at the home of Mr and Mrs Arch Sinclair, 10th Bruce.

—Mr Adam McGill, who, we regret to report, is not improving any since stricken with paralysis, was taken to Galt hospital last week.

—Rev. Mr. Thynne, of Palmerston, will preach in Knox church on Sunday next, in the absence of the pastor who is away to the General Assembly.

—At the Hamilton Conference returns were made showing that within the Conference bounds there have been 4380 men of that religious persuasion who have enlisted for overseas service.

—Pte Mel. Davison, of Chesley, who returned from the front a few months ago after being wounded, is visiting Paisley friends for a few days, accompanied by his sister, Miss Margaret Davison.

—Mr. Henry Deal, telephone operator at the Bruce rural system central at Underwood, is taking a month's vacation. He left on Wednesday last to visit friends at Bruce Mines and other points on the North Shore. Miss McKay, of Paisley, is in charge at Underwood.

Bible Society

The annual meeting of Paisley Branch of the Canada Bible Society in the town hall, Thursday evening, at 8 o'clock.

Illustrated Travelogue Through Japan

By R Morse, a native. Beautiful views. Trip will start from Town hall, Paisley, on Thursday evening June 8th, at 8 o'clock. All are invited. Don't miss this treat. Collection.

Baptist Association Meeting

The Owen Sound Association of Baptist churches will meet in the Paisley Baptist church on next Tuesday, Wednesday and Thursday, June 13, 14 and 15. Morning, afternoon and evening sessions. All cordially invited to attend. REV M NEILSON, Pastor.

W.C.T.U. Convention

The 20th annual convention of the Bruce county W.C.T.U. will be held in Knox church, Walkerton, June 15th and 16th. An invitation is extended to all the members of Paisley union, and any other ladies who wish to attend are very welcome.

Farmers' Stationery

Farmers should have printed stationery just as well as business men. Try a small lot for a start, and see how you like it. We'll give you 100 envelopes and 150 note heads, neatly printed, for $2.00; 250 of each for $2.50; or 500 of each for $3.50. We can give cheaper kinds, but don't recommend them.

Methodist Pastoral Changes

Following are the changes made in Walkerton District by the Conference Stationing Committee: Paisley—Rev Arthur J Crighton; Walkerton—Rev C W Cossitt; Mildmay—Rev G A Butcher; Hanover—Rev J A Jackson (President of Conference); Eden Grove—Rev W W C Almack. The new pastors are to commence their duties by the first Sunday in July. Rev R A Pacey, B A, pastor here for the past three years, goes to Walkerton.

Chesley Has Big Military Day

The visit of the 160th Bruce Battalion to Chesley on Saturday attracted the largest crowd the town has ever entertained. It is estimated that 8,000 people were there. The proceeds amounted to $1500, liable to be increased to the Battalion fund. The soldiers marched from Walkerton on Friday, leaving there at 8 o'clock and arriving at Chesley at 3 30 in the afternoon. The presentation of colors to the Battalion, donated by Mr and Mrs M A Halliday, was one of the principal events of the programme. Two distinguished old boys of Bruce—Premier Hearst, and Lt.-Col. Rev Dr Johnston of Montreal, took prominent parts in the proceedings. The Battalion remained in Chesley until Monday, and on Sunday very impressive religious services were held in the Park and in some of the churches, which were also attended by a great many civilians from the surrounding country and towns.

The Vanophone

$12.00

The same machine as previously advertised at $15.00.

A phonograph that will hold its own against any, yet at a price that no home can afford to be without it. Its beauty of tone and clearness of reproduction are marvellous.

Soldiers Toe Crushed Off

Mrs Thos. Dobson was down to Walkerton this week visiting her son, who was the victim of an accident, as they told by the Herald and Times: Private Frank Dobson of the Machine Gun Section of the 160th Bruce Battalion, while in Hanover on Monday night seeing some friends off on the late train, fell under the wheel in stepping from the car as the train was moving out and had his big crushed off his foot, besides having another one badly bruised. He was brought to the Bruce County Hospital, where he is now recovering from the mishap. Dobson is one of four brothers who enlisted with the 160th at Paisley, and it is said had no fewer than 137 relatives bearing arms in this war.

Good Crop Prospects

While there may be some farmers who have not yet finished seeding on account of the exceptionally wet spring, the majority have succeeded in getting all their fields sown between spells, and the start of vegetation has been all that could be desired. The enterprising farmers who went in for extensive tile drain systems are winning out on their venture now. Good drainage made a very notable difference to seeding operations this year. Grain may be drowned out some places, but everywhere there is the promise of a luxuriant crop of hay. On fruit trees there was a profusion of bloom, and if the conditions proved favorable for pollenization, there should be a bountiful yield. The same may be said of most of the small fruits, too.

Deanery Meeting

A most successful and well attended meeting of the Bruce Deanery Chapter and the Bruce Deanery Branch of the Woman's Auxiliary was held in the Church of the Ascension on Wednesday of last week. Rev W E Phillip, of Chesley, was the preacher at the morning session, followed by the administration of the holy communion. Mrs Gahan, of London, addressed the ladies of the W A in the church while the Deanery Chapter met for business at the rectory from 3 to 4 p m. At a united meeting at 4 o'clock Mr Baldwin, of Toronto, gave a paper on church matters, and strongly urged the use of the press in church work. Rev C C Bratt, missionary to the Yukon for the past five years, gave an interesting account of his work among the Indians in the north. Rev Canon Gould, the general secretary of the Church of England in Canada, gave an inspiring address, leading his hearers into various mission fields, and made the picture so real that one could catch the vision. He also gave another impressive address at the missionary meeting in the evening. Master Jolly Shoemaker sang a solo at the afternoon session, and Miss A Johnston at the evening meeting. Both solos were very highly appreciated. The ladies of the church served a very appetizing luncheon on the church lawn to about one hundred. The delegates were delighted with their visit, and carried away kind remembrances from Paisley. The officers of the Bruce Deanery W A for the coming year are:—Mrs (Rev.) Diehl, of Paisley, President; Mrs (Rev) Homer, of Cargill, Sec.-Treas. The Deanery co-operative bale is being sent to Cedar Lake, Sask.

THE

Key to Yesterday

By CHARLES NEVILLE BUCK

CHAPTER XVII.—(Cont'd.)

"You are Mr. Marston's agent, I believe?" Steele spoke crispy.

"I have had that honor since Mr. Marston left Paris some years ago. You know, doubtless, that the master spends his time in foreign travel." The agent spoke with a touch of self-importance.

"I want you to deliver to me here the portrait and the landscape now on exhibition at Milan," ordered the American.

"It will be difficult—perhaps expensive—but I think it may be possible." St. John spoke dubiously.

Steele's eyes narrowed.

"I am not requesting," he announced, "I am ordering."

"But those canvases, my dear sir, represent the highest note of a master's work!" began St. John, almost indignantly.

"They are the perfection of the art of the greatest living painter, and you direct me to procure them as though they were a grocer's staple on a shelf! Already, they are as good as sold. One does not have to peddle Marston's canvases!"

Steele walked over to the door, and, planting his back against its panels, folded his arms. His voice was deliberate and dangerous:

"It's not worth while to handle lies with you. We both know that those pictures are from the brush of Robert Saxon. We both know that you have bought them at the price of a pupil's work, and mean to sell them at the price of the master's. I shall be in a position to prove the swindle, and to hand you over the the courts."

St. John had at the first words stiffened with a sudden flaring of British wrath under his gray brows. As he listened, the red flush of anger faded to the coward's pallor.

"That is not all," went on Steele. "We both know that Mr. Saxon came to Paris a short while ago. For him to learn the truth meant your unmasking. He disappeared. We both know whose interests were served by that disappearance. You will produce those canvases, and you will produce Mr. Saxon within twenty-four hours, or you will face not only exposure for art-piracy, but prosecution in what is called a serious."

As he listened, St. John's face betrayed not only fear, but also a slowly dawning wonder that dilated his vague pupils. Steele, keenly reading the face, as he talked, knew that the surprise was genuine.

"As God is my witness," avowed the Englishman, earnestly, "if Mr. Saxon is in Paris, or in Europe, I know nothing of it."

"That," observed Steele dryly, "will be a matter for you to prove."

"No, No!" The Englishman's voice was charged with genuine terror, and the hand that he raised in pleading protest trembled. His carefully counterfeited sprightliness of guise dropped away, and left him an old man, much broken.

"I will tell you the whole story," he went on. "It's a miserable enough tale without imputing such evil motives as you suggest. It's a painful confession, and I shall hold back nothing. The pictures you saw are Saxon's pictures. Of course, I knew that. Of course I bought them at what his canvases would bring with the intention of selling them at the greater price commanded by the greater painter. I know that the copyist had surpassed the master, but the world did not know. I know that Europe would never admit that possible. I knew that, if once I palmed off this imitation as genuine, all the artworld would laugh to scorn the man who announced the fraud. Mr. Saxon himself could not hope to persuade the critics that he had done those pictures, once they were accepted as Marston's. The art-world is led like sheep. It believes there is one Maraton, and that no other can counterfeit him. And I knew that Marston himself could not expose me, because I know that Marston is dead."

The man was ripping out his story in labored, detached sentences.

Steele looked up with astonished eyes. The girl sat listening, with her lips parted.

"You see—" the Englishman's voice was impassioned in its bitterness—"I am not shielding myself. I am giving you the undelieved truth. When I determined the fact of his death, I devised a scheme. I did not at that time know that this American would be able to paint pictures that could be mistaken for Marston's. Had I known it, I should have endeavored to ascertain if he would share the scheme with me. Collaborating in the fraud, we could have levied fortunes from the art world, whereas in his own name he must have painted a décade more to win the verdict of his true greatness. I was Marston's agent. I am Marston's father-in-law. When I speak, it is as his ambassador. Men believe me. 'My daughter lies on her death-bed. For her, there are a few months, perhaps only a few weeks, left of life. I have provided for her by trading on the name and greatness of her husband. If you turn me over to the police, you will kill her. For myself, it would be just, but I am not guilty of harming Mr. Saxon, and she is guilty of nothing." The narrator halted in his story, and covered his face with his talon-like fingers. St. John was not a strong man. The metal of his soul was soft and without temper. He dropped into a chair, and for a while, as his auditors waited in silence, gave way to his emotion.

"I tell you," he groaned, "I have at least been true to one thing in life. I have loved my child. I don't want her punished for my offenses."

Suddenly, he rose and faced the girl.

"I don't know you," he said passionately, "but I am an old man. I am an outcast—a derelict! I was not held fit for an introduction, but I appeal to you. Life can drive a man to anything. Life has driven me to most things, but not to all. I know that any day might bring my exposure. If it has come after my daughter's death, I would have been satisfied. I have for months been watching her die—wanting her to live, yet knowing that her death and my disgrace were racing together." He paused, then added in a quaking voice: "There were days when I might have been introduced to a woman like you, many years ago."

Dacka was not [illegible] by nature to officiate at "third degree" proceedings. As she looked back into the beseeching face, she saw only that it was the face of an old man, broken and terrified, and that even through its gray terror it showed the love of which he talked.

Her hand fell gently on his shoulder.

"I am sorry about your daughter," she said softly.

St. John straightened, and spoke more steadily.

"The story is not ended. In those days, it was almost starvation. No one would buy my pictures. No one would buy her verse. The one source of revenue we might have had was what Marston ought to give us, but that she would not accept. She said she had not married him for alimony. He tried often and in many ways, but she refused. Then, he left. He had done that before. No one wondered. After his absence had run to two years, I was in Spain, and stumbled on a house, a sort of pension, near Granada, where he had been painting under an assumed name, as was his custom. Then, he had gone again—no one knew where. But he had left behind him a great stack of finished canvases. Mon dieu, how feverishly the man must have worked during those months—for he had then been away from the place almost a year. The woman who owned the house did not know the value of the pictures. She only knew that he had ordered his rooms reserved, and had not returned, and that rental and storage were due her. I paid the charges, and took the pictures. Then, I investigated. My investigations proved that my surmise as to his death was correct. I was cautious in disposing of the pictures: They were like the diamonds of Kimberley, too precious to throw upon the market in sufficient numbers to glut the art appetite of the world. I hoarded them. I let them go one or two at a time, or in small consignments. He had always sold his pictures cheaply. I was afraid to raise the price too suddenly. From time to time, I pretended to receive letters from the painter. I had then no definite plan. When they had reached the highest point of fame and value, I would announce his death. But, meanwhile, I discovered the work young Saxon was doing in America. I followed his development and I hesitated to announce the death of Marston. An idea began to dawn on me in a nebulous sort of way, that somehow this man's work might be profitably utilized by substitution. At first, it was very foggy—my idea—but I felt that in it was a possibility, at all events enough to be thought over—and so I did not announce the death of Marston. Then, I realized that I could supplement the Marston supply with these canvases. I was timid. Such sales must be cautiously made, and solely to private individuals who would remove the pictures from public view. At last, I found these two which you saw at Milan. I felt that Mr. Saxon could never improve them. I would take the chance, even though I had to exhibit them publicly. The last of the Marstons, save a few, had been sold. I could realize enough from these to take my daughter to Cairo, where she might have a chance to live. I bought the canvases in New York in person. They have never been publicly shown save in Milan; they were there but for a day only, and were not to be photographed. When you sent for me, I thought it was an American Croesus, and that I had succeeded." St. John had talked rapidly and with agitation. Now, as he paused, he wiped the moisture from his forehead with his pocket-handkerchief.

"I have planned the thing with the utmost care. I have had no confederates. I even collected a few of Mr. Saxon's earlier and less effective pictures, and exhibited them beside Marston's best, so the public might compare and be convinced in its idea that the boundary between the master and the follower was the boundary between the sublime and the merely meritorious. That is all. For a year I have hesitated. When I entered this room, I realized my danger. Even in the glowing twilight, I recognized the lady as the original of the portrait."

"But didn't you know," questioned the girl, "that sooner or later the facts must become known—that at any time Mr. Saxon might come to Europe, and see one of his own pictures as I saw the portrait of myself in Milan?"

St. John bowed his head.

"I was desperate enough to take that chance," he answered, "though I safeguarded myself in many ways. My sales would invariably be to purchasers who would take their pictures to private galleries. I should only have to dispose of a few at a time. Mr. Saxon has sold many pictures in Paris under his own name, and does not know who bought them. Selling them as Maraton's, though somewhat more complicated, might go on for some time—save my daughter's life can not last long. After that, nothing matters."

"Have you actually sold any Saxons as Marstons heretofore?" demanded Steele.

St. John hesitated for a moment, and then nodded his head.

"Possibly, a half-dozen," he acknowledged, "to private collectors, where I felt it was safe."

"I have no wish to be severe," Steel spoke quietly, "but those two pictures we must have. I will pay you a fair profit. For the time, at least, the matter shall go no further."

St. John bowed with deep gratitude.

"They shall be delivered," he said.

Steele stood watching St. John bow himself out, all the bravado turned to obsequiousness. Then, the Kentuckian shook his head.

"We have unearthed that conspiracy," he said, "but we have learned nothing. To-morrow, I shall visit the studio where the Marston enthusiasts work, and see if there is anything to be learned there."

"And I shall go with you," the girl promptly declared.

(To be continued.)

FOR

Indigestion and Biliousness

Indigestion, biliousness, headaches, flatulence, pains after eating, constipation, are all common symptoms of stomach and liver troubles. And the more you neglect them the more you suffer. Take Mother Seigel's Syrup if your stomach, liver, or bowels are slightly deranged or

MOTHER

SEIGEL'S SYRUP

have lost tone. Mother Seigel's Syrup is made from the curative extracts of certain roots, barks, and leaves, which have a remarkable tonic and strengthening effect on all the organs of digestion. The distressing symptoms of indigestion or liver troubles soon disappear under its beneficial action. Buy a bottle to-day, but be sure you get the genuine Mother Seigel's Syrup. There are many imitations, but not one that gives the same health benefits. 1618

ON THE FARM

This Experiment Favors Pasture.

The problem that many farmers are endeavoring to solve is the proper relationship between number of acres and number of cows. Generally I would say that it does not pay to put a large herd of cows on a farm too small to afford pasturage for them. Our results at the Ontario Agricultural College go to show that as cheap milk cannot be produced in the stable in summer as can be produced on pasture. At Guelph we pastured 32 cows, which produced in four months 81,650 lbs. of milk at a cost of $368.28. This figure out to a production cost of 46 cents a cwt. of milk, and 11 cents a pound butter fat. In the stable we fed 15 mature cows. They were better individuals than the cows on pasture. In the same four months they produced 56,290 lbs. of milk at a cost of $426.21, which figures out to 86 cents a cwt. of milk and 22 cents a pound butter fat, or very nearly double the cost of milk produced on pasture.

One of the causes of high costing milk in the summer may be too much poor pasture. The natural grasses in Ontario do not produce pasture for the cows for more than one-half of the summer, and there is no part of the farm where manure and seed can be more profitably expended than in the production of an annual pasture crop. The seeding mixture that I would recommend for this purpose is one bushel of spring wheat, one bushel of oats, one bushel of barley and five to seven pounds of red clover. One acre of this annual pasture will produce more feed than three acres of natural grass pasture. An experiment conducted at Guelph last summer illustrates this fully.

In one field we had 28 acres of arable land, four acres in natural grass pasture, and four acres in rough land and woods. The mixture mentioned was sown on April 30, with an addition of two and one-half pounds Canadian blue grass; two and one-half pounds meadow fescue. These grasses being added to provide pasture for the next year. On June 8 we turned into this field 14 mature beef cows, six beef heifers one to two years old, 17 dairy heifers one to two and one-half years old, four dry dairy cows and 32 milking dairy cows. Altogether we pastured on the field 75 head of cattle from June 8 to August 21. Then the 32 cows were taken off to second growth clover, and on September 8th the 14 beef cows were removed.

There was not time during the season when that pasture could not have carried more cattle. I will admit that last season, with its extreme humidity, was unusually favorable to such an experiment as this. The only supplementary feeding was to some cows running in Record of Performance. In an ordinary season the results might not be so good, but in any season they would more than justify this method of feeding. Natural grass pasture requires two acres to an animal, or $5 a cow, rent or interest on moderately priced land. Then there would be another $5 for the supplementary feeding necessary, or $10 a cow. Our pasture carried 75 head at a total cost of $548, or $7.50 a cow.—E. S. Leithch, in Farm and Dairy, O. A. C.

Business Methods in Farming.

The present is an opportune time for putting the live stock industry on a more business-like basis, says E. S. Archibald, B.A., B.S.A., Ottawa, in an address. I do not think that any one would deny that there is room for great improvement along this line. Even on the best of our farms there is a constant waste. Our endeavor should be to plug the leaks. The only secret of improvement in this regard is the application of more business-like methods. The present time, when the demands upon our farmers are so great, seems to me to be a very opportune one for improvement in farm management and for introducing more efficient methods into our farm practice.

The fixed charges on a farm are the same whether it is run at a profit or a loss. The interest on the capital invested in farm, buildings and equipment is a constant charge against the business. These overhead or fixed charges cannot be cut down, but their relative amount can be very materially lowered by increasing the volume of business and cutting down losses. By keeping better cows and feeding them better, and by growing more and better feedstuffs from the same ground, the volume of the business can be increased. Reasonable co-operation in buying and selling and in general community work in breeding will greatly increase the income of the individual farmer without increasing the overhead charges he has to meet. This increased income directly tends, therefore, to increase the profits on his business.

How Much Seed Per Acre?

Amount of seed to sow per acre is as follow: Alfalfa, 15 to 25 lbs.; broadcast or drill; barley, eight to ten pecks; blue grass, 25 lbs.; brome grass, 15 to 20 lbs.; buckwheat, 1 bushel; clover, 16 lbs.; corn, 10 quarts; oats, 2 to 3 bu hels; orchard grass, 30 lbs.; peas, 2 bushels; red top, 10 lbs.; rye, 3 to 6 pecks; wheat, 6 to 9 pecks; asparagus 5 lbs.; beans, 1½ bushels; beets, 6 lbs.; cabbage, ½ lb., one ounce equals 2,000 plants, carrot, 4 lbs.; cauliflower, ½ lb.; celery, ½ lb.; cow peas, ½ bushel; cucumber, 2 lbs.; kale, 4 lbs.; lettuce, 1 lb., equalling 1-3 ounce to 50 feet of row; melon, musk, 3 lbs.; melon, water, 6 lbs.; millet, 1 to 3 pecks; onions, 6 lbs., equalling ½ ounce to 50 feet of row; parsnips, 6 lbs.; potatoes, 8 to 12 bushels, equalling 25 tubers per 50 feet of row; pumpkins, 5 lbs.; radish, 10 lbs.; spinach, 12 lbs., equalling ½ oz. to 50 feet; squash, 4 lbs. to 6 lbs.; sweet potato, 1½ to 4 bushels; tomato, ¼ lb. or 33 plants in 50 feet; turnips, 1 lb. or ½ ounce to 50 feet of row.

Oats and Bran for the Calf.

The beef-calf must be kept growing from the start. In the pure-bred herds it generally sucks the cow from the beginning. As time goes on it is necessary to give some grain, pulped roots, silage and alfalfa or clover hay. In looking over the beef herd at the Ontario Agricultural College a few days ago, we remarked that never had we seen, at that institution, a better lot of calves, all in excellent condition and apparently good doers. We enquired as to what they were being fed. Of course, they were sucking the cows, but calves four, five and six months old were getting, besides all the good hay they would eat, about three pounds per day of a mixture composed of half rolled oats and half bran. It looks as if this was a good mixture of grain for the calf being raised as these calves are, in fact it is not a very bad grain mixture for any calf.—Farmer's Advocate.

CAN GET VERDUN FOR 300,000 MEN

THE PRICE GERMANY WILL HAVE TO PAY.

When They Got the Town They Would Find It An Empty Victory.

If the Germans want the overrated fortress of Verdun badly enough they can take it by the middle of July at a total cost of 300,000 men, says Amo Dosch-Flemst, writing in the New York World. Then when they get it they will find they have a hollow victory. The French will simply withdraw to a much stronger position they already have fortified on the west bank of the Meuse.

Verdun has been in a precarious position ever since the beginning of the war, when the Germans in their original rush against a half-ready French army seized among other places the strategical position on the heights of the Meuse at St. Mihiel. They swept around three sides of Verdun and could not be dislodged without paying a price in lives which the French General Staff has never considered worth while.

Forts of Little Value.

Since that time the value of forts as forts has greatly diminished. Verdun by itself could have been blown to pieces, but the new trench fortifications in front of it have protected it from assault. The trench fortifications have done the real work, and for months now Verdun, as a fortress, has not been worth fighting for.

The French people, whose morale is one of the most important considerations at this tense moment of the war, are beginning to realize the facts about Verdun, and if it falls now they will not consider it a defeat. If it had fallen after only two or three weeks of assault, it would have been a great victory for the Germans, particularly on account of the moral effect on France, but it would have no moral effect now. The French people know how dearly the Germans have paid for every trench.

Saving Soldiers.

If the German offensive continues at Verdun until it is no longer worth while holding, the French people will be ready and anxious to give it up before the army is ready. For it is also an expensive business holding Verdun and the French are becoming chary of the lives of their sons. So far Verdun has cost the Germans between 140,000 and 150,000 men and has cost the French about 90,000. The French will not continue to suffer in that proportion from now on and will not pay a total of more than 130,000 against the German 300,000.

The French, having already an eye to the end of the war, hate to lose that many sons, though they inflict a loss more than twice as large on the Germans. Only the loss of German effectiveness at each assault makes it worth while for the French to stay. Most of the French losses were right at the beginning of the battle. They were so great during the first week that Gen. Joffre wanted to give it up, but Gen. de Castelnau, Commander in Chief of the armies in the field, begged permission to send up Gen. Petzin with his crack troops, the mobile army of France.

A Million Shells a Day.

The Germans opened their offensive against Verdun in February by dropping a million shells a day into the French trenches. It seemed like madness to try to hold out in a disadvantageous position against them, and Joffre, looking to the military advantage alone, wanted to abandon the fort and withdraw to the shorter, stronger lines west of the Meuse. But Gen. de Castelnau, having his ear to the ground, and realizing the bad moral effect, argued him out of it.

When the two Generals fought it out in council at the very height of the first attack, de Castelnau talked for two hours straight before he won his point, and raced to Verdun late at night to take command. The Germans at that time were coming steadily on, the French falling back, on orders, before them. So de Castelnau raced in a closed motor car, with war maps on his knees, and the trench commanders heard nothing more inspiriting over the telephone than a curt command to hold.

Before de Castelnau was able to organize his defence, the Germans, marching under the protection of a deluge of shells, had already reached Douaumont. They had the town and it seemed as certain that they would have the fort too that they announced the fall of the fort a little too soon. For it did not fall. Just at that time the counter-offensive hit the German advance. Gen. Petain arrived with his picked army of 450,000 men, the mobile army, the best body of troops in Europe.

Kept Out of Verdun.

First the Moroccan volunteers, Frenchmen who had been serving in Africa, were thrown against the Germans. They are the most adventurous of all the French troops and they would have been insulted if any other troops had been sent into the danger before them. They caught the full force of the German rush on Douaumont, and their acts of heroism under the annihilating shells would have to be counted by the thousands. They paid for Douaumont and so did the divisions that followed, but they prevented the Germans from sweeping into Verdun.

LITTLE WORRIES IN THE HOME

It Is These That Bring Wrinkles And Make Women Look Prematurely Old.

Almost every woman at the head of a home meets daily many little worries in her household affairs. They may be too small to notice an hour afterwards, but it is these same constant little worries that affect the blood and nerves and make women look prematurely old. Their effect may be noticed in sick or nervous headaches, fickle appetite, pain in the back or side, sallow complexion and the coming of wrinkles, which every woman dreads. To those thus afflicted Dr. Williams Pink Pills offer a speedy and certain cure; a restoration of color to the cheeks, brightness to the eye, a hearty appetite and a sense of freedom from weariness.

Among the thousands of Canadian women who have found new health through Dr. Williams Pink Pills is Mrs. N. Worrall, Broughdale, Ont., who says:—"After the birth of my second child I was so weak and run down that I was unable to do anything. The doctor said I had scarcely any blood in my body. I could not walk half a block without being completely exhausted and all the treatment of the doctor did not seem to help me. I called in another doctor, but with no better results. My feet and legs became frightfully swollen, I suffered with severe pains in my back and sides. I would be all day dragging around at my housework, and I was beginning to give up all hope of recovery. I had been urged to try Dr. Williams Pink Pills, but like many others, thought they could not help me when doctors had failed to do so, but after much urging I decided to try them. To my surprise in a few weeks I found myself getting better. I then gladly continued their use and found myself constantly growing stronger, and eventually able to do my house work without fatigue. I strongly advise every weak woman to give Dr. Williams Pink Pills a fair trial."

You can get these Pills through any medicine dealer or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

MEN BLINDED IN WAR.

Taught Trades at St. Dunstan's Hostel, Regent's Park, London.

Fifty-one soldiers who have suffered perhaps the worst injury possible in war—blindness—have been taught to support themselves despite their handicap, at St. Dunstan's Hostel, Regent's Park, London, during the first year's work of the institution. St. Dunstan's was donated by Otto Kahn of New York for this work.

The work has been largely done by the instruction of blind tutors, for it has been found that a newly blinded man is inspired to greater efforts under the supervision of a teacher similarly handicapped who undergoes the same difficulties and appreciates to the same degree the difficulty of the task.

The fifty-one men who left the hostel after receiving courses of instruction had learned one or more of the following occupations: boot repairing, mat making, net making, basket making, joinery, poultry farming and market gardening. In addition, typewriting, Braille shorthand and massaging are taught.

The hostel started on March 26, 1915, with fourteen blinded soldiers. It has grown until there are now at St. Dunstan's or at annexes at Brighton and Torquay 140 non-commissioned officers and men. These include seven Australians and seven Canadians. In addition ten blinded officers live at 21 Portland place, which was at the disposal of the committee in charge of the hostel by Sir John and Lady Stirling-Maxwell.

In typewriting the blind soldiers have shown great proficiency. The typewriting test, to write a page of descriptive matter and a long business letter at a fair rate of speed without a mistake, has been passed by eighty-three of the pupils. A typewriter is presented to men who pass this test. A typewriter company, after consultation with the most expert teachers of the blind, has constructed special machines for blind men.

Six men, besides one officer, have learned to be masseurs and to these are offered positions in military hospitals, where they receive lodging, attendance and about $13 a week.

The work of St. Dunstan's extends beyond the mere instruction of blind men, however, for each man receives free of charge when he leaves the tools of his trade and is helped to settle in a good locality.

T. H. Martin, an expert in work for the blind, will be in charge of the department which keeps in contact with men who have left the hostel. The blind men will be supervised to see that their work does not deteriorate and they will receive raw materials and their finished products marketed. Masseurs and shoemakers will receive steady employment.

BRIGG'S FLY MATS PRICE 5¢

ARE CLEAN NO STICKINESS ALL DEALERS R.C. Briggs & Sons HAMILTON

HAS REALIZED $24,250,000.

Great Britain's Net Gain From Seizure of Enemy Ships.

A net gain of $24,250,000 has been realized by Great Britain from the seizure of enemy ships and their cargoes in the last twenty months of the war, according to the record of the prize court. The Government has captured 157 ships, which have been disposed of after decision by the prize court as follows:

	No.	Tonnage.
Sold	42	84,772
Requisitioned	42	50,102
Detained till after the war and requisitioned for war and requisitioned	73	85,036
Total	157	155,970

The results of the sales have been approximately:-

Proceeds of condemned vessels and interests, $1,674,025; expenses of sale, $326,540; total proceeds of sale of ships and cargoes, $34,350,000. There are many more vessels and a large quantity of cargo still before the court.

They All Went Away Together

P. A. BONNOT'S RHEUMATISM CURED BY DODD'S KIDNEY PILLS

And With It Went All Those Symptoms Which Mark the Earlier Stages of Kidney Trouble.

Grand Clairiere, Man., May 29th (Special.)—"All persons who suffer from rheumatism should use Dodd's Kidney Pills." This is the statement volunteered by Mr. P. A. Bonnot, a well-known resident of this place. Asked to give the reasons why Mr. Bonnot said:

"I suffered for three years from rheumatism. I consulted a doctor without getting any results. Four boxes of Dodd's Kidney Pills fixed me up."

That rheumatism is caused by sick kidneys failing to strain the uric acid out of the blood was again shown in Mr. Bonnot's case. His earlier symptoms were: heart flutterings, broken and unrefreshing sleep, fitful appetite, a tired nervous feeling, a heaviness after meals, neuralgia and backache.

When he cured his kidneys with Dodd's Kidney Pills the rheumatism and all the other symptoms of kidney trouble disappeared.

NEW BRITISH ECONOMY.

Railroads Decide to Suspend All Tourist Tickets.

The congestion on the principal English railroads and the necessity for economy will result in the suspension of tourist tickets and the withdrawal of a number of dining cars from service.

It is thought that the suspension of tourist tickets will cause a greatly lessened volume of passengers on their way to holiday resorts at considerable distances from their homes.

The transportation of military and naval supplies is the most important function of the English railroads at present, and passengers and ordinary freight must give way before the war needs.

Scored Air Service

LORD CHARLES BERESFORD.

He recently made strong allegations in the House of Lords against the efficiency of the British air service, and later, before the investigating committee, retracted his charges.

Your Spring House-Cleaning should not be confined to beating rugs and scrubbing floors. Clean out the accumulated "toxins" that come from heavy Winter foods that clog the liver and lower the muscular tone and vitality of the body. Eat **Shredded Wheat Biscuit** with fresh berries or other fruits and green vegetables. Get back to Nature. Shredded Wheat will bring the bounding bouyancy of new life and vigor. Contains all the goodness of the whole wheat grain made digestible by steam-cooking, shredding and baking. Nothing so strengthening, healthful and satisfying. Delicious for any meal. Easily prepared. Made in Canada.

PRINCESS LIKE "PETER PAN."

Mary Is Nineteen, But Very Girlish In Her Ways.

"She's just like one of our own lassies," a Canadian soldier remarked of Princess Mary the day he was one of the party of wounded entertained by the King and Queen at Buckingham Palace, and he proudly displayed the invitation card to the Palace which the Princess had autographed for him.

It was only one of dozens of such cards that she had good-naturedly signed. When she wasn't pouring out tea she was surrounded by little groups of soldiers and sailors who begged her to write her name on their cards, too, and in each case the Princess smilingly agreed.

Princess Mary has been aptly called the "Peter Pan" Princess, so extremely girlish and youthful is she in her ways, so much so that it seems hard to believe that she recently celebrated her nineteenth birthday, and that if there had been no war she would have been one of last season's debutantes.

But she enjoyed the homely birthday tea-party given to her own intimate little circle of girl friends who came to help her eat the wonderful three-tiered cake the royal chef had made for her, even as much more than she would have enjoyed a regulation court ball given in her honor with all its attendant trappings of state for, like Queen Mary, the Princess has very simple tastes. She is gifted with the sound common sense of her mother, too, and forms very decided views.

Once some of her friends were having a friendly little argument as to which profession produces the bravest men. Some said the army, others the navy, others voted for the medical profession.

The Princess listened very quietly to what they all had to say, and then remarked very deliberately, "I think you're all wrong. To my mind airmen are the bravest men that can be found."

She goes about a great deal with her mother now, accompanying her to most social functions which have the helping of our soldiers and sailors as their object. She works very hard indeed for the Queen's Needlework Guild, and the table in her own little sitting-room at Buckingham Palace is always covered with garments she is making for the soldiers and sailors and for the children of the poor.

"What a pity it isn't Mary who's to be King," the Prince of Wales remarked one day as a tiny lad, "she's so clever and she's so good at managing us all."

And her brothers are managed by "Mary" to this day.

FISHES CAN SMELL.

Odor Travels Through Water As It Does Through Air.

A fish hasn't a nose, but it can smell. Recent experiments have proved this. What is more, these experiments have proved that odor travels through water, just as it does through air. Anglers have laid so much stress on the need of exciting a fish's interest by the look of food that the effect of scent has been overlooked. A shark will bite at a hook containing a piece of fat pork, although the pork does not look like any kind of fish that swims the sea. Why, then, should the trout be expected to be interested only in an artificial "gray hackle"?

It may be heresy in angling to suggest that a "fly" should smell like a fly. These scientific experiments show how large a part smell plays in the food pursuit of fish. Bait such as small crabs was found and eaten by the fishes two or three times as rapidly when the shells were broken. Bait placed inside a gauze bag was smelt within three minutes of being lowered in the water, and almost at the same time all the fishes began nibbling at the bag. When cotton was stuffed into its so-called "nostrils," the dogfish would seldom observe the food that came near them. If they saw other dogfish eating, those whose nostrils were stuffed would join them and take a share in the feast, but when kept to themselves they starved in the midst of plenty.

It's a waste of time to tell hair rising stories to bald headed men.

SECRET OF SNAKES GLIDE.

Method of Contraction That Enables It to Crawl and Climb.

A snake moves along the ground by contracting the ribs on one side of his body and separating those on the other side, says the Philadelphia Record. This forms one curve. Another contraction takes place at the end of the expanded side, and bends the body in the opposite direction. Thus there is a series of alternate constrictions and spreadings of the numerous ribs throughout the length of the reptile as it lies on the ground.

When the snake is in motion some part of the body must secure itself against rough or projecting surfaces, from which the forward part can be impelled. Then the forward part takes hold and the hinder length is dragged to a new position. The row of shields along the snake's belly is very quick in seizing upon the slightest projection, so that any rough surface affords a good track.

In climbing a tree the snake uses the same process. It must find points of vantage for its curves.

BABY'S WELFARE.

The welfare of the baby is the fond mother's greatest aim. No mother wants to see her little ones suffering from colds, constipation, colic or any other of the many ills that so often afflict little ones. Thousands of mothers have learned that by giving an occasional dose of Baby's Own Tablets to their children they can keep them well. Concerning the Tablets Mrs. Richard Boston, Pembroke, Ont., says:—"Baby's Own Tablets saved my little girl when nothing else appeared to help her. I would not attempt to raise a baby without keeping the Tablets in the house." They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Soldier Sarcasm.

For several weeks a wounded soldier had had no solid food—nothing but milk. At length the doctor told him that the next day he could have a light meal, and the soldier, greatly rejoicing, conjured up visions of underdone beefsteak, potatoes, cheese, etc. What he was given for his first meal, however, was about a tablespoonful of tapioca. He swallowed it, growing and grumbling.

"That's all the dinner you can have," the nurse said, "and the doctor orders that everything else must be in the same proportion."

The patient pushed away the plate. "We'll I'll do some reading now," he said. "Bring me a postage stamp."

Keep Minard's Liniment in the house

Urged to Keep Chickens.

Householders throughout England are being urged to keep a few chickens to increase the home production of eggs. Each year in normal times England imports 268,000,000 eggs. The woman's section of the National Poultry Society, which is behind the movement, declares that much waste could be avoided if householders had a few chickens to throw scraps from the table to.

Hopeful.

Parked—"How is your rheumatism getting on?"

Ferry—"It's getting along slowly, but I'm very hopeful now."

Parker—"I'm glad to hear that."

Ferry—"Yes, it commenced in my feet and has gradually worked up to my shoulders. I'm in hopes that in about a week it will go off into my hat."

Doctor Tells How To Strengthen Eyesight 50 per cent In One Week's Time In Many Instances

A Free Prescription You Can Have Filled and Use at Home.

Philadelphia, Pa. Do you wear glasses? Are you a victim of eye strain or other eye weaknesses? If so, you will be glad to learn that according to Dr. Lewis there is real hope for you. Many whose eyes were failing say they have had their eyes restored through the principle of this wonderful free prescription. One man says, after trying it, "I was almost blind; could not see to read at all. Now I can read everything without any glasses and my eyes do not water any more. At night they would pain dreadfully; now they feel fine all the time. It was like a miracle to me." A lady who used it says: "The atmosphere seemed hazy with or without glasses, but after using this prescription for fifteen days everything seems clear. I can even read fine print without glasses." It is believed that thousands who wear glasses can now discard them in a reasonable time and multitudes more will be able to strengthen their eyes so as to be spared the trouble and expense of ever getting glasses. For troubles of many descriptions may be wonderfully benefited by following the simple rules. Here is the prescription: Go to any active drug store and get a bottle of Bon-Opto tablets. Drop one Bon-Opto tablet in a fourth of a glass of water and allow to dissolve. With this liquid bathe the eyes two to four times daily. You should notice your eyes clear up perceptibly right from the start and inflammation will quickly disappear. If your eyes are bothering you, even a little, take steps to save them now before it is too late. Many hopelessly blind might have been saved if they had cared for their eyes in time.

Note: Another prominent Physician in whom the above ingredients are well known, says Bon-Opto is a very remarkable remedy. Its constituents have been found to relieve many cases of eye trouble, even after specialists had failed. The manufacturers have such confidence in the strengthening powers of this remedy that they guarantee it to strengthen eyesight 50 per cent in one week in many instances or refund the money. The manufacturers have such confidence in the strengthening powers of this remedy that they guarantee it to strengthen eyesight 50 per cent in one week in many instances or refund the money. It can be obtained from any good druggist and is sold in Toronto by Lyman Drug Co. Advertisement.

It is sold in Toronto by Valmas Drug Co.

Words in Your Vocabulary.

The vocabulary of a rich and long-cultivated language like the English may be roughly estimated at about 100,000 words (although this excludes a great deal which, if English were understood in its widest sense, would have to be counted in) but 30,000 is a very large estimate for the number ever used, in writing or speaking, by a well-educated man; 3,000 to 5,000, it has been carefully estimated, cover the ordinary needs of cultivated intercourse.

Minard's Liniment Lumberman's Friend

Struck to What She Said.

In one of the English Courts a lady, who had appeared more than once as a witness, was on this particular occasion asked her age by the presiding judge. "Thirty," said the lady. "Thirty!" said the judge; "why I have heard you give the same age in this Court for the last three years." "Yes," responded the lady, "but then, you see, I'm not one of those persons who say one thing to-day and another thing to-morrow.

At the Yarmouth Y.M.C.A. Boys' Camp, held at Tusket Falls in August, I found MINARD'S LINIMENT most beneficial for sun burn, an immediate relief for colic and toothache.

ALFRED STOKES,
Gen. Sec'y.

Reptiles as Pets.

Singing insects and reptiles are great pets with the Japanese and many varieties are caged and trained for the delight of their almond-eyed masters, it being said that Crown Prince Hirohito himself keeps a private stock of hajika, or singing frogs. The favorite singing insect is the kantan, a species of locust, which must always be kept in the shade and never sprinkled with water if he is to vocalize.

Sore Eyes Granulated Eyelids, Eyes inflamed by exposure to Sun, Dust and Wind quickly relieved by Murine Eye Remedy. No Smarting, just Eye Comfort. At Your Druggist's 50c per Bottle. Murine Eye Salve in Tubes 25c. For Book of the Eye free ask Druggist or Murine Eye Remedy Co., Chicago

Pants Warmed by Electricity.

The latest invention of war is pants warmed by electricity. Two German professors invented it. Professor Max Beck of Innsbruck and Dr. Von Schrotter of Vienna. The soldier puts on a pair of pants into which are woven extremely supple wires designed with a view to insulation. Each pair looks exactly like the ordinary trousers of the khaki uniform and can be connected and disconnected at will to batteries. With each pair are a couple of connecting wires a hundred or more yards long which permit the wearer to walk about with some freedom. Soldiers in the trenches find these garments very comfortable during the winter, and it is suggested that aeroplanists will find in them much relief from the chill air of the altitudes.

Ask for Minard's and take no other

Off the Track.

"We were bounding along," said a recent traveler on a local South African single line railway, "at the rate of about seven miles an hour, and the whole train was shaking terribly. I expected every moment to see my bones protruding through my skin. Passengers were rolling from one end of the car to the other. I held on firmly to the arms of the seat. Presently we settled down a bit quieter; at least I could keep my hat on and my teeth didn't chatter.

"There was a quiet-looking man opposite me. I looked up with a ghastly smile, wishing to appear cheerful, and said:

"'We are going a bit smoother, I see.'

"'Yes,' he said, 'we're off the track now.'"

Minard's Liniment used by Physicians.

Father—"When we're young, my son, we think we know everything."

Son—"And when we get older we know we do—eh?"

Wife—"Would you be lonely and miserable if I went away for a week?" Husband—"No—not a bit, dear." Wife—"Then I won't go."

SUMMER SCHOOL GEO. Y. CHOWN JULY and AUGUST REGISTRAR

The Paisley Advocate

PAISLEY, JUNE 7th, 1916

—Ruling the seas is some job these times, but Britain's fleet is still fully equal to the task, although it is more strenuous now than at any time in the world's history.

—"Soldier's heart" is a trouble that is becoming very prevalent among the defenders of the British trenches. The excessive use of tobacco, it is said, may largely account for it. That is what might be expected as one result of the tobacco manufacturers' campaign.

Bruce County Preparedness League Formed

A large and representative meeting was held in Walkerton on June 1st, to carry out the suggestions, as made by Judge Klein through the public press during the past few weeks, to organize a county league to assist in meeting the conditions as created by the war. A session was held at 10 a.m., at which the following were among the speakers: Judge Klein, W. D. Cargill, M.P.P., C. M. Bowman, M.P.P., Rev. Dr. Johnston, of Montreal, J. C. Eckford, Sheriff Parke and many others. An committee was appointed to frame a constitution and report at an adjourned meeting at 2 p.m., at which the following report was received and adopted:

"That a league of the men and women of the county of Bruce be and is hereby formed, to be known as the Bruce Preparedness League, the objects of which are:

"1 Prepare to aid further recruiting.

"2 Prepare to seek employment for returned soldiers.

"3 Prepare to care for and do honor to wounded and disabled soldiers.

"4 Prepare to aid farmers in securing help when sons enlist for the war.

"5 Prepare for the end of the war by a campaign of rigid economy in public and private life (a) by organizing for immigration in co-operation with all immigration departments, (b) by urging preferential appointments and situations to returned soldiers and nurses.

"6 Prepare for co-operation with federal, provincial and county committees organized to deal with present and after-the-war problems.

"7 Prepare Canadian youth for new social and economic conditions (a) by promoting the spirit of patriotism and sacrifice for Canada, (b) by inculcating high ideals of citizenship.

"8 Prepare to aid our county in adopting methods for increasing national efficiency."

The following officers were appointed: President, Judge Klein; secretary, Warden McNab; treasurer, E. Roy Sayles; Port Elgin; executive—the president, C. M. Bowman, M.P.P., W. D. Cargill, M.P.P., ex Warden McCannel, Reeve Hunter, of Kincardine, and Sheriff Jermyn.

It was decided that a vice-president be appointed by a meeting to be called by the reeve of each municipality, and that each municipality be organized in detail to assist in carrying out the objects of the league. The next meeting will be held in Paisley.

Keith—McBeath

A very pretty wedding was solemnized at the home of Mr and Mrs John McBeath, 4th con Elderslie, on Wednesday, May 31, when their eldest daughter, Myrtle Melissa, was united in marriage to Mr. David A. Keith, son of Mr William Keith of Owen Sound. The ceremony was performed by Rev G C Little, B A, the contracting parties standing beneath an arch trimmed with white lilacs and wedding bell. The wedding march was played by Miss Isabelle McBeath, sister of the bride. The bride, who was given away by her father, was attired in shadow lace over silk and carried a shower boquet of carnations, fern and maiden hair fern. The groom's gift to the bride was a handsome gold bracelet and to the organist a gold brooch. Immediately after the ceremony the guests numbering about thirty five, sat down to a sumptuous repast, the tables being beautifully decorated for the occasion. In the evening a reception was held, when about 120 invited guests were present. The bride and groom received many beautiful and costly gifts, showing the high esteem in which the young couple are held by their many friends. Among the gifts were cheques from the bride's parents and uncles. Mr. and Mrs. Keith will reside in Owen Sound, whither they are followed by the best wishes of a host of friends.

Ahiram Lodge, No. 205, I.O.O.F.

Meets every Tuesday evening at 8 o'clock in the Hall Oddfellow Block. Visiting brothers always welcome.

W. T. HOPPER, N.G.
H. B. GRANT, R.S.

Somewhere in Ontario: Twenty Years After

By John Nelson, Publisher Vancouver World.

The following article from the pen of an old Paisley boy, which appeared in Saturday's Globe, has such a distinct and pleasing local touch that we reproduce it in full:

Thirty, forty, perhaps fifty years ago, that generation of Canadians which is, in the main doing the work of the Dominion to-day, conned its primary lessons from a small text book, whose simple rhymes persist in the memory long after more pretentious verses are forgotten.

From its pages they learned the tender story of one who had

"Wandered in the village, Tom,
And sat beside the fires,
Upon the schoolhouse playing ground
That sheltered you and me."

And read with an eager sympathy unspoiled by years of hard buffeting with an unsympathetic world, that

"None were there to greet me, Tom,
And few were left to know
Who played with me upon the green
Just twenty years ago."

Thousands of these old boys—yes, and girls, too—have recalled the simple lines as, returning after long years of absence, they have found again the old school, the old village, the old haunts, but have looked in vain for the faces and forms of so many who have sought other lands and newer fields, or have outsoared the shadow of this sight.

One such returned a few weeks ago to Ontario, and herewith endeavors, at the suggestion of the editor of the Globe, to set down some impressions and sentiments, which, in these days of unwelcome division on some things among the Canadian people, may, let us hope, form some medium of understanding between her sons and daughters in the east and west.

Spring is the only time when such a comparison as is here attempted, covering a score of years, could be fairly entertained. The recollection of boyhood in Ontario in October, or in mid-winter, is pleasant enough. But Ontario in the spring-time, with the magic of the revival of nature in bud and leaf, and flower—that is the annual miracle that haunts the soul of the Ontario boy to whom distance denies its delight. And, so, when occasion arose to return he hurried his arrangements so that he might not miss the first awakening life in the sopping spring woods, or fail to catch the first frail, delicate spray of hepatica pushing its dainty and fragrant head through its pillow of snow.

The mountains were still embosomed in their winter legacy, and the plains, yellow with the stubble of last harvest, or black with the up-turned mould for the, were flooded by belated rains. But one morning to northern Ontario, as the train sped southward, he woke to know he was too late. Behind the snake fences he caught glimpse of the brave trillium flaunting its white and crimson heads, and he knew by an old instinct of bare foot days that its blooms followed the passing of the Mayflower. But the falling petals of the nepeties still remained here and there, and like an Irish emigrant, with his beloved shamrock, he dug its roots from its woodland banks for transplanting in a newer home.

There remained another hope. For twenty years he had recalled, three thousand miles away, with each recurring spring, the wizardry which in a night in boyhood had clothed the black twigs with buds had called up a carpet of green and gold from the wakening earth, and had flushed orchard and woodland and meadow with life and beauty. Was it all an illusion? Was it but a youthful fancy stimulated or suggested by long and wistful years of exile from its joys? For a time it seemed so, for nature struggling from its long confinement seemed unable, beneath dull and chilly skies, to throw off garments of the sternest season.

He was fortunately detained in the city during an interval of some days and thus experienced the keener enjoyment which a sudden revelation brings. For later, as the city was left behind, and the glory of the fields and woods burst upon him, he realized that no fancy is too lively, no imagination too vivid to picture the miracle of an Ontario spring in the May woods.

Is there more beautiful or wonderful in the world? Whether it is the fields with their rich verdure, the trees with their new gowns of green variegated tones, whether it is the orchestra of the hedges, or the ravishing fragrance of the Balm of Gilead groves, they all combine to produce a beauty and charm, appreciated least, perhaps, by those most familiar with it.

Do eastern Canadians realize what a bond these form with those sons who go south, and north, and west? No Scots man recalls the heather on his own hills with greater fondness nor clings to his birthplace as the "home" land with more tenacity than does the Ontario man whom duty or destiny leads elsewhere.

But these are not the only ties. In and around the mother Province there have grown up associations and traditions which form a link of indissoluble strength between those at home and those who are away. Save for the homely snake fence (or is it really homely?) or the unsightly stone piles, the landscape of older Ontario begins to approximate in beauty that of the homes of Britain's isles. True, it will require centuries of cultivation and care to produce the same velvet smoothness of sward or the evidences of care and attention which are so marked a feature of the English countryside. But in the rank green of its fields, the sleekness of its herds, the quiet and content of its cow homes, and the air of comfort which marks the whole country, there is more than a suggestion of those old land villages and fields which so many of the aged folk in this Dominion still remember with a sigh.

Twenty years is a short period in the life of a country, yet in the quick decay which follows the destruction of our hardwood trees it is sufficiently long to account for another notable feature. Throughout older Ontario to-day the stumps are gone. The stumps—those hacked and unsightly monuments of a great struggle with the forest in which men were thrown back broken, but never defeated—have disappeared with so many of the pioneer whose labors they marked. It will be well if with them does not also pass the thrilling stories of the epoch in which they belonged—the heroic age of Ontario. Here and there a pioneer remains, and in the rare leisure which a Sabbath or the evening gives, there may be gleaned from his failing memory tales which should not be lost to future generations. The romance of the logging fallow with its fierce competition of cattle and men, the two acre division of labor among the crews, the standard interval of "three hoops and a smoke" (and a drink!), the feverish battle for supremacy as the evening fell, and the pandemonium of grimy and perspiring men and excited oxen around the huge heaps at the close of the day—surely no pen has yet caught its color or transmuted its fierce vivacity and joy. Those were days when skill with axe and maul and wedge, and spike, were the final tests of skill and prowess. Were they not as honorable, should they not be dwelt upon with as much pride as the less worthy standards of later years? The splitting of one hundred rails an hour for seven consecutive hours by one man meant a deftness of wrist, a fleetness of chew and sinew, a precision of eye, a reserve of muscle and mental power which spelt Manhood in capital characters. Those gave to the present generation ancestors as magnificent as Vikings.

The visitor who sees England for the first time is surprised by the abundance of tree life that crowns every hillside. Coming back to Ontario after a long absence the visitor is also prepared for a landscape from which the trees have been relentlessly removed. He is surprised to find, instead, a land more wooded than the one he left. The small wood lots, the remnants of the forest giants, kept like captives, to show the type of enemy overcome, have been carefully preserved, and have grown until they now eclipse in their umbrageous beauty the larger but more rugged forests which they replaced. Ontario is no longer a country of axes. It was a hundred years ago, but a great park with generous open vistas and stretches in a setting of groves which meet the eye in every direction, and which give through their open spaces alluring glimpses of other delights beyond.

The Ontario lad of a quarter of a century ago knew by rote the dismal story of "Eighteen Hundred and Destitution." Fortunately there has been no later calamity to add to the hardships of the farmer's life. Everything about the country homestead of to-day breathes comfort—almost affluence. The country table is the best furnished in the land. Modern invention has lifted from the farm house a score of handicaps which added to the burdens of an older generation. The rural mail delivery, the rural telephone, the hygienic improvements adapted to country life—above all the "Hydro," with power and light for all purposes ready to hand—these have brought to the farm door most of the conveniences and few of the drawbacks of city life. The motor car has expanded the daily farm horizon by a score of miles. The boy returning from prairie or mountains, from sea or city, finds, like the restless searcher in the old legend, that whether he found it elsewhere or not, the treasures of life were always to be had under the family roof-tree.

His pleasure in these is qualified. He finds himself in frequent mental protest that those who should have enjoyed these things have long since passed to "where beyond these, voices there is peace." He visits more narrow homes of the dead than even the overcrowded firesides of the living. Perhaps that is why, with every passing year the scenes of their labors, their joys and their sorrows become more and more sacred to him, and link him more firmly still with the past rich in sweet memories.

There are, indeed, some compensations. When he revisits the school he finds the old structure, it is true, replaced by a modern one—a community centre of greater value than the rude building in which he mastered his three R's. The grounds, too, have been levelled and improved, and from the nearby brook, in whose sepulchral pools he recalls speckled trout of huge proportions, the woods have been pushed back and the steady throb of an hydraulic ram tells that its waters are being employed for more practical purposes. The beech tree from which a stern master dealed the primitive but effective instruments of youthful torture, has survived this base abuse, and other and newer monograms have replaced the old. But the school roll, curiously enough, shows the least change of all. Upon examination it reveals a startling likeness to that of the day to which the visitor belonged. He sees, with a start, his own name among those of a score of comrades and playmates of three decades ago. It leads him to think less wistfully of those of a past generation when he sees their forms and features and names multiplied in the rosy urchins who throng the old ground. The line, indeed, is "carried on."

And so he leaves the old Province, well content, knowing that here is being worked out for Canada the old wonder of the Empire. He knows that newer Canada has a second mother land whose place in the hearts of her scattered sons becomes stronger with the passing of every year and however the farther they go from the object of their affections. He knows instinctively that in spite of geographical and other difficulties, no problem in this country—racial, religious or political—can divide the the great heart of Canada, because this and other old Provinces, when they sent out their sons, sent not only men, but with them principles and aspirations and ideals learnt at her mother-knee:

"Her sights and sounds; dreams happy as her day;
And laughter learnt of friends; and gentleness
In hearts at peace,"

and that in the last analysis they are still ONE.

SPECIALS

FOR TWO WEEKS ONLY

Another new shipment of goods has just been opened up this week. We have a special line of imported goods which we are offering at very low prices for the next two weeks only.

Specials in Pantings

For the next two weeks we offer you regular $5.00 and $5.50 Pantings at $4.00, and $6.00 and $6.50 Pantings at Come and get a real snap, before it is too late.

THE BLESSING OF A HEALTHY BODY

Has Not Had An Hour's Sickness Since Taking "FRUIT-A-TIVES".

MR. MARRIOTT
78 Lees Ave., Ottawa, Ont.,
August 9th, 1915.

"I think it my duty to tell you what "Fruit-a-tives" has done for me. Three years ago, I began to feel run-down and tired, and suffered very much from *Liver and Kidney Trouble*. Having read of "Fruit-a-tives", I thought I would try them. The result was surprising. During the 3½ years past, I have taken them regularly and would not change for anything. *I have not had an hour's sickness* since I commenced using "Fruit-a-tives", and I know now what I haven't known for a good many years—that is, the blessing of a healthy body and clear thinking brain".

WALTER J. MARRIOTT.

50c. a box, 6 for $2.50, trial size, 25c. At dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

BALLACHEY, LAIDLAW & CO.

"The Store with the Stock"

Ladies' Wash Blouses

We have them in many styles, Blouses and Middies, high neck and low, long sleeve or short, simple or elaborate---we have them all. Prices from . . . . . **75c to $3.50**

Wash Skirts

This is the season for a Wash Skirt. They are cool, dressy and comfortable. An assortment of styles and sizes, from **$1 to $2.50**

Dresses

A few only of Pique and Duck Dresses, made in pretty style, good fitters, each . **$2.75**

We want WOOL! It's worth a lot this year

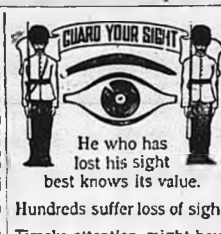
WELL-KNOWN ONTARIO WOMAN SPEAKS.

Welland, Ont.—"I am most pleased to say that Dr. Pierce's Favorite Prescription has proved itself a first-class remedy. I was run-down, weak and played out, and needed a woman's tonic. I have just finished using one bottle. I feel much stronger and better. Can eat better and am less nervous. You may say that "Favorite Prescription" is just the medicine for tired-out, worn-out women. It does wonders for them."—Mrs. Geo. Flanigan, E. Main and State Sts., Welland, Ont.

THIS PRESCRIPTION IS FOR YOU

If you suffer from hot flashes or dizziness, fainting spells, hysteria, headache or nervousness you are not beyond relief.



Dr. Pierce's Favorite Prescription is directed to the real cause and promptly removes the disease, and thereby brings comfort in the place of prolonged misery.

It has been sold by druggists for nearly 50 years, in fluid form, at $1.00 per bottle giving general satisfaction. It can now be had in sugar-coated tablet form. Sold by all medicine dealers or trial box by mail on receipt of 50 cents in stamps.

Every sick woman may consult us by letter, absolutely without charge.

Write without fear as to cost or fee, to Faculty of the Invalids' Hotel, Dr. V. M. Pierce, President, 663 Main St., Buffalo N.Y.

Dr. Pierce's Pellets are unequaled as a Liver Pill. *Smallest, easiest to take. One a day. Cure Biliousness. Relief a Dose.* Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and all derangements of the Liver, Stomach and Bowels.

He who has lost his sight best knows its value.

Hundreds suffer loss of sight Timely attention might have prevented it.

Examination free.

Satisfaction guaranteed.

A STOPPED WATCH

—one that will not go AT ALL—does not cause as much bother as one that runs now fast, now slow, in an erratic fashion.

The first you don't pretend to depend upon—the other is a constant source of annoyance.

Most people can afford a watch, but no one can afford an uncertain fast and slow one.

And when our Repair Department is so close at hand there is really no excuse for carrying anything but an accurate time-piece, no matter what the first cost was.

Consult us about any watch troubles that may arise.

Carrick Tp. Council Grants $1000

The ratepayers of Carrick Township have proven that there is an influential party of patriotic citizens in the municipality, and have done something to lift the reproach that has been standing against the Germans there. A number circulated a petition requesting the Tp Council to make a grant to the Patriotic Fund. The Council complied with the request of the 182 petitioners by making a grant of $1000 to the fund.

Earl Kitchener Was Drowned

War Minister Was Aboard Cruiser Hampshire, Sunk Off Orkney Islands

ORGANIZER OF THE EMPIRE

Creator of Britain's New Armies Had Unique Character and Dazzling Career

Earl Kitchener, Secretary of State for War in the British Cabinet, with his entire staff was lost on Monday, June 6, when the cruiser Hampshire was sunk north of Scotland. The first announcement was conveyed to the world in an official statement issued by the British Admiralty in London on Tuesday morning. The statement follows: Admiral Jellicoe reports: "I have to report with deep regret that His Majesty's ship Hampshire, Capt. Herbert J. Savill, R.N., with Lord Kitchener and his staff on board, was sunk last night at about 8 p.m., to the west of the Orkneys, either by a mine or a torpedo. Four boats were seen by observers on shore to leave the ship. The wind was north-northwest, and heavy seas were running. Patrol vessels and destroyers at once proceeded to the spot and a party was sent along the coast to search, but only some bodies and a capsized boat have been found up to the present. As the whole shore has been searched from the seaward, I greatly fear that there is little hope of there being any survivors. No report has yet been received from the search party on shore. H.M.S. Hampshire was on her way to Russia."

To Czar by Request

An official statement issued in London on Tuesday evening said that Earl Kitchener was to have discussed important military and financial questions with Emperor Nicholas. Earl Kitchener was going to Russia at the request of the Russian Government. He intended to land at Archangel and visit Petrograd, and probably go to the Russian front. His mission had chiefly to do with the supply of munitions for Russia. The Earl expected to be back in London for the reopening of Parliament on June 20. Accompanying Earl Kitchener as his staff were Hugh James O'Beirne, former councillor of the British Embassy at Petrograd and former minister at Sofia; C. A. Fitzgerald, Earl Kitchener's private military secretary; Brigadier-General Ellershaw and Sir Frederick Donaldson, technical adviser to the Ministry of Munitions.

Organizer of Victory

Because of the world-prominence of the chief character in the tragedy the news was received with profound sorrow throughout the Empire which had for many years placed increasing reliance upon his abilities and devotion. Of several things that entitle Earl Kitchener to a place in world history, the most notable is that he organized the largest volunteer army the world has ever seen, in the greatest war of all times. Within a year from the sudden outbreak of the European war in August, 1914, the ranks of British fighting men were quadrupled by an increase from less than 1,000,000 to nearly 4,000,000. All other great powers that entered the war had huge standing armies and compulsory military service. Great Britain alone faced the issue with confidence that its people would readily respond to the call of King and country without compulsion, and the meritorious developments that led to the war found both the people and the Government unanimous in the verdict that Kitchener of Khartoum was the man to lead in the recruiting and organization of the necessary army.

For Empire's Crisis

Field Marshal, Earl Kitchener of Khartoum stood next to the late Lord Roberts as the most admired military idol in the British Empire. With the latter's increasing age "K. of K." came to be regarded as England's greatest soldier and the decision of the Government to entrust him with supreme direction of the war was received with unanimous approval. He was appointed Secretary of State of War on August 8, 1914, a few days after Great Britain's declaration of war on Germany, following a great outburst of popular clamor. It was not a sentimental clamor, for though Kitchener was a proven hero of many campaigns, his personality was as impenetrable as hardened steel, and he was not a hero that could be loved; even the War Office had no pronounced liking for him, but on all sides there was profound respect for his military efficiency and for all he had done to increase the prestige and usefulness of the British Empire. As the war progressed Earl Kitchener was subjected to severe criticism, led by Lord Northcliffe. The Secretary was charged with responsibility for failure to foresee the extraordinary demand for heavy shells, and as a result the Ministry of Munitions was formed, with David Lloyd-George at its head. Earl Kitchener's responsibilities were further lessened by the appointment of General Sir William Robertson as chief of the Imperial Staff in December of last year. It was reported at this time that friction had arisen between Earl Kitchener and Field Marshal French, then in command of the British forces in France. Shortly after the appointment of Gen. Robertson, Field Marshal French relinquished his command. Sir William Robertson, who was reported safe in London at the time of his chief's death, was immediately mentioned as logical successor.

When the news of the tragedy was received in London the British War Council was immediately convened. Sir Edward Grey, Reginald McKenna, and David Lloyd-George were present at the Council. The belief that the enemy was directly responsible spread quickly and great was the mourning as the official nature and reliability of the reports was recognized. In a few hours the whole Empire was in mourning for one of her greatest sons who thus perished as he would have wished, "on active service," and in discharge of the highest duties in the face of the enemy. His mission to Russia was undoubtedly of the highest importance, his uncanny ability to co-ordinate and organize forces and to impress personalities and peoples having been demonstrated on countless and no more than in recent months. At the age of 66 Horatio Herbert Kitchener perished at the zenith of his career when he had brought the cause of the Empire and her friends out of the valley and to within measurable distance of the peak of victory.

In the Present War

The colossal task of raising, training and equipping the new British armies was almost completed when Earl Kitchener left with his staff on a special mission to Petrograd. This mission was only one of the many for which the distinguished British officer had found time since the war to undertake and complete on behalf of the Allied powers. There had been no recent reports of Earl Kitchener's movements. He was last mentioned in the cable despatches of Friday, when he went to Westminster Palace to be questioned by members of the House of Commons, who were not satisfied with the conduct of the war. No intimation was given that he intended to leave England. Lord Kitchener had been one of the most conspicuous figures in the war. It was he, who, in November, 1915, went to the Near East and inspected conditions at the Dardanelles. This trip led to the withdrawal of the British expedition from Gallipoli Peninsula. The War Secretary left London on November 5, 1915. He visited Gallipoli and Saloniki, where he conferred with the British and French generals in charge. On November 30, Lord Kitchener went to Athens where he conferred with King Constantine, King of the Hellenes, for then it was feared Greece might side with the Central Powers. Despite his years, Lord Kitchener was in the prime of his vigor and was a tower of strength in the grand war councils that were held in Paris. He attended them from the first and held a leading position in the last grand council of all the Powers at Paris in March when he was able to report his unique accomplishment, the actual enlistment of over five million British subjects as soldiers in the Allied cause.

Without his crowning achievements as the great organizer of the British campaign in the European war, Kitchener had already won wide and lasting fame by his many campaigns in Egypt, South Africa and in India. He was born June 24, 1850, at Ballylongford in County Kerry, Ireland, a fact which gave rise to a general belief that he was of Irish blood, but his parents were of French and English descent. His father was a retired lieutenant colonel of dragoons. Young Kitchener received his fundamental military education at Woolwich, where he displayed only ordinary brilliancy, with the exception of his liking for mathematics.

Triumphs in Sudan

The fight at Omdurman, September 2, 1898, was the greatest battle of Kitchener's time in Egypt. Osman Digna faced "the Sirdar" with 50,000 Mahdists, while he had but 20,000 men. When the battle was over, 11,000 of the Mahdists had been killed, 16,000 wounded, and 4,000 taken, while the British and Egyptian loss altogether was under 500 men. With the capture of Khartum, capital of the Sudan, which meant the re-establishment of British possession of these upper reaches of the Nile, Kitchener became the object of hero-worship in England. He was raised to the Peerage as Baron Kitchener of Khartum, and received the thanks of Parliament and a grant of £150,000.

South Africa and After

Soon afterward he became chief of staff to Lord Roberts in the South African War, and in November, 1900, succeeded him as commander-in-chief in the field. By constructing a 3,500-mile chain of blockhouses he stopped the Boer raids and virtually ended the war in South Africa. Then Kitchener went to India as commander-in-chief of the British forces there, and in seven years carried out not only many far-reaching administrative reforms, but a complete re-organization and strategical re-distribution of the British and native forces. On leaving India in 1909 he toured the Empire drawing up a scheme for defence of the overseas Dominions and then returned to Egypt, the scene of his first triumph, enjoying virtually a Governor-Generalship of Egypt—and led in the economical development of the country, building new roads and irrigation projects on a large scale. At this work of organization he stood unrivalled, although he was also renowned as a strategist and tactician.

Cool, Efficient Enigma

During all the years the British people had looked on Kitchener's silent, but effective work, they had never been able to fathom his personality. A cockney non-commissioned officer, who had seen much service under him, summed up the general opinion when he said of Kitchener: "E's no talker. 'E's all steel and 'nice." His face was that of a man who neither asked sympathy nor wanted it. He had steady, blue-gray passionless eyes, and a heavy moustache covered a mouth that shut close and firm like a trap. He believed with all his might in the gospel of work. He had illimitable self-confidence. For hangling and faint-heartedness he was incapable of feeling sympathy or showing mercy), an officer who failed him once got no second chance. He was indifferent to popularity, particularly among women, and though feted at every [illegible] in social circles, he

Don't forget to see these beautiful art coverings. It will make you look years younger, and is of great benefit to the health.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all you claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

from ear to ear. He had not been in good health for some years, but this spring had been in better health than usual. He left home Tuesday, and not returning on Wednesday evening, the neighbors made a search and found his body in Corbett's bush. He apparently started the job shortly after entering the bush and wandered a distance of about 80 rods, as showed by the blood, and then finished up by completely severing the arteries and windpipe. A small dull knife was found near his body. He leaves a wife and three children.

About the House

Useful Hints and General Information for the Busy Housewife

Selected Recipes.

Peas in Cases.—Cut bread three inches square, remove center to form box, brush with melted butter and brown in oven. When ready to serve fill with creamed or buttered peas.

To make strawberry jam, take seven pounds of sugar, five quarts of berries, crush the berries slightly; cook quickly until thick, put in jelly glasses and when cold cover with paraffine.

For oatmeal cakes use 1½ cupfuls of oatmeal, 1¼ cups of flour, half teaspoonful of baking powder, half cup of shortening (butter and lard, quarter cup of sugar, and water enough to mix. Roll very thin. Cut with biscuit cutter and bake.

Cottage Cheese Salad.—Put one quart thick, sour milk in clean bag and let drain over night. Do not cook milk, as it is much better without cooking and does not go all to whey. In the morning put curds in cold bowl, add one saltspoon salt, dash of pepper and one-half cup sweet cream. Toss lightly with silver fork, put on crisp lettuce leaves and chill until ready to serve.

Mint Jelly.—Mint jelly for immediate use—Make good lemon gelatin with water in which mint has boiled three minutes. Stir in finely chopped mint as gelatin begins to set. Garnish with sprigs of mint when turned out to serve. Mint jelly for preserve closet may be made by putting sprig of fresh mint in tumbler before pouring in boiling apple jelly. Mint will rise to top and should be removed before covering jelly.

Halibut Baked in Milk.—Two and one-half pounds sliced halibut, two tablespoons minced parsley, one-third cup butter, flour, milk, salt and pepper. Lay fish in deep, fireproof platter, if you have one, if not, in baking dish. Season with salt and pepper, dredge with flour, sprinkle with parsley, and dot with butter. Add milk to depth of one inch and, if desired, lay over fish some sliced onion and a few minced celery tips. Bake gently forty-five minutes in moderate oven.

Chocolate Sponge Cake.—Three eggs, one cup sugar, three tablespoons grated chocolate, one-fourth cup milk, two tablespoons baking powder, few grains salt, one-half teaspoon almond extract, one cup bread flour. Beat eggs yolks, add sugar and cream until light. Turn in chocolate which has been melted over hot water, and milk and flavoring. Sift together flour, baking powder and salt and add alternately with whites, stiffly beaten. Bake in tube tin in moderate oven. Fill cavity with whipped cream and surround with sliced sweetened strawberries.

Dandelion Salad.—Gather plants before blossoms appear when dandelion is to be used raw. Cut from root so that rosette-like mat of leaves remains entire. Take blossoms from plant in bloom and sprinkle petals over salad for garnish. Dice two ounces bacon and cook in hot pan until golden brown, stirring frequently. Mix one tablespoon sugar and one-half cup weak vinegar and pour into pan with bacon. When mixture boils pour it over one quart dandelions mixed with three chopped hard-boiled eggs and one medium-sized sliced onion. Turn lightly with fork until dandelions are slightly wilted by hot dressing.

Ribbon Cake.—One-half, cup butter two cups sugar, one cup milk, three and one-half cups flour, five teaspoons baking powder, one and one-half teaspoons ground cardamom seed, one and one-half teaspoons ginger, three-fourths teaspoon cinnamon, one-fourth teaspoon cloves, one-half cup seeded and chopped raisins, one-half cup finely chopped figs, one tablespoon honey and four eggs. Rub butter and sugar together and add egg yolks. Sift flour and baking powder together and add them to mixture, alternating them with milk. Finally, add whites of eggs, well beaten. Bake two-thirds of mixture in two-layer cake pans. To remainder add spices, fruit and honey and bake. Put layers together with crystallized honey or other preferred filling.

Good Service From the Paint Brush.

One of the articles which usually plays a fairly prominent part around the house in the spring, is the paint brush. In these days of rugs, the floors need to be kept in good condition. Of course we are not all fortunate enough to have hardwood floors in our homes. We can nevertheless, keep our floors looking nice with a little care. When using a large rug in the centre of the floor, it is only necessary to grain the floor a few feet around the edge. This, if nicely done, looks well in any room.

The kitchen and pantry are splendid places in which to make good use of the paint brush. If the linoleum in the kitchen is varnished spring and fall, it will keep the colors bright and insure its wearing longer. Then there are those pantry shelves. Rather hard to keep them looking neat and clean, isn't it? Some people cover the shelves several times a year with shelf paper which does very nicely. Another method is to paint the shelves in the spring with a good white paint. An extra nice finish for pantry shelves if one wishes to go to the expense, is enamel. This makes a hard finish which is easily wiped off.

Just one other painting suggestion. A painting task that requires some skill is to do window sashes without getting paint on the windows, and we all know how hard it is to remove dry paint from glass. Here is an idea picked up recently. Cut a piece of cardboard the size of the pane, cover the glass with it while painting and thus avoid the vexation of accompanying spots and spatters.

Useful Hints.

If eggs are boiled in salted water the shells will peel easily.

Bacon rinds are good boiled with cabbage, string or soup beans.

Air blowing on bread sponge will keep it from rising and may spoil it entirely.

When roasting a fowl stuff the breast with pared and cut up sweet potatoes; the flavor is surprising.

A generous pinch of salt added to flour for thickening, before mixing with water, tends to keep it from being lumpy.

Prunes cooked in the oven after soaking over night, seasoned and sweetened to taste, are much richer than if stewed.

Vegetables to be cooked by boiling should be put into boiling water, as little as possible, and if the water is added let it be boiling hot. Steaming is best for most vegetables.

It is a good idea to provide plenty of clean paper for the kitchen. It can be used when preparing vegetables or fruit, and paper and trimmings can be put into the fire.

Don't put anything away in the ice chest while it is hot. Never leave uncooked meat or fish wrapped in paper. The paper will absorb the juice of the meat and waste it.

Lingerie ribbons should not be ironed whilst wet, or they will become stiff. They should be pulled into a smooth condition and when dry pressed over with a cool iron.

Pure chloroform will remove paint, grease and other stains from colored garments. Put clean blotting paper under the spot and pour the chloroform—a few drops—on it, in the open air.

Delightful scent bags or pillows may be made with any dry, fragrant leaves of flowers—geranium leaves, rose petals, heliotrope, lemon verbenas. Tie in bags of gauze, or make pillows of gauze.

Swiss eggs are a good luncheon dish for summer. Butter a pie dish, cover the bottom with slices of cheese, break the eggs over the cheese and sprinkle with bread crumbs. Bake until done.

2,500 DOGS OF WAR.

Obey Commands of the Germans by Mouth or Pistol.

Dr. Max Osborn, the special correspondent of the Vossische Zeitung on the western front, contributes to that paper an interesting narrative of Germany's real dogs of war. The facts and figures he adduces are striking evidence of the thoroughness with which the enemy has organized one of the unconsidered trifles of war making during the course of the struggle.

When the German army was mobilized in July, 1914, the War Office found that there were all told exactly eight dogs trained for military service. Orders were forthwith given to the German Red Cross Dogs Society to train the largest possible number for field work, with the result that to-day (according to Dr. Osborn) there are 2,500 dogs in the various German theatres of operation.

Many animals have been killed and wounded and a special "military hospital" for canine heroes hurt in battle is now maintained at Jena.

Dr. Osborn describes a "dress parade" of the war dogs recently held for his edification in the Verdun district. There were sheepdogs, Airedale terriers, retrievers and pointers, each about two years old, German sheepdogs in the majority.

They have learned to obey commands, given both by word of mouth and pistol shots, "like Prussian infantrymen." The drill which the correspondent witnessed consisted of distinguishing the prostrate living from figures representing dead men, passing by men still able to stand by themselves, and indicating not only where men were lying down but leaning in a state of semi-collapse or sitting up.

"And, best of all," concludes Dr. Osborn's tribute to the dogs of war, "they are serving the Fatherland unselfishly, without hope of either promotion or decorations."

France Enlists Women.

The new idea of replacing auxiliary soldiers by women specially enlisted for the purpose has given excellent results in France. At the depot of the 7th Battalion of the Engineers Corps, twenty-eight women soldiers are employed as clerks, three as storekeepers (dressed in uniform), nine as cooks, and three as tailors. This experiemnt is being made at a number of other depots.

Perhaps the best hand a man can hold in the game of life is the hand of some good woman.

Canadians at the Front Wearing the New Steel Helmets.

The rapid and efficient way in which our French allies have provided their armies with the new steel headdress is really most creditable to every department concerned. On every front the blue-tinted casque is seen. The British troops are also now being equipped with steel helmets. The shape differs somewhat from the French casque. The British design is wider in the brim, with a more spreading dome to the roof of the helmet. The British headgear does not show a ventilation ridge such as the French helmet exhibits as a distinctive feature. Hundreds of thousands are now in use, and thousands of lives have already been saved by them.

BELIEVE END OF THE WAR NEAR

GERMAN PEOPLE WILLING TO MAKE CONCESSIONS.

Prisoners Say Sufferings of People at Home Are Becoming Unbearable.

The British have successfully extended their front toward the south until it covers practically one-fourth of the whole line from the North Sea to Switzerland. An International News Service writer recently made a trip of inspection. The vessel which took us across the Channel was crowded with Red Cross nurses, army officers and Tommies returning to the front after a few days' home leave.

I had expected to see these men depressed and downhearted at the prospect of going back to the dreary monotony of the trenches, but on not a single face did I see a sign of any such feelings. I asked several of them about it, and the answer was invariably the same.

"Why should we feel sorry? We are well treated, well fed, and well looked after in every way, and our job is not finished yet. The trenches are not half as bad as you think. We are going to stick it out until we have given the Boches such a licking that they won't forget it for a hundred years. There is not much fight left in them even now."

Our first morning in France was bright and sunny, though rather windy. Women everywhere are ploughing the fields or putting in the seed, scattering it by hand in the old-time manner. We pass through villages full of life and bustle, but the women and children, who are nearly all in deep mourning, bear silent testimony of the sacrifices France has made.

At Bethune we see the first sign of actual warfare. The town has been shelled, and many houses are in ruins, but the inhabitants go about their business as if nothing had happened.

The sound of firing increases, aeroplanes hovering above us, little clouds of fleecy white suddenly appear out of space all around them and drift away before the wind. It is shrapnel from the German anti-aircraft guns, exploding harmlessly in the air.

We arrive at a village where we have to leave our cars as it is not safe to drive any further in broad daylight. The German lines are not far away. The country here is bleak and barren; everywhere are the signs of the devastation of war; the houses mere husks, roofless and battered by hundreds of shells, uninhabited but for a few English soldiers.

"Tommies" Confident.

We find the Tommies in the front trenches, almost within hail of the Germans, the most cheerful of all. Not one among them who does not feel firmly convinced that they are able to finish off the Germans as soon as the signal is given to swarm out of the trenches.

I noticed that the English guns fired at least four shots to every German shot.

In a little village some miles behind the fighting line, I came upon a batch of prisoners captured by the British two days before. I asked to be allowed to speak to them.

I found them deeply grateful to their captors, who, they said, had treated them with the most touching kindness. They were greatly relieved because they would now not have to go back into the inferno to fight for a cause they never looked upon as their own. They were from Danish speaking Germany.

Not one of them was under twenty or over thirty, and they were tall, broad-shouldered, blue-eyed and fair-haired, and quite willing to talk when I addressed them in their own language.

One of them, a man with a frank and intelligent face, acting as spokesman, said:

"We all feel that the end is approaching, not so much because Germany is short of men—there are still plenty of reserves, I believe—but because the sufferings of the people at home are becoming unbearable and they do not understand what we are fighting for.

"It is gradually beginning to dawn upon them that all our victories are to count for nothing, and that we must not only give up what we have won, but even more, in order to get the peace the whole German people is sighing for."

"Do you think the German people are in a mood to give up any territory in order to get peace?" I asked.

"I am quite sure that the people would willingly give up not only every inch of foreign territory now occupied, but Alsace-Lorraine as well."

"But what about an indemnity?"

"I do not see how Germany could possibly pay an indemnity now. We are practically ruined, and the intelligent part of the population all know it. Every letter I get from home speaks of the misery our people are enduring. Our horses and cattle have been taken away, we are short of seed corn and food, even potatoes are very scarce. That part of Germany is a country of mourning and despair.

"All our able-bodied men have been taken, and from the beginning of the war we have always been sent to the most dangerous places. Our heavy casualties prove this."

"How have you been treated while in the army?" I asked. "Is it true that your officers threaten to shoot you down if you refuse to go forward?"

Not Forced on Germany.

"No, I cannot complain of the way we have been treated. German officers have their own way of treating their man. They hardly look upon us as human beings, but I think they have been less brutal during the war than in time of peace.

"They demand obedience, and the man who hesitates to obey orders knows that he is liable to be shot down. Nothing of the kind, however, has ever occurred in our regiment."

"Do you believe this war was forced upon Germany?"

"No intelligent person in Germany really believes that," he said, with a smile. "We knew that the war was coming sooner or later. We have been prepared for it for years, and we thought we were sure of victory. Our enemies were always quarrelling among themselves at home. Germany alone seemed to be strong.

"But I suppose everything that has happened is for the best. We are all glad we are going to England, where we know we shall be treated well. The Tommies are the most kind-hearted men I ever met. They have been wonderfully good to us."

The Heiress—"Have you seen papa?" The Duke—"Yes; it's all off." The Heiress—"You don't mean to say that he refused to give his consent?" The Duke—"Oh, no, He said he'd give his consent—but not another cent."

THE FASHIONS

Summer Furs More Modish.

From Fashion's court comes the word that summer furs will be more modish this year even than they were last. The huge boa of white fox held the favored place last summer, but this season the shops are offering a variety of furs for summer wear. In spite of the apparent absurdity, a wide soft stole of mole, mink, seal, or ermine often proves a very grateful addition to the sheer summer dance frock on seaside porch or board walk. While the round, soft fox boa will in all probability continue to be popular with tailored suits and dresses, the long, wide stole will be more used for evening.

The Popularity of Voile

Plain, striped, checked, dotted, and patterned voiles, in all colors and combinations, are in demand for the corded, ruffled, fluffy lingerie frock. Of course there are voiles and voiles; the true voile wears and washes well, is sheer and dainty, quite as attractive as the more expensive cottons. There is a hint here and there of the return of hand-painted muslins for blouses and dresses. Probably the stenciled hat suggested the idea, which is quaint

7133-7164
The Spanish Flounce Dress

and pretty, if not exactly practical. All sorts of clever notions might be worked out by the woman with ingenious brain and fingers, but if the material were to be purchased or ordered, the fad might prove rather expensive. Sashes and scarfs, however, will carry out the notion with voile and organdy frocks very effectively.

Flower-Trimmed Hats.

Summer would not be summer with out the flower-decked hat, but the notion rarely lasts longer than Easter, except on the large picture hat of Leghorn, crin, or hemp, which completes the June bridesmaid's costume, or the summer beauty's dainty frock.

7135-7113
Jumper Frock of Taffeta

This season, however, there is a strong indication that flowers will play more than their ordinary role in summer millinery. The medium brimmed, rather stiff tailored hat, with its upstanding bouquet of variegated blossoms, so popular some years back, is being noticed here and there; one sees, also, a number of flower turbans; flower crowns are favored with certain costumes, and wreaths are quite popular. The flower-stenciled hats are very well liked indeed. Ribbon, too, is smart for trimming, and ostrich, in the form of fringe and fancies, is a popular trimming.

The Return of Ostrich Boas.

The revival of the feather boa will be welcomed by many, as it lends soft, becoming touch to suit or gown, and in its new shades, a welcome bit of contrast. These boas, as a rule, are short, finished at the ends with tassels of chenille or silk, and close up closely about the throat.

Malines ruches, and smart little fancies of pleated or pinked ribbon, are also modish for the tailored suit or one-piece street frock. Quaint buckles are often used effectively for closing them.

The quaint little capes, pelerines, and similar fancies, of taffeta, faille, or satin, now being offered for summer wear, are other attractive additions to the summer frock; in all probability these will be quite as popular as the fur stole, or the feather boa, or even a little more favored. They are becoming, quite in keeping with the dresses of the moment, may easily be fashioned at home, and are of course much less expensive than fur. Ruffles, cordings, and conventionalized trimings, quilled, pleated, pinked or shirred, are used to finish these capes, lending still another old-fashioned touch. An organdy or voile frock will receive an added faintness in one of these taffeta capes, of a shade corresponding to or harmoniously contrasting with the dominant color of the dress.

These patterns may be obtained from your local McCall dealer or from The McCall Company, 70 Bond St., Toronto, Ont. Dept. W.

ROAD 1,400 MILES LONG.

The World's Greatest Highway is in India.

Search where you will, you will find no highway in the whole world so romantic as the Grand Trunk Road of India.

A stately avenue of three roads in one—the centre of hard metal, the roads on each side ankle-deep in silvery dust—fringed by double rows of trees, it runs for 1,400 miles through the vast northern plain which skirts the Himalayas, from Calcutta to far Peshawur, which keeps sentinel at the gate of Afghanistan.

From horizon to horizon it stretches like a broad white ribbon, as seemingly straight as if traced by a gigantic ruler. And dotted along its entire length are hundreds of serais (wayside rest houses), each with its arched and turreted gateway, its spacious enclosure—in which humans share shelter with oxen, camels and goats—and its central well of sparkling water.

For 3,000 years the Himalayas have looked down on the road and have seen it as they see it to-day. It was the world's greatest highway before Rome was cradled, when the aboriginal Indians drove their cattle over the very spot where the motor-car dashes to-day.

Alexander the Great led his Greeks along it to the conquest of Northern India; and Buddha himself took his daily walks along it centuries before Christ was cradled.

It has seen a hundred generations of men come and go; a score of dynasties rise and fall. And yet to-day, it is to the eye, exactly the same as in the long years when Nineveh was a proud city and our own ancestors gnawed bones in their caves.

DRINK EVIL REDUCED.

Astonishing Success Achieved by the Central Control Board.

The astonishing success of the Central Control Board in reducing the drink evil in England, Scotland and Wales since the board's inauguration in June, 1915, is strikingly shown in the second report made by its chairman, Lord D'Abernon.

The report shows that the efforts of the board have resulted in a reduction of the average weekly number of convictions for drunkenness in England and Wales from 2,034 in 1914 to an average of 940 for last March, the latest month for which figures are available. In Scotland the average has been reduced from 1,424 in 1914 to 794 for March.

The figures for London, where a "no treating" order went into effect on October 11, 1915, are of particular interest. The weekly average of convictions for the metropolitan district in 1914 was 1,201. This was reduced to 1,068 for the four weeks prior to October 11, and in the succeeding month dropped to 718. Reductions on a similar scale were shown in the great industrial centres of Liverpool, Birmingham and Manchester.

The board has been especially active in looking after the great army of workers who are employed in the munitions industry. To offset the evil influence of drinking places usually patronized by the workers, "industrial canteens," where substantial and well-cooked meals with light refreshments can be obtained at reasonable prices, were established. In addition the law was enforced which requires public houses to supply food as well as liquor. Lord D'Abernon reports that the canteens have proved a great success and have contributed materially to the checking of excessive drinking and the improvement of the health of the workers.

His Reason.

Moved to pity at the sight of a small boy lugging a monstrous bundle of newspapers, a man stopped and asked: "Don't all those papers make you tired?"

"Nope," the little newsie replied cheerfully. "I can't read."

Man Proposes

Joe Cannon had one outstanding peculiarity—he was an honest man. Maybe it was lack of imagination that impelled him always to tell the truth, even about his feelings in regard to war. But, whatever the cause, it made him abysmally unpopular among his fellows.

He would, for instance, admit quite frankly that he didn't want to join the army.

"Supposin' I got killed?" said he.

"But you're not married, and you ain't got anybody dependin' on you," his mates pointed out. "You're just one o' the men as wouldn't be missed much by anybody."

"I got a sort of an idea I should miss myself," said Joe, "if I was dead."

Then he was asked:

"Ain't you got any patriotism in you?"

To which he would reply:

"Of course I have. It's because I love my country so much that I don't want to leave it."

"And you call yourself an Englishman!" his interlocutor would exclaim in disgust. "Why, even them there Germans ha' got more pluck 'n you!"

"I know they have," said Joe. "That's what makes me so frightened of 'em!"

He seemed to have no sense of shame. When the girls twitted him with his cowardice, he merely smiled a slow, sad smile, and said:

"That's richt enough, my dear. But one thing I ain't afraid of."

"And what's that?" they inquired curiously.

"I ain't afraid to be afraid," said he, "like lots o' these other gasbags!"—a remark which made him more unpopular than ever.

"We'll show him!" said Sorner, already a corporal. "I've got an idea!"

Next day Joe found himself the centre of an interested, excited group.

"Heard the latest?" asked Sorner.

"Tain't out yet," said Joe.

"I mean about this Lord Derby scheme."

"No. I ain't got no time to waste reading papers."

"They're going to take all the unmarried men up to forty first."

Joe looked uneasy.

"Where d'you hear that?" he demanded.

"Headquarters," replied the corporal laconically.

Now, the trouble with honest people is that they are often too ready to take other people's honesty for granted. Not for a moment did Joe doubt Sorner's integrity.

"When do that come into force?" he asked nervously.

"In force now," answered Sorner.

Joe lit his underlip, and pondered.

"You said 'unmarried men,' didn't you?" he stammered at last.

"'Unmarried men' first," replied Sorner; "as is only richt."

"So that if I was married——"

"Yes, but you ain't," someone reminded him. "And you ain't thirty yet, not by a long chalk."

That same afternoon Joe waylaid Naomi Clark, who was admittedly the Belle of Porter's Row.

"Where you goin', Naomi?" he greeted her.

"I was going for a walk," she said; but——"

"May I——"

"But now I've met you," she added cruelly, "I'm going straight back home."

"That's all right," he said brightly. "What I got to say to you won't take long. I suppose you've never thought o' gettin' married someday?"

"Never!" said Naomi, twinkling. "What girl ever did?"

"I thought they might sometimes," said Joe. "Men do, you know. I've been thinking of it myself, this last hour or so."

"And who had you got in your mind?" asked Naomi.

"Nobody in particular," answered Joe; "but you mostly."

"Sure, I'm very much flattered, Mister Cannon!"

"Suppose you wouldn't have me?" he queried doubtfully.

"Suppose again and you'll suppose wrong," said she.

"But why not?" said he. "I got a good business. Brings me in a matter o' four or five quid a week, clear profit, one way and another. You might do worse."

Naomi regarded him with grave, considering eyes. It was true enough, as he said, that she might do worse. Joe might be a coward, but he was not altogether a fool. He had steadily increased his trade as a greengrocer until now he had virtually a monopoly of local custom. Then he was young, he was tall, and not ill-looking; he had no ties of any sort, and was, above all, both kind and good-tempered.

Indeed, he was something of a catch as the saying is. And in such neighborhoods as Porter's Row it behoves a girl to miss no chances, especially now that eligible men are so scarce. Such husbands as Joe Cannon did not fall into their laps like ripe apples every day.

"I couldn't marry a man that wasn't in khaki," she protested.

"But men in khaki often get killed," he pointed out. "And then what's to become o' their widows?"

"The Gover'ment——"

"I don't know what they pay, but I bet is ain't more'n a quid at most—and handsome, too! Still——"

"If I was to marry you—I couldn't think of such a thing, of course—but if I was to, would you join the army then, for home service, say?"

"No, I wouldn't," he answered her defiantly. "There's my business, for one thing. And then supposing the Germans did land in England? I might have to fight, and get killed."

"Oh, you are a coward!" she cried; and with that turned to leave him.

"Right you are!" he assented cheerily. "I only asked. And there's more fish in the sea 'n ever came out of it."

She tossed her head and walked away stiffly. He laughed softly to himself, and also walked away. But he walked only as far as the sweet-stuff-shop. There, behind the counter was another girl he knew.

"Quarter-pound o' your best chocolates," said Joe. She served him, and he handed the bag back to her. "For you," said he.

"Well, you must be a fool, Joe Cannon!" she cried. "Can't you understand I'm that sick of the stuff I wouldn't give you a thank-you for a shopful?"

"Give 'em to the poor, then," said he, slightly crestfallen. "I don't want 'em. What I want to is ask you a question."

"No charge for asking questions. Well?"

"I was wondering if you'd marry me," he said.

She stared and gasped.

"If you was serious——"

"I'm quite serious."

"Marry you!"

"Why not? You jest let the idea sink in a minute," said he, and once more ran through the list of his eligible qualities.

She was obviously impressed, even as Naomi Clark had been.

"If you was in khaki now——" she murmured.

"If I was in khaki now I might be dead in a week or two, and no earthly good to any girl," said he.

What else he said does not matter. It is enough that she would neither accept nor refuse him.

"I'll think it over," was her final word. "And you think over that idea of enlistin'."

"Not me!" he said; and then, as before: "But never mind. I only asked. There's more fish in the sea 'n ever came out of it."

When he had gone, her mother, who had been listening from behind the door of the shop-parlor, rated her soundly.

"Perhaps I'll have him, after all," said the girl.

"And perhaps you won't get the chance," rejoined her mother. "An' young men so scarce an' all nowadays."

Joe Cannon had other adventures that afternoon; for now that he had decided to get married he was resolved to have the matter settled, one way or another, as soon as possible.

But in every case the answer was the same. None of the girls seemed quite prepared to say "Yes" to a swain who had not donned khaki, while they were equally reluctant to say "No" to Joe Cannon, the prosperous greengrocer. Joe was in a real quandry by the end of his day's hazard courting. Half the likely damsels in the district had taken him "on approval"; yet he did not feel that he had surmounted the difficulty.

On the morrow an agitated group of khaki-clad heroes was clustered about the bar of the Windmill.

"Fine thing we been and done, I don't think," growled Sorner, "litin' old Stick-in-the-mud as he'd be made to go if he didn't go willin', him bein' a bachelor! Now none o' the girls'll look at us. All after him. That young Naomi Clark! She'd as good as promised to wait for me till after the war, and now—now she keeps puttin' me off—she will an' she won't——"

"Same wi' my girl!" a fiery-headed youth broke in. "'Sorry an' all that, Jim,' she says, 'but I've as good as promised Mister Cannon.' That skunk!" I says. 'You see, Jim, there's his business to think of,' she said, making excuses for the swab. 'Oh, it's his business you're after, not him!' I says. An' then she begins to pipe her eye, and say as how she really liked me ever so much the best, only—only——"

There was a doleful silence, during which each man drank deep and long. But the beer was not so bitter as their thoughts.

"Only one thing to do," said Sorner at last. "Tell him we was wrong about that information from headquarters. Tell him fellers as get married now the new order's out'll count as unmarried."

"Think he'll believe us?"

"Him! He'd believe anything."

"How about the girls he's proposed to, thought? Matter o' six or so, ain't there?"

"So I understand," said Sorner. "Ah, well, they must fight it out among 'emselves. And I can only hope," he added, with a broadening grin, "as Joe'll get hisself mixed up in what there little rumpus when it happens. I reckon if he does, he'll wish he'd taken on the Germans instead, after all!"

And at the cheering prospect of Joe Cannon in the thick of a feminine "scrap," the dismal faces of the conspirators quite cheered up.—London Answers.

Digestion.

According to a French scientist, digestion proceeds more swiftly when persons are recumbent than when erect because in the process of evolution the stomach has not advanced as rapidly as other organs.

E-BOAT DAMAGED TRAVELS 300 MILES

BROUGHT SAFELY TO PORT WITH A BROKEN NOSE.

Strikes Mine and Suffers Greatly, but Mechanism Prevents Explosion.

In a certain dockyard in England there is to be found a splendid tribute to the prowess of British submarines and the skill of those who man them. It is one of the finest of the British undersea boats, which, with her bow twisted and bent as the result of a collision with an enemy mine in enemy waters, covered a distance of almost three hundred miles under her own power and arrived safely in home port. Through the courtesy of the British Admiralty I was permitted to see this submarine and talk with her officers and crew, writes a London correspondent.

She is in harbor, with her bow facing torn into strips and two of her torpedo tubes crushed. Her plates are crumpled, two of her bulkheads are broken away at the bow; but in her tubes are two unexploded torpedoes. Their casing is twisted and stayed in and the mouth of the aft tube is jammed. But the quality of the high explosive in her torpedoes and the mechanism controlling it prevented an explosion, thus saving her from total destruction.

She struck the mine head-on. The collision smashed two of her bulkheads, broke all glass aboard her and sent the crew sprawling to the floor of the compartments. But her torpedoes did not explode; her engines did not stop; her lials did not fail to register. She dropped to the bottom of the sea and the water flooded in under the doors of the torpedo tubes aft. But within ten minutes after the collision she had been righted, come to the surface and turned her nose toward home.

When I looked at her lying there with her exposed tubes shining in the sunlight and her bulkheads in strips of rusty iron it seemed incredible that she had been under the coast guns of the enemy, that she could have made in her damaged condition a journey of three hundred miles, returning to a safe harbor with the information that she had been sent to obtain. And added to this was the fact that she had made the voyage in a high sea; that for twenty hours, defenceless, she evaded the enemy patrols.

I had heard stories of German submarines sunk by a single shot, so I asked one of the officers how his boat had survived the tremendous shock of a mine explosion.

Her Strength Saves Her.

"She held because of her strength," he said. "It broke her nose and it tore off two of her bulkheads. But she held. The efficiency of the pumps was not impaired. Within two minutes we had them working."

He asked me if I would not go below and see the marks of the disaster. So I followed him across a gangway and upon the narrow iron deck which already was beginning to show red patches of rust. The hatch was open. Below I could see a white compartment with brass fittings.

I do not know what I expected to find, but when I stood in this compartment I could see no traces whatsoever of the catastrophe. Directly in front of me the four rear doors of the torpedo tubes, painted a brilliant white, and to my right and left the great shining torpedoes were clamped in their racks. Only the wheel controlling the bow rudder was not true. The slender brass rod supporting it had suffered from the vibration.

This was the only mark made by the mine of the enemy. Not that it was to be estimated as minor damage, for the rudders have their part to play in the rise and dive and it was necessary to come up from the bottom of the sea. Now a simple matter with the rudders not under control.

"You see," one of the officers explained to me, "we didn't know what had happened—the water was pouring in aft and broken glass was everywhere. We didn't know how much of her was gone. We knew that every man aboard had been knocked flat on his face, that the glass off the dials was rattling about under foot. But we didn't know what was to become of us.

"It was fine, you know, to see the crew. They got on their feet and at their places before the commander had time to order them there. In two minutes the order to rise had gone through to the engine room and the pumps were going. But whether we were going to rise or not remained to be seen.

"Then they threw in the levers. We waited. That was a bad minute. Then the broken glass began to rattle around under foot again. We were moving. We weren't long in getting up. At any time there's nothing like coming up into the air and sunlight after you've been under for a bit. But this was different. Yes, this was a bit different. So we started looking her over, for the damage."

Thought Only of His Ship.

This was how he told me the story of the black interval when these officers and the men of the crew waited, submerged, at some 200 feet below water level, not knowing whether or not their bulkheads were destroyed, whether their instruments were irreparably damaged, whether or not they would ever come up again into the sunlight. It was his ship that he seemed to think of above all other things.

"We found out what we'd come into," he said. "Then it was whether we could make a port alone. The wireless was working. That is, we could send; we couldn't receive. We took a look at the bow facing at the bulkheads. They looked pretty bad, hanging loose in strips. But we decided we could make it. The engines were right, and there wasn't a broken dial aboard her. The periscope was true. It was only her nose and her rudder that were gone.

"So we started back. If we picked up anybody on the wireless we knew that they had work of their own to do. So we drove along under our own power. It was a bit of bad sea, but we made it. The waves broke over the bridge and pounded the one bulkhead we had left forward.

"And so," he said and smiled, "we came home."

GERMAN FAIRY TALES.

Amazing Stories Have Been Told to the Mohammedans.

Bishop Stileman, at a meeting at Church House in London, said our enemies had circulated many falsehoods among Mohammedans. The first was that Germany was now a great power which sought above everything else to bring Islam up to the position of supremacy which to some extent it occupied 1,000 years ago. The Kaiser was called Hajji Mahamet Guilliame, and it was said that he lay three days and three nights before the Khaba Shrine, and at the end a great voice came to him distinctly as the envoy of Allah the Saviour of Islam and the Sword of the Lord saying "Arise and fight."

Another more dangerous falsehood was that we British had one object in waging this war, and that was that we had the bones of all the Pharaohs in the British Museum, and that we should never be satisfied until we captured the Sacred Cities of Mecca and Medina and rifled the Prophet's tomb.

The third was that the whole brood of Hohenzollerns were descended from the sister of Mahomet and therefore those who revere the name of their Prophet were found to rally round the Central Powers.

The Persian papers circulated the story that a giant German aeroplane equipped with a huge magnet had visited Petrograd, Paris and London and that the huge magnet had succeeded in drawing up the Czar, French president, and King George, and they are now all prisoners in Berlin. Many of our British consular and Russian officials had been murdered at the instigation of the Germans.

Poor Man—"I've never been able to save anything." Millionaire—"Then you've saved yourself a lot of worry."

ALL'S WELL IN SALONIKI.

The cable reports that Greece has now got quite friendly with the allies is emphasized by the above picture, showing General Sausail. French commander at Saloniki, inspecting troops with Madame Skolvadis, wife of the Greek commander at the same place.

JOFFRE'S APPETITE.

Commander-of French Forces is Fond of Cabbage.

The chef of a famous Paris restaurant has become cook to Gen Joffre at his headquarters. It was an accident that brought him in touch with the famous General. He was mobilized in the ordinary way, and when the War Minister gave instructions that as far as possible men were to be employed in situations similar to those they had occupied in civilian life the chef became a cook again.

Unfortunately he is not satisfied with his distinguished master's palate. Hhe says the General prefers beef that has been boiled in the soup to the finest culinary efforts in the way of filets of sole cooked with a wine sauce. He is also extremely fond of cabbage, but at every meal he insists on having a salad, which he eats with hard boiled eggs and flavors copiously with an English sauce.

One day M. Clemenceau came to lunch with Gen. Joffre, and to the dismay of the chef brought his own lunch with him. He handed the cook a box of marcaroni, which he instructed him to boil in water "not salted too much." Then he took two bananas from a paper bag and said they were to be put on the table. Joffre and Clemenceau drank mineral water with their lunch, but the ex-Prime Minister had to forego his dessert, for the General ate one of the bananas with such relish that he promptly offered him the other, which was accepted.

Gen. Foch, who sometimes goes to lunch with his chief, always asks for a tablet of chocolate and two "croissants," the little horseshoe rolls so beloved by Parisians, which they have not been able to obtain since the war.

President Poincare's present chef has often cooked meals for the Kaiser, as he used to be chef to M. Jules Cambon, the last French Ambassador at Berlin. It was this artist—for the Kaiser has referred to him as an artist—who cooked the lunch for eighty persons when the allied delegates were recently the guests of the President at the Elysee.

FIGHTING TO FREE EARTH.

Teuton Challenge Accepted to Uphold British Ideals.

The London Times publishes the following by Rudyard Kipling:

When Germany challenged us, nearly two years ago, to uphold with our lives the ideals by which we professed to live, we accepted the challenge, not out of madness, nor for glory or gain, but to make good those professions.

Since then the allies and our Empire have fought that they and all the earth may be free from the intolerable domination of German ideals.

We did not see or foresee the size of the task when it opened; we do not flinch from it now. Long months have schooled us to the full knowledge and have tempered us nationally and individually to meet it.

The nations within the Empire have created, maintained and reinforced from their best the greatest armies, which they devote without question to this issue. They have emerged, one by one, as powers clothed with power through discipline and sacrifice. Strong for good by their bitter knowledge of the evil they are meeting, and wise in the unpurchasable wisdom of actual achievement.

Knowing, as nations, what we fight for; realizing, as men and women, the resolve that has been added to us by what each has endured, we go forward under the proud banner of our griefs and losses to greater effort, greater endurance and if need be, to heavier sacrifices as equal sponsors for the deliverance of mankind.

Live and Let Live.

"We eat entirely too much." You know one-third of what we eat enables us to live."

"Well, if that's the case, what becomes of the other two-thirds?"

"Oh, they enable the doctor to live."

NOT MADE IN GERMANY.

The Teutons Are Not as Clever as They Profess.

Germany has all the geniuses on her books, according to her own opinion. If it were not for Shakespeare, who was probably a naturalized German, we should have nobody to brag about.

Well, let us see. There is Shakespeare's friend, for instance, the greatest of the world's philosophers, who laid the foundation of all modern science.

Then what about Sir Isaac Newton? He was the man who, from seeing an apple fall, deduced the universal law of gravitation, who found the invisible wires on which the universe is hung, and who probably was the greatest mathematician who ever lived, and certainly the greatest of all natural philosophers.

Then there's Milton. Germany has no rival either for Shakespeare or Milton. They are above all Hunnish standards.

Who is the maker of modern electrical science? A German? No; a simple Englishman who rose from the ranks, Michael Faraday. He found electricity a toy; he left it the coming force of the world.

And steam? Was Stephenson, who has covered the globe with ribs of steel rails, a German?

Moreover, just as Newton established the universal law which unifies the universe, so Darwin established the law which binds all living things, the great law of evolution. And though these are the great epoch-making men there are ten thousand others who make the name of Briton one to conjure with.

Yes, and we talk about German efficiency. We say, "Look at the perfection of the organization of her army." Well, look at the perfection of the organization of our Navy. We have specialized on the ocean, while she has done the same on land.

But Germany has still to produce a Nelson.—London Answers.

"CHILD POVERTY."

Low Percentage of Children in German Officials' Families.

As one means of bringing about much-needed reforms in conditions prevailing among petty office-holders and officials in Germany—those who hold such positions as postal and telegraph employes—the "Union of German Officials Associations" is calling especial attention in these days to the extraordinary "child poverty" in German officialdom.

This poverty, which is particularly to be deplored at the present time, is largely due, it is declared, to the long probation periods now necessary, which make it all but impossible for officials to marry until they are in their late twenties or even 30 years old. In consequence, officials have, and have had for years, smaller families than almost any other branch of employes in Germany.

The union referred to cites as especially significant the latest available statistics regarding postal employes in the empire. In their ranks, it is found, the lower officials have an average of 2.4 children per family; the middle officials but 1.8 children and the higher officials only 1.7. The figures become more striking when compared with the average for all marriages in Germany—on which an average are blessed with 3.6 children.

The tendency of the war is to increase rather than to diminish the number of petty officials in Germany, for it is the ambition of a great number of wounded men—unfitted for their old occupations—to settle down in some little position which gives him the prestige of a little title and the right to call himself a "Beamter." The fuller the ranks get, the greater, of course, is the tendency for salaries to drop.

Wouldn't Stand for It.

In Cleveland they tell a story of a boy who left school to work for a small manufacturer. The boy was dull, and his stupidity annoyed his employer greatly. So, after a week's trial, he was discharged.

"Get your pay," said the manufacturer to him on Saturday, "and let that be the last of you. You're discharged."

It was therefore, with great surprise that the manufacturer saw the boy at work in his former place on Monday morning.

"What are you doing in this shop?" demanded the manufacturer angrily. "I discharged you Saturday!"

"Yes, said the boy, "and don't you do it again. When I told my mother she licked me."

How many, many homes there are from which gaiety has been banished, not by sorrow but by grievances and complaints!

ELORA ROAD NORTH

Mr Frank Pearce, took a trip to Southampton, last week.

Miss Eunice Clements, of Dobbinton, spent a few days with her friend, Mrs John Bryce.

Mrs John S Campbell is suffering from an attack of pneumonia.

Mr and Mrs Harry Lyon spent Sunday at Mr John Brown's.

Mrs Thornburn, sr, hasbeen visiting at Mr John McDougall's.

Miss Dolly McLean, of Burgoyne, spent a few days with her sister, Mrs John Walker.

Mr Dave Bryce has sold his black team.

Children Cry
FOR FLETCHER'S
CASTORIA

GLAMIS

Mr Maber left for Ottawa on Saturday, where he will spend some time with his parents.

Miss Jennie McKeeman is visiting friends in Toronto.

Mr Gregg, of Pinkerton, has the contract of painting the Presbyterian manse.

Dr Farmer, of McMaster University, occupied the pulpit of the Baptist church on Sunday, and gave two very eloquent sermons, also a very able and instructive lecture on Monday night, his subject being "Fundamentals in the Light of the War."

Miss Flossie McLennan spent the week end with friends in Elmwood.

Miss Alberta Kirktown Sundayed at her home here.

We are pleased to see Mr Kenneth McLennan and Mrs Jas McLennan out after being confined to the house for some time.

Quite a number from Tiverton and North Bruce took in the Baptist anniversary services on Sunday.

Nearly every one in this locality will be interested in hearing of the business success of a former citizen, Mr Neil McIntyre, in the west. Mr McIntyre is president and manager of the Capital City Box Co, of Edmonton. The business wascommenced in July, 1912, with a building 50 x 100 feet. Now the floor space covers 9,273 feet. About 40 hands are employed. The output includes egg, butter and fish boxes. Last year 2½ million feet of lumber was used up. In one month alone 13,000 egg cases were manufactured, and perhaps 300,000 cases of all kinds turned out.

PINKERTON

A very interesting illustrated lecture was given in the Anglican church here on Tuesday evening by a native of Japan, under the auspices of the Bible Society.

Rev Mr Crozier, of Guelph, will occupy the Presbyterian pulpit here for the next two Sundays.

Rev Mr Gale left on Monday for Winnipeg where he will attend the General Assembly and later spend his holidays. He was accompanied by Mrs Gale.

Mrs (Rev) Walker, of Owen Sound, is visiting friends in the village.

Mrs Pitcher and daughter, Mrs P Milne, of Toronto, spent a few days at Mr Adam Reid's.

A number from here attended the celebration in Chesley on Saturday.

The Foresters will attend divine service at the Anglican church here on the afternoon of June 25th at 2 30 o'clock. Members from other lodges are invited to attend this service.

SECOND CON ELDERSLIE

Mr John Bell and Miss Flora Bell of Bruce Tp, visited their sister, Mrs D Allen, last week.

Wm Ward, of Owen Sound, was calling on friends here last Saturday.

Mr and Mrs D Jefkins, of Arran Tp, visited friends on this con on Sunday.

Arthur Lillico, law student, of Toronto, is spending vacation under the parental roof.

Mr and Mrs J McCulloch and Mrs A McCulloch, of Saugeen, were calling on friends here last Saturday.

A large number from here attended all the Bruce Batt demonstrations on Friday and Saturday, also the services in the park and various churches on Sunday. The ladies of the community did a noble part in the entertainment of the soldiers by way of providing extras such as pie, cake and pickles, which the boys all seemed to enjoy.

Mrs Calley and little daughter Jessie, of Blanchard, N D, have spent the last month visiting Mrs Calley's mother, Mrs Tully, and were calling on friends on this con last week.

WILLOW CREEK

Mrs Hunter is able to be home again after being in Kincardine hospital for a short time.

Married—At the Evangelical parsonage, Port Elgin, on June 6th, by Rev , Mr Alvin H Schnittker, to Miss Maud Giesz, both of 4th con Bruce.

As Mr and Mrs W Gottschalk and family were driving home from Kincardine on Friday, their horse was frightened by the act of two bicyclists who rode up from behind, one taking each side and ringing their bells as they passed. The horse broke away from the buggy and ran several miles before being caught. None of the occupants of the rig were hurt, but the harness was badly damaged. The boys responsible for the trouble wheeled by unknown. They should be punished for such a fool trick.

PRESENTATION TO SOLDIERS

On Wednesday evening last the many friends and neighbors of Pte Lorne Reid and Pte Wm Bell gathered at the home of Mr and Mrs Jas Keyes, 16th Greenock (the latter being a sister of Pte Reid), and presented the soldiers with small tokens before leaving for the training camp at London.

Mr Beaton Wells (who himself desired to enlist and was rejected only because of being over age) filled the position of chairman. The following address was read by Miss Nellie Reid, and the presentation of a wrist-watch, ring and purse to each was made by Miss Mary Needham and Miss Mary Dalgarno:

Dear Friends—To assure you of our interest in you and in the great cause which you have pledged yourselves to champion, we, your friends and neighbors, thought it our duty to meet here to spend a social evening together before you departed from us to defend our Empire. We deeply regret losing you, yet we feel proud in having you represent us in our great Dominion army. We feel we cannot let you depart without some token of remembrance, and ask you to accept these gifts, not for their value, but to show our appreciation of your manly and noble act. May God spare you to return to us safe and well, and we assure you a hearty welcome will await you. Signed on behalf of your friends and neighbors,

Robt. Hetzler,
Beaton Wells.

Pte Reid and Pte Bell made very suitable replies thanking the many friends for the kindness shown towards them, as I that they felt that it was their duty to serve their King and country. The rest of the evening was spent in the enjoyment of music and dancing.

ARRAN COUNCIL

Council met at town hall, Saturday, May 27th, as a Court of Revision. The following parties appealed against their assessments on the ground that they were assessed too high: Thos Wiley, Thos Hills, George White, Sam Aitchison, Harry Gulliher and Hugh King. Wiley's was reduced $300, Aitchison's $200. Hills' and White's were sustained. Gulliher and King did not appear. The increase in the assessment for this year is $7000. The roll was then adopted and council opened for general business.

Messrs S Miller and J M Coleman asked for a grant on the road between the 4th con and Arranvale. $40 was granted.

Wilson Nelson and W J White asked for a grant on 15 sr. Councillor Johnston was appointed to look after the matter.

Rev Ockley, of Arkwright, addressed the council in regard to doing something for those who had enlisted from Arran. As each of those who had enlisted had been presented with a token of appreciation of the noble and self-sacrificing stand which they have taken, and as they had now left these parts the matter was deferred until something practical and tangible might be done for their comfort.

F H King and Neil McDougald appeared in the interest of the Agricultural Society. The usual grant was made. $75. Mr McDougald also asked that a small grant be made to help to defray expenses of the representative to the meetings of the Agricultural Board of West Bruce. $10 was granted.

The committee appointed to examine the road at Brunton's bridge reported in favor of no action at present on account of cost.

The committee appointed to examine Nicholson's bridge reported that the bridge required building at once. The reeve and councillors Scarrow and Morrow were appointed a committee to have a new structure erected.

Each member of the council was instructed to use the gender for three days if required.

Treasurer's statement showed a balance of $1,351 to the credit of the township.

$10 each was granted to Allenford and Sang'a Patriotic Associations.

Assessor's salary, $85, and a few other small orders were passed and council adjourned until June 17th next.

H T Potts, Clerk

SAUGEEN COUNCIL

The Saugeen council met as a Court of Revision on May 27th. Members all present.

J W Reany appealed against increase in his assessment. The assessor's valuation was sustained. A number of changes were necessary owing to property changing hands since assessed. The following names were added and the Court of Revision closed: Robt Fisher, Garfield Kuglar, Wm Cooper, Duncan McKinnon, Geo Guyer, Emery Wismer, Geo Leggett, Jas McGillivray, Mrs Henry Diet, Thos Rushton, James Burns, Joseph Burns, John Clasie, Wm Mitchelmore, Wm Clark, Emery Reinhart, Herbert Fenton, Robt Gowanlock.

General business was then taken up.

A deputation from blind line road asked for grant to help repair road and offered considerable labor grats.

Webster—Atkinson—That 50 yds gravel at 65c and a culvert at $5 be granted to road div No 23, to be applied on div No 24 under supervision of Jas T Wallace.—Carried.

Mr W A Mitchell presented plan of subdivision of lot 32, lake range. On motion of Webster and Chappell the council authorized the reeve and clerk to sign the plan.

The following accounts were ordered paid: Wm Karcher, 2-3 value of two sheep worried by dogs, $16 65; Jas Clasie, salary as assessor, $75, postage $1; R Roy Sayles, printing account, $7 30; John Wallace, road allowance, $3; council meeting No 4, $12 45.

Offers to operate the grader were received from Wm Gowanlock at 40c per hour for man and team, and from Robt Telfer at 30c. On motion of Greathead and Chappell the tender of Wm Gowanlock was accepted.

Atkinson—Greathead—That the weeds on the highways in the township be cut under the supervision of the pathmaster when performing statute labor, and later all necessary cutting of weeds on highways to be paid for out of the funds of the municipality.—Carried.

Chappell—Webster—That Allan McKinnon be appointed pathmaster in div No 12.—Carried.

Atkinson—Chappell—That the clerk write to Mr Wm Tetham and order him to move fence he is building along the lake shore back to its proper place.—Carried.

Council adjourned to meet at the call of the reeve.

P W Elliott, Clerk

The Most Popular Overland

There is already an enormous demand for this big four cylinder Overland.

With certain improvements, it is the same car of which 55,000 Overlands were sold last season for $1050.

The price is $85 less.

Standardization of product and the purchase of raw materials at before-the-war prices, made this reduction in price possible.

It will not be lower, for materials are rising in price.

So order your Overland now, to make sure of getting it.

Enbloc 35 horsepower motor
Electric starting and lighting system
Electric control buttons on steering column
Four inch tires
Demountable rims, with one extra
106-inch wheelbase
Deep divan upholstery
One man top; top cover

Increase Not Sudden

To buyers of weekly newspapers the increase in price from $1.00 to $1.50 per year seems sudden and sharp. It is adding a half of the old price, as eggs should go from 20c to 30c, or wheat from $1.00 to $1.50 per bushel at one bound. But if facts are taken into account the cases are not similar. Forty years ago, when eggs ranged in price from 8c to 12c dressed hogs from 3½c to 5½c per lb., and good cows could be bought for $35, and calves now worth ten to fifteen dollars could be had for the taking. The weekly newspaper was $1.00 per year. Had it kept pace with other commodities it would have been up to $1.50 long ago; but it would be quite impracticable to advance at the rate of five or ten cents per year. As compared with living expenses and cost of production a weekly paper is cheaper to-day at $1.50 than it was 25 years ago at $1.00

ADVERTISING RATES

Subscription Price—$1.50 per annum in advance. To United States subscribers $2.00 per year in advance.

Advertising Rates—Legal and other casual advertisements 10c per nonpariel line for first insertion, 4c per line for each subsequent insertion.

—We now have in use in our dairy a Champion Cooler, with which we cool all milk to 40 degrees before bottling. This kills all animal heat quickly and aerates all milk thus improving the flavor and keeping quantities. We deliver twice a day during the summer. J. Milne, Paisley Dairy.

Death of Miss Thompson

It is our sad duty to chronicle the death of Miss Mary Thompson, which occurred after a short illness at her home on Ross St on June 6th. She was a faithful member of the Methodist church, also an active member of the P. L. C. E, holding several offices in the League and had been connected with it since its organization, being one of the charter members. In Sunday School she was ever active and loved the work, having been a faithful teacher for several years. Of a bright and kindly disposition, she was loved by all who knew her. She will be greatly missed in the home, where there is the vacant chair. Surrounded by her brothers and sisters, everything that loving hands could do was done to prolong her life, but she peacefully passed to her heavenly home. The funeral service on Friday was conducted in the church by R. A. Facey, pastor. A touching tribute was paid to the deceased by the members of her S. S. class, who each dropped a flower on the casket as they took a last look at their late teacher.

—Dr Fred Ballachey is over from Buffalo visiting under the parental roof.

—Pte. John McArthur, of the 147th, is home from Niagara camp for a few days.

—Mrs. Linton, of Toronto, is visiting her sister, Mrs. (Rev.) Little, at the manse.

—Mrs Glynn Thomas, of Galt, whose husband is overseas, is visiting her sister, Mrs J. A. Heath.

—Mrs. Furey and Mrs. Hess, of Buffalo, were guests of Mrs. D. McKenzie for a couple of days last week.

—Mr. and Mrs. L. W. Trumbley and little son, of Detroit, are visiting at the home of her aunt, Mrs. Jas. Beaton.

—Banker Moir and family have moved out of their "Wall St." apartments for the summer and are occupying the home of Mrs. McInnes, Goldie St.

—Mrs. Hungerford and little daughter, of Victoria, are visiting friends in Paisley and vicinity. Mrs. Hungerford is a daughter of the late R. B. E. Hay.

—The Baptist Association of Owen Sound district is meeting in the church here this week. The public invited to attend the sessions to-day and to-morrow.

—Mr. and Mrs. J. H. Kepler, Miss Hazel Kepler, Mr. and Mrs. H. Moffat and little daughter, of Owen Sound, motored over and spent Sunday with Paisley friends.

—Mr. Wilmer G. Scott, of Vancouver, has been east on an extended business visit, and came up on Friday to spend a few days in Paisley, renewing acquaintances with his old friends.

—Mrs. W. Tully, of Chesley, was calling on Paisley friends on Friday, accompanied by four of her daughters. Miss Etta remained in town for a few days, the guest of Miss McLaren at the Post Office.

—The regular meeting of the Patriotic League will be held in Putnam's hall on Friday, June 16th, at 3 o'clock. Would like all finished work left at the Library by Saturday, 17th inst. for packing on 20 inst.

—Spr. John A. Neilson, of the Divisional Signal Corps training at Ottawa, and Miss Neilson, of Winchester, were here visiting their parents over the week end. The former goes with the next draft of signallers for overseas, who expect to leave shortly.

Soldiers Promoted

Several promotions have been made in "A" Company of the 164th. Batt. viz:—Corp. McCaw to be sergeant, Corp Walker to be sergeant, Corp. McCarter to be lance-sergeant, Corp. Dias to be lance-sergeant, Pte Swanston to be lance-corp., Pte's Howe, J. Henderson, E. G. Davis, Eagles, Woodcock, Wendt to be lance-corporals.

Women's Institute Meetings

The annual summer series of Women's Institute meetings will be held at: Nurse—in Mrs Wm Alexander's home, on June 23th; Paisley—Putnam's hall, June 30th; Williscroft—Baptist church, June 30th. The speaker assigned to address these meetings is Miss I. Job, of Freeman. All ladies are cordially invited to attend these interesting meetings.

Among the Casualties

Melville Hunt, son of Mr. A. E. Hunt, late of Paisley and now in Listowel, enlisted in a western battalion, and his name appeared among the list of wounded last week, also Dr. John A. Reid, son of Mr. and Mrs. Adam Reid, of Pinkerton, who was on the medical corps that went from the west. Asst. Culham, who enlisted and went with the 34th, was also reported wounded, but we have not heard of it being verified.

Women's Institute

Miss H. T. Job will address a Women's Institute meeting in Putnam's hall, Thursday, June 29th, at 2.30. Miss Job has had much experience in public and high school teaching and is a graduate of McDonald Institute, Guelph, and instructor in the University of Alberta. Miss Job will be glad to meet a large number of the patriotic workers of this vicinity, therefore a cordial invitation is extended to all women to hear her. Musical selections will be rendered. Topics—"The Charm of Personality," "Economy in War Time."

Protecting the Birds

An Order-in-Council for Ontario has passed prohibiting the hunting, taking or killing of quail, Hungarian partridge and pheasants of any kind for a period of two years from October 15th, 1916. At the request of the council of the county of Elgin, the hunting, taking or killing of black or grey squirrels will be prohibited for a period of three years from 31st October, 1917, in the county mentioned. A similar order applies to the county of Wentworth, at the request of the county council.

The Vanophone

$12.00

The same machine as previously advertised at $15.00.

A phonograph that will hold its own against any, yet at a price that no home can afford to be without it. Its beauty of tone and clearness of reproduction are marvellous.

Jack McLeod Going to the Front Again

"I have fully recovered from my wounds, and am now ready for the big noise again," says Jack McLeod, of Calgary, in a personal letter to THE ADVOCATE editor. He has been given a commission as lieutenant in the machine gun section of the 211th American Legion, and is getting together a fine crew, some of them being Paisley, Clanis and Kincardine old boys. Among them are Wallace Leask, son of Mr. and Mrs. Alex Leask, who has grown to be a man as big as his father, also Stewart Fletcher, a grandson of Mrs. Fletcher, Inkerman St., who attended school in Paisley. Lieut. McLeod writes: "I must say I am proud of all the Paisley boys who have taken their stand for what is right, and I sincerely wish them a safe return. To day (June 6th) brings us the darkest news since the war began, but surely it will help some people to realize the seriousness of the struggle and open their eyes to the fact that the Germans have no thought of giving in. Every man who can shoulder a gun is going to be needed before the war is over, and it is to be hoped that the men will realize this throughout Canada and willingly volunteer instead of hanging back until cruel conscription drags them forth." It will be remembered that Lieut. McLeod, who is now 23 years of age, served four months with the glorious Princess Pats before being knocked out and left for dead at Ypres, when fragments of shell got him in the leg and a bullet struck him in the thigh. He was invalided home last November. Remembering all he has gone through, he is not exactly anxious to return, but as he says, "Things are looking pretty dark over there these days, and as I feel perfectly fit again, there is no reason why I should stay at home."

From Sergt. Andy Babcock

Pte. Thos. Babcock was instantly killed by shrapnel, which struck him in the head. This is the news sent by Sergt. And. Babcock in a letter dated Belgium, May 24th. The day after the fatality occurred Sergt. Babcock had left the front to take a special course of training, and did not hear the sad news until his arrival back three weeks later, and it was a great shock to him. "Poor Tom had been sent back to the battalion just before the 1st went back to the trenches. He was a good brave little fellow, and a brother to be proud of, as he did his duty without a murmur. I got this from the boys of his company, also from the trench mortar battery. He was also very popular with the men in both the battery and the 1st Battalion. I went to the 1st Battalion headquarters to find out where he is buried, and have got the map location of same, so I will be able to find it any time, providing, of course, that the Germans don't make an advance over that part of the ground and destroy the crosses, but I think that is very unlikely to happen. Poor fellow is buried in the same grave with 28 of his comrades, and I know that he would rather die for the good old Union Jack than for any other cause. Although we will miss him very much, yet we have the satisfaction of knowing that he has done his duty as a man and a Canadian."

WHEN SOLDIERS ARE COURT-MARTIALLED

HOW THE TRANSGRESSOR IS TRIED IN BRITISH ARMY.

Just What Happens When Tommy Has to Face Military Court.

To everybody the term "court-martial" is familiar, especially in these times when Britain's Army has grown to proportions hitherto undreamed of. Although the term is familiar enough, few people, I fancy, really know how a court-martial is held, says a writer in London Answers.

In the first place, it should be pointed out that a soldier has always the right to elect to be tried by District Court-Martial before sentence is passed on him by his commanding officer within the powers vested in that officer

Of Varying Degrees.

Courts-Martial are of four degrees:

1. General Court-Martial, composed of nine members in the United Kingdom, India, Malta, and Gibraltar, or five elsewhere, a field officer—i.e., an officer not below the rank of major—being appointed as president. All members of the court must have held commissioned rank for not less than three years. This court, which is convened by his Majesty or the general officer commanding, by warrant, has power to sentence a prisoner to death or any lesser punishment.

2. District Court-Martial is convened by the general officer commanding, or an officer holding a warrant for the purpose. Such a court has the power to discharge a man from the Service, or sentence him up to two years hard labor, and to reduce a non-commissioned officer.

It is composed of three members with not less than two years' commissioned service, under the presidency of a captain, if a field officer is not available.

3. A Regimental Court-Martial, convened by the general officer commanding or the commanding officer of the unit to which the accused belongs. Has power to sentence him up to forty-two days' detention.

On Active Service.

It consists of three officers, with a captain or president, all having held his Majesty's commission for one year or more.

4. A Field General Court-Martial is designed to meet the exigencies of active service. It has the same powers as a General Court-Martial. Any three officers may compose the court, or, if three are not available, two may serve. Such a court may be convened by a commanding officer detached on service, if no superior authority is available.

Let us assume that a private soldier has struck a superior officer—say, his company sergeant-major.

The accused is brought up in orderly-room before his commanding officer, who hears his evidence. As this officer has not power to deal with the case himself, he commits the man for trial by court-martial.

The prisoner and all the witnesses are next paraded before the adjutant, in order that he may prepare what is known as "The summary of evidence." The charge and each piece of evidence and cross-examination by the prisoner, after it has been taken in the adjutant's own handwriting, is read over to the accused and signed by him and by the witnesses.

"The Prisoner's Friend."

At the conclusion of the evidence the prisoner it at liberty to make a statement, which is also taken down and signed.

The charge is drawn up by the adjutant as follows:

"Sec. 8 (1) Army Act.—The accused, No.——, Private ——, —— Battalion, —— Regiment, a soldier of the Regular Forces, is charged with striking his superior officer, being in the execution of his office."

This charge-sheet, the summary of evidence, and all necessary papers are then forwarded, with a request that a court-martial may be convened. The accused is given a copy of the evidence, in order that he may prepare his defence, and he may, if he wishes, have an officer appointed to defend him. The officer is styled, "The prisoner's friend."

A court is appointed by the general officer commanding the division, and assembles on the date fixed.

Directly the court assembles the order convening it is read, and the charge-sheet and the summary of evidence laid before the court, who satisfy themselves that the proper officers are present and eligible to serve, that the accused os amenable to military law, and that the charge, as formulated, discloses an offence under the Army Act.

Next, the prosecutor—who is the adjutant—and the "prisoner's friend" are called in, and take their places. Then the accused is brought in under escort, the names of the president and members of the court are read out to him, and he is asked if he objects to be tried by them.

The accused is then arraigned on the charge and asked if he pleads "Guilty" or "Not Guilty." If he pleads "Guilty," the president warns him that no evidence can be taken, and that his plea must be recorded as the finding of the court.

If the plea is "Not Guilty," the prosecutor now addresses the court and proceeds to call witnesses, who may be cross-examined by the prisoner or the "prisoner's friend." When the witnesses for the prosecution have been heard, the accused is asked if he wishes to give evidence himself or to call witnesses, and he is allowed to do so.

If He Pleads "Not Guilty."

The accused is always asked if he has anything to say in his defence. If he has pleaded "Guilty," he is allowed to make a statement in mitigation of punishment and to call witnesses as to character.

If the plea has been "Not Guilty," the court is closed to consider its finding after hearing the evidence and the addresses of the prosecutor and the "prisoner's friend." Then the court is re-opened and the finding made known.

In the event of conviction, before sentence, the court is re-opened the accused brought in. The prosecutor is asked if he has any evidence as to character or particulars of service to produce. The particulars are read and the prosecutor asked if the accused is the person named therein. He must also satisfy the court that he has compared the details with the regimental books, and that the entries on the accused's conduct-sheets are a true summary of such entries in these books.

On these matters the prosecutor may be cross-examined by the accused, who also has the right to make a statement.

The court is now closed to consider the sentence.

Carrying Out the Verdict.

Next, the papers are forwarded to Divisional Headquarters for confirmation of the sentence by the general officer commanding, and are then sent back to the officer commanding the unit to which the accused belongs for promulgation of the sentence, which is quite a ceremony in itself.

The battalion is paraded and the prisoner marched—between a guard with fixed bayonets—before his comrades, who are called to attention while the sentence is read out by the colonel or the adjutant, after which the prisoner is marched away to his punishment.

If the offender is a non-commissioned officer who is to be reduced, his stripes are cut off by the regimental sergeant-major and the next senior non-commissioned officer.

FISH YIELD LEATHER.

Valuable Product From Sturgeon Found in Great Lakes.

It is a curious fact that many sorts of leather are got from sea creatures, some of which are very beautiful. The skin of sharks is a beautiful burnished grey or bluish color. The surface resembles finely grained leather, since it shows many tiny prickles all set one way. They are quite invisible to the naked eye, but there are so many of them and they are so finely set that one distinctly feels the roughness of the surface if he rubs his hand over the skin in the direction opposite to that in which the prickles point.

This property of shark skin renders it especially valuable to the manufacturer of shagreen. Since the skin is at once tough and easy to work it can be used for many purposes where decorative effects are desired.
